Sub: Acquisition of “RadLink Asia Pte Limited”, an outpatient diagnostic and molecular imaging chain in Singapore, through our offshore subsidiary

Dear Sirs,

This is to inform that Fortis Healthcare Singapore Pte. Limited (“Fortis Healthcare Singapore”), our offshore subsidiary, has acquired 85% stake in RadLink-Asia Pte Ltd (“RadLink”), an outpatient diagnostic and molecular imaging chain in Singapore, for a purchase consideration of S\$62.9 million.

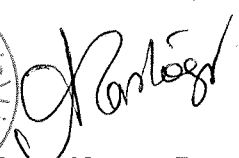

The transaction provides Fortis Healthcare a strong foothold in the premium diagnostics and molecular imaging segment in one of Southeast Asia's most attractive markets besides providing a complementary platform to its upcoming specialty hospital on Adam Road in Singapore. Radlink has four main business segments; diagnostic imaging, molecular imaging, cyclotron (radio-isotopes manufacturing) and GP clinics.

This is for your reference and records please.

Thanking you,

Yours faithfully,
for Fortis Healthcare (India) Limited

Arun Kumar Rastogi
Manager - Secretarial
