NO FORMAL COMPLAINT NEEDED

Trai Weighs Disconnecting Nos Flagged by AI as Spam

Gig workers to be impacted; regulator holding discussion with stakeholders

Tech Talk

Trai aims to give more teeth to anti-spam measures

Regulator holding discussions with stakeholders

CURRENT RULES

Telcos initiate action if they receive five unique complaints in 10 days

THE PROPOSAL

Action can be initiated if an AI solution flags a number as potential spam for 10 consecutive days

Telcos received **334,317** spam complaints in Dec 2025

It was **116,213** in Feb 2025

Complaint against the number not necessary

LAUNCHED IN 2024...

Airtel's AI Filter Finds 71 b Pesky Calls and 2.9 b Messages till Jan

Our Bureau

New Delhi: Bharti Airtel said it had flagged more than 71 billion calls and 2.9 billion text messages as spam as of January this year, since the launch of its artificial intelligence (AI)-based spam filter for users in 2024.

The telecom operator blocked over 800,000 fraudulent links across the network and over-the-top messaging apps such as WhatsApp, and as a result, its users saw a 70% fall in incidence of scams compared to other networks, according to Bharti Airtel's chief regulatory officer Rahul Vatts.

The nature of scams has evolved from simple emails to an industrialised action operating out of high-tech call centres, said Vatts, who was addressing Safer Internet India Summit.

"This (scams) is now a very big industry. It's running on very state-of-the-art, high-tech call centres across the borders, and this is really an industrialised action... there is social engineering, digital risks. The financial loss attached to scams globally is \$1.03 trillion," Vatts said.

Airtel is using more than 250 parameters to determine patterns corresponding to spam and scam calls.

Kiran Rathee

New Delhi: Telecom regulator Trai is considering a proposal to act against calls and messages flagged as "potential or suspected spam" by AI-run solutions deployed by telcos, including disconnection of a mobile number, even in the absence of a formal complaint, officials told ET.

The Telecom Regulatory Authority of India (Trai) is holding discussions with stakeholders to give more teeth to anti-spam measures, they said.

Currently, telcos initiate action against a spammer if they receive five unique complaints in a span of 10 days.

Under the proposal being considered, action can also be initiated if an AI solution flags a number as potential spam for 10 consecutive days, even if there is no complaint against the number.

The move, if implemented, however, may impact gig workers like delivery agents and other frequent callers, whose calls are inadvertently termed as "potential spam" by the AI solutions deployed by telcos on many occasions.

A query sent to Trai regarding the issue remained unanswered at the time of going to press.

As of now, there are no specific rules to

identify any unsolicited communication as spam, and the solutions deployed by telcos use AI algorithms to analyse metrics like the sender's usage pattern, frequency of a call or message, duration, etc. on a real time basis to identify any communication as potential spam.

This is being done just to alert the consumer about the probability of the caller being a scammer, leaving the decision to accept or reject the call to the mobile user. And many of the calls identified as potential spam are genuine callers, including gig workers and other commercial entities.

Telcos are flagging 300-400 million calls and messages as suspected spam in a month through the AI solutions, according to officials. When it comes to complaints against spammers, however, the number is much smaller - an average of around 10,000 complaints per day.

As per data shared by communications minister Jyotiraditya Scindia in Parliament last week, telcos received a total of 334,317 unsolicited commercial communications (UCC) or spam complaints in December 2025. The number was as low as 116,213 in February 2025.

Of the complaints, the majority were against unregistered telemarketers, which usually call through a normal 10-digit mobile number.

8.21 MILLION ADDITIONS IN A MONTH

Airtel & Jio Lead Wireless Subscriber Growth in Dec; BSNL & Vi Lose Steam

Urban areas saw net addition of 6.86 m users while rural regions added 1.35 m

Our Bureau

Wired Up
Telcos and their user base

Wireless subscribers*
Additions in Dec (in m)

Mumbai: India's wireless subscriber base increased by 8.21 million in December, led by Bharti Airtel that also has the highest proportion of active users while market leader Reliance Jio also maintained steady growth.

State-run Bharat Sanchar Nigam Ltd (BSNL) and Vodafone Idea (Vi) continued to lag, data released by the Telecom Regulatory Authority of India (Trai) on Tuesday showed.

The country's wireless subscriber base, which includes mobile phone users and fixed wireless access users, stood at 1.26 billion as of December end. Urban areas saw net addition of 6.86 million subscribers in December, while rural regions added 1.35 million users.

Jio remained the country's largest wi-

reless operator with 489.05 million subscribers, followed by Airtel with 463.38 million, Vi with 198.77 million and BSNL with 92.76 million users as of December.

In December, Airtel added about 5.4 million wireless subscribers, while Jio gained nearly 3 million users. In contrast,

Vodafone Idea lost around 0.94 million subscribers and BSNL saw a decline of about 0.21 million users.

The number of active wireless subscribers, measured using the Visitor Location Register (VLR) that indicates users actively using mobile networks, stood at 1.16 billion, or about 93.5% of the total wireless base.

Airtel reported the highest activity levels, with nearly 99% of its subscribers active on the network. Jio also reported a high activity ratio, while Vi and BSNL continued to trail on this metric with only 85.3% and 58.2% active users, respectively.

In the broadband segment, which includes both wired and wireless broadband users, total subscribers rose to 1.01 billion at the end of December. Jio led the market with 514 million broadband subscribers, followed by Airtel with 314 million and Vi with 128 million users.

Ajit Pawar Plane Crash Fallout: DGCA Orders Safety Audit of Non-scheduled Operators

New Delhi: The Directorate General of Civil Aviation (DGCA) has ordered a safety audit of non-scheduled flight operators in the country. The safety check exercise follows the crash of a chartered jet belonging to VSR Ventures in Maharashtra last month, which killed the state's deputy chief minister Ajit Pawar and four others.

The special audit will be conducted in a phased manner, with large

charter operators to be covered first, DGCA said on Tuesday. In the first phase, the audit will cover 14 operators including charter companies and corporates. The team has been asked to submit inspection reports within 10 days of audit completion. The sector regulator has also announced a separate safety audit of VSR Ventures. — Our Bureau

Dadachanji Enters Deep-Tech Mfg & Advanced Engineering

New Delhi: The Dadachanji Group, which manufactures pharma products and allied technologies, has entered into deep-tech manufacturing, advanced engineering and automation solutions through Kairish Innotech. The move will help the group focus on building fully customised machines, medical devices and automation solutions for the pharmaceutical, healthcare and diverse industrial sectors, the company said in a release. Group chairman Kairus Dadachanji said the decision is in line with Prime Minister Narendra Modi's vision of "Make in India." — Our Bureau

H-1B Visa Republican Lawmaker Introduces Bill to End Program

New York | Washington: A US lawmaker has introduced a bill to end the H-1B visa program, saying corporations have repeatedly abused this system and imported cheaper foreign labour into America.

US Representative Greg Steube, a Republican from Florida, introduced the 'Ending Exploitative Imported Labour Exemptions Act or EXILE Act', a bill that would amend the Immigration and Nationality Act by ending the H-1B visa program.

"Prioritising foreign labour over the well-being and prosperity of Americans undermines our values and national interests," Steube said in a statement. "Our workers and young people continue to be displaced and disenfranchised by the H-1B visa program that awards corporations and foreign competitors at the expense of our workforce. We cannot preserve the American dream for our children while forfeiting their share to non-citizens. That is why I am introducing the EXILE Act to put working Americans first again," he said.

H-1B visas are used by a large number of Indian professionals to live and work in the US. The Trump administration has intensified its crackdown on immigration, both legal and illegal, imposing new and stringent restrictions on visas such as H-1B.

Describing abuse of the H-1B program as a national security threat, Trump last year signed a proclamation imposing a \$100,000 fee on new H-1B visas, a move that caused widespread panic, confusion and concern among Indian professionals. **PTI**

Apple, Google to Rejig Apps, says UK Watchdog

London: Apple and Google have agreed to make their mobile app stores fairer and more transparent for thousands of developers, Britain's antitrust regulator said on Tuesday, hailing it as an important first step in its tougher regime.

The Competition and Markets Authority (CMA) designated the two tech giants as having "strategic market status" in smartphones in October, giving it the power to demand specific changes to boost competition. Thousands of businesses rely on Apple's App Store and Google's Play Store to review and distribute their applications, and many have complained the process is unclear and inconsistent.

The CMA said that Apple and Google had committed to ensure their store rankings and reviews operated fairly, and to safeguard data collected from developers. **Reuters**

OBAMA-ERA LAW: CO₂, OTHER GREENHOUSE GASES ENDANGER PUBLIC HEALTH AND WELFARE

Trump Likely to Withdraw Climate Change Policy, Environmental Rules

Washington: The Trump administration is expected this week to revoke a scientific finding that has long been the central basis for US action to regulate greenhouse gas emissions and fight climate change, said a White House official.

The Environmental Protection Agency will issue a final rule rescinding a 2009 government declaration known as the endangerment finding. That Obama-era policy determined that carbon dioxide and other greenhouse gases endanger public health and welfare.

A White House official, speaking on condition of anonymity because they were not authorised to confirm the details ahead of an official announcement, confirmed the plans, which were first reported by the Wall Street Journal.

"This week, President Trump will be taking the most significant deregulatory actions in history to further unleash American energy dominance and drive down costs," said White House press secretary Karoline Leavitt in a statement. The finding is the legal underpinning of nearly all climate norms under the Clean Air Act for motor vehicles, power plants and other pollution sources that are heating the planet. **AP**

US Small-biz Optimism Eases in January

Sentiment among US small business owners fell in January for the first time in three months as optimism about the economic outlook eased. The National Federation of Independent Business optimism index slipped 0.2 point to 99.3. Seven of the 10 components that make up the gauge decreased, while three increased. **Bloomerg**
