Esconet Technologies Launches HexaData® ResQ™

Introducing a Revolutionary Backup Appliance for Enhanced Data Security

PRESS RELEASE

Esconet Technologies Limited Unveils HexaData® ResQ™ Backup Appliances — A Next-Generation Solution for Data Security and Rapid Recovery

New Delhi, September 1, 2025 — Esconet Technologies Limited, a leading provider of high-performance IT infrastructure, supercomputing, and data protection solutions for over a decade, is proud to announce the launch of **HexaData® ResQ™ Backup Appliances**. This innovative product line offers a seamless integration of speed, security, and simplicity, designed to safeguard mission-critical data against failures, disasters, and ransomware threats.

INTRODUCING HEXADATA RESQ™ BACKUP APPLIANCES: THE FUTURE OF DATA PROTECTION

Built on robust technology foundations—powered by **Scality ARTESCA** and **Veeam Backup & Replication**—HexaData ResQ™ delivers enterprise-grade backup and cyber vault solutions that ensure resilience and rapid recovery.

New Delhi, September 1, 2025 – *Esconet Technologies Limited*, a trusted provider of high-performance IT infrastructure, supercomputing, and data protection solutions for over a decade, today announces the commercial launch of **HexaData ResQ™ Backup Appliances**, a comprehensive, enterprise-grade offering that combines ultrafast backup and recovery capabilities with advanced cyber vault security, purpose-built to safeguard mission-critical data against system failures, disasters, and ransomware threats.

KEY FEATURES & BENEFITS:

- **High-Performance Throughput:** Backup speeds of up to **7.5 TB/hr** and restore rates of **5 TB/hr**.
- **Flexible Hardware Options:** Available in pedestal, 1U, 2U, and 4U chassis, with usable capacities ranging from **21 TB to 442 TB**.
- **Advanced Security:** Incorporates **immutable S3 object-lock, end-to-end encryption**, and **role-based access control** to provide ransomware resilience.
- **Hybrid Cloud Compatibility:** Enables seamless data mobility across on-premises, cloud, and edge environments.
- **Quick Deployment:** Pre-configured, validated stack combining Veeam and ARTESCA for rapid, plug-and-play deployment.

ADDRESSING MODERN DATA CHALLENGES:

"In today's digital landscape, organizations face escalating risks from cyber threats and data loss," said **Santosh Agrawal**, Managing Director of Esconet Technologies Limited. **"HexaData ResQ™ empowers businesses with reliable, secure, and rapid data recovery solutions—ensuring operational continuity and resilience against emerging threats."**

IDEAL USE CASES:

HexaData ResQ™ is tailored for SMBs, large enterprises, government agencies, and public sector organizations seeking secure, scalable backup solutions. Key applications include:

- **On-Premises Backup Repositories:** Fast, scalable local backups for immediate data protection.
- **Cyber Vaults for Ransomware Defence:** Immutable, isolated copies for operational continuity and compliance.
- **Hybrid Cloud Strategies:** Tiered backups leveraging local and cloud infrastructure.
- **Disaster Recovery:** Accelerated restoration of critical workloads.
- **NAS-to-Object Migration:** Efficient storage solutions for unstructured data.

ESCONET: YOUR TRUSTED PARTNER IN SECURE IT INFRASTRUCTURE:

Founded in 2012, Esconet Technologies has established itself as a trusted system integrator specializing in IT hardware, cloud infrastructure, and data security solutions for diverse sectors including manufacturing, government, and academia. An ISO 9001, ISO 27001, ISO 20000-1, ISO 14001 certified organization with extensive expertise with OEM technologies such as Dell, HPE, Cisco, Broadcom, Omnisia, Scality and Veeam, ensuring comprehensive, cross-platform compatibility.

AVAILABILITY & SUPPORT:

HexaData ResQ™ Backup Appliances are now available through Esconet and authorized channel partners. Each unit includes a **three-year service and subscription package**, with options for extended coverage tailored to enterprise needs.
