Subject: Regulation 30: Presentation on Standalone and Consolidated Audited Financial Results of the Company for the quarter and financial year ended March 31, 2026

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find attached herewith a copy of the Presentation on Standalone and Consolidated Audited Financial Results of the Company for the quarter and financial year ended March 31, 2026.

The same is also being uploaded on website of the Company at https://www.unipartsgroup.com/home/quarterly_financial_results.

You are requested to take the above on record.

Thanking You,

Yours faithfully,

For Uniparts India Limited

Jatin Mahajan
Head Legal, Company Secretary and Compliance Officer

Encl: As above

Uniparts India Limited

Addressing the core needs of the **WORLD**.

*Leveraging engineering competencies and
a global delivery model*

Earnings Presentation - Q4FY26

This presentation and the accompanying slides (the "Presentation"), which have been prepared by Uniparts India Ltd (the "Company") solely for information purposes and do not constitute any offer, recommendation, or invitation to purchase or subscribe for any securities and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. This presentation does not constitute a prospectus, a statement in lieu of a prospectus, an offering circular, an information memorandum, an invitation or advertisement, or an offer document under the Companies Act, 2013, together with the rules thereunder, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 each as amended, or any other applicable law in India. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

Certain statements in this presentation concerning our future growth prospects are forward-looking statements that involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The Risk and uncertainties relating to the statements include, but are not limited to, risks and uncertainties regarding fiscal policy, competition, inflationary pressures, and general economic conditions affecting demand/supply and price conditions in domestic and international markets. The company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the company. There is no obligation on the Company or any of its directors, officers, employees, agents or advisers, or any of their respective affiliates, advisers, or representatives to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise and none of them shall have any liability (in negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. Certain figures (including amounts, percentages, and numbers), as applicable, have been rounded off to the nearest number and may not depict the exact number. Further, past performance is not necessarily indicative of future results.

This Presentation has been prepared by the Company based on information and data that the Company considers reliable. This Presentation may not be all-inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded. The Company does not make any promise to update/provide such a presentation along with results to be declared in the coming years. The information in this presentation has not been independently verified and has not been and will not be reviewed or approved by any statutory or regulatory authority or stock exchange in India. No representation, warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness, or correctness of the information and opinions in this presentation. Further, nothing in this document should be construed as constituting legal, business, tax, or financial advice.

Q4FY26 Performance

Business Overview

Annexures

Mr. Gurdeep Soni

Promoter, Chairman & Managing Director

The final quarter of FY26 provided further evidence that the global agriculture and construction equipment cycle is turning. Order books strengthened sequentially compared to Q3 FY26, although the pace of recovery varied across geographies and industry segments. At Uniparts, we had been observing these trends over the past few quarters and had accordingly communicated a cautiously optimistic outlook to our investors and stakeholders. We are therefore pleased to have delivered performance ahead of the guidance shared earlier.

In Q4 FY26, we delivered approximately 31% year-on-year revenue growth and about 18% sequential growth. For the full year FY26, revenues grew by 21% over FY25 against a guidance of mid teens growth.

As communicated previously, towards the end of Q3 one of our facilities in Ludhiana experienced a fire incident in the finishing shop. In order to ensure continuity of supplies, we swiftly implemented interim arrangements through customer approved outsourcing solutions, primarily leveraging our subsidiary operations and, to a limited extent, select external partners. I am happy to share that these measures enabled uninterrupted support to our customers with minimal disruption. In parallel, the rebuilding effort is well underway. The incident is fully covered under our insurance policy, and the claim was filed during the quarter. We expect normalcy to be restored on schedule.

In March, a fresh escalation in West Asia introduced supply chain uncertainty that required swift action. Our teams responded with agility, putting alternate arrangements in place rapidly to ensure uninterrupted customer supplies. While the evolving geopolitical situation has resulted in increasing input prices, some of this inflation is being mitigated by favourable exchange rates. Our foremost priority has remained business continuity and customer service. We continue to closely monitor developments, including impact on customer demand, and will respond proactively as the situation evolves.

Mr. Paramjit Singh Soni

Promoter, Vice Chairman and Executive Director

Operating Environment Update

Construction Equipment

In North America, customers' commentary and industry data point to continued growth in FY2027 for construction equipment, with demand expected to gradually strengthen through the year and the second half being better than the first. The market is supported by sustained investment in data centres, advanced manufacturing, and broader digital infrastructure, alongside ongoing IJJA-backed construction spending. Growth remains varied across sub-segments of the industry in this geography. In Europe, the construction equipment market appears to have passed its cyclical low, with early signs of recovery becoming more visible in Q4 FY2026. Demand for compact equipment has been a bright spot, and infrastructure-led spending, supported by fiscal stimulus, defense investment, and energy transition projects is expected to provide a more stable demand environment through the year. Recovery is gradual and uneven across markets, with the outlook of modest growth anticipated for the full year.

Taken together, these trends reinforce our view that the construction segment continues to offer stronger visibility and resilience across regions. Combined with new business wins, the improving industry environment is supporting growth momentum for Uniparts.

Small Agriculture

The small agriculture market in North America is on the path to recovery. Livestock and dairy production is leading demand, while the higher end of the small ag tractor range is also showing resilience as farmers begin to cycle through equipment replacement. Overall, the segment is poised for approximately 5% growth in FY2027, in line with industry estimates.

In Europe, the small agriculture market is showing early signs of stabilisation after a prolonged period of softening. Recovery is gradual and uneven across markets, with momentum expected to build through the second half of the year. Overall, the outlook for FY2027 is cautiously positive, with modest growth anticipated.

In India, the tractor industry demand remains stable.

With inventory replenishment gaining traction and order books strengthening, Uniparts is well positioned to capitalise on the improving cycle. Our strong market share and diversified presence in this segment give us confidence in delivering healthy growth through FY2027.

Operating Environment Update

Large Agriculture

Large agriculture continues to work through the current down-cycle, with leading OEMs affirming that Q4 FY2026 represents the cyclical trough. In North America, industry volumes for large tractors continue to track down in the mid-to-high teens year-on-year. In Europe, sentiment is gradually improving. For Uniparts, new programme wins in Europe and a diversified presence across tractor platforms position the company well to participate in the recovery as production volumes normalise through the year.

Aftermarket

The aftermarket business continues to be a stable contributor for Uniparts across North America and Europe.

Sequentially, we expect Q1 to be in line with Q4 and overall we expect H2 FY27 to be stronger than H1 FY27. Overall we expect the growth in FY27 to be in line with FY26 growth, supported by an improving industry cycle, execution of recent business wins and a gradual recovery across end markets.

Strategic Outlook

Our new business momentum has gained meaningful traction, with trailing twelve month wins exceeding INR 225 crores – growing over 12.5% quarter on quarter. Encouragingly, these wins are distributed across segments and geographies, reflecting both the breadth of our addressable market and the strength of our customer relationships. This pipeline provides us with good visibility into future growth and reinforces our confidence in Uniparts' ability to compound its market position through the cycle.

Product Categories

Three Point Linkage

Precision Machine Parts

Power Take Off

Fabrication

Hydraulic Cylinders

Note: We do small and medium scale Fabrication, PTO (Power Take-off) and Hydraulic components

3 Point Linkage - Revenue Contribution*: 47%

- Tractor specific designed and validated system.
- Allows for quick and easy attachment and detachment of implements.
- Allows for the balanced operation of the implement, improves efficiency, and reduces operator fatigue.

Market leaders in small tractor (<70 HP) linkage system globally.

Precision Machined Parts - Revenue Contribution*: 51%

- High-quality and reliable components for use in construction machinery, equipment, and structures.
- These parts are made to tight tolerances and durability to withstand the tough operating environment of OHVs.

Leading global supplier in fragmented market with manufacturing base in India and US and servicing all major geographies (Americas, Europe, Japan, India, ROW).

Precision Manufacturing

Higher Complexities

High No. of SKUs

Healthy Margins

*Revenue contribution is based on FY26 finished goods sales

Additional Synergistic Offerings to Extend System Boundaries

Power Take Off (PTO)

Device used to drive implements such as rotary tillers, mowers and other equipment requiring a mechanical drive by the tractor.

Description

Focused on producing PTO for the agriculture sector which allows the transfer of power from the tractor to the implement.

Key Highlights

International safety norm compliance

Features

Hydraulic Cylinders

Used as actuators to move mechanized components, by generating linear motion along an axis.

Synergies with existing activities in the 3PL application and hydraulic lift of tractors. Significant demand in international markets, due to increased mechanization.

High cleanliness norm specifications.

Fabrication

Large structural parts and chassis such as hitch frames, A-frames, front-end loader parts, grain lifters and engine frames.

Synergetic to products and vehicles currently serviced

- Provides superior finish
- Varied size designs

Deepen wallet share

Extended offerings in adjacent areas on the same OHVs for existing customers by offering integrated system solutions

Large Addressable Market

Estimated Market Size of ~\$10 billion; Establish new customer base by addressing growing markets of UTVs etc.

More Value Per Vehicle

Leveraging manufacturing expertise to diversify the product portfolio and move up the value chain

Healthy Margin Profile

Long term margin guidance remains at 20%

Warehouse and Manufacturing Facilities

Servicing all **10 leading Global OHV OEMs** in Agriculture and half of the leading **10 players** in the **CFM Segment***.

UIL has market leadership in supplying key systems and components like 3PL and PMP for OHVs globally : Complex, critical, and low volume high SKUs products.

Preferred component supplier for manufacturer of **<70 HP Tractors**.

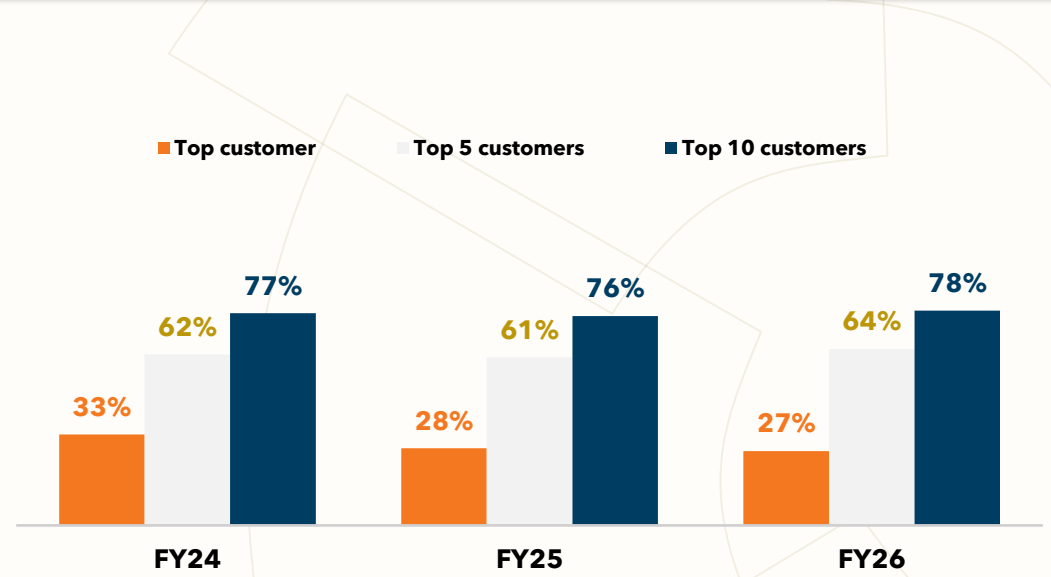

Involved from the design stage for new products and launches providing **end-to-end solutions**.

*CFM global players outside China

Four of the Top Five Customers have been Associated with Uniparts for over 10 years

Trend of Customers Contribution to Sales

Sales concentration with our top five customers increased to 64% in FY26, driven by disproportionate growth in new business, particularly within the construction segment. Importantly, our share with the largest customer remained stable, even as overall business volumes with them continued to grow
