Enviro Infra Engineers Limited (EIEL) Receives Order under AMRUT 2.0 for EPC of Aurangabad Sewerage Network and STP Scheme

Increases its Geographical Presence with its Foray in the State of Bihar

Value of Order: ₹ 411.08 Crores (including GST)

New Delhi, March 12, 2026: Enviro Infra Engineers Limited (NSE: EIEL, BSE: 544290), a prominent EPC Player in Water & Waste-Water Treatment across PAN India, has secured a new Project from Bihar Urban Infrastructure Development Corporation Limited for Aurangabad Sewerage Network and STP under AMRUT 2.0, as per the following details:

(I) EPC of 20 MLD Sewage Treatment Plant alongwith all appurtenant structures and allied works, disinfection controlled with Scada including (II) Build 8 Nos. pumping station with 5400 MTR rising main, sewerage network of 196 Km (III) O&M for 5 years

Mr. Sanjay Jain, Chairman, Enviro Infra Engineers Limited, said: *“We are proud to have been entrusted with this significant project by the Government. Our focus remains on delivering high-quality, sustainable, and timely solutions that contribute to the nation’s water management and sanitation goals. We are committed to maintaining the highest standards of engineering and execution.”*

About Enviro Infra Engineers Limited (EIEL):

EIEL is one of the leading EPC Companies in the business of Water and Wastewater Treatment Plants (WWTPs) and Water Supply Scheme Projects (WSSPs) for government authorities/bodies with over 15 years of experience. WWTPs include Sewage Treatment Plants (STPs), Sewerage Schemes (SS) and Common Effluent Treatment Plants (CETPs).

The Company has an in-house team for designing, engineering and construction which makes us self-reliant on all aspects of our business. The teams are supported by third-party consultants and industry experts to ensure compliance and quality standards laid down by the industry and government agencies & departments. We also have our own team for civil construction works thereby reducing dependence on third parties. The scope of our services typically includes design and engineering of the projects, procurement of raw materials, and execution at site with overall project management up to the commissioning of projects. Post commissioning, operations and maintenance of these plants for a certain period of time is generally a part of the award. We have a team of dedicated engineers and personnel focused on operations and maintenance of completed projects.
