खराडी-केशवनगर पूल १५ ऑगस्टपर्यंत खुला करा

लोकसत्ता प्रतिनिधी

पुणे : खराडी, मुंढवा-केशवनगर परिसरातील वाहतूक कोंडी कमी करण्यासाठी मुळा-मुठा नदीवर उभारण्यात आलेल्या खराडी-केशवनगर पुलाचे मुख्य बांधकाम पूर्ण झाले आहे. केवळ केशवनगरकडील ७०० मीटर जोडरस्त्याचे काम शिल्लक आहे. हे काम १५ ऑगस्टपर्यंत पूर्ण करून हा पूल वाहतुकीसाठी खुला करण्याचे आदेश स्थायी समिती अध्यक्ष श्रीनाथ भिमाले यांनी दिले.

या पुलाच्या मार्गातील अडथळा ठरणारी झाडे काढण्याचा मार्ग मोकळा झाला आहे. सध्या पदपथ आणि डांबरीकरणाची कामे सुरू असून १५ ऑगस्टपर्यंत ती पूर्ण करण्याचे आदेश देण्यात आले आहेत.

- **श्रीनाथ भिमाले**, अध्यक्ष, स्थायी समिती.

मगरपट्टा, हडपसर, वाघोली आणि वडगाव शेरी परिसरात आयटी कंपन्या, व्यावसायिक संकुले, शैक्षणिक संस्था आणि

मोठ्या गृहनिर्माण प्रकल्पांमुळे या परिसरात दररोज वाहतूक कोंडी होते. वाहतूक कोंडी सोडविण्यासाठी पुणे महापालिकेने तीन वर्षांपूर्वी मुळा-मुठा नदीवर नवीन पूल उभारण्याचा निर्णय घेतला होता. पथ विभागाने २३ कोटी २० लाख रुपयांच्या खर्चातून सार्वजनिक-खासगी भागीदारी (पीपीपी) तत्त्वावर या पुलाचे काम केले जात होते. दोन वर्षांपासून सुरू असलेल्या या प्रकल्पातील पुलाचे मुख्य काम पूर्ण झाले आहे. खराडीकडील

बाजूने सिग्नलसह वाहतुकीसाठी आवश्यक पायाभूत सुविधा उभारण्यात आल्या आहेत. मात्र, केशवनगरकडील रेणुकामाता मंदिर परिसरातून गोदरेजकडे जाणाऱ्या सुमारे ७०० मीटर जोडरस्त्याचे काम अद्याप सुरू असल्याने पूल वाहतुकीसाठी खुला करता आलेला नाही. पाऊस सुरू झाल्याने डांबरीकरणाच्या कामात तांत्रिक अडचणी निर्माण होत आहेत. हे काम तातडीने पूर्ण करण्याचे आदेश भिमाले यांनी दिले.

2	Effective 21 November 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising four Labour Codes collectively referred to as the 'New Labour Codes'. The Group has assessed the financial implications of these changes which has resulted in increase in gratuity liability arising out of past service cost by INR 1,171.61 lakhs primarily arising due to change in the definition of "wages". Considering the materiality and non-recurring nature of this impact, the Group has presented such incremental impact under "Exceptional items" in the consolidated financial results for the year ended 30 June 2026. The Group continues to monitor the finalisation of central and state rules, as well as Government clarifications on aspects of Labour Codes, and will incorporate accounting treatments, if any, based on these developments.
3	The Group is engaged in the business of providing software solutions to the global airline and travel industry. The Group's Chief Operating Decision Makers (which includes the Managing Director and members of the Board of Directors of the holding company) monitor and review the operating results of the Group as a whole. Therefore, there are no reportable segments for the Group as per requirements of Ind AS 108 'Operating Segments'.
4	The Board of Directors has recommended a final dividend of INR 35/- per equity share, subject to the approval of the shareholders at the ensuing Annual General Meeting.

SFBs post healthy Q1 numbers on strong loan growth

Suryoday Small Fin	29.36	Suryoday Small Fin	32.55
Capital Small Fin	16.31	Capital Small Fin	22.06

Source: Capitaline

Equitas and Suryoday reported sequential compression.

Loan growth remained above 20% across all major lenders, led by Suryoday SFB at 32.6%, Ujjivan SFB at 29.2% and Equitas SFB at 26.7%, as lenders continued to expand their secured loan portfolios. Deposit growth ranged from 10% to nearly 30%, although analysts said sustaining liability growth would remain critical as competition for retail deposits intensifies.

A key highlight of the quarter was the continued improvement in asset quality. Gross and net non-performing asset (NPA) ratios declined across all six listed SFBs, aided by

improving collection efficiencies and easing stress in the microfinance segment. AU Small Finance Bank had the lowest gross NPA ratio at 2.10% as of June 30, while Suryoday SFB had the highest at 6.60%.

Improving asset quality also translated into lower credit costs across most lenders, supporting profitability as provisioning requirements moderated with easing stress in microfinance portfolios. The transition to universal banking remained a key theme in management commentary during analyst calls, although lenders are at different stages of the process.

Niva Bupa Q1 profit jumps 93% under Ind AS

FE BUREAU
Chennai, July 30

STANDALONE HEALTH INSURER Niva Bupa Health Insurance reported a near doubling of net profit to ₹137.8 crore for the quarter ended June 2026 (Q1FY27), from ₹71.4 crore a year earlier, driven by strong premium growth and lower insurance service expenses.

Gross Written Premium (GWP) rose 32% year-on-year on a 1/n accounting basis to ₹2,150 crore. Within this, the retail health business grew 47% to ₹1,607 crore, helping increase the company's retail health market share to 11.1% from 10% in the corresponding quarter last year.

The results have been prepared under the Indian Accounting Standards (Ind AS), which became mandatory for insurers from April 1, 2026. Under Ind AS, commissions and other acquisition costs are amortised over the policy term instead of being recognised upfront, aligning expenses with revenue recognition and providing a more representative picture of insurers' profitability.

The firm also said its GWP figures are not directly comparable with earlier periods. Effective October 1, 2024, long-term insurance products have been accounted for on a 1/n basis, as mandated by the Insurance Regulatory and Development Authority of India (Irdai).

Under this method, premiums and related expenses for long-term policies are recognised proportionately over the policy term rather than entirely upfront.

Operationally, the insurer improved its underwriting performance, with the combined insurance service ratio (CISR)—which measures insurance service and operating expenses as a proportion of premium—improving to 100.2% from 103.2% a year ago.

3 The Company has created Zensar Employees Welfare Trust (the "ESOP Trust") for providing share-based payments, as a vehicle for distributing shares to employees under Employee Stock Option Scheme 2025. The Company has treated ESOP Trust as its extension. As at June 30, 2026, ESOP Trust has acquired 781,257 Equity shares from open market which are treated as Treasury Shares by the Company. The paid-up Equity Share Capital has been disclosed net of Treasury Shares and while computing the basic and diluted earnings per share, the weighted average number of equity shares held by ESOP Trust have been reduced.

4 Pursuant to notification of the New Labour Codes effective from November 21, 2025, the Company had, during the previous financial year ending March 31, 2026 recognised a one-time past service cost of ₹ 249 Million and for the quarter ending March 31, 2026 recognised a one-time past service cost of ₹ (5) Million on post-employment defined benefit obligations, based on actuarial valuation. Considering the non-recurring nature of the impact arising from a regulatory change, the same was classified as an exceptional item in the previous year. No further impact has been recognised during the quarter ended June 30, 2026.

5 Figures for the quarter ended March 31, 2026 and March 31, 2025 are the balancing figures between audited figures in respect of the full financial year and published year to date figures upto the third quarter of the respective financial year.

SFBs post healthy Q1 numbers on strong loan growth

KSHIPRA PETKAR
Mumbai, July 30

SMALL FINANCE BANKS (SFBs) reported a healthy set of June quarter earnings, with strong loan growth and lower credit costs driving a broad-based recovery in profitability. Asset quality also improved as stress in the microfinance portfolio eased.

The improvement in earnings was broad-based. According to data from Capitaline, AU Small Finance Bank remained the largest profit contributor, reporting a 37% year-on-year (YoY) rise in net profit to ₹796 crore. Ujjivan Small Finance Bank posted the strongest growth, with profit more than tripling to ₹317 crore, while Suryoday SFB's net profit more than doubled to ₹ 75 crore. Equitas Small Finance Bank returned to profit after reporting a loss a year earlier, while Jana SFB and Capital Small Finance Bank also posted double-digit growth in net profit.

"AU SFB has successfully regained its pre-merger business momentum, with growth exceeding 20% in FY26 and RoA reaching 1.8% in Q4FY26," ICICI Securities said in a report.

"Increasing visibility regarding its transition to a universal banking licence serves as a significant long-term valuation catalyst," it added.

Net interest income (NII) remained robust, reflecting healthy business momentum despite pressure on net interest margins (NIMs). While AU Small Finance Bank, Jana Small Finance Bank and Capital Small Finance Bank either maintained or improved their NIMs,

Equitas and Suryoday reported sequential compression.

Loan growth remained above 20% across all major lenders, led by Suryoday SFB at 32.6%, Ujjivan SFB at 29.2% and Equitas SFB at 26.7%, as lenders continued to expand their secured loan portfolios. Deposit growth ranged from 10% to nearly 30%, although analysts said sustaining liability growth would remain critical as competition for retail deposits intensifies.

A key highlight of the quarter was the continued improvement in asset quality. Gross and net non-performing asset (NPA) ratios declined across all six listed SFBs, aided by

improving collection efficiencies and easing stress in the microfinance segment. AU Small Finance Bank had the lowest gross NPA ratio at 2.10% as of June 30, while Suryoday SFB had the highest at 6.60%.

Improving asset quality also translated into lower credit costs across most lenders, supporting profitability as provisioning requirements moderated with easing stress in microfinance portfolios. The transition to universal banking remained a key theme in management commentary during analyst calls, although lenders are at different stages of the process.

Niva Bupa Q1 profit jumps 93% under Ind AS

FE BUREAU
Chennai, July 30

STANDALONE HEALTH INSURER Niva Bupa Health Insurance reported a near doubling of net profit to ₹137.8 crore for the quarter ended June 2026 (Q1FY27), from ₹71.4 crore a year earlier, driven by strong premium growth and lower insurance service expenses.

Gross Written Premium (GWP) rose 32% year-on-year on a 1/n accounting basis to ₹2,150 crore. Within this, the retail health business grew 47% to ₹1,607 crore, helping increase the company's retail health market share to 11.1% from 10% in the corresponding quarter last year.

The results have been prepared under the Indian Accounting Standards (Ind AS), which became mandatory for insurers from April 1, 2026. Under Ind AS, commissions and other acquisition costs are amortised over the policy term instead of being recognised upfront, aligning expenses with revenue recognition and providing a more representative picture of insurers' profitability.

The firm also said its GWP figures are not directly comparable with earlier periods. Effective October 1, 2024, long-term insurance products have been accounted for on a 1/n basis, as mandated by the Insurance Regulatory and Development Authority of India (Irdai).

Under this method, premiums and related expenses for long-term policies are recognised proportionately over the policy term rather than entirely upfront.

Operationally, the insurer improved its underwriting performance, with the combined insurance service ratio (CISR)—which measures insurance service and operating expenses as a proportion of premium—improving to 100.2% from 103.2% a year ago.

3 The Company has created Zensar Employees Welfare Trust (the 'ESOP Trust') for providing share-based payments, as a vehicle for distributing shares to employees under Employee Stock Option Scheme 2025. The Company has treated ESOP Trust as its extension. As at June 30, 2026, ESOP Trust has acquired 781,257 Equity shares from open market which are treated as Treasury Shares by the Company. The paid-up Equity Share Capital has been disclosed net of Treasury Shares and while computing the basic and diluted earnings per share, the weighted average number of equity shares held by ESOP Trust have been reduced.
4 Pursuant to notification of the New Labour Codes effective from November 21, 2025, the Company had, during the previous financial year ending March 31, 2026 recognised a one-time past service cost of ₹ 249 Million and for the quarter ending March 31, 2026 recognised a one-time past service cost of ₹ (5) Million on post-employment defined benefit obligations, based on actuarial valuation. SFBs post healthy Q1 numbers on strong loan growth

KSHIPRA PETKAR
Mumbai, July 30

SMALL FINANCE BANKS (SFBs) reported a healthy set of June quarter earnings, with strong loan growth and lower credit costs driving a broad-based recovery in profitability. Asset quality also improved as stress in the microfinance portfolio eased.

The improvement in earnings was broad-based. According to data from Capitaline, AU Small Finance Bank remained the largest profit contributor, reporting a 37% year-on-year (YoY) rise in net profit to ₹796 crore. Ujjivan Small Finance Bank posted the strongest growth, with profit more than tripling to ₹317 crore, while Suryoday SFB's net profit more than doubled to ₹ 75 crore. Equitas Small Finance Bank returned to profit after reporting a loss a year earlier, while Jana SFB and Capital Small Finance Bank also posted double-digit growth in net profit.

"AU SFB has successfully regained its pre-merger business momentum, with growth exceeding 20% in FY26 and RoA reaching 1.8% in Q4FY26," ICICI Securities said in a report.

"Increasing visibility regarding its transition to a universal banking licence serves as a significant long-term valuation catalyst," it added.

Net interest income (NII) remained robust, reflecting healthy business momentum despite pressure on net interest margins (NIMs). While AU Small Finance Bank, Jana Small Finance Bank and Capital Small Finance Bank either maintained or improved their NIMs,

Equitas and Suryoday reported sequential compression.

Loan growth remained above 20% across all major lenders, led by Suryoday SFB at 32.6%, Ujjivan SFB at 29.2% and Equitas SFB at 26.7%, as lenders continued to expand their secured loan portfolios. Deposit growth ranged from 10% to nearly 30%, although analysts said sustaining liability growth would remain critical as competition for retail deposits intensifies.

A key highlight of the quarter was the continued improvement in asset quality. Gross and net non-performing asset (NPA) ratios declined across all six listed SFBs, aided by

improving collection efficiencies and easing stress in the microfinance segment. AU Small Finance Bank had the lowest gross NPA ratio at 2.10% as of June 30, while Suryoday SFB had the highest at 6.60%.

Improving asset quality also translated into lower credit costs across most lenders, supporting profitability as provisioning requirements moderated with easing stress in microfinance portfolios. The transition to universal banking remained a key theme in management commentary during analyst calls, although lenders are at different stages of the process.

Niva Bupa Q1 profit jumps 93% under Ind AS

FE BUREAU
Chennai, July 30

STANDALONE HEALTH INSURER Niva Bupa Health Insurance reported a near doubling of net profit to ₹137.8 crore for the quarter ended June 2026 (Q1FY27), from ₹71.4 crore a year earlier, driven by strong premium growth and lower insurance service expenses.

Gross Written Premium (GWP) rose 32% year-on-year on a 1/n accounting basis to ₹2,150 crore. Within this, the retail health business grew 47% to ₹1,607 crore, helping increase the company's retail health market share to 11.1% from 10% in the corresponding quarter last year.

The results have been prepared under the Indian Accounting Standards (Ind AS), which became mandatory for insurers from April 1, 2026. Under Ind AS, commissions and other acquisition costs are amortised over the policy term instead of being recognised upfront, aligning expenses with revenue recognition and providing a more representative picture of insurers' profitability.

The firm also said its GWP figures are not directly comparable with earlier periods. Effective October 1, 2024, long-term insurance products have been accounted for on a 1/n basis, as mandated by the Insurance Regulatory and Development Authority of India (Irdai).

Under this method, premiums and related expenses for long-term policies are recognised proportionately over the policy term rather than entirely upfront.

Operationally, the insurer improved its underwriting performance, with the combined insurance service ratio (CISR)—which measures insurance service and operating expenses as a proportion of premium—improving to 100.2% from 103.2% a year ago.

3 The Company has created Zensar Employees Welfare Trust (the 'ESOP Trust') for providing share-based payments, as a vehicle for distributing shares to employees under Employee Stock Option Scheme 2025. The Company has treated ESOP Trust as its extension. As at June 30, 2026, ESOP Trust has acquired 781,257 Equity shares from open market which are treated as Treasury Shares by the Company. The paid-up Equity Share Capital has been disclosed net of Treasury Shares and while computing the basic and diluted earnings per share, the weighted average number of equity shares held by ESOP Trust have been reduced.
4 Pursuant to notification of the New Labour Codes effective from November 21, 2025, the Company had, during the previous financial year ending March 31, 2026 recognised a one-time past service cost of ₹ 249 Million and for the quarter ending March 31, 2026 recognised a one-time past service cost of ₹ (5) Million on post-employment defined benefit obligations, based on actuarial valuation. Considering the non-recurring nature of the impact arising from a regulatory change, the same was classified as an exceptional item in the previous year. No further impact has been recognised during the quarter ended June 30, 2026.
5 Figures for the quarter ended March 31, 2026 and March 31, 2025 are the balancing figures between audited figures in respect of the full financial year and published year to date figures upto the third quarter of the respective financial year.

ASSET QUALITY SHOWS IMPROVEMENT

SFBs post healthy Q1 numbers on strong loan growth

KSHIPRA PETKAR
Mumbai, July 30

SMALL FINANCE BANKS (SFBs) reported a healthy set of June quarter earnings, with strong loan growth and lower credit costs driving a broad-based recovery in profitability. Asset quality also improved as stress in the microfinance portfolio eased.

The improvement in earnings was broad-based. According to data from Capitaline, AU Small Finance Bank remained the largest profit contributor, reporting a 37% year-on-year (YoY) rise in net profit to ₹796 crore. Ujjivan Small Finance Bank posted the strongest growth, with profit more than tripling to ₹317 crore, while Suryoday SFB's net profit more than doubled to ₹ 75 crore. Equitas Small Finance Bank returned to profit after reporting a loss a year earlier, while Jana SFB and Capital Small Finance Bank also posted double-digit growth in net profit.

"AU SFB has successfully regained its pre-merger business momentum, with growth exceeding 20% in FY26 and RoA reaching 1.8% in Q4FY26," ICICI Securities said in a report.

"Increasing visibility regarding its transition to a universal banking licence serves as a significant long-term valuation catalyst," it added.

Net interest income (NII) remained robust, reflecting healthy business momentum despite pressure on net interest margins (NIMs). While AU Small Finance Bank, Jana Small Finance Bank and Capital Small Finance Bank either maintained or improved their NIMs,

Suryoday Small finance Bank	7.20	7.90	7.20
Capital Small Finance bank	4.06	4.06	4.21

Equitas and Suryoday reported sequential compression.

Loan growth remained above 20% across all major lenders, led by Suryoday SFB at 32.6%, Ujjivan SFB at 29.2% and Equitas SFB at 26.7%, as lenders continued to expand their secured loan portfolios. Deposit growth ranged from 10% to nearly 30%, although analysts said sustaining liability growth would remain critical as competition for retail deposits intensifies.

A key highlight of the quarter was the continued improvement in asset quality. Gross and net non-performing asset (NPA) ratios declined across all six listed SFBs, aided by

improving collection efficiencies and easing stress in the microfinance segment. AU Small Finance Bank had the lowest gross NPA ratio at 2.10% as of June 30, while Suryoday SFB had the highest at 6.60%.

Improving asset quality also translated into lower credit costs across most lenders, supporting profitability as provisioning requirements moderated with easing stress in microfinance portfolios. The transition to universal banking remained a key theme in management commentary during analyst calls, although lenders are at different stages of the process.

Niva Bupa Q1 profit jumps 93% under Ind AS

FE BUREAU
Chennai, July 30

STANDALONE HEALTH INSURER Niva Bupa Health Insurance reported a near doubling of net profit to ₹137.8 crore for the quarter ended June 2026 (Q1FY27), from ₹71.4 crore a year earlier, driven by strong premium growth and lower insurance service expenses.

Gross Written Premium (GWP) rose 32% year-on-year on a 1/n accounting basis to ₹2,150 crore. Within this, the retail health business grew 47% to ₹1,607 crore, helping increase the company's retail health market share to 11.1% from 10% in the corresponding quarter last year.

The results have been prepared under the Indian Accounting Standards (Ind AS), which became mandatory for insurers from April 1, 2026. Under Ind AS, commissions and other acquisition costs are amortised over the policy term instead of being recognised upfront, aligning expenses with revenue recognition and providing a more representative picture of insurers' profitability.

The firm also said its GWP figures are not directly comparable with earlier periods. Effective October 1, 2024, long-term insurance products have been accounted for on a 1/n basis, as mandated by the Insurance Regulatory and Development Authority of India (Irdai).

Under this method, premiums and related expenses for long-term policies are recognised proportionately over the policy term rather than entirely upfront.

Operationally, the insurer improved its underwriting performance, with the combined insurance service ratio (CISR)—which measures insurance service and operating expenses as a proportion of premium—improving to 100.2% from 103.2% a year ago.
