Investor Presentation Q2FY25

E2E Networks

NSE Listed, AI-First Cloud GPU Platform

EXECUTIVE SUMMARY

Delhi, India
e2enetworks.com

E2E Networks is an NSE-Listed **AI-focused hyperscale cloud platform**, offering Advanced Cloud GPUs and a comprehensive ecosystem of cloud technologies designed for the development and deployment of AI/ML/GenAI workloads on largescale compute clusters. E2E Cloud continues to enjoy the first mover advantage being the first Indian public cloud platform to launch H100s from Nov 2023 onwards. E2E Cloud entered the Cloud GPU market in India starting from Sept 2018 deploying its first V100 GPU.

The company's mission is to provide **scalable, accessible and affordable** AI/ML/GenAI Cloud Platform needed by developers, data scientists, AI/ML/GenAI engineering teams, startups, enterprises, higher education and government bodies.

MeitY EMPANELED

OUR JOURNEY

to becoming the first major India-born Public Cloud focusing on Advanced AI/ML/GenAI Compute Workloads.

2009 - Inception

Inception of the company - E2E Networks Private Limited

2011-2014 - Seed Funding

Raised Seed from Blume Ventures and others.

2017 – Self Service Cloud Platform

Self-Service Cloud Platform.

2018 - NSE Emerge

IPO Listing on NSE Emerge, oversubscribed 70x, V100 GPU on E2E Cloud launched in September 2018

2019 - Pioneered Advanced Cloud GPUs in India

Launched advanced cloud GPUs in the Indian market.

2022 - NSE Main Board

Listed on main board of NSE.

2023 - Cloud GPUs and AI / ML Platform

Launched TIR – the advanced AI/ML platform. Started latest gen Cloud GPU deployments for H100, L40s, L4 in Oct-Dec 2023 quarter.

2024 – Continued

Snapshot of our Journey in 2024

~700

Tarun Dua

Managing Director

He holds a degree of Bachelor of Technology (Computer Engineering) from REC Kurukshetra. He has experience of more than 23 years in the field of Open source, Linux, virtualization, WebScale, Networks Operations and Cloud Computing Domain. He has been the director of the Company since Incorporation. Responsible for the culture and direction of the company.

Srishti Baweja

COO & Whole-Time Director

She holds degree in B. Com (H) from prestigious S.R.C.C, Delhi University, and completed Chartered Accountancy in November 2004. She has 18 years of experience in the field of finance, compliance, and accounting. She has helped to establish the finance function as a CFO through the early stage of the growth phase of the company. She is responsible for overall operations and management of the company along with Tarun Dua.

LEADERSHIP TEAM

Mohammed Imran
Chief Technology Officer

Extensive experience in cloud computing, networking, and open source software. Avid user and supporter of FOSS. Leads technology team to build innovative and reliable products using open source tech.

Megha Raheja
Chief Financial Officer

Megha is a Chartered Accountant with over 21 years of experience in IT/ITES and telecom industry. She has diverse experience in Financial Accounting & Reporting, Taxation, Treasury & Banking, Budgeting, Mergers & Acquisitions.

Kesava Reddy
Chief Revenue Officer

21+ years of experience in B2B sales and heads sales at E2E Networks. Worked for half a dozen startups on enterprise sales, building sales processes and growing high-performing sales teams.

Ronit Gaba
Company Secretary

With over 6 years of experience, Ronit is a proficient Company Secretary, expert in corporate governance and compliance. His background includes strategic advisory and regulatory compliance in the sugar industry, with education from Delhi University and the Institute of Company Secretaries of India.

Independent Directors

Aditya Bhushan
Independent Director

He is a seasoned professional with skills in creating business value for customers by designing solutions, transferring these into processes, embedding technology into processes thereby making them into consistent delivery platforms. He has done MBA from Faculty of Management Studies, Delhi University and is a Bachelors in Business Studies, Delhi University.

Varun Pratap Rajda
Independent Director

He is a Chartered Accountant working as a founding partner of Constellation Blu, with more than 12 years of experience. Varun leads team on restructuring and cross-border set-up (US and Singapore), Transaction Services, Financial retainers, MIS, and Financial Planning and Analysis. Works with founders on bringing finance prudence and controls.

Gaurav Munjal
Independent Director

Graduated from IIT Bombay and has professional experience of almost 15 years. He is the Managing Director of Infollion Research (recently listed on NSE-Emerge) which is the one of the largest and most comprehensive network of subject matter experts in the world. He has been working at the junction of technology and HR in the on-demand employment space for almost a decade.

Naman Sarawagi
Independent Director

He holds professional experience of over 12 years and has been part of early teams of Popular startups like Freecharge and Zipdal. He is also the founder of Refrens.com. He has invested in and advises multiple startups on product and marketing. He holds a B.Tech degree from Maharshi Dayanand University, Haryana.

THE GenAI OPPORTUNITY

Global AI Market To Be A Trillion-Dollar Size 2032

**Global AI Market
Size - 2023**
**\$110-130
Billion**

CAGR 25-30%

**Expected Global AI
market size - 2027**
\$320-380 Billion

Training models are expected to generate more accurate results with better enterprise data and use case specific model training.

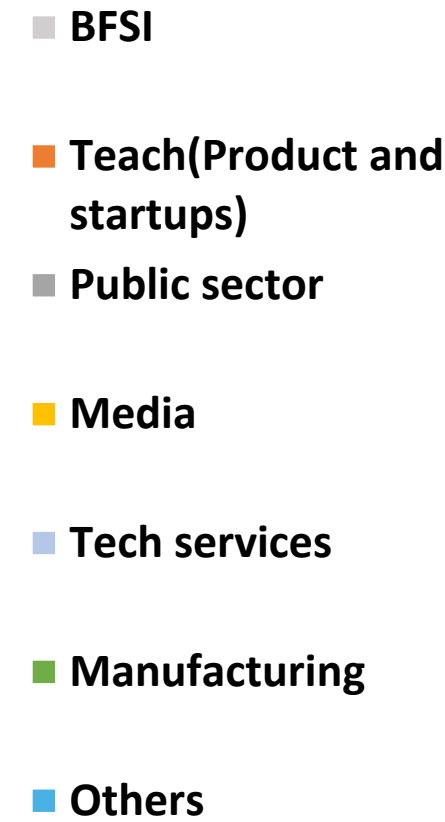

The advancement in compute power due to GPUs is expected to see optimum use with better training models.

AI with its natural language interface and easy usage has broadened user base which will lead to AI application in various products and services.

India Amongst The Top Five Nations For AI Talent

Trifecta of AI Opportunities

Advanced GPU Demand

Rapidly growing demand for advanced cloud GPUs like H100/H200 by Govt., Higher Education, Startups and Enterprises

Open Source AI

Rapid Increase in capabilities and availability of State Of The Art Open Source Models and plumbing to build GenAI

Data for AI/ML

India continues to be the data capital of the world thanks to its largely digitized population. The Government is committed to help establish Indian startups and enterprises become the leading AI innovators of the world by leveraging India's data sovereignty

*Source- BCG-nasscom report on AI POWERED TECH SERVICES report

Cloud GPUs

Array of advanced Cloud GPU products for enterprise machine learning and Generative AI workloads.

Linux Cloud

Highly performant and affordable CPU Intensive, Memory Intensive and Smart Dedicated Compute on the Cloud powered with Linux

Large Scale GPU Clusters

Infiniband allows for low latency scalability of Cloud GPU clusters beyond the limits of a single physical machine with interconnects upto 3.2 Tbps.

TIR – GenAI Platform

GPU-backed Machine Learning platform packaged with top open source frameworks, AI/GenAI Training, Inference and Model End Point Deployments. On demand GPU Cluster Deployments.

Storage & Cloud Solutions

Cloud Solutions: LB, DBaaS, Firewall, Containers, Auto Scaling and Storage Solutions: Object Storage, Block Storage, Container Attached Storage, Elastic File System.

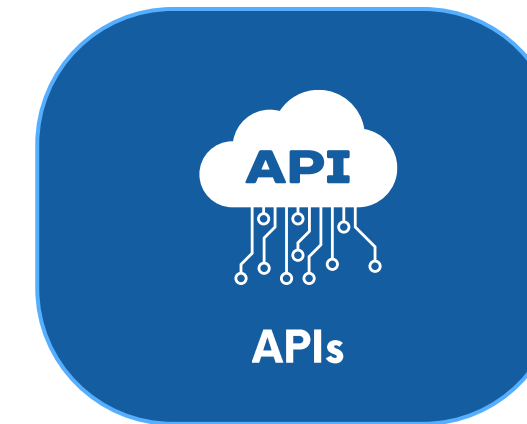

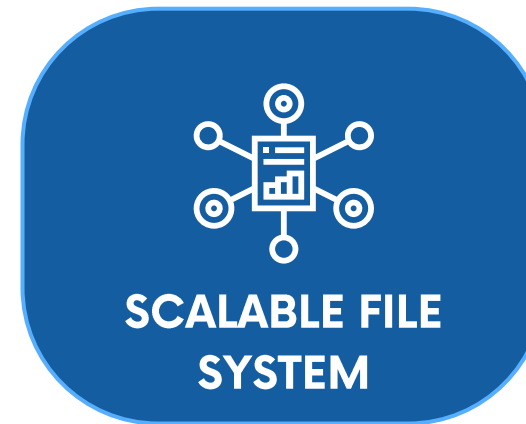

Containers & Serverless

Highly Performant Kubernetes Containers and OpenFaaS based serverless compute allows

E2E CLOUD Capabilities

E2E Cloud provides an array of cloud solutions built on battle tested open source technologies that scale.

India's most advanced Cloud GPU Platform

E2E Cloud has pioneered the most advanced cloud GPUs in the Indian market at best price-performance ratio.

H100/H200

- HGX 8 x H100/H200 & 4 x H100
- Up to 9x faster than A100
- Based on Hopper Architecture
- For large scale AI and HPC workloads

- H100s/H200s available in (1,2,4,8,16, 32, 64,128, 256 GPU configurations)
- InfiniBand Connectivity upto 3.2 Tbps
- High Performance Storage with multiple storage solutions for every use case
- Cloud GPU platform including A30, A40, A100 (40GB,80GB), V100(32GB),T4,L4 and L40S as of June 2024

- A40 L4 T4
- A30 L40S
- A100 (40 GB, 80 GB)
- V100 (32 GB)

Key Features

- 01 Rapid interactive development with Jupyter Notebooks
- 02 Quickly built AI/ML data pipelines
- 03 Bundled with latest drivers and frameworks
- 04 Integrated with Industry standard platforms
- 05 Easy access to high class datasets, models

Recent TIR Platform Enhancements

WandB Integration

keeps track of your machine learning experiments, log hyperparameters, metrics, and output visualization

Training Metrics

optimizes your training models effectively

LORA and BnB quantization options

Brings efficiency and precision in fine-tuning, fastens training times

vLLM

enables dynamic conversations with the model

Vector Databases Enhancements

enables quick recovery from data loss or testing scenarios

Continue training from previous check

allows cloning previous fine tuned models and create new model artifacts

Frictionless Rapid Deployments TIR Platform

The screenshot shows the TIR AI Platform dashboard. At the top left, there's a navigation bar with the TIR AI PLATFORM logo, a "GO TO MYACCOUNT" button, and an "Explore GenAI API" button. On the right side of the top bar, there are icons for moon, bell, and gear, along with a "Private Workspace" dropdown menu and a user profile icon.

Below the navigation bar, there's a "Project" dropdown menu showing "prj-022615524141". To the right of this are four summary cards: "CONTAINERS 1/1 running", "DATASETS 0/0 ready", "INFERENCE SERVICE 0/0 running", and "PIPELINE RUN 0/0 running".

On the left side, there's a sidebar menu with the following items: Dashboard (selected), Containers, Datasets, Inference, Pipelines, Foundation Studio, Integrations, API Tokens, and Settings.

The main content area is divided into two sections. The "Quick Access" section contains six buttons: "Launch Container", "Create Dataset", "Create Model Repo", "API Tokens", "Create Pipeline", and "Create Pipeline Run". The "Finetune Model" button is located below these. The "Launch Inference" section contains three cards for different inference services, each with a "LAUNCH" button: "Nvidia Triton" (GPU optimized), "TensorRT-LLM" (GPU optimized), and "Torch Serve" (performant, flexible).

Value Drivers

Meity Empaneled Swadeshi cloud built using Open Source, ensuring data sovereignty and providing businesses with peace of mind by ensuring security requirements are met.

Best Price-Performance Ratio

Transparent and Consistent Pricing with no surprises

Made in India Advanced Cloud

Battle-tested open-source technologies, fine tuned and wrapped into our platform for multi-tenancy, security and Role Based Access Control

Support, Solutioning & Software

Our team has vast experience in scaling low latency & high-performance architectures at a scale. In-house capabilities to launch cutting edge products like Parallel File System

Cutting Edge Engineering

New features released recently added includes Training Metrics, Fine Tuning Features enhancements, Shareability of machine learning experiments and ability to restart trainings from previous checkpoints.

E2E Networks becomes first company in India to procure 256 Nvidia H200 GPUs

By Suraksha P, ETtech • Last Updated: Oct 25, 2024, 07:57:00 AM IST

Synopsis

E2E Cloud's flagship product, TIR, an AI development studio, will be the first in India to feature H200 GPUs, giving developers access to cutting-edge infrastructure.

NSE-listed [E2E Networks](#) on Thursday announced that it was the first company to bring [NVIDIA H200 Tensor Core GPUs](#) to the Indian market.

[Economic Times Coverage 25th Oct 2024](#)

Strategic Priorities post fund raise of ~405 crores

01

Scale Up Accelerated Computing GPU Capacity

02

Increase Customer Base Diversity

03

Engineering, Technology and Operational Excellence

04

Major new Cloud & GPU Region in West/South India
