E2E Networks Signs Binding Term Sheet Worth ~Rs. 1,000 Crore with Sovereign AI Company

New Delhi India, August 31, 2026: E2E Networks Limited, India's leading AI cloud infrastructure company, today announced it has entered a binding term sheet with a Sovereign AI company based in India for the NVIDIA Blackwell cloud GPUs and allied services. The arrangement carries an aggregate contract value of approximately Rs. 1,000 crore (exclusive of taxes) and continues through June 2029.

*Commenting on the development, **Nitin Jain, Chief Financial Officer, E2E Networks**, said:*

“This engagement provides greater revenue visibility over a multi-year horizon and reinforces our strategy of building a high-quality, long-term customer base. This transitions the NVIDIA Blackwell capacity we deployed in May end, 2026 from a pay as you go model to a longer term commitment.”

***Tarun Dua, Managing Director, E2E Networks**, added:*

“This reflects the growing confidence that sovereign AI and enterprise AI customers are placing in E2E’s cloud GPUs as India’s requirements for AI compute continue to scale.”
