Nabi Replaces Injured Bumrah, First from J&K to Get Test Call-Up

New Delhi: Jammu and Kashmir seamer Auqib Nabi replaced injured Jasprit Bumrah in India's squad for the two-Test series in Sri Lanka on Monday, becoming the first player from the Kashmir Valley to earn a Test call-up. Bumrah has been ruled out after failing to recover fully from the left knee injury he sustained during the one-day international series against England. The 29-year-old Nabi, who hails from a remote village in Baramulla district, is the third player from J&K to be picked for the senior national team after Parvez Rasool and Umran Malik, both of whom represented India in limited-overs cricket. **PTI**

Infantino Sought Trump Help After Failed World Cup Sell-off Plan: Report

FIFA president Gianni Infantino sought support from the Trump administration amid mounting criticism after his abandoned plan to sell a stake in World Cup commercial rights, the New York Post said on Monday, citing sources familiar with the matter. The Post reported that Infantino had repeatedly tried and failed to reach US President Donald Trump by phone since the proposal collapsed on Friday, and that the FIFA chief felt "isolated" by an avalanche of negative media coverage. With the idea abandoned, attention has now turned to the potential repercussions for Infantino. **Reuters**

Leveraging Data That Drives the Manufacturing Enterprises of Tomorrow

With AI as its brain and sustainability the heart, the agile and smart plants of the future could listen to consumer needs

TE.edit@timesofindia.com

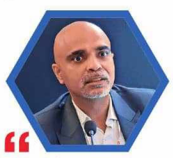
Data lies at the heart of the modern enterprise, powering every aspect of business operations, decision-making and growth. Manufacturing is no exception. As factories become increasingly connected and intelligent, technology alone is no longer enough; enterprise-wide transformation hinges on people, leadership and the effective use of data.

These themes took centre stage at two roundtable discussions hosted by The Economic Times in association with Rockwell Automation, bringing together senior leaders from the food & beverage (F&B) and auto components industries. With global economic and geopolitical uncertainty, the leaders explored how manufacturers can build resilient, future-ready businesses by embracing digital transformation.

The F&B discussion focused on how companies are navigating shifting consumer demand, regulatory & policy changes, supply chain disruptions and sustainability pressures through smarter manufacturing. The role of connected factories, data-driven decision-making and workforce upskilling in improving agility, quality and operational efficiency was discussed. They stressed that successful transformation requires leadership commitment, cross-functional collaboration and a culture of continuous innovation.

PLEX by ROCKWELL AUTOMATION presents THE ECONOMIC TIMES SMART MANUFACTURING: NAVIGATING DISRUPTION

The panel discussion for the auto components industry focused on how India can evolve from being a cost-efficient manufacturing base to a global innovation hub. Industry leaders argued that achieving ambitious export and manufacturing goals will require sustained investments in R&D, AI, smart factories, digital infrastructure and talent development. They emphasised that the biggest barriers to transformation are often cultural rather than technological, with clean data, organisation-wide ownership and leadership buy-in emerging as key enablers. The conversation also underscored the importance of embedding ESG, quality and global competitiveness into long-term manufacturing strategy.



True transformation is always business-led; technology is the strategic enabler that powers it.

Manas Mehra
Global CIO, Dabur

We have challenges in manufacturing like global reporting initiative and ESG. But smart manufacturing can solve them by automating real-time ESG data capture and enabling accurate GRI reporting

Pramod Kumar Padhy
Head, Manufacturing Excellence, DS Group

It is a matter of collaboration. How you are going to generate the demand, convert it into the plan, and what is the strategy you are adopting to convert it into the business

Shailesh Tewari
Chief of Plant Operations, Hamdard

Industry 4.0, smart factories, and large-scale skilling will drive manufacturing competitiveness, while government-backed infrastructure and ecosystems are essential to achieve global quality standards and scale

Parna Ghosh
President & Group CIO and Data Protection Officer, Uno Minda

If we want to hold the third-largest spot (in the economy), we need scale. If we don't invest in R&D as a nation, we won't get there

Uday Narang
MD, Omega Seiki Mobility

The conversation has shifted from AI pilots to enterprise transformation. Business leaders want factory-wide visibility, connected data and future-ready systems built for tomorrow's workforce

Murali Manohar,
Regional Director - Enterprise Software Business - Indo-Pacific, Rockwell Automation

Smart manufacturing succeeds through employee-led innovation, with AI enabling people. Shop-floor expertise, strong engagement and culture change are essential for productivity, quality and adoption

Prashant Khairnar
Dy. Executive Director & Chief Digital Officer, SPR Auto Technologies

We need predictive and prescriptive maintenance built on years of accumulated data. If we don't think long term, we're never going to build anything real

Sanjiv Kumar Jain
Group CIO, Krishna Group

Digital-first thinking must become organisational DNA, embedding AI, automation, and creativity into leadership, hiring and education to build problem-solvers rather than process-followers

Amit Kapil, CTO, Caparo India Operations & CEO, Caparo Technologies

The real competitive advantage isn't automation—it's creating a culture where every plant learns from another, every function owns outcomes, and every success is replicated

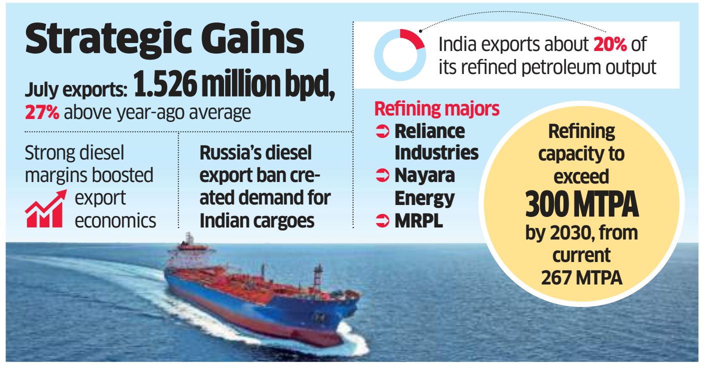
Krisshna Kant Mishra
AVP & Head IT, Subros

1.5 MILLION BPD OF REFINED PRODUCTS SHIPPED

India's Fuel Exports Hit One-year High in July on Refining Tailwinds

Strong diesel margins aided by Russia's export ban, ample crude supplies benefit Indian refiners

Sanjeev Choudhary



New Delhi: India's fuel exports surged to a one-year high in July as robust diesel margins, Russia's diesel export ban and ample crude supplies during the brief Gulf truce created favourable conditions for Indian refiners to maximise exports.

India exported 1.526 million barrels per day of refined fuels in July, 27% above the preceding 12-month average, according to shipping data from Kpler. The volume was the highest for any July since Kpler's records began in 2017.

"Exceptionally strong diesel margins, following the ban on Russian diesel exports, incentivised exports, with cargoes headed to regions previously supplied by the Middle East and Russia to fill the supply void," said Nikhil Dubey, lead analyst for refining at Kpler.

The wars in the Middle East and Europe have reshaped global fuel trade flows, driving up prices and creating opportunities for exporters. The conflicts have disrupted supplies from Russia and the Gulf, two key sources of refined fuels for the global market.

Ukraine's relentless attacks on Russian refineries have forced Moscow to ban petrol and diesel exports, leaving it dependent on imports, including from India, to meet domestic fuel demand. Countries such as Turkey, which traditionally sourced fuel from Russia, are now buying Indian cargoes as substitutes, Dubey said.

Reliance Industries accounts for nearly three-quarters of India's refined fuel exports. Rosneft-backed Nayara Energy is the other major exporter and reportedly shipped fuel to Russia last month. State-run refiners primarily serve the domestic market and export little.

Windfall Duty on Fuel Exports Hiked

New Delhi: The government on Monday raised the windfall tax on petroleum product exports, increasing levies on petrol, diesel and ATF as part of its fortnightly review of export duties. As per notifications issued by the finance ministry, export duty on petrol has been raised to ₹3.5 per litre from ₹2.5. The levy on diesel exports has been hiked to ₹25.5 per litre from ₹15.5, including the Road and Infrastructure Cess (RIC) component. For ATF exports, the windfall tax has been raised to ₹22 per litre from ₹14.5. The revised rates come into force Monday.—**Our Bureau**

Rajya Sabha Passes MSME Amendment Bill

SC Rejects IEX's Appeal Challenging Aptel Nod to Market Coupling

Indu Bhan

New Delhi: The Supreme Court on Monday dismissed the Indian Energy Exchange's (IEX) appeal challenging the Central Electricity Regulatory Commission's (CERC) order to implement market coupling for the day-ahead market and amend the regulations accordingly.

A bench of justices PS Narasimha and Alok Aradhe refused to interfere with the Appellate Tribunal for Electricity's (Aptel) February 13 order allowing the electricity regulator to proceed with implementing market coupling, a process designed to merge buy/sell orders from all power exchanges to improve price discovery.

The apex court refrained from expressing any opinion at this stage, given that the regulator's norms were only in the draft stage. It also kept all questions of law open for consideration at an appropriate stage.

While questioning IEX as to how its right to do business would get hampered and what the problem was with the current regulatory regime, Justice Narasimha observed that "your monopoly will be sealed".

However, the commission told the top court that the power market norms, which include a framework for market coupling, would be introduced in the next four-six weeks.

IEX had said that the commission's July 2025 market coupling order would hurt its market share. It argued that the order was "arbitrary", "violated principles of natural justice" and would only lead to loss of its market share without any conceivable benefit.

CERC had, in 2024, decided to implement a Shadow Pilot on Power System and Cost Optimization through Market Coupling, and had directed the Grid Controller of India to implement it where IEX, Power Exchange India and Hindustan Power Exchange would take turns acting as the market coupling operator.
