1 crore = 10 million

Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has assigned its '**Crisil AAA/Stable**' rating to the Rs 1250 crore proposed non-convertible debentures (NCDs) of Embassy Office Parks REIT (Embassy REIT) and has reaffirmed its 'Crisil AAA/Stable/Crisil A1+' ratings on the existing NCDs and commercial papers. Also, Crisil Ratings has reaffirmed its 'Crisil AAA/Stable' corporate credit rating on the trust.

Operating revenue of the real estate investment trust (REIT)[^] grew 14% on-year to reach Rs 1,151 crore in the first quarter of fiscal 2026, supported by steady rentals, contractual escalation, new leasing and additional rentals from office space added in fiscal 2025. As of June 30, 2025, occupancy improved to 88% from 85% as on June 30, 2024. Net operating income (NOI)[^] increased 16% on year to reach Rs 872 crore in the first quarter of fiscal 2026 and NOI margin remained healthy at 82% (81% during corresponding period previous fiscal). NOI margin for commercial offices improved to 87% from 85% and remained consistent for the hospitality segment at 47% (48% for the corresponding period previous fiscal).

Consolidated net debt rose to Rs 20,184 crore as on June 30, 2025, from Rs 19,655 crore as on March 31, 2025 to meet the requirement of ongoing capital expenditure (capex). However, the ratings continue to reflect the trust's satisfactory loan-to-value (LTV) ratio, 33% (on net debt as of June 2025 and as per external valuation as of March 2025), driven by moderate debt and healthy debt protection metrics, supported by cap on incremental borrowing. Furthermore, stable revenue and rent from the underlying assets, healthy occupancy, contractual rent escalations and geographical diversification support leverage. While the LTV has increased in the recent past, Crisil Ratings believes prudent debt management by Embassy REIT and leverage to remain comfortable. The trust is also planning to raise equity up to Rs 2,500 crore, which will be utilised towards debt reduction as well as part funding for upcoming construction. Larger-than-expected, debt-funded capex or acquisition, weakening the debt protection metrics, will remain a key rating sensitivity factor.

The Debt Service Coverage Ratio (DSCR) is expected to remain comfortable over the medium term, assuming refinancing of the entire upcoming maturities. This exposes trust to refinancing risks, but this is mitigated by proactive refinancing strategies as shown in past years. However, timely refinancing of the loans will be a key monitorable over the medium term. The ratings continue to factor in susceptibility to volatility in the real estate sector, resulting in fluctuations in rental rates and occupancy.

[^]including 50% revenue of Golflinks Software Park Pvt Ltd [GLSP]

Analytical Approach

Crisil Ratings has combined the business and financial risk profiles of Embassy REIT with its underlying special purpose vehicles (SPVs) and has applied the criteria for rating entities in homogeneous groups. This is because Embassy REIT has direct control over the SPVs and will support them during exigencies. Additionally, there is minimal structural subordination of cash flow, wherein the SPVs must mandatorily distribute 90% of their net distributable cash flow (after servicing of debt) to Embassy REIT, leading to highly fungible cash flow. Also, as per the Real Estate Investment Trust (REIT) Regulations, 2014, of Securities and Exchange Board of India (SEBI), the cap on borrowing by the REIT has been defined at a consolidated level (equivalent to 49% of the value of Embassy REIT's assets).

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

Satisfactory debt protection metrics: Consolidated net debt rose to Rs 20,184 crore as on June 30, 2025, from Rs 19,655 crore as on March 31, 2025 for under-going incremental capex. Going forward debt-funded capex or potential acquisitions may further increase the consolidated gross debt. However, in line with management articulation, gearing is expected to be maintained or brought down over the medium term. Embassy REIT is also planning to raise equity up to Rs 2,500 crore, which will be utilised towards debt reduction as well as part funding the upcoming construction. A lower LTV ratio protects investors from the risk of decline in property prices and the consequent impact on refinancing.

Additionally, REIT is currently evaluating a potential acquisition opportunity, specifically the Right of First Offer (ROFO) asset, Embassy Whitefield, located in Bengaluru, which has been offered by the sponsor. The discussions are at a preliminary stage, and the timelines for this potential transaction are currently uncertain. Crisil Ratings will continue to monitor the developments related to this proposal and its impact on the leverage ratio.

Stable revenue of SPVs held by the REIT: Around 90% of the revenue comes from 14 established and high-quality commercial assets and a solar park, with stable operations and track record of at least five years of rental collection.

Operating revenue of the REIT grew by 14% on-year to Rs 1,151 crore in the first quarter of fiscal 2026 with steady rentals, improvement in hospitality segment, contractual escalation for office portfolio, new leasing and additional rentals from office space added in fiscal 2025. Embassy REIT renewed/entered into new agreements (including pre-commitment signing of 6.7 lakh sq ft) for 20.2 lakh sq ft in the first quarter of fiscal 2025 at leasing spread of 38%. Rentals have an upside potential due to superior asset and service quality, favourable location in prime areas, healthy demand and competitive rental rates.

Strong tenant profile with a well-diversified portfolio: Embassy REIT owns and operates office spaces, a solar park and hotels spread out across prime areas of Bengaluru, Chennai, Pune, Mumbai and National Capital Region. The group has 512 lakh sq ft of available office area, with operational area of 404 lakh sq ft, under-construction area of 61 lakh sq ft and proposed development of 48 lakh sq ft. Commercial assets have robust occupancy, averaging 88% as on June 30, 2025, with a diversified tenant base of over 274 multinational occupier across eight or more different sectors and industries.

Weaknesses:

Susceptibility to volatility in the real estate sector: Rental collection (key source of revenue) is susceptible to economic downturns, which constrains tenants' business risk profiles and, therefore, occupancy and rental rates. The top 10 tenants and technology sector contributed to 36% and 30% of gross annualised rentals, respectively, as on June 30, 2025, exposing the REIT to tenant concentration risk. As on March 31, 2025, 22% of the leased area was due for renewal between fiscals 2026 and 2029. While majority of the tenants are established corporates and may continue to occupy the property any industry shock leading to vacancies may make it difficult to find alternate lessees within stipulated time. Emergence of competing facilities in the vicinity could also cannibalise tenants or rental rates. These could adversely impact cash flow, and hence, will be a key rating sensitivity factor.

Exposure to refinancing risk: All NCDs issued by the trust have bullet payments at the time of redemption, exposing the REIT to the risk of refinancing. While the REIT has staggered bullet repayment timelines, active and timely treasury management remains essential. This risk is mitigated by the availability of call option in some NCDs, healthy consolidated leverage and experience of the management.

Embassy REIT has a track record of refinancing where Rs 6,300 crore of debt was refinanced at an average rate of interest of 7.98% per annum in fiscal 2025 and Rs 9,440 crore of debt over fiscals 2023 and 2024. REIT raised Rs 4,225 crore of debt in first quarter of fiscal 2026, to refinance its scheduled maturity and for optimization. However, timely refinancing of the loans will remain monitorable over the medium term.

Most of the NCDs have call option prior to final maturity, which provides the trust with sufficient time to arrange funds or refinance the NCDs. Furthermore, the SPVs of the trust have the flexibility to raise lease rental discounting loans from banks for refinancing the NCDs, thereby giving access to large pool of capital from financial institutions. New avenues of capital are also available in the form of investments from pension funds, insurance companies and foreign portfolio investors, which mitigates refinancing risk.

Liquidity: Superior

Liquidity is supported by stable cash flows from underlying assets. Debt level remains moderate for the REIT with LTV at 33% (on net debt as of June 2025 and as per external valuation as of March 2025). DSCR is expected to remain comfortable factoring refinancing of bullet maturities (as NCDs are non-amortising), exposing the debenture-holders to refinancing risk. However, the conditions around redemption provide the REIT with sufficient time to arrange for refinancing. Furthermore, Crisil Ratings sensitized LTV of the REIT is expected to remain below 40%, protecting investors from the risk of decline in property prices and the consequent impact on refinancing. Embassy REIT maintains a cash balance of Rs 100-120 crore to support its daily operations, which is expected to be maintained at a similar level. Also, undisbursed debt stood at Rs 282 crore for ongoing construction activities as on June 30, 2025.

Rating sensitivity factors

Downward factors

- Significant delay in completion and leasing of under-construction assets or acquisition of assets of lower quality affecting portfolio health
- Any impact on independence of REIT operations due to but not limited to change in sponsorship of the trust or ownership of the REIT manager
