Dear Sir,

Sub: TL Logicom, Japan Selects Four Soft Suite of Solutions

12th November'12, Hyderabad: Four Soft® (4S®) (NSE: "FOURSOFT", BSE: 532521), a global leader offering software solutions for the logistics, transportation and supply chain industries announced the signing of contract with TL Logicom, Japan, one of the leading Company offering transportation, warehousing, and real estate leasing services.

As per the deal, Four Soft will implement its multi-modal freight management system -4S eTrans®, extended warehouse management system- 4S eLog® and visibility and order management system - 4S Visilog®. This combination of advanced solutions will be crucial in streamlining critical operations at TL Logicom, enabling them to enhance level of services they provide to their customers.

Headquartered in Tokyo, Japan and founded in 1940, TL Logicom, a subsidiary of SBS Holdings formerly known as Tokyu Logistic Co., Ltd extends its business into 3 major segments- freight forwarding, warehouse, and real estate segment. The truck transportation segment is primarily engaged in the distribution center business such as the transportation of beer, cosmetics and other products to supermarkets and convenience stores. This segment is also engaged in overseas sea freight businesses, as well as the customs and harbor transportation businesses. The warehouse segment provides storage, loading and unloading services in warehouses located in the metropolitan area and the real estate segment is into leasing of company-owned facilities mainly in metropolitan areas for office and residential use.

Please find alongside, the complete press release titled “**TL Logicom, Japan Selects Four Soft Suite of Solutions**” in this regard.

We request you to kindly take the same into records.

Thanking You,

Yours truly,

For Four Soft Limited

A. Sridhar

Company Secretary

TL Logicom, Japan Selects Four Soft Suite of Solutions

The warehouse segment provides storage, loading and unloading services in warehouses located in the metropolitan area and the real estate segment is into leasing of company-owned facilities mainly in metropolitan areas for office and residential use.

Masahiko Kamata, President, TL Logicom Co. Ltd., said: "In today's competitive business environment we required a complete set of integrated software solution to handle operations covering freight, transportation and warehousing coupled with real-time updates to those involved in the business globally. Keeping these requirements in mind, we chose Four Soft who not only demonstrated their technological expertise but will also enable us in rolling out enhanced services on a global scale across Japan and other parts of the world."

Kinnosuke Naruoka, CEO, Suzuyo System Technology, said: "We have been witnessing the growing trend for specialized IT software in the Japanese logistics market. During our consultations with TL Logicom, we demonstrated to them on how Four Soft integrated solutions would help in streamlining their business complexities and future proof their business in an ever growing and changing business environment." We are happy that TL Logicom has made the right decision and we look forward to a mutually beneficial business partnership as we move further."

BalaKrishna Reddy, Head- Asia, Four Soft Limited, said: "We are excited to sign a new contract with TL Logicom for the implementation of state-of-the-art web-centric solutions. This contract reassures their confidence & commitment in us which will further strengthen our dominance in the Japanese market and put in place a solid platform for our overall growth strategy. **He further added:** "Our mission-critical solutions have the necessary flexibility, greater accuracy, efficiency, visibility and capability to excel customers' expectations."

4S eTrans® is Four Soft's web-centric freight management system capable of handling Air, Sea, Road and multimodal transport management services (TMS). Built on J2EE platform with a native browser interface, 4S eTrans® is designed to provide the modern day logistics operators with operational and financial control over their day to day, order to cash process of the domestic and international freight movements. Equipped with an integrated freight accounting

module and interface capabilities with external accounting systems, 4S eTrans® provides you a scalable and flexible Freight Management solution

4S eLog® is Four Soft's web-centric warehouse management system (WMS) capable of handling inventory operations across multiple warehouses. Built on J2EE platform with a native browser interface, 4S eLog® is designed to support core operational requirements of modern day global companies. 4S eLog® extends well beyond the capacity of a traditional warehouse management system by integrating supply, fulfillment and partner collaboration into one enterprise service platform.

4S VisiLog® is Four Soft's collaborative web portal for order management and visibility. Built on J2EE platform with a native browser interface, 4S VisiLog® helps linking Business Partners, Associates, Service Providers and Customers. It is designed to provide real-time event information and automated alerts along with visibility across the supply chain managed by workflows. 4S VisiLog® is command and control centre for global operations.
