Four Soft Signs Significant Contract with Panasonic India Pvt. Ltd

22nd August'12, Hyderabad: Four Soft® (4S®) (NSE: "FOURSOFT", BSE: 532521), a global leader offering software solutions for logistics, transportation and supply chain industry is pleased to announce that its web centric warehouse management application, 4S eLog® has been selected by Panasonic India Pvt. Ltd to automate its warehousing facility across 28 locations. The contract was executed by Four Soft Limited, India. Panasonic is an existing customer of Four Soft.

Panasonic has been a market leader in consumer durable industry delivering superior products and services in India since 1994. The company specializes in providing consumer products, household & home appliances, office automation products and electronic products of the highest quality. With five manufacturing establishments and four sales companies across India the Company focuses on making everyday tasks simpler, convenient and more energy efficient.

Mr. Yutaka Suzuki, Vice President, Panasonic India Pvt. Ltd, said: "We chose Four Soft's web centric warehouse management solution as they have proven expertise and the necessary tools in successfully implementing such large and complex projects apart from having a clear understanding and approach of what our business requires. With our decision to implement this solution, we hope that it will offer us better functionality, cut down our initial cost of ownership, simplify business complexities, provide more flexibility and enhance value to our customers."

Mr. BalaKrishna Reddy, Head- Asia, Four Soft Limited, said: "We are very happy to announce our association with Panasonic India. They are a global market leader in electronic products and their decision to select our WMS solution speaks of our commitment and continuous effort to provide world-class solutions." **He further added,** "We are confident that our solution will address their problems and help business grow in a more simplified and efficient way."

4S eLog® is Four Soft's web centric warehouse management system (WMS) capable of handling inventory operations across multiple warehouses. Built on J2EE platform with a native browser interface, 4S eLog® is designed to support core operational requirements of modern day global companies. 4S eLog® extends well beyond the capacity of a traditional warehouse management system by integrating supply, fulfillment and partner collaboration into one enterprise service platform.
