From Traditional Gold Lender to Integrated Gold Platform

Why Finkurve is Structurally Different from Conventional Gold Loan NBFCs

	Traditional Gold Loan NBFC	Finkurve Financial Services
Business Model	Operates primarily as lender	Integrated participant across gold ecosystem
Customer Acquisition	Origination creates the first customer touchpoint	Access to customers through multiple platforms
Ecosystem Connectivity	Limited ecosystem connectivity	Connected with refining, bullion, digital gold, jewellery and lending
Foundation	Focused on lending products	Built on decades of gold domain expertise and infrastructure
Underwriting	Conventional underwriting	Proprietary gold knowledge supported by technology-driven processes
Customer Relationship	Single-product customer relationship	Multiple engagement opportunities across the customer lifecycle

Finkurve combines technology, gold domain expertise and ecosystem integration to build a differentiated lending franchise in one of India's fastest-growing secured lending segments

Gold Loans | New Markets Driving Growth

The industry is evolving beyond traditional southern concentration, with organised lenders and secured borrowing gaining relevance

Market Share (by POS)

Gold Loan emerging as preferred choice for customers to meet their borrowing requirements

Growth Drivers

Penetration Expansion

Only a small portion of household gold is monetized today, leaving significant room for increased adoption

Opportunity: ~ Rs 40,000 Cr annually

Shift Towards Organized Lending

~60% of the market remains with informal lenders, creating a long runway for organized NBFCs.

Opportunity: ~Rs 10,000+ Cr annually

Fresh Gold Added Every Year

India imports ~600–700 tonnes of gold annually, continually expanding the collateral pool.

Potential lending opportunity: ~Rs 34,000 Cr annually

Gold Price Appreciation

Rising gold prices enhance collateral value, increasing lending capacity without additional customer acquisition.

Rise in price creates additional opportunity

Shifting focus to Retail Gold Loans

A decisive strategic transformation moving away from corporate lending toward a retail-first gold loan model that now dominates the loan book.

Corporate Loans
Legacy focus — high-value, lower-volume institutional lending with concentrated risk exposure.

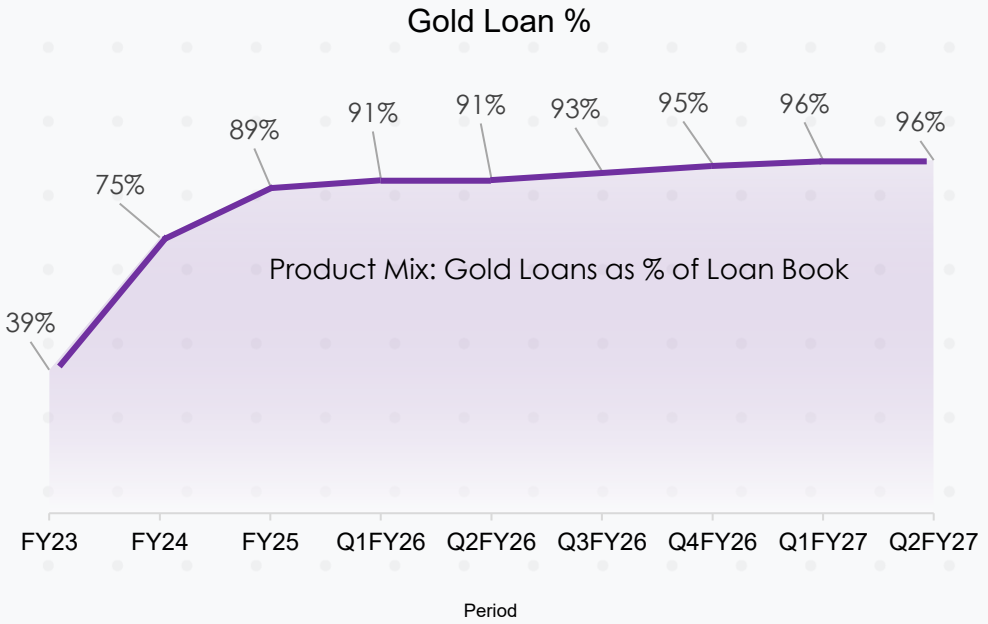

Strategic Shift
A deliberate pivot toward accessible, asset-backed retail products anchored by gold collateral.

Retail Gold Loans
Now the dominant product, high-volume, low-risk, and deeply embedded in the loan book.

Lower Risk

Faster Capital Rotation

Scalable Retail Growth

39%

Starting Point

Gold loans began at just **39%** of the book, reflecting a predominantly corporate lending posture.

96%

Current Share

Retail Gold Loans now represent **96%** of the total loan book, a near-complete portfolio transformation.

Retail Gold Loans now dominate the loan book, a strategic realignment that has fundamentally reshaped the institution's risk profile, revenue mix, and customer base.

Key Offerings with Retail Focus

A dual-engine lending strategy combining the security of physical collateral with the agility of cash-flow underwriting.

SECURED

Asset-Backed Secured Credit

Gold loans secured against physical gold collateral, with loan amounts determined by asset value and RBI-prescribed LTV norms.

Origination Model

Direct, branch-led operations drive operational control, faster disbursement, and consistent asset quality.

Underwriting Approach

Conservative, collateral-led underwriting with continuous monitoring of asset coverage throughout the loan lifecycle.

Risk Driver

Asset value and collateral coverage
loan exposure is always anchored to the underlying physical gold.

UNSECURED

Cash-Flow Based Credit

Origination Model

Partnership led approach enables capital efficient expansion and diversified retail portfolio

Underwriting Approach

Credit assessment via bureau, bank statements, and affordability checks

Risk Driver

Customer cash flow, credit behavior, and repayment capacity serve as key determinants of loan eligibility and portfolio quality

High Velocity
Fast disbursement for immediate liquidity

Collateral Coverage
Physical gold as primary security buffer

RBI-Compliant LTV
Loan sizing governed by regulatory norms

Capital Efficient
Partnership model scales without heavy capex

Gold Loan Strengths

STRONG CENTRALIZED SYSTEM

- All branches operate on a centralized platform with real-time tracking of loans, disbursals, and repayments.
- Vault access requires dual OTPs from both branch and head office, ensuring central oversight and accountability.
- AI driven monitoring and video surveillance reinforce centralized control and operational transparency.

LOWEST FRAUD LEVELS

- Continuous video monitoring and in-person verification reduce unauthorized access and operational lapses.
- AI tools like face detection, crowd monitoring & object detection minimize internal and external fraud risk.
- AI driven image processing screens and assesses gold, enhancing precision and preventing valuation error.

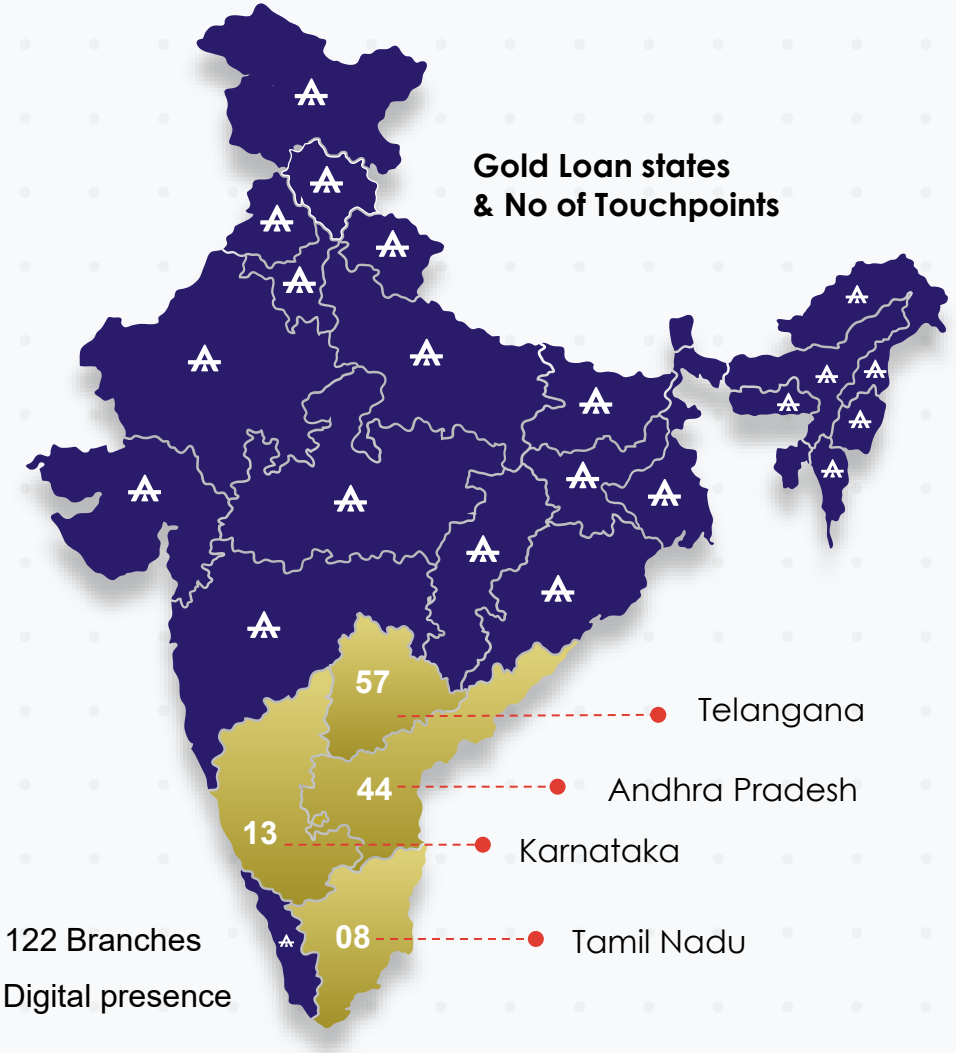

DUAL-CHECKING MECHANISM

- Maker checker framework ensures that every transaction and vault access is verified by two independent parties.
- Head office approval combined with branch verification strengthens security and compliance.
- Supports consistent, safe, and disciplined operations across all branches.

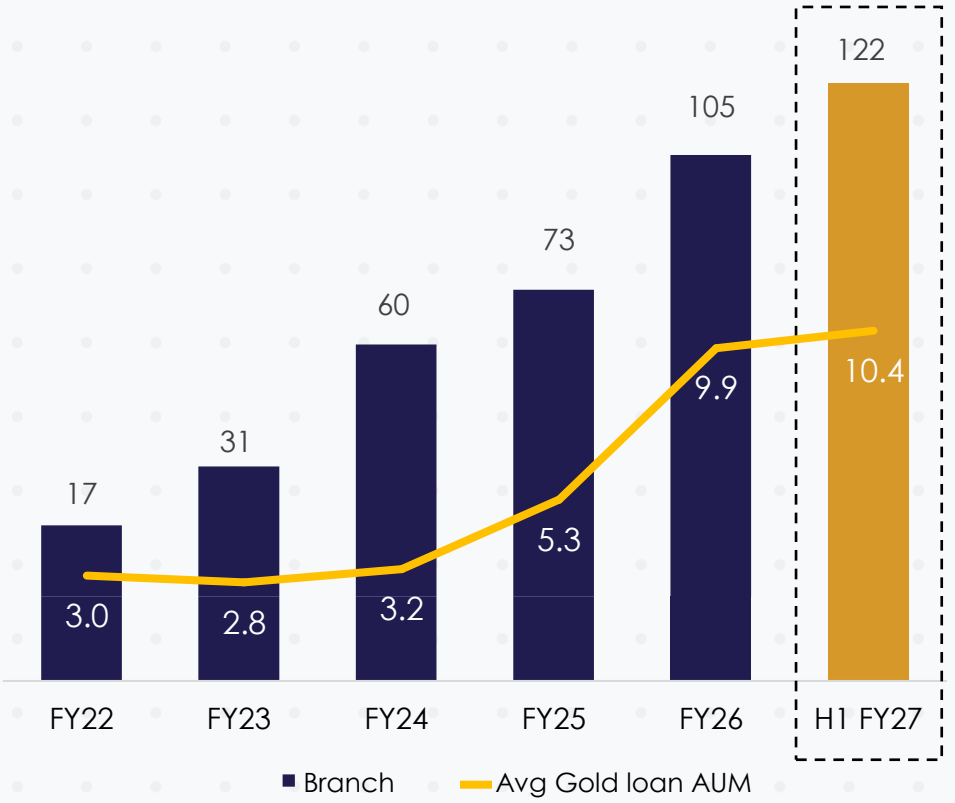

Our Gold Loan Journey – Secure. Simple. Swift.

Expansion Strategy

Branch Expansion:

- Cluster-led expansion in high gold-ownership Tier-2/3 markets to drive repeat borrowing, operating leverage, and predictable AUM growth.
- Expand branches in regions with high household gold holdings to drive secured credit growth.
- Enter underbanked locations to formalize credit and replace informal lending with organized gold loans.

Technology Enablement:

- End-to-end digitized origination and servicing to drive faster turnaround and higher throughput.
- Data-driven underwriting, pricing, and monitoring to optimize risk-adjusted yields and portfolio quality.
- Centralized risk, compliance, and analytics to enhance governance, branch productivity, repeat rates, and customer lifetime value.

Execution:

- Digitized loan origination and servicing for faster turnaround and higher throughput.
- Data-driven underwriting and pricing to maximize risk-adjusted yields.
- Centralized risk, compliance, and analytics to ensure strong governance, productivity, and repeat business.

IMPACT: Augmont's standardized, tech-led model enables rapid branch rollout (30–45 days from planning to launch), allowing fast, capital-efficient scaling in Tier-2/3 cities where gold ownership is high and competition remains fragmented.

Augmont Delivers predictable, high-quality AUM growth through faster market entry, repeat borrowing, and disciplined risk governance

Co-Lending - Accelerating Growth

Company has entered a strategic co-lending partnership with Godrej Finance & RBL Bank to jointly offer gold loan products under the Reserve Bank of India's co-lending framework.

The co-lending model enables Arvog to scale its gold loan portfolio efficiently, with a strategic target of co-lending contributing **up to 30% of the Company's AUM** over the next few years. This will support capital rotation and liquidity management while maintaining disciplined and conservative risk practices.

This milestone marks a major advancement in Arvog's commitment to delivering accessible, technology-driven gold loan solutions while strengthening institutional partnerships.

Co-lending Contribution to AUM (%)

BENEFITS TO ARVOG

- Grows AUM without funding the full loan on its own balance sheet
- Faster capital rotation and efficient capital use
- Stronger liquidity, diversified funding
- Shared credit exposure with underwriting discipline retained

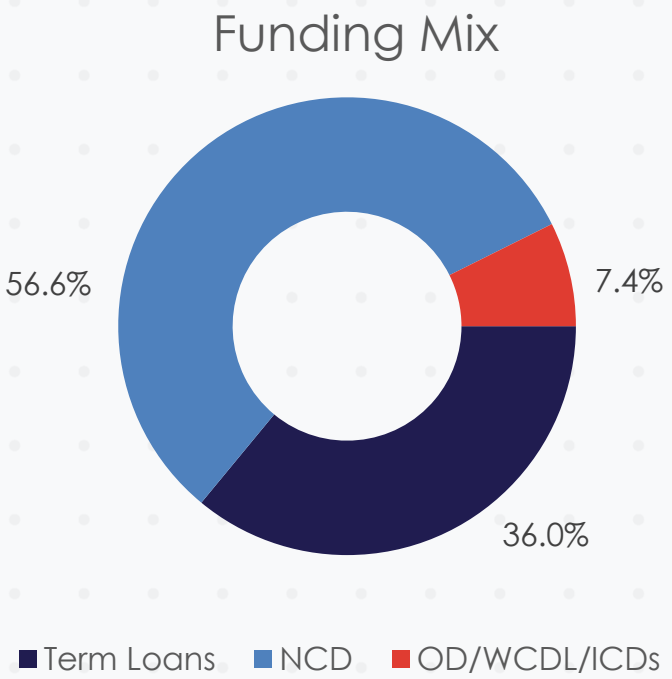

BENEFITS TO PARTNER INSTITUTION

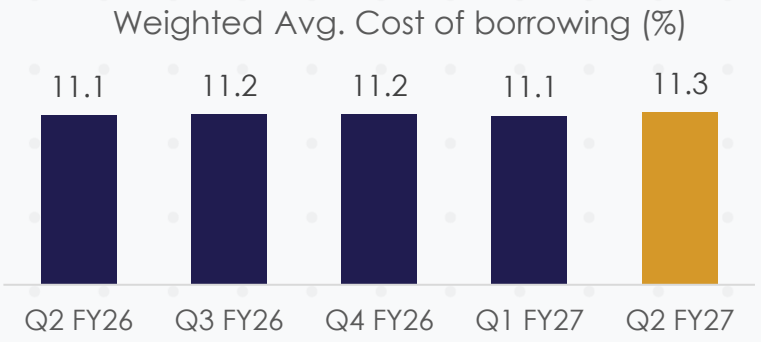

- Access to Arvog's gold loan franchise and customer base
- Secured, gold-backed retail lending exposure
- Leverages Arvog's branches, gold valuation and operations
- Proportionate sharing of credit exposure under the agreed framework
