Escorts Kubota Limited Tractor Volume grew by 6.6% in March 2026

Faridabad, April 1st, 2026: Escorts Kubota Limited Agri Machinery Business in March 2026 sold 12,119 tractors registering a growth of 6.6% as against 11,374 tractors sold in March 2025.

Domestic tractor sales in March 2026 were at 11,582 tractors registering a growth of 7.5% as against 10,775 tractors in March 2025. The domestic tractor industry continued steady performance in March 2026, supported by sustained rural demand and the gradual onset of Rabi harvesting in select regions. While harvesting activities experienced a slight delay due to recent rainfall, the overall Rabi outlook remains positive, aided by above-normal reservoir levels across the country. With improved water availability and strengthening farm sentiment, agricultural momentum is expected to continue in the coming months. However, the evolving geopolitical situation poses intermittent supply-side risks, including the potential non-availability of key fertilizers, which could impact Kharif crop preparedness.

Export tractor sales in March 2026 were at 537 tractors as against 599 tractors sold in March 2025.
