Dear Sir/Ma'am,

Sub: Submission of the Newspaper Clippings of Extract of Statement of Unaudited Financial Results (Standalone & Consolidated) of the Company for the quarter ended June 30, 2026

Pursuant to Regulation 47 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are enclosing herewith a copy of the newspaper clippings of the extract of statement of unaudited financial results (standalone & consolidated) of the Company for the quarter ended June 30, 2026, published on July 16, 2026, in Economic Times, Times of India (English) and Vijaya Karnataka (Kannada).

The above information is also available on the website of the Company at <https://www.emmveepv.com/investors>.

This is for your kind information and dissemination.

Thanking You,

For and on behalf of Emmvee Photovoltaic Power Limited
(Formerly known as Emmvee Photovoltaic Power Private Limited)

Pawan Kumar Jain
Chief Financial Officer

MONSOON Watch

CUMULATIVE RAINFALL FROM JUNE 1 TO JULY 15 (% DEPARTURE FROM NORMAL)

HOW THE ALL-INDIA MONSOON PICTURE STANDS
Rainfall progress since June 1 (% departure, cumulative)

RAINFALL TILL JULY 15, COMPARED WITH RECENT YEARS
Cumulative departure (%)

Enhanced rainfall with isolated heavy falls likely over East & NE, east UP & Western Himalayan Region in next 7 days
Subdued rainfall likely over west-central & south Peninsula India in next 7 days & over plains of NW India in 5 days

FLAG-OFF CEREMONIES HELD FOR CONSIGNMENTS

CEA Day 1: Goods worth \$140m Set Sail for UK

Agreement on social security operationalised too, brings relief for Indian professionals and employers

Our Bureau

New Delhi: The India-United Kingdom Comprehensive Economic and Trade Agreement (CETA) came into force Wednesday with North India shipping \$140 million worth of goods including textiles, gems and jewellery, engineering, marine products and processed food to Britain on the day one of its implementation. The CETA allows entry of nearly 99% of Indian exports in Britain at zero duty and offers significant duty concessions to a host of British imports such as Scotch whisky.

Alongside CETA, an agreement on social security (Double Contribution Convention) has also been operationalized exempting Indian professionals on temporary UK assignments of up to 60 months from making social security contributions in both countries, reducing costs for both employers and employees.

"With the coming into force of the Comprehensive Economic and Trade Agreement and the Agreement on Social Security, our economic engagements are going to deepen," Prime Minister Narendra Modi said in a social media post. The CETA will give fresh momentum to Indian factories, exporters and service providers.

Guj Shipbuilding, Repair Clusters Get Ministry Nod

Our Bureau

New Delhi: The Ministry of Ports, Shipping and Waterways (MoPSW) has given in-principle approvals for two shipbuilding and repair clusters in Porbandar and a ship repair facility at Vadinar in Gulf of Kutch. Both these projects in Gujarat are under the Shipbuilding Development Scheme (SBDS).

An official statement said the approvals cover establishment of a new shipbuilding cluster on the western coast and financial assistance for the development of one of the country's largest ship repair facilities. The government will develop the shipbuilding cluster by developing the National Shipbuilding and Repair Cluster in Park-Gujarat (NSHIP-Gujarat), a Special Purpose Vehicle (SPV) jointly promoted by the Ministry of Ports, Shipping and Waterways (MoPSW) and the Gujarat Maritime Board.

The project is designed to build large commercial vessels with an annual production capacity of 1.2 to 1.5 million gross tonnage (GT), the statement said.

Russian Crude Still India's Key Energy Security Hedge

Our Bureau

New Delhi: Proposed US tariffs targeting countries that buy Russian crude could inject fresh volatility into global oil markets, but replacing Russian supplies would be difficult given limited spare production capacity and ongoing geopolitical risks, according to a Kpler analyst. "Russia has become the country's strongest energy security hedge, particularly since the Strait of Hormuz disruptions," according to Sumit Raita, an analyst at Kpler.

US senators on Tuesday unveiled a revised bipartisan Russia sanctions bill that would impose sanctions on Russian officials while softening proposed tariffs on Russia for importing Russian oil and gas. The measure lowers the maximum tariff on the five largest buyers of Russian energy, including China and India, to 100% from the 500% proposed in the original bill introduced in April 2025.

CONCERNS RAISED BY BIG AUDIT FIRMS WITH INTERNATIONAL TIEUPS

ICAI Suspends Global Networking Norms

Firms fear global partners would hesitate to share details, compliances also to go up

Our Bureau

New Delhi: The Institute of Chartered Accountants of India (ICAI) has put on hold its global networking guidelines amid concerns raised by stakeholders, including big audit firms with existing international tie-ups.

In a notification dated July 13 but published late Tuesday night, the ICAI said its Global Networking Guidelines, 2025, notified in February, have been "kept in abeyance until further orders." EThad, on July 7, reported that the institute could pause the guidelines and

hold further talks with stakeholders to iron out any differences. The guidelines, while encouraging domestic accountancy firms to tie up with their global peers for starting ventures in India, also require all such entities, including those with existing foreign collaborations, to register themselves with the institute.

These entities also have to comply with certain business disclosure requirements, including the specific nature of global collaborations, and appoint partners of "good standing" within the firms as nodal officers for compliances, among other conditions.

The Big 4 and other major audit firms with global affiliations in India opposed the registration and sharing of details with the ICAI, people familiar with the matter had told ET. They feared their global partners would refuse to share the required details, and any data leak could potentially

compromise their operational secrets. Their compliance requirements would also go up, they apprehended.

The corporate affairs ministry, too, is learnt to have favoured the idea of appointing stakeholder concerns before implementation. The matter was examined by the ICAI Council in its three-day meeting that concluded on July 1.

Senior ICAI officials had earlier said the guidelines would enable local entities to gain scale, aligned with the government's vision of facilitating the creation of large home-grown accounting firms comparable to the Big Four.

Textiles Body Signs Pact to Push EU Trade

New Delhi: The Bharat Textile Federation and France's Premiere Vision have signed a letter of intent to strengthen textile and apparel trade between India and the EU, creating opportunities for Indian manufacturers, exporters and designers while reinforcing India's position as a sourcing hub. —Our Bureau

neers and MSMEs. Several vibrant sectors will gain stronger access to the UK market, he said, adding that it will also deepen cooperation in technology, professional services and innovation, while supporting greater mobility for skilled Indian talent, he added.

Flag-off ceremonies for export consignments were held in different parts of the country for the first time, he added. The CETA also allows entry of nearly 99% of Indian exports in Britain at zero duty and offers significant duty concessions to a host of British imports such as Scotch whisky.

@NarendraModi ji's vision of Viksit Bharat 2047, "commerce and industry minister Piyush Goyal said in a social media post. "The deal turns ambition into action... and marks the next stage in bilateral trade," said British High Commissioner to India, Lindy Cameron, adding that UK-India trade is increasingly about services and knowledge, which also supported through the trade deal.

Termining the agreement "the new gold standard of trade deals," Cameron said it is the most ambitious free trade agreement either country has implemented to date. India and the UK aim to increase bilateral trade to \$80 billion by 2030.

from the current level of close to \$60 billion in FY26, to which merchandise trade was worth \$25.12 billion. The CETA was signed in July 2025 by Prime Minister Narendra Modi and UK PM Keir Starmer following 14 rounds of negotiations.

Turning CETA as one of the "most aspirational" trade agreements by India to date, commerce secretary Reish Aggarwal said. "More than 800 technical sessions were held over 14 formal rounds of negotiations... We have completed all pending issues in the last 30 days."

Headed that arriving at the pact is only part of the work and that "every hour of negotiation is complemented by three times the work outside".

The resolution of the issue has paved the way for the implementation of the agreement from July 15. "As a result of these successful negotiations, India's total country-specific quota (CSQ) under the new framework stands elevated at 1,88,029 tonnes, seamlessly complemented by the exclusive 9.45 lakh tonnes under the Authorised Use Scheme (AUS)," an official said.

To mitigate potential trade impacts and maintain equilibrium in the bilateral trade, the UK has expanded tariff-free access across critical product categories, first it is implementing.

The nuclear island comprises the reactor and associated safety-critical systems, making it the most specialised component of a nuclear power plant. Awarding a single EPC package for four units is expected to create economies of scale and expand opportunities for domestic manufacturers and engineering firms.

The tender comes as the Centre accelerates its nuclear expansion programme under the Nuclear Energy Mission. India currently has nuclear energy capacity of 8.8 GW, with

cost of ₹10,988.32 crore. Civil construction will cost ₹1,565.33 crore and land acquisition ₹594.91 crore.

The road transport and highways ministry said the highway projects would provide seamless connectivity between the national highways and the Varanasi Ring Road, to be developed under the hybrid annuity model (HAM) at a total cost of ₹14,447.64 crore.

The civil construction cost is estimated at ₹5,037.65 crore, while land acquisition will cost ₹541.11 crore. The second project, also a link corridor, will connect NH-91 with the Varanasi Ring Road, to be built under HAM at a

cost of ₹10,988.32 crore. Civil construction will cost ₹1,565.33 crore and land acquisition ₹594.91 crore.

NPICIL-NTPC JV to Invite Bids for ₹28k cr N-Project

To cover engg, mfg, civil construction and commissioning support for island systems

Our Bureau

New Delhi: Anushakti Vidhyut Nigam Ltd, a joint venture between Nuclear Power Corporation of India Ltd (NPICIL) and NTPC Ltd, will soon invite bids for a nuclear island engineering, procurement and construction package worth more than ₹28,000 crore for four 700 MW reactors at the Mahi Banswara Rajasthan Atomic Power Project.

The tender, one of the largest EPC packages issued for India's indigenous pressurised heavy water reactor (PHWR) programme, will cover engineering, manufacturing, supply, civil construction, installation, testing and commissioning support for the nuclear island systems, NPICIL posted on X.

The joint venture has been incorporated to develop, own and operate nuclear power projects. The Mahi Banswara project in Rajasthan is the first it is implementing.

The nuclear island comprises the reactor and associated safety-critical systems, making it the most specialised component of a nuclear power plant. Awarding a single EPC package for four units is expected to create economies of scale and expand opportunities for domestic manufacturers and engineering firms.

The tender comes as the Centre accelerates its nuclear expansion programme under the Nuclear Energy Mission. India currently has nuclear energy capacity of 8.8 GW, with

DEMOCRACY THRIVES WHEN NATIONAL INTEREST RISES ABOVE POLITICAL DIFFERENCES: V-P RADHAKRISHNAN

PINARAYI ACCUSES KERALA GOVT OF 'AMBIGUOUS' STAND ON PROPOSED TRANSFER OF STAKE IN VIZHINJAM PROJECT

HACK OF THE DAY

CLAIM CHARITY TAX DEDUCTIONS WITHOUT FILING RETURNS

WHAT IT SOLVES: Many donation deductions fail because the charity's tax record does not match your ITR

WHAT TO DO: Before filing, collect the official donation certificate and match PAN, amount, and charity details

STEPS:

- 1 Donate only to an eligible charity
- 2 Share your correct PAN details and address
- 3 Ask for the official tax certificate (Form 10BD)
- 4 Match the amount and other details with your receipt
- 5 Enter the same details while filing ITR

NOTE: Cash donations above Rs 2,000 are not eligible

Readers are advised to follow official websites & updated rules

Smell of booze alone not enough to prove drunk driving: HC

NO SCIENTIFIC PROOF

➤ Amar Singh's vehicle overturned in Chhamoli following a tyre burst; one died, several injured

➤ Witness statement that his driving was steady and technical report on cause of accident backed Singh

➤ Uttarakhand HC says no breathalyser or blood alcohol test conducted, sets aside culpable homicide charge

conducted, the high court found the charge under Section 105 to be "unsustainable".

The court relied on the technical inspection report and also eyewitness accounts, which consistently indicated that there were no signs of intoxication and that Singh was driving "steadily" throughout the journey.

The HC also noted that while the medical report recorded the smell of alcohol, no breathalyser or blood alcohol test was conducted to scientifically establish intoxication. In contrast, the technical inspection identified the tyre burst as the immediate cause of the accident.

35 years on, 103-year-old woman wins legal battle for plot of land

Mothari: At the age of 68, when most people begin slowing down, Habibban Khatoun stepped into a courtroom to fight for what she believed was rightfully hers — possession of 1 katha and 4 dhur of land. She finally received justice 35 years later, at the age of 103, reports Chandra Bhusan Pandey.

The court order led to celebrations in the family of Habibban, a resident of Mangalpur village in Bihar's East Champaran district, who fought decades-long legal battle against all odds. The dispute dates back to 1930, when Habibban's eldest son Rahmatullah purchased 1 katha and 4 dhur land from a villager, Afque Ahmad, in the name of his mother through a registered deed.

Rahmatullah alleged that his cousin Liaquat Hussain purchased the same piece of land from Afque just two days after the registration. Determined to secure her rights, Habibban filed a title suit against Liaquat in the court of Mothari sadar munsif in March 1964.

New tech helps EPFO clear claims faster

Shiva Rajora & Sidhartha TNN

New Delhi: The use of new technology is helping the Employees' Provident Fund Organisation (EPFO) settle claims faster apart from clearing backlog and depositing interest income into subscribers' accounts quickly.

The latest version of Centralised IT Enabled Services (CITES), which went live on July 3, as well as the revamped rules, have resulted in auto-processing of 88% of the claims filed by subscribers, as against 70% earlier, a senior official told TOI. In fact, claims — which could be related to partial withdrawals for education or health reasons — can be processed on the same day if filed in the morning. EPFO receives nearly 2 lakh claims everyday ranging from withdrawals, final settlement or other member services.

On Tuesday, it processed a record 11 lakh claims, worth Rs 3,000 crore, helping clear a bulk of the backlog as the transition to the new centralised architecture which resulted in a blackout from June 24 until the system went live.

The remaining 6-7 lakh cases are expected to be cleared by the end of the week, officials said. The new architecture allows service requests to be processed at an all-India level instead of being restricted to specific regional offices.

"Member services had improved, now subscriber services are also going to be smooth. EPFO board has said (EPFO is changing)," said the official.

Besides, the CITES 2.0 project has also enabled EPFO to credit 8.25% annual interest for the financial year 2025-26 to its nearly 34 crore members by Wednesday, significantly expediting the interest credit process.

Earlier, this exercise usually took one Oct-Nov.

The modernised architecture enables faster claim disbursement with auto-settlement limit for advance claims also raised to Rs 5

Automation is expected to leave more time for EPFO staff to process other issues, including settling pension cases where accounts belong to the pre-UAN times

lakh, interest paid till the day of final payment authorisation in case of final settlements and for automatic provision fund transfer facility for Aadhaar enabled UANs upon change of job, hence members will not be required to submit separate applications for the transfer.

This will also help in disbursing money lying unclaimed in nearly 7 lakh small-balance inactive accounts which have up to Rs 1,000, without requiring any claim application or paperwork from account holders.

"Member grievances are related to claims rejection are also going to come down as they undergo automated pre-validation before going to EPFO offices and guidance will be provided online, leading to improvements in first time acceptance rates," the official said.

Cabinet nod for 2 Kashi projects worth ₹25,446cr

New Delhi: The Union Cabinet on Wednesday approved two major elevated road projects in Varanasi — Ganga Corridor and Varanasi Corridor — aimed at easing traffic congestion in the holy city and providing high speed connectivity from two national highways and the Ring Road. The two roads to be built with design speed of 100 kmph compared to existing road where vehicles crawl at 20 kmph will cost Rs 25,446 crore, reports Dipak Dash.

Announcing the decisions, I&B minister Ashwini Vaishnaw said the projects are critical considering that the holy city gets more than 15 crore tourists and pilgrims every year.

In posts on X, PM Narendra Modi said, "We are resolute in making darshan of Baba Vishwanath in Varanasi even more accessible and pilgrims every year."

Govt said the 46-km Ganga Corridor will decongest the NH-19 (Prayagraj-Varanasi).

Delay may make registrations of birth, deaths tough

Dipak Dash @timesofindia.com

New Delhi: People who fail to report births and deaths to authorities within two years may face a stricter registration process under a proposed amendment to the law governing civil registration, replacing the existing provision under which such cases can be approved by a district magistrate (DM), sub-divisional magistrate (SDM) or executive magistrate.

The proposed amendment to the Registration of Births and Deaths Act, piloted by the home ministry was placed before the Cabinet Wednesday, TOI has learnt.

People familiar with the proposal said the objective is to tighten delayed registration and ensure near real-time recording of births and deaths, crucial for policy planning and governance. It will also check misuse through greater scrutiny.

Unemployment rate in June remains at 5.5%

New Delhi: Unemployment rate in June remained the same at 5.5%, but women found it difficult to get work, the latest monthly PLFS data released by NSO Wednesday showed.

Female UR in current weekly status (CWS) rose to 5.9% from 5.6% during the month, while jobless rate among men declined to 5.3% from 5.4%. Female labour force participation rate (LFPR) slid for the fourth consecutive month to 32.7%, due to a sharp decline seen in rural areas (36.6%) from a high of 40% in Feb.

In CWS, activity status is determined on reference period of past seven days preceding the date of survey. Under this, a person is considered unemployed in a week if they did not work even for one hour on any day during the reference week.

India - UK CETA

Empowering India's Spices Export Growth through Global Partnerships

India-UK Comprehensive Economic and Trade Agreement (CETA) came into effect on 15 July 2026

Under the visionary leadership of Hon'ble Prime Minister Shri Narendra Modi, a new chapter unfolds for India's spice exports.

The coming into effect of the India-UK CETA is expected to accelerate bilateral trade between the two nations. As a leading exporter of spices and spice products to the UK, India is well positioned to leverage the opportunities created by the Agreement, strengthening exports and reinforcing the global presence of Indian spices.

Key Highlights

- Enhanced competitiveness for Indian spice exporters in the UK
- 142.76 million USD spice exports to the UK in 2025-26
- Import duty on Indian chillies reduced from 4.5% to Zero
- Access to more than 1.5 billion USD spices market of UK

Towards a stronger export ecosystem for farmers, processors and exporters
