- EBIDTA for the first half of the financial year ended September 30, 2012 is Rs 200.50 crore an increase of 47% compared to half year ended September 30, 2011
- EBIDTA Margin increased to 68% for half year ended September 30, 2012 from 63% same period last year
- Net Profit for the half year ended September 30, 2012 is Rs. 145.61 crore an increase of 34% compared to half year ended September 30, 2011
- The board declared second interim dividend of 100% on the face value of Rs 2/- per share

Standalone performance of Financial Technologies for the quarter ended September 30, 2012:

- Total Income of Rs. 147.92 crore for the quarter ended September 30, 2012 an increase of 15% compared to quarter ended September 30, 2011
- EBIDTA was at Rs. 97.86 crore for the quarter ended September 30, 2012 a 13% increase over quarter ended September 30, 2011
- Net Profit stood at Rs. 69.55 crore for the quarter ended September 30, 2012 an increase of 1% over quarter ended September 30, 2011

Commenting on Financial Technologies' Standalone second quarter and half year FY 2012-13 performance, Dewang Neralla, Whole Time Director, said:

"We are pleased to announce unaudited financial results for quarter and half year ended September 30, 2012. The first half of the financial year has been steady for Financial Technologies. The total income stood at Rs. 294.78 crore and net profit stood at Rs. 145.61 crore for the half year ended September 30, 2012.

FTIL group exchange ventures in India are leaders in their respective asset class, like MCX continues to lead the commodity markets in India with 86.4% market share for half year ended September 30, 2012. IEX leads the electricity markets with a dominant market share of 98% in Day ahead trading and 91% in Renewable Energy certificates trading for the quarter ended September 30, 2012.

The international exchange ventures like BFX, DGCX and SMX have been steadily establishing their presence."

About Financial Technologies (India) Ltd (www.ftindia.com)
(NSE: FINANTECH, BSE: FINTECH, Bloomberg: FTECH:IN)

Financial Technologies (India) Ltd is a Rs 4,494.5 crore (market capitalization as on September 30, 2012), Financial Technologies (India) Ltd is a global leader in creating and operating technology-centric, next-generation financial markets that are transparent, efficient and liquid, across multi asset classes, including equities, commodities, currencies and bonds, among others. The Financial Technologies Group operates one of the world's largest networks of nine exchanges connecting fast-growing economies of Africa, Middle East, India and South East Asia. The Financial Technologies Group also operates ecosystem ventures which complement its exchanges by addressing upstream and downstream opportunities in areas such as warehousing and collateral management, information dissemination, payments processing and financial market education. The business of creating and operating new generation tech-centric financial markets allows us to build unprecedented shareholder value through a non-linear business model and also help democratize global trade, transform economies, and empower the common man, unlocking value from the middle and bottom of the socio-economic pyramid.
