4 Details of modified opinion in Consolidated Financial Results for the Financial Year ended on March 31, 2026.										
The Group's inventories as at March 31, 2026 include inventories amounting to Rs. 25,880.96 lakhs lying in a subsidiary's factory at Nashik, Maharashtra. Consequent to the fire at the said premises on May 21, 2025 (Refer Note 4 to the consolidated financial results), during the year management along with surveyor has done physical verification of inventory and consequently management has determined inventory damaged due to fire and accordingly have written off such inventory in the books of accounts. However, due to the fire some areas of the factory premises were affected and rebuilding work was in progress leading to storage space constraint and hence some of the inventories of usable waste which was not affected by fire was stored in a mixed condition. Owing to the above circumstances, at the year-end we could not perform and observe physical verification of the inventories. Subsequent to year end, a third party engaged by management has performed physical verification of inventory but not for all items and in some cases quantities were arrived through a method of estimation. We have performed alternative procedures, including verification of the subsequent movement of inventories, examination of quantitative records and other related documentation, which provided us with evidence in respect of the existence of such inventories. However, since we were not able to perform physical verification hence there could be excesses or shortages, if any, in the quantities which can only be determined when physical verification is performed and observed by us in the subsequent periods. We were therefore unable to determine whether any adjustments were necessary to the carrying value of inventories as at March 31, 2026, and the consequential impact, if any, on the profit for the year, other equity and the related disclosures in the consolidated financial results of the Group.
