New RBI schemes will give impetus to inclusive, responsive financial system: Shaktikanta Das

NEW DELHI : Reserve Bank of India Governor Shaktikanta Das on Friday said that RBI Retail Direct Scheme and Reserve Bank Integrated Ombudsman Scheme will provide further impetus to India's journey towards a more inclusive and responsive financial system. "Launching of RBI Retail Direct Scheme and Reserve Bank Integrated Ombudsman Scheme will provide further impetus to India's journey towards a more inclusive and responsive financial system," said RBI Governor. Union Finance Minister Nirmala Sitharaman also thanked Prime Minister Narendra

Modi for the initiatives. Prime Minister Narendra Modi launched two innovative customer-centric initiatives of the Reserve Bank of India today. The RBI Retail Direct Scheme is aimed at enhancing access to government securities market for retail investors. It offers them a new avenue for directly investing in securities issued by the Government of India and the State Governments. Investors will be able to easily open and maintain their government securities account online with the RBI, free of cost. The Reserve Bank Integrated Ombudsman Scheme aims to

further improve the grievance redress mechanism for resolving customer complaints against entities regulated by RBI. The central theme of the scheme is based on 'One Nation-One Ombudsman' with one portal, one email and one address for the customers to lodge their complaints. There will be a single point of reference for customers to file their complaints, submit the documents, track status and provide feedback. A multi-lingual toll-free number will provide all relevant information on grievance redress and assistance for filing complaints.

Former CBDT chairman PC Mody appointed Secy General of Rajya Sabha

NEW DELHI : Former Central Board of Direct Taxes (CBDT) chairman Pramod Chandra Mody was appointed Secretary General of the Rajya Sabha ahead of the Winter Session of Parliament which will commence on November 29 and end on December 23. Mody who is a 1982-batch retired IRS officer took charge on Friday. Rajya Sabha chairman M Venkaiah Naidu who is the appointing authority signed the letter of appointment of Mody. He replaced PPK Ramacharyulu who was posted just 73 days ago on September 1 as the Secretary General of the Rajya Sabha. Ramacharyulu had joined the Rajya Sabha secretariat in 1983. He rose through the ranks to become the Secretary General. Interestingly, Ramacharyulu's appointment order did not prescribe a tenure. However, Mody's appointment letter says his tenure is for one year. It is for the first time that an IRS officer has been appointed Secretary General Rajya Sabha. Traditionally, the post has been held by an IAS officer. The Secretary General heads the RS secretariat and is the key person to the Chair for running parliamentary affairs. He is also the eyes and ears of the Rajya Sabha chairman in matters related to rules and procedures. In the CBDT, Mody got three extensions after his scheduled retirement date in August 2019. He retired in June 2021.

Now Sangam to light up with 5 lakh diyas

PRAYAGRAJ : After 'Deepotsav' in Ayodhya, Prayagraj will now be lit up with around five lakh diyas at the Sangam area, the confluence point of the Ganga and Yamuna rivers, on the occasion of Dev Deepawali on November 19. Efforts are on to make the event a grand affair in the holy city.

Prayagraj District Magistrate Sanjay Kumar Khatri said that a much larger celebration has been planned this year as compared to the previous years and that an Additional District Magistrate (Administration) has been appointed as the nodal officer for the event. He said that people from all walks of life, as well as prominent personalities from the city will be in attendance. However, Covid-19 protocols will be followed strictly during the event.

"To add to the grandeur and spectacle of the event, the entire Sangam area would be divided into sectors and officials of different government departments would be allocated and assigned work accordingly," the District Magistrate said. During the event, special decorations would be made on both sides of the Ganga Aarti Manch and visitors would be able to enjoy the event through the boat facility also.

The district administration officials are coordinating with office bearers of Prayagraj Navik Sangh in a bid to offer facilities to visitors who would be able to enjoy the spectacular view through boats after paying reasonable price tickets. Renowned artists from the city as well as the country are being invited to perform on the occasion. Officials are also planning to execute special sand artwork near the event and all prominent crossings and intersections of the city would also be illuminated. The Dev Deepawali festival is celebrated in the state 15 days after Diwali and falls on the full moon night of Kartik month as per the Hindu calendar. Till now, the festival had been restricted to Varanasi.

Fuel prices continue to be steady as global oil prices soften

NEW DELHI : Fuel prices have remained unchanged in the country post revision of duties by state governments and the Centre providing further relief to consumers from consistent increase in rates earlier.

Accordingly, petrol and diesel prices remained unchanged for the eighth consecutive day on Friday under the daily price revision mechanism followed by oil marketing companies.

So, the pump price of petrol in Delhi, which fell to Rs 103.97 a litre at 6 a.m. last week on Thursday from the previous days level of Rs 110.04 a litre, remained at the same level on Friday. The diesel prices also remained

unchanged in the capital at Rs 86.67 a litre.

In the financial capital Mumbai, petrol continued to be priced at Rs 109.98 a litre and diesel Rs 94.14 a litre.

Prices also remained static on Wednesday in Kolkata where the price of petrol reduced by Rs 5.82 to Rs 104.67 per litre and that of diesel by Rs 11.77 to Rs 89.79 per litre last week.

Petrol price in Chennai also remained at Rs 101.40 per litre and diesel Rs 91.43 per litre.

Across the country as well, the price of the fuel largely remained unchanged on Friday but the retail rates varied depending on the level of local taxes.

Formal sector gained market share during Covid while informal economy suffered

SANJEEV SHARMA

NEW DELHI : The formal sector appears to have gained market share during the Covid-19 pandemic, while the unorganised/informal economy has suffered and which is not adequately captured in the GDP numbers currently, foreign brokerage UBS said.

The effects of the pandemic have adversely affected the employment and income levels of the workers in the informal sector largely in the non-agriculture sector in rural areas and high contact services sector in urban areas, the report said.

"We expect real GDP growth to remain well above trend at 7.7 per cent YoY in FY23E before settling at the long-run average of 6 per cent in FY24E. Even though India should remain one of the fastest growing EM in FY23E (on a strong statistical carry over), the output gap may continue to be negative throughout. On balance, we remain more optimistic than consensus (7.4 per cent YoY)

about a FY23 recovery," the report said.

While consumption growth could moderate, measures to boost public capex and early signs of a recovery in the residential real estate sector may offset some of the adverse impact. Goods exports could moderate as the expected shift from goods to service consumption at a global level as the pandemic recedes should weigh on global trade.

"We also flag a potential credit accelerator effect in India aiding the recovery. Our baseline assumption is that

activity continues to normalise and remaining mobility restrictions are gradually removed," UBS said.

We expect near-term household consumption to continue to benefit from unwinding of forced/precautionary savings accumulated during the Covid crisis. UBS Evidence Lab's India Savings & Investment Online Consumer Survey of 1,000 urban Indians indicated improvement over the previous survey in November 2020. Among respondents, 55 per cent saw savings increase vs. last year.

Notably, over half of respondents saved as precautionary measure; a sizeable number feel higher income led to higher savings.

Consumption Outlook Consumer Survey of 1,500 consumers indicated affluent Indians' income during the pandemic was relatively unchanged and could support near-term pent-up demand. Nearly two thirds of respondents anticipate income to increase in 2022 as affluent consumers are spending again).

"We think optimism about income growth and a better financial situation is a key metric to track regarding a swift normalisation of consumption trends. We expect improving demand-side indicators (vehicles, property, home & personal care, consumer durables, etc). Notably, the top 20 per cent of the Indian population account for the bulk of discretionary consumption (59 per cent of discretionary consumption in rural areas and 66 per cent in urban areas)," the report said.

36% Indian kids lacked Internet access during Covid lockdown: Report

NEW DELHI : During the Covid induced lockdown last year, schools shifted their classes online to safeguard children from the infectious disease and maintain smooth flow of their lessons. However, a new report on Friday showed that more than a third of children in India did not have access to the Internet during that period.

The report by LIRNEasia, a regional think tank working on digital policy issues -- in partnership with ICRIER, an economic policy think tank -- showed that 64 per cent of all households with enrolled school-age children had Internet access while the remaining 36 per cent didn't. The research included a survey consisting of 7,000 households across India including 350 villages and wards.

Among the households with Internet, 31 per cent of children were likely to

receive remote education of some kind, while only 8 per cent of the households without Internet said they received some kind of remote education.

At the same time, a recent national survey conducted by LIRNEasia, showed that Internet use had more than doubled in the past four years, and that Covid-related shutdowns contributed significantly to the increased demand for connectivity.

Among the 15-65 age group population, 49 per cent said they had used the Internet, compared to only 19 per cent of the 15-65 age group population claiming the same in late 2017. This translates to 61 per cent of households in 2021 using the Internet compared to 21 per cent in 2017.

It showed that over 130 million users came online in 2020 and 2021. Of the nearly 80 million who started using the Internet in 2020, 43 per

cent or over 34 million said they started doing so because of the Covid crisis.

"If we only think of people getting connected, India is making great strides.
