Sub: Investor Presentation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Sir/Madam,

We attach herewith Investor Presentation of financial results of the Company for the quarter and half year ended on 30th September, 2026.

The above information is also available on the Company's website at: https://www.eiel.in/investor

Kindly take the above information on record.

Thanking you,

For Enviro Infra Engineers Limited

ENVIRONMENTAL SUSTAINABILITY

Water and Wastewater Solutions

Designing, construction, operation and maintenance of Water and Wastewater Treatment Plants (WWTPs) and Water Supply Scheme Projects (WSSPs).

Cost effective and viable solutions with use of advanced technologies.

Projects contributing to Sustainable Development through installation and use of green energy solutions likes solar powers plants and CBG plants.

Renewable (Solar, BESS, Wind)

Designing, engineering, construction, operation and maintenance of Solar, Wind, BESS and Hybrid Renewable Energy Projects, additionally undertaking IPP activities in Solar and BESS.

Sustainable solutions powered by advanced technologies.

Contributing to sustainable development through clean and reliable energy infrastructure.

Operating Performance

56% revenue CAGR & 83.6% PAT CAGR from FY21 to FY26

Delivered 58 water & waste water treatment plants with capacity of 1,018 MLD

Q2 FY27 Financial Highlights:

- Revenue from Operations: ₹ 3,638 Mn
- EBITDA: ₹ 749 Mn, with EBITDA margin of 20.58%
- Profit After Tax (PAT): ₹ 395 with PAT margin of 10.62%

PERFORMANCE
HIGHLIGHTS

Management Comment

MR. SANJAY JAIN

Chairman and Whole-time Director

"Q2 FY27 reflects strong growth in our operations, supported by continued execution across our core water and wastewater infrastructure business and the increasing contribution from our renewable energy portfolio. During the quarter, revenue grew by 60% year-on-year, while EBITDA increased by 15.3%, reflecting the growing scale and diversification of our business.

The core Water and Wastewater segment contributes around 71% of consolidated revenue, underscoring its significance to the overall business. Continuing the back of our strong execution capabilities, the company is in advanced stages of completion of 3 STP projects, namely 60 MLD STP at Mathura, 77 MLD STP at Yamuna Nagar and 50 MLD STP at Amritsar, being delivered well ahead of time.

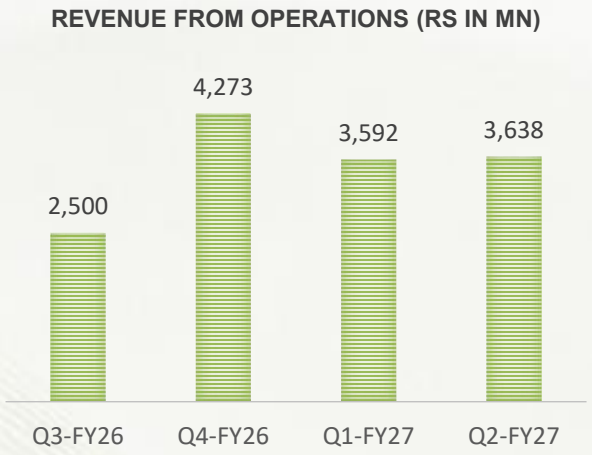

Our renewable energy vertical continues to gain momentum across solar, wind and Battery Energy Storage Systems (BESS), contributing approximately 29% of our revenues during H1 FY27. A key development during the quarter was the ₹224.19 crore wind EPC order secured through our step-down subsidiary, Suyog Urja, from Tata Power Renewable Energy Limited, further strengthening our capabilities and presence in the renewable energy sector.

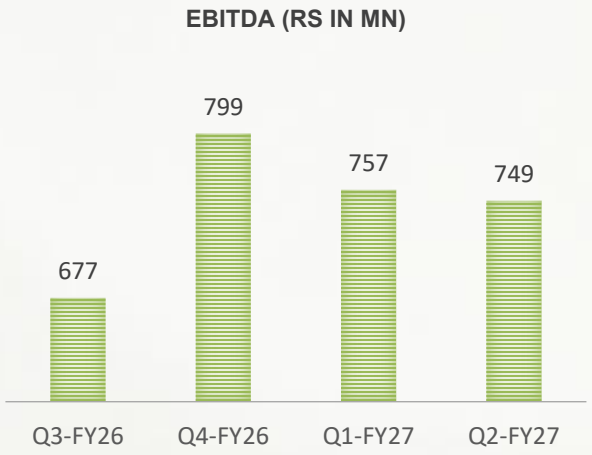

Our diversified order book of approximately ₹6,778 crore across water infrastructure and renewable energy provides healthy revenue visibility. While profitability has been impacted by changes in project mix and elevated costs, we remain focused on disciplined execution, operational efficiencies and maintaining sustainable margins as our businesses scale.

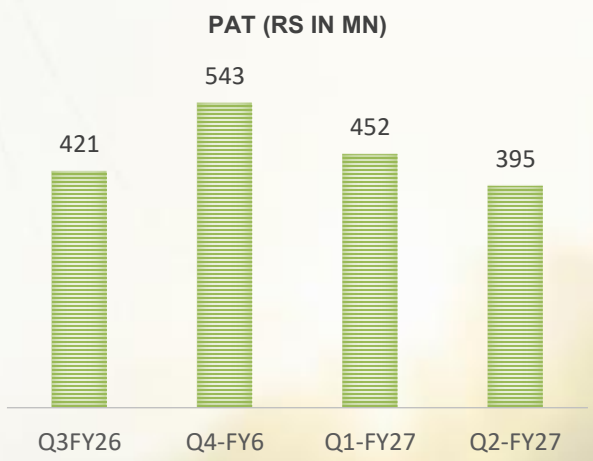

Looking ahead, with increasing investments in water infrastructure, renewable energy and energy storage, we remain confident in our long-term growth opportunities. Our focus continues to be on strengthening execution capabilities, expanding our presence across sustainable infrastructure segments and creating long-term value for our stakeholders."

Key Milestones

ENVIRO INFRA ENGINEERS LIMITED
EMPOWERING GREEN PLANET

2009-10

- **Incorporated** the Company
- Secured its first major EPC work order worth **₹16 crore** for setting up an **18 MLD CETP** at Balotra, Rajasthan,

2011-14

- Won the **52 MLD STP** project at Bathinda, Punjab worth **₹31 crore**, enhancing technical eligibility for larger projects
- Securing two projects from **HSIIDC** worth **₹37 crore**, strengthening its execution track record.

2016-17

- Expanded its wastewater portfolio by securing the **21 MLD CETP** project at Panipat
- Two **AMRUT Scheme STP** projects at Surendranagar and Anand, Gujarat, with a combined value of **₹77 crore**.

2021

AWARDED FIRST HAM PROJECT - 3 STPs having capacities of 63 MLD on by UP Jal Nigam and National Mission for Clean Ganga (NMCG)

2022

CONVERSION OF THE COMPANY from Private Limited to Public Limited

2023

- **ACHIEVED MILESTONE – 3 OF "63 MLD STP HAM PROJECT"**, 7 months prior to scheduled time
- Incorporated EIEL Mathura Infra Engineers Pvt. Ltd.

2024

- Completed Bareilly HAM Project 2+ months early and received bonus
- Secured ₹343.87 Cr Namami Gange Project
- Achieved ₹700+ Crore turnover
- **IPO & Listing of shares**

2025

- **Incorporation** of **EIE Renewables** as subsidy.
- Achieved ₹1000+ crore turnover .
- Secured projects worth ~Rs 1400 Cr in water segment.
- Received start date of HAM Project in Saharanpur

2026

- **Won several new orders** across diversified projects including renewables and BESS
- Secured 2 new HAM Projects in UP
- **Acquired Suyog Urja** – a wind energy company – to expand renewable portfolio

Visionary Leadership - EIEL

MR. SANJAY JAIN

Chairman and
Whole-time Director

- Holds a B.E. in Chemical Engineering from Manipal University, with over 28 years of industry experience.
- Brings deep expertise in the design, construction, procurement, and inspection of water and wastewater systems, including sewage treatment plants and related machinery.
- Has a proven track record in project execution, operations, and maintenance.
- Leads the company's Tendering, Designing, Procurement, and Business Development functions.

MR. MANISH JAIN

Managing Director

- Holds a B.E. in Chemical Engineering from Punjab University, Chandigarh, with more than 26 years of professional experience.
- Specializes in the end-to-end lifecycle of water and wastewater infrastructure—from design and construction to inspection, commissioning, and long-term maintenance.
- Oversees Business Development, Finance, and Execution with a focus on sustainable growth and operational excellence.

Visionary Leadership – Renewables Division

ENVIRO INFRA ENGINEERS LIMITED
EMPOWERING GREEN PLANET

MR. KARTIK JAIN

COO – EIE Renewables

- Brings over 15 years extensive expertise rooftop on-grid, off-grid, and hybrid systems.
- Holds a B.Tech in Electrical & Electronics Engineering and is a Certified Chartered Engineer, with of experience in the solar and renewable energy sector.
- Has a strong track record in procurement, commissioning, technical design, vendor management.
- Leads the company's Operations, Project Execution, Procurement, Business Development, and Strategic Growth initiatives.

MR. CHETRAJ KHADKA

CEO – Suyog Urja Ltd.

- Brings over 30 years of overall experience, including 18+ years in the Wind Energy sector, ensuring continuity in leadership, strategy, and execution.
- Civil Engineer with extensive experience working alongside leading renewable energy developers.
- Drives seamless project execution and sustained business momentum.
- Supported by a highly experienced technical team with strong end-to-end lifecycle expertise.

Renewables Division is managed by a dedicated team comprising experienced industry veterans with deep expertise across the renewable energy value chain

Key Strengths

ENVIRO INFRA ENGINEERS LIMITED
EMPOWERING GREEN PLANET

Diversified Project Portfolio

From STPs and sewerage networks to WTPs with water transmission pipelines, CETPs incorporating Zero Liquid Discharge (ZLD) technology, and now Renewable Energy solutions including Solar, Wind, and Battery Energy Storage Systems (BESS), Enviro has built a broad and diversified portfolio across the entire environmental infrastructure value chain.

In-House Design & Execution Strength.

Enviro's in-house engineering and execution team ensures:

- Accurate, specification- aligned bidding
- Timely, cost-effective project delivery
- Minimal reliance on outsourced design

Integration of Advanced Technologies in WWTP & WSSP Installations

- Deployment of Sequencing Batch Reactors (SBR) to meet stringent effluent quality standards set by the National Green Tribunal (NGT)
- Installation of High-Rate Anaerobic Digesters (HRAD) for efficient organic load reduction
- Adoption of tertiary treatment technologies including dual media filters, activated carbon filters, rapid sand gravity filters, chlorination, UV disinfection, disc filters, and ultra-filtration for enhanced water quality
- Achieving Zero Liquid Discharge (ZLD) compliance in most STPs and CETPs, enabling reuse of treated water for horticulture, industrial processes, washing, and refrigeration

Experienced Promoters and senior Leadership

Backed by over 2 decades of individual experience in the water and wastewater treatment sector, our promoters and senior management bring deep industry expertise, strategic vision, and executional excellence.

EIE Renewables is managed by a dedicated team comprising experienced industry veterans with deep expertise across the renewable energy value chain.

Strong Government & Institutional Project Presence

- All Projects backed by Central & State Government bodies
- Execution experience in World Bank-funded projects
- Participation in AMRUT, NMCG (National Mission for Clean Ganga) & SBM (Swachh Bharat Mission) schemes
- Institution-backed projects with structured payment mechanisms ensuring revenue visibility

ISO Certification (EIEL)

ENVIRO INFRA ENGINEERS LIMITED
EMPOWERING GREEN PLANET

CERTIFICATE OF COMPLIANCE

UK CERTIFICATION AND ASSESSMENT LTD.

CE

We hereby declare that the technical file of product complied with the requirement of Council Directive 2006/42/EC Machinery Directive.

Manufacturer

Name : ENVIRO INFRA ENGINEERS LIMITED

Address : 201, 2ND FLOOR RG METRO ARCADE SECTOR-11 ROHINI DELHI-110086.

Products : SEWAGE TREATMENT PLANT (STP), WATER TREATMENT PLANT (WTP), COMMON EFFLUENT TREATMENT PLANT (CETP), SEWERAGE SCHEMES, WATER SUPPLY SCHEMES, OPERATION & MAINTENANCE.

The Certification body has performed an audit of the above product quality system covering the design, manufacture and final inspection of the certified product. The quality system has been assessed, approved and is subject to continuous surveillance according to Council Directive 2006/42/EC Machinery Directive.

This certificate is issued under the following conditions:

1. It applies only to the quality system maintained in the manufacture of above referenced models and it does not substitute the design or type-examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality systems are changed.
3. The certificate validity is conditioned by positive results or surveillance audits.
4. After fulfilling the relevant Standard testing performance, the manufacturer shall affix to each device, of the referenced models.

The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant EC Directives. The statement is based on a single evaluation of one sample of above mentioned product. It does not imply an assessment of the whole production.

Validity of this certificate can be verified at https://www.ukascert.co.uk/verify.aspx

Certificate Number:	CE-1242
Issue Date:	17th September 2025
Valid Until:	16th September 2028
1st Surveillance on or before:	16th September 2026
2nd Surveillance on or before:	16th September 2027

Industry Opportunities – Renewables

India's energy transition is driving demand for integrated renewable infrastructure

280 GW

Solar Installed by 2030 target

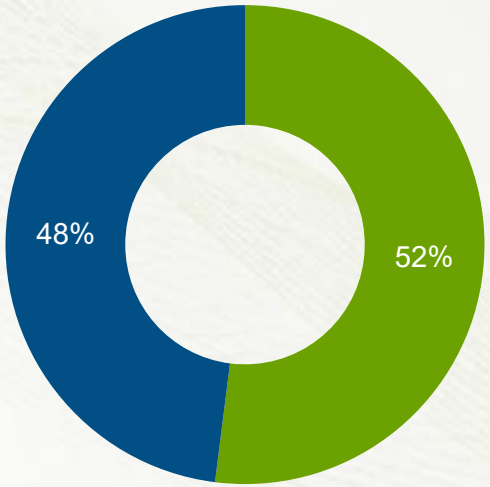

100 GW

Wind Installed by 2030 target

208 GWh

BESS Pipeline by 2030

Renewable vs Non-Renewable Capacity Mix (%)

Non-fossil (RE + Hydro + Nuclear): 52%
(vs. 30% non-fossil in March 2015)

Fossil: 48%

- **Solar:** India's installed solar capacity reached ~162 GW by June 2026, adding 26.3 GW in H1 2026 alone — a 43% YoY jump, led by Gujarat and Rajasthan.
- **Wind:** Cumulative wind capacity stands at 57.4 GW, with 2.9 GW added in H1 2026; Gujarat contributed 43% of new capacity.
- **BESS:** India's battery storage pipeline has crossed 92 GWh, backed by a ~₹5,400 crore VGF outlay (May 2026) for ~30 GWh of new capacity, as tariffs continue to fall sharply.

WAY AHEAD

Growth Strategies

ENVIRO INFRA ENGINEERS LIMITED
EMPOWERING GREEN PLANET

Expansion from Pan-India to Global

Expanding beyond its established presence across 17 Indian states through a phased strategy focused on entering high-growth international markets, leveraging its engineering expertise, execution capabilities and sustainable infrastructure solutions.

Plan to bid for more HAM projects

Strengthen the Company's HAM portfolio by actively bidding for higher-value projects, leveraging its execution capabilities, financial strength and growing infrastructure expertise.

Capitalize on Government policy initiatives in WWTP and WSSP sectors

Schemes like AMRUT 2.0, Namami Ganga Programme, National River Conservation Plan (NRCP) & National Plan for conservation of Aquatic Eco-system (NPCA)

Increasing the size of projects and pre-qualification

- Strengthen our presence in WWTP and WSSP space.
- Increase the size of Projects from the current 50 to 200 Minimal Liquid Discharge (MLD) for STPs and 20 to 50 MLD for CETPs
- Be pre-qualified for larger Projects of higher MLD to earn better margins
- Pursue larger Projects, both independently & in partnership with other players in the industry

Diversification into Renewables & Waste-to-Energy

Committed to transforming “Waste to Energy” in projects by installing solar power & Compressed Biogas (CBG) plants, maximizing energy efficiency & reducing carbon footprint.

Integration of solar & CBG plants in projects supports the production of green energy and makes Enviro eligible for sustainability incentives & benefits.

Corporate Social Initiatives

SEWAGE TREATMENT SOLUTIONS

- End-to-end STP solutions
- High efficiency & low operational cost
- Sustainable, compliant and reliable discharge

INDUSTRIAL WASTEWATER SOLUTIONS (ETP/CETP)

- Comprehensive ETP/CETP solutions
- Zero Liquid Discharge (ZLD) solutions
- Resource recovery & reuse
- Ensures environmental compliance

WATER TREATMENT FOR DRINKING PURPOSE

- Advanced purification & treatment systems
- Safe, reliable & sustainable potable water
- Serving communities and industries

SOLAR INTEGRATED SOLUTIONS

- Utility-scale & captive solar solutions
- Reduces carbon footprint
- Enhances operational efficiency of plants

BATTERY ENERGY STORAGE SYSTEMS (BESS)

- Advanced BESS solutions
- Supports grid stability & peak shaving
- Enables reliable and optimized energy utilization

WIND ENERGY (VIA STRATEGIC ACQUISITION)

- Wind IPP, EPC & O&M capabilities
- Strong project pipeline
- Expanding clean energy portfolio

CBG

Some of our STP and CETP facilities are integrated with solar and Compressed Biogas (CBG) systems to enhance operational efficiency of plants.

Sustainable Solutions for a Greener Tomorrow

Driving Circularity. Creating Value.

Responsible Today. Resilient Tomorrow.

Integrated Solutions. Sustainable Value. Cleaner Future.
