RISKS IN RELATION TO THE FIRST OFFER

This being the first public offering of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of the equity shares of our Company is ₹1 each. The Offer Price, Floor Price and Cap Price (as determined by our Company in consultation with the BRLMs) on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, in accordance with the SEBI ICDR Regulations, as stated under the section titled “*Basis for the Offer Price*” on page 117, should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISK

Investments in equity and equity-related securities involve a degree of risk and Bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, Bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have not been recommended or approved by the Securities and Exchange Board of India (“**SEBI**”), nor does SEBI guarantee the accuracy or adequacy of the contents of the Red Herring Prospectus and this Prospectus. Specific attention of the Bidders is invited to the section titled “*Risk Factors*” on page 22.

THE COMPANY’S AND THE PROMOTER SELLING SHAREHOLDERS’ ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. Further, each of the Promoter Selling Shareholders, severally and not jointly, accepts responsibility for and confirms only the statements specifically made or confirmed by them in this Prospectus solely in relation to themselves and/or Offered Shares, and assumes responsibility that such statements are true and correct in all material respects and not misleading in any material respect. However, the Promoter Selling Shareholders assume no responsibility for any other statement including the statements made by or relating to our Company or our Company’s business or any other Promoter Selling Shareholder or any other person in this Prospectus.

KUSUMGAR LIMITED (Formerly known as Kusumgar Private Limited)

Our Company was originally incorporated as “Kusumgar Finstocks Private Limited” as a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation dated June 15, 1990, issued by the Registrar of Companies, Maharashtra at Mumbai. The name of our Company was changed to “Kusumgar Corporates Private Limited” on account of takeover of proprietary concern of Kusumgar Corporates, pursuant to a resolution passed by our Board on August 5, 2008 and a special resolution passed by our Shareholders on September 12, 2008, and a fresh certificate of incorporation, consequent upon change of name was issued to our Company by the Registrar of Companies, Maharashtra at Mumbai, on November 21, 2008. Further, the name of our Company was changed to “Kusumgar Private Limited” on account of expansion of business, pursuant to a special resolution passed in the extraordinary general meeting of our Shareholders on February 8, 2024, and a fresh certificate of incorporation was issued to our Company by the Registrar of Companies, Central Processing Centre, Manesar on March 28, 2024 pursuant to change of name. Thereafter, our Company was converted into a public limited company pursuant to a special resolution dated December 27, 2024, passed in the extraordinary general meeting of our Shareholders, and consequently the name of our Company was changed to its present name i.e., “Kusumgar Limited” and a fresh certificate of incorporation dated January 28, 2025 was issued by the Registrar of Companies, Central Processing Centre, Manesar upon conversion to public company. For further details of the change in the name and the address of the registered office of our Company, see “History and Certain Corporate Matters” on page 224.

THE OFFER LESS THE EMPLOYEE RESERVATION PORTION IS HEREINAFTER REFERRED TO AS THE “NET OFFER”. THE OFFER AND THE NET OFFER CONSTITUTED 14.78% AND 14.70%, RESPECTIVELY, OF THE POST-OFFER PAID-UP EQUITY SHARE CAPITAL OF OUR COMPANY.

THE FACE VALUE OF THE EQUITY SHARE IS ₹1 EACH. THE OFFER PRICE IS 419 TIMES THE FACE VALUE OF THE EQUITY SHARES.

[^] Subject to finalisation of Basis of Allotment

* A discount of ₹39 per Equity Share was offered to Eligible Employees bidding in the Employee Reservation Portion.

The Offer was made in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (“SCRR”) read with Regulation 31 of the SEBI ICDR Regulations. This Offer was made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Net Offer was made available for allocation on a proportionate basis to Qualified Institutional Buyers (“QIBs” and such portion, “QIB Portion”), provided that our Company in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis (“Anchor Investor Portion”). 40% of the Anchor Investor Portion was reserved for domestic Mutual Funds, Life Insurance Companies and Pension Funds, in the following manner (i) 33.33% of the Anchor Investor Portion was reserved for domestic Mutual Funds and (ii) 6.67% of the Anchor Investor Portion was reserved for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. In the event of under-subscription in (ii) above, the allocation may be made to domestic Mutual Funds, at or above the Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (other than Anchor Investor Portion) (“Net QIB Portion”). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, (a) not less than 15% of the Net Offer was made available for allocation to Non-Institutional Bidders (out of which one third was reserved for Bidders with Bids exceeding ₹ 0.20 million and up to ₹ 1.00 million and two-thirds was reserved for Bidders with Bids exceeding ₹ 1.00 million) and (b) not less than 35% of the Net Offer was made available for allocation to Retail Individual Bidders (“RIBs”) in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received from them at or above the Offer Price. Further, Equity Shares were allocated on a proportionate basis to Eligible Employees applying under the Employee Reservation Portion, subject to valid Bids having been received from them at or above the Offer Price. All potential Bidders, other than Anchor Investors, were required to participate in the Offer through the Application Supported by Blocked Amount (“ASBA”) process by providing details of their respective ASBA Account (as defined hereinafter) and UPI ID in case of UPI Bidders (defined hereinafter), which was blocked by the Self Certified Syndicate Banks (“SCSBs”) or the Sponsor Bank(s), as the case may be, to the extent of their respective Bid Amounts. Anchor Investors were not permitted to participate in the Anchor Investor Portion through the ASBA process. For details, see the section titled “Offer Procedure” on page 417.

RISKS IN RELATION TO THE FIRST OFFER

This being the first public offering of Equity Shares of our Company, there has been no formal market for the Equity Shares of our Company. The face value of the Equity Shares is ₹1 each. Financial data

Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year and accordingly, all references to a particular financial year or fiscal or fiscal year (including capitalised references) are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Prospectus are to a calendar year and references to a financial year or fiscal or fiscal year (including capitalised references) are to the year ended on March 31, of that calendar year.

Unless indicated otherwise or the context requires otherwise, the financial information, financial ratios and any percentage amounts in this Prospectus have been derived from our Restated Financial Information or non-GAAP measures as described below:

The Restated Financial Information of our Company and our Subsidiaries for the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024, which comprises the Restated Consolidated Statement of Assets and Liabilities as at March 31, 2026, and March 31, 2025, Restated Consolidated Statement of Profits and Loss (including Other Comprehensive Income), Restated Consolidated Statement of Changes in Equity, Restated Consolidated Statement of Cash Flows for each of the years ended March 31, 2026 and March 31, 2025, the Summary Statement of Material Accounting Policies and other explanatory information along with Restated Combined Statement of Assets and Liabilities as at March 31, 2024, Restated Combined Statement of Profits and Loss (including Other Comprehensive Income), Restated Combined Statement of Changes in Equity, Restated Combined Statement of Cash Flows for the year ended March 31, 2024; prepared in terms of the requirements of Section 26 of Part I of Chapter III of the Companies Act, the SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by the ICAI, as amended from time to time. The Restated Financial Information has been prepared basis the Audited Consolidated Financial Statements of the Group as at and for the year ended March 31, 2026 and March 31, 2025 and Audited Special Purpose Combined Financial Statements of the Group as at and for the year ended March 31, 2024. For further information, see “*Restated Financial Information*” on page 267.

Our Company did not have subsidiaries or other consolidated entities during Fiscal 2024. However, for the purpose of preparing the Audited Special Purpose Combined Financial Statements, our Company adopted a transition date of April 1, 2022. Further, the acquisition of one of our Subsidiaries, Engineered Coated Fabric Private Limited, constituted a common control transaction in accordance with Appendix C to Ind AS 103 “*Business Combinations*”. Accordingly, the financial information of Engineered Coated Fabric Private Limited has been consolidated in accordance with Ind AS 110 for the years ended March 31, 2025, and March 31, 2024. For more details on the acquisition of Engineered Coated Fabric Private Limited, see “*Restated Financial Information – Note 51 – Business Combination Under Common Control*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 326 and 335, respectively.

There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Prospectus and it is urged that you consult your own

advisors regarding such differences and their impact on our Company's financial data. The degree to which the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian accounting policies and practices, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Prospectus should accordingly be limited. Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Certain figures contained in this Prospectus, including financial information, have been subject to rounding adjustments. All decimals have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. However, where any figures that may have been sourced from third-party industry sources are rounded off to other than two decimal points in their respective sources, such figures appear in this Prospectus as rounded-off to such number of decimal points as provided in such respective sources.

Non-Generally Accepted Accounting Principles

Certain measures included in this Prospectus, for instance EBITDA, EBITDA Margin, PAT Margin, Net Debt, Net Debt to EBITDA Ratio, Return on Equity among others (the "**Non-GAAP financial measures**"), presented in this Prospectus are supplemental measures of our performance and liquidity that are not required by, or presented in accordance with Ind AS or any other generally accepted accounting principles. Furthermore, these non-GAAP financial measures are not a measurement of our financial performance or liquidity under Ind AS or any other generally accepted accounting principles and should not be considered as an alternative to cash flows, profit/ (loss) for the year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS or any other generally accepted accounting principles. In addition, these Non-GAAP Measures and other statistical and other information relating to operations and financial performance, are not standardised terms and may not be computed on the basis of any standard methodology that is applicable across the industry and therefore, may not be comparable to financial measures of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies. Further, they may have limited utility as a comparative measure. Although such non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company's business and financial performance. For further information, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Key Performance Indicators and Certain Non-GAAP Measures*" and "*Risk Factors – 54. We have included certain non-GAAP financial measures and certain operational metrics related to our business, financial condition, results of operations and cash flows in this Prospectus. These non-GAAP financial measures and operational metrics could vary from any standard methodology that is applicable across the manufacturing industry, and therefore may not be comparable with non-GAAP financial measures or operational metrics of similar nomenclature computed and presented by other companies*" on pages 341 and 59, respectively.

Industry and market data

Unless stated otherwise, industry and market data used in this Prospectus has been obtained or derived from the report titled "*Engineered Fabrics industry report*" dated June 21, 2026 prepared by Lattice Technologies Private Limited ("**Lattice**") ("**1Lattice Report**") and publicly available information as well as other industry publications and sources. The 1Lattice Report has been commissioned and paid for by our Company and has been prepared for the purpose of the Offer and is available at <https://www.kusumgar.com/investor-relations/home/>. Lattice is an independent agency and is not a related party of our Company, our Promoters, our Directors or Key Managerial Personnel or Senior Management or the Book Running Lead Managers. Lattice was appointed by our Company pursuant to an engagement letter dated February 3, 2025.

The data used in these sources may have been reclassified by us for the purposes of presentation and may also not be comparable. There are no parts, data or information which may be relevant for the proposed Offer, that have been left out or changed in any manner. The extent to which the industry and market data presented in this Prospectus is meaningful and depends upon the reader's familiarity with, and understanding of, the methodologies used in compiling such information. There are no standard data gathering methodologies in the industry in which

our Company conducts business and methodologies, and assumptions may vary widely among different market and industry sources. Such information involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors – 55. Statistical and industry data in this Prospectus are derived from the 1Lattice Report, which was commissioned and paid for by us for the purpose of the Offer. Reliance on information from the 1Lattice Report for making an investment decision in the Offer is subject to inherent risks.*” on page 59. Accordingly, no investment decision should be solely made on the basis of such information.

In accordance with the disclosure requirements under the SEBI ICDR Regulations, the section titled “*Basis for Offer Price*” on page 117 includes information relating to our peer group companies. Such information has been derived from publicly available sources specified therein. Accordingly, no investment decision should be solely made on the basis of such information.

Currency and units of presentation

All references to:

- “Rupees” or “INR” or “₹” or “Rs.” are to Indian Rupees, the official currency of the Republic of India;
- “U.S.,” “\$”, “U.S. Dollar”, “USD” are to United States Dollars, the official currency of the United States of America;
- “AED” is to Dirham, the official currency of the United Arab Emirates.

In this Prospectus, our Company has presented certain numerical information. All figures have been expressed in millions, except where specifically indicated otherwise. One billion represents 1,000 million or 1,000,000,000, one million represents ‘10 lakhs’ or 1,000,000 and ten million represents 1 crore or 10,000,000. However, where any figures that may have been sourced from third-party industry sources may be rounded off to other than two decimal points in the respective sources, such figures appear in this Prospectus expressed in such denominations or rounded-off to such number of decimal points as provided in their respective sources.

Time

All references to time in this Prospectus are to Indian Standard Time. Unless indicated otherwise, all references to a year in this Prospectus are to a calendar year.

Exchange rates

This Prospectus may contain conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that such currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all.

The following table sets forth, for the years indicated, information with respect to the exchange rates between the Indian Rupee and the respective foreign currency:

Notes:

- Exchange rate is rounded off to two decimal point
- In the event that any of the aforementioned date is a public holiday, the previous calendar day not being a public holiday has been considered.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “continue”, “can”, “could”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “project”, “propose”, “will continue”, “seek to”, “shall”, “should”, “will achieve”, “will likely”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, plans, revenue, and profitability (including, without limitation, any financial or operating projections or forecasts) and other matters discussed in this Prospectus that are not historical facts. However, these are not the exclusive means of identifying forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. This may be due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industries we cater and our ability to respond to them, our ability to successfully implement our strategies, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally, which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and/or acts of violence.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- Any decline in demand for aerospace and defence fabrics and aerospace and defence solutions;
- Any decrease in sales to our top customers or the loss of our top customers;
- Any significant social, political, economic or seasonal disruption, natural calamities or civil disruptions; in Gujarat, where all six of our manufacturing facilities are located;
- Any adverse decision in legal and regulatory proceedings involving our Company, Directors and Promoters;
- Continued negative cash flows from operating activities.

For a further discussion of factors that could cause our actual results to differ, see sections titled “*Risk Factors*”, “*Our Business*”, “*Industry Overview*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 22, 185, 137 and 335, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially be different from those that have been estimated. Forward-looking statements reflect our current views as of the date of this Prospectus and are not a guarantee of future performance. These statements are based on our management’s belief and assumptions, which in turn are based on currently available information. Although we believe that the assumptions on which such statements are based are reasonable, any such assumptions as well as statements based on them could prove to be inaccurate.

Neither our Company, our Promoters, our Directors, the Promoter Selling Shareholders, BRLMs, nor the Syndicate or any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company will ensure that Bidders in India are informed of material developments pertaining to our Company from the date of this Prospectus in relation to the statements and undertakings made by our Company and, by the Promoter Selling Shareholders, severally and not jointly, in relation to themselves as a Promoter Selling Shareholder and its Offered Shares in this Prospectus from the date thereof until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer.

In this regard, the Promoter Selling Shareholders shall ensure that our Company and BRLMs are informed of material developments in relation to the statements and undertakings specifically confirmed or undertaken by them in relation to themselves as a Promoter Selling Shareholder and its Offered Shares in this Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer.

SECTION II: RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares pursuant to the Offer.

This section should be read in conjunction with “Industry Overview”, “Our Business”, “Restated Financial Information”, “Key Regulations and Policies in India”, “Outstanding Litigation and Material Developments” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 137, 185, 267, 215, 376 and 335, respectively, before making an investment decision in relation to our Equity Shares.

In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and risks involved. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

The risks and uncertainties described in this section are not the only risks that are relevant to us or the Equity Shares or the industry in which we operate. Additional risks and uncertainties not currently known to us or that we currently believe to be immaterial could also have an adverse effect on our business, financial condition, results of operations and cash flows. If any of the following risks or other risks that are not currently known or are now deemed immaterial actually occur, our business, financial condition, results of operations and cash flows could be adversely affected, and the trading price of the Equity Shares could decline and you could lose all or part of your investment.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors described below. However, there are certain risk factors where such implications are not quantifiable, and hence any quantification of the underlying risks has not been disclosed in such risk factors.

This section contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements. For details, see “Forward-Looking Statements” on page 20.

All references in this section to a particular fiscal year or Fiscal are to the 12-month period ended on March 31 of that particular calendar year.

*Unless otherwise indicated, industry and market data used in this section has been obtained and derived from the report titled Engineered Fabrics Industry Report dated June 21, 2026 (the “**1Lattice Report**”), which was prepared by Lattice Technologies Private Limited (“**Lattice**”). We have exclusively commissioned and paid Lattice to prepare the 1Lattice Report specifically for the purpose of the Offer for an agreed fee pursuant to the engagement letter dated February 3, 2025. The industry related information included herein includes excerpts from the 1Lattice Report and such excerpts may have been re-ordered by us for the purposes of presentation; however, there are no parts, data or information in the 1Lattice Report that may be relevant for the Offer that have been left out or changed in any manner. For more details on the 1Lattice Report, see “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Industry and market data”, “– 55. Statistical and industry data in this Prospectus are derived from the 1Lattice Report, which was commissioned and paid for by us for the purpose of the Offer. Reliance on information from the 1Lattice Report for making an investment decision in the Offer is subject to inherent risks” and “Industry Overview” beginning on pages 18, 59 and 137, respectively. The 1Lattice Report forms part of the material documents for inspection and was made accessible on our Company’s website at <https://www.kusumgar.com/investor-relations/home/> from the date of the Red Herring Prospectus until the Bid/Offer Closing Date.*

INTERNAL RISKS

- 1. We derived 31.67%, 24.43% and 22.97% of our revenue from contracts with customers for Fiscal 2026 from our Aerospace and Defence Fabrics, Industrial and Automotive Fabrics, and Aerospace and Defence Solutions market segments, respectively. If there is any decline in demand for aerospace and defence fabrics, industrial and automotive fabrics, and aerospace and defence solutions, it could have a**

material adverse effect on our business, financial condition, results of operations and cash flows.

We manufacture products primarily for four market segments: (i) Aerospace and Defence Fabrics; (ii) Aerospace and Defence Solutions; (iii) Industrial and Automotive Fabrics; and (iv) Outdoor and Lifestyle Fabrics. For more details, see “Our Business - Overview” on page 185.

The table below sets forth our revenue for each of our four market segments, as well as other sales, and such revenue from contracts with customers as percentage of revenue from contracts with customers for the periods indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers
Aerospace and Defence Fabrics	2,136.99	31.67%	3,700.92	48.06%	3,134.88	68.79%
Aerospace and Defence Solutions	1,550.17	22.97%	2,219.02	28.81%	8.64	0.19%
Industrial and Automotive Fabrics	1,648.60	24.43%	1,126.34	14.63%	1,113.86	24.44%
Outdoor and Lifestyle Fabrics	1,253.15	18.57%	569.00	7.39%	291.65	6.40%
Other sales ⁽¹⁾	159.23	2.36%	85.67	1.11%	7.92	0.17%
Revenue from contracts with customers	6,748.14	100.00%	7,700.95	100.00%	4,556.94	100.00%

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

Although we have a comprehensive suite of products, as shown in the above table, our business is currently highly dependent on Aerospace and Defence Fabrics, Aerospace and Defence Solutions and Industrial and Automotive Fabrics.

Our revenue from Aerospace and Defence Fabrics decreased in Fiscal 2026 compared to Fiscal 2025 primarily due to a large order received in Fiscal 2025 that was not re-ordered in Fiscal 2026. We received ₹2,045.75 million from this order in Fiscal 2025 and ₹286.16 million from this order in Fiscal 2026. Our revenue from Aerospace and Defence Solutions decreased in Fiscal 2026 compared to Fiscal 2025 primarily due to the partial deferral of contract performance on a large contract due to operational requirements of the customer. In Fiscal 2026, we received an order with a contract value of ₹2,371.96 million, of which only 23.61% was executed in Fiscal 2026. We expect the remaining balance to be executed in Fiscal 2027.

The increase in revenue from our Aerospace and Defence Solutions market segment from Fiscal 2024 to Fiscal 2025 was primarily due to a single large order for Combat Free Fall (CFF) parachute systems from which ₹2,219.02 million was recognised as revenue from our Aerospace and Defence Solutions market segment for Fiscal 2025. This represented the entirety of our revenue from our Aerospace and Defence Solutions market segment for Fiscal 2025. CFF parachute systems were a new product introduced by us in Fiscal 2025. For more details, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Significant Factors Affecting our Results of Operations and Financial Condition – Our Ability to Upgrade our Existing Products and Introduce New Products” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Our Results of Operations – Fiscal 2025 compared to Fiscal 2024 – Income” on pages 338 and 365, respectively.

For details on the engineered fabric and solutions market for aerospace and defence, see “Industry Overview - Overview of the engineered fabric and solutions market for aerospace and defence” on page 153. For details on the engineered fabric market for industrial and automotive applications, see “Industry Overview - Overview of the engineered fabric market for industrial and automotive applications” on page 165.

We sell our products to both government-owned entities and non-government-owned companies (such companies are also known as private integrators when they are involved in assembling and delivering bundled aerospace and defence products and solutions). The table below sets forth our revenue from government-owned entities and non-government-owned companies, and such revenue as a percentage of revenue from contracts with customers for the periods indicated.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers
Government-owned entities	1,018.16	15.09%	2,668.40	34.65%	152.07	3.34%
Non-government owned companies	5,729.98	84.91%	5,032.55	65.35%	4,404.87	96.66%
Revenue from contracts with customers	6,748.14	100.00%	7,700.95	100.00%	4,556.94	100.00%

Our high dependence on Aerospace and Defence Fabrics, Aerospace and Defence Solutions and Industrial and Automotive Fabrics exposes us to risks related to fluctuations in demand, pricing pressures, and competitive dynamics within products for Aerospace and Defence Fabrics, Aerospace and Defence Solutions and Industrial and Automotive Fabrics. If there is any decline in demand for Aerospace and Defence Fabrics, Aerospace and Defence Solutions, and/or Industrial and Automotive Fabrics products, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

2. Our top customer and our top 10 customers contributed 11.13% and 59.52%, respectively, of our revenue from contracts with customers for Fiscal 2026. Any decrease in sales to such customers or the loss of such customers could have an adverse effect on our business, results of operations, financial condition and cash flows.

We have derived and expect to continue to derive a significant portion of our revenue from our top 10 customers, which exposes us to customer concentration risks. The table below sets forth details of our revenues from our top 10 customers in each of the periods indicated:

Particulars ⁽¹⁾	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue (₹ in million)	% of revenue from contracts with customers	Revenue (₹ in million)	% of revenue from contracts with customers	Revenue (₹ in million)	% of revenue from contracts with customers
Top customer	751.27	11.13%	2,225.88	28.90%	2,153.40	47.26%
Top 5 customers	3,062.38	45.38%	5,715.48	74.22%	3,120.61	68.48%
Top 10 customers	4,016.80	59.52%	6,522.00	84.69%	3,653.67	80.18%
Revenue from contracts with customers	6,748.14	100.00%	7,700.95	100.00%	4,556.94	100.00%

Notes:

- (1) These customers represent the top 10 customers for each of the respective years and may not necessarily be the same customers across the years. For Fiscals 2026, 2025 and 2024, our top 10 customers included nine companies who did not consent to disclose their name. We have received consent from Decathlon Sports India Private Limited (“Decathlon”), a wholly owned subsidiary of Decathlon S.A., a French sportswear and athletic equipment retailer, to name Decathlon as a customer in this Prospectus. We do not contract directly with Decathlon S.A. We contract with fabricators to Decathlon who supply finished products to Decathlon S.A. These fabricators, in aggregate, were one of our top 5 customers in Fiscals 2026, 2025 and 2024.

We generally do not have long-term agreements with our customers and we did not have long-term agreements with any of our top 10 customers for Fiscals 2026, 2025 or 2024. As a result, our top customer generally varies from year to year, leading to volatility in our top customer contribution. For details, see “- 25. We generally do not have long-term agreements for the sale of our products. If our customers choose not to source their requirements from us, it could have a material adverse effect on our business, financial condition, results of operations and cash flows” on page 42. The maintenance of customer relationships could be affected by a variety of factors including our customer service, the quality of our products and our ability to meet customer specifications, pricing, competition, the effects of general economic conditions, customer spending ability and force majeure. The loss of any of our top 5 customers for Fiscal 2026 or a loss of revenue from sales to these customers could have a material adverse effect on our business, financial condition, results of operations and cash flows.

3. **All six of our manufacturing facilities are in the state of Gujarat. Any significant social, political, economic or seasonal disruption, natural calamities or civil disruptions in Gujarat could have an adverse effect on our business, results of operations, financial condition and cash flows.**

All six of our manufacturing facilities are in Gujarat. Due to the geographic concentration of our manufacturing facilities, our operations are susceptible to local and regional factors, such as economic and weather conditions, natural disasters, political changes and other unforeseen events and circumstances. Further, any such adverse development affecting continuing operations at our manufacturing facilities could result in significant loss due to an inability to meet production schedules, which could adversely affect our business, results of operations, financial condition and cash flows. Since April 1, 2023, we have not conducted supply disruption stress testing as there is no assurance that supply disruption stress testing will be able to accurately predict any future events. Since April 1, 2023, our manufacturing facilities have not been affected by any significant social, political, economic or seasonal disruption, natural calamities or civil disruptions in Gujarat.

4. **Our Company, Directors and Promoters are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have an adverse effect on our business, results of operations, financial condition and cash flows.**

There are outstanding legal and regulatory proceedings involving our Company and certain of our Directors and Promoters that are pending at different levels of adjudication before various courts, tribunals and other authorities. The summary of such outstanding material legal and regulatory proceedings as on the date of this Prospectus is set out below:

Name	Criminal proceedings (number)	Tax proceedings (number)	Actions taken by statutory or regulatory authorities	Disciplinary actions by the SEBI or Stock Exchanges against our Promoters in the last five years, including outstanding action	Material litigation# (number)	Aggregate* amount involved (₹ in million)

Notes:

* To the extent quantifiable.

Determined in accordance with the Materiality Policy.

Further, as on the date of this Prospectus, there are no pending litigation proceedings involving our Group Company which will have a material impact on our Company.

One of the service providers engaged by our Company, Collage Design Private Limited has filed a petition dated December 6, 2025 (“**Petition**”) under Section 9 of the Insolvency and Bankruptcy Code, 2019, before the National Company Law Tribunal at Mumbai (“**NCLT**”) against our Company, seeking initiation of corporate insolvency resolution process claiming an outstanding amount of ₹22.30 million arising from unpaid invoices. While the petition is pending as on the date of this Prospectus and this insolvency proceeding has not yet been admitted under the Insolvency and Bankruptcy Code, 2019, we cannot assure you that there will not be any adverse orders against us. For further details in relation to this insolvency proceeding, please see “*Outstanding Litigation and*

Material Developments – Outstanding litigation proceedings against our Company -Other material proceedings” on page 378.

Further, our Company had filed an adjudication application dated September 20, 2025, under section 454 read with sections 29 and 450 of the Companies Act with the Registrar of Companies, Mumbai at Maharashtra in relation to contravention of section 29(1)(b) of the Companies Act, 2013, read with Rule 9A of the Companies (Prospectus and Allotment of Securities) Rules, 2014, in relation to allotments made pursuant to bonus issues of Equity Shares by our Company on February 20, 2025 and March 25, 2025 (“**Adjudication Application**”). The Registrar of Companies passed two orders with respect to the Adjudication Application, each dated December 1, 2025, imposing penalties of ₹0.38 million and ₹0.35 million on our Company, certain of our Directors and our Key Managerial Personnel. Our Company, Directors and Key Managerial Personnel have paid the aforementioned penalties, pursuant to which our Company has made the necessary form filings for intimation of the order to the Registrar of Companies, Mumbai at Maharashtra. For further information, see “*Capital Structure – Notes to the capital structure*” on page 89. While no regulatory action has been taken against our Company for any such non-compliance as of the date of this Prospectus, we cannot assure you that inadvertent non-compliances will not occur in the future. Such proceedings could divert the management’s time, efforts and attention and consume financial resources in their defence or prosecution.

As at March 31, 2026, we had nil provisions for litigation and ₹10.14 million contingent liabilities for litigation. We cannot assure you that any of the outstanding matters will be settled in favour of our Company, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings could have an adverse effect on our reputation and we would need to pay the amount set forth by the court in its order, which would increase our expenses and thereby adversely affect our financial condition, results of operations and cash flows.

5. *We incurred negative cash flows from operating activities in Fiscal 2025 and may continue to incur negative cash flows in the future. Continued negative cash flows from operating activities could adversely affect our business, results of operations, and financial condition.*

We incurred negative cash flows from operating activities in Fiscal 2025. The following table sets forth certain information relating to our cash flows in the Fiscals indicated:

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million		
Net cash flows generated from/(used in) operating activities	282.58	(1,549.76)	2,009.64
Net cash flows generated from/(used in) investing activities	(1,026.59)	20.62	(1,995.80)
Net cash flows generated from/(used in) financing activities	697.47	1,507.49	211.84
Cash and cash equivalents at the end of the year	268.29	304.94	326.80

For information in relation to our cash flows used in operating activities, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Cash Flows – Operating Activities*” on page 371. For information in relation to our cash flows used in investing activities, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Cash Flows – Investing Activities*” on page 371. While our cash flows from operating activities were positive in Fiscal 2026, we cannot assure you that we will be able to generate positive cash flows from operating activities in the future. Continued negative cash flows from operating activities could adversely affect our business, financial condition, results of operations and cash flows.

In addition, negative cash flows from operating activities may require us to raise funds, including debt or equity. As at March 31, 2026, our debt to equity ratio, calculated as the sum of current borrowings plus non-current borrowings divided by total equity, was 0.44. An increase in our debt will result in an increase in our interest and debt repayment obligations and could have a material adverse effect on our results of operations and financial condition. We could also become subject to additional covenants, which could limit our ability to access cash flows from operations, if any, and undertake certain types of transactions.

6. *In order to get better pricing by buying in larger volumes, we generally buy the primary materials we need from a few suppliers. For Fiscal 2026, our cost of materials consumed purchased from our top 10 suppliers represented 51.42% of our cost of materials consumed. We have not entered into long-term agreements with these suppliers and if any of our top 10 suppliers ceased selling us the materials we require in the quantities we need, and we were unable to find a supplier to replace it, it could have a*

material adverse effect on our business, financial condition, results of operations and cash flows.

Our business depends on the availability of reasonably priced, high quality materials in the quantities we require. We use a wide range of materials in our manufacturing process. Our primary materials comprise synthetic yarn of various types and chemicals such as polyurethane resin and fabric lamination films. We generally source from common suppliers across our different market segments, as materials such as yarn and coating, dyeing and printing chemicals sourced from these suppliers are used in more than one of our market segments. We do not enter into long-term contracts with material suppliers; we purchase our materials on a purchase order basis. In order to get better pricing by buying in larger volumes, we generally buy the primary materials we need from a limited number of suppliers, which, as shown in the table below, has resulted in a concentration in our suppliers.

The table below sets forth details of our cost of material consumed from our top 10 suppliers in each of the fiscal years indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Cost (₹ in million)	% of cost of material consumed	Cost (₹ in million)	% of Cost of material consumed	Cost (₹ in million)	% of Cost of material consumed
Top supplier	457.02	14.83%	419.53	11.30%	550.66	27.49%
Top 5 suppliers	1,216.34	39.47%	1,167.42	31.44%	1,119.86	55.91%
Top 10 suppliers ⁽¹⁾	1,584.68	51.42%	1,326.40	35.72%	1,325.03	66.16%
Cost of material consumed	3,081.66	100.00%	3,713.71	100.00%	2,002.86	100.00%

Note:

(1) These suppliers represent the top 10 suppliers for each of the respective fiscal years and may not necessarily be the same suppliers across the fiscal years. None of our top 10 suppliers for the fiscal years indicated have consented to be named in this Prospectus.

We generally have alternate suppliers for our materials, and there have been no instances since April 1, 2023 where we have not been able to purchase the materials we need for our business. None of our top 10 suppliers in Fiscals 2025 and 2024 ceased to be our supplier in Fiscal 2026. However, there can be no assurance that this will always be the case and if any of our top suppliers ceases to sell us the materials that we require in the quantities we need and we are unable to find one or more suppliers to replace the same, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

7. Certain observations have been included in the Statutory Auditor's report on our audited standalone financial statements for the years ended March 31, 2026, March 31, 2025 and March 31, 2024 as required under the Companies (Auditor's Report) Order, 2020.

Certain observations have been included in the Statutory Auditor's report on our audited financial statements for the years ended March 31, 2026, March 31, 2025 and March 31, 2024, as required under the Companies (Auditor's Report) Order, 2020 ("CARO 2020 Order"), in respect of our Company in the manner set forth hereunder:

8. Any shortfall in the supply of materials or significant increases in material prices could have an adverse effect on our business, results of operations, financial condition and cash flows.

We do not enter into long-term contracts with material suppliers; we purchase our materials on a purchase order basis. We strive to have more than one supplier for each of our unique fabric configurations (known as stock keeping units, or SKU). The absence of long-term contracts with our suppliers exposes us to the risk of being unable to obtain the materials in the quantities required by us and at the price points required by us. This may lead to unforeseen increases in material prices. We generally have alternate suppliers for our materials, and there have been no instances since April 1, 2023 where we have not been able to purchase the materials we need for our business. For details on the risk in relation to supply, see “- 6. *In order to get better pricing by buying in larger volumes, we generally buy the primary materials we need from a few suppliers. For Fiscal 2026, our cost of materials consumed purchased from our top 10 suppliers represented 51.42% of our cost of materials consumed, respectively. We have not entered into long-term agreements with these suppliers and if any of our top 10 suppliers ceased selling us the materials we require in the quantities we need, and we were unable to find a supplier to replace it, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.*” on page 26.

The cost of materials consumed plus changes in inventories of finished goods and semi-finished goods together represents a significant percentage of our total expenses and revenue from operations. The table below set forth

our cost of materials consumed plus changes in inventories of finished goods and semi-finished goods and such expenses as a percentage of revenue from operations for the periods indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
Cost of materials consumed [A] (₹ in million)	3,081.66	3,713.71	2,002.86
Changes in inventories of finished goods and semi-finished goods [B] (₹ in million)	(519.12)	(111.76)	(232.62)
Cost of materials consumed and changes in inventories of finished goods and semi-finished goods [C = A + B] (₹ in million)	2,562.54	3,601.95	1,770.24
Cost of materials consumed and changes in inventories of finished goods and semi-finished goods as a percentage of total expenses [D = C/G] (%)	44.43%	56.33%	49.24%
Cost of materials consumed and changes in inventories of finished goods and semi-finished goods as a percentage of revenue from contracts with customers [E = C/F] (%)	37.97%	46.77%	38.85%
Revenue from contracts with customers[F] (₹ in million)	6,748.14	7,700.95	4,556.94
Total expenses [G] (₹ in million)	5,768.20	6,394.29	3,594.80

For more details, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Significant factors - Cost of Materials Consumed and Changes in Inventories of Finished Goods and Semi-Finished Goods*” on page 338.

The availability and the prices of the materials that we need are affected by numerous factors beyond our control, including, among others, international trade policies, production capacity and transportation costs. For example, heavy reliance on petrochemical-based inputs (polyester, polypropylene, nylon) exposes the industry to crude oil price fluctuations, international trade policies (such as US tariff implications), changes in global demand, which impact availability and cost stability (source: *1*Lattice Report).

Furthermore, we import materials, such as synthetic yarn of various types, chemicals, such as polyurethane resin and fabric lamination films, from certain jurisdictions and countries, in particular Taiwan. The table below sets out our cost of imported materials consumed as a percentage of the total cost of materials consumed for the periods indicated:

Particulars	Year ended March 31,					
	2026		2025		2024	
	Cost (₹ in million)	As a percentage of cost of materials consumed (%)	Cost (₹ in million)	As a percentage of cost of materials consumed (%)	Cost (₹ in million)	As a percentage of cost of materials consumed (%)
Cost of imported materials consumed	1,198.93	38.91%	1,037.01	27.92%	1,064.50	53.15%
Of which:						
Taiwan	596.94	19.37%	806.84	21.73%	802.01	40.04%
Others ⁽¹⁾	601.99	19.53%	230.17	6.20%	262.49	13.11%
Cost of materials consumed	3,081.66	100.00%	3,713.71	100.00%	2,002.86	100.00%

Note:

(1) Other refers to countries which supply less than 10.00% of total cost of materials.

Countries impose, modify, and remove tariffs and other trade restrictions in response to factors, such as global and national economic and political conditions. This results in sustained uncertainty about, or worsening of, current global economic and political conditions and escalations of trade tensions could result in a global economic slowdown and long-term changes to global trade, including retaliatory trade restrictions. The Indian Government may take administrative, legislative or regulatory action that could interfere with our ability to purchase supplies from such countries, such as trade restrictions, including tariffs, changes to de minimis thresholds, quotas, embargoes, safeguards, and customs restrictions, could increase the cost or reduce the supply of our imported materials, could increase shipping times, or may require us to modify our supply chain organization or other current business practices, any of which could adversely affect our business, results of operations and financial condition. As a result, we may be required to seek domestic suppliers instead of our current foreign suppliers, and there is no assurance that we will be able to find alternative suppliers that meet our requirements. Any disruptions

to the supply of imported materials could cause delays in our manufacturing and delivery times, thereby, have an adverse effect on our business, results of operations and financial condition. Further, any alterations to our business strategy or operations made in order to adapt to or comply with any such changes would be time-consuming and expensive.

If the prices of the materials that we need rapidly increase, we may be unable to increase our product prices in sufficient time to fully offset increasing material prices. Our ability to transfer increases in material costs to our customers is dependent on, among other factors, market conditions as well as pricing of similar products by our competitors. In the past, we have been successful in transferring increases in material costs to customers through increased product prices, although there has typically been a time lag. However, to the extent that we are not able to transfer increases in costs to our customers, or if there is a significant lag in transferring increases in costs to our customers, our business, results of operations, financial condition and cash flows could be adversely affected.

9. *There have been certain instances of delays in payment of statutory dues by us in the past. Any delay in payment of statutory dues by us in future could result in the imposition of penalties, which could have an adverse effect on our financial condition, results of operation and cash flows.*

We are required to pay certain statutory dues, including provident fund contributions and employee state insurance contributions under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and the Employees' State Insurance Act, 1948, respectively, professional taxes, gratuity and tax deducted at source. We are also required to pay additional statutory dues, including applicable goods and services and value added tax. As at the date of this Prospectus, our Company and our subsidiaries incorporated in India have paid all statutory dues for Fiscals 2026, 2025 and 2024. However, there have been some delays in the payment of statutory due for those fiscal years. The table below sets out details of the delays in statutory dues payable by our Company and subsidiaries in India for the fiscal years indicated:

Particulars	Fiscal 2026				Fiscal 2025				Fiscal 2024			
	Number of instances of delay	Amount delayed (including interest) (in ₹ millions)	Total number of delay (Days)	Total average number of delay (Days)	Number of instances of delay	Amount delayed (including interest) (in ₹ millions)	Total number of delay (Days)	Total average number of delay (Days)	Number of instances of delay	Amount delayed (including interest) (in ₹ millions)	Total number of delay (Days)	Total average number of delay (Days)

GST	-	-	-	-	19	240.43	129	6.79	1	1.33	1	1

The instances of non-payment or delays in the payment of statutory dues by the Company were in part due to delays in registration of our new facility, technical errors experienced when trying to make payment through the relevant online portal, reliance on frequently malfunctioning third-party software, public holidays affecting banking and processing timelines, and missing, incomplete, or incorrect documentation.

While there has been no legal proceedings or regulatory action that has been initiated against our Company in relation to the non-payment or delays in the payment of statutory dues for Fiscals 2026, 2025 and 2024, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company or that any fines will not be imposed by regulatory authorities on our Company in this respect in the future.

10. If we are unable to respond to changing customer preferences in a timely and effective manner, it could have an adverse effect on our business, results of operations and financial condition.

Our focus on product innovation based on customer requirements has been critical to our success and has helped us to develop an extensive range of engineered fabrics and related end-products. We consider factors such as functionality, safety and user comfort, which allows us to develop new and differentiated products and respond to evolving industry trends and our customers' preferences. We intend to further diversify our product portfolio by investing in technology, equipment and people with the aim of delivering high-quality, innovative and technology-driven products in response to customer requirements, thereby strengthening our relationships with our customers across a range of product categories.

Continuous demand for lighter, stronger and multifunctional fabrics in the engineered fabrics industry necessitates high R&D expenditure (source: 1Lattice Report). Rapid shifts in technologies could render existing capacities obsolete (source: 1Lattice Report). As at March 31, 2026, our R&D team comprised 21 employees. Our R&D expenses primarily comprise employees' salaries, testing charges paid to external providers and product development costs. The table below sets out our R&D team salaries and testing charges (research and development) and such expenses as a percentage of our revenue from contracts with customers for the fiscal years indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million, except percentages		
R&D team salaries [A]	16.10	17.47	12.16
Testing charges (research and development) [B]	5.21	12.31	4.32
Total ⁽¹⁾ [C = A + B]	21.31	29.78	16.48
Total as a percentage of revenue from contracts with customers [D = C/E] (%)	0.32%	0.39%	0.36%
Revenue from contracts with customers [E]	6,748.14	7,700.95	4,556.94

Note:

(1) We do not separately track internal testing costs and product development costs, including the cost of machinery and materials such as chemicals and yarn.

Since April 1, 2023, we have not experienced any failed or delayed product launches that had an adverse effect on our business, financial condition, results of operations or cash flows.

Though we strive to align our products with the requirements of our customers, there can be no assurance that we will be able to secure the necessary knowledge or knowhow through our own in-house product development that will allow us to continue to develop our products in accordance with the requirements of our customers. As a result, there is a risk that our investments in R&D may not necessarily translate into increased customer orders and increased revenue from operations.

Furthermore, certain of our products, particularly those developed for the defence sector, require long development cycles and significant resource allocation. There is a risk that such products may become redundant due to evolving customer requirements, technological changes, or delays in approval or procurement processes. This could result in non-recoverable development costs and impact our financial performance.

Our growth may depend in part on our ability to respond to technological advancement and emerging standards and practices on a cost-effective and timely basis. If we are unable to continuously develop new products that cater to customers' demands and requirements, or if we are unable to optimise our processes, our business, financial condition, results of operation and cash flows could be adversely affected.

11. Failure to keep our technical knowledge confidential or to protect our intellectual property could erode our competitive advantage and have a material adverse effect on our business, financial condition, results of operations and cash flows.

We possess technical knowledge and know-how about our products, manufacturing processes and materials expertise and automation capabilities that we have built up through our own research and development capabilities. While we rely on a combination of confidentiality procedures and contractual provisions to protect our intellectual property, we cannot be certain that the steps we have taken will be sufficient to prevent unauthorised use of our intellectual property. As a result, we cannot be certain that our technical knowledge will remain confidential.

Certain proprietary knowledge could be leaked, either inadvertently or wilfully, by our employees. A significant number of our employees have access to confidential design and product information and there can be no assurance that this information will remain confidential. Moreover, certain of our employees could leave us and join our various competitors. Although we seek to enforce non-disclosure agreements with our key employees to protect our proprietary technical knowledge and other confidential information, we cannot guarantee that we will be able to successfully enforce such agreements. We also enter into non-disclosure agreements with some of our customers, but such agreements may not be successful in protecting our technical knowledge and know-how.

Furthermore, our business primarily focuses on the manufacturing of high-quality engineered fabrics and related end-products, which relies on customer-specific product designs. When a customer selects a design, we may use it exclusively for that customer without acquiring any proprietary design rights. This dependency means that if our proprietary designs or technical knowledge are leaked, our ability to produce unique products that differentiate us in the market could be compromised. Furthermore, as we are primarily a business-to-business seller, many of our customers own the intellectual property related to the product we manufacture for them and those customers prefer to maintain the flexibility of having multiple suppliers. This lack of exclusive intellectual property rights limits our ability to build a proprietary product portfolio and capitalize on successful designs across multiple customers, making us vulnerable to competitors who can offer similar products. In the event that the confidential technical information in respect of our products becomes available to third parties, any competitive advantage we may have over other companies in the technical textiles industry could be compromised.

If a competitor is able to reproduce or otherwise capitalise on our technology, it could be difficult, expensive or impossible for us to obtain necessary legal protection. Moreover, we may not be able to detect any unauthorised use or to take appropriate and timely actions to protect our confidential technical information.

Since April 1, 2023, nothing has come to our attention to cause us to believe that our confidential technical information has been leaked. Consequently, any leakage of confidential technical information could have a material adverse effect on our business, financial condition, results of operations and cash flows.

As at the date of this Prospectus, our Company does not own any registered trademarks. However, our Company has filed an application for change in the name of the proprietor to reflect the name of our Company in respect of certain trademarks, including the mark “KUSUMGAR”, together with the associated copyrights in the artistic works subsisting therein, which have been assigned to our Company pursuant to a deed of assignment dated September 13, 2025. There can be no assurance that such application will be approved. Since April 1, 2023, nothing has come to our attention to cause us to believe that our “Kusumgar” brand has been imitated.

12. Our exports accounted for 39.99% of revenue from contracts with customers for Fiscal 2026. Any changes in government regulations or policies affecting international trade or any downturn in the macroeconomic environment or geopolitical risks in India, the United States or the European Union may have an adverse effect on our business, results of operations and financial condition.

Our exports to international markets accounted for 39.99%, 23.22% and 25.62% of revenue from contracts with customers for Fiscals 2026, 2025 and 2024, respectively. The tables below set out our revenue from exports by region and country and revenue from exports by country as a percentage of the revenue from contracts with customers for the Fiscals indicated:

As an exporter, we are particularly exposed to risks arising from changes in government regulations or policies affecting international trade. For Indian exporters, higher tariffs could dampen business sentiment and reduce international demand for manufactured products (*source: 1Lattice Report*). Countries impose, modify, and remove tariffs and other trade restrictions in response to a diverse array of factors, including global and national economic and political conditions, which make it impossible for us to predict future developments regarding tariffs and other trade restrictions. The scope, duration and frequency of these tariffs, along with potentially retaliatory trade restriction measures and the adverse effects of such tariffs remain uncertain and could be severe. Government regulations or policies, deterioration in economic conditions or escalation of trade tensions may affect demands for our products, leading to a corresponding decline in demand for our products which may result in an adverse effect on our business, results of operations and financial condition. Trade restrictions, including tariffs, changes to de minimis thresholds, quotas, embargoes, safeguards, and customs restrictions, could increase the cost of our products and/or increase shipping times, or affect our ability to export our products, any of which could adversely affect our business, results of operations and financial condition.

On July 31, 2025, the United States announced tariffs of approximately 25% on most Indian goods, including engineered fabrics (*source: 1Lattice Report*). Effective August 27, 2025, this new tariff resulted in the total additional duty on Indian products being 50% (*source: 1Lattice Report*). Subsequently, in early February 2026, India and the United States announced an interim trade arrangement that reportedly reduced tariffs on several Indian goods (*source: 1Lattice Report*). However, on February 20, 2026, the U.S. Supreme Court invalidated the underlying IEEPA-based tariff regime pursuant to which such reductions had been implemented (*source: 1Lattice Report*). Following this decision, the United States introduced a new tariff framework under Section 122 of the U.S. Trade Act of 1974, imposing a uniform 10% surcharge on imports from most countries effective February 24, 2026 (*source: 1Lattice Report*). Accordingly, the earlier tariff rates announced under the interim arrangement are no longer operative, and the effective tariff burden on Indian exports is currently determined by the applicable product-specific MFN duty together with any additional tariffs imposed under prevailing U.S. trade measures (*source: 1Lattice Report*). After international negotiations and changes in United States policy, India is currently subject to U.S. tariffs that vary based on the product, from approximately 20% to 40% (*source: 1Lattice Report*). Prior to the introduction of these increased tariffs, our products were subject to U.S. tariffs of approximately 14%. The increase in U.S. tariffs had an adverse effect on our revenue from customers in the United States, which decreased by 7.50% to ₹628.03 million for Fiscal 2026 from ₹678.94 million for Fiscal 2025. However, the adverse effect of the increase in U.S. tariffs was more than offset by one of our customers in the United States instructing us to deliver more products to it outside the United States. Our revenue from this customer increased by 27.26% to ₹479.71 million (₹130.36 million in the United States and ₹349.35 million outside the United States) for Fiscal 2026 from ₹376.96 million (₹274.15 million in the United States and ₹102.81 million outside the United States) for Fiscal 2025.

On June 2, 2026, the Office of the United States Trade Representative (the “USTR”) issued the notice of determinations and proposed responsive actions in the Section 301 investigations of “Acts, Policies, and Practices of Various Economies Related to the Failure to Impose and Effectively Enforce a Prohibition on the Importation of Goods Produced with Forced Labor,” covering 60 economies, including India (*source: 1Lattice Report*). The USTR determined that the identified acts, policies, and practices are unreasonable and burden or restrict U.S. commerce, and are thus actionable under Section 301(b) of the U.S. Tariff Act of 1930, for all 60 economies subject to the investigations (*source: 1Lattice Report*). For the responsive action, the USTR is proposing to impose an additional tariff ad valorem tariff on imports from all economies subject to the investigations at rates of 10-12.5% (12.5% rate for India), but with several significant product and trade agreement exceptions (*source: 1Lattice Report*). Under the USTR’s proposed mechanism, a specific volume of Indian apparel and textiles may be allowed to enter the United States at a reduced rate if equal to the volume of U.S. textile inputs and cotton imported by India (*source: 1Lattice Report*). The proposed action does not include complete details about how

or when the proposed additional tariffs would be implemented (*source: 1Lattice Report*). The USTR is accepting comments on the proposed tariffs through July 6, 2026, and will hold a public hearing on July 7, 2026 (*source: 1Lattice Report*).

As a result of recent policy changes of the current United States administration and recent proposals by the United States government, there may also be greater restrictions and economic disincentives on international trade. New tariffs and other changes in the United States' trade policy could trigger retaliatory actions by affected countries, and certain foreign governments have imposed or are considering imposing trade sanctions on certain goods from the United States. Such changes have the potential to adversely affect the United States economy or certain sectors thereof, our industry and the global demand for our products.

In addition, our performance and the growth of our business are dependent to some extent on the health of the economies of India, the United States and the European Union, as the principal markets from which we derive revenue from contracts with customers.

Apart from changes in government regulations or policies affecting international trade, on a broader level, each economy could be adversely affected by various factors, such as a new variant of COVID-19, other pandemics or epidemics, worldwide financial instability, inflation, volatility in interest rates, volatility in commodity and energy prices, a loss of investor confidence, social disturbances, religious or communal tensions, terrorist attacks and other acts of violence or war and natural calamities. For example, an increase in India's trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could increase interest rates and adversely affect liquidity, which could adversely affect the Indian economy and thereby adversely affect our business, financial condition, results of operations and cash flows.

Accordingly, any changes in government regulations or policies affecting international trade or downturn in the macroeconomic environment or the occurrence of any of the above-mentioned geopolitical risks in India, the United States and the European Union could adversely affect our business, financial condition, results of operations and cash flows.

13. *We operate in a competitive business environment. Failure to compete effectively against our competitors would have a material adverse effect on our business, financial condition, results of operations and cash flows.*

The markets in which we sell our products are competitive and we face competition from organized and unorganized engineered fabric manufacturers in India and overseas. For details on our competitors, see “*Our Business - Competition*” and “*Industry Overview – Company overview and financial benchmarking*” on pages 210 and 180, respectively.

For details on operational benchmarking for us and our competitors in India, see “*Industry Overview- Operational benchmarking*” on page 183. For details on financial benchmarking for us and our competitors in India, see “*Industry Overview- Financial benchmarking*” on page 181. In addition, for details in relation to a comparison of the KPIs and certain Ind AS financial measures of our Company with our peer group, see “*Basis for Offer Price - Comparison of KPIs with our listed peers in India*” on page 123.

We compete on the basis of technology, technical qualifications, price, and our ability to fulfil our contractual obligations, including the quality of products and the timely delivery of the products. Our competitors may have substantially greater financial, management, research and marketing resources than we have as a result of which they may be able to utilise their resources and economies of scale to develop improved products and divert sales away from us.

Furthermore, our competitors' actions, including expanding manufacturing capacity or the entry of new competitors into our market, could cause us to lower prices in an effort to maintain our sales volume. In addition, customers could decide to compete with us as by backward integrating their operations.

If we fail to compete effectively, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

14. We are required to obtain and maintain a number of statutory and regulatory approvals for carrying out our business. A failure to obtain, keep and renew such licences, registrations, permits and approvals could have a material adverse effect on our business, financial condition, results of operation and cash flows.

We are required to obtain and maintain a number of statutory and regulatory licences, permits and approvals in India, generally for carrying out our business and for each of our manufacturing facilities. For further details on regulatory licences, permits and approvals in India, including in relation to their validity, as applicable, see “Government and Other Approvals” on page 382.

A majority of these approvals, including the consent to operate, are granted for a limited duration and they require renewal from time to time. While we will plan to apply for renewal of these approvals as and when they are due to expire, we cannot assure you that such renewals will be issued or granted to us in a timely manner, or at all. If we are not able to renew the approvals in a timely manner, we may be subject to penalties and/or suspension of our operations at a facility that does not have the requisite licenses or approvals, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows. Since April 1, 2023, there have been no instances where we failed to obtain an approval, licence, registration, consent or permit necessary for us to conduct our business. As on the date of this Prospectus, there are no Material Approvals that have been applied for by our Company, but have not been received.

Further, the approvals, licences, registrations, and permits issued by relevant central and state authorities under various rules and regulations are subject to various conditions. Any failure by us to continuously meet such conditions could lead to cancellation, revocation or suspension of such approvals, licenses, registrations, and permits. Failure by us to comply with the applicable regulations or amendments to the regulations governing our business could cause us to incur increased compliance costs, be subject to penalties, have our licences, approvals and permits revoked or suffer a disruption in our operations, any of which could have a material adverse effect on our business and results of operations. Since April 1, 2023, none of our approvals, licences, registrations, consents and permits have been suspended or revoked for non-compliance with any terms or conditions thereof or pursuant to any regulatory action.

15. Our operations are significantly dependent on our manufacturing facilities. Any breakdown or shutdown of any of our manufacturing facilities could have a material adverse effect on our business, results of operations, financial condition and cash flows.

Our manufacturing operations are currently undertaken at our six manufacturing facilities. The following table summarizes the market segments primarily served by products manufactured at these facilities:

Sr. No.	Facility	Address	Market Segments

For further details, see “*Our Business – Properties*” on page 212.

Our manufacturing facilities are subject to operating risks that could significantly affect our ability to manufacture and deliver our products. These risks include the breakdown or failure of equipment, which can halt production and require costly repairs, a shortage or unavailability of electricity or water, which can disrupt operations, and industrial accidents, which can lead to safety concerns and operational delays. Additionally, labour disputes could result in work stoppages, while political instability might affect our supply chain and operational stability. Natural disasters, such as floods or earthquakes, pose a threat to our infrastructure, and epidemics or pandemics, like the COVID-19 pandemic, can lead to workforce shortages and supply chain disruptions. Furthermore, significant social, political or economic disruptions in the locations where our manufacturing facilities are located can adversely affect our operations, potentially leading to increased costs or delays. Moreover, the need to comply with directives from relevant government authorities may require us to adapt our operations, potentially impacting our production schedules and costs. The risks associated with potential shutdowns are even more significant, given that certain of our products are manufactured in a limited number of locations because of the specialized machinery necessary to produce engineered fabrics. For more details, see “- 49. A shortage or unavailability of electricity or water could affect our manufacturing operations and have an adverse effect on our business, financial condition, results of operations and cash flows.” on page 57, “- 42. Our operations involve activities and materials that are hazardous in nature. Serious mishaps could result in a suspension of operations, injury to our or their personnel and/or the imposition of civil or criminal liabilities, any of which could adversely affect our business, results of operations, cash flows and financial condition.” on page 53, “- 37. We could be subject to industrial unrest, which could adversely affect our business, financial condition, results of operations and cash flows.” on page 50 and “- 56. The occurrence of natural disasters and man-made disasters could adversely affect our business, financial condition, results of operations and cash flows.” on page 60. Since April 1, 2023, we have not experienced any material disruptions at our manufacturing facilities, and we have neither paid damages to our customers nor had any orders cancelled due to delays in delivery or failure to deliver our products.

We have insurance covering us for costs incurred in the event that one of our manufacturing facilities suffers a breakdown or shutdown due to events outside of our control, such as natural disasters. However, this insurance policy does cover us in the event of war, or for loss of profits.

If in the future we may experience any breakdown or shutdown of any our manufacturing facilities, it could have a material adverse effect on our business, results of operations, financial condition and cash flows.

16. We operate a working capital intensive business. Any failure to secure funds to meet our working capital requirements could have a material adverse effect on our business, results of operations, financial condition and cash flows.

Our business requires a significant amount of working capital, as there is a considerable time lag between the purchase of materials and the payment from our customers, with an average working capital cycle of 90 to 180 days. We are, therefore, required to maintain a sufficient stock of materials at all times in order to meet manufacturing requirements, and have sufficient capital for our operations until we are able to recover costs upon delivery of products, which in turn affects our working capital requirements. We have primarily funded our working capital requirements through borrowings and internal accruals. Consequently, there could be situations where the total funds available to us may not be sufficient to fulfil our commitments, and hence we may be required to incur additional indebtedness or utilize internal accruals to satisfy our working capital requirements.

Our Net Working Capital was ₹2,782.32 million, ₹645.69 million and ₹(51.18) million as at March 31, 2026, 2025 and 2024, respectively. The increase in our Net Working Capital as at March 31, 2026 was primarily due to revenue of ₹639.57 million from bulk sales of combat free fall (CFF) parachute systems being recognised in the fourth quarter of Fiscal 2026 and revenue of ₹511.32 million related to a service contract also being recognised in the fourth quarter of Fiscal 2026. The majority of these sales shifted to receivables. Accordingly, the increase in our Net Working Capital should not be taken as an indication of a reduction in our working capital requirements. Our business remains working capital intensive due to the nature of our operations and inventory requirements.

Our trade receivables increased from ₹422.39 million as at March 31, 2024 to ₹561.10 million and increased to ₹2,332.79 million as at March 31, 2026. The increase in trade receivables from March 31, 2024 to March 31, 2025 was primarily due to the increase in our revenue from operations in Fiscal 2025 compared to Fiscal 2024. The increase in trade receivables from March 31, 2025 to March 31, 2026 was primarily due to the majority of our sales happening in the fourth quarter of Fiscal 2026.

The table below sets forth our Net Working Capital, trade receivables, trade payables and inventories as at the dates indicated and our Working Capital Cycle (in days), Trade Receivables Days, Trade Payables Days and Inventories Days for the fiscal years indicated.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
Net Working Capital ^{(1)(*)} (₹ in million)	2,782.32	645.69	(51.18)
Working Capital Cycle ⁽²⁾ (in days)	90	14	(10)
Trade receivables (₹ in million)	2,332.79	561.10	422.39
Trade Receivables Days ⁽³⁾ (number of days)	123	26	33
Trade payables (₹ in million)	667.62	472.07	522.72
Trade Payables Days ⁽⁴⁾ (number of days)	79	49	76
Inventories (₹ in million)	1,948.58	1,369.02	1,437.11
Inventories Days ⁽⁵⁾ (number of days)	103	64	112

Notes:

- (1) Net Working Capital is calculated as the aggregate of total current assets less total current liabilities (“**Net Working Capital**”).
- (2) Working Capital Cycle (in days) is calculated by dividing the number of days in the applicable Fiscal Year by the working capital ratio, which is calculated as revenue from operations divided by Average Net Working Capital. Average Net Working Capital is calculated as (Net Working Capital as at beginning of the Fiscal Year plus Net Working Capital as at the end of the Fiscal Year) divided by two (“**Average Net Working Capital**”).
- (3) Trade Receivables Days is calculated by dividing trade receivables as at the end of the Fiscal Year by revenue from operations and multiplying it by 365 days (“**Trade Receivables Days**”).
- (4) Trade Payables Days is calculated by dividing trade payables as at the end of the Fiscal Year by purchases and multiplying it by 365 days (“**Trade Payables Days**”).
- (5) Inventories Days is calculated by dividing inventories as at the end of the Fiscal Year by revenue from operations and multiplying it by 365 days (“**Inventories Days**”).

(*) Non-GAAP financial measure.

Our working capital requirements could increase further if we are required to pay higher prices for materials or increase advances for the procurement of materials. Some of these factors could result in an increase in our current borrowings. An increase in the incurrence of debt will result in an increase in our interest and debt repayment obligations. Continued increases in our working capital requirements could have a material adverse effect on our results of operations and financial condition. We could also become subject to additional covenants, which could limit our ability to access cash flows from operations and undertake certain types of transactions.

17. The audit trail functionality of our accounting software for Fiscals 2025 and 2024 was not in compliance with Rule 11(g) of the Companies (Audit and Auditors) Rules.

We used an accounting software for maintaining our books of account during Fiscal 2024, which has a feature of recording audit trail (edit log) facility, except that the audit trail feature was not enabled in the accounting software throughout Fiscal 2024.

We use accounting software for maintaining books of account, which has a feature of recording audit trail (edit log) facility, except that the audit trail feature at the application level was enabled (i) January 11, 2025 for the Purchase module, (ii) from February 12, 2025 for the Customer module, and (iii) from June 25, 2024 for the Sales module. It was not enabled at the database level to log any direct data changes for the entire Fiscal 2025, as is explained in Note 52 to the Restated Financial Information. Further, where enabled, the audit trail feature has operated throughout the period for all relevant transactions recorded in the accounting software. During the relevant audit, our statutory auditors did not come across any instance of the audit trail feature being tampered with in respect of such accounting software. The audit trail of the prior year has not been preserved by the Company as it was not enabled in the prior year as per statutory requirements for record retention. In the opinion of our statutory auditor, proper books of account as required by law have been kept by the Company so far as it appears from their review of those books except for matters stated in the paragraph 2(g)(vi) on reporting under Rule 11(g). In the absence of sufficient appropriate audit evidence our statutory auditor is unable to comment whether back-up of the books of account and other books and papers maintained in electronic mode is taken on a daily basis.

The foregoing non-compliance of the audit trail functionality with the Companies (Audit and Auditors) Rules for Fiscals 2025 and 2024 was not disclosed in the report issued by the Board of Directors under Section 134(3) of the Companies Act, 2013 for each of the relevant Fiscals. On July 27, 2025 we enabled the feature of recording audit trail (edit log) facility in our accounting software for maintaining books of account at the database level.

18. *Our Promoters may be engaged in ventures that could lead to conflicts of interest with our Company. While we have adequate measures in place to prevent such conflicts of interest, in the event our Promoters conduct any business in those ventures, it may adversely affect our business, financial condition, results of operations and cash flows.*

Our Promoters have an interest in Specialty Fabrics Private Limited and Paraborne Systems LLP, which are engaged in the business similar to ours. Our Company has entered into a non-compete agreement dated June 1, 2025 with our Promoters, namely, Siddharth Yogesh Kusumgar and Sapna Siddharth Kusumgar, pursuant to which they have agreed to cease to undertake business in Specialty Fabrics Private Limited and Paraborne Systems LLP, members of our Promoter Group, in their current form. However, our Directors and Promoters may become involved in other ventures that compete with us. While we will adopt necessary procedures and practices as permitted by law to address any instances of conflict of interest if and when they may arise, such as entering into further non-compete agreements with our Directors and Promoters, we cannot assure you that these or other conflicts of interest will be resolved in an impartial manner. We cannot assure you that our Directors and Promoters will not favour the interests of such entities over our interests or that we will be able to suitably resolve any such conflicts without an adverse effect on our business including, among other things, a loss of business opportunities.

19. *We are exposed to counterparty credit risk of our customers and any significant delay in receiving payments or non-receipt of payments could have a material adverse effect on our financial condition, results of operations and cash flows.*

We are exposed to counterparty credit risk of our customers and any significant delay in receiving payments or non-receipt of payments could have a material adverse effect on our results of operations, financial condition and cash flows. There is no assurance that we will be able to accurately assess the creditworthiness of our customers. Macroeconomic conditions, such as a credit crisis in the global financial system or global economic uncertainty, or a pandemic, such as the COVID-19 pandemic, could lead to deterioration in our customers' financial condition and results of operations, which could limit their access to the credit markets, thereby increasing their risk of insolvency or bankruptcy. Further, payments from government entities may be subject to delays, due to regulatory scrutiny and procedural formalities. Such conditions could cause our customers to delay in payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables. We typically offer a credit period of up to 60 days to our customers (both domestic and foreign).

For details on the ageing of trade receivables, see “*Restated Financial Information – Note 15 – Trade Receivables*” on page 298.

In the last three Fiscals, there have been instances where we have been unable to recover dues from certain clients, which we have written-off, and instances where we have recovered previously written-off trade dues. The table

below sets forth our trade receivables as at the dates indicated and Trade Receivables Days, write-off of trade receivables and recovery of written off trade receivables for the fiscal years indicated.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
Trade receivables (₹ in million)	2,332.79	561.10	422.39
Trade Receivables Days ⁽¹⁾ (in days)	123	26	33
Write-off of trade receivables [A] (₹ in million)	1.23	6.17	3.05
Recovery of written-off trade receivables [B] (₹ in million)	-	-	-
Write-off of trade receivables less recovery of written-off trade receivables [C = A - B] (₹ in million)	1.23	6.17	3.05
Write-off of trade receivables less recovery of written-off trade receivables as a percentage of revenue from operations [D = C/E] (%)	0.02%	0.08%	0.07%
Revenue from operations [E] (₹ in million)	6,920.03	7,789.97	4,679.08

Notes:

(1) Trade Receivables Days is calculated by dividing trade receivables as at the end of the Fiscal Year by revenue from operations and multiplying it by 365 days ("Trade Receivables Days").

If we experience delays in the collection of, or unable to collect, our trade receivables, it could have a material adverse effect on our financial condition, results of operations and cash flows.

20. Our financing agreements contain covenants that limit our flexibility in operating our business. Any future failure to meet the conditions under our financing arrangements or obtain any consents thereunder could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We have entered into financing arrangements with various lenders for short-term and long-term facilities for purposes including funding our working capital requirements and purchasing capital goods. As at May 31, 2026, our aggregate outstanding total fund based borrowings were ₹2,858.20 million. For details, see "Financial Indebtedness" on page 332.

The facility agreements typically contain certain restrictive and other covenants, including but not limited to, restrictions on the utilisation of the loan for certain specified purposes, timely provision of information and documents, timely creation of security, obtaining prior consent and waiver from existing lenders and maintenance of financial ratios, including debt to tangible net worth, debt-service coverage ratio and fixed assets coverage ratio. Further, most of our loan documents contain restrictive covenants that require us to obtain the prior written approval from the appropriate lender for various corporate actions, including effecting any change in the composition or management or the shareholding or capital structure of our Company, any merger, amalgamation, acquisition, compromise or other restructuring. In addition, our terms loans and working capital facilities are secured by, among others, a charge over material, stock in process, current assets and moveable assets, fixed deposits, demand promissory notes and personal guarantees from certain of our Promoters. As of the date of this Prospectus, we have received all consents required from our lenders in connection with the Offer.

Since April 1, 2023, we have not breached any covenants under our loan agreements, except one in Fiscal 2025. In Fiscal 2025, our Company breached a financial covenant in a loan agreement with principle amount of ₹1 billion when our Company's current ratio (calculated on a standalone basis) was below the required 1.33. The lender has waived the said breach. Since this breach, we have revised our treasury protocols to align our tenure of funds and their use and to ensure capital investments are financed through long-term funding, thereby helping to ensure we comply with this financial covenant in the future.

Our failure to comply with restrictive covenants or to obtain our lenders' consent to take such actions in a timely manner or at all could also result in an event of default, which could accelerate repayment of the relevant loans or increase applicable interest rates or even trigger cross-defaults under our other financing agreements or other agreements or instruments containing cross-default provisions. Further, a breach of our facility agreements could also trigger a right of the lenders to enforce the security provided. An event of default could also affect our ability to raise new funds or renew maturing borrowings that could be needed to conduct our operations and pursue our growth initiatives. In addition, our ability to obtain further financing on terms and conditions acceptable to us could be severely and negatively impacted as a result of these restrictions and breaches, and we cannot guarantee that we will be able to repay our loans in full, or at all, upon receiving a recall or acceleration notice, or otherwise. A failure to comply with repayment schedules and other conditions prescribed under financing arrangements could

have an adverse effect on our debt ratings, and any loan agreement termination and subsequent action taken by our lenders could individually or in aggregate have an adverse effect on our business, results of operations, cash flows and financial condition.

21. Our Promoters have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may adversely affect their ability to effectively service their obligations and thereby adversely affect our business and operations.

Our Promoters Yogesh Kantilal Kusumgar and Siddharth Yogesh Kusumgar, have provided personal guarantees towards loan facilities taken by our Company, the total amount of which outstanding was ₹1,173.73 million as at March 31, 2026. For further information, see “History and Certain Corporate Matters – Details of guarantees given to third parties by the Promoters participating in the Offer for Sale” on page 236. Other than as disclosed in “History and Certain Corporate Matters” on page 224, none of the members of the Promoter Group, Subsidiaries, Directors, Senior Management and Key Managerial Personnel or their directors or any other related entity or person are party to such borrowings.

Any default or failure by our Company to repay the loans in a timely manner, or at all, could trigger repayment obligations of our individual Promoters in respect of such loans, which in turn, could have an adverse effect on their ability to effectively service their obligations, thereby having an effect on our business, results of operations and financial condition. Furthermore, in the event that our Promoters withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. Accordingly, our business, results of operations, financial condition and cash flows could be adversely affected by the revocation of the personal guarantees provided by our Promoters.

22. We have contingent liabilities that have not been provided for in our financial statements, which if they materialise could adversely affect our financial condition, results of operations and cash flows.

The summary of our contingent liabilities as at March 31, 2026 as indicated in our Restated Financial Information are as follow:

Particulars	As at March 31, 2026 (₹ in million)
Letter of credit	40.79
Bank Guarantee	1,038.77
Corporate guarantee given to related party	-
Income tax Demand	10.14
Total	1,089.70

As at March 31, 2026, we had a bank guarantee outstanding of ₹1,038.77 million, which was obtained in connection with government contracts.

If any of these contingent liabilities materialise, it would have an adverse effect on our financial condition, results of operations and cash flows.

The table below sets out our total contingent liabilities as indicated in our Restated Financial Information and as a percentage of our Net Worth as at the dates indicated:

Particulars	As at March 31,		
	2026	2025	2024
	₹ in million, except percentages		
Total contingent liabilities [A]	1,089.70	53.11	122.12
Total contingent liabilities as a percentage of Net Worth [B = A/C] (%)	21.67%	2.06%	8.70%
Net Worth ⁽¹⁾ [C]	5,029.54	2,577.52	1,403.59

Note:

(1) Net Worth has been defined as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves

created out of revaluation of assets, write-back of depreciation and amalgamation in accordance with Regulation 2(1)(hh) of the SEBI ICDR Regulations.

- 23. Our Company did not meet the required minimum expenditure on CSR activities for Fiscals 2026, 2025 and 2024, as is required under the Companies Act, 2013 and there was a delay in transferring such unspent amounts to a special account within a period of 30 days from the end of the respective fiscal year as mandated under the Companies Act, 2013. The unspent amounts have been transferred to the unspent CSR account and are required to be used for the purposes of CSR activities within three Fiscals from the date of transfer. Any failure to do so may result in penalties and have an adverse effect on our reputation, financial condition and results of operations.**

The Companies Act, 2013 stipulates the requirement of formulation of a corporate social responsibility policy and mandates our Board of Directors to ensure that our Company spends, in each Fiscal, at least two percent of the average net profits of our Company during the three immediately preceding Fiscals, in accordance with its CSR policy. We have adopted a CSR policy in compliance with requirements of the Companies Act, 2013 and the Companies (Corporate Social Responsibility) Rules, 2014, as amended. The details with respect to our required minimum expenditure on CSR activities and our actual expenditure towards CSR activities for Fiscals 2026, 2025 and 2024 are set forth below:

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million, except as noted		
a) Gross amount required to be spent by the Group during the year	20.29	12.46	6.92
b) Previous year's unspent amount	20.38	8.22	3.49
c) Amount required to be spent during the Fiscal, including deficit of the previous Fiscal, as per Section 135 of the Companies Act, 2013, read with Companies (Corporate Social Responsibility Policy) Rules, 2014 [C= A + B]	40.67	20.69	10.41
d) Amount of expenditure incurred	2.74	0.30 ⁽²⁾	2.17 ⁽³⁾
i) Acquisition of any asset	-	-	-
ii) Others	2.74	0.30	2.17
iii) Provision made for the CSR Expenditure	-	-	-
e) Amount spent during the year under Section 135 of the Companies Act, 2013, read with Companies (Corporate Social Responsibility Policy) Rules (including transferred to CSR Fund*)	4.08 ⁽¹⁾	0.30	2.17
f) Amount that remained unspent during the year	37.93	20.38	8.23
g) Amount subsequently transferred to escrow account (CSR unspent account with HDFC Bank)	17.55	12.46	6.62
h) Date on which the amount that remained unspent during the year was transferred to the CSR Fund (CSR unspent account with HDFC Bank)	April 27, 2026	April 24, 2025	April 30, 2024

Notes:

- (1) Comprising ₹2.74 million spent during Fiscal 2025 and ₹1.34 million relating to Fiscal 2023, which was in the CSR escrow account and transferred to PM CARES Fund (CSR Fund) on expiry of three years from the date of the transfer to the CSR escrow account.
- (2) Relating to Fiscal 2023 and spent in Fiscal 2025.
- (3) Comprising ₹0.30 million relating to Fiscal 2024 and ₹1.87 million relating to Fiscal 2023 and spent in Fiscal 2024.

* The term CSR Fund means the funds specified under Schedule VII of the Companies Act, 2013.

As shown in the table above, we did not meet the required minimum expenditure on CSR activities for Fiscals 2026, 2025 and 2024. The reasons for the failure to meet the required minimum expenditure on CSR activities have been disclosed in the report issued by the Board of Directors under Section 134(3) of the Companies Act, 2013 for the relevant Fiscal. Our Company was required to transfer such unspent amounts to a special account within a period of 30 days from the end of the respective fiscal year, and our Company has done so for each of Fiscals 2026, 2025 and 2024. Subsequently, our Company transferred the required amount to the CSR unspent account. The amount transferred to the CSR unspent account is required to be spent by our Company on CSR activities within a period of three Fiscals from the date of such transfer of amount to the unspent CSR account. Failure to do so may require us to transfer any unspent amounts into a separate statutory fund or lead to the

imposition of penalties or notices under the Companies Act, 2013 from the Ministry of Corporate Affairs, Government of India for any default or non-compliance with the CSR expenditure, which could adversely affect our reputation, financial condition, results of operations and cash flows.

24. We have been unable to locate certain of our historical corporate records.

Certain of our Company's corporate records are not traceable as the relevant information was not available in the records maintained by our Company or in the electronic records of the Ministry of Corporate Affairs ("MCA Portal") or in the physical records available at the RoC. This was despite conducting internal searches and engaging an independent practicing company secretary to conduct an online and physical search of our records at the RoC and prepare a report on such search. Further, we have also intimated the RoC with respect to the untraceable records by way of our letter dated September 26, 2025. Such records include, documents and their particulars set out in the below: (a) Form-2 and its corresponding challan for allotments of equity shares on June 15, 1990, April 14, 1995, December 6, 2002; and (b) transfer forms in relation to secondary transfers of equity shares by Siddharth Yogesh Kusumgar on March 23, 2016, January 4, 2017, January 12, 2018 and by Yogesh Kantilal Kusumgar on January 12, 2018.

While certain information in relation to these missing documents has been disclosed in the section "Capital Structure" on page 88 in this Prospectus, based on the corporate records of our Company and search report dated September 26, 2025, prepared by Amit Samani & Co, practicing company secretary and certified by their certificate dated September 26, 2025, we may not be able to furnish any further information other than as already disclosed in "Capital Structure" on page 88 or confirm that the records mentioned above will be available in the future. We also cannot assure you that we will not be subject to any adverse action by any authority in relation to such untraceable records.

We cannot assure you that, in future, we will not be subjected to any liability on account of such non-compliance. Although no legal proceeding or regulatory actions have been initiated or pending against us in relation to such untraceable secretarial and other corporate records and documents, if we are subject to any such liability, it may have a material adverse effect on our financial condition, results of operations, cash flows and reputation.

25. We generally do not have long-term agreements for the sale of our products. If our customers choose not to source their requirements from us, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We generally do not have long-term agreements for the sale of our products and instead we rely on purchase orders issued by our customers from time to time that set out the commercial terms and delivery conditions for the products to be procured from us. Furthermore, certain of our sales agreements set forth the terms of sales but do not bind the customers to any purchase volumes. Under these agreements there is no commitment on the part of the customer to continue to place orders with us, and the customers can unilaterally terminate the agreements with limited advance notice and without compensation. For actual supply, we rely on schedules given to us periodically by our customers. Customers may amend or cancel these schedules prior to delivery, and in such cases we may be unable to seek compensation for any surplus products that we manufacture that are unpurchased. As a result, we bear the risk of holding inventory without guaranteed future sales. This exposes us to potential overstocking, obsolescence, or markdowns, particularly in periods of fluctuating demand or changes in customer preferences. There have been no instances of material orders being cancelled or substantially modified in Fiscals 2026, 2025 and 2024.

The table below sets forth our inventories as at the dates indicated and Inventory Days and revenue from operations for the periods indicated:

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
Inventories (₹ in million) [A]	1,948.58	1,369.02	1,437.11
Inventories Days ^{(1)(*)} (days) [B = A/C]	103	64	112
Revenue from operations (₹ in million) [C]	6,920.03	7,789.97	4,679.08

Notes:

(1) Inventories Days is calculated by dividing inventories as at the end of the year by revenue from operations and multiplying it by number of days in the year.

(*) Non-GAAP financial measure.

Inventories Days increased by 60.94% to 103 days in Fiscal 2026 from 64 days in Fiscal 2024, which increase was primarily due to a 42.33% increase in inventories to ₹1,948.58 million as at March 31, 2026 from ₹1,369.02 million as at March 31, 2025, coupled with a 11.17% decrease in revenue from operations to ₹6,920.03 million in Fiscal 2025 from ₹7,789.97 million in Fiscal 2025. The increase in inventories was primarily due to a 78.37% increase in finished goods to ₹993.10 million as at March 31, 2026 from ₹556.75 million as at March 31, 2025, which increase was primarily due to production undertaken for subsequent quarter sales. Inventories Days decreased by 42.86% to 64 days in Fiscal 2025 from 112 days in Fiscal 2024, which decrease was primarily due to a 66.49% increase in revenue from operations to ₹7,789.97 million in Fiscal 2025 from ₹4,679.08 million in Fiscal 2024, coupled with a 4.74% decrease in inventories to ₹1,369.02 million as at March 31, 2025 from ₹1,437.11 million as at March 31, 2024. For more details on our inventories, see “*Restated Financial Information – Note 14 – Inventories (Valued at Lower of Cost or Net Realisable Value)*” on page 297.

Our customers have high standards for product quality and delivery schedules. Any failure to meet customers’ expectations could result in the cancellation or non-renewal of our sales agreements with them. Additionally, under our contracts with certain customers, we are liable for damages resulting from our failure to deliver or delayed deliveries of our products that are not due to an event of force majeure (i.e., an event or circumstance outside our control that prevents us from fulfilling contractual obligations, such as pandemics or natural disasters). Since April 1, 2023, we have not paid damages to our customers nor had any orders cancelled due to delays in delivery or failure to deliver our products. Since April 1, 2023, we have from time to time agreed to send an order by air freight or paid late delivery charges because of quality issues or other production priorities that caused delays in delivery; these amounts were not material. In addition, customers may change their outsourcing strategy by undertaking more work in-house or replace their existing products with alternative products, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

26. *Increases in interest rates would increase the interest payable on our floating rate borrowings and would adversely affect our financial condition, results of operations and cash flows.*

Certain of our borrowings are subject to floating rates of interest, which change based on changes in the marginal cost of funds-based lending rate or prime lending rate of the respective lenders. Increases in these rates would increase the interest rates payable on our borrowings subject to floating rates of interest, which would adversely affect our financial condition, results of operations and cash flows.

The table below sets out our Total Borrowings (non-current borrowings plus current borrowings) that are subject to floating rates of interest and such borrowings as a percentage of our Total Borrowings as at the dates indicated.

Particulars	As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
Total Borrowings subject to floating rates of interest (₹ in million) [A]	2,214.37	2,431.52	747.54
Total Borrowings subject to floating rates of interest as a percentage of Total Borrowings [B=A/C] (%)	99.04%	98.64%	97.68%
Total Borrowings [C] (₹ in million)	2,235.82	2,465.01	765.33

For additional quantitative disclosures on interest risks, see “*Restated Financial Information – Note 48 – Financial risk management objectives and policies – (a)(i) Interest rate risk*” on page 320.

27. *Our ability to obtain financing on commercially acceptable terms depends on our credit ratings. A downgrade in our credit ratings could increase the cost of future borrowings and could restrict our access to borrowings on commercially acceptable terms and thereby adversely affect our business, financial condition, results of operations and cash flows.*

The cost and availability of borrowings is dependent, among other factors, on our credit ratings received in respect of our borrowing facilities availed from lenders. Credit ratings reflect a rating agency’s opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. The table below sets forth details of our credit ratings since April 1, 2023.

Rating Agency	Instrument	Credit Rating	Rating Date
CareEdge Ratings	Long-term bank facilities	CARE A; Stable	April 14, 2026
	Short-term bank facilities	CARE A1	
CareEdge Ratings	Long-term bank facilities	CARE A; Stable	April 2, 2025
	Short-term bank facilities	CARE A1	
CareEdge Ratings	Long-term bank facilities	CARE A-; Positive	March 27, 2024

Rating Agency	Instrument	Credit Rating	Rating Date
CareEdge Ratings	Short-term bank facilities	CARE A2+	April 3, 2023
	Long-term bank facilities	CARE A-; Stable	
	Short-term bank facilities	CARE A2+	

As shown in above table, our credit ratings have not been downgraded since April 1, 2023. Any deterioration in our financial condition, results of operations or cash flows from operating activities or a general downturn in our industry could result in a downgrade of our credit ratings in the future, which could in turn could restrict our access to borrowings on commercially acceptable terms, which could adversely affect our business. In addition, any downgrade of our credit ratings could result in a default under our financing arrangements or lenders imposing additional terms and conditions in any future financing or refinancing arrangements.

28. *The success of our business depends substantially on our Promoters, Key Managerial Personnel and Senior Management. The loss of such persons, particularly our Promoters, could adversely affect our business, financial condition, results of operations and cash flows.*

Our business and results of operations depends substantially on the efforts and abilities of our Promoters, Key Managerial Personnel and Senior Management. Each of our Individual Promoters has over 20 years of experience in the engineered fabric industry and has been instrumental to the growth of our business. They have played a pivotal role in shaping our Company's brand, vision, values, and long-term objectives. Their leadership has not only guided our strategic decisions but has also fostered a culture of innovation within our organization. For details in relation to their experience, see "Our Management" on page 238. While we are committed to ensuring a smooth transition in leadership roles, succession planning poses a significant challenge, given the extensive experience of our Promoters. Any delays or inadequacies in succession planning could expose us to operational disruptions and strategic misalignment. Our Company does not have a business succession policy in place, and there can be no assurance that we will be able to effectively formulate or implement appropriate succession plans in the future. Any sudden departure or reduced involvement of any of our Promoters, Key Management Personnel or Senior Management in our business prior than planned could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We believe that the inputs and experience of our Key Managerial Personnel and Senior Management are valuable for the growth and development of our business. Our Key Managerial Personnel and Senior Management have deep industry knowledge and play a major role in developing and building our relations with our key stakeholders, including suppliers and customers. For details in relation to their experience, see "Our Management" on page 238. From time to time, there have been changes in in our Key Management Personnel and Senior Management. The table below sets forth the attrition and the attrition rate of our Key Management Personnel and Senior Management during the Fiscals indicated.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
Total Key Managerial Personnel at the beginning of the year	5	1	-
Total Key Managerial Personnel who joined during the year	-	5	1
Total Key Managerial Personnel who left during the year [A]	-	1 ⁽¹⁾	-
Attrition rate of Key Managerial Personnel for the year [B = A/D] (%)	-	16.70	-
Total Key Managerial Personnel at the end of the year [C]	5	5	1
Total Key Managerial Personnel at the end of the year plus Key Managerial Personnel who left during the year [D = A + C]	5	6	1
Total Senior Management at the beginning of the year	4	-	-
Total Senior Management who joined during the year	1	-	-
Total Senior Management who left during the year [E]	-	-	-
Attrition rate of Senior Management for the year [F = E/H] (%)	-	-	-
Total Senior Management at the end of the year [G]	5	-	-
Total Senior Management at the end of the year plus Senior Management who left during the year [H = E + G]	5	-	-

Notes:

(1) This was due to the resignation of Mr. Naresh Patel as our Chief Financial Officer.

We cannot assure you that, despite our best efforts, we can or will be able to continue to retain any or all of the Key Management Personnel and Senior Management. Further, we cannot assure you that if one or more Key Management Personnel and Senior Management are unable or unwilling to continue in their present positions, we would be able to replace such member(s) in a timely and cost-effective manner or at all. Any loss of members of

our Key Managerial Personnel or Senior Management or could delay or prevent the achievement of our business objectives, affect our succession planning and adversely affect our business and thereby adversely affect our financial condition, results of operations and cash flows.

29. We have entered into, and will continue to enter into, related party transactions. We cannot assure you that we could not have achieved more favourable terms had such transactions not been entered into with related parties.

We have entered into transactions with several related parties, including Directors and Promoters and their entities they are interested in, such as for purchase of plant and machinery, purchases of yarn, purchases of store spares, purchases of fabrics, sales, rent payments, loans, and loan interest. The table below sets forth the details of our related party transactions for the fiscal years indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
Total related party transactions [A] (₹ in million)	780.94	627.98	48.01
Total related party transactions as a percentage of revenue from operations [B = A/C] (%)	11.29%	8.06%	1.03%
Revenue from operations (₹ in million) [C]	6,920.03	7,789.97	4,679.08

Our total related party transactions increased to ₹780.94 million for Fiscal 2026 from ₹627.98 million for Fiscal 2025 primarily due to loans taken from and repaid to related parties. Loans in the amount of ₹ 250.00 million and ₹50.00 million were taken from Siddharth Yogesh Kusumgar (our Promoter and the Chairman and Managing Director of our Company) and Sapna Siddharth Kusumgar (our Promoter and the Joint Managing Director of our Company), respectively, and fully repaid, in Fiscal 2026. Accordingly, our total related party transactions for Fiscal 2026 included an aggregate of ₹600.00 million from the drawing of loans from and repaying of loans to related parties. Our total related party transactions increased to ₹627.98 million for Fiscal 2025 from ₹48.01 million for Fiscal 2024 primarily due to loans taken from and repaid to related parties. Loans in the amount of ₹194.09 million and ₹90.08 million were taken from Siddharth Yogesh Kusumgar (our Promoter and the Chairman and Managing Director of our Company) and Sapna Siddharth Kusumgar (our Promoter and the Joint Managing Director of our Company), respectively, and fully repaid, in Fiscal 2025. Accordingly, our total related party transactions for Fiscal 2025 included an aggregate of ₹568.34 million from the drawing of loans from and repaying of loans to related parties.

The table below sets forth details of our revenue from related parties and expenses incurred during the fiscal year as related party transactions and such revenue and expenses as a percentage of our revenue from operations and total expenses, respectively:

Particulars	Year ended March 31,		
	2026	2025	2024
Revenue from related parties ⁽¹⁾ [A] (₹ in million)	-	3.33	8.53
Revenue from related parties as a percentage of revenue from operations [B = A/C] (%)	-	0.04	0.18
Revenue from operations [C] (₹ in million)	6,920.03	7,789.97	4,679.08
Expenses incurred during the fiscal year as related party transactions [D] (₹ in million)	73.76	38.41	39.40
Expenses incurred during the fiscal year as related party transactions as a percentage of total expenses [E = D/F] (%)	1.28%	0.60%	1.10%
Total expenses [F] (₹ in million)	5,768.20	6,394.29	3,594.80

Note:

(1) Revenue from related parties as set out in this row does not include interest receipts of ₹0.08 million received from a related party in Fiscal 2024, which are likewise not included in our revenue from operations and instead form part of our total income.

For further details, see “Summary of Related Party Transactions” and “Restated Financial Information – Note 43 – Related Party Disclosures” on pages 77 and 313, respectively.

Other than as disclosed at “Our Business – Properties” on page 212, we have not leased, purchased or sold any properties from/to our Promoters, Promoter Group, Directors, Key Managerial Personnel, Senior Management or Group Company or their directors or any other related entity or person during the last five years preceding the date of this Prospectus. The table below sets forth the rent payable by us related parties for the fiscal years indicated as well as such amounts as a percentage of our revenue from operations.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from operations	₹ in million	% of revenue from operations	₹ in million	% of revenue from operations
Rent paid by us to related parties	22.09	0.32%	22.03	0.28%	19.84	0.42%
Revenue from operations	6,920.03	100.00%	7,789.97	100.00%	4,679.08	100.00%

All of the related party transactions in Fiscal 2026, Fiscal 2025 and Fiscal 2024 have been carried out on arm's length basis.

While all related party transactions that we may enter into post-listing will be subject to approval of the Audit Committee and such related party transactions may also be subject to the approval of the Shareholders, as necessary under the Companies Act and the SEBI Listing Regulations, we cannot assure you that such future transactions, individually or in the aggregate, will not have an adverse effect on our business, financial condition, cash flows and results of operations or that we could not have achieved more favourable terms if such future transactions had not been entered into with related parties. Further, any future transactions with our related parties could potentially involve conflicts of interest which may be detrimental to our Company. There can be no assurance that our Directors and Promoters will be able to address such conflicts of interests or others in the future.

30. Pricing pressure from our customers could adversely affect our margins, which could in turn have a material adverse effect on our results of operations, cash flows and financial condition.

We have in the past experienced and could continue to experience pressure from our customers to reduce the prices for our products. This is often driven by the competitive landscape, where manufacturers and suppliers compete for market share. In addition, price reductions may be a result of negotiations or factors that could be beyond our control. As our business is capital intensive, requiring us to maintain a large fixed cost base, our profitability is dependent, in part, on our ability to spread fixed costs over higher sales volume. However, we may not be able to spread such fixed costs effectively as our customers generally negotiate for larger discounts in price as the volume of their orders increases. If we are unable to counterbalance customer-driven price reductions with improved operating efficiencies and other cost-reduction initiatives, it could have an adverse effect on our EBITDA Margin (as defined in the following table) and our results of operations, cash flows and financial condition could be materially adversely affected. The table below sets forth our revenue from operations, EBITDA, EBITDA Margin, profit for the year, and PAT Margin for the periods indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million, except as noted	₹ in million, except as noted	₹ in million, except as noted
Revenue from operations	6,920.03	7,789.97	4,679.08
EBITDA ^{(1)(*)}	1,878.50	1,883.89	1,318.47
EBITDA Margin ^{(2)(*)} (%)	27.15%	24.18%	28.18%
Profit for the year	982.00	1,119.88	843.96
PAT Margin ^{(3)(*)} (%)	13.80%	14.17%	17.78%

Notes:

(1) EBITDA is calculated as profit before tax, plus depreciation and amortization expense, plus finance costs, less other income ("EBITDA").

(2) EBITDA Margin is calculated as EBITDA divided by revenue from operations ("EBITDA Margin").

(3) PAT Margin is calculated as profit for the year expressed as a percentage of total income ("PAT Margin").

(*) Non-GAAP financial measure. For a table reconciling this Non-GAAP financial measure to an Ind AS financial measure, see "Management's Discussions and Analysis of Financial Condition and Results of Operations - Key Performance Indicators and Certain Non-GAAP Measures- Reconciliation of Non-GAAP Financial Measures" on page 341.

For reasons for changes in our EBITDA, see "Management's Discussions and Analysis of Financial Condition and Results of Operations - Key Performance Indicators and Certain Non-GAAP Measures- Reconciliation of Non-GAAP Financial Measures" on page 341.

31. The success of our business depends on our ability to effectively manage our business and implement our strategies. We may not be successful in implementing our growth strategies, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. There

can also be no assurance that our growth strategies, if completed or implemented, will result in the anticipated growth in our revenues or improvement in our results of operations. In pursuing our growth strategies, we will require significant capital investments, which could have a material adverse effect on our financial condition, results of operations and cash flows.

The success of our business depends greatly on our ability to effectively manage our business and implement our growth strategies. As part of our growth strategies, we plan to, among other things, (i) continue to follow a “build, retain, extend” framework with respect to our aerospace and defence business; (ii) continue to work closely with global brands to grow our Outdoor and Lifestyle Fabrics business; (iii) steadily grow our Industrial and Automotive Fabrics business by increasing wallet share and providing customized solutions; (iv) continue to focus on manufacturing products and solutions with high gross margins and high entry barriers to continue to drive profitable growth; and (v) continue to invest in our capabilities and people to support growth, research and development, and efficiency improvement. For further details, see “Our Business – Strategies” on page 193.

There can be no assurance that our growth strategies will be successfully implemented or completed or even if implemented as planned, that they will result in the anticipated growth in our revenues or improvement in our results of operations. We also cannot assure you that we will be able to continue to expand further, or at the same rate. Further, we expect our growth strategies to place significant demands on our management, financial and other resources and require us to continue developing and improving our operational, financial and other internal controls. We cannot assure you that our existing or future management, operational and financial systems, procedures and controls will be adequate to support future operations. If we fail to manage growth effectively, it could have an adverse effect on our business, financial condition, results of operations and cash flows.

In pursuing our growth strategies, we will require significant capital investments. However, we cannot assure you that we will have sufficient capital resources for our current operations and to implement our expansion plans. If our internally generated capital resources and the available credit facilities are insufficient to finance our capital expenditure and growth plans, we could, in the future, have to avail additional financing from banks and financial institutions, which would increase our finance costs and thereby adversely affect our results of operations and cash flows. Our ability to arrange financing and the finance costs on such financing are dependent on numerous factors, including general and macro-economic and capital market conditions, credit availability from banks, investor confidence, and the continued success of our business. In addition, if we decide to meet our capital requirements through availing debt facilities, we could be subject to additional restrictive covenants.

32. We currently avail benefits under certain export promotion schemes, subject to our export of goods of a defined amount. Any failure by us to meet the scheme requirements could adversely affect our financial condition, results of operations and cash flows.

During Fiscals 2026, 2025 and 2024, we availed benefits under the Government’s Remission of Duties and Taxes on Exported Products (“RoDTEP”) scheme, which allowed us duty free import of certain inputs used for manufacturing and availing duty drawbacks. We also took the benefit from export incentives under other export promotion schemes, such as Duty Drawback. The table below sets forth details of the benefits we received for the fiscal years indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Refund of Duties and Taxes on Exported Products (RoDTEP) scheme [A] (₹ in million)	27.40	21.03	24.55
Refund of Duties and Taxes on Exported Products (RoDTEP) scheme as a percentage of revenue from operations [B=A/E] (%)	0.40%	0.27%	0.52%
Export incentives under other export promotion schemes, such as Duty Drawback [C] (₹ in million)	44.05	29.33	27.20
Export incentives under other export promotion schemes, such as Duty Drawback, as a percentage of revenue from operations [D = C/E] (%)	0.64%	0.38%	0.58%
Revenue from operations [E] (₹ in million)	6,920.03	7,789.97	4,679.08

The RoDTEP scheme was discontinued for exports from certain categories of exporters including us effective February 6, 2025, but restored for these categories starting June 1, 2025, under DGFT Notification No. 11/2025-26 with updated provisions. Our financial condition, results of operations and cash flows could be adversely affected if any of such benefits are reduced or withdrawn or if we are subject to any dispute with the tax authorities in relation to these benefits or in the event we are unable to comply with the conditions required to be complied with in order to avail ourselves of each of these benefits.

33. *We are subject to strict quality requirements, customer inspections and audits, and any failure to comply with quality standards could lead to the cancellation of orders, product recalls and the payment of damages, which could negatively affect our reputation, business, financial condition, results of operations and cash flows. Further, given some of our products find use in a range of high-risk situations (including involving armed forces), any defect in quality standards of our products could have significantly adverse outcomes, including injury and/or the death of the end-user, and we could be liable for damages in relation thereto, which could have an adverse effect on our reputation, business, financial condition, results of operations and cash flows.*

Our customers typically have high standards for the quality of our products that they purchase. Defects in products manufactured by us or a failure by us to comply with the specifications of our customers may lead to cancellation of purchase orders or non-renewal of agreements by our customers and at certain instances may impose additional costs in the form of product liability and/or product recall. Further, given some of our products find use in a range of high-risk situations (including involving armed forces), any defect in quality standards of our products could have significantly adverse outcomes, including injury and/or the death of the end-user.

We have put in place quality control procedures and processes to help ensure that our products will be able to satisfy our customers' quality standards. However, our procedures and processes may fail to test for all possible conditions of use or identify all defects in the design, engineering or specifications in our products. Our products could suffer from quality issues resulting from manufacturing mistakes, design defects, or quality issues regarding the materials used in manufacturing the product.

Prior to awarding us orders, certain of our customers undertake a detailed review process, which involves inspection of our manufacturing facilities, review of our manufacturing processes, materials, technical review of the designs and specification of the proposed product, inspection and review of prototypes of the product. This extensive review process is generally periodic in nature and firm orders are placed only after the review process. The finished product delivered by us is further subject to validation by our customers upon delivery. As a part of acceptance process, our products may undergo testing and if rejected, we may have to replace the entire batch or a large portion of such batch of products.

We typically provide a warranty period ranging from 30 days to 24 months for our products.

The following table presents the refunds made to customers, damages and claims recovered by customers and damages payable to third parties (non-customers) for product liability claims for the fiscal years indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
Refunds to customers (due to goods rejection, flag allowances, extra consumption, return of excess dispatched quantity) [A] (₹ in million)	82.22	281.43	32.71
Claims recovered by customers (goods airing charges) [B] (₹ in million)	11.21	7.17	2.91
Total refunds and damages and claims recovered by customers [C = A + B] (₹ in million)	93.43	288.60	35.62
Total refunds and damages and claims recovered by customers as a percentage of revenue from contracts with customers [D = C/F] (%)	1.38%	3.75%	0.78%
Damages payable to third parties (non-customers) for product liability claims [E] (₹ in million)	-	-	-
Revenue from contracts with customers (₹ in million) [F]	6,748.14	7,700.95	4,556.94

Note:

(1) Refunds due to goods rejected, flag allowances, extra consumption, return of excess dispatched quantity and late delivery charges.

As shown in the table above, we have not experienced material instances of refunds to customers, damages and claims recovered by customers or damages payable to third parties (non-customers) for product liability claims in the last three Fiscals. However, we cannot assure you that such instances will not arise in the future and any such incidents could adversely affect our reputation, business, results of operations, financial condition and cash flows.

The following table presents the number of customer complaints and our redressal rate for customer complaints, with "redressal rate" being the number of customer complaints that were resolved during the applicable fiscal year as a percentage of the total number of customer complaints outstanding during the applicable fiscal year.

Particulars	Year ended March 31,		
	2026	2025	2024
Number of customer complaints pending resolution at the beginning of the Fiscal [A]	14	11	6
Number of customer complaints we received during the Fiscal [B]	124	44	57
Total number of customer complaints outstanding during the Fiscal [C = A + B]	138	55	63
Number of customer complaints that we resolved during the Fiscal [D]	118	41	52
Redressal rate [E = D/C] (%)	85.51%	74.55%	82.54%

Increases in the number of customer complaints or decreases in our redressal rate could adversely affect our reputation, business, results of operations, financial condition and cash flows.

34. *We and the Book Running Lead Managers have relied on declarations and affidavits furnished by some of our Directors and Promoters for details of their educational qualifications included in this Prospectus.*

Yogesh Kantilal Kusumgar, one of our Promoters, Siddharth Yogesh Kusumgar, our Chairman and Managing Director, and Nihar Ajay Parikh, our Independent Director, have been unable to locate copies of certain documents pertaining to their educational qualifications. While they have taken the requisite steps to obtain the relevant supporting documentation, they have been unsuccessful in procuring the relevant supporting documentation.

Accordingly, our Company and the Book Running Lead Managers have relied on declarations, undertakings and affidavits furnished by them to disclose the details of their educational qualifications in this Prospectus, and we have not been able to independently verify these details in the absence of primary documentary evidence. The table below sets forth details of the educational qualifications of the above-mentioned persons that were unable to be verified except by way of declarations, undertakings and affidavits.

Name	Educational qualifications that were unable to be verified except by way of declarations, undertakings and affidavits
Yogesh Kantilal Kusumgar, one of our Promoters	Bachelor's degree in textile technology from Bombay University
Siddharth Yogesh Kusumgar, our Chairman and Managing Director	Diploma in textiles from Synthetic and Art Silk Mills Research Association, Mumbai
Nihar Ajay Parikh, our Independent Director	Bachelor's degree in chemical engineering from Mumbai University

Further, there can be no assurances that they will be able to trace the relevant documents pertaining to their educational qualifications in the future, or at all. Therefore, we cannot assure you that all or any of the information relating to their educational qualification included in "Our Management" on page 238 is complete, true and accurate.

35. *If we are unable to maintain the existing level of capacity utilisation rate at our manufacturing facilities, our margins and profitability could be adversely affected.*

As a manufacturer of engineered fabrics, our business relies significantly on the efficient utilisation of our manufacturing facilities to maintain and enhance our margins and profitability. For a table setting forth the installed capacity, production output and capacity utilisation at our six current manufacturing facilities, see "Our Business – Manufacturing Capabilities" on page 199.

Our production capabilities are fungible and consequently, our production output may vary significantly based on the specific nature of the products being manufactured. Further, actual production levels and capacity utilisation rates may vary significantly from the annual installed capacity of our facilities. Undue reliance should therefore not be placed on our capacity information or historical capacity utilisation information for our existing facilities included in this Prospectus.

Maintaining high levels of capacity utilisation is critical for our operational efficiency and cost management. We do not have annual maintenance contracts for any of our machinery. We have our own engineering team to perform preventive maintenance and repair. We keep critical spares in stock. However, if we fail to sustain or improve our current levels of capacity utilization, it could lead to underutilisation of our resources, thereby increasing our per-unit production costs and adversely affecting our profit margins.

Several factors could impact our ability to maintain the existing level of capacity utilisation. Any significant decrease in demand for our technical textile products could result in lower production volumes, leading to underutilization of our manufacturing facilities. Further, challenges such as equipment breakdowns, shutdowns, supply chain disruptions, or labour shortages could hinder our ability to operate at optimal capacity. Additionally, compliance with new or existing regulations may require operational adjustments that could impact our production capabilities, and adverse economic conditions, both globally and domestically, could negatively affect consumer spending and demand for our products, impacting our production levels.

In the event we are unable to maintain our current capacity utilisation rates, it could have a material adverse effect on our business, financial condition, results of operations, and cash flows.

36. *We import certain machinery which our operations are reliant on. Any significant increases in the prices of such machinery or restrictions on our import of such machinery could have an adverse effect on our business, results of operations, financial condition and cash flows.*

The engineered fabrics industry is heavily reliant on imported high-end machinery, which leads to higher costs and exposure to supply chain risks (source: 1Lattice Report). As a player in the industry, we compete on the basis of technology, technical qualifications, the quality of our products and the speed of production, amongst others. It is crucial to our business that our machinery is able to support technologically challenging processes without compromising on product quality and production time.

Certain of the machinery important for our operations, such as warping machines and auto-drawing machines, are imported from manufacturers recognised in the industry for their ability to produce technologically advanced machinery and whose machinery we have assessed to be capable of supporting our operations. In the event that the price of such machinery increases, the supply of such machinery is disrupted or restrictions on our import of such machinery are imposed, such as through tariffs on imports from the relevant country/countries, our operating costs could increase and/or we could be required to source for alternative machinery. This could have an adverse effect on our business, results of operations, financial condition and cash flows.

37. *We could be subject to industrial unrest, which could adversely affect our business, financial condition, results of operations and cash flows.*

Our operations are subject to labour legislations in place that protect the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal, and legislation that imposes certain financial obligations on employers.

As at March 31, 2026, none of our employees were members of labour unions. Labour unrest, work stoppages or other slowdown mechanisms at any of our manufacturing facilities could result in significant disruptions to our operations. Since April 1, 2023, there have been no labour disruptions, strikes or disputes. While we believe that we have a strong working relationship with our employees, we may or may not continue to have such a relationship in the future, and we cannot guarantee that there will not be strikes by or disputes with our employees that could adversely affect our operations and thereby have an adverse effect on our business, financial condition, results of operations and cash flows.

In addition, if our work force becomes unionised in the future it could limit our ability to adjust workforce headcounts and restructure our business in response to difficult economic conditions. This reduced flexibility could have an adverse effect on our business, financial condition, results of operations and cash flows.

38. *Material increases in employee benefits expense as a percentage of our revenue from operations could have an adverse effect on our business, financial condition, results of operations and cash flows.*

Employee benefits expense was our third largest expense in Fiscals 2026, 2025 and 2024. The table below sets forth our employee benefits expenses and such amounts as a percentage of our revenue from operations for the fiscal years indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million, except percentages		
Employee benefits expense [A]	881.86	655.73	414.85

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million, except percentages		
Employee benefits expense as a percentage of revenue from operations [B = A/C] (%)	12.74%	8.42%	8.87%
Revenue from operations [D]	6,920.03	7,789.97	4,679.08

Our employee benefits expense could increase as a result of, among other things, our efforts to retain members of our workforce amidst increased competition for employees, higher employee attrition rates, inflationary pressures on employee wages and salaries or other employee benefits costs, changes in government laws and regulations governing the salaries, wages and other benefits of our employees, agreed increases in the salaries, wages and other benefits of our employees subject to collective bargaining agreements or the entering into of new collective bargaining agreements with higher agreed salaries, wages and other benefits.

As at March 31, 2026, none of our employees were members of unions or subject to collective bargaining agreements. If our work force became unionised in the future, our labour costs could increase as we could enter into wage settlement agreements, including, but not limited, to revised wage structures, payment of gratuity, ex gratia payments, attendance bonuses and the provision or enhancement of insurance policies with unions or work councils under which we incur certain obligations or agree to certain limitations or conditions for a period of time with respect to certain personnel, workplaces, departments or product lines. Increases in labour costs could have an adverse effect on our business, financial condition, results of operations and cash flows unless we are able to increase our efficiency and productivity proportionately or we can pass on such costs in the prices that we charge our customers. However, there can be no assurance we would be able to do any of the foregoing and, as such, any significant increase in our labour costs could have an adverse effect on our business, financial condition, results of operations and cash flows.

The table below sets forth the attrition and the attrition rate of all of our employees for the fiscal years indicated.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
Total employees at the beginning of the year	1,058	866	668
Total employees who joined during the year	292	408	324
Total employees who left during the year [A]	299	216	126
Attrition rate of employees for the year [B = A/D] (%)	22.15	16.95	12.7
Total employees at the end of the year [C]	1051	1058	866
Total employees at the end of the year plus employees who left during the year [D = A + C]	1,350	1,274	992

We may be unable to increase prices in order to pass future increased employee benefits expenses, in which case our margins and results of operations would be negatively affected. The risk of increasing our prices to cover increased employee benefits expenses could adversely affect sales volumes and/or customer retention, and thereby adversely affect our business, financial condition, results of operations and cash flows.

In addition to our employees, our workforce also includes third-party sourced personnel. For more details, see “Our Business-Workforce” and “– 39. If we cannot secure skilled and unskilled contract labour at reasonable rates, it will adversely affect our business and results of operations. In addition, if independent contractors default on wage payments, we could be required to fund the wages of the engaged workers, which could have an adverse effect on our cash flows until such amount is recovered from the contractor and on our results of operations and financial condition in the event we are unable to recover such amount from the independent contractor” on pages 211 and 51, respectively.

39. If we cannot secure skilled and unskilled contract labour at reasonable rates, it will adversely affect our business and results of operations. In addition, if independent contractors default on wage payments, we could be required to fund the wages of the engaged workers, which could have an adverse effect on our cash flows until such amount is recovered from the contractor and on our results of operations and financial condition in the event we are unable to recover such amount from the independent contractor.

Our workforce comprises contract workers and permanent employees. In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract workers for performance of certain of our operations, including material handling on the shop floor, loading and unloading, housekeeping, maintenance, and security services.

Set forth in the table below are details of the number of the contract workers engaged for our operations and our employees as at the dates indicated.

Particulars	As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
Number of permanent employees [A]	1,051	1,058	866
Number of contract workers [B]	1,026	630	390
Total Workforce [C = A + B]	2,077	1,688	1,256

If we are unable to obtain the services of skilled and unskilled contract workers at reasonable rates or at all, it will have an adverse effect on our business and results of operations. Set forth below are the details of our contractual services expenses and our employee benefits expense, the total of such expenses and the total of such expenses as a percentage of our revenue from operations for the years indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
	₹ in million, except percentages		
Contractual services expenses ⁽¹⁾ [A]	208.44	172.33	63.67
Employee benefits expense [B]	881.86	655.73	414.85
Total Workforce Expenses [C = A + B]	1,090.30	828.06	478.52
Total Workforce Expenses as a percentage of revenue from operations [D = C/E]%	15.76%	10.63%	10.23%
Revenue from operations [E]	6,920.03	7,789.97	4,679.08

Note:

(1) Contractual services expenses are amounts payable to contract labourers engaged for operational activities.

Although we do not engage these contract workers directly, we could be held responsible for any wage payments to be made to such workers in the event of default by such independent contractors. While the amount paid in such an event may be recoverable from the independent contractor, there is a risk that we may not be able to recover the full amount. Any requirement to fund the wage requirements of the engaged workers could have an adverse effect on our cash flows until such amount is recovered from the contractor and on our results of operations and financial condition in the event we are unable to recover such amount from the independent contractor. In addition, under the Contract Labour (Regulation and Abolition) Act, 1970, as amended, we could be legally required to absorb a number of such contract workers as permanent employees. We could also be subject to legal proceedings in this regard. Any order from a regulatory body or court would increase our costs and decrease our flexibility to increase or decrease our workforce in response to changes in demand for our products and would have an adverse effect on our business and results of operations. Since April 1, 2023, we have not been required to make wage payments for contract workers due to default by independent contractors, nor have we faced any legal proceedings under the Contract Labour (Regulation and Abolition) Act, 1970.

40. Failure or disruption of our information technology (“IT”) systems or breach of data security could adversely affect our business, financial condition, results of operations and cash flows.

Our ability to keep our business operating depends on the proper and efficient operations and functioning of various IT systems, which are susceptible to malfunctions and interruptions. Our design and production facilities comprise IT enabled processes, with our data largely hosted on internal servers located on our premises. We also have a supplier management system and have implemented various integrated quality management systems to manage key areas of our operations, including production, materials and maintenance and human resource functions. Since April 1, 2023, we have commissioned three sets of cyber security tests, being a web application security assessment, internal infrastructure vulnerability assessments and penetration testing, and external infrastructure vulnerability assessments and penetration testing. These tests were each commenced in October 2024, and are ongoing.

We could be subject to disruptions of our IT systems arising from events that are wholly or partially beyond our control or the control of our third-party vendors (including, for example, damage or incapacitation by human error, natural disasters, electrical or telecommunication outages, sabotage, computer viruses, hacking, cyber-attacks or similar events, or loss of support services from other third parties, such as internet backbone providers). Since

April 1, 2023, we have not experienced any disruptions or failures in our IT systems that has had a material adverse effect on our business, financial condition, results of operations or cash flows. Any failure or disruption in the operation of these systems or the loss of data due to such failure or disruption could affect our ability to plan, track, record and analyse work in progress and sales, process financial information, manage product lifecycle, manage our creditors and debtors, manage payables and inventory or otherwise conduct our normal business operations, which could increase our costs and have a material adverse effect on our business and results of operations.

Our employees have access to information relevant to their specific department based on their work profile, to the extent necessary for their roles. To that extent, our systems are potentially vulnerable to data security breaches, whether by employees or others that may expose sensitive data to unauthorized persons. Such data security breaches could lead to unauthorized access to our systems, misappropriation of data and unforeseen disclosure or transfer of data. While we have not experienced any data breaches in the past, any such security breaches could have an adverse effect on our business, financial condition, results of operations and cash flows.

Although we have a disaster recovery and business continuity policy in place to mitigate the risk to vulnerabilities, such measures may not have been effectively implemented or may not be adequate to ensure that its operations are not disrupted.

41. *We are subject to numerous health, safety and environmental laws and regulations in India, which govern, among others, air emissions and waste management. If we fail to comply with environmental laws, regulations and permits, we could be subject to penalties, fines and/or restrictions on our manufacturing operations, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.*

We are subject to applicable laws and regulations with respect to the protection of the environment, including air emissions and waste management, and employee health and safety. For details, see “Key Regulations and Policies in India” on page 215 and “42. Our operations involve activities and materials that are hazardous in nature. Serious mishaps could result in a suspension of operations, injury to our or their personnel and/or the imposition of civil or criminal liabilities, any of which could adversely affect our business, results of operations, cash flows and financial condition.” on page 53.

Since April 1, 2023, we have not received any notices, fines or penalties, been the subject of criminal proceedings or third-party property damage or personal injury claims, incurred any clean-up and/or other costs in respect of violations of any environmental laws or received any safety notices with respect to work-related injuries.

If we fail to comply with health, safety or environmental laws, regulations and permits, we could be subject to penalties, fines, restrictions on operations or other sanctions, and our operations (including our outsourced production) could be interrupted or suspended. We could also be subject to additional laws and regulations enacted to reflect and formally entrench environmental norms, which could restrict our ability to carry out our operations to the extent currently carried out. For example, due to waste management and concerns regarding microplastics, there has been increasing scrutiny on single use engineered fabrics such as fabrics used in personal protective equipment and hygiene products (source: 1Lattice Report). Stricter environmental norms on emissions, wastewater and plastic use also raise compliance costs (source: 1Lattice Report). Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and cash flows.

42. *Our operations involve activities and materials that are hazardous in nature. Serious mishaps could result in a suspension of operations, injury to our or their personnel and/or the imposition of civil or criminal liabilities, any of which could adversely affect our business, results of operations, cash flows and financial condition.*

Our operations are subject to significant hazards, including explosions, fires, mechanical failures and other operational problems that could result in serious injuries or death of employees or other persons. Despite ensuring that employee safety manuals covering employee safety and environmental procedures are in place and that hazard identification and risk assessments with respect to our operations are periodically carried out, we have experienced work-related injuries at our manufacturing facilities. We paid for the medical expenses of the persons injured in the above-mentioned accidents and were later reimbursed through our insurance coverage. As such, work-related injuries did not have a material adverse effect on our results of operations for Fiscals 2026, 2025 and 2024. Since April 1, 2023, we have not been the subject of any claims for civil damages or any criminal liabilities due to work-related injuries suffered at our manufacturing facilities.

There can be no assurance there will not be any fatalities, accidents or other incidents that occur at our facilities in the future and any such occurrence could potentially result in claims for damages against us and/or the imposition of criminal liabilities. Although we have insurance for personal injury claims, any damages that exceed our maximum coverage could have an adverse effect on our financial condition, results of operations and cash flows.

43. We outsource certain processes, such as weaving, knitting, finishing and fabrication, and any interruptions in our ability to obtain outsourced products on a timely and cost-effective basis, especially if alternative suppliers cannot be immediately obtained, could disrupt our production and have an adverse effect on our business, financial condition, results of operations and cash flows. In addition, we could be liable for breaches of environmental laws by third-party contractors.

We outsource certain processes, such as weaving, knitting, finishing and fabrication, wherever there is limited differentiation. For more details, see “Our Business – Outsourcing” on page 202.

The table below sets forth our job work and labour charges (outsourcing costs) and such costs as a percentage of our revenue from the sale of products for the fiscal years indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
	₹ in million, except percentages		
Job work and labour charges [A]	397.74	362.57	186.91
Job work and labour charges as a percentage of sale of products [B = A/C] (%)	6.39%	4.72%	4.11%
Sale of products [C]	6,225.01	7,685.98	4,545.65

We did not engage any related parties for job work or labour in each of Fiscals 2026, 2025 and 2024. Our reliance on third parties for certain process enables us to scale output without large capital commitments but it decreases the amount of control that we have over certain elements of our production capacity. Interruptions in our ability to obtain outsourced products on a timely and cost-effective basis, especially if alternative suppliers cannot be immediately obtained, could disrupt our production and have an adverse effect on our business, financial condition, results of operations and cash flows.

In addition, we require our suppliers and independent contractors to comply with all applicable laws and regulations in their operations. We do not control these suppliers and independent contractors, a violation of applicable laws and regulations with respect to the protection of the environment, including air emissions and waste management, and employee health and safety or other laws or regulations by our suppliers or independent contractors could result in restrictions on their operations which could interrupt their supplies to us and disrupt our production, which could have an adverse effect on our business, financial condition, results of operations and cash flows. Furthermore, we could be liable for breaches of environmental laws by third-party contractors. For instance, the Environment (Protection) Act, 1986, and the Water (Prevention and Control of Pollution) Act, 1974, allow for corporations to be held liable for pollution caused by sub-contractors.

44. Our insurance coverage may not be adequate to protect us against all losses, which could have an adverse effect on our business, financial condition, results of operations and cash flows.

We maintain insurance policies for our manufacturing facilities, including inventory, plant and machinery, fixtures and fittings, and for our boilers and pressure plants. We also maintain fire, special perils, and burglary insurance. We are not insured against environmental damages and terrorist acts. For further details, see “Our Business – Insurance” on page 211.

The table below sets forth the gross amount (gross book value) of our assets, the sum insured for such assets and the percentage of such assets insured as at March 31, 2026.

Revenue from operations [C] (₹ in million)	6,920.03	7,789.97	4,679.08

We had nil insurance claims in Fiscals 2026, 2025 and 2024. As at March 31, 2026, 2025 and 2024, we had nil insurance claims pending. Since April 1, 2023, we have not incurred any material uninsured loss or a loss that exceeded the limits of our insurance policies.

While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the standard risks associated with the operation of our business, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. Our insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer losses or damages for which we do not have insurance or exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and consequently, our results of operations, cash flows and financial condition could be adversely affected.

45. Our Promoters and the Promoter Group together hold 89.44% of the paid-up equity share capital of our Company as on date of this Prospectus. Our Promoters will continue to exercise significant influence over our Company after the completion of the Offer, which could prevent a change in control of our

Company and could make some transactions more difficult or impossible without the support of our Promoters.

As at the date of this Prospectus, our Promoters and the Promoter Group together hold 89.44% of our issued, subscribed and paid-up Equity Share capital. After the completion of the Offer, our Promoters along with the members of the Promoter Group will continue to hold majority of our post offer Equity Share capital. Accordingly, our Promoters will continue to exercise a significant influence over our business and all matters requiring Shareholders' approval, including the composition of our Board of Directors, the adoption of amendments to our constitutional documents, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, investments and capital expenditures. This fraction of ownership could also delay, defer or even prevent a change in control of our Company and could make some transactions more difficult or impossible to be approved without the support of our Promoters. Further, the Promoters' shareholding could limit the ability of a third party to acquire control. The interests of our Promoters, as our Company's controlling Shareholders, could conflict with our Company's interests or the interests of our other Shareholders. There is no assurance that our Promoters will always act to resolve any conflicts of interest in our other Shareholders' favour.

Also see “- 29. *We have entered into, and will continue to enter into, related party transactions. We cannot assure you that we could not have achieved more favourable terms had such transactions not been entered into with related parties*” on page 45.

46. We have only leasehold rights to the land on which our registered and corporate office and all our manufacturing facilities are located. In the event we lose or are unable to renew such leasehold rights, our business, financial condition, results of operations and cash flows could be adversely affected.

Our Registered and Corporate Office and all six of our manufacturing facilities are not located on land owned by us, and we have only leasehold rights. For details on the properties that we lease, see “*Our Business - Properties*” on page 212. The lease for our Registered and Corporate Office is for a period of seven years and for our manufacturing facilities the lease periods range from six years to 10 years. Since April 1, 2023, we have not been required to vacate any of the premises that we had taken on lease or renewed any leases on commercially unacceptable terms. We cannot assure you that we will be able to renew our leases on commercially acceptable terms or at all. In the event that we are required to vacate one or more of our current premises, we would be required to make alternative arrangements, and we cannot assure that the new arrangements will be on commercially acceptable terms and such relocation could cause a disruption in our operations and result in increased costs. If we are unable to renew these leases or relocate on commercially acceptable terms, it could have an adverse effect on our business, financial condition, results of operation and cash flows.

In addition, we lease certain properties from related parties. For details, see “*Our Business - Properties*” on page 212 and “- 29. *We have entered into, and will continue to enter into, related party transactions. We cannot assure you that we could not have achieved more favourable terms had such transactions not been entered into with related parties*” on page 45.

47. If we fail to maintain an effective system of internal controls, we may not be able to prepare reliable financial reports and effectively avoid frauds.

Effective internal controls are necessary for us to prepare reliable financial reports and effectively avoid fraud. Moreover, any internal controls that we may implement, or our level of compliance with such controls, could deteriorate over time, due to evolving business conditions. To support our operational efficiency and financial accuracy, we have established various levels of internal controls across our operations, governed by internal policies. These policies include the: (1) Finance and Accounts Standard Operating Procedure, which governs budgeting, fund management, accounting processes, audit planning, and monthly/annual financial closing; (2) Procurement Standard Operating Procedure for Capital and Stores Items, which outlines vendor evaluation, purchase order controls, payment authorization, and job work execution; (3) Employee Policy Handbook, which includes service code of conduct, asset management, and confidentiality protocols to ensure accountability and ethical compliance; (4) Information Technology & Cybersecurity Policy, which enforces endpoint security, access control, backup protocols, and incident management to safeguard data integrity and system-level controls; and (5) Travel, Gift, Hospitality Policy, which establishes internal controls for business travel, entertainment, hospitality, and gift-giving, with strict compliance requirements under the Prevention of Corruption Act (PCA) and the U.S. Foreign Corrupt Practices Act (FCPA), including approval thresholds, documentation standards, and zero-tolerance provisions for interactions with government officials. However, there can be no assurance that

deficiencies in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies in our internal controls.

Since April 1, 2023, we have not faced any material disruption in our internal controls. However, any inability on our part to adequately detect, rectify or mitigate any such deficiencies in our internal controls could adversely impact our ability to accurately report, or successfully manage, our financial risks, and to avoid fraud, each of which could have an adverse effect on our business, financial condition, results of operations and cash flows.

48. *We might unintentionally infringe upon the intellectual property rights of others, any misappropriation of which could harm our competitive position.*

While we take measures to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty as to whether we are infringing on any existing third-party intellectual property rights. Since April 1, 2023, we have not infringed upon intellectual property rights of others. We could, therefore, be susceptible to claims from third parties asserting infringement and other related claims. If claims or actions are asserted against us, we could be required to obtain a licence, modify our existing technology or cease the use of such technology and design a new non-infringing technology. Such licences or design modifications can be extremely costly. Furthermore, necessary licences may not be available to us on satisfactory terms, if at all. In addition, we could decide to settle a claim or action against us, the settlement of which could be costly. We could also be liable for any past infringement. Any of the foregoing could adversely affect our business and results of operations.

In certain cases, our customers share their intellectual property rights in the course of the product development process that we carry out for them. If our customer's intellectual property rights are misappropriated by our employees in violation of any applicable confidentiality agreements, our customers could seek damages and compensation from us. This could have an adverse effect on our business, results of operations and damage our reputation and relationships with our customers. Since April 1, 2023, we have not received any notices alleging that our products or manufacturing processes violate third-party intellectual property rights.

49. *A shortage or unavailability of electricity or water could affect our manufacturing operations and have an adverse effect on our business, financial condition, results of operations and cash flows.*

Our manufacturing operations require continuous supply of electricity and water. Our plants require consistent voltage levels to maintain the standard quality of our manufacturing processes. In the event of a power interruption, restarting the manufacturing process entails significant time and energy loss. This disruption not only leads to inefficiencies but also results in redundant resource utilization as processes need to be duplicated. While we do have backup generators, these are powered by diesel and are only meant to be able to provide power in the short-term. Since April 1, 2023, we have not encountered any material power disruptions or a shortage of water at our manufacturing facilities. For more details, see “- 15. *Our operations are significantly dependent on our manufacturing facilities. Any breakdown or shutdown of any of our manufacturing facilities could have a material adverse effect on our business, results of operations, financial condition and cash flows.*” on page 35. A shortage or unavailability of electricity or water could adversely affect our manufacturing operations and have an adverse effect on our business, results of operations, cash flows and financial condition.

50. *We cannot assure payment of dividends on the Equity Shares in the future and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing agreements.*

While we have adopted a dividend policy, we have not declared any dividend on the Equity Shares in the last three fiscal years and from April 1, 2026, till the date of this Prospectus. Further, the Board, at its meeting held on May 18, 2026, has recommended a dividend at the rate of 0.01% per annum on 3,501,372 CCPS outstanding as on the Record Date (*as defined below*), on a pro rata basis, for Fiscal 2026, which is payable to the holders of CCPS whose name appears in the register of members as on June 12, 2026 (“**Record Date**”). The said dividend is subject to the approval of the Shareholders. For details, see “*Dividend Policy*” on page 266.

The declaration and payment of dividends on the Equity Shares will be recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements and any financing

arrangements. In addition, we could retain all future earnings, if any, for use in the operations and expansion of the business and. therefore, we may not declare dividends in the foreseeable future.

If we do not pay dividends, the realization of a gain on the Shareholders' investments in the Equity Shares will depend on the appreciation of the price of our Equity Shares. We cannot assure you that our Equity Shares will appreciate in value.

51. *We may be subject to fraud, theft or such similar incidents, which may have an adverse effect on our financial condition, results of operations and cash flows.*

Our business is exposed to the risk of incidents of theft, fraud, pilferage by employees, misappropriation of funds or inventory and such similar incidents. We have security measures set up at our manufacturing facilities and warehouses such as security cameras, deployment of security guards and processes of period stock checking. Since April 1, 2023, there have been no incidents of material theft, fraud, pilferage by employees, misappropriation of funds or inventory or such similar incidents. While we take steps towards preventing loss of stock, there is no assurance that we will be successful in preventing losses and will not experience any instances of theft, fraud, negligence, or such similar instances in the future, which could adversely affect our financial condition, results of operations and cash flows. An increase in the levels of shrinkage at our manufacturing facilities or warehouses may require us to deploy more security staff and increase surveillance which would increase our operational costs and adversely affect our profitability. For further details, see “- 44. *Our insurance coverage may not be adequate to protect us against all losses, which could have an adverse effect on our business, financial condition, results of operations and cash flows.*” on page 54.

52. *Some of our Promoters and Directors and their relatives could have interest in us other than normal remuneration benefits or reimbursements of expenses incurred.*

In addition to payment of remuneration, we have entered into related party transactions with our Promoters and Directors in relation to the payment of rent. For details, see Note 43 (d) to our Restated Financial Information included in “*Restated Financial Information*”, “- 29. *We have entered into, and will continue to enter into, related party transactions. We cannot assure you that we could not have achieved more favourable terms had such transactions not been entered into with related parties*” and “*Our Promoters and Promoter Group - Interests of our Promoters*” on pages 313, 45 and 262, respectively.

Further, our Promoters are also interested in our Company to the extent of Equity Shares held by them and directors' fees received by them. Additionally, our Promoters have provided personal guarantees towards loan facilities taken by our Company, the total amount of which outstanding was ₹1,173.73 million as at March 31, 2026, and our business, financial condition, results of operations and cash flows may be adversely affected by the revocation of all or any of the guarantees provided by our Promoters in connection with our Company's borrowings. For details, see “- 21. *Our Promoters have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may impact their ability to effectively service their obligations and thereby, impact our business and operations.*” and “*Restated Financial Information - Note 23 - Borrowings*” on pages 40 and 303, respectively.

Our Promoters, Yogesh Kantilal Kusumgar, Sapna Siddharth Kusumgar and Siddharth Yogesh Kusumgar, are directors on the board of Specialty Fabrics Private Limited, and may be deemed to be interested to the extent of the plant and machinery purchased by our Company from Specialty Fabrics Private Limited for an amount aggregating to ₹ 25.70 million in Fiscal 2026. For further details see “*Summary of Related Party Transactions*” and “*Restated Financial Information – Note 43 – Related Party Disclosures*” on pages 77 and 313.

Further, our Promoters are interested to the extent of unsecured loans provided by them to our Company. For details, see “*Our Promoters and Promoter Group - Interests of our Promoters*”, “*Financial Indebtedness*” and “*Restated Financial Information – Note 43 – Related Party Disclosures*” on pages 262, 332 and 313, respectively.

53. *Our foreign currency exchange risks arise primarily from our foreign currency receivables, which could materially and adversely affect our financial condition, results of operations and cash flows.*

Although our Company's reporting currency is in Indian Rupees, we transact a significant portion of our business in US dollars. Our foreign currency exchange risks arise primarily from our foreign currency receivables and foreign currency payables. We have adopted a formal foreign currency hedging policy. Although we closely

follow our exposure to foreign currencies and selectively enter into hedging transactions in an attempt to reduce the risks of currency fluctuations, these activities are not always sufficient to protect us against incurring potential losses if currencies fluctuate significantly.

The table below sets forth our net foreign exchange gain/(loss) for the fiscal years indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Foreign exchange gains [A] (₹ in million)	147.91	46.95	32.40
Foreign exchange gains as a percentage of revenue from operations [B = A/C] (%)	2.14%	0.60%	0.69%
Revenue from operations [C] (₹ in million)	6,920.03	7,789.97	4,679.08

For additional quantitative disclosures on foreign currency risks, see “*Restated Financial Information – Note 48 – Financial risk management objectives and policies – (a)(ii) Foreign currency risk*” on page 320.

Any losses on account of foreign exchange fluctuations could adversely affect our financial condition, results of operations and cash flows.

54. We have included certain non-GAAP financial measures and certain operational metrics related to our business, financial condition, results of operations and cash flows in this Prospectus. These non-GAAP financial measures and operational metrics could vary from any standard methodology that is applicable across the manufacturing industry, and therefore may not be comparable with non-GAAP financial measures or operational metrics of similar nomenclature computed and presented by other companies

In evaluating our business, we consider and use certain non-GAAP financial measures and operational metrics, such as EBITDA, EBITDA Margin, PAT Margin, Net Debt, Net Debt to EBITDA Ratio, Return on Equity, Return on Capital Employed, Fixed Assets Turnover Ratio, and Working Capital Cycle, which are not required by, or presented in accordance with, Ind AS or any other generally accepted accounting principles. Further, these non-GAAP financial measures and operational metrics are not a measurement of our financial performance or liquidity under Ind AS or any other generally accepted accounting principles and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS or any other generally accepted accounting principles. We compute and disclose such non-GAAP financial measures and such operational metrics as we consider such information to be useful measures of our business and financial performance. These non-GAAP financial measures and operational metrics may not be computed on the basis of any standard methodology that is applicable across the industry and, therefore, may not be comparable to financial measures and operational metrics of similar nomenclature that may be computed and presented by other companies.

Certain of our non-GAAP financial measures and operational metrics (referred to as KPIs) are disclosed in “*Basis for the Offer Price – Key Performance Indicators (KPIs)*” on page 119. After the listing of the Equity Shares on the Stock Exchanges, we will continue to disclose the KPIs in accordance with the applicable regulations. However, as the industry in which we operate continues to evolve, the KPIs by which we evaluate our business may change in the future.

We have also included certain non-GAAP financial measures and operational metrics of our competitors listed on the Stock Exchanges in “*Basis for the Offer Price – Key Performance Indicators (KPIs)*” on page 119, which may not be based on any standard methodology and are subject to various assumptions.

55. Statistical and industry data in this Prospectus are derived from the 1Lattice Report, which was commissioned and paid for by us for the purpose of the Offer. Reliance on information from the 1Lattice Report for making an investment decision in the Offer is subject to inherent risks.

This Prospectus includes information that is derived from the 1Lattice Report, which was prepared by Lattice and commissioned and paid for by our Company for the purpose of the Offer pursuant to an engagement letter dated February 3, 2025. Lattice is not in any manner related to our Company, Directors, Key Managerial Personnel, Senior Management, our Promoters or the Selling Shareholders. A copy of the 1Lattice Report was made available on our Company’s website at <https://www.kusumgar.com/investor-relations/home/>.

Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus.

The 1Lattice Report is subject to various limitations and based upon certain assumptions that are subjective in nature. The 1Lattice Report contains estimates, projections and forecasts as well as forward looking statements that could prove to be incorrect. The 1Lattice Report is not a recommendation to buy or sell securities in any company covered in the 1Lattice Report. Accordingly, prospective investors should not place undue reliance on or base their investment decision solely on information derived from the 1Lattice Report included in this Prospectus.

EXTERNAL RISKS

56. The occurrence of natural disasters and man-made disasters could adversely affect our business, financial condition, results of operations and cash flows.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemics (such as COVID-19) and epidemics, and man-made disasters, including acts of terrorism, other acts of violence and war, in areas of India where our corporate office and manufacturing facilities are located could adversely affect our business, financial condition, results of operations and cash flows. We do not maintain insurance coverage in relation to our manufacturing facilities. The occurrence of natural disasters could therefore adversely affect our results of operations, cash flows, and financial condition.

In addition, terrorist attacks and other acts of violence or war as well as civil unrest or rioting in India could create a perception that investment in Indian companies involves a higher degree of risk, thereby adversely affecting the market price of the Equity Shares.

57. Changing laws, rules and regulations and legal uncertainties, including any adverse application of tax laws and regulations leading to new compliance requirements could have a material adverse effect on our business, financial condition, results of operations and cash flows.

The regulatory and policy environment in which we operate are evolving and are subject to change. Our business and financial condition could be materially adversely affected by changes in the laws, rules or regulations applicable to us, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations. The governmental and regulatory bodies could notify new regulations and/ or policies, which could require us to obtain approvals and licenses from the government and other regulatory bodies, impose onerous requirements and conditions on our operations. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent could be time-consuming as well as costly for us to resolve and could affect the viability of our current business or restrict our ability to grow our business in the future.

In addition, unfavourable changes in or interpretations of existing laws, or the promulgation of new laws, rules and regulations, including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/ or could require us to apply for additional approvals.

The GoI enacted the Income-tax Act, 2025, which came into effect on April 1, 2026, repealing and replacing the erstwhile Income-tax Act, 1961. Additionally, the GoI announced the Union Budget for Fiscal 2027, pursuant to which the Finance Act, 2026 has been enacted. Certain provisions of the Finance Act, 2026 have come into force on April 1, 2026, while other sections will come into force on such date as may be notified. The Finance Act, 2026, gives effect to the Union Budget 2026-27 tax proposals and updates India's taxation framework for the transition to the Income-tax Act, 2025. It provides for amendments to direct tax provisions, rate schedules and related compliance rules, including application of the Finance Act, 2026 rates for the relevant year, and sits alongside the Income-tax Rules, 2026. We have not fully determined the effects of these recent and proposed laws and regulations on our business. We cannot predict whether any amendments made pursuant to the Finance Act would have an adverse effect on our business, results of operations and financial condition.

Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and service tax, stamp duty and other special taxes and surcharges that are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. Any future increases or amendments could affect the overall tax efficiency of companies operating in India and could result in significant additional taxes becoming payable. If the tax costs associated with certain transactions because of a particular tax risk materializing are greater than anticipated, it could affect the profitability of such transactions.

The Government introduced (a) the Code on Wages, 2019 (“**Wages Code**”); (b) the Code on Social Security, 2020 (“**Social Security Code**”); (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020, which consolidate, subsume and replace numerous existing central labour legislations (collectively, the “**Labour Codes**”). The Government of India, through Gazette notifications dated November 21, 2025, has implemented four labour codes in a phased manner. Further, pursuant to the notification of the four Labour Codes, the Government of India, on May 8, 2026, has notified the Occupational Safety, Health and Working Conditions (Central) Rules, 2026, Industrial Relations (Central) Rules, 2026, Code on Wages (Central) Rules, 2026, and Social Security (Central) Rules, 2026, to provide, among other things, the procedures for enforcement of the labour codes. We are yet to determine the impact of all or some such laws on our business and operations, which could restrict our ability to grow our business in the future. For example, the Social Security Code aims to provide uniformity in providing social security benefits to employees, which were previously segregated under different acts and had different applicability and coverage. The Social Security Code has introduced the concept of workers outside traditional employer-employee work-arrangements (including online and digital platforms), such as ‘gig workers’ and ‘platform workers’ and provides for the mandatory registration of such workers in order to enable these workers to avail benefits of, among others, life and disability cover, health and maternity benefits and old age protection, under schemes framed under the Social Security Code from time to time. The Social Security Code also provides that such schemes could, among other things, be partly funded by contributions from online platforms. Further, the Wages Code limits the amounts that could be excluded from being accounted toward employment benefits (such as gratuity and maternity benefits) to a maximum of 50% of the wages payable to employees. The implementation of such laws has the ability to increase our employee and labour costs, thereby adversely affecting our results of operations and cash flows.

We could incur increased costs and other burdens relating to compliance with such new requirements, which could also require significant management time and other resources, and any failure to comply could adversely affect our business, results of operations financial condition and cash flows.

58. *Our ability to borrow in foreign currencies is restricted by Indian law.*

Indian companies are subject to foreign exchange regulations that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our ability to borrow in foreign currencies and, therefore, could negatively affect our ability to obtain financing on competitive terms. In addition, we cannot assure you that any required approvals for borrowing in foreign currency will be granted to us without onerous conditions, or at all. Such, and other, limitations on raising foreign capital could adversely affect our business results of operations, financial condition and cash flows.

59. *A third party could be prevented from acquiring control over our Company because of anti-takeover provisions under Indian law.*

There are provisions in Indian law that could delay, deter or prevent a future takeover or change in control of our Company. These provisions could discourage or prevent certain types of transactions involving actual or threatened change in control of us. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions could also discourage a third party from attempting to take control of our Company.

60. *A downgrade in India’s sovereign debt rating by international rating agencies could adversely affect our debt ratings and the terms on which we are able to raise additional borrowings or refinance any existing*

borrowings.

India's sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, all of which are outside our control. A downgrading of India's credit ratings may occur, for reasons beyond our control such as, upon a change of government policy or fiscal policy. Any adverse changes to India's sovereign debt rating by international rating agencies could adversely affect our debt ratings and the terms on which we are able to raise additional borrowings or refinance any existing borrowings, which could have an adverse effect on our business, financial condition, results of operations and cash flows.

61. *If inflation rises in India, increased costs could result in a decrease in our profits.*

Increasing inflation in India could cause the costs of rent, wages, materials and other expenses to rise. If we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, financial condition, results of operations and cash flows.

Risks Relating to the Equity Shares and the Offer

62. *In the preceding one year from the date of this Prospectus, our Company has issued CCPS at a price (based on a conversion ratio of one CCPS to one Equity Share) that may be lower than the Offer Price.*

In the preceding one year from the date of this Prospectus, our Company has issued CCPS at a price of ₹365 per CCPS. Such CCPS have been converted into Equity Shares in the ratio of one CCPS to one Equity Share. For details of the CCPS issued in the preceding one year from the date of this Prospectus, see "*Capital Structure – Notes to the Capital Structure – Share Capital History of our Company*" on page 89. The prices at which the CCPS have been issued by our Company in the preceding one year may be lower than the Offer Price, as may be determined through the Book Building process in accordance with the SEBI ICDR Regulations and thus, is not indicative of the Offer Price.

63. *The determination of the Price Band is based on various factors and assumptions and the Offer Price of the Equity Shares could not be indicative of the market price of the Equity Shares upon listing on the Stock Exchanges. Investors bear the risk of fluctuations in the price of Equity Shares and there can be no assurance that a liquid market for the Equity Shares will develop following the listing of the Equity Shares on the Stock Exchanges.*

There has been no public market for the Equity Shares prior to the Offer, the determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLMs. The Offer Price will be determined by our Company in consultation with the BRLMs, through the Book Building Process in terms of Regulation 28 and Schedule XIII of SEBI ICDR Regulations. The relevant financial parameters based on which the Price Band will be determined shall be disclosed in the advertisement that will be issued for the publication of the Price Band. The Offer Price will be based on numerous factors, as described under in "*Basis for the Offer Price*" on page 117. This price may not necessarily be indicative of the market price of the Equity Shares after the Offer is completed. You may not be able to re-sell your Equity Shares at or above the Offer Price and could, as a result, lose all or part of your investment. The price at which the Equity Shares will trade at after the Offer will be determined by the marketplace and could be influenced by many factors, including:

- our financial condition, results of operations and cash flows;
- the history of and prospects for our business;
- an assessment of our management, our past and present operations and the prospects for as well as timing of our future revenues and cost structures;
- the valuation of publicly traded companies that are engaged in business activities similar to ours;
- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;

- changes in expectations as to our future financial condition, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements of significant claims or proceedings against us;
- new laws and government regulations that directly or indirectly affect our business;
- additions or departures of Key Managerial Personnel and Senior Management;
- changes in interest rates;
- fluctuations in stock market prices and volume; and
- general economic conditions.

The Indian stock markets have, from time to time, experienced significant price and volume fluctuations that have affected market prices for the securities of Indian companies. As a result, investors in the Equity Shares could experience a decrease in the value of the Equity Shares regardless of our financial condition, results of operations and cash flows.

The Equity Shares are expected to trade on the Stock Exchanges after the Offer, but there can be no assurance that active trading in the Equity Shares will develop after the Offer, or if such trading develops that it will continue. Investors may not be able to sell the Equity Shares at the quoted price if there is no active trading in the Equity Shares.

64. *Investors will not be able to immediately sell any of the Equity Shares they purchase in the Offer on the Stock Exchanges.*

Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares on the Stock Exchanges can commence.

The Allotment of Equity Shares in this Offer and the credit of such Equity Shares to the applicant's demat account with depository participant is expected to take two Working Days from the Bid/ Offer Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid/ Offer Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to sell their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor.

Our Company could be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

65. *Our Company will not receive any proceeds from the Offer for Sale.*

The Offer consists of the Offer for Sale. Each of the Selling Shareholders will be entitled to their respective portion of the proceeds from the Offer for Sale in proportion of the Equity Shares offered by the respective Selling Shareholders as part of the Offer for Sale. The expenses of the Selling Shareholders will, at the outset, be borne by our Company and each Selling Shareholder will reimburse our Company for such expenses (inclusive of taxes) incurred by our Company on behalf of such Selling Shareholders, in relation to the Offer in the manner as prescribed under applicable law and in a manner as may be mutually agreed among our Company and the Selling Shareholders. Our Company will not receive any proceeds from the Offer for Sale. For more details, see "*Objects of the Offer*" on page 114.

66. *Investors could be subject to Indian taxes arising out of capital gains and stamp duty on the sale of the Equity Shares and will be subject to India taxes on any dividends.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. Additionally, a securities transaction tax (“STT”) is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of listed equity shares on a stock exchange held for more than 12 months could be subject to long-term capital gains tax in India at the specified rates depending on certain factors, such as STT paid, the quantum of gains and any available treaty exemptions. Accordingly, you could be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any equity shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realised on the sale of our equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India.

Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident read with the Multilateral Instrument, if and to the extent applicable, and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. Our Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident Shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends.

The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

No dividend distribution tax is required to be paid in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt from taxation in the hands of the Shareholders, both resident as well as non-resident.

Potential investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares.

67. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors and Eligible Employees Bidding in the Employee Reservation Portion can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While our Company is required to complete Allotment within six Working Days from the Bid or Offer Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, political or economic conditions, or changes to our business or financial condition, could arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events could limit the Bidders’ ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

68. *Fluctuations in the exchange rate between the Rupee and other currencies could have an adverse effect on the value of the Equity Shares in those currencies, independent of our results of operations.*

Upon listing, the Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time it takes to undertake such conversion could reduce the net dividend received by investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, could reduce the net proceeds received by investors. The exchange rate between the Rupee and other currencies (such as the U.S. dollar, the Euro, the pound sterling, the Hong Kong dollar and the Singapore dollar) has changed

substantially in the past and could fluctuate substantially in the future, which could have an adverse effect on the value of the Equity Shares and returns from the Equity Shares in foreign currency terms, independent of our operating results.

69. *Foreign investors are subject to investment restrictions under Indian law that limit our ability to attract foreign investors, which could adversely affect the trading price of the Equity Shares.*

Under foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. Further, this conversion is subject to the shares having been held on a repatriation basis and, either the security having been sold in compliance with the pricing guidelines or, the RBI's approval having been obtained for the sale of shares and corresponding remittance of the sale proceeds. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained with or without any particular terms or conditions.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, and proviso to Rule 6(a) of the FEMA Rules, any investment, subscription, purchase or sale of equity instruments by entities of a country which share a land border with India investments or of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India where, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all.

Our ability to raise foreign capital under the FDI route is therefore constrained by Indian law, which could adversely affect our business, financial condition, results of operations and cash flows. For further information, see “Restrictions on Foreign Ownership of Indian Securities” on page 477.

70. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer holders of its equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares who have voted on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless our Company makes such a filing. Our Company may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, you could suffer future dilution of your ownership position and your proportional interests in our Company would be reduced.

71. *Subsequent to the listing of the Equity Shares on the Stock Exchanges, we could be subject to surveillance measures, such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.*

Subsequent to the listing of the Equity Shares, we could be subject to Additional Surveillance Measures (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market-based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the issuer.

Specific parameters for GSM include net worth, net fixed assets, price to earnings ratio, market capitalization and price to book value, among others. Factors within and beyond our control could lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by any of the Stock Exchanges, we could be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which could have an adverse effect on the market price of our Equity Shares or could in general cause disruptions in the development of an active trading market for our Equity Shares.

72. *Any future issuance of Equity Shares or convertible securities or other equity-linked securities by us could dilute your shareholding and sales of the Equity Shares by our major shareholders could adversely affect the trading price of the Equity Shares.*

We could be required to finance our growth through future equity offerings. Any future issuance of our Equity Shares, convertible securities or securities linked to our Equity Shares by us, including through exercise of employee stock options may dilute your shareholding in us. Any future equity issuances by us, including a primary offering, may lead to the dilution of investors' shareholdings in us. Any disposal of Equity Shares by our major shareholders or the perception that such issuance or sales could occur, including to comply with the minimum public shareholding norms applicable to listed companies in India could adversely affect the trading price of the Equity Shares, which could lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. We cannot assure you that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or encumber the Equity Shares in the future. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the market price of the Equity Shares.

73. *It may be difficult for investors to enforce any judgment obtained outside India against our Company, the Directors or the Key Managerial Personnel in India.*

Our Company is a company incorporated under the laws of India and all of our Directors, Key Managerial Personnel and members of Senior Management are residents of India. All of our assets are located in India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the amount of damages awarded was excessive or inconsistent with public policy, or if judgments are in breach or contrary to Indian law. In addition, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amounts recovered.

Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, including the United Kingdom, United Arab Emirates, Singapore and Hong Kong. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments in civil and commercial matters. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements established in the Indian Code of Civil Procedure, 1908. The Code of Civil Procedure, 1908 only permits the enforcement and execution of monetary decrees in the reciprocating jurisdiction, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be directly enforceable in India. The party in whose favour a final foreign judgment in a non-reciprocating territory is rendered may bring a fresh suit in a competent court in India based on the final judgment within three years of obtaining such final judgment. However, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with the public policy in India. Further, we cannot assure you that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI under the FEMA to execute such a judgment or to repatriate any amount recovered, and we cannot assure that such

approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approval would be acceptable. Such an amount may also be subject to income tax in accordance with applicable law.

SECTION III: INTRODUCTION

- (3) The initial Allotment to an Eligible Employee in the Employee Reservation Portion could not exceed ₹ 0.20 million (net of Employee Discount), however, an Eligible Employee could submit a Bid for a maximum Bid Amount of ₹ 0.50 million under the Employee Reservation Portion. In the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion could be made available for allocation and Allotment, proportionately to all Eligible Employees who had Bid in excess of ₹ 0.20 million, subject to the maximum value of Allotment made to such Eligible Employees not exceeding ₹ 0.50 million (net of Employee Discount). The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation of up to ₹ 0.50 million as applicable, net of Employee Discount), could be added to the Net Offer. Further, an Eligible Employee Bidding in the Employee Reservation Portion could also Bid under the Net Offer and such Bids were not treated as multiple Bids. The Employee Reservation Portion did not exceed 5% of our post-Offer paid-up Equity Share capital. Our Company, in consultation with the BRLMs, offered a discount of ₹39 per Equity Share to Eligible Employees bidding in the Employee Reservation Portion which was announced two Working Days prior to the Bid/Offer Opening Date. For further details, see the section titled “Offer Structure” on page 412.
- (4) Our Company, in consultation with the BRLMs, allocated up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. 40% of the Anchor Investor Portion was reserved for domestic Mutual Funds, Life Insurance Companies and Pension Funds, in the following manner (i) 33.33% of the Anchor Investor Portion was reserved for domestic Mutual Funds and (ii) 6.67% of the Anchor Investor Portion was reserved for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price. In the event of under-subscription in (ii) above, if any, the allocation could be made to domestic Mutual Funds, at or above the Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, if any, the remaining Equity Shares could be added to the Net QIB Portion. 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. In the event the aggregate demand from Mutual Funds was less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion were added to the Net QIB Portion and allocated proportionately to the QIB Bidders in proportion to their Bids. For details, see the section titled “Offer Procedure” on page 416.
- (5) Under-subscription, if any, in the QIB Portion was not allowed to be met with spill-over from other categories or a combination of categories. Subject to valid Bids having been received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion, was allowed to be met with spill-over from any other category or combination of categories, as applicable, at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange.
- (6) Allocation to Bidders in all categories, except Anchor Investors, if any, Non-Institutional Bidders and Retail Individual Bidders, was made on a proportionate basis subject to valid Bids having been received at or above the Offer Price. The allocation to each Retail Individual Bidder was not less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, could have been allocated on a proportionate basis. The allocation to each Non-Institutional Bidder was not less than the minimum application size, subject to the availability of Equity Shares in Non-Institutional Portion, and the remaining Equity Shares, if any, could have been allocated on a proportionate basis. Allocation to Anchor Investors shall be on a discretionary basis. For details, see the section titled “Offer Procedure” on page 416.
- (7) The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, was subject to the following: (i) one-third of the portion available to Non-Institutional Bidders was reserved for Investors with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million, and (ii) two-third of the portion available to Non-Institutional Bidders was reserved for Investors with application size of more than ₹ 1.00 million, provided that the unsubscribed portion in either of the aforementioned subcategories could be allocated to Investors in the other sub-category of Non-Institutional Bidders. The allotment to each Non-Institutional Bidders was not less than the minimum application size (i.e. ₹ 0.20 million), subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, could have been allotted on a proportionate basis.

Book Building Process

Book building, in the context of the Offer, refers to the process of collection of Bids from investors on the basis of the Red Herring Prospectus and the Bid cum Application Forms and the Revision Forms within the Price Band. The Price Band, Employee Discount and the minimum Bid Lot were decided by our Company, in consultation with the BRLMs and were advertised in all editions of Financial Express (a widely circulated English national daily newspaper), all editions of Jansatta (a widely circulated Hindi national daily newspaper) and Mumbai edition of Navshakti (a widely circulated Marathi newspaper, Marathi being the regional language of Maharashtra, where our Registered and Corporate Office is located), at least two Working Days prior to the Bid/Offer Opening Date and were made available to the Stock Exchanges for the purposes of uploading on their respective websites. The Offer Price was determined by our Company in consultation with the BRLMs after the Bid/Offer Closing Date. For details, see "*Offer Procedure*" on page 416.

All Bidders (other than Anchor Investors) were mandatorily required to participate in the Offer only through the ASBA process by providing details of their respective ASBA Account in which the corresponding Bid Amount was blocked by SCSBs. In addition to this, the UPI Bidders could participate through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount was required to be blocked by the SCSBs; or (b) through the UPI Mechanism. Anchor Investors were not permitted to participate in the Offer through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders were not permitted to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders and Eligible Employees Bidding in the Employee Reservation could revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date. Further, Anchor Investors could not withdraw their Bids after the Anchor Investor Bidding Date. Allocation to QIBs (other than

Anchor Investors) was done on a proportionate basis while allocation to Anchor Investors was done on a discretionary basis. The allocation to each Retail Individual Bidder and Non-Institutional Bidder was not less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the Non-Institutional Portion and the remaining available Equity Shares, if any, were allocated on a proportionate basis. For further details, see “*Terms of the Offer*” and “*Offer Procedure*” on pages 405 and 416, respectively.

The Book Building Process and the Bidding process are subject to change from time to time, and the Bidders were advised to make their own judgment about investment through the aforesaid processes prior to submitting a Bid in the Offer.

Bidders should note that the Offer is also subject to (i) final approval of the RoC after this Prospectus is filed by our Company with the RoC; and (ii) our Company obtaining final listing and trading approvals from the Stock Exchanges, which our Company shall apply for, after Allotment.

Each Bidder, by submitting a Bid in the Offer, was deemed to have acknowledged the above restrictions and the terms of the Offer.

For further details on the method and procedure for Bidding, see “*Offer Procedure*” and “*Offer Structure*” on pages 416 and 412, respectively.

Underwriting Agreement

In accordance with the nature of underwriting which is determined in accordance with Regulation 40(3) of SEBI ICDR Regulations, our Company and Promoter Selling Shareholders have entered into an Underwriting Agreement with the Underwriters for the Equity Shares offered through the Offer. The extent of underwriting obligations and the Bids to be underwritten in the Offer are as per the Underwriting Agreement. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters are several and are subject to certain conditions to closing, as specified therein.

The Underwriting Agreement is dated July 10, 2026. The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

The above-mentioned underwriting commitment is indicative and will be finalised after determination of the Basis of Allotment and will be subject to the provisions of the SEBI ICDR Regulations.

In the opinion of our Board of Directors (based on representations made to our Company by the Underwriters), the resources of the abovementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchanges. Our Board, at its meeting held on July 10, 2026 has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments set forth in the table above. Notwithstanding the above table, the Underwriters are severally responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them.

Subject to the applicable laws and pursuant to the terms of the Underwriting Agreement, the BRLMs will be responsible for bringing in the amount devolved in the event that the Syndicate Member do not fulfil their underwriting obligations.

⁽¹⁾ Subject to finalization of Basis of Allotment.

⁽²⁾ Our Board has taken on record the consents for the Offer for Sale by the Promoter Selling Shareholders pursuant to its resolution dated September 24, 2025. The Promoter Selling Shareholders have confirmed that the Offered Shares have been held by them for a period of at least one year prior to the filing of the Red Herring Prospectus and were accordingly eligible for being offered in the Offer for Sale in accordance with the Regulation 8 of the SEBI ICDR Regulations. For further details of authorisation received for the Offer for Sale, see "Other Regulatory and Statutory Disclosures" on page 388.

⁽³⁾ The Employee Reservation Portion did not exceed 5.00% of our post-Offer Equity Share capital. Eligible Employees Bidding in the Employee Reservation Portion were required to ensure that the maximum Bid Amount does not exceed ₹ 0.50 million (net of Employee Discount). However, the initial allotment to an Eligible Employee in the Employee Reservation Portion could not exceed ₹ 0.20 million (net of Employee Discount). In the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion could have been available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹ 0.20 million (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹ 0.50 million (net of Employee Discount). The unsubscribed portion, if any, in the Employee Reservation Portion after allocation of up to ₹ 0.50 million (net of Employee Discount), could be added to the Net Offer. Our Company, in consultation with the Book Running Lead Managers, offered a discount on the Offer Price (equivalent of ₹ 39 per Equity Share) to Eligible Employees Bidding in the Employee Reservation Portion, which was announced at least two Working Days prior to the Bid/Offer Opening Date. For further details, see "Offer Procedure" and "Offer Structure" on pages 416 and 412, respectively.

Changes in the authorised share capital of our Company

Except as disclosed in "History and Certain Corporate Matters- Amendments to our Memorandum of Association in the last 10 years" on page 224, there has been no change in the authorised share capital of our Company.

* Subject to finalisation of the Basis of Allotment.

[#] The percentage of the Equity Share capital on a fully diluted basis has been calculated assuming issuance of 414,254 Equity Shares resulting upon exercise of vested options under ESOP Scheme.

⁽¹⁾ All equity shares were fully paid-up at the time of allotment/ transfer.

^s The Board of Directors has passed a resolution on January 29, 2025 and approved the issue of bonus Equity Shares in its meeting which was further approved by shareholders in the meeting held on February 20, 2025 in the ratio of 3 Equity Shares of ₹ 1 each for every 1 Equity Shares of ₹ 1 each.

(c) Our Promoters have given their consent to include such number of Equity Shares held by them as may constitute 20% of the fully diluted post-Offer equity share capital of our Company as Promoters' Contribution. Our Promoters have agreed not to dispose, sell, transfer, charge, pledge or otherwise encumber in any manner, the Promoters' Contribution from the date of this Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.

(d) Our Company undertakes that the Equity Shares that are being locked-in are not and will not be ineligible for computation of Promoters' Contribution in terms of Regulation 15 of the SEBI ICDR Regulations. For details of build-up of the share capital held by our Promoters, see "*-Build-up of the Promoters' shareholding in our Company*" on page 101. In this connection, we confirm the following:

- (i) The Equity Shares offered for Promoters' Contribution do not include Equity Shares acquired in the three immediately preceding years if these are: (a) acquired for consideration other than cash and revaluation of assets or capitalisation of intangible assets is involved in such a transaction; or (b) resulting from a bonus issue by utilisation of revaluation reserves or unrealised profits of our Company or from a bonus issuance of Equity Shares against Equity Shares, which are otherwise ineligible for computation of Promoters' Contribution;
- (ii) The Promoters' Contribution does not include any Equity Shares acquired during the immediately preceding one year at a price lower than the price at which the Equity Shares are being offered to the public in the Offer; and

- (iii) Our Company has not been formed by the conversion of partnership firm or a limited liability partnership firm into a Company and hence, no Equity Shares have been issued in the one year immediately preceding the date of this Prospectus pursuant to conversion from a partnership firm; and
- (iv) The Equity Shares forming part of the Promoters' Contribution are not subject to any pledge or any other encumbrance.

16. Details of other Equity Shares locked- in for six months

In terms of Regulation 17 of the SEBI ICDR Regulations, the entire pre-Offer Equity Share capital of our Company will be locked-in for a period of six months from the date of Allotment in the Offer or such other period as may be prescribed under the SEBI ICDR Regulations, except for the:

- (i) Equity Shares which are successfully transferred as part of the Offer for Sale;
- (ii) Equity Shares allotted to eligible employees of the Company (whether currently an employee or not) pursuant to the ESOP Scheme, prior to the Offer; and
- (iii) Equity Shares held by an employee stock option trust or transferred to the employees by an employee stock option trust pursuant to exercise of options by the employees, whether currently employees or not, in accordance with the employee stock option plan or employee stock purchase scheme, subject to the provisions of lock-in under the SEBI SBEB Regulations.

In terms of Regulation 17(c) of the SEBI ICDR Regulations, Equity Shares held by a venture capital fund ("VCF") or alternative investment fund ("AIF") of category I or category II or a foreign venture capital investor ("FVCI") shall not be locked-in for a period of six months from the date of Allotment, provided that such Equity Shares shall be locked-in for a period of at least six months from the date of purchase by the venture capital fund or alternative investment fund of category I or category II or foreign venture capital investor.

Subject to the lock-in requirements as specified in Regulation 17(1) of the SEBI ICDR Regulations, where lock-in of the Equity Shares cannot be created, the depositories shall, upon receipt of instructions from our Company, record such Equity Shares as "non-transferable" for the duration of the lock-in period as specified herein.

Further, any unsubscribed portion of the Offered Shares would also be locked-in as required under the SEBI ICDR Regulations.

17. Lock-in of Equity Shares allotted to Anchor Investors

Fifty per cent of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of the allotment, the remaining fifty percent of the Equity Shares Allotted to the anchor investors shall be locked in for a period of 30 days from the date of allotment or as provided by the SEBI ICDR Regulations.

18. Recording on non-transferability of Equity Shares locked-in

As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

19. Other requirements in respect of lock-in

Pursuant to Regulation 21 of the SEBI ICDR Regulations, Equity Shares held by our Promoters and locked-in, as mentioned above, may be pledged as collateral security for a loan with a scheduled commercial bank, a public financial institution, Systemically Important Non-Banking Financial Company or a housing finance company, subject to the following:

- (a) With respect to the Equity Shares locked-in for six months from the date of Allotment, such pledge of the Equity Shares must be one of the terms of the sanction of the loan; and
- (b) With respect to the Equity Shares locked-in as Promoters' Contribution for 18 months from the date of Allotment, the loan must have been granted to our Company for the purpose of financing one or more of the objects of the Offer and, such pledge of the Equity Shares must be one of the terms of the sanction of the loan.

However, the relevant lock-in period shall continue post the invocation of the pledge referenced above, and the relevant transferee shall not be eligible to transfer to the Equity Shares till the relevant lock-in period has expired in terms of the SEBI ICDR Regulations.

In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoter which are locked-in pursuant to Regulation 16 of the SEBI ICDR Regulations, may be transferred amongst our Promoter or any member of the Promoter Group or to any new promoter, subject to continuation of lock-in in the hands of the transferees for the remaining period and compliance with provisions of the SEBI Takeover Regulations, as applicable and such transferee shall not be eligible to transfer them till the lock-in period stipulated in SEBI ICDR Regulations has expired. The Equity Shares held by persons other than our Promoter and locked-in for a period of six months from the date of Allotment in the Offer, may be transferred to any other person holding Equity Shares which are locked-in, subject to the continuation of the lock-in in the hands of the transferee for the remaining period (and such transferees shall not be eligible to transfer until the expiry of the lock-in period) and compliance with the provisions of the Takeover Regulations.

20. Our Company, the Directors and the BRLMs have no existing buyback arrangements and or any other similar arrangements for the purchase of Equity Shares from any person.
21. None of our Key Managerial Personnel or Senior Management hold any Equity Shares or CCPS in our Company. Further, except as disclosed below, none of the Directors of our Company hold any Equity Shares in our Company.

Sr. No.	Name of the Director	Number of Equity Shares held bearing face value of ₹1 each	Percentage of the pre-Offer Equity Share capital on a fully diluted basis (%)
1.	Siddharth Yogesh Kusumgar	61,884,021	58.71%
2.	Sapna Siddharth Kusumgar	29,561,148	28.05%
	Total	91,445,169	86.76%

**The percentage of the Equity Share capital on a fully diluted basis has been calculated assuming issuance of 414,254 Equity Shares resulting upon exercise of vested options under ESOP Scheme.*

22. All Equity Shares of our Company are fully paid-up as on the date of this Prospectus.
23. As on the date of this Prospectus, the Company does not have any employee stock appreciation right scheme.
24. As on the date of this Prospectus, except for Motilal Oswal Finvest Limited, an associate of one of the BRLMs, Motilal Oswal Investment Advisors Limited under the SEBI (Merchant Bankers) Regulations, 1992, which holds 2,739,726 Equity Shares aggregating to 2.60% of the paid-up Equity Share Capital, none of the BRLMs and their respective associates (as defined in the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992 do not hold any Equity Shares of our Company. The BRLMs and their respective associates and affiliates in their capacity as principals or agents may engage in transactions with, and perform services for, our Company and its respective directors and officers, partners, trustees, affiliates, associates or third parties in the ordinary course of business and have engaged, or may in the future engage, in commercial banking and investment banking transactions with our Company and each of its respective directors and officers, partners, trustees, affiliates, associates or third parties, for which they have received, and may in future receive, compensation.
25. Except to the extent of sale of the Offered Shares in the Offer for Sale by the Promoters, none of the members of our Promoter Group have participated in the Offer.
26. Except for the allotment of Equity Shares pursuant to the exercise of options granted under the ESOP Scheme, there will be no further issue of specified securities whether by way of issue of bonus shares, preferential

allotment, rights issue or in any other manner during the period commencing from the date of filing of the Draft Red Herring Prospectus until the Equity Shares are listed on the Stock Exchanges or all application monies have been refunded, as the case may be.

27. No person connected with the Offer, including, but not limited to, the BRLMs, the Members of the Syndicate, our Company, our Directors, our Promoters and members of our Promoter Group, shall offer or make payment of any incentive, whether direct or indirect, in the nature of discount, commission and allowance, except for fees or commission for services rendered in relation to the Offer, in any manner, whether in cash or kind or services or otherwise, to any Bidder for making a Bid.
28. There shall be only one denomination of the Equity Shares, unless otherwise permitted by law.
29. Except as disclosed in this section, there are no outstanding convertible securities, option or right to convert a debenture, loan or other instrument which would entitle any person any option to receive Equity Shares, as on the date of this Prospectus.
30. Neither the (i) BRLMs or any associate of the BRLMs (other than mutual funds sponsored entities which are associates of the BRLMs or insurance companies promoted by entities which are associates of the BRLMs or AIFs sponsored by the entities which are associates of the BRLMs or FPIs other than individuals, corporate bodies and family offices which are associates of the BRLMs or pension fund sponsored by entities which are associate of the BRLMs); nor (ii) any person related to the Promoters or Promoter Group can apply under the Anchor Investor Portion.

SECTION IV: PARTICULARS OF THE OFFER

OBJECTS OF THE OFFER

The Offer comprises an Offer for Sale by the Promoter Selling Shareholders. The objects of the Offer are to (i) carry out the Offer for Sale of 15,521,698 Equity Shares of face value of ₹ 1 each aggregating to ₹6,500 million by the Promoter Selling Shareholders which constituted 14.78% of the pre-Offer Equity Share capital of the Company, subject to finalisation of the Basis of Allotment; and (ii) achieve the benefits of listing the Equity Shares on the Stock Exchanges. For details, see “*The Offer*” on page 68.

Our Company expects that listing of the Equity Shares will enhance our visibility and brand and provide liquidity to its existing Shareholders. Listing will also provide a public market for the Equity Shares in India.

Utilisation of the Offer proceeds

Our Company will not receive any proceeds from the Offer (the “**Offer Proceeds**”) and all the Offer Proceeds will be received by the Promoter Selling Shareholders after deduction of their respective portion of the Offer related expenses and relevant taxes thereon, to be borne by the Promoter Selling Shareholders. For details of Equity Shares offered by the Promoter Selling Shareholders, see “*The Offer*” and “*Other Regulatory and Statutory Disclosures*” on pages 68 and 388, respectively.

Offer related expenses

The total expenses of the Offer are estimated to be approximately ₹407.84 million.

Other than the (a) listing fees, audit fees of statutory auditors (to the extent not attributable to the Offer), expenses for any corporate advertisements consistent with past practice of our Company (not including expenses relating to marketing and advertisements undertaken in connection with the Offer) each of which will be borne solely by our Company, and (b) fees and expenses in relation to the legal counsels to the Promoter Selling Shareholders which shall be borne by the respective Promoter Selling Shareholders, our Company and each of the Promoter Selling Shareholders agree to share the costs and expenses (including all applicable taxes) directly attributable to the Offer in accordance with applicable law including Section 28(3) of the Companies Act. It is further clarified that all such payments shall be made first by our Company, and any payments by our Company in relation to the Offer expenses on behalf of any of the Promoter Selling Shareholders shall be reimbursed by such Promoter Selling Shareholder for their respective portion of Offer related expenses, severally and not jointly, to the Company. In the event that the Offer is withdrawn or not completed for any reason, all the costs and expenses (including the fees and expenses of the Book Running Lead Managers, the legal counsels in relation to the Offer and all applicable taxes) directly attributed to the Offer shall be borne by our Company and the Promoter Selling Shareholders in a proportionate manner as specified above, except as may be prescribed by SEBI or any other regulatory authority. Further, in the event any Promoter Selling Shareholder withdraws from the Offer or terminates the Offer Agreement in respect of such Promoter Selling Shareholder at any stage prior to the completion of the Offer, it shall reimburse our Company all costs, charges, fees and expenses directly attributed to the Offer on a pro-rata basis, in proportion to their respective Offer Shares, up to the date of such withdrawal or termination with respect to such Promoter Selling Shareholder in accordance with the applicable law including Section 28(3) of the Companies Act.

Other confirmations

Except to the extent of the proceeds received by the Promoter Selling Shareholders pursuant to the Offer for Sale, no part of the Offer Proceeds will be paid to our Promoters, members of the Promoter Group, Directors, Group Company, Key Managerial Personnel or Senior Management. Our Company has neither entered into nor has planned to enter into any arrangement/ agreements/ transactions with our Promoters, members of the Promoter Group, Directors, Key Managerial Personnel, Senior Management or our Group Company, in relation to the utilisation of the Offer Proceeds.

BASIS FOR THE OFFER PRICE

The Price Band and the Offer Price will be determined by our Company, in consultation with the Book Running Lead Managers, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹1 each and the Offer Price is 398 times the face value of the Equity Shares at the lower end of the Price Band and 419 times the face value at the higher end of the Price Band.

Bidders should read the below mentioned information along with “Risk Factors”, “Our Business”, “Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 22, 185, 267 and 335, respectively, to have an informed view before making an investment decision.

Qualitative factors

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are as follows:

- We operate in markets with high entry barriers.
- Our technical capabilities allow us to develop and supply unique solutions for our customers.
- We have a diversified presence across multiple end-use segments, each of which has independent growth drivers.
- We have long-standing relationships with key customers.
- Our track record has given us access to technology and markets through partnerships.
- We have experienced and visionary Promoters supported by a professional management team. Our culture promotes innovation and quality.

For further details, see “Our Business –Strengths” on page 188.

Quantitative factors

Certain information presented below, relating to our Company, is derived from the Restated Financial Information. For further details, see “Financial Information” on page 267.

Some of the quantitative factors which may form the basis for computing the Offer Price are as follows:

1. Basic and diluted earnings per share (“EPS”):

Particulars	Basic EPS (in ₹)	Diluted EPS (in ₹)	Weight
Fiscal 2026	9.68	9.31	3
Fiscal 2025	11.03	10.81	2
Fiscal 2024	8.32	8.32	1
Weighted Average	9.90	9.65	-

Notes:

1. Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights, i.e. (EPS x weight) for each year divided by the total of weights.
2. Basic and diluted EPS are based on the Restated Financial Information.
3. The face value of each Equity Share is ₹1.
4. Earnings per Share (₹) = Profit after tax excluding exceptional items before other comprehensive income attributable to equity shareholders for the year/period divided by the weighted average number of equity shares outstanding during the respective year/period. Adjusted for the impact of Split / bonus issue after end of the year/period but before the date of filing of this Prospectus.
5. Earnings per Share calculations are in accordance with the notified Indian Accounting Standard 33 ‘Earnings per share’.
6. Subsequent to March 31, 2024, pursuant to a resolution passed in the general meeting held on October 1, 2024, the Shareholders approved the sub-division of each equity share of face value of ₹ 100 each fully paid up into 100 equity shares of face value of ₹ 1 each fully paid up. Further, the Board of Directors, in their meeting held on January 29, 2025, approved the issue of bonus equity shares in the ratio of 3:1. Additionally, the Board of Directors, in their meeting held on March 17, 2025, approved another issue of bonus equity shares in the ratio of 11:40. As required under Ind AS 33 “Earnings per share” the effect of such split/bonus is required to be adjusted for the purpose of computing earnings per share for all the years presented retrospectively. As a result, the effect of split/bonus has been considered in the Restated Financial Information for the purpose of calculating of earning per share (Refer Note 39 of the Restated Financial Information).

Our Basic EPS and Diluted EPS increased to ₹11.03 and ₹10.81 in Fiscal 2025, respectively, from ₹8.32 and ₹8.32 in Fiscal 2024, respectively, which increases were primarily due to a 32.69% increase in our profit for the year to ₹1,119.88 million in Fiscal 2025 from ₹843.96 million in Fiscal 2024, which increase was primarily due to an increase in our revenue from contracts with customers in each of our Aerospace and Defence Fabrics and Aerospace and Defence Solutions market segments. Our revenue from Aerospace and Defence Solutions increased to ₹2,219.02 million for Fiscal 2025 from ₹8.64 million for Fiscal 2024. This increase was primarily due to a large order for Combat Free Fall (CFF) parachute systems, which was a new product introduced

by us in Fiscal 2025. We recognised revenue of ₹2,225.88 million from this large order for Fiscal 2025, with ₹2,219.02 million of such revenue recognised as revenue under our Aerospace and Defence Solutions market segment. We generally do not have long-term agreements for the sale of any of our products, including for Combat Free Fall (CFF) parachute systems, so the revenue from this product in Fiscal 2025 may not be indicative of the revenue from this product in future fiscal years. For more details, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Our Results of Operations – Fiscal 2025 compared to Fiscal 2024” on page 365.

2. Price/Earning (“P/E”) ratio in relation to Price Band of ₹398 to ₹419 per Equity Share:

Particulars	P/E at the Floor Price (no. of times)	P/E at the Cap Price (no. of times)
Based on basic EPS for Fiscal 2026	41.12	43.29
Based on diluted EPS for Fiscal 2026	42.75	45.01

3. Industry peer group P/E ratio

Particulars	P/E ratio
Highest	44.53
Lowest	36.12
Average	33.76

Notes:

- The highest and lowest industry P/E shown above is based on the peer set provided below under “Comparison with listed industry peers”. The industry average has been calculated as the arithmetic average P/E of the peer set provided below.
- P/E figures for the peers are computed based on closing market price as on July 9, 2026 on www.nseindia.com, divided by Diluted EPS (on consolidated basis) based on the financial results declared by the peers available on website of www.nseindia.com for the Financial Year ending March 31, 2026.

4. Return on Net Worth (“RoNW”)

Particulars	RoNW (%)	Weight
Fiscal 2026	25.82	3
Fiscal 2025	56.26	2
Fiscal 2024	86.13	1
Weighted Average	46.02	-

RoNW = Net Profit after tax, as restated, attributable to the owners of our Company divided by Average Net Worth

Average Net Worth is calculated as the sum of total net worth as at the beginning of the fiscal year and total net worth as at end of the fiscal year, divided by two

Net worth means the aggregate value of the paid up share capital of our Company and all free reserves created out of profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, as per the Restated Financial Information of our Company

Notes:

- Weighted average = Aggregate of year-wise weighted RoNW divided by the aggregate of weights i.e. (RoNW x Weight) for each year/Total of weights.
- The figures disclosed above are based on the Restated Financial Information of our Company.

5. Net Asset Value per Equity Share of face value of ₹1 each (“NAV”)

NAV per Equity Share	Amount (₹)
As at March 31, 2026	49.56 [^]
<i>After the Offer</i>	
- At the Floor Price	47.90
- At the Cap Price	47.90
<i>At the Offer Price</i>	47.90

[^]Pursuant to a special resolution of our Shareholders dated October 1, 2024 each equity share of our Company of face value of ₹ 100 was sub-divided into Equity Shares of face value of ₹ 1 each and accordingly, the issued, subscribed and paid-up Equity Share capital of our Company was sub-divided from 199,000 equity shares of face value of ₹100 each into 19,900,000 Equity Shares of face value of ₹ 1 each. Net asset value per Equity Share has been calculated after giving effect to such sub-division.

Notes:

- NAV is computed as the net assets (total assets excluding total liabilities and excluding minority interest) divided by the closing outstanding number of equity shares, including effect of split and bonus of equity shares.
- Net worth has been defined as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation in accordance with Regulation 2(1)(hh) of the SEBI ICDR Regulations

6. Comparison of accounting ratios with listed industry peers

The following peer group has been determined based on the companies listed on the Stock Exchanges:

Description on the historic use of the KPIs by us to analyse, track or monitor our operational and/or financial performance

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Restated Financial Information. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS financial statements or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial statements prepared in accordance with Ind AS.

Explanation of KPIs

The following table sets forth the explanation for how these KPIs have been used by our Company historically to analyse, track or monitor the operational and/or financial performance:

Sr.no	KPI	Explanation
1.	Revenue From Operations	Revenue from operations is used by management to track the revenue profile of the business. It helps assess the overall financial performance and size of our business
2.	EBITDA	EBITDA is a non-GAAP financial measure that measures operating performance of a Company by excluding the impact of other income, of financing structure, taxation, and non-cash accounting adjustments
3.	EBITDA Margin	EBITDA Margin is a non-GAAP financial measure that measures the profitability of our Company's operations by expressing EBITDA as a percentage of Revenue from Operations, thereby indicating the efficiency of a Company in converting revenues into operating profits
4.	Profit After Tax	Profit for the year reflects the income our company earns after deducting all expenses and taxes from its total income
5.	PAT Margin	PAT Margin is a non-GAAP financial measure that measures the overall profitability of a Company by indicating the proportion of total income that is retained as profit after accounting for all expenses, interest, and taxes
6.	Net Debt	Net Debt shows a company's total borrowings net of cash and equivalents. It provides an understanding of the Company's leverage position and financial flexibility
7.	Net Debt to EBITDA	Net Debt to EBITDA Ratio is a non-GAAP financial measure that measures a company's ability to pay off its Net Debt using its profit for the year before interest, taxes, depreciation, and amortization.
8.	RoE	Return on Equity is a non-GAAP financial measure that measures a company's profitability by showing how much profit for the year is generated as a percentage of Average Total Equity
9.	RoCE	Return on Capital Employed is a non-GAAP financial measure that measures efficiency with which the Company utilizes its capital employed to generate operating profits, thereby indicating the Company's ability to create value for its stakeholders
10.	Working Capital Cycle	Working Capital Cycle is a non-GAAP financial measure that measures the time it takes for a company to convert its net working capital into revenue from operations.

* As certified by M/s Pankaj R Shah & Associates, Chartered Accountants (FRN: 107361W), pursuant to their certificate dated July 10, 2026.

4. Detailed explanation for Offer Price/Cap Price being 1.15 times of WACA of primary issuances/ secondary transactions of Equity Shares (as disclosed above) along with our Company's KPIs and financial ratios for Fiscals 2026, 2025 and 2024 and in view of the external factors:

- Our expertise is manufacturing fabrics where critical performance parameters include tensile strength, tear strength, abrasion resistance, comfort, air-permeability, and water proofing, among others.
- We have leveraged our process knowledge and product development expertise to manufacture over 1,000 unique fabric configurations (referred to as stock keeping units, or 'SKUs') as at March 31, 2026, to build a niche around synthetic functional and performance fabrics, addressing growing demand in the aerospace and defence, industrial and automotive, and outdoor and lifestyle segments.

- Our revenue from operations increased from ₹4,679.08 million for Fiscal 2024 to ₹6,920.03 million for Fiscal 2026, representing a CAGR of 21.61%.
- Our EBITDA increased from ₹1,318.47 million for Fiscal 2024 to ₹1,878.50 million for Fiscal 2026, representing a CAGR of 19.36%.
- Our profit for the year increased from ₹843.96 million for Fiscal 2024 to ₹982.00 million for Fiscal 2026, representing a CAGR of 7.87%.
- In Fiscal 2026, our top six customers accounted for ₹3,330.34 million, or 49.35%, of our revenue from contracts with customers.
- Our Outdoor and Lifestyle Fabrics segment caters to the global market for synthetic performance wear, such as “athleisure”, winter wear, rainwear, fashion jackets and personal gear, such as backpacks, luggage, sleeping bags, and tents.
- We operate out of six manufacturing facilities, all of which are in Gujarat, India, and one fabrication unit in Uttar Pradesh, India.
- In recent years, we have built on our expertise and industry knowledge to expand into manufacturing finished products for aerospace and military applications, such as parachute systems, stealth solutions, and rapid deployment systems.
- Our business model drives profitable growth, and we believe we are poised for continued growth, driven by exports, global supply chain shifts, modernization and indigenization of military equipment, expanded product lines and technological innovations.

5. The Offer Price is 419 times of the face value of the Equity Shares.

The Offer Price of ₹419 has been determined by our Company, in consultation with the BRLMs, on the basis of market demand from Bidders for Equity Shares, as determined through the Book Building Process, and is justified in view of the above qualitative and quantitative parameters.

Bidders should read the above-mentioned information along with “*Risk Factors*”, “*Our Business*”, “*Financial Information*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 22, 185, 267 and 335, respectively, to have a more informed view. The trading price of the Equity Shares could decline due to the factors mentioned in “*Risk Factors*” on page 22 and you may lose all or part of your investments.

Statement of special tax benefits available to Kusumgar Limited (formerly known as Kusumgar Private Limited) (the “Company”) and its shareholders, prepared in accordance with the requirements under Schedule VI (Part A)(9)(L) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (“SEBI ICDR Regulations”)

1. We, M S K A & Associates LLP (Formerly known as M S K A & Associates), Chartered Accountants (‘we’, ‘us’, or ‘our’ or ‘the firm’), the statutory auditors of **the Company** hereby confirm the annexure prepared by the Company (“Annexure”), which provides the special tax benefits under Income-tax Act, 2025, the Income-tax Rules, 2026 (as amended by the Finance Act 2026, applicable for tax year 2026-27) and circulars and notifications issued thereon (hereinafter referred to as ‘**IT Act**’), and the Central Goods and Service Tax Act 2017, the Integrated Goods and Service Tax Act, 2017, the applicable State/ Union Territory Goods and Services Tax Act, 2017, and relevant rules made thereunder, the Customs Act, 1962, the Customs Tariff Act, 1975, and the Foreign Trade Policy, 2023 (as amended by the Finance Act 2026, applicable for the year 2026-27) (hereinafter referred to as “**Indirect Tax Laws**”), as amended from time to time, presently in force and available to the Company (“collectively referred to as Taxation Laws”) and its shareholders. Several of these benefits are dependent on the Company and its shareholders, as the case may be, fulfilling the conditions prescribed under the relevant provisions of the Taxation Laws. Hence, the ability of the Company and its shareholders to derive the special tax benefits is dependent upon their fulfilling such conditions, which based on business imperatives the Company and its shareholders face in the future, the Company and its shareholders may or may not choose to fulfil.
2. The enclosed annexure to this statement of special tax benefits is required as per **Schedule VI (Part A)(9)(L)** of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (“SEBI ICDR Regulations”). While the term ‘special tax benefits’ has not been defined under the SEBI ICDR Regulations, it is assumed that with respect to special tax benefits available to the Company and its shareholders, the same would include those benefits as enumerated in the Annexure. Any benefits under the Taxation Laws other than those specified in the Annexure are considered to be general tax benefits and therefore not covered within the ambit of this Annexure. Further, any benefits available under any other laws within or outside India, except for those specifically mentioned in the Annexure, have not been examined and covered by this statement.
3. Our views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes.
4. The benefits discussed in the Annexure cover the special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to them.
5. In respect of non-residents, the tax rates and the consequent taxation shall be further subject to any benefits available under the applicable Double Taxation Avoidance Agreement, if any, between India and the country in which the non-resident has fiscal domicile.
6. The benefits stated in the enclosed Annexure are not exhaustive and the preparation of the contents stated is the responsibility of the Company’s management. We are informed that this Annexure is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the distinct nature of the tax consequences and the

changing tax laws, each investor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of the equity shares of the Company (the “Offer”) and we shall in no way be liable or responsible to any shareholder or subscriber for placing reliance upon the contents of this statement. Also, any tax information included in this written communication was not intended or written to be used, and it cannot be used by the Company or the investor, for the purpose of avoiding any penalties that may be imposed by any regulatory, governmental taxing authority or agency.

7. We conducted our examination in accordance with the “Guidance Note on Reports or Certificates for Special Purposes (Revised 2016)” (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accounts of India.
8. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information and Other Assurance and Related Services Engagements.
9. We do not express any opinion or provide any assurance whether:
 - The Company and its shareholders will continue to obtain these benefits in future.
 - The conditions prescribed for availing the benefits have been/would be met.
 - The revenue authorities/courts will concur with the views expressed herein.
10. This statement is based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company. We have relied upon the information and documents of the Company being true, correct, and complete and have not audited or tested them. Our view, under no circumstances, is to be considered as an audit opinion under any regulation or law.
11. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our Firm or any of partners or affiliates, shall not be responsible for any loss, penalties, surcharges, interest or additional tax or any tax or non-tax, monetary or non-monetary, effects or liabilities (consequential, indirect, punitive or incidental) before any authority / otherwise within or outside India arising from the supply of incorrect or incomplete information of the Company.
12. This Statement is addressed to Board of Directors and issued at specific request of the Company. The enclosed Annexure to this statement is intended solely for your information and for inclusion in the red herring prospectus, the prospectus and any other material in connection with the Offer, and is not to be used, referred to or distributed for any other purpose without our prior written consent. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this statement is shown or into whose hands it may come without our prior consent in writing. Any subsequent amendment / modification to provisions of the applicable laws may have an impact on the views contained in our statement. ANNEXURE

ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO KUSUMGAR LIMITED (formerly known as Kusumgar Private Limited) (THE “COMPANY”) AND ITS SHAREHOLDERS UNDER THE APPLICABLE DIRECT AND INDIRECT TAX LAWS OF ITS JURISDICTION OF INCORPORATION

This statement sets out below the possible tax benefits available to the Company and its shareholders to whom shares may be allotted in terms of proposed Offer under the current tax laws presently in force in India. Several of these benefits are dependent on fulfilling various conditions prescribed under the relevant tax laws. Accordingly, the ability of the Company and shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which are based on the business imperatives, the Company or the shareholders may or may not choose to fulfil.

This statement sets out below the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences/ implications of the subscription, ownership and disposal of equity shares pursuant to the proposed Offer. This statement is only intended to provide general information to the investors and is neither exhaustive or comprehensive nor designed or intended to be a substitute for professional/legal tax advice. In view of the individual nature of tax consequences and the changing tax laws, each shareholder is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the Offer.

Part – A

SPECIAL TAX BENEFITS UNDER THE DIRECT TAX LAW IN THE HANDS OF THE COMPANY AND THE SHAREHOLDERS OF THE COMPANY

I. Special tax benefits available to the Company under the Direct Tax Laws

Outlined below are the special tax benefits available to the Company and its shareholders under the Income-tax Act, 2025 read with rules, circulars, and notifications thereunder (hereinafter referred to as ‘IT Act’), as amended by the Finance Act 2026, i.e. applicable for Tax Year 2026-27 and presently in force in India. This statement is required as per Schedule VI (Part A)(9)(L) of the SEBI ICDR Regulations of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (“SEBI ICDR Regulations”).

1. Lower corporate tax rate under Section 200 of the IT Act

- Section 200 of the IT Act (Erstwhile Section 115BAA of Income Tax Act, 1961) provides that domestic companies can opt for a concessional corporate tax rate of 22% (plus applicable surcharge and education cess) provided the total income of the Company is computed without claiming certain specified incentives/ deductions/ exemptions or set-off of losses and depreciation as mentioned below –
 - (a) (i) section 45(2) (Erstwhile Section 35(2AB)) or 47(1)(b) (Erstwhile Section 35CCD); or (ii) Chapter VIII other than provisions of section 146 (Erstwhile Section 80JJAA) or 148 (Erstwhile Section 80M); or (iii) sections specified in section 205(1)(a) to (g) (Erstwhile section 115BAA(2));
 - (b) without set off of any loss carried forward or depreciation from any earlier tax year, if such loss or depreciation is attributable to any of the deductions referred to in clause (a);
 - (c) without set off of any loss or allowance for unabsorbed depreciation deemed so under section 116 (Erstwhile Section 72A), if such loss or depreciation is attributable to any of the deductions referred to in clause (a)
- Surcharge is to be levied on domestic companies at 7%, where the income exceeds INR 1 crore but does not exceed INR 10 crores and at 12%, where the income exceeds INR 10 crores. If the Company opts for concessional income-tax rate under Section 200 (Erstwhile section 115BAA of the Income Tax Act, 1961), surcharge shall be levied at the rate of 10%. Health and Education Cess at 4% on the tax and surcharge is payable by all categories of taxpayers.

- Further, domestic companies availing the said option will not be required to pay Minimum Alternate Tax ('MAT') on their 'book profits' under section 206 of the IT Act (Erstwhile Section 115JB of Income-Tax Act, 1961).
- The option needs to be exercised on or before the due date specified u/s 263(1) for furnishing the return of income. Option once exercised, cannot be subsequently withdrawn for the same or any other subsequent tax year.
 - The Company has evaluated and decided to opt for the lower corporate tax rate of 22 percent (plus applicable surcharge and cess) with effect from the Financial Year 2019-20 relevant to the Assessment Year ("A.Y.") 2020-21. From A.Y. 2020-21 to A.Y. 2026-27, the Company has followed Section 115BAA of the Income Tax Act, 1961, and from tax year 2026-27 onwards the Company shall follow Section 200 of the Income Tax Act, 2025. Since the Company has opted for lower corporate tax rate, MAT tax credit (if any) is no longer available for set-off or carry forward in future years.

2. Deduction in respect of employment of new employees under Section 146 of the IT Act

- As per Section 146 of the IT Act (**Erstwhile Section 80JJAA of Income-Tax Act, 1961**), an assessee subject to tax audit under Section 63 of the IT Act is entitled to claim a deduction of an amount equal to 30% of additional employee cost (relating to a specified category of employees) incurred in the course of business in the year, for three consecutive tax years including the tax year in which such employment is provided.
- Additional employee cost means the total emoluments paid or payable to additional employees employed in the tax year. The Company is eligible to claim this deduction in case it incurs additional employee cost within the meaning of clause (a) to sub-Section (5) of Section 146 of the IT Act and satisfies the conditions as mentioned in the said Section.
- The Company is eligible to claim this deduction in case it incurs additional employee cost within the meaning of clause (a) to sub-Section (5) of Section 146 of the IT Act and satisfies the conditions as mentioned in the said Section. Further, where the Company wishes to claim such possible tax benefit, it shall obtain the necessary certification from a chartered accountant on fulfilment of the conditions under the extant provisions of the IT Act.

3. Deduction in respect of Inter-Corporate Dividends under section 148 of the IT Act (Erstwhile Section 80M of Income-Tax Act, 1961)

- Up to 31st March, 2020, any dividend paid to a shareholder by a company was liable to dividend distribution tax ("DDT"), and the recipient shareholder was exempt from tax. Pursuant to the amendment made by the Finance Act, 2020, DDT stands abolished, and dividend received by a shareholder on or after 1st April, 2020 is liable to tax in the hands of the shareholder. The Company is required to deduct tax deducted at source ("TDS") at applicable rate specified under the IT Act read with applicable double taxation avoidance agreement ("DTAA") (if any).
- With respect to a resident corporate shareholder, Section 148 of the IT Act (Erstwhile section 80M of the Income Tax Act, 1961) has been inserted in the IT Act to remove the cascading effect of taxes on inter-corporate dividends during FY 2020-21 and thereafter. The section provides that where the gross total income of a domestic company in any tax year includes any income by way of dividends from any other domestic company or a foreign company or a business trust, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other domestic company or foreign company or business trust as does not exceed the amount of dividend distributed by it on or before the due date. The "due date" means the date one month prior to the date for furnishing the return of income under section 263 of IT Act (Erstwhile Section 139 of the Income-Tax Act, 1961).
- Since the Company has investments in domestic and foreign company, it may avail the abovementioned benefit subject to fulfilment of conditions specified under section 148 of the IT Act.

II. Special tax benefits available to the shareholders

1. Resident Shareholders

1. There are no special tax benefits available to the shareholders of the Company. However, such shareholders shall be liable to tax at concessional tax rates on certain incomes (arising from sale of equity shares of the Company) under the extant provisions of the IT Act.
2. Section 198 of the IT Act (Erstwhile Section 112A of Income Tax Act, 1961) provides for concessional rate of tax with at the rate of 12.5% in respect of specified long-term capital gains gain exceeding Rs.1,25,000 arising from the transfer of a long-term capital asset (i.e., capital asset held for the period of 12 months or more) being an equity share in an Indian company wherein Securities Transaction Tax ('STT') is paid on both acquisition and transfer.
3. Section 196 of the IT Act (Erstwhile Section 111A of Income Tax Act, 1961) provides for concessional rate of tax @ 20% in respect of short-term capital gains (provided the short-term capital gains exceed the basic threshold limit of exemption, where applicable) arising from the transfer of a short-term capital asset (i.e. capital asset held for the period of less than 12 months) being an equity share in a company or a unit of an equity-oriented fund wherein STT is paid on transfer.
4. The Finance Bill 2026 proposed that the consideration received by a shareholder on the buy-back of shares will now be chargeable to tax under the head 'Capital Gains' instead of being treated as 'deemed dividend income'.

Thus, effectively, the taxation on buyback for non-promoter shareholders has been reduced to 12.5% for long-term capital gains (on listed and unlisted shares) and 20% for short-term capital gains on listed shares. Earlier, the entire buyback amount was taxable as deemed dividend income as per normal tax rates applicable to the shareholders.

However, as per section 69 of the IT Act, for promoters*, an 'additional income tax' shall be applicable on the capital gains arising from proceeds received from buy-back of shares or other specified securities** undertaken in accordance with Section 68 of the Companies Act, 2013 as follows:

Sr. No.	Nature of income	Additional income tax rate where promoter is a domestic company	Additional income tax rate for any other promoter
1.	Short-Term Capital Gains u/s 196 of the IT Act	2%	10%
2.	Long-Term Capital Gains u/s 197 & 198 of the IT Act	9.5%	17.5%

**Definition of Promoter - In the case of a listed company, 'promoter' is defined by reference to the Regulation 2(k) of the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018. In the case of an unlisted company, a promoter is defined as per Section 2(69) of Companies Act 2013 or a person who holds, directly or indirectly, more than 10% of the shareholding in the company.*

***"specified securities" shall have the same meaning as assigned to it in Explanation 1 to section 68 of the Companies Act, 2013*

5. Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. Further, as per the provisions of Section 148 of the IT Act (Erstwhile Section 80M of Income Tax Act, 1961), in the case of domestic corporate shareholders, dividends received by a corporate shareholder from the Company shall be eligible for deduction while computing the total income of the corporate shareholder for the relevant year. The amount of such deduction would be restricted to the amount of dividend distributed by the corporate shareholder to its shareholders on or before one month prior to due date of filing of its Income-tax return for the relevant year. Furthermore, in the case of shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of individuals, whether incorporated or not and every artificial judicial person, surcharge would be restricted to 15% irrespective of the amount of dividend.

6. The new tax regime under Section 202 of the IT Act (Erstwhile Section 115BAC of the Income Tax Act, 1961) is applicable to individuals, Hindu undivided family, association of persons (other than a co-operative society), body of individuals and an artificial juridical person.

2. Non-Resident Shareholder

1. In respect of non-resident shareholders, the tax rates and the consequent taxation shall be as per the provisions of the IT Act and it is further subject to any benefits available under the applicable DTAA, if any, between India and the country of which the non-resident is a tax resident, as read with the Multilateral Instrument (“MLI”) and subject to furnishing of tax residency certificate, electronically filed Form No. 41 (Erstwhile Form No. 10F), no permanent establishment (‘PE’) declaration and any other document as may be required. Further, the non-resident shareholders would be eligible to claim foreign tax credit, based on the local laws of the country of which the shareholder is the resident. The Company will withhold tax at applicable rates on payment of dividend to shareholders.

Part – B

SPECIAL TAX BENEFITS UNDER THE INDIRECT TAX REGULATIONS IN THE HANDS OF THE COMPANY AND ITS SHAREHOLDERS

Outlined below are the special tax benefits available to the Company and its shareholders under the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, and respective State Goods and Services Tax Act, 2017, as amended from time to time, the Customs Act, 1962 (“Customs Act”), the Customs Tariff Act, 1975 (“Tariff Act”), and the Foreign Trade Policy, 2023 (“FTP”), as amended by the Finance Act 2026 applicable for the year 2026-27 till date, presently in force in India (collectively referred to as “Indirect Tax Laws”).

1. Special tax benefits available to the Company under Indirect Tax Laws

Based on the information provided, the possible key benefits available under the Indirect Tax Laws to the Company are as follows:

1.1. Zero Rated Supplies of Goods / services

- As per Section 16 of the Integrated Goods and Services Tax Act, 2017, the following supplies qualifies as zero-rated supply:
 - a) export of goods or services or both; or
 - b) supply of goods or services or both for authorized operations to a Special Economic Zone developer or a Special Economic Zone unit
- Where the Company provides supply of goods / services to customer located outside India, the supply shall qualify as ‘zero-rated’ if the goods are taken goods out of India to a place outside India.
- Where the Company provides supply of goods / services to SEZ unit or SEZ developer, the supply shall qualify as ‘zero-rated’ if the same is for authorized operations of the SEZ and fulfills the other prescribed conditions.

1.2. State Incentives - Gujarat Textile Policy

- As per Gujarat Textile Policy 2012, the Gujarat Government has provided VAT incentives to textile units to the extent of eligible investment in plant and machinery as per the policy. Further, post GST implementation, Government of Gujarat Industries and Mines Department has issued Government Resolution (“GR”) stating that the VAT incentives will be replaced by SGST incentives.
- Basis the above, the Company has received the eligibility certificate for Vat/SGST Concession for the period of eight years from 21 August 2017 to 20 August 2025, subject to specified terms and conditions. Further, the period of eligibility certificate is extended by one year for the date of expiry of the certificate.

1.3. Duty Drawback Scheme:

- Duty drawback is a scheme which allows rebate for duty chargeable on any imported materials used in manufacture or processing of goods, manufactured in India and exported.
- Under Section 74 of the Customs Act, duty drawback of up to 98 percent of the duty paid on imported goods can be claimed for re-export, subject to the prescribed conditions. Such goods must generally be re-exported within two years from the date of payment of import duty, or within such extended period as may be permitted by the competent customs authority.
- Further, as per Section 75 of the Customs Act, drawback is allowed in respect of customs duties paid on imported materials used in the manufacture or processing of goods that are exported from India, subject to the provisions of the applicable drawback rules and other prescribed conditions.

1.4. Scheme for remission of duties and taxes on exported products (“RoDTEP”):

- The objective of the scheme is to refund, duties/taxes/levies, at the Central, State and local level, borne on the exported product, including prior stage cumulative indirect taxes on goods and services used in the production of the exported product.
- Under RoDTEP scheme, a rebate would be granted to eligible exporters for the exported products at a notified rate, subject to certain terms and conditions specified under the said scheme.

2. Special tax benefits available to the shareholders of the Company under Indirect Tax Laws

Based on the information provided, we hereby state that no special tax benefits are available to the shareholders of the Company under the Indirect Tax Laws.

Notes:

1. *The benefits discussed above cover only special tax benefits under the Direct Tax and Indirect Tax Laws, available to the Company and its shareholders and do not cover any general tax benefits or any direct tax law benefits or benefit under any other law.*
2. *Our comments are based on specific activities carried out by the Company. Any variation in the understanding could require our comments to be suitably modified.*
3. *Based on the information provided to us, we understand that the Company and its shareholders have not claimed any exemption or benefits or incentives under the direct or indirect tax laws other than those specified above.*
4. *The views expressed in this annexure are based on the facts and assumptions as indicated in the annexure. No assurance is provided that the revenue authorities/courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.*

Macroeconomic overview

Global real GDP grew at a rate of 3.4% in 2025, while India's economy expanded at a higher growth rate of 7.6% over the same timeframe

Global real GDP grew at a rate of 3.4% in 2025, despite challenges such as higher interest rates, tighter financial conditions, and geopolitical tensions, including Russia's ongoing war in Ukraine, escalating conflict in the Middle East and turbulent US-China relations. In comparison with the global real GDP growth rate, India is expected to sustain the highest growth rate, with its current year-on-year growth standing at 7.6% in 2025 and projected to remain around approximately 6.5% through 2030. India’s growth rate is attributed to strong domestic demand and a rising working-age population.

World GDP at current prices
(US\$ trillion, 2019-2030P)

Global inflation declined from 8.7% in 2022 to 4.1% in 2025, further it is expected to stabilise at around 3.2% by 2030

In 2021, inflation rose to 4.7%, reaching a peak of 8.7% in 2022, driven by oil prices and global demand shocks from COVID-19 pandemic supply disruptions, rapid economic recovery, and the Ukraine-Russia conflict. From 2023 onward, inflation rates decreased gradually, starting at 6.7% in 2023 and settling at around 4.1% by 2025. However, the outbreak of war in the Middle East is expected to push headline inflation back up to 4.4% in 2026, a sharp deviation from the global disinflation trend driven primarily by a moderate approximately 19% rise in energy commodity prices. This uptick is projected to be temporary, with inflation resuming its decline in 2027, and eventually stabilising within the 3.2–3.4% range by 2028–2030.

Indian Macroeconomic Overview

India's nominal GDP was at US\$ 3.9 trillion in 2025 and is estimated to reach US\$ 6.2 trillion in 2030, growing at a CAGR of 7.3% from 2025 to 2030

India is the sixth-largest economy in the world in 2026 and is expected to become the third-largest by 2031. Over the next 10-15 years, India is expected to be among the top economies driven by rising demand and robust growth across various sectors. India's GDP (at current prices) grew from US\$ 2.8 trillion to US\$ 3.9 trillion between 2019 and 2025 on the back of reforms like GST, corporate tax revision, and revised FDI limits.

Real GDP growth – India
(Y-o-Y growth %, 2015-2030P)

India's Nominal GDP (at current prices)
(US\$ trillion, 2019-2030P)

Key growth drivers of GDP

India is the sixth-largest economy in the world in 2026 and is expected to become the third-largest by 2031, driven by robust sectoral growth and rising private consumption. Indian private consumption expenditure is expected to grow due to an increasing proportion of the working-age population and a rise in household income. India's GDP growth is driven primarily by the following factors:

- Population growth and expanding middle class:** India's growing population, especially the expanding middle class, is increasing and boosting consumer-driven growth. Additionally, India's middle class is expected to reach 1,024.8 million (61% of the total population) by 2047, up from 560.0 million (40% of the total population) in 2025. India, with a median age of 29.5 (as per the latest estimates), has one of the youngest populations globally. By 2030, its working-age population will peak at 68.9%, positioning the country to leverage this demographic advantage and potentially fuel an approximately US\$ 10 trillion economy.
- Rising consumer spending:** As per WEF, India's private consumption, which accounts for over 60% of GDP, continues to grow and is projected to exceed US\$ 4 trillion by 2030, driving broader economic expansion while maintaining a steady GDP growth rate.
- China +1 and supply chain diversification:** As companies, especially multinational corporations, seek to diversify their supply chains away from China due to factors such as trade tariffs and trade barriers impacting the price of imports from China, India has witnessed rapid development in industries such as electronics, pharmaceuticals, and automotive manufacturing. Supporting this shift, the Production-Linked Incentive (PLI) scheme has, as of December 2025, attracted ₹ 2.1 trillion (US\$ 24.4 billion) in investments across 14 sectors, boosting domestic production, employment, and exports. The diversification away from China complements and amplifies a broader shift by global buyers towards India as a reliable sourcing hub.
- Infrastructure investments:** The government's focus on infrastructure, including roads, railways, and urban development, enhances productivity and supports long-term economic growth. For the budget 2025-2026, the government has allocated ₹ 11.0 trillion (US\$126.9 billion) towards capital expenditure. India launched the National Infrastructure Pipeline (NIP) in Fiscal 2020, which originally envisaged an investment of US\$ 1.5 trillion in Fiscal 2025.
- Foreign Direct Investment (FDI):** FDI facilitates the inflow of foreign capital, improving infrastructure and industrial capabilities. It contributes to job creation, strengthens global trade integration, and supports overall economic growth. As of December 2025, India has attracted gross FDI inflows totalling ₹ 101.1 trillion (approximately US\$ 1.1 trillion) since April 2000.
- Make in India:** The initiative promotes domestic manufacturing, increasing production and employment opportunities. It reduces dependence on imports, strengthening trade balance and economic stability. Since the inception of "Make in India," the nominal GDP of India has increased from ₹193.4 trillion (US\$ 2.0 trillion) in Fiscal 2014 to approximately ₹331 trillion (US\$ 3.9 trillion) in Fiscal 2025.

India's CPI inflation rate was 4.6% in 2024, and is projected to stabilise at 4.0% from 2027 onwards

During the period of 2020-2022, CPI inflation rates increased due to volatile components like vegetable prices, fuel costs, and commodities such as gold and edible oils, peaking at 6.6% in 2022, driven by the Russia-Ukraine war. Inflation then steadily declined from 5.4% in 2023, and contrary to the RBI's earlier target of bringing inflation down to 4%, it fell far more sharply than expected to 2.1% in 2025, driven by a steep food price decline, milder summer temperatures, and GST rationalisation. According to IMF projections, inflation is expected to rise slightly to 4.7% in 2026 before stabilising at the RBI's medium-term target of 4.0% from 2027 through 2031.

Measures to control inflation

To control inflation, the Indian government and the Reserve Bank of India (RBI) implemented several measures, including monetary and fiscal policies, supply chain improvements, currency exchange rate policies, and other economic interventions.

In Fiscal 2026, the financial, real estate and professional services segment was the highest contributor to GVA in India with a 26.1%, followed by Agriculture, forestry and fishing (17.7%) and manufacturing (16.2%)

Rapid urbanisation, rising incomes, and demand for housing and commercial spaces, supported by government reforms like "Housing for All", have boosted real estate's GVA share, alongside growth in office, warehousing, and logistics driven by the 'Back to office' policy by companies post-pandemic, IT and e-commerce expansion. The construction segment has seen an increase in GVA contribution from 7.9% in Fiscal 2020 to 9.0% in Fiscal 2026.

(%, Fiscal 2020 - 2026)

India's Index of Industrial Production (IIP) grew by approximately 4.1% in Fiscal 2026, up from (0.8%) in Fiscal 2020

The Index of Industrial Production (IIP) is an index that indicates the performance of various industrial sectors of the Indian economy. The industrial production index tracks how well industries are performing. India's Industrial Production (IIP) growth rate had a robust growth driven by rising domestic demand, import substitution, China + 1 strategy adoption by multinational corporations and growth in capital goods and infrastructure/construction sectors.

India's IIP growth – Sector-wise
(Y-o-Y growth %, Fiscal 2020-2026)

Key growth drivers in the industrial sector

Within India's industrial sector, several key factors are shaping its trajectory, driving significant growth. Notable among these are strategic government allocations, such as PLI and Make in India schemes amongst others. These, complemented by robust industrial expansion and growth in real estate, collectively influence the sector's dynamics.

Overview of the engineered fabrics industry

Engineered fabrics are a subset of technical textiles, which are advanced textiles designed to deliver functional performance rather than just aesthetic appeal, serving specific industrial, commercial, and protective needs. Amongst the different categories of technical textiles, engineered fabrics are specially developed and custom-made textiles designed through advanced manufacturing techniques to meet specific functional requirements and, beyond functionality, are created for enhanced performance in specialised applications. They are characterised by superior properties such as durability, moisture resistance, breathability, flexibility, and high tensile strength. Engineered fabrics are also different from conventional fabrics, which are created with aesthetic appeal and comfort as the primary considerations.

Engineered fabrics are widely used across various sectors:

- In defence, these are utilised in ballistic protection, rapid deployment systems, personal gear, tactical gear, and stealth systems. They are designed to provide high strength, tear resistance, abrasion resistance, fire retardancy, heat resistance, low stretch, UV protection, and remain lightweight to ensure maximum durability and safety.
- In aerospace, these are utilised in parachutes, hot air balloons, paragliders, aircraft evacuation slides, life vests, and floatation devices, amongst others. Here, the fabrics are engineered for lightweight performance, enabling them to withstand the most challenging conditions while meeting strict safety standards.
- The industrial sector employs engineered fabrics in filtration systems, conveyor belts, and protective coverings. Their role here is to ensure reliability in demanding environments where consistent performance under stress, exposure, and heavy use is crucial. By combining durability with safety-critical properties, these fabrics support industrial applications in meeting rigorous standards while maintaining efficiency and safety.
- The automotive sector employs them in interior carpets, roofing systems, heddle belts, tapes, airbags, tyre cords, amongst others.
- The outdoor and lifestyle sector utilises them in travel and outdoor equipment like luggage, backpacks, travel accessories, and rucksacks. The outdoor and lifestyle sector also applies engineered fabrics in outdoor apparel like athleisure, sportswear (such as swimsuits) and cold-weather clothing. Designed to balance rugged strength with lightweight properties, they enhance convenience while withstanding constant exposure to outdoor conditions.
- Sports industries use them in high-performance apparel and protective gear. Here, the emphasis is on materials that deliver both reliability and comfort, supporting athletes and professionals in extreme conditions without compromising flexibility or safety.
- Construction relies on them for geotextiles, insulation, and reinforcement materials.
- Medical applications include wound dressings, surgical drapes, and hygiene products.

Their versatility and adaptability make engineered fabrics essential in numerous engineering and commercial applications.

Key characteristics of the engineered fabrics industry

The engineered fabrics industry is defined by its ability to deliver specialised materials for high-performance applications across diverse sectors. Its key characteristics include:

- **Application-specific and functionality-driven products:** Engineered fabrics are developed to serve precise requirements in industries such as automotive, defence, aerospace, construction, medical, and industrial filtration. Each fabric is tailored to meet functional needs such as thermal regulation, moisture and breathability management, chemical and biological protection, and load-bearing capacity. Advanced variants also integrate thermal and electrical conductivity, enabling smart textiles for applications in healthcare monitoring, defence systems, and wearables.
- **Products with specialised performance properties:** Engineered fabrics are designed with specialised properties to enhance performance, durability, and adaptability in demanding environments. These include lightweight structures, high strength-to-weight ratio, fire resistance, chemical resistance, waterproofing, breathability, UV protection, thermal insulation, electrical conductivity, and abrasion resistance, making them suitable for a wide range of critical applications.
- **Advanced material composition:** The engineered fabrics industry makes fabrics from synthetic and natural fibres, depending on the application:
 - **Synthetic fibres:** Polyester, polypropylene, polyethylene, polyamide (nylon), aramid (Kevlar), polytetrafluoroethylene (PTFE), and polyurethane. In particular, nylon is a strong synthetic polymer. Nylon 6 and Nylon 66 are the most common types. They have tensile strength, abrasion resistance, and elasticity, making them suitable for automotive textiles, airbags, aerospace, industrial uses, sportswear, outdoor gear, and medical fabrics. Nylons are difficult to process due to heat sensitivity and the risk of degradation during dyeing and finishing. Their moisture absorption affects fabric performance, and uneven dye uptake causes inconsistent colour. Nylon is also prone to permanent creasing.
 - **Natural fibres:** Cotton, wool, silk, jute, and hemp (often treated for durability).
 - **Blends and composite fabrics:** A mix of fibres with coatings, laminations, or nanofiber technology to enhance properties like waterproofing, breathability, and antimicrobial protection. Coatings and laminations add specific properties to engineered fabrics, enhancing performance and durability. Techniques include knife coating, hot-melt, and extrusion coatings that add resistance and function. Thermal lamination bonds fabric layers without reducing performance.
- **Sustainability and recycling:** The industry is rapidly shifting toward eco-friendly materials and sustainable manufacturing.
 - **Recycled fibres:** Polyethylene Terephthalate (PET) from plastic bottles and bio-based polymers like Polylactic Acid (PLA) reduce waste and promote biodegradability.
 - **Biodegradable nonwovens:** Used in hygiene products and packaging to minimise landfill impact.
 - **Energy-efficient manufacturing:** Waterless dyeing, closed-loop processes, and renewable energy reduce resource consumption and emissions.

Governments worldwide are promoting circular economy models that focus on recycling and waste reduction within the engineered fabrics industry. The circular economy aims to extend the life cycle of materials by designing products for reuse, recycling, and minimal waste generation. In the engineered fabrics industry, this includes closed-loop recycling systems where post-consumer and post-industrial waste are collected, processed, and repurposed into new materials.

- **R&D and customisation-driven growth:** With rapid technological advancements, the engineered fabrics industry is increasingly focused on innovation and customisation to enhance functionality and performance. Key developments include:
 - **Smart fabrics** – Integrating sensors, conductive fibres, and self-cleaning properties for applications in healthcare, sports, and defence.
 - **3D-printed fabrics** – Used in medical, aerospace, and sports gear, offering lightweight, high-strength, and customisable solutions.
 - **Multi-functional fabrics** – Combining breathability, water resistance, and antimicrobial properties in a single textile for enhanced durability and versatility.

In order to deliver specialised materials for high-performance applications across diverse sectors, the following considerations are pertinent:

- **Fabric fineness:** Fabric fineness is measured by grams per square metre (“GSM”) and yarn denier. GSM indicates fabric weight, while denier indicates yarn thickness. Reducing yarn denier creates lighter fabrics without losing strength. Fine denier fabrics have a strong strength-to-weight ratio and are used in parachutes, inflatables, medical textiles, and composites where lightweight and durability matter. Producing these fabrics involves challenges like yarn breakage and tension issues.
- **Selection of yarns, weave structures and fabric types:** Developing engineered fabrics requires selecting the correct yarns, weave structures, and fabric types. Yarn choice affects strength, durability, texture, and finish. Weave structures, such as satin, twill or ripstop, influence durability, flexibility, and tear resistance. Ripstop with high-tenacity yarns creates lightweight, tear-resistant fabrics used in parachutes and protective gear. Specialised finishes like water-repellent, flame-retardant, or UV-blocking coatings add functionality. Quality depends on precise control from weaving to finishing.

Engineered fabrics industry - Value chain

The value chain of engineered fabrics encompasses multiple stages, from raw material sourcing to the end-product market. The engineered fabrics industry produces high-performance fabrics for applications like defence, aerospace, automobile, industrial, outdoor, lifestyle and medical. It focuses on functionality, durability, and advanced materials, integrating specialised processes and sustainability to meet evolving demands.

Engineered fabrics industry - Entry barriers across the value chain

Every stage of the engineered fabrics value chain presents distinct high entry barriers that restrict new entrants. The primary entry barrier in the engineered fabrics industry is technical knowledge and manufacturing know-how. At the outset, setting up a production plant requires navigating a complex regulatory framework. This is followed by an inconsistent ecosystem for raw material procurement, along with the difficulty of meeting the industry requirements of precision and a high level of technological know-how for efficient production. Furthermore, the ability to provide highly customised fabric solutions demands significant R&D investment and deep client collaboration, creating an additional layer of difficulty. Finally, customer acquisition remains a major hurdle, as new players often face credibility gaps.

S.No.	Process	Entry barrier
1.	 Long approval cycles	- Setting up an engineered fabric plant requires navigating a complex regulatory framework and undergoing licensing procedures leading to long lead times - Long product-approval cycles of 2-10 years (from design to adoption) from authorised bodies and quality control departments further prolong the process
		
2.	 Raw material procurement	- A limited supplier base creates significant entry barriers for new companies, as inconsistent raw-material availability restricts efficient and reliable procurement, which is essential for scaling operations - Raw material prices are volatile, influenced by trade policies, production capacity, oil and transport costs, as well as global demand-supply shifts and currency exchange rates - For example, the price of Purified Terephthalic Acid (PTA) and Mono Ethylene Glycol (MEG), key inputs for polyester fibres in engineered fabrics, has historically fluctuated with crude oil prices, supply chain issues, regulations, and global demand shifts
		
3.	 Production process	- Primary entry barrier in the engineered fabrics industry is technical knowledge and manufacturing know-how - Engineered fabric production with key functional and technical specifications requires complex technologies like multi-axial braiding, advanced coatings, etc., along with deep ecosystem expertise - Limited capabilities to meet the customised requirements of each customer for critical products further limit the adoption of engineered fabric production
		
4.	 Customer acquisition	- Customer acquisition remains a major hurdle as new players often face credibility gaps in delivering engineered fabrics for applications in key industries like aerospace & defence - Furthermore, some customers, especially government entities, restrict participation to companies that meet specific criteria such as size, capabilities, and certification

Global engineered fabrics market size

The global engineered fabrics industry has grown from US\$ 41.6 billion in 2019 to US\$ 67.8 billion in 2025 with a CAGR of 8.5% from 2019-2025. Looking ahead, the market value is projected to continue its growth and reach US\$ 112.2 billion by 2030 with a CAGR of 10.6% from 2025-2030. Globally, prominent players in the engineered fabric industry include DuPont de Nemours, Inc. (U.S.), Freudenberg Group (Germany), TenCate Fabrics (Netherlands), Milliken and Company (U.S.) and others.

Global engineered fabric market size – By end-user industry

The industrial and automobile segment accounted for 47.1% of the global engineered fabrics industry value in 2025, while the outdoor and lifestyle segment held 31.7%. The defence and aerospace segment made up 8.0%. By 2030, the share of defence and aerospace is expected to remain about the same at 7.7%, whereas the share of the industrial and automobile segment is projected to decline to 42.8%. The share of outdoor and lifestyle is expected to increase to 34.5%.

Key growth drivers and trends for the global engineered fabrics industry

The engineered fabrics industry is growing due to expanding applications, growing regional capabilities, and sustainability trends. Rising demand for eco-friendly fabrics and urban development also contributes to market growth.

Indian engineered fabrics market size

India's engineered fabrics industry, as measured by domestic consumption (including imports) and excluding exports, was valued at ₹ 558.8 billion (US\$ 6.3 billion) in Fiscal 2020 and reached ₹ 990.0 billion (US\$ 11.2 billion) in Fiscal 2026, growing at a CAGR of 10.0% during Fiscal 2020-2026. The market is expected to grow further and reach a value of ₹ 1,864.7 billion (US\$ 21.1 billion) by Fiscal 2031, registering a CAGR of 13.5% during Fiscal 2026-2031.

Indian engineered fabric market size – By end-use industry

In Fiscal 2026, the industrial and automobile segment dominated the Indian engineered fabrics industry, as measured by domestic consumption (including imports) and excluding exports, with a 56.6% share, followed by the outdoor and lifestyle segment at 32.6%, and the defence and aerospace segment at 5.9%. By Fiscal 2031, the industrial and automobile segment is projected to rise to 57.8%, while the outdoor and lifestyle segment is expected to account for 27.9%, and the defence and aerospace segment to 7.8%.

Key growth drivers and trends for the Indian engineered fabrics industry

The Indian engineered fabrics industry, as measured by domestic consumption (including imports) and excluding exports, is growing through strong government policies, R&D advancements in high-speciality fabrics, an expanding global market (due to factors including the diversification of supply chains by major manufacturers), increased adoption of sustainable, high-tech textiles and the diversification of supply chains by major manufacturers. Standardisation and quality control measures are also driving domestic production and export competitiveness, while India leverages the China+1 strategy to position itself as a reliable alternative manufacturing hub for global buyers seeking supply chain diversification.

Government policies & incentives	R&D Initiatives	Expanding market	Increased adoption
 - Key initiatives such as the NTM, PLI scheme and PM MITRA parks are strengthening India's position as a global engineered fabrics manufacturing hub by promoting R&D, domestic & large-scale infrastructure development - Government has dedicated ~207 Harmonised System of Nomenclature (HSN) codes and allows 100% FDI under the automatic route for technical textiles, further increasing the export capabilities of India's engineered fabrics industry	 - Various R&D initiatives have been undertaken to develop high-speciality engineered fabrics, with a focus on automation, AI-driven textile and processing as key enablers for enhancing product quality & efficiency in domestic manufacturing - Under the flagship scheme of NTM, ~24 R&D projects have been undertaken by various premier research bodies and institutes for the development of specialty fibres like aramid, super high-tenacity polypropylene, carbon fibre, etc.	 - India is increasing its engineered fabrics global footprint through enhanced Memorandum of Understanding (MoUs), participation in international trade fairs, and aligning domestic standards with international benchmarks to improve export competitiveness - India is capitalising on the China+1 strategy, positioning itself as a reliable alternative hub as global manufacturers diversify supply chains, thereby attracting buyers and boosting its engineered fabrics export base	 - The industry is shifting towards sustainable and high-tech engineered fabrics, including ultrafine nano fibres, non-woven webs, and functional textiles for filtration, healthcare, & industrial applications - The Ministry of Textiles has received an annual budget outlay of ₹ 52.7 Billion (US\$ 0.6 Billion) in FY27, with an aim to promote domestic production of technical textiles in India and has collaborated with Bureau of Indian Standards (BIS) to develop ~500 standards for technical textile production in India

In addition to the above growth drivers, the Indian state governments are also offering different subsidies and incentives to boost the domestic manufacturing of textiles, thus impacting the engineered fabrics market. For example, Gujarat launched the Gujarat Textiles Policy 2024 (Effective October 1st 2024 – September 30th 2029), which offers a comprehensive incentive stack for textiles spanning the entire value chain. Under this, units are eligible for capital investment support and credit-linked interest subsidies that vary by taluka/segment, alongside targeted power-tariff assistance to lower operating costs. (₹ 1 per unit, availing power either from DISCOM or renewable power through open-access for a period of 5 years from DoCP).

Capital & Interest Subsidy Structure (Gujarat Textile Policy 2024)				
Taluka Category	Capital Subsidy on Eligible Fixed Capital Investment (eFCI)	Interest Subsidy on Term Loan	Duration / Tenor	Caps / Notes
Category 1 (Least developed talukas)	20-35% of eFCI	7% per annum	7-8 years	Capital subsidy capped at ₹ 0.50-1.50 billion per project
Category 2	18-30% of eFCI	7% per annum	7-8 years	Capital subsidy capped at ₹ 0.50-1.50 billion per project
Category 3 (Developed talukas)	10-25% of eFCI	5-7% per annum	5-8 years	Capital subsidy capped at ₹ 0.40 - 1.50 billion per project

2. Potential Impact of US Tariffs on the Indian engineered fabrics industry

On July 31, 2025, the United States announced tariffs of approximately 25% on most Indian goods, including engineered fabrics. Effective August 27, 2025, this new tariff brings the total additional duty on Indian products to 50%. Such measures reflect broader global trends where countries impose, adjust, or remove tariffs and trade restrictions in response to shifting economic and political conditions. These actions create sustained uncertainty in global trade and can escalate tensions, potentially slow economic growth and reshape long-term trade patterns through retaliatory measures.

Subsequently, in early February 2026, India and the United States announced an interim trade arrangement that reportedly reduced tariffs on several Indian goods. However, on February 20, 2026, the U.S. Supreme Court invalidated the underlying IEEPA-based tariff regime pursuant to which such reductions had been implemented. Following this decision, the United States introduced a new tariff framework under Section 122 of the U.S. Trade Act of 1974, imposing a uniform 10% surcharge on imports from most countries effective February 24, 2026. Accordingly, the earlier tariff rates announced under the interim arrangement are no longer operative, and the effective tariff burden on Indian exports is currently determined by the applicable product-specific MFN duty together with any additional tariffs imposed under prevailing U.S. trade measures. After international negotiations and changes in United States policy, India is currently subject to U.S. tariffs that vary based on the product, from approximately 20% to 40%.

On June 2, 2026, the Office of the United States Trade Representative (the “USTR”) issued the notice of determinations and proposed responsive actions in the Section 301 investigations of “Acts, Policies, and Practices of Various Economies Related to the Failure to Impose and Effectively Enforce a Prohibition on the Importation of Goods Produced with Forced Labor,” covering 60 economies, including India. The USTR determined that the identified acts, policies, and practices are unreasonable and burden or restrict U.S. commerce and are thus actionable under Section 301(b) of the U.S. Tariff Act of 1930, for all 60 economies subject to the investigations. For the responsive action, the USTR is proposing to impose an additional tariff ad valorem tariff on imports from all economies subject to the investigations at rates of 10-12.5% (12.5% rate for India), but with several significant product and trade agreement exceptions. Under the USTR’s proposed mechanism, a specific volume of Indian apparel and textiles may be allowed to enter the United States at a reduced rate if equal to the volume of U.S. textile inputs and cotton imported by India. The proposed action does not include complete details about how or when the proposed additional tariffs would be implemented. The USTR is accepting comments on the proposed tariffs through July 6, 2026, and will hold a public hearing on July 7, 2026.

For Indian exporters, higher tariffs could dampen business sentiment and reduce international demand for manufactured products. The scope, duration, and frequency of such trade restrictions remain uncertain, and their impact could be significant. Measures such as tariffs, quotas, embargoes, safeguards, changes to de minimis thresholds, or customs restrictions may increase costs and lengthen shipping times. It is too early to comment on the exact impact on the export opportunities for the Indian engineered fabrics market.

In response, the Indian government may also implement administrative or regulatory actions that affect manufacturers’ access to imported raw materials. Any restrictions on sourcing, whether through higher import costs, supply shortages, or the need to reorganise supply chains, could adversely impact the business operations, financial performance, and overall resilience of Indian engineered fabric producers.

Key end-user industries of engineered fabrics and applications

Engineered fabrics are indispensable across multiple industries, providing advanced solutions tailored to specific applications. Their ability to offer strength, flexibility, thermal resistance, and environmental durability makes them essential in aerospace and defence, industrial and automobile, medical, construction and outdoor and lifestyle sectors. As technology advances, these fabrics will continue to evolve, offering even greater performance and expanding into new applications, reinforcing their significance in modern manufacturing and innovation. Examples of how engineered fabrics are used in the aerospace and defence segment, industrial and automotive segment, outdoor and lifestyle segment and other market segments are as follows.

Aerospace and defence

- Engineered fabrics play a critical role in aerospace and defence, where they are used in aircraft interiors for seats, panels, and insulation, as well as in ballistic protection for body armour, military tents, rapid deployment systems, stealth systems, parachute systems, personal equipment such as combat uniforms,

rucksacks, load-bearing vests and lightweight composites in aircraft structures. These fabrics also contribute to parachutes and protective covers used in space exploration, ensuring reliability in extreme conditions.

- To meet these demanding applications, engineered fabrics like fine denier fabrics are used as they possess a high strength-to-weight ratio, ensuring structural integrity while minimising weight. Additionally, fabrics are coated and laminated to provide flame resistance, impact protection, thermal insulation, and durability to withstand extreme temperatures, high velocities, and harsh operational environments.

Industrial and automotive

- In industrial applications, engineered fabrics are extensively used in filtration systems for air, liquid, and gas, as well as in protective clothing that offers fire and chemical resistance, industrial tapes, heddle belts, hoses, and other applications.
- Mechanical Rubber Goods (MRG) fabrics are found in conveyor belts, transmission belts, industrial webbing and slings, ropes and cordages, and reinforcements for composites, providing strength and longevity in high-stress environments.
- Engineered fabrics in automobiles are used in airbags, helmets, seat belt webbing, headliners, tyre cord fabric, automobile tapes, drive belts, seat-cover fabric, and convertible soft top.
- These applications demand materials with chemical resistance, thermal stability, and high tensile strength to endure prolonged exposure to harsh substances and temperatures. Additionally, abrasion resistance and durability are crucial for ensuring longevity in high-wear industrial operations, where performance consistency is essential.

Outdoor and lifestyle

- The outdoor and lifestyle sector relies on engineered fabrics for high-performance apparel, including sportswear, rainwear, and protective gear, along with outdoor equipment such as tents, backpacks and “hardlines” such as luggage and backpacks. These fabrics are also integral to footwear components and marine applications like boat covers and sails, where durability and adaptability are key factors.
- To function effectively, these fabrics must exhibit breathability, water and UV resistance, and lightweight flexibility to enhance comfort and usability. Moreover, weather durability and tear resistance ensure that products can withstand prolonged exposure to varying environmental conditions, from heavy rains to extreme sun exposure to prolonged use for transporting personal property.

Others

- Engineered fabrics are used for other industries like healthcare where they are used for surgical gowns, wound dressings, medical drapes, and filtration materials used in masks and hospital air systems, ensuring sterility and infection control.
- In construction, engineered fabric used for geotextiles for soil stabilisation, roofing membranes for waterproofing, and insulation materials for thermal regulation in buildings, enhancing structural integrity and efficiency.

Overview of the aerospace and defence industry

The global aerospace and defence sector is evolving rapidly, driven by geopolitical instability, modernisation of military capabilities, and advancements in mission-critical systems, alongside a surge in demand for commercial air travel and the need for airlines to expand and upgrade their fleets with more fuel-efficient aircraft. Nations prioritise innovations in lightweight, durable materials for aerospace applications such as parachutes and protective gear for extreme environments. Surveillance technologies, unmanned systems, and high-altitude operational readiness reshape defence strategies, with geopolitical tensions accelerating investments in resilient, cutting-edge solutions. As a result, global defence spending increased from US\$ 1.9 trillion in 2019 to an all-time high of US\$ 2.9 trillion in 2025. The growth is driven in part by increased spending from countries such as the United States, China, and a few European countries in direct response to regional geopolitical factors. It is projected to grow at a CAGR of 5.1% from 2025-2030, to reach US\$ 3.7 trillion in 2030.

India is accelerating its shift toward indigenous defence manufacturing to reduce reliance on imports and address border security challenges. Government initiatives like “Make in India” and policy reforms foster partnerships between domestic manufacturers and global defence firms. The government has introduced major reforms in the defence sector, with a strong focus on minimising foreign reliance and establishing a robust domestic defence manufacturing base. Notably, Indian defence suppliers typically operate through trade intermediaries to supply

the military, highlighting the structured nature of defence procurement in India. Through a structured ecosystem combined with bolstering government policies, India's defence spending has increased from US\$ 71.4 billion in Fiscal 2019 to reach US\$ 92.0 billion in Fiscal 2025. It is projected to grow at a CAGR of 9.1% from Fiscal 2024-2030 to reach US\$ 142.13 billion in Fiscal 2030.

Key growth drivers and trends in the aerospace and defence industry

The aerospace and defence industry experiences significant growth, driven by rising geopolitical tensions and a surge in defence spending globally, along with increased demand for air travel, which has prompted airline expansions and the replacement of ageing commercial airliner fleets with newer, more fuel-efficient aircraft, which will increase the demand for engineered fabric used in the aerospace industry. Increased orbital launches by key players are further propelling the sector, while strategic partnerships between nations are fostering collaborative growth and technological advancements. Additionally, government policies supporting indigenous production strengthen indigenous capabilities and ensure long-term sustainability. Together, these factors shape a dynamic and promising future for the aerospace and defence industry.

Overview of the engineered fabric and solutions market for aerospace and defence

The engineered fabric and solutions market for aerospace and defence has experienced significant growth due to its critical role in enhancing performance and safety while also providing versatility. Engineered fabrics are specially designed to meet the stringent requirements of the aerospace and defence industry by offering lightweight, durable, and versatile solutions that contribute to improved fuel efficiency and better operational capabilities. Their importance is underscored by the increasing demand for advanced materials that can withstand harsh environmental conditions and provide specialised functionalities such as ballistic protection, thermal resistance and camouflage.

Key applications of engineered fabrics in aerospace and defence:

Engineered fabrics are critical components in the aerospace and defence industry, providing high-performance, durable, and lightweight solutions for mission-critical applications. They are used in a wide range of products, including parachute systems, paragliders, hot air balloons, and aerostats, as well as protective clothing, tactical gear, and load-carrying systems. These specialised textiles are vital for ensuring durability, safety, mobility, and adaptability in extreme operational environments, offering exceptional strength and resistance to environmental stresses.

	Parameters	Definition	Key characteristic
Parachute systems & inflatables	 Parachutes	• Aerial equipment designed for controlled descent through the atmosphere	• Provide enhanced strength, durability, & resistance to environmental factors, ensuring reliable deployment and safety during descent or flight
	 Paragliders	• Aerial equipment designed for gliding flight through the atmosphere	• Provide strength and durability, resists environmental stresses to ensure harmless deployment, stable flight , and safe descent
	 Hot air balloons	• Aerial equipment designed to control descent or provide sustained flight by utilising air resistance and aerodynamic principles	• Provide uniformity, strength, and airtightness, ensuring safe and efficient flight with controlled ascent and descent
	 Aerostats	• Inflatable structures such as balloons or blimps used for sky surveillance, communication, or weather monitoring	• Provide multi-layered laminates to ensuring durability and resistance to harsh environmental conditions
	 Rain poncho	• Lightweight, waterproof covering designed to shield personnel and gear from rain and wet conditions	• Provides full-body protection from rain and stays durable even in harsh conditions
Stealth & tactical systems	 Bulletproof jackets	• Personal protective gear incorporating ballistic-resistant materials to absorb and disperse impact	• Delivers reliable ballistic protection while maintaining mobility, comfort, and durability
	 ECWCS	• A three-layered clothing system specifically designed and evaluated to provide insulation, waterproofing, strength & lightweight properties	• Superior thermal insulation and moisture-wicking properties to ensure protection in extreme cold and high-altitude conditions
	 High altitude & visibility clothing	• Specialized clothing engineered for operations in high-altitude, low-visibility environments	• Ensures water resistance, abrasion resistance , and high-visibility markings for safety in harsh climates
	 CBRN	• Protective gear designed to shield against hazardous CBRN threats while maintaining durability, breathability, and mobility	• Comprehensive protection from environmental threats while maintaining mobility and breathability
Rapid deployment systems	 Camouflage nets	• Specialised nets designed to conceal military personnel and equipment by blending with the surroundings, reducing visual & infrared detection	• Provides stealth and concealment , providing coverage against visual and infrared detection with advanced trilobal patterns and adaptive functionality
	 Rucksacks	• Heavy-duty load-carrying packs designed for transporting equipment and supplies	• Ergonomic, durable , and modular with high load capacity for extended operations
	 MOLLE system	• Modular Lightweight Load-Carrying Equipment system with webbing and attachment points	• Enables customizable, secure, and adaptable gear configuration for mission-specific needs

Key characteristics of the engineered fabric for aerospace and defence

Engineered fabrics used in the aerospace and defence industry possess key characteristics that ensure optimal performance. These include lightweight characteristics for improved speed and lift-to-drag ratio, UV protection to reduce radiation and extreme heat exposure, high strength for maintaining structural integrity, and low stretch coupled with high abrasion resistance to enhance overall performance. Fabrics used in aerospace and defence applications must meet exact specifications, which require a high level of technical manufacturing expertise.

Global engineered fabric market size for aerospace and defence

The global market for engineered fabric for aerospace and defence grew from US\$ 3.4 billion in 2019 to US\$ 5.4 billion in 2025, reflecting a CAGR of 8.0%. It is further projected to reach US\$ 8.7 billion in 2030, growing at a CAGR of 10.0% between 2025-2030.

Indian engineered fabric market size for aerospace and defence

The Indian engineered fabric market for aerospace and defence, as measured by domestic consumption (including imports) and excluding exports, grew from ₹ 22.8 billion (US\$ 0.3 billion) in Fiscal 2020, to ₹ 58.50 billion (US\$ 0.7 billion) in Fiscal 2026, reflecting a CAGR of 17.0% during Fiscal 2020-2026. It is further projected to reach ₹ 145.6 billion (US\$ 1.6 billion) in Fiscal 2031, growing at a CAGR of 20.0% during Fiscal 2026-2031. The growth in the market for aerospace and defence-related fabrics in India is being driven primarily by Indian government requirements to procure defence-related products domestically. This push for self-reliance is supported by several key government initiatives and policies aimed at boosting local manufacturing and reducing imports. The National Technical Textiles Mission (NTTM) and the "Make in India" initiative are central to this effort, promoting domestic R&D for advanced fibres like aramid and nylon and fostering the creation of indigenous machinery. The government is also driving import substitution through:

- **Collaborative R&D:** A "pooled resource approach" involves premier institutions like the Defence Research and Development Organisation (DRDO) to develop specialized fabrics for applications like protective gear.
- **Financial incentives:** To make domestic production more cost-effective, customs duties have been eliminated on certain high-speed looms, while the Basic Customs Duty (BCD) on some imported knitted fabrics has been increased to protect local manufacturers.
- **Targeted investments:** The government has approved investments under the NTTM to develop advanced textiles, such as Phase Change Material (PCM)-based activewear for military personnel operating in extreme weather conditions.

Entry barriers in the engineered fabric industry for the aerospace and defence segment

Complex approval processes, stringent regulations, supply chain challenges, and market credibility issues associated with the engineered fabric market pose significant entry barriers in the engineered fabric industry. Furthermore, many customers, particularly government agencies, restrict participation in their projects to companies that meet specific qualifying criteria and mandatory certifications. For example, the market for defence fabrics and solutions, both in India and globally, is a custom solutions market in which product introduction involves working closely with the customer over a design and adoption period that can last from two to 10 years. These factors collectively make it difficult for new players to enter the market, thereby limiting its widespread adoption. The chart below describes these challenges in further detail.

Entry barrier	Description
 Complex approval process	- Setting up an engineered fabric manufacturing plant involves securing multiple permits and undergoing a rigorous empanelment process with stringent quality checks and repeated audits - Adhering to the industry standards like Quality Control Orders (QCOs) adds to these operational complexities, often resulting in long cycles of ~2-10 years from design to adoption
 Supply chain challenges	- Ensuring a consistent supply of high-quality raw materials poses to be a challenge for new entrants, with limited vendors supplying their proprietary fabrics to pre-existing industry partners Dependence on imports for specialty fibers further disrupts the supply chain, creating a substantial barrier to entry
 Market credibility issues	- Gaining market credibility is a significant challenge, as the aerospace & defence industry is primarily dominated by established players with long-standing customer relationships and proven track records - Customers stick to pre-approved suppliers, with proven track records, creating barriers for new entrants and making it difficult for them to gain traction
 Challenging production process	- Fabrics for aerospace and defence applications should meet exact and often technically demanding specifications, which require a high level of technical manufacturing expertise and advanced weaving technology, so that customised solutions with specified functional requirements across varied applications can be delivered - Solutions offered by engineered fabric products are highly complex in nature, with only a few number of players possessing the required capabilities & expertise to serve each customer with customised requirements - Military fabrics, for example, have to be customised for their use in hazardous conditions, including for durability, comfort and performance

Trends in the engineering fabrics and solutions industry for aerospace and defence

The engineered fabrics and solutions market is evolving significantly in the aerospace and defence industry. Key trends include continuous enhancements in products, with emphasis on both cost-efficiency and quality. There is a noticeable shift in manufacturing processes, driven by the incorporation of innovative materials and composites, alongside a growing emphasis on sustainable manufacturing practices. Additionally, the adoption of lightweight materials has led to increased operational efficiency, enabling reductions in MRO costs. These transformations are shaping a more advanced and cost-effective future for the industry. The chart below describes these trends in further detail.

Export opportunities for the Indian engineered fabrics market in aerospace and defence

India is strategically positioned to seize significant opportunities in engineered fabric exports due to the following factors, amongst others:

- Large-scale polyester production:** India is the second-largest producer of man-made fibres (MMFs), particularly polyester, worldwide. It is well-positioned to meet the growing demand for lightweight and durable fabrics essential in aerospace and defence applications. These fabrics, crucial for products ranging from aircraft interiors to military protective gear, offer strong export potential for India in engineered fabrics in global markets.

- **Government initiatives:** The government of India has introduced several initiatives to boost the export of engineered fabrics, which is vital for both the aerospace and defence sectors. The National Technical Textiles Mission (NTTM) scheme is a key initiative that focuses on research and development, promotion and market development, export promotion, and skill development. Under this scheme, the Synthetic and Rayon Textiles Export Promotion Council (SRTEPC) has been assigned the role of "Export Promotion Council" to actively promote engineered fabrics in global markets. This initiative is particularly important for the aerospace and defence industries, where high-performance fabrics are increasingly in demand. Furthermore, the government has proposed to set up 7 Mega Investment Textiles Parks (PM-MITRA), aimed at creating a level playing field for domestic manufacturers to compete internationally. These efforts will help India strengthen its position in the global aerospace and defence supply chains, supporting both innovation and competitiveness.
- **Strategic partnerships:** As India strengthens its strategic partnerships with key countries like the United States, the United Kingdom, European nations, Israel, and Taiwan to supply aerospace and defence equipment like personal protective gear, it is poised to meet the increasing demand for high-performance engineered fabrics used in such applications. These economies, facing rising geopolitical tensions, generate consistent demand for specialised engineered fabrics and solutions such as composite fabrics and insulation materials. India's growing role as a supplier to these countries will significantly enhance its export opportunities in the global aerospace and defence industry.

Import substitution of engineered fabric for the Indian aerospace and defence industry

India is making significant strides in substituting imports of engineered fabrics for domestic aerospace and defence production, driven by several key factors. These include the availability of raw materials, which provide an edge in developing cost-effective, high-quality fabrics; production-linked schemes promoting localised manufacturing; a young and skilled workforce with technical expertise; increasing indigenous production; and strong government initiatives supporting the sector. Together, these elements pave the way toward greater self-reliance in engineered fabric production.

Case study for aerospace and defence solutions – SMPP Limited

SMPP Limited is an Indian designer and manufacturer of defence equipment including ammunition components, personal protection products and protection kits for land, air and sea platforms. Founded in 1985, SMPP Limited has evolved into a market leader for personal ballistic protection products made of composites, in terms of value of domestic government orders awarded in Fiscal 2024. SMPP Limited's customer base includes armed forces, the police, the paramilitary and other security forces. In the near future, SMPP Limited plans to establish a new facility which is anticipated to be the largest private-sector ammunition manufacturing site in India, covering an area of 800 acres. The company achieved approximately ₹ 5.8 billion in revenue from the sale of products in Fiscal 2025, bring it to a CAGR of approximately 20% from Fiscal 2021-2025 in terms of revenue from the sale of products.

After SMPP Limited's incorporation in 1985, it received its first customer order in defence manufacturing for the supply of semi-combustible cartridge cases of 120 mm and 125 mm in 1991. Since then, it has expanded into manufacturing combustible cartridge cases and components requiring explosive raw material, and certain protection products such as bulletproof jackets, vests, helmets panels and plates. In 2018, SMPP Limited received an order for 186,138 bullet resistant jackets under a government contract, which it fulfilled in 2022. In 2023, its subsidiary was also issued an Arms License by the DPIIT to undertake manufacturing of 125 mm, 125 mm mortar, 120 mm tank, 81 mm, 155 mm, 130 mm, 105 mm, 40 mm and 30 mm ammunitions.

Overview of the industrial and automotive industry

Industrial and automotive applications are fundamental to global economic development and drive efficiency, innovation, and sustainability across various sectors. From manufacturing to construction, these applications integrate advanced technologies and processes to optimise production, improve quality, and reduce environmental impact. Mechanical Rubber Goods (MRGs), including drive belts, hoses, tapes (such as tapes for the leather and shoe industries, and tapes used for insulation), seals and gaskets, amongst others, play a critical role in industries such as automotive, construction, aerospace, and industrial machinery, ensuring durability and performance. As industries continue to evolve, the adoption of automation, smart systems, and sustainable practices is reshaping traditional operations, enabling businesses to enhance productivity and remain competitive in an increasingly dynamic market. Inflatables, which include products like airbags, aircraft evacuation slides, rescue boats, and inflatable habitats, are crucial air-holding structures. They play a vital role in safety, rescue, and operational support, where engineered fabrics ensure they are lightweight and can be compactly stored, yet offer the strength and reliability needed for rapid deployment and performance in critical situations.

In the automotive sector, industrial applications streamline manufacturing processes through precision engineering, robotics, and automated assembly lines, ensuring high-quality production while reducing costs. The shift toward EVs has further introduced new manufacturing techniques and material innovations to enhance vehicle performance, efficiency, and safety. Automotive tapes (including wire harness tapes), used for bonding, insulation, and vibration dampening, support lightweight vehicle design and improve assembly efficiency. Similarly, roof liners, which enhance vehicle aesthetics and reduce noise, are increasingly being developed using sustainable and lightweight materials. Snow socks, a winter traction device that cover tyres by replacing heavy metal chains with lightweight textile alternatives, are also gaining traction. Hoses, essential for fuel, coolant, and hydraulic systems, contribute to the efficiency of both ICEs and EVs. Additionally, peel-ply, widely used in composite manufacturing, is crucial in automotive and aerospace applications for improving adhesion and surface preparation in high-strength bonding.

Key growth drivers and trends of industrial and automotive applications

Industrial and automotive applications are witnessing key growth drivers and trends. The increased adoption of connected technologies and smart automation is boosting demand for engineered fabrics production in India. This is further supported by government regulations and infrastructure development aimed at enhancing domestic production. These government-led initiatives are themselves bolstered by the diversification of supply chains by major global manufacturers of end-products that use engineered fabrics, which increases the inflow of investments and the resilience of the domestic market whilst reducing import dependence. The industry is also seeing strong shifts towards sustainability and green innovations, along with new manufacturing techniques enabling an increased degree of product customisation and the use of advanced materials. For more details on these key growth drivers and trends, please see the following chart.

Key growth drivers & trends for industrial applications

Overview of the engineered fabric market for industrial and automotive applications

The engineered fabric market for industrial and automotive applications is characterised by its focus on high-performance materials tailored to specific needs. The engineered fabrics market spans multiple sectors, including automotive, healthcare, and construction, with examples of the applications of engineered fabrics in these sectors as follows:

- The automotive industry incorporates these fabrics in tapes, airbags, seat belts, interior linings, drive belts, and insulation, driven by the need for lightweight, high-strength materials that enhance safety and vehicle performance.

- The healthcare industry relies on them for medical equipment coverings, surgical drapes, and wound dressings, benefiting from their antimicrobial properties, fluid resistance, and ease of cleaning.
- In the construction industry, engineered fabrics are used in roofing, insulation, and geotextiles, offering superior resistance to weathering, tearing, and abrasion.

As technology advances, new applications for engineered fabrics continue to emerge, while increasing emphasis on sustainability further drives their role in meeting environmental goals across various sectors.

Global engineered fabric market size for industrial and automotive applications

The global market for engineered fabric for industrial and automotive applications grew from US\$ 21.9 billion in 2019 to US\$ 31.95 billion in 2025, reflecting a CAGR of 6.5%. It is further projected to reach US\$ 48.04 billion in 2030, growing at a CAGR of 8.5% between 2025-2030.

Global market segmentation of engineered fabric for industrial and automotive applications – By product

The engineered fabric market for industrial and automotive applications is segmented into automobiles, MRG and customised technical fabric based on product. Automobiles (including applications such as automotive wire harness tapes) contributed the majority share, which stood at 55.0% in 2025, whereas customised technical fabric stood at 15.6%, MRG fabric at 14.4% and other products (filtration fabrics, bolting cloth, coated abrasives, etc.) stood at 15.0%. By 2030, automobile fabric is poised to capture 57.0% of the market, with customised technical fabric and MRG fabric contributing 16.1% and 15.5%, respectively, while others stood at 11.6%. The market for inflatables is a global market where only a few companies enjoy a quasi-monopoly, making it ripe for disruption as customers look for alternate sources.

Global market segmentation of engineered fabric for industrial and automotive applications – By geography

The engineered fabric market for industrial is segmented into North America, Asia Pacific, Europe, and LAMEA based on geography. Asia Pacific contributed the majority share of 51.7% in 2025, followed by Europe at 23.6% and North America at 17.9%. LAMEA contributed 7.0% to the market. By 2030, Asia Pacific is poised to capture 52.8% of the market, with Europe and North America contributing 24.4% and 18.3%, respectively. The Asia Pacific region leads the global engineered fabric market due to its booming automotive and industrial sectors, strong manufacturing base, and significant urbanisation and economic growth.

Indian engineered fabric market size for industrial and automotive applications

The Indian engineered fabric market for industrial applications, as measured by domestic consumption (including imports) and excluding exports, grew from ₹ 283.7 billion (US\$ 3.2 billion) in Fiscal 2020, to ₹ 560.0 billion (US\$ 6.3 billion) in Fiscal 2026, reflecting a CAGR of 12.0%. It is further projected to reach ₹ 1078.2 billion (US\$ 12.2 billion) in Fiscal 2031, growing at a CAGR of 14.0% between Fiscal 2026 - 2031.

Indian market segmentation of engineered fabric for industrial and automotive applications – By products

The engineered fabric market in India is segmented into automobiles, MRG and customised technical fabric based on product. Automobiles contributed to the majority share of domestic consumption (including imports and excluding exports), with a share of approximately 51.4% in Fiscal 2026, followed by customised technical fabric at approximately 20.4% and MRG at approximately 15.7%. In Fiscal 2031, the market share attributable to the automobile segment is poised to remain at approximately 51.4%, with that for customised technical fabric and MRG contributing approximately 22.5% and approximately 15.7%, respectively.

Key characteristics of engineered fabrics used in industrial and automotive applications

Engineered fabrics for industrial and automotive applications are designed with key characteristics such as high tensile strength for durability in extreme conditions, temperature resistance for insulation and fire resistance, and environmental resilience to withstand UV exposure and temperature fluctuations. These fabrics are lightweight and flexible, helping to reduce overall vehicle weight. Additionally, they are water-repellent and waterproof to prevent moisture damage. Noise and vibration reduction (NVH) designs improve ride comfort and minimise wear on vehicle components, ensuring enhanced performance and reliability across various industries.

Entry barriers in the engineered fabric market for industrial and automotive applications

Key entry barriers in the engineered fabric market for industrial and automotive applications include long qualification and approval cycles, regulatory restrictions, high production expenses, complex production processes and the limited availability of raw materials. The latter three in particular hinder manufacturing efficiency and scalability. These factors present high entry barriers and significant obstacles for new businesses entering the industry. These factors also contribute to business stability and customer stickiness.

Key trends in the engineered fabric market for industrial and automotive applications

Key trends in the engineered fabric market for industrial and automotive applications include the emergence of smart and functional textiles. Advanced manufacturing technologies, including automation and nanotechnology, are improving efficiency, durability, and cost-effectiveness. Furthermore, the increasing customisation and personalisation of fabrics tailored to specific industry needs is driving new growth opportunities. The rising demand for high-performance materials with properties like flame resistance and waterproofing is fuelling innovation in sectors such as automotive and healthcare.

Export opportunities from India for engineered fabric for industrial and automotive applications

There are several promising opportunities for exporting engineered fabrics for industrial and automotive applications from India, driven by factors such as:

- **Diverse applications:** Engineered fabrics, designed for functions like protection, filtration, medical use, insulation, reinforcement, and sound absorption, are witnessing rising demand. With applications across healthcare, automotive, construction, and more, this high-margin, high-growth sector presents a strong opportunity for Indian manufacturers.
- **Supportive government regulations:** The National Technical Textiles Mission aims to position India as a global leader in technical textiles, with export promotion as one of its key components. This initiative targets an average annual export growth of 10-12%. To support this, the Synthetic and Rayon Textiles Export Promotion Council (SRTEPC), now MATEXIL, has been designated as the Export Promotion Council for technical textiles.
- **Rising global demand across industries:** The global engineered fabric market is undergoing a significant transformation, driven by innovations in material science, sustainability efforts, and rising demand in key sectors such as automotive and healthcare. Demand for medical textiles, speciality fabrics, industrial fabrics, protective textiles, and agricultural textiles is fuelled by the rapid growth of engineered fabrics in industries like automotive, healthcare, oil and petroleum, infrastructure, and construction. Looking ahead, the market is expected to experience a major shift with the increasing adoption of smart textiles and bio-based fabrics, offering enhanced functionality and environmental benefits. As industries increasingly seek efficient, durable,

and eco-friendly solutions, the demand for high-performance textiles will continue to rise, creating new opportunities for manufacturers.

Import substitution for engineered fabric for domestic, industrial, and automotive applications

India is making significant strides in replacing imports of engineered fabrics with domestic production for industrial and automotive applications. These efforts, outlined below, position India as a global leader in technical textiles, driving innovation, self-reliance, and sustainable growth.

- **Advancements in research and development:** India has made significant strides in advancing research and development for engineered fabrics through a collaborative ‘pooled resource’ approach, involving premier institutions like CSIR laboratories, IITs, DRDO, ICAR, and others. Fundamental research focuses on developing high-performance fibres, sustainable materials, and advanced coating technologies, while application-based research targets specific industrial needs such as automotive textiles, medical textiles, protective gear, and geotextiles. This interdisciplinary framework, supported by government initiatives and oversight from the Mission Steering Group, enables India to innovate, reduce import dependency, and develop customised solutions for sectors like healthcare, agriculture, and infrastructure.
- **Government initiatives and policies:** The Indian government has introduced several initiatives, such as the National Technical Textiles Mission (NTTM), to boost the domestic production of engineered fabrics. These efforts include R&D for advanced fibres like carbon, aramid, nylon, UHMWPE, and their composites, as well as applied research in agro-textiles, geotextiles, medical textiles, mobile textiles, and sports textiles with a focus on sustainability. The government also promotes skill development, creates indigenous machinery in line with the "Make in India" initiative, and fosters innovation among young graduates through startups and ventures. To further enhance domestic production, the budget has exempted two types of shuttleless looms, Rapier Looms (below 650 meters per minute) and Air Jet Looms (below 1,000 meters per minute), from customs duty, reducing it from 7.5% to zero, which is expected to lower production costs and improve the quality of high-value textile products. Additionally, the Basic Customs Duty (BCD) on knitted fabrics has been revised, increasing it from “10% or 20%” to “20% or ₹ 115 per kg, whichever is higher,” aiming to curb cheap imports and provide relief to domestic manufacturers, particularly in textile hubs like Surat and Ludhiana.
- **Technological advancements:** Nanotechnology is transforming smart textiles by enhancing properties such as antimicrobial resistance, self-cleaning, UV protection, fire retardancy, and energy harvesting, with the potential for new applications across various industries, including sports and defence. In a significant move, the Indian government has approved an approximately ₹ 255 million (approximately US\$ 3 million) investment under the National Technical Textiles Mission (NTTM) to develop Phase Change Material (PCM)-based activewear in collaboration with IITs, focusing on climate-adaptive clothing for military personnel facing extreme weather conditions. Meanwhile, E-textiles are gaining traction in sports and fitness for bio-signal monitoring to improve performance and prevent injuries, though seamless integration remains challenging, with most designs still depending on detachable modules.

Case study for industrial and automotive applications – Garware Technical Fibres Limited

Founded in 1976, Garware Technical Fibres Limited is a leading Indian manufacturer of technical textiles, specialising in products like high-performance fishing nets, aquaculture cages, geosynthetics, and coated fabrics. It boasts a diverse solutions portfolio with its products spanning defence, transport, sports, shipping and offshore, and industrial applications, amongst others. The company reached ₹ 15.2 billion in revenue from operations in Fiscal 2026, which reflected a CAGR of 8.7% from Fiscal 2022-2026.

Garware Technical Fibres Limited is recognised as a Four Star Export House by the DGFT, Ministry of Commerce, Government of India. It has also been granted 28 patents and has a product portfolio of over 20,000 SKUs.

Overview of the outdoor and lifestyle industry

The outdoor and lifestyle industry is driven by innovation, performance, and evolving consumer preferences across recreation, sports, and everyday essentials. From apparel and footwear to outdoor gear and accessories, this sector focuses on enhancing durability, comfort, and functionality. Advanced materials, ergonomic designs, and smart features are shaping products that cater to both active lifestyles and everyday convenience.

In outdoor recreation, developments in lightweight gear, high-performance fabrics, and weather-resistant materials enhance comfort and safety. Lifestyle products, including smart wearables, activewear, and travel essentials, integrate modern designs and advanced functionality to enhance user experience. Footwear is evolving with shock-absorbing soles and breathable materials for better support, while backpacks and travel gear incorporate smart storage solutions and durable finishes for long-lasting use. As consumer expectations rise, brands continue to refine their offerings with cutting-edge technology and superior artisanship, ensuring style, comfort, and practicality across various activities.

The outdoor and lifestyle industry encompasses a diverse range of products designed to withstand demanding environments while ensuring durability, comfort, and performance. These applications cater to outdoor enthusiasts, professionals, and adventure seekers, integrating materials that offer weather resistance, lightweight properties, and enhanced functionality.

Key applications:

- **Apparels:** Performance garments made from engineered knits/wovens (polyester, nylon, merino blends) and laminated membranes (ePTFE/PU) with stretch fibres and functional finishes (Durable Water Repellent (DWR), UV, antimicrobial), providing moisture management, weather protection, durability, and thermal regulation for activewear, uniforms, and PPE
- **Footwear:** Shoe uppers and components incorporating engineered meshes, 3D spacer knits, and PU-coated microfiber nonwovens, reinforced with Thermoplastic polyurethane (TPU) overlays and lined with waterproof-breathable or thermoregulating booties/liners, delivering fit, support, breathability, and protection for running, hiking, safety, and lifestyle use
- **Backpacks:** Outdoor gear made from fabrics like Cordura, nylon, mesh and recycled polyester, offering abrasion resistance, strength, and water resistance, widely used for hiking, trekking and travel purposes.
- **Sleeping bags:** Lightweight insulated bedding solutions designed for outdoor activities like camping, hiking and extreme weather conditions made from water-repellent fabrics with zip closures to provide insulation in outdoor settings with a general rating of around approximately (9)°C for winter bags and up to approximately 2°C for summer bags
- **Luggage:** Travel bags and suitcases made from durable fabrics such as polyester, nylon, and polycarbonate-reinforced textiles, which are lightweight materials offering strength, water resistance, and ease of handling for frequent travel applications
- **Tents:** Shelter solutions made from fabrics like polyester, nylon, canvas, and poly-cotton, offering waterproofing, UV resistance and structural stability, used in various outdoor activities ranging from lightweight backpacking to heavy-duty expeditions
- **Mattresses:** Portable sleeping surfaces made from PVC, textile-reinforced urethane, or rubber, available in inflatable and foam-based options to provide comfort, portability, and thermal insulation for various outdoor applications
- **Workwear (including high-visibility clothing):** Highly luminescent clothing made from special pigments and polyester blends, designed for industrial, construction, and outdoor work environments to offer durability, weather protection, and enhanced visibility for safety and compliance purposes.
- **Performance fabrics:** High-performance gear, footwear, and apparel made from materials like PU, PVC, nylon, and spandex, offering strength, abrasion resistance and durability, ensuring versatility and reliability in extreme conditions. Products include winter jackets, rainwear apparel, fashion jackets, high-altitude clothing, and athleisure, amongst others

Key growth drivers and trends for outdoor and lifestyle applications

The outdoor and lifestyle market is expanding due to a rising health-conscious population and its demand for quality products, along with a surge in adventure tourism, supported by government and business investments in outdoor infrastructure. Sustainability, tech-integrated gear, and the fusion of fashion with functionality shape industry trends. Social media also drives consumer interest. As brands innovate with smart features and eco-friendly materials, the market continues to grow, catering to both performance-driven and style-conscious

consumers. In addition, while India has historically relied on imports from China and Taiwan for activewear fabrics, brands are now shifting supply chains (including manufacturing bases) to India, driven by local demand and the “China +1” strategy. Further, India benefits from demand from Bangladesh, Vietnam, Sri Lanka, and countries in Africa, which lack the capacity to manufacture engineered fabrics for the outdoor market.

Overview of the engineered fabric market for outdoor and lifestyle applications

Engineered fabrics are integral to outdoor and lifestyle applications, offering enhanced durability, functionality, and comfort. The engineered fabric market for outdoor and lifestyle applications is growing steadily, driven by technological innovations, a focus on sustainability, and the broadening of application areas. These factors collectively contribute to the market's robust growth prospects in the coming years.

Material composition and properties

These fabrics are crafted from materials like polyester, nylon, and advanced composites. Polyester is favoured for its affordability and resistance to environmental degradation, making it suitable for outdoor use. Nylon is renowned for its strength and flexibility, contributing to the longevity of outdoor gear. Innovative materials, such as those developed by Outlast Technologies, incorporate phase change materials to regulate temperature, enhancing user comfort.

Functional attributes

Engineered fabrics are designed to withstand environmental challenges. They offer properties like water repellence, UV protection, and stain resistance, ensuring performance in diverse conditions. Breathability is also a key feature, allowing moisture to escape and enhancing user comfort during activities.

Technological advancements

Recent developments have led to fabrics with integrated cooling technologies, effectively reducing skin temperatures in hot climates. These innovations enhance comfort and safety for users in extreme heat conditions.

Sustainability initiatives

The industry increasingly focuses on sustainable practices, balancing durability with environmental impact. Manufacturers explore eco-friendly materials and processes to meet consumer demand for sustainable products.

Applications in outdoor and lifestyle products

Engineered fabrics are integral to a wide range of products, including outdoor furniture, awnings, tents, and technical apparel. Their versatility and performance characteristics make them essential in both functional and aesthetic aspects of outdoor and lifestyle applications.

Global engineered fabric market for outdoor and lifestyle applications

The global engineered fabric market for outdoor and lifestyle applications grew from US\$ 13.9 billion in 2019 to US\$ 21.5 billion in 2025, reflecting a CAGR of 7.5%. It is further projected to reach US\$ 38.7 billion by 2030P, growing at a CAGR of 12.5% between 2025 and 2030.

Global market segmentation of engineered fabric for outdoor and lifestyle applications – By geography

The engineered fabric market for outdoor and lifestyle applications is segmented into Asia Pacific, Europe, North America, and LAMEA based on geography. Asia Pacific contributed the majority share of 51.2% in 2025, followed by Europe at 24.3% and North America at 18.1%. LAMEA contributed 6.5% to the market. By 2031, Asia Pacific is poised to capture 52.5% of the market, with Europe and North America contributing 24.7% and 18.5%, respectively.

Indian engineered fabric market for outdoor and lifestyle applications

The Indian engineered fabric market for outdoor and lifestyle applications, as measured by domestic consumption (including imports) and excluding exports, grew from ₹ 209.0 billion (US\$ 2.5 billion) in Fiscal 2020 to ₹ 322.5 billion (US\$ 3.7 billion) in Fiscal 2026, reflecting a CAGR of 7.5%. By 2031, it is projected to reach ₹ 519.4 billion (US\$ 5.9 billion), growing at a CAGR of 10.0%.

Key characteristics of engineered fabric for outdoor and lifestyle applications

Engineered fabrics for outdoor and lifestyle applications offer key characteristics like water resistance and breathability, durability and abrasion resistance, and environmental resistance. They provide strength while remaining lightweight and can withstand abrasion, mechanical stress, and extreme temperatures. They are lightweight and versatile, which, coupled with their chemical compatibility and stress endurance, make them ideal for diverse applications.

Note(s): ¹Durable Water Repellent

Entry barriers in the market

Entering the engineered fabric market for outdoor and lifestyle applications presents significant challenges due to high technical, financial, and regulatory barriers. New entrants must master complex manufacturing processes and meet stringent performance standards, overcoming several hurdles to compete with established players. Below are the key entry barriers in this segment.

Trends in engineered fabric for outdoor and lifestyle applications

Engineered fabrics in outdoor and lifestyle applications are evolving rapidly, driven by the need for sustainability, durability, and enhanced user experience. Manufacturers are increasingly adopting eco-friendly materials, integrating smart features, and developing advanced performance technologies that ensure comfort, reliability, and style. These innovations are reshaping outdoor gear and lifestyle products, making them more functional, adaptive, and consumer centric.

Export opportunities from India for engineered fabric for outdoor and lifestyle applications

India's engineered fabric sector, particularly in outdoor and lifestyle applications, is experiencing significant growth, presenting substantial export opportunities due to the following reasons:

Government initiatives and market growth

The Indian government has launched the National Technical Textiles Mission (NTTM) to position India as a global leader in technical textiles. This mission aims to increase exports from US\$ 2.5 billion (2023) to approximately US\$ 10 billion by 2030.

Production Linked Incentive (PLI) scheme

To encourage domestic manufacturing, the government introduced the PLI scheme for textiles, which includes technical textiles. As of May 2026, 32 applications dedicated solely to technical textiles were approved, with a projected investment of ₹ 156.8 billion (US\$ 1.7 billion).

Export performance and opportunities

India's exports of technical textile products increased by 13.4%% from US\$ 1.9 billion in Fiscal 2021 to US\$3.2 billion in Fiscal 2025. Sportech (including sport and leisure, active wear, outdoor and sport articles) saw notable growth, with exports increasing by 21% between 2022 and 2023.

Strategic advantages

The political situation in competing countries like Bangladesh has led global retailers to consider India as a more stable sourcing destination. This shift presents opportunities for Indian manufacturers to capture a larger share of the global technical textiles market.

Strategic focus areas

To capitalise on these export opportunities, Indian manufacturers should focus on:

- **Innovation and R&D:** Investing in research to develop high-performance fibres and innovative textile solutions tailored to outdoor and lifestyle applications.
- **Sustainability practices:** Aligning with global sustainability trends by adopting eco-friendly manufacturing processes and materials, thereby appealing to environmentally conscious consumers and markets.
- **Compliance with international standards:** Ensuring products meet international quality and safety standards to enhance acceptance in global markets.

By leveraging government support, aligning with global market trends, and focusing on innovation and sustainability, India's engineered fabric sector is well-positioned to boost exports in the outdoor and lifestyle segments significantly.

Import substitution for engineered fabric for domestic outdoor and lifestyle applications

India is making strong strides towards achieving import substitution through a series of strategic efforts. These include rapidly upskilling and training its workforce to ensure high-quality labour, scaling infrastructure to enhance domestic production capabilities, and promoting indigenous manufacturing to replace imports. Moreover, the country's cost competitiveness, driven by the wide availability of raw materials at competitive prices, enables the substitution of imports of engineered fabrics for outdoor and lifestyle applications, paving the way for greater self-sufficiency.

Case study for industrial applications - Formosa Taffeta Co., Ltd.

Formosa Taffeta Co., Ltd. was founded in 1973 and is headquartered in Douliu, Taiwan. Over the years, the company has evolved into a leading textile manufacturer, offering advanced textile solutions to meet diverse industry needs. Its products include eco-friendly fabrics, sports and outdoor fabrics, safety and lifestyle fabrics, umbrella fabrics, carbon fabrics, spun yarn, tyre cords, and polyethylene (PE) plastic bags. The company reached approximately US\$ 0.8 billion in sales revenue in 2025, which reflected a CAGR of approximately (-4.4%) from 2021-2025.

After its establishment in 1973, Formosa Taffeta Co., Ltd. established an umbrella bone plant in 1979 and subsequently a tyre cord plant in 1980. Formosa Taffeta Co., Ltd. was first listed on the Taiwan Stock Exchange in 1985. It established a second plant in Taiwan in 1992. Thereafter, it entered the oil product business in 1998. From 1999 to 2016, Formosa Taffeta Co., Ltd. established five more plants, including plants in Vietnam and Dong-Nai for, amongst others, weaving and the manufacturing of high performance breathable waterproof coating and laminated fabrics.

Company overview and financial benchmarking

Company and strengths

Kusumgar Limited is a specialist in the engineered fabric industry with a history of successfully delivering bespoke solutions to customers.

The company manufactures specialised products using advanced technical processes, making it difficult to replicate comparable products. This is further bolstered by its unique, diverse and comprehensive machinery and equipment for the manufacture of an assortment of fabrics and solutions, which is a capability shared by only a few of its industry peers due to the demanding technical and manufacturing requirements of the industry. It would

take a competitor considerable time to reach Kusumgar Limited's level of technical knowledge and manufacturing capability. Kusumgar Limited has been a pioneer in the engineered fabrics industry for certain unique fabric configurations, such as parachute fabric. Kusumgar Limited is also recognised as one of the major players in military parachute fabrics outside the United States and China, and as one of the major manufacturers domestically of high-performance technical fabrics for parachutes, heddle belts and spindle tapes, with a limited number of companies selling such products in comparable quantities. In the mechanical rubber goods business line, Kusumgar Limited is selling hoses to Indian companies and is looking to expand globally and is identifying other niches and developing solutions for impressions/other mechanical rubber goods. With the limited domestic competition in the engineered fabrics industry, Kusumgar Limited is well-placed to both capture market share and increase the wallet share from existing customers.

Kusumgar Limited has also become a supplier for leading global brands, supplying materials to designated fabricators. A strong focus on sustainability is reflected in the company's eco-friendly alternatives, including fabrics made from recycled or low-impact materials, aligning with the automotive industry's transition toward greener technologies. Sustainable operations are further reinforced using solar and biomass energy and the adoption of eco-friendly finishing techniques, underlining its commitment to social and environmental stewardship.

Kusumgar Limited uses synthetic fibres like nylon, polyester, and aramids, each for specific applications. Their fabrics range from 15D to 1000D, where "D" stands for denier, a unit that measures the thickness of the yarn. A lower denier (e.g., 15D) indicates a finer, lighter fabric often used for ultra-lightweight applications, while a higher denier (e.g., 1000D) represents a thicker, more durable fabric suitable for heavy-duty use. They also offer coating and lamination methods tailored for high-performance needs.

Financial benchmarking

Kusumgar Limited, founded in 1970, develops speciality technical textiles for demanding applications ranging from defence and aerospace to inflatables, automotive, MRG and outdoor, while positioning itself as a customised, total-solutions partner. Its integrated capabilities span weaving and finishing through coating and lamination, supported by in-house R&D and quality assurance. For Fiscals 2026, 2025 and 2024, Kusumgar Limited had the highest EBITDA Margin among the benchmarked peers listed on Indian stock exchanges, respectively.

Garware Technical Fibres Limited, established in 1976, provides application-focused technical-textile solutions across aquaculture, fisheries, sports, geosynthetics, agriculture, industrial applications, coated fabrics, material handling, bird-net protection, shipping and offshore, safety, defence and government, and yarns and threads. It has a global footprint.

Arvind Limited, founded in 1931, operates across multiple businesses, including fabric and apparel, brands and retail, real estate, engineering, environmental solutions, advanced materials, telecom, and garmenting.

SRF Limited, incorporated in 1970 as Shri Ram Fibres, is a chemicals-based, multi-business entity engaged in manufacturing industrial and speciality intermediates, with businesses in fluorochemicals, speciality chemicals, packaging films, and technical textiles

Note(s):

1. Revenue from operations means the revenue from operations for the year/period.
2. EBITDA for Kusumgar Limited is calculated as profit before tax, plus depreciation and amortisation expense, plus finance costs, less other income.
 - EBITDA for Garware Technical Fibres Limited, Arvind Limited and SRF Limited is as per their respective public company filings.
3. EBITDA Margin (%) is calculated as EBITDA divided by Revenue from Operations.
4. PAT is the profit for the year/period.
5. PAT Margin for Kusumgar Limited and SRF Limited is calculated as profit for the year expressed as a percentage of total income.

- PAT Margin for Garware Technical Fibres Limited and Arvind Limited is as per their respective company filings.
- Net Debt for Kusumgar Limited is calculated as the total of non-current borrowings and current borrowings, minus the total of cash and cash equivalents and bank balances other than cash and cash equivalents (or other bank balances, as applicable) as at the end of the Fiscal.
 - Net debt for Garware Technical Fibres Limited, Arvind Limited, and SRF Limited is as per their respective public company filings.
 - Net Debt to EBITDA Ratio for Kusumgar Limited, Garware Technical Fibres Limited, and Arvind Limited is calculated as Net Debt divided by EBITDA.
 - Net Debt to EBITDA Ratio for SRF Limited is as per their respective public company filings.
 - Return on Equity (ROE) for Kusumgar Limited and SRF Limited is calculated as profit for the year divided by Average Total Equity. Average Total Equity is calculated as the sum of total equity as at the beginning of the Fiscal and total equity as at the end of the Fiscal, divided by two ("Average Total Equity").
 - Return on Equity (ROE) for Garware Technical Fibres Limited and Arvind Limited is as per their respective public company filings.
 - Return on Capital Employed (ROCE) for Kusumgar Limited, Arvind Limited and SRF Limited is calculated as EBIT divided by capital employed. Capital employed is calculated as total assets less current liabilities as at the end of the Fiscal Year. EBIT is calculated as profit before tax (or in respect of Arvind Limited profit before exceptional items and tax), plus finance costs.
 - Return on Capital Employed (ROCE) for Garware Technical Fibres Limited is as per its public company filings.
 - Working Capital Cycle (in days) is calculated by dividing the number of days in the applicable Fiscal by the working capital ratio, which is calculated as revenue from operations divided by Average Net Working Capital. Net working capital is calculated as total current assets less total current liabilities ("Net Working Capital"). Average Net Working Capital is calculated as (Net Working Capital as at beginning of the Fiscal plus Net Working Capital as at the end of the Fiscal) divided by two ("Average Net Working Capital").
 - Fixed Asset Turnover Ratio is calculated as revenue from operations divided by Average Fixed Assets. Fixed Assets is property, plant and equipment ("Fixed Assets"). Average Fixed Assets is calculated as (Fixed Assets as at beginning of the Fiscal plus Fixed Assets as at end of the Fiscal) divided by two ("Average Fixed Assets").
 - The financial information and ratios for each of the companies above are on a consolidated basis.

Threats and challenges to the engineered fabrics industry

Some of the key challenges faced by the industry are:

- **Raw material dependence and price volatility:** Heavy reliance on petrochemical-based inputs (polyester, polypropylene, nylon) exposes the industry to crude oil price fluctuations, international trade policies (such as US tariff implications), changes in global demand, changes in environmental regulations and supply chain disruptions (such as during COVID-19 or geopolitical tensions), which impact availability and cost stability.
- **Import dependence for machinery:** The engineered fabrics industry is heavily reliant on imported high-end machinery, leading to higher costs and supply chain risks. Limited domestic manufacturing capacity hampers competitiveness and slows innovation.
- **Technology and innovation pressure:** Continuous demand for lighter, stronger, multifunctional fabrics requires high R&D spend. Rapid technology shifts (nanofibers, smart textiles, bio-based polymers) could render existing capacities obsolete.
- **Regulatory and environmental challenges:** Increasing scrutiny on single use engineered fabrics (e.g., PPE, hygiene products) due to waste management and microplastic concerns. Stricter environmental norms on emissions, wastewater, and plastic use raise compliance costs.
- **Intense competition and pricing pressure:** The presence of large global players with scale and advanced R&D makes it difficult for smaller firms to compete. Alongside this, customer focus on cost efficiency drives strong pricing pressure, squeezing margins and limiting reinvestment in innovation.
- **Evolving customer preferences:** Inability to respond swiftly to changing customer needs and industry trends can adversely impact business performance. Continuous investment in innovation, technology, and talent is essential to deliver differentiated, high-quality products that meet evolving expectations and sustain customer relationships.

OUR BUSINESS

To obtain a complete understanding of our business, prospective investors should read this section in conjunction with “Risk Factors”, “Industry Overview”, “Restated Financial Information” and “Management’s Discussions and Analysis of Financial Condition and Results of Operations” on pages 22, 137, 267 and 335, respectively.

This section contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements. For details, see “Forward-Looking Statements” on page 20.

Overview

We are a manufacturer of woven, coated and laminated synthetic fabrics, referred to as engineered fabrics. We offer engineered fabrics and solutions focusing on polyamides and polyester filaments and polyurethane chemistry that cater to the high-performance requirements of our customers. Our expertise is manufacturing fabrics where critical performance parameters include tensile strength, tear strength, abrasion resistance, comfort, air-permeability, and water proofing, among others. We have leveraged our process knowledge and product development expertise to manufacture over 1,000 unique fabric configurations (referred to as stock keeping units, or “SKUs”) as at March 31, 2026, to build a niche around synthetic functional and performance fabrics, addressing growing demand in the aerospace and defence, industrial and automotive, and outdoor and lifestyle segments.

In recent years, we have built on our expertise and industry knowledge to expand into manufacturing finished products for aerospace and military applications, such as parachute systems, stealth solutions, and rapid deployment systems.

The engineered fabrics industry is an industry that requires precision and a high level of technical know-how (source: 1Lattice Report). We leverage our technical strengths and partnerships to focus on high-technology applications. Our business model drives profitable growth, and we believe we are poised for continued growth, driven by exports, global supply chain shifts, modernisation and indigenisation of military equipment, expanded product lines and technological innovations.

The global engineered fabrics industry has grown from US\$41.6 billion in 2019 to US\$67.8 billion in 2025 with a CAGR of 8.5% from 2019-2025, and is projected to reach US\$112.2 billion in 2030, representing a CAGR of 10.6% from 2025-2030 (source: 1Lattice Report). The industrial and automobile segment accounted for 47.1% of the global engineered fabrics industry value in 2024, while the outdoor and lifestyle segment held 31.7%. The defence and aerospace segment made up 8.0%. By 2029, the share of outdoor and lifestyle is expected to increase to 34.5%, while the share of defence and aerospace is expected to remain about the same at 7.7%, and the share of the industrial and automobile segment is projected to decrease to 43.6% (source: 1Lattice Report). We manufacture products primarily for four market segments: (i) Aerospace and Defence Fabrics; (ii) Aerospace and

Defence Solutions; (iii) Industrial and Automotive Fabrics; and (iv) Outdoor and Lifestyle Fabrics, each of which has high entry barriers (*source: 1Lattice Report*).

Aerospace and Defence Fabrics: Fabrics used in aerospace and defence applications must meet exact specifications, which require a high level of technical manufacturing expertise (*source: 1Lattice Report*). We work closely with end-users to understand their needs and to create fabrics optimized for their strength-to-weight ratio, durability, comfort, and other performance parameters. We develop bespoke products for our customers as per their unique requirements. We are development and manufacturing partners of aerospace and defence fabrics for an Indian government customer, and we export our aerospace and defence fabrics to countries all over the world. We supply fabrics for the following aerospace and defence applications: (i) parachutes and other aerial systems; (ii) tactical clothing and specialty gear; and (iii) stealth systems and rapid deployment systems.

Aerospace and Defence Solutions: Using the expertise gained from fabric manufacturing, we have selectively expanded into manufacturing end-user solutions for domestic and export customers in the aerospace and defence markets. We divide these end-user solutions into three business lines: (i) aerial systems, such as parachute systems; (ii) stealth systems, such as camouflage nets; and (iii) rapid deployment systems, such as decoys and shelters. In addition, we also enter into maintenance and repair service agreements with certain clients.

Industrial and Automotive Fabrics: We manufacture fabrics for a variety of industrial applications, including the automotive sector. We divide our Industrial and Automotive Fabrics segment into four business lines: (i) fabrics for tapes; (ii) custom fabric solutions; (iii) mechanical rubber goods (MRG) fabrics; and (iv) inflatable fabrics.

Outdoor and Lifestyle Fabrics: Our Outdoor and Lifestyle Fabrics segment caters to the global market for synthetic performance wear (“activewear”), such as “athleisure”, winter wear, rainwear, and fashion jackets, and personal gear (“hardlines”), such as backpacks, luggage, sleeping bags, and tents. Brands nominate us to serve as the fabric supplier to specific garment manufacturers.

The following table sets forth our revenue from contracts with customers from our four primary market segments and from sales falling outside those market segments for the fiscal years indicated.

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

We sell our products to both government-owned entities and non-government-owned companies (such companies are also known as private integrators when they are involved in assembling and delivering bundled aerospace and defence products and solutions). The table below sets forth our revenue from contracts with customers from government-owned entities and non-government owned entities for the fiscal years indicated:

Our vertically integrated manufacturing operations, including preparatory, weaving, dyeing, printing, finishing, coating, lamination, and fabrication, are supported by modern infrastructure, advanced technology and research and development (“R&D”) capabilities. We have six manufacturing facilities, all of which are in Gujarat, India, and one fabrication unit in Uttar Pradesh, India. Our integrated setup allows us greater control over quality and delivery.

We are led by our Promoters, Yogesh Kantilal Kusumgar, Siddharth Yogesh Kusumgar, and Sapna Siddharth Kusumgar. Yogesh Kantilal Kusumgar is one of our Promoters. He has over 25 years of experience in the field of technical textiles. Siddharth Yogesh Kusumgar is one of our Promoters and is also the Chairman and Managing Director of our Company. He has over 25 years of experience in the field of technical textiles. Sapna Siddharth Kusumgar is one of our Promoters and is also the Joint Managing Director of our Company. She has over 20 years of experience in the fields of human resources, administration, and technical textiles.

Our revenue from operations increased from ₹4,679.08 million for Fiscal 2024 to ₹6,920.03 million for Fiscal 2026, representing a CAGR of 21.61%. Our EBITDA (as defined in the following table) increased from ₹1,318.47 million for Fiscal 2024 to ₹1,878.50 million for Fiscal 2026, representing a CAGR of 19.36%. Our profit for the year increased from ₹843.96 million for Fiscal 2024 to ₹982.00 million for Fiscal 2026, representing a CAGR of 7.87%.

The following table sets forth certain key financial measures as at the dates and for the fiscal years indicated:

Notes:

(1) EBITDA is calculated as profit before tax, plus depreciation and amortization expense, plus finance costs, less other income (“**EBITDA**”).

(2) EBITDA Margin is calculated as EBITDA divided by revenue from operations (“**EBITDA Margin**”).

(3) Net Debt is calculated as the sum of current borrowings plus non-current borrowings, less (i) cash and cash equivalents and (ii) bank balances other than cash and cash equivalents (“**Net Debt**”).

(4) Return on Equity (“**Return on Equity**” or “**ROE**”) is calculated as profit for the year divided by Average Total Equity, expressed as a percentage. Average Total Equity is calculated as the sum of (i) total equity as at beginning of the Fiscal Year and (ii) total equity as at end of the Fiscal Year, divided by two (“**Average Total Equity**”).

(5) Return on Capital Employed is calculated as EBIT divided by Capital Employed as at the end of the Fiscal Year, expressed as a percentage (“**Return on Capital Employed**” or “**ROCE**”). EBIT is calculated as profit before tax plus finance costs (“**EBIT**”). Capital Employed is calculated as total assets less current liabilities as at the end of the Fiscal Year (“**Capital Employed**”).

(6) Fixed Assets Turnover Ratio is calculated as revenue from operations divided by Average Fixed Assets (“**Fixed Assets Turnover Ratio**”). Fixed Assets is property, plant and equipment (“**Fixed Assets**”). Average Fixed Assets is calculated as (Fixed Assets as at beginning of the Fiscal Year plus Fixed Assets as at end of the Fiscal Year) divided by two (“**Average Fixed Assets**”).

(7) Working Capital Cycle (in days) is calculated by dividing the number of days in the applicable Fiscal Year by the working capital ratio, which is calculated as revenue from operations divided by Average Net Working Capital (“**Working Capital Cycle**”). Net working capital is calculated as total current assets less total current liabilities (“**Net Working Capital**”). Average Net Working Capital is calculated as (Net Working Capital as at beginning of the Fiscal Year plus Net Working Capital as at the end of the Fiscal Year) divided by two (“**Average Net Working Capital**”).

(8) PAT Margin is calculated as profit for the year expressed as a percentage of total income (“**PAT Margin**”).

Revenue from Outdoor and Lifestyle Fabrics ⁽⁵⁾	1,253.15	569.00	291.65

Notes:

(1) Capacity utilisation is the aggregate capacity utilisation across all processing, dyeing, finishing, printing and coating factories as at the end of and for the relevant year ended March 31, based on the capacity utilisation for each manufacturing unit as certified by Dr. M.K. Talukdar, Chartered Engineer, pursuant to the certificate dated July 1, 2026.

(2) Revenue from Aerospace and Defence Fabrics is the revenue from contracts with customers from the Aerospace and Defence Fabrics market segment for the Fiscal Year.

(4) Revenue from Aerospace and Defence Solutions is the revenue from contracts with customers from the Aerospace and Defence Solutions market segment for the Fiscal Year.

(5) Revenue from Automotive and Industrial Fabrics is the revenue from contracts with customers from the Automotive and Industrial Fabrics market segment for the Fiscal Year.

(6) Revenue from Outdoor and Lifestyle Fabrics is the revenue from contracts with customers from the Outdoor and Lifestyle Fabrics market segment for the Fiscal Year.

Strengths

We operate in markets with high entry barriers.

Since 1970, we have developed and manufactured over 1,000 unique engineered fabrics. Market entry barriers for our products are high and include (i) technical knowledge, (ii) long product approval cycles, (iii) customized solutions, (iv) partnerships with leading brands and manufacturers, (v) customer loyalty for life-preserving features, and (vi) manufacturer size and infrastructure, each of which is described in further detail below.

The primary entry barrier in the engineered fabrics industry is technical knowledge and manufacturing know-how (source: 1Lattice Report). We manufacture specialized products using technical processes which protect our business by making it difficult for competitors to manufacture comparable products (source: 1Lattice Report). It would take a competitor considerable time to reach our level of technical knowledge and manufacturing capability (source: 1Lattice Report). Our most salient technical strengths are: (i) our light fabrics made of fine denier yarns; (ii) our ability to handle Nylon 6 and Nylon 66; (iii) our complex fabric engineering; (iv) our coating and lamination capabilities; and (v) our integrated fabric value chain. For further details, see “– Strengths - Our

technical capabilities allow us to develop and supply unique solutions for our customers” and “– Our Offerings – Manufacturing Capabilities” on pages 189 and 199, respectively.

A second entry barrier for our products is long product approval cycles. For example, the market for defence fabrics and solutions, both in India and globally, is a custom solution market in which product introduction involves working closely with the customer over a design and adoption period which can last from two to 10 years (source: *1Lattice Report*). Such long periods for product development favour us as a solution provider because we can design the specifications of the final product in such a way that it then becomes difficult for others to replicate. The products in our Industrial and Automotive Fabrics segment similarly go through lengthy qualification and approval cycles which increase the stability of this business (typically the longer the cycle, the safer the business).

A third entry barrier is our ability to manufacture customized solutions, tailored according to customer specifications. Our success in delivering such bespoke solutions to customers makes them less likely to switch to other suppliers (source: *1Lattice Report*). For further details of long-standing customer relationships see “*Our Business – Strengths – We have a diversified presence across multiple end-use segments, each of which has independent growth drivers*” on page 190.

A fourth entry barrier is the sensitive, life-preserving features required in our fabrics for certain applications. Examples include parachute fabrics and parachutes, bullet proof jackets, high altitude clothing and extreme cold weather gear. Such products must precisely meet the design specifications because any defect could potentially be fatal. Once customers for such products develop trust in us, they typically remain loyal. For example, we have been the primary supplier of fabric for parachutes for an Indian government customer.

A fifth entry barrier involves partnerships with leading brands and manufacturers who often share their intellectual property and customer relationships with us. Such relationships take time to develop and are not easily replicated. For example, we have a technical partnership with a U.S. company for the manufacture and sale of their patented and trademarked camouflage fabric. For further information on our various partnerships, see “*Our Business – Strengths – Our track record has given us access to technology and markets through partnerships*” on page 191.

A sixth entry barrier is size and infrastructure. We have unique, diverse and comprehensive machinery and equipment for the manufacture of an assortment of fabrics and solutions. Furthermore, certain customers, in particular government entities, limit who can participate in their projects or take their orders to companies with certain qualifying criteria, such as size, capabilities, and certifications (source: *1Lattice Report*). For a list of our certifications, see “*– Certifications*” on page 208.

Our technical capabilities allow us to develop and supply unique solutions for our customers.

We offer synthetic engineered fabrics and solutions that cater to the high-performance requirements of our customers. We have strategically focused on building a niche around synthetic functional and performance fabrics, addressing growing demand in the aerospace and defence, industrial and outdoor sectors. Our core expertise lies in working with polyamide and polyester filaments and polyurethane chemistry. Our most salient technical strengths are: (i) our light fabrics made of fine denier yarns; (ii) our ability to handle Nylon 6 and Nylon 66; (iii) our complex fabric engineering; (iv) our coating and lamination capabilities; and (v) our integrated fabric value chain.

- **Light fabrics made of fine denier yarns:** We have developed methods in fine denier weaving, starting with optimized warping and sizing, to manage yarn tension. Our looms use electronic warp tension control and precise beat-up mechanisms to reduce breakage and defects. We precisely control dyeing, heat setting, and coating to maintain fabric properties.
- **Handling Nylon 6 and Nylon 66:** We manage temperature and tension during dyeing and heat-setting to prevent damage and ensure even colour. Specialized finishing methods improve crease resistance and maintain fabric appearance. These processes enable consistent production of Nylon 6 and Nylon 66 fabrics.
- **Complex fabric engineering:** Developing engineered fabrics requires selecting correct yarns, weave structures, and fabric types (source: *1Lattice Report*). Our expertise in yarns, weaves, and finishes lets us deliver textiles for automotive, aerospace, and industrial applications.

- **Coating and lamination capabilities:** Using materials like polyurethane, thermoplastic polyurethane (TPU), silicones, and polytetrafluoroethylene (PTFE), we create fabrics that withstand harsh conditions while maintaining comfort. By combining polymer advances with coating and lamination, we deliver textiles meeting diverse industry demands.
- **Integrated fabric value chain:** By controlling the entire process- from yarn selection and weaving to coating, lamination, and final product fabrication - we ensure consistency, reliability, and traceability at every stage. This control gives us the ability to precisely manage quality and to optimise costs by driving efficiencies, eliminating redundancies, and leveraging scale, since we are not dependent on external suppliers or intermediaries.

Leveraging such technical strengths, we have been able to develop and supply unique solutions such as 0.75 ounces per square yard fabrics for parachutes, infrared reflective fabrics, fabrics for extreme cold weather clothing, and fabrics for multi-spectral camouflage systems to our customers. For further details, see “*Technical Capabilities*” on page 201.

We have a diversified presence across multiple end-use segments, each of which has independent growth drivers.

We manufacture products primarily for four diverse market segments: (i) Aerospace and Defence Fabrics; (ii) Aerospace and Defence Solutions; (iii) Industrial and Automotive Fabrics; and (iv) Outdoor and Lifestyle Fabrics. For further information on each of our segments, see “*Our Business – Our Offerings*” on page 195.

The following table sets forth our revenue from contracts with customers from our four primary market segments and from sales falling outside those market segments for the fiscal years indicated.

Particulars	2026		2025		2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

For details on the growth drivers for the aerospace and defence industry (including both fabrics and solutions), see “*Our Strategies-Continue to follow a “build, retain, extend” framework with respect to our aerospace and defence business*” on page 193 and “*Industry Overview – Key growth drivers and trends in the aerospace and defence industry*” on page 152.

For details on the growth drivers for industrial and automotive fabric, see “*Industry Overview – Key growth drivers and trends of industrial and automotive applications*” on page 164.

For details of the growth drivers for outdoor and lifestyle fabrics, see “*Strategies-Continue to work closely with global brands to grow our Outdoor and Lifestyle Fabrics business*” on page 193 and “*Industry Overview – Key growth drivers and trends for outdoor and lifestyle applications*” on page 173.

We have long-standing relationships with key customers

We have long-standing relationships with our key customers, which allows us to increase our wallet share. In Fiscal 2026, our top six customers accounted for ₹3,330.34 million, or 49.35%, of our revenue from contracts

with customers. The table below shows the length of our relationship with our top six customers for Fiscal 2026 and our revenue from those customers in the fiscal years indicated.

Customer	Years of relationship as at March 31, 2026	Fiscal 2026	Fiscal 2025	Fiscal 2024
		Revenue (₹ in million)		
Customer 1*	2	751.27	2,225.88	-
Customer 2*	9	722.01	679.74	427.08
Decathlon*	7	699.77	296.02	180.73
Customer 4*	9	609.28	376.94	97.32
Customer 5*	7	280.04	-	-
Customer 6*	8	267.97	-	182.84

Note:

* Customers 1, 2, 4, 5 and 6 have not provided consent to disclose their names in this Prospectus. We have received consent from Decathlon Sports India Private Limited (“**Decathlon**”), a wholly-owned subsidiary of Decathlon S.A., a French sportswear and athletic equipment retailer, to name Decathlon as a customer in this Prospectus. We have certain agreements with Decathlon, but do not contract directly with Decathlon for production of our products. We contract with fabricators who supply finished products to Decathlon subsidiaries. These Decathlon fabricators, in aggregate, were one of our top six customers in Fiscals 2026, 2025 and 2024.

Our track record has given us access to technology and markets through partnerships.

We have partnerships which increase the value of our business by creating moats around business opportunities. These relationships also help ensure a continuous stream of opportunities. For example, we were invited by an Indian government customer to develop a new fabric for 90-litre rucksacks and after several years of design and testing our product was awarded the entire fabric order. See “- Case Studies – Case Study: 90-Litre Rucksack” on page 207. A further example is an airborne solutions company headquartered in the United States, where our relationship has evolved into a partnership where we manufacture their products and supply them to an Indian government customer under a licence agreement. See “- Case Studies - Case Study: Customer A – a global leader in parachute systems” on page 206. The table below highlights certain of our partnerships that have contributed to our success:

Description of the company	Type of Partnership	Description	Whether exclusive rights are granted to our Company in India (Yes/No)	Length of relationship to-date
Airborne solutions company headquartered in the United States	Technical/Sales and marketing	Technology and market access for parachute systems	Yes	Since November 2024

Notes:

(1) We have not entered into any formal written agreement with the counterparty for this partnership.

(2) Under the terms of the agreement for this partnership, neither party shall offer for the same business in competition without discussion with the other party.

Save as noted in the table above, we have entered into agreements with all of the above third parties. In the event of any breach of confidentiality clauses in respect of trade secrets, patents or other intellectual property rights of these third parties by us, we could be liable to these third parties for damages. For more details, see “*Risk Factors – 48. We might unintentionally infringe upon the intellectual property rights of others, any misappropriation of which could harm our competitive position*” on page 57.

Through licensing and co-development arrangements, we gain access to proprietary technologies and specialized know-how that accelerate our product development cycles and allow us to participate in the programs of our partners which are often global in scope and highly sophisticated. These partnerships enhance our credibility with both government and private sector customers, opening doors to new tenders and programs that may otherwise be inaccessible to other players. Furthermore, by embedding our fabrics and solutions into the partner’s design architecture, we effectively lock in long-term demand, thus ensuring business moats and making our products difficult for others to replicate. Our ecosystem of partnerships also acts as an early-alert system for new requirements, helping us to respond faster than our global competitors.

We have experienced and visionary Promoters supported by a professional management team. Our culture promotes innovation and quality.

Yogesh Kantilal Kusumgar is one of our Promoters. He has over 25 years of experience in the field of technical textiles. Siddharth Yogesh Kusumgar is one of our Promoters and is also the Chairman and Managing Director of our Company. He has over 25 years of experience in the field of technical textiles. Sapna Siddharth Kusumgar is our Promoter and is also the Joint Managing Director of our Company. She has over 20 years of experience in the fields of human resources, administration, and technical textiles. Ankur Kothari is an Executive Director and Chief Executive Officer of our Company. He has over 15 years of experience in consulting and operating roles. Anil Kumar Gupta is the President-Operations of our Company. He has over 20 years of experience in operations. Munendra Singh is our Senior General Manager. He has over 15 years of experience in product development and technology. For further details, see “*Our Promoters and Promoter Group*” on page 260 and “*Our Management*” on page 238.

Our culture promotes innovation and quality. We inculcate in our employees the importance of continuous improvement, relentless innovation and maintaining quality. We recruit technical staff from universities and companies in India, who bring in innovative ideas and develop unique products using the latest technologies, such as coated fabrics, high-performance laminates, and specialized weaving techniques tailored for defence, industrial,

and outdoor applications. We invest in new technologies to develop products for new applications. Products we have developed that demonstrate our capability to innovate include extreme cold weather systems, parachutes, rainwear, high-end industrial products, and military gear. We have well-established systems in place through which our management controls and monitors the fabric manufacturing process to ensure the high quality of our fabrics.

Strategies

Continue to follow a “build, retain, extend” framework with respect to our aerospace and defence business.

We will continue to grow our aerospace and defence business by manufacturing customized solutions for specific customers (“build”), retaining these relationships through ongoing tailored offerings (“retain”), and extending our expertise to develop similar products for a broader customer base (“extend”). This strategy benefits from growing domestic and international markets.

The global market for engineered fabric for aerospace and defence grew from US\$3.4 billion in 2019 to US\$5.4 billion in 2025, reflecting a CAGR of 8.0%. It is further projected to reach US\$8.7 billion in 2030, growing at a CAGR of 10.0% between 2025-2030 (*source: 1Lattice Report*), while the Indian market for aerospace and defence-related engineered fabrics grew from ₹22.8 billion (US\$0.3 billion) in Fiscal 2020 to ₹50.0 billion (US\$0.6 billion) in Fiscal 2025, reflecting a CAGR of 17.0%, and is projected to further grow to ₹124.4 billion (US\$1.5 billion) in Fiscal 2030, reflecting a CAGR of 20.0% (*source: 1Lattice Report*). The global market for aerospace and defence engineered fabric solutions grew from US\$4,250.0 million in 2019 to US\$4,650.0 million in 2024, reflecting a CAGR of 1.8%, and is further projected to reach US\$5,250.0 million in 2029, growing at a CAGR of 2.5% between 2025-2029 (*source: 1Lattice Report*).

Growth in the market for aerospace and defence-related fabrics in India is being driven primarily by Indian government requirements to procure defence-related products domestically, while global growth is driven by increased spending by key players, such as European countries whose increased defence spending is a response to geopolitical factors (*source: 1Lattice Report*). Global economic growth and diversification of supply chains out of China (the so-called “China + 1” phenomenon) are also driving increases in addressable market size (*source: 1Lattice Report*). To support the export of defence-related fabrics, we have built sales teams and appointed representatives for the Europe, Middle East and North American markets.

We are one of the major players in military parachute fabrics outside the United States and China (*source: 1Lattice Report*), and we have the potential to capture larger market share in the coming years. The Indian market for engineered fabrics for aerospace, of which military parachutes made up 52.0% of the market in Fiscal 2025, is expected to grow at a CAGR of 25.5% from Fiscal 2025 to Fiscal 2030, and the global market, of which military parachutes accounted for 60.0% of the market in calendar year 2024, is expected to grow at a CAGR of 11.8% from 2025 to 2030 (*source: 1Lattice Report*). In our aerospace business, we are exploring the feasibility of expanding into paragliders, sails, hot air and helium balloons, aerostats and other similar products.

In addition to fabrics, we intend to sell our own aerospace and defence systems in India and globally. In India, we have executed and have existing orders for parachutes and camouflage systems. We are also exploring new high value-added products. Globally, we are scouting for partners to distribute our parachutes, decoys, shelters, and camouflage nets, and we will continue to leverage existing relationships to continue to supply fabrics to key partners.

Continue to work closely with global brands to grow our Outdoor and Lifestyle Fabrics business.

Our Outdoor and Lifestyle Fabrics business caters to activewear, luggage and backpacks. The global engineered fabric market for outdoor and lifestyle applications grew from US\$13.9 billion in 2019 to US\$20.0 billion in 2025, reflecting a CAGR of 7.5%, and is further projected to reach US\$36.0 billion in 2030, growing at a CAGR of 12.5% between 2025 and 2030 (*source: 1Lattice Report*). India has historically relied on imports from China and Taiwan for activewear fabrics, but brands are now shifting supply chains to India, driven by local demand and the “China +1” strategy (*source: 1Lattice Report*). Similarly, in hardlines (luggage and backpacks), the demand for durable, lightweight, and coated materials is increasing as brands look for reliable Indian suppliers. Our expertise in high-performance materials positions us as a key player in this transition. We have become an approved supplier for leading global brands, including sportswear retailer Decathlon, supplying materials to designated fabricators, while negotiating pricing with brands. This model enhances our ability to negotiate better pricing. With limited domestic competition in engineered fabrics (*source: 1Lattice Report*), we are well-placed to both capture market

share and to increase the wallet share from existing customers. Additionally, India benefits from demand from Bangladesh, Vietnam, Sri Lanka, and countries in Africa, which lack the capacity to manufacture engineered fabrics for the outdoor market (source: *1Lattice Report*), which further strengthens our position.

Steadily grow our Industrial and Automotive Fabrics business by increasing wallet share and providing customized solutions.

We plan to achieve steady growth in our Industrial and Automotive Fabrics businesses by leveraging the lengthy qualification and approval cycles typical of these products (source: *1Lattice Report*), which contribute to business stability and customer stickiness. Most of our SKUs in this segment are customized for each customer or each industry. Our approach to margin stability in this business is to prioritise customers who exhibit low cost-sensitivity. In Fiscal 2026, ₹1,091.61 million of our revenue, or 66.21% of our total revenue of ₹1,648.60 million from this segment, was tied, directly or indirectly, to exports of industrial and automotive fabrics. We have distinct competitive advantages compared to our western competitors in terms of cost. For a description of the risks related to our reliance on exports, including the risks flowing from the recent imposition of tariffs by the United States government, see “*Risk Factors – 12. Our exports accounted for 39.99% of revenue from contracts with customers for Fiscal 2026. Any changes in government regulations or policies affecting international trade may have an adverse effect on our business, results of operations and financial condition*” on page 32.

In our tapes business line, we are third and fourth-tier suppliers to automotive original equipment manufacturers (OEM) in the automotive industry supply chain. Also in our tapes business line, we work with large Indian and global players in the shoe, leather and electric insulation industries. We are expanding our tapes offerings to the medical industry by developing custom solutions for medical tapes for use by local customers. In our mechanical rubber goods business line, we are (i) selling hoses to Indian companies and are looking to expand globally; (ii) a major player in heddle belts and spindle tapes (source: *1Lattice Report*); and (iii) identifying other niches and developing solutions for impressions/other mechanical rubber goods. In the custom industrial solutions business line, we are designing custom solutions for various customers.

Inflatables is a global market dominated by a few companies and is ripe for disruption (source: *1Lattice Report*). Customers are looking for alternate sources due to the quasi-monopoly of the few existing suppliers (source: *1Lattice Report*). We have the know-how to manufacture base fabrics, and we are building coating and lamination capabilities to meet customer specifications. In our inflatables business line, which largely serves the aerospace industry, our base fabrics business will continue to supply various coaters and laminators globally.

In our coated/laminated fabrics business line, we have an opportunity to take market share from existing European and American incumbents through competitive pricing, despite long development and approval cycles.

Continue to focus on manufacturing products and solutions with high gross margins and high entry barriers to continue to drive profitable growth.

Many of our products and solutions have high gross margins, including aerospace and defence fabrics, custom industrial fabrics, parachute solutions, and most products using Nylon 6 and Nylon 66. These high gross margin products are reflected in our high EBITDA Margins. For Fiscals 2026, 2025 and 2024, we had the highest EBITDA Margin among our peers listed on Indian stock exchanges (source: *1Lattice Report*). A higher EBITDA Margin reflects strong operational efficiency, cost control, and pricing power. The table below sets forth our EBITDA Margin, PAT Margin and profit for the year for the fiscal years indicated.

Particulars	Year ended March 31,		
	2026	2025	2024
	₹ in million, except as noted	₹ in million, except as noted	₹ in million, except as noted
EBITDA Margin (%)	27.15%	24.18%	28.18%
Profit for the year	982.00	1,119.88	843.96
PAT Margin (%)	13.80%	14.17%	17.78%

For details on the high entry barriers in the markets in which we operate, see “- *Strengths - We operate in markets with high entry barriers*” on page 188.

We intend to continue to manufacture products and solutions with high gross margins and high entry barriers to keep driving profitable growth.

Continue to invest in our capabilities and people to support growth, research and development, and efficiency improvement.

We will continue to invest in our capabilities and people to support growth, research and development, and efficiency improvement. We will continue to recruit new industry and product-related experts and to promote our culture of continuous improvement and relentless innovation. This new expertise will combine with our existing teams to enhance research and development efforts leading to new products, novel product-specific technologies and increased conversion rates. For further details see “– *Strengths – Our technical capabilities allow us to develop and supply unique solutions for our customers*” on page 189 and “– *Strengths – We have experienced and visionary Promoters supported by a professional management team. Our culture promotes innovation and quality*” on page 192.

We outsource certain processes, including weaving, knitting, finishing and fabrication, wherever there is limited differentiation. We will continue to use such outsourcing where feasible and economical to improve the efficiency of our own assets. We will continue to update our machines to the best technology available and to automate wherever possible. We intend to reduce costs by closely monitoring our various machines’ overall equipment effectiveness (OEE), which is a manufacturing metric that measures how well equipment is utilized compared to its full potential, considering three factors: availability (time the equipment is running); performance (speed compared to its maximum); and quality (percentage of good products). By multiplying these factors, overall equipment effectiveness provides a percentage score that identifies the amount of time manufacturing equipment is truly productive, helping to increase profitability by pinpointing inefficiencies and reducing costs. We also avail of various central government and state government schemes that provide incentives and subsidies to textile manufacturers including support for interest payments on loans, capital, and power tariff support. See “*Business – Government Incentives*” on page 204.

OUR OFFERINGS

The following table sets forth our revenue from contracts with customers from our (i) Aerospace and Defence Fabrics, (ii) Aerospace and Defence Solutions, (iii) Industrial and Automotive Fabrics and (iv) Outdoor and Lifestyle Fabrics market segments, and from sales falling outside those market segments, for the fiscal years indicated.

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

Aerospace and Defence Fabrics

Fabrics used in aerospace and defence applications must meet exact and often technically difficult specifications (source: *1Lattice Report*). We work closely with end-users to understand their needs and to create fabrics optimized for durability, comfort and performance. We are development and manufacturing partners of aerospace and defence fabrics for an Indian government customer. Since April 1, 2023, we have exported our aerospace and defence fabrics to countries in Asia, Europe and the Americas.

Military fabrics require exacting and demanding specifications for hazardous conditions optimised for durability, comfort and performance (source: *1Lattice Report*). As longstanding partners to an Indian government customer in the national defence space, we run programs for the development of improved products as well as indigenisation.

We specialize in providing high-performance aeronautical fabrics that meet rigorous quality and design requirements for various applications. We understand the importance of reliability and safety in the aeronautical industry. Therefore, we prioritize delivering high-quality fabrics that meet and exceed industry standards. We aim to provide the best-in-class aeronautical fabrics that are engineered to perform in even the most extreme conditions. Our fabrics range from 25 grams per square metre (“GSM”) to 500 GSM. These fabrics are made from Polyamide 66 High Tenacity yarns, combined with specialty finishes and coatings for various critical applications. Key applications for our aeronautical fabrics include parachutes, paragliders, hot air balloons, sails, kites, and aerostats.

We supply fabrics for the following aerospace and defence applications:

Parachute Fabrics: According to Lattice, we are recognised as a major manufacturer within India of high-performance technical fabrics for parachutes (source: *1Lattice Report*). We provide parachute fabric for (i) cargo drop parachutes, (ii) tactical assault parachute systems, (iii) high altitude parachute penetration systems, (iv) drogue parachutes, (v) recovery parachute systems, and (vi) space module recovery parachutes (entry descent and landing systems), among others. We engineer our parachute fabrics for reliability and precision by using synthetic fibres that deliver optimal strength-to-weight ratios, high tear resistance, and precise air permeability control. Our manufacturing setup, experience and understanding of the properties required for parachute systems enables us to produce fabrics using fine denier yarns and complex constructions. We impart special finishes on our fabrics, thus ensuring our materials align with customer specifications. We rigorously test our materials to meet the most stringent military and aerospace standards.

Tactical Clothing and Specialty Gear Fabrics: We manufacture high-performance fabric solutions for tactical clothing and speciality gear, which we engineer to withstand the demanding conditions faced by defence, law enforcement, and security forces. The characteristics of our materials include durability, flexibility, stealth, abrasion resistance, flame retardancy, water repellence, and moisture management. We craft our fabrics for extreme environments, and we design them to provide comfort and protection without compromising performance and mobility. We focus on engineering the fabric to perform reliably under the most extreme conditions. End use examples of our fabrics are: (i) rain wear; (ii) cold weather clothing; (iii) modular lightweight load-carrying equipment (known as MOLLE, it is a military and tactical gear system that allows users to customize their load by attaching pouches, holsters, and other accessories to a webbing grid); (iv) ruck sacks; (v) kit bags; and (vi) sleeping bags.

Stealth Systems: We have developed, and are continuing to develop, engineered fabric solutions to reduce detectability across multiple spectrums. Our high-performance materials incorporate radar-scattering and infrared reflectance properties, enabling stealth for soldiers and equipment. Through the integration of customized yarns, innovative coatings and laminations, our fabrics offer light weight yet robust solutions. Some end use examples of our stealth systems fabrics are: (i) two-dimensional camouflage nets; (ii) three-dimensional camouflage nets; (iii) ghillie (camouflage) suits; and (iv) decoys.

Aerospace and Defence Solutions

Using the expertise gained from fabric manufacturing, we have selectively expanded into manufacturing end-user solutions for domestic and export customers in the aerospace and defence markets. While our technical fabrics serve as high-performance materials used in various applications, our solutions are engineered systems or products that incorporate these fabrics along with other components, technologies, and functionalities to meet specific operational needs. We divide these end-user solutions into three business lines: (i) aerial systems; (ii) stealth systems; and (iii) rapid deployment systems, each of which is described further below. In addition, as a fourth business line within our Aerospace and Defence Solutions segment, we enter into maintenance and repair service agreements with certain of our clients.

Aerial Systems: We specialise in manufacturing a wide range of high-performance parachute systems tailored for military applications. Our aerial systems offerings include:

- **Tactical Assault Parachute Systems:** Our man drop parachutes include free fall parachute systems and round canopy troop parachute systems. Our free fall high altitude penetrator parachute systems support solo and tandem jumps up to 30,000 feet above mean sea level (MSL) with versatile ram-air canopies. These systems are designed for special operations missions. Our round canopy troop parachute systems deliver airborne soldiers and individual equipment safely from an aircraft in flight for vertical assaults;

- **Cargo Drop Parachutes:** Our cargo drop parachutes include supply drop parachutes and heavy cargo drop parachute systems. Our supply drop parachutes are used for dropping cargo loads from heights of 750 feet to 15,000 feet at wind speeds ranging from 120 knots to 150 knots. Our heavy cargo drop parachute systems are designed to handle much larger weights and are often used to deliver supplies, equipment, or food to remote or inaccessible locations;
- **Drogue Parachutes:** Our drogue parachutes, also known as drag chutes or brake parachutes, are used to slow down the speed of fighter aircraft during landing;
- **Recovery Parachute Systems:** We design and manufacture drone and aircraft recovery parachutes as per custom requirements; and
- **Entry Descent and Landing Systems:** We are authorised partners for supplying fabrics and parachute systems for the re-entry module of the Gaganyaan project, India's first manned mission to space.

All of our parachute systems are designed in consultation with an Indian government customer and global OEMs.

Stealth Systems: Our product range for stealth systems includes:

- **2D Multispectral Camouflage Nets:** Providing protection against visual, thermal, and radar detection;
- **3D Multispectral Camouflage Nets:** Enhancing concealment by integrating three-dimensional elements for superior blending with surroundings;
- **Ghillie Suits:** Engineered for individual camouflage, allowing personnel to operate undetected in diverse terrains;
- **Infrared Reflective Uniforms:** Minimizing infrared signatures to counter night-vision surveillance; and
- **Invisibility Cloaks:** Utilizing advanced materials and manufacturing technologies to protect soldiers from visual, NIR (Near Infrared) and TIR (Thermal Infrared) detection.

Our stealth systems leverage innovative textile structures, coatings, and other unique fabric manufacturing techniques to provide reliable and adaptable solutions for modern defence operations.

Rapid Deployment Systems: We supply high-performance rapid deployment systems designed for swift and efficient setup in emergency and combat scenarios. Our rapid deployment solutions include:

- **Decoys:** Inflatable decoy systems that mimic full scale military equipment visually and on enemy sensors; and
- **Inflatable Shelters:** Lightweight, portable, and quick to deploy for emergency operations.

Maintenance and Repair Service Agreements: We collaborate with industry partners through contracts to provide comprehensive maintenance, repair, and support. Our manufacturing capability is AS9100D certified which meets the stringent conditions of global aerospace OEMs. We provide:

- regular inspection and testing: verifying material integrity and performance;
- preventive maintenance: reducing downtime and enhancing operational readiness; and
- specialized repairs: addressing wear and tear to extend equipment life cycles.

By combining technical expertise with strong partnerships, we ensure that critical defence systems remain mission-ready at all times while also building relationships that lead to business opportunities.

Industrial and Automotive Fabrics

We divide our Industrial and Automotive Fabrics segment into four business lines: (i) fabrics for tapes; (ii) custom fabric solutions; (iii) mechanical rubber goods (MRG) fabrics; and (iv) inflatable fabrics, each of which is described further below.

Fabrics for Tapes: Our fabrics play a key role in the manufacturing of tapes, including wire harness tapes used in automotive applications, tapes for the leather and shoe industries, and tapes used for insulation.

With the increasing complexity of modern vehicles, wiring systems have become more advanced, requiring high-performance materials that ensure durability, safety, and noise reduction. Automotive wire harness tapes serve multiple functions: (i) securing and protecting cables; (ii) providing heat insulation where necessary; and (iii) dampening noise to enhance the overall driving experience. As vehicles integrate more electronics and connected technologies, the demand for reliable cable management solutions has grown accordingly. We offer a wide range of fabrics for this application, each of which is designed to meet specific functional needs. Based on the precise requirements of different areas within a vehicle, we select from a variety of polymers, fabric constructions, and finishing chemistries to create solutions that offer the right balance of flexibility, strength, and thermal resistance. Beyond functionality, compliance with industry standards is a key factor in our product development. We design our fabrics to meet global automotive specifications related to thermal resistance, abrasiveness, flame retardancy, and mechanical durability. We collaborate closely with automotive manufacturers and adhesive tape producers to develop specialized solutions tailored to evolving vehicle needs related to reliability and performance, including those for high-temperature engine compartments, sensitive electrical systems, and areas requiring enhanced flexibility.

We also manufacture tapes used in the shoe/leather and insulation industries.

Custom Fabric Solutions: We manufacture high-performance fabrics, including convertible tops, sunroof and moonroof blinds, headliners, and automotive traction systems, as well as fabrics for railway gangways and fabrics for medical applications. These fabrics play a crucial role beyond aesthetics, contributing to strength, structural integrity, weather protection, and passenger comfort. A well-designed fabric can withstand prolonged exposure to external elements without compromising performance. These fabrics must endure extreme environmental conditions, including intense UV radiation, temperature fluctuations, moisture exposure, heavy rain, and mechanical stress. We develop materials that remain lightweight while maintaining durability, waterproofing, and long-term colour stability through advanced textile engineering, leveraging specialized coating and lamination technologies to enhance resilience and longevity. These technologies, combined with precise fabric engineering—including the selection of raw materials, such as meta and para aramids, solution-dyed acrylics, optimized surface textures, and tailored colour options—allow us to develop solutions that meet specific performance requirements. We design our fabrics to satisfy technical requirements while ensuring reliability, longevity, and, in the case of automotive applications, an enhanced driving experience.

Mechanical Rubber Goods (MRG) Fabrics: We manufacture high-performance reinforcement fabrics for a wide range of mechanical rubber goods (MRG) applications, including belts, hoses, diaphragms, rubber sheets, impression fabrics, and liners. These fabrics enhance the mechanical strength, flexibility, and durability of rubber-based components used in industrial, automotive, and specialized applications. Mechanical rubber goods applications require fabrics that can withstand high mechanical stress, extreme temperatures, and exposure to oils, chemicals, and abrasion. We achieve these qualities through careful selection of raw materials, such as nylon, polyester, para-aramid, and meta-aramid, providing tailored solutions for high-temperature resistance, chemical stability, and mechanical reinforcement. To optimize rubber adhesion and mechanical performance, we utilize a combination of weaving technologies, including specialized weave structures, open meshes, and leno constructions, ensuring superior rubber penetration and mechanical anchoring. Additionally, our adhesion-improving coating chemistries enhance bonding with rubber compounds - a crucial factor for long-term durability and reliability in demanding environments. We design our fabrics for integration into calendaring and coating processes using precise material selection, engineered fabric constructions, and advanced surface treatments. Our reinforcement fabrics deliver dimensional stability, abrasion resistance, tear and tensile strength, enhanced adhesion, and long-term performance for high-pressure hoses, chemically resistant diaphragms, and durable rubber linings, thus making them an integral part of high-performance rubber-based systems.

Inflatable Fabrics: We manufacture high-performance fabrics for a variety of specialized inflatable industrial applications including inflatable rafts, aircraft evacuation slides, rescue boats, and other air-holding structures. We engineer these fabrics for durability, flexibility, and precise functionality in demanding environments. To

meet these diverse application requirements, we utilize a broad range of fibres, including nylon, polyester, polybutylene terephthalate (a specific type of polyester with unique mechanical and chemical properties), and mechanical stretch yarns. We develop our fabrics with tailored weave structures, such as tightly woven constructions for strength and airtightness and flexible designs that provide controlled permeability or mechanical stretch. A key aspect of our customized inflatable fabrics is advanced finishing and surface treatments, which enhance fabric performance for specific applications. These include water-repellent and sealable coatings for moisture and airtightness and laminations for improved durability. We also offer flame-retardant coatings for compliance with safety standards, antistatic finishes to prevent electrostatic build-up, abrasion-resistant treatments for extended wear, and UV stabilization for prolonged outdoor exposure. Our expertise in textile engineering, polymer chemistry, and surface treatments allow us to deliver customized inflatable fabric solutions. Our fabrics are designed for long-term reliability which contributes to optimal performance.

Outdoor and Lifestyle Fabrics

Our Outdoor and Lifestyle Fabrics segment caters to the global market for synthetic performance wear, such as “athleisure”, winter wear, rainwear, fashion jackets and personal gear, such as backpacks, luggage, sleeping bags, and tents. In the performance apparel business line, major brands nominate us to serve as the fabric supplier to specific garment manufacturers. As global supply chains increasingly seek to diversify beyond China (the so-called “China +1” strategy), this shift presents a significant growth opportunity for us to establish ourselves as a reliable and strategic alternative.

We engineer our fabric offerings in this segment for performance garment applications. We design these fabrics to withstand extreme environments, while providing comfort, durability, and aesthetic appeal. We specialize in midstream techniques, such as weaving of filaments, dyeing, printing, and finishing, and our capability to work with fine denier filament yarns and develop fabrics with complex constructions enables the creation of lightweight functional fabrics that meet the needs of activewear and outdoor apparel brands.

We optimize our fabrics for specific functionalities, such as breathability, moisture management, thermal insulation, stretch and abrasion resistance. Our array of finishes, including high-performance coatings and laminations that offer water resistance, wind proofing, and UV protection, result in fabrics that are ideal for outdoor applications. For example, our rainwear fabrics provide high levels of water proofing while maintain breathability. Similarly, our athleisure wear fabrics are developed using abrasion resistant and stretchable yarn for added comfort and performance. Our fabrics for luggage and backpacks are engineered to perform under stress while maintaining strength, abrasion resistance and aesthetic flexibility.

Our outdoor fabrics are used in clothing and equipment for outdoor enthusiasts. Such fabrics must be versatile and extremely safe. Special finishes for polyester and polyamide fabrics makes our outdoor products safer and suitable for extreme climates, and these features have led to increased use of our outdoor fabrics for tents and sleeping bags. All our outdoor fabrics are available in different colours and weave as per the latest market trends. From plain rip-stops to complex dobby designs, we can design outdoor fabrics based on customer requirements. Key applications by our customers for our outdoor fabrics include:

- outdoor clothing, including athleisure, winter jackets, rainwear apparel, fashion jackets, track suits, and workwear;
- high altitude clothing; and
- personal gear, including backpacks, luggage, sleeping bags, tents, and mattresses.

MANUFACTURING CAPABILITIES

We operate out of six manufacturing facilities, all of which are in Gujarat, India, and one fabrication unit in Uttar Pradesh, India. Our vertically integrated capabilities extend across preparatory, weaving, dyeing, printing, finishing, coating, lamination and fabrication. Our integrated setup allows us greater control over quality and delivery.

Our capabilities and capacity are summarised in the following tables:

Capability	Description
Preparatory and Weaving	- Yarn texturizing machines and twisting machines - Preparatory: direct warping, sectional warping, sizing machines and beaming machines - Loom shed: water-jet looms, rapier looms, air-jet looms and narrow woven needle looms
Processing	- Specialised machines for different types of fabrics and finishes - Scouring/heat-setting - Dyeing/finishing - Printing machine - Ultrasonic and heat slitting machines - Calendering
Coating and Lamination	- Coating - Lamination
Fabrication	- Cut and sew - Assembly - Laser fabric cutting machines

Notes:

- (1) Installed capacity represents the installed capacity as of the last date of the relevant Fiscal. The installed capacity is based on various assumptions and estimates, including standard capacity calculation practice in the industry in which we operate. Assumptions and estimates taken into account for measuring installed capacities include 355 working days in a year.
- (2) Actual production represents the quantum of production in the relevant Fiscal.
- (3) Capacity utilization has been calculated on the basis of actual production in the relevant Fiscal divided by the installed capacity as at the end of such Fiscal.
- (4) Fabric processing, dyeing, finishing and printing is a distinct set of operations from coating. Coating is carried out only when specifically required by the customer. The Vapi factory does not have any installed capacity, actual production and capacity utilisation in respect of coating operations.
- (5) The ECFPL factory is designed and equipped specifically for coating operations. Although machinery installed at the ECFPL factory can be utilised for fabric finishing when required, the ECFPL factory remains primarily a dedicated fabric coating facility with coating as its core and intended activity.
- (6) These two line items, "Karanj" and "Karanj (Coating)", collectively disclose the installed capacity, actual production and capacity utilisation for our manufacturing facility located at Block No. 172, Old Block No. 157, Village: Kothwa,

Taluka Mangrol, Dist. Surat - 394110, Gujarat, India. As fabric processing and coating are two distinct operations, this clearly indicates the installed capacity, actual production and capacity utilisation for our fabric processing, dyeing and finishing facility (which are set out under the line item “Karanj”) and our coating facility (which are set out under the line item “Karanj (Coating)”). Although machinery installed at the coating facility can be utilised for fabric finishing when required, the coating facility remains primarily a dedicated fabric coating facility with coating as its core and intended activity.

- (7) Began operations in April 2025.
- (8) The decline in capacity utilization at the Vapi facility from Fiscal 2024 to Fiscal 2026 is due to the relocation of a portion of fabric production from Vapi to the processing unit at Karanj.
- (9) In Fiscal 2025, following the commencement of operations at the new facility at Karanj, part production was allocated between ECFPL (Coating) and Karanj (Coating), which resulted in the decline in capacity utilization from Fiscal 2024 to Fiscal 2026.
- (10) The decline in capacity utilization at Kosamba Weaving 1 from Fiscal 2024 to Fiscal 2026 was due to commencement of production at the new weaving unit at Kosamba Weaving 3 in April 2025, following which production was allocated between the units.

*Engineered Coated Fabric Pvt. Ltd.

Our final output capacity (comprising the aggregate installed capacity of our processing, dyeing, finishing, printing and coating factories) increased from 48.86 million metres as at March 31, 2024 to 127.80 million metres as at March 31, 2025 due to our commencement of operations at an additional manufacturing facility located at Block No. 172, Old Block No. 157, Village: Kothwa, Taluka Mangrol, Dist. Surat - 394110, Gujarat, India on April 1, 2024, for which installed capacity, actual production and capacity utilisation have been disclosed across two line items, being “Karanj” and “Karanj (Coating)”, in the table above. We use this manufacturing facility for scouring, dyeing, finishing, processing and coating nylon and polyester fabrics. We do not include the capacity of our weaving factories in our calculation of final output capacity because weaving produces an intermediate product which we do not sell.

Below is a description of our weaving facilities, our finishing plant, and our coating and lamination processes.

Weaving Facilities: Our weaving facilities include water-jet, air-jet and rapier looms. We weave fabrics from 15D to 1000D yarns, where “D” stands for denier, a unit that measures the thickness of the yarn. A lower denier (e.g., 15D) indicates a finer, lighter fabric often used for ultra-lightweight applications, while a higher denier (e.g., 1000D) represents a thicker, more durable fabric suitable for heavy-duty use. We primarily work with Nylon 6, Nylon 66, polyester, aramids and other synthetic yarns and blends.

Finishing Plant: Our finishing plant is equipped with facilities for scouring, bleaching, dyeing, printing, heat setting and calendaring. We provide various finishes including water-resistant, durable water-resistant, flame-retardant, anti-fungal, anti-microbial, silicone, anti-static, anti-odour, and moisture management, among others.

Coating and Lamination: Coating and laminating are an essential part of highly functional and technical textile developments. Our coating and lamination unit can work with several polymers, including urethanes, silicones, vinyl, acrylics, and thermoplastic polyurethane (TPU), among others.

TECHNICAL CAPABILITIES

Our most salient technical strengths are: (i) our light fabrics made of fine denier yarns; (ii) our ability to handle Nylon 6 and Nylon 66; (iii) our complex fabric engineering; (iv) our coating and lamination capabilities; and (v) our integrated fabric value chain. Each of these is described further below.

- **Light fabrics made of fine denier yarns:** Fabric fineness is measured by grams per square metre (“GSM”) and yarn denier (source: 1Lattice Report). GSM indicates fabric weight, while denier indicates yarn thickness (source: 1Lattice Report). Reducing yarn denier creates lighter fabrics without losing strength (source: 1Lattice Report). Fine denier fabrics have a strong strength-to-weight ratio and are used in parachutes, inflatables, medical textiles, and composites where light weight and durability matter (source: 1Lattice Report). Yarn breakage and tension issues make production of these fabrics complex (source: 1Lattice Report). We have developed expertise in fine denier weaving, starting with optimized warping and sizing to manage yarn tension effectively. Our looms use electronic warp tension control and precise beat-up mechanisms to reduce breakage and defects. We also maintain strict control over dyeing, heat setting, and coating to preserve fabric properties.

- **Handling Nylon 6 and Nylon 66:** Nylon is a strong synthetic polymer; Nylon 6 and Nylon 66 are the most common types (source: *1Lattice Report*). They have tensile strength, abrasion resistance, and elasticity, making them suitable for automotive textiles, airbags, aerospace, industrial uses, sportswear, outdoor gear, and medical fabrics (source: *1Lattice Report*). Nylons are difficult to process due to heat sensitivity and the risk of degradation during dyeing and finishing (source: *1Lattice Report*). Their moisture absorption affects fabric performance, and uneven dye uptake causes inconsistent colour (source: *1Lattice Report*). Nylon is also prone to permanent creasing (source: *1Lattice Report*). We have gained the knowledge and capabilities to tackle these challenges. By managing temperature and tension during dyeing and heat-setting, we prevent damage and ensure even colour. Our specialized finishing methods enhance crease resistance and preserve fabric appearance. These measures allow us to consistently deliver high-performance Nylon 6 and Nylon 66 fabrics.
- **Complex fabric engineering:** Developing engineered fabrics requires selecting correct yarns, weave structures, and finish types (source: *1Lattice Report*). Yarn choice affects strength, durability, texture, and finish (source: *1Lattice Report*). We use synthetic fibres like nylon, polyester, and aramids, each for specific applications. Weave structures, such as satin, twill, or ripstop influence durability, flexibility, and tear resistance (source: *1Lattice Report*). Ripstop with high-tenacity yarns creates lightweight, tear-resistant fabrics used in parachutes and protective gear (source: *1Lattice Report*). Specialized finishes like water-repellent, flame-retardant, or UV-blocking coatings add functions (source: *1Lattice Report*). Quality depends on precise control from weaving to finishing (source: *1Lattice Report*). Our expertise in combining yarns, complex weaves, and finishes lets us deliver durable, high-performance textiles for automotive, aerospace, and industrial applications.
- **Coating and lamination capabilities:** Coatings and laminations add specific properties to engineered fabrics, enhancing performance and durability (source: *1Lattice Report*). We offer coating and lamination methods tailored for high-performance needs. Techniques include knife coating, hot-melt, and extrusion coatings that add resistance and function (source: *1Lattice Report*). Thermal lamination bonds fabric layers without reducing performance (source: *1Lattice Report*). We provide fabric-to-fabric and fabric-to-film laminations with multi-layer structures that improve water resistance, insulation, and protection. Using materials like polyurethane, thermoplastic polyurethane (TPU), silicones, and polytetrafluoroethylene (PTFE), we create fabrics that withstand harsh conditions while maintaining comfort. By integrating polymer advances with coating and lamination, we deliver textiles that meet diverse industry demands with reliability and high performance.
- **Integrated fabric value chain:** By controlling the entire process - from yarn selection and weaving to coating, lamination, and final product fabrication - we ensure consistency, reliability, and traceability at every stage. This control gives us the ability to precisely manage quality and to optimise costs by driving efficiencies, eliminating redundancies, and leveraging scale, since we are not dependent on external suppliers or intermediaries.

OUTSOURCING

We strategically leverage India's textile and industrial ecosystem to complement our in-house manufacturing strengths. By outsourcing select processes, such as weaving, knitting, finishing and fabrication, to trusted third parties, we debottleneck operations, expand capacity, and enhance our ability to respond swiftly to dynamic customer requirements. This flexible model enhances agility, allowing us to scale output without large capital commitments, while maintaining stringent quality standards through close oversight and technical collaboration. Outsourcing also provides access to specialized skills, enabling us to accelerate time-to-market, optimize costs, and seize emerging opportunities across our wide product range.

The table below sets forth our job work and labour charges (outsourcing costs) and such costs as a percentage of our revenue from the sale of products for the fiscal years indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
	₹ in million, except percentages		
Job work and labour charges [A]	397.74	362.57	186.91
Job work and labour charges as a percentage of sale of products	6.39%	4.72%	4.11%

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
	₹ in million, except percentages		
[B = A/C] (%)			
Sale of products [C]	6,225.01	7,685.98	4,545.65

MANUFACTURING PROCESS

Our manufacturing operations are designed to deliver high-performance technical fabrics with consistent quality, efficiency, and scalability. The process begins with the selection of raw materials, primarily high-grade polyamides, polyesters, polyurethane resins and films, among others. These are subjected to rigorous quality checks before entering production.

We deploy state-of-the-art preparatory, weaving, processing, dyeing and printing technologies across our plants, supported by modern and customized equipment, and in-house chemical formulation capabilities. Processes are digitally monitored to ensure adherence to exacting specifications. The role of each of these technologies in the manufacturing process is described further as follows.

- *Preparatory:* Involves processes, such as warping, sizing, and drawing-in, which prepare the yarn for weaving by aligning and strengthening it to ensure uniform tension and fabric quality.
- *Weaving:* The stage where yarns are interlaced using automated looms to produce fabric structures with precise weave patterns tailored to technical specifications.
- *Processing:* Includes washing, scouring, bleaching and other treatments that stabilize and clean the woven fabric, enhancing its dimensional stability and readiness for further finishing.
- *Dyeing:* Applies colour to the fabric using controlled processes, including Jigger and high-temperature-high-pressure dyeing, based on application requirements, while maintaining shade accuracy, colorfastness, and compatibility with subsequent coatings or finishes.
- *Finishing:* This process involves treating dyed fabrics through chemical and mechanical methods to achieve the required handle, dimensional stability, surface properties, and compatibility with subsequent laminations or coatings
- *Printing technologies:* This process involves applying colour or patterns onto fabrics using rotary printing techniques to meet design and functional requirements.

Our facilities integrate coating, lamination, and fabrication capabilities, allowing us to offer value-added, application-ready products. The role of each of these capabilities in the manufacturing process is described further as follows.

- *Coating:* Involves applying specialized chemical layers to the fabric surface to impart properties, such as water resistance and flame retardancy.
- *Lamination:* Combines multiple layers of fabric or films using adhesives or heat to create composite materials with enhanced strength, barrier properties, or insulation.
- *Fabrication:* Refers to the cutting, stitching, and assembly of coated or laminated fabrics into finished products such as aerial delivery systems, stealth systems and decoys, among others.

Quality control is embedded at every stage, with testing protocols aligned to customer and industry standards. This includes mechanical, thermal, and chemical performance validation in our in-house laboratory.

Sustainability and cost efficiency are equally central – our plants are optimized for energy and water usage, with continuous improvement programs driving waste reduction and lean operations. Together, these capabilities enable us to manufacture world-class engineered fabrics, meeting diverse customer needs with speed, reliability, and innovation.

GOVERNMENT INCENTIVES

We have availed certain government incentives under central and state-level schemes that support textile manufacturing and industrial development. We received payments in Fiscal 2026, Fiscal 2025 and Fiscal 2024 under the following schemes, which have supported our operations by reducing financing and utility costs:

- Amended Technology Upgradation Fund Scheme (“**ATUFS**”), which is a credit-linked capital investment subsidy program launched by the Indian Ministry of Textiles;
- Government of Gujarat Textile Policy 2012 (“**GOGTP 2012**”) (operative from September 5, 2012 to September 4, 2017);
- Government of Gujarat’s Scheme for Assistance to Strengthen Specific Sectors in the Textile Value Chain – 2019 (“**SSTVC 2019**”) (operative from September 4, 2018 to December 31, 2023), which includes the sub-scheme for Assistance for Technology Acquisition and Upgradation under Strengthening Specific Sectors in the Textile Value Chain – 2019 (operative from September 4, 2018 to December 31, 2023);
- Government of Gujarat State Goods and Services Tax (“**SGST**”) reimbursement under Gujarat’s Industrial Policy 2020 (operative from July 25, 2020 to July 24, 2030); and
- Government of Gujarat Electric Duty Exemption Scheme (available for five years from the date of commercial production for new and expansion units, subject to eligibility conditions).

We received ₹165.29 million, ₹21.90 million and ₹52.34 million under these schemes in Fiscals 2026, 2025 and 2024, respectively, as shown in the table below:

Particulars	For the year ended March 31,

CUSTOMERS

Our customers are primarily other businesses who use our fabrics in their own manufacturing operations. In recent years, we have built on our expertise and industry knowledge to expand into manufacturing our own finished products for aerospace and military applications, such as parachute systems, stealth solutions, and rapid deployment systems, which we market and sell to governments including the Indian government.

We have a high customer concentration. For details, see “*Risk Factors – 2. Our top customer and our top 10 customers contributed 11.13% and 59.52%, respectively, of our revenue from contracts with customers for Fiscal 2026. Any decrease in sales to such customers or the loss of such customers could have an adverse effect on our business, results of operations, financial condition and cash flows*” on page 24.

We primarily sell our products to customers in India. The table below sets forth our revenue from contracts with customers by country in Fiscals 2026, 2025 and 2024.

On July 31, 2025, the United States announced tariffs of approximately 25% on most Indian goods, including engineered fabrics (source: 1Lattice Report). Effective August 27, 2025, this new tariff resulted in the total additional duty on Indian products being 50% (source: 1Lattice Report). Subsequently, in early February 2026, India and the United States announced an interim trade arrangement that reportedly reduced tariffs on several Indian goods (source: 1Lattice Report). However, on February 20, 2026, the U.S. Supreme Court invalidated the underlying IEEPA-based tariff regime pursuant to which such reductions had been implemented (source: 1Lattice Report). Following this decision, the United States introduced a new tariff framework under Section 122 of the U.S. Trade Act of 1974, imposing a uniform 10% surcharge on imports from most countries effective February 24, 2026 (source: 1Lattice Report). Accordingly, the earlier tariff rates announced under the interim arrangement are no longer operative, and the effective tariff burden on Indian exports is currently determined by the applicable product-specific MFN duty together with any additional tariffs imposed under prevailing U.S. trade measures (source: 1Lattice Report). After international negotiations and changes in United States policy, India is currently subject to U.S. tariffs that vary based on the product, from approximately 20% to 40% (source: 1Lattice Report). Prior to the introduction of these increased tariffs, our products were subject to U.S. tariffs of approximately 14%. The increase in U.S. tariffs had an adverse effect on our revenue from customers in the United States, which decreased by 7.50% to ₹628.03 million for Fiscal 2026 from ₹678.94 million for Fiscal 2025. However, the adverse effect of the increase in U.S. tariffs was more than offset by one of our customers in the United States instructing us to deliver more products to it outside the United States. Our revenue from this customer increased by 27.26% to ₹479.71 million (₹130.36 million in the United States and ₹349.35 million outside the United States) for Fiscal 2026 from ₹376.96 million (₹274.15 million in the United States and ₹102.81 million outside the United States) for Fiscal 2025. For more details, see “Risk Factors – 12. Our exports accounted for 39.99% of revenue from contracts with customers for Fiscal 2026. Any changes in government regulations or policies affecting international trade may have an adverse effect on our business, results of operations and financial condition” on page 32.

On June 2, 2026, the Office of the United States Trade Representative (the “USTR”) issued the notice of determinations and proposed responsive actions in the Section 301 investigations of “Acts, Policies, and Practices of Various Economies Related to the Failure to Impose and Effectively Enforce a Prohibition on the Importation of Goods Produced with Forced Labor,” covering 60 economies, including India (source: 1Lattice Report). The USTR determined that the identified acts, policies, and practices are unreasonable and burden or restrict U.S. commerce, and are thus actionable under Section 301(b) of the U.S. Tariff Act of 1930, for all 60 economies subject to the investigations (source: 1Lattice Report). For the responsive action, the USTR is proposing to impose an additional tariff ad valorem tariff on imports from all economies subject to the investigations at rates of 10-12.5% (12.5% rate for India), but with several significant product and trade agreement exceptions (source: 1Lattice Report). Under the USTR's proposed mechanism, a specific volume of Indian apparel and textiles may be allowed to enter the United States at a reduced rate if equal to the volume of U.S. textile inputs and cotton imported by India (source: 1Lattice Report). The proposed action does not include complete details about how or when the proposed additional tariffs would be implemented (source: 1Lattice Report). The USTR is accepting comments on the proposed tariffs through July 6, 2026, and will hold a public hearing on July 7, 2026 (source: 1Lattice Report).

Case Studies

Case Study: Customer A – a global leader in parachute systems

Customer A is a global leader in parachute systems, serving military and aerospace sectors. Known for advanced engineering and reliability, it specializes in aerial delivery, personnel, and cargo parachute solutions.

Phase 1: Introduction

We connected with Customer A to discuss a business opportunity. Due to the sensitive nature of parachutes, new vendors were not considered without thorough trials. We maintained contact, and their team visited our units to discuss potential opportunities.

Phase 2: COVID-19 and Supply Chain Disruptions (2019–2020)

Global supply chain disruptions prompted Customer A to explore alternative suppliers. Having maintained our relationship, we became their primary alternative.

Phase 3: Execution

We received our first bulk orders in 2021. Since then, fabric supplies have grown steadily, supported by competitive quality and pricing. As our capacities increased, we also grew our share of Customer A's purchases.

Phase 4: Business Evolution

Under the Government of India's Make in India initiative, Customer A's Indian government customer asked Customer A to localize production of a certain high altitude parachute system. Customer A proposed us as their preferred Indian partner, transferring technology and enabling the successful execution of a major order.

Phase 5: Strategic Relationship

We have expanded manufacturing to include other parachute systems in partnership with Customer A, and we are bidding for certain other of Customer A's tenders. Customer A retains intellectual property, while our strong relationship creates a natural moat around this business.

Case Study: Customer B - a global leader in adhesive tapes for automotive wire harnesses

Customer B is a global leader in adhesive tapes for automotive wire harnesses. Our partnership began in 2018. At the time, Customer B sourced fabric from China, but trade tariffs prompted exploration of alternative suppliers.

Phase 1: Entry and Qualification

We developed a fabric and completed a rigorous two-year qualification process. Approval led to approximately 1 million metres supplied in Fiscal 2021, scaling to 7 million metres in Fiscal 2024.

Phase 2: Nylon 66 – High-Criticality Applications

Nylon 66 fabric was qualified for Customer B's most critical products. Annual volume reached one million metres in Fiscal 2025 following validation.

Phase 3: Supply Chain Resilience – Nylon 6 Substitution

COVID-19 disruptions and rising Nylon 66 prices prompted co-development of a Nylon 6 alternative. After joint testing and approval, we received orders to supply 2-million-metres of fabric to the customer annually.

Phase 4: Future-Ready – EV Applications

In 2023, we developed a specialized polyester yarn which may be used for EV wire harnesses.

Strategic Insights

- Due to multiple qualification criteria for product approvals, entry of new suppliers in the automotive industry value chain is difficult.

- Once qualified, volume growth is significant and long-lasting.
- Innovation and material substitution anchor long-term partnerships.

Case Study: Decathlon - a leader in affordable, high-performance sportswear

Decathlon, a leader in affordable, high-performance sportswear, is expanding its sourcing from India to meet growing domestic and international demand. Our partnership began in 2020 with a focus on innovative, competitive fabrics aligned with Decathlon's China+1 strategy.

Phase 1: Entry and Onboarding

We engaged with Decathlon in 2020 on compliance, sustainability, and product development. We successfully developed and qualified Belharra, a 116 GSM twill, in 2021, with initial volumes of 120,000 metre annually.

Phase 2: Volume Consolidation and Domestic Growth

From 2021 to 2023, consistent performance and quality earned Decathlon's trust, driving increased volumes and enabling scale efficiencies.

Phase 3: Export Expansion

In 2024, we became a global partner. We delivered 543,957 metres of Belharra across domestic and international markets in Fiscal 2024.

Phase 4: Localization and Future Growth

Decathlon began localizing yarn previously sourced from China. We trialled and commercialized fabrics made from India-developed yarn. With more than 129 stores already operational in India as at mid-2024, Decathlon plans to double its India retail footprint over the next three to five years. India is central to Decathlon's consumption and sourcing strategy, supported by a potential India-EU free trade agreement ("FTA") and its near-sourcing model.

Strategic Insights

- Long-term collaboration built on trust and joint development.
- Domestic success enabled global adoption.
- Localized raw material sourcing strengthens cost and scalability.
- India's expansion and FTA prospects position us for strong growth.
- Sustainability and near-sourcing reinforce alignment.

Case Study: 90-Litre Rucksack

Our development of a 90-litre (volume) rucksack for an Indian government customer demonstrates our solution-oriented approach focused on customer needs.

Phase 1: Identifying the Problem

The existing 90-litre rucksack was made of heavy natural fibre fabric and had poor waterproofing and low durability. We developed a new improved fabric for application.

Phase 2: Initiating Development

We began development and conducted extensive sample testing.

Phase 3: Product Shortlisting and Field Testing

One of our fabrics was shortlisted by the Indian government customer for further development. Prototypes underwent trials, and in 2017, the product received approval.

Phase 4: Standardization and Approval

Fabric specifications were finalized and approved in 2017.

Phase 5: Tender Execution and Ongoing Supply

The tender was floated in September 2017 for 794,674 units, and we fulfilled the entire fabric order between October 2019 and November 2022.

CERTIFICATIONS

We have the following certifications.

- ISO 9001:2015 certification, which demonstrates our commitment to quality management systems and continuous improvement.
- ISO 14001:2015 certification, which demonstrates our commitment to effective environmental management systems and minimizing our environmental impact.
- Oeko-Tex Standard 100 certification, which is granted to companies whose textiles meet high safety and environmental standards.
- IATF 16949 certification, which reflects our compliance with international automotive quality standards.
- GRS (Global Recycled Standard) certification, which shows our adherence to certain sustainable practices and the use of recycled materials.
- AS9100D certification, which highlights our adherence to quality management standards in the aerospace industry.

Our Company is also a member of the Parachute Industry Association, which demonstrates our involvement and adherence to standards within the parachute industry.

RESEARCH AND DEVELOPMENT

Our research and development (“**R&D**”) function is a core capability that drives our success and leadership in engineered fabrics. We combine expertise in polymer chemistry, weaving, coating, and finishing to create high-performance solutions for defence, aerospace, automotive, industrial, and lifestyle applications. Our dedicated R&D facilities, which are located in our manufacturing facility at Block No. 172, Old Block No. 157, Village: Kothwa, Taluka Mangrol, Dist. Surat - 394110, Gujarat, India, house pilot-scale equipment and testing infrastructure that enable rapid prototyping, application simulation, and robust quality validation. As at March 31, 2026, our R&D function comprised 21 employees, including several scientists and engineers with expertise in the areas of high-tenacity yarn engineering, multi-layer fabric design, and functional coatings, among others. These capabilities have resulted in several product innovations, including parachute and inflatable fabrics, advanced multi-spectral camouflage systems and durable lifestyle and activewear textiles.

We collaborate closely with certain customers, government research establishments, and global partners, ensuring our innovations are market-relevant and adoption is accelerated. Looking forward, our R&D roadmap focuses on defence modernization, lightweight fabrics, composites, and high functional activewear, reinforcing our role as a dependable innovation partner and supporting long-term growth.

The table below sets forth examples of the new types of products (i.e., a new type of product and not a variation of an existing product) we launched and earned revenue from in the periods indicated:

Particulars	Type of new product
Fiscal 2026	Nil
Fiscal 2025	Combat Free Fall (CFF) parachute systems
Fiscal 2024	Nil

Fiscal 2023	Infrared reflective fabric and fabric for extreme cold weather clothing

For details on our revenue from contracts with customers for each of the above listed new type of products, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Significant Factors Affecting our Results of Operations and Financial Condition – Our Ability to Upgrade our Existing Products and Introduce New Products*” on page 338.

QUALITY CONTROL

Our quality control and assurance systems are intended to ensure that every product we manufacture meets the highest standards of performance, reliability, and safety. As a pioneer in our industry (*source: 1Lattice Report*), we have established comprehensive protocols that span the entire value chain – from raw material inspection to in-process checks and final product validation. Our testing infrastructure covers a wide range of parameters. Physical attributes, such as tensile strength, tear strength, abrasion resistance, bursting strength, thickness, and weight are routinely monitored. Chemical characteristics including washing performance, water absorbency, dimensional stability, spectrophotometry, and infrared reflectance are systematically evaluated. In addition, we measure and improve performance parameters, such as air porosity, sealing adhesion, flame retardancy, water repellence, waterproofness, cold cracking, and weathering performance. These systems not only safeguard consistency and compliance with customer specifications but also drive continuous innovation, enabling us to introduce advanced fabrics and solutions that are difficult for competitors to replicate. Our commitment to stringent quality assurance has been a cornerstone of customer trust and a key differentiator in our long-standing relationships across industries.

As a recognition of our commitment to stringent quality assurance, we have received the following certifications, issued under our former name Kusumgar Corporates Private Limited:

- ISO 9001:2015 certification, which demonstrates our commitment to quality management systems and continuous improvement.
- IATF 16949:2016 certification, which reflects our compliance with international automotive quality standards.
- AS9100D certification, which highlights our adherence to quality management standards in the aerospace industry.

MARKETING AND SALES

Our business development, sales, and marketing function is designed to build long-term customer relationships, identify emerging opportunities, and expand our presence across domestic and global markets. We operate through a customer-centric approach, working closely with clients from the design stage to understand their evolving requirements and co-develop solutions tailored to their specifications. Our sales team engages with a diversified customer base across defence, aerospace, automotive, industrial, and lifestyle segments, ensuring both depth in key accounts and breadth across new markets. Business development efforts are supported by our technical expertise, which enables us to anticipate market needs and offer differentiated products that are difficult to replicate. Marketing initiatives focus on highlighting our innovation capabilities, reliability, and proven track record, reinforced by participation in industry exhibitions, global trade shows, and direct engagement with key stakeholders. We believe this integrated approach not only helps us secure repeat orders from existing customers but also positions us to capture new opportunities in adjacent markets. Our ability to combine technical credibility with customer relationships is a core strength that supports sustained growth.

We generally do not have long-term agreements for the sale of our products and instead we rely on purchase orders issued by our customers from time to time that set out the commercial terms and delivery conditions for the products to be procured from us. For more details, see “*Risk Factors – 25. We generally do not have long-term agreements for the sale of our products. If our customers choose not to source their requirements from us, it could have a material adverse effect on our business, financial condition, results of operations and cash flows*” on page 42.

COMPETITION

The Indian engineered fabrics industry comprises a mix of diversified industrial groups and specialised technical textile manufacturers. Key companies operating in this space include Garware Technical Fibres Limited, SRF Limited, and Arvind Limited, each with distinct areas of focus across the engineered fabrics value chain (*source: 1Lattice Report*). These companies have established manufacturing capabilities, access to advanced machinery, and long-standing customer relationships. Competition in the industry is influenced by factors, such as product quality, pricing, innovation, and the ability to meet customer-specific requirements (*source: 1Lattice Report*). Indian manufacturers also face competition from global companies, such as DuPont de Nemours, Inc. (U.S.), Freudenberg Group (Germany), TenCate Fabrics (Netherlands), and Milliken and Company (U.S.), which supply engineered fabrics for high-performance applications across defence, aerospace, and industrial sectors (*source: 1Lattice Report*).

The industry presents several entry barriers, including regulatory approvals, specialised certifications, and long customer acquisition cycles, particularly in defence and aerospace applications (*source: 1Lattice Report*). Companies with established credentials and technical capabilities are better positioned to participate in procurement processes and long-term contracts.

As demand grows for sustainable, multifunctional, and smart textiles, competition is expected to evolve. Companies that invest in research and development and maintain consistent quality standards are likely to remain competitive (*source: 1Lattice Report*).

INTELLECTUAL PROPERTY

We rely on a combination of process knowledge and confidentiality agreements to establish and protect our intellectual property. In the course of our business, we rely on various intellectual property rights, including trademarks, designs, design rights, copyrights, confidential information, know-how and similar rights. All of this constitutes protected confidential and proprietary information. All of our intellectual property is legally held by us and all formalities in this regard have been complied with. Our business primarily focuses on the manufacturing of high-quality engineered fabrics and related end-products, which frequently relies on customer-specific product designs. We require all employees to adhere to procedures and clauses related to confidentiality, restraint, data protection, intellectual property, and ownership rights. To protect against potential intellectual property infringement, we ensure that adequate internal safeguards are in place with our vendors.

As of the date of this Prospectus, we do not have any registered intellectual property in the name of our Company.

We have filed one application in respect of our intellectual property. Pursuant to a deed of assignment dated September 13, 2025, Kusumgar Holdings LLP, a member of our Promoter Group, transferred and assigned all its rights, title and interest in the trademark “KUSUMGAR” and marks consisting and comprising “KUSUMGAR” as their leading and essential feature, including three trademarks registered in the name of Kusumgar Holdings LLP with the Trade Marks Registry in India under classes 18, 22, 24, 25, 35 and 42, along with the copyrights in the artistic works subsisting therein, to our Company. Subsequently, our Company filed an application for a change in the name of the proprietor to the name of our Company. As at the date of this Prospectus, the outcome of this application remains pending. Save for this application, we have not filed any applications in respect of our intellectual property, whether approved, denied or pending.

Further, we have been granted a limited, non-transferable, non-exclusive, revocable, royalty free license to use the following trademarks of Invista Textiles (U.K.) Limited on certain products: CORDURA; CORDURA TrueLock; and CORDURA Classic.

For more information on our intellectual property rights, see “*Government and Other Approvals – E. Intellectual property rights*” on page 384.

INFORMATION TECHNOLOGY

Information technology (“IT”) has emerged as a key business enabler for us and plays an important role in improving our overall productivity, client service and risk management. We believe that we have stable, secure and robust IT infrastructure and applications supporting our business and strategic initiatives. Our IT function provides the digital backbone for our multi-plant, multi-vertical operations. Our Enterprise Resource Planning (“ERP”) system integrates manufacturing, supply chain, finance, and customer management, enabling real-time

visibility and data-driven decisions. Our manufacturing plants are digitized with automation in production, quality, and inventory monitoring, driving efficiency and reliability. Robust cybersecurity, disaster recovery, and access controls safeguard business continuity. We also deploy analytics, such as a business intelligence application from a major software developer to optimize costs, improve forecasting, and enhance customer responsiveness. Our IT roadmap emphasizes ERP upgrades, expanded automation, and advanced analytics, ensuring resilience and scalability. These investments position us as a digitally enabled, future-ready organization.

INSURANCE

We are generally required to maintain insurance for our manufacturing facilities. Our operations are subject to risks inherent in our industry, such as risks of work accidents, explosions, terrorist attacks, riots, fire, earthquakes, floods and other force majeure events. These hazards may cause injury and loss of life, damage and destruction of property, equipment and environmental damage. We maintain insurance policies to cover various risks related to our operations and we believe that our insurance coverage is on comparable terms to that generally carried by companies engaged in similar businesses in India. Such insurance policies include inventory, plant and machinery, fixtures and fittings, boilers and pressure plants, fire and special perils, and burglary insurance.

For a table setting forth our insurance claims receivables, insurance claims receivables written off, insurance expense and insurance expense as a percentage of revenue from operations for Fiscals 2026, 2025 and 2024, see “Risk Factors – 44. Our insurance coverage may not be adequate to protect us against all losses, which could have an adverse effect on our business, financial condition, results of operations and cash flows” on page 54.

Since April 1, 2023, we have not incurred any material uninsured loss or a loss that exceeded the limits of our insurance policies.

SAFETY, HEALTH AND ENVIRONMENT

We are subject to extensive, evolving and increasingly stringent occupational safety, health and environmental laws and regulations governing our operations. Our safety, health and environmental practices and policies are continuously updated to adapt to the safety, health and environmental practices, rules and regulations of the different jurisdictions we operate in. We have implemented work safety measures and standards to help ensure healthy and safe working conditions for all the employees, contractors, visitors and clients at project sites. This includes deploying a health safety and environment assurance team to enforce and uphold optimal safety protocols.

WORKFORCE

Our workforce comprises employees and contract workers. In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract workers for performance of certain of our operations. The following table sets forth the numbers of our employees, categorized by function, and contract workers, as at March 31, 2026:

Workforce	Number
Employees:	
Accounts	25
Human Resources	32
Information Technology	8
Management	5
Marketing	27
Strategy and Management Information System	3
Operations	684
Research and Development	21
Supply Chain Management	75
Quality Assurance and Testing	170
Company Secretarial	1
Number of employees [A]	1,051
Number of contract workers [B]	1,026
Total workforce [C = A+B]	2,077

We believe our workforce is one of the critical pillars of our business. We emphasise holistic employee growth and welfare as part of building a sustainable and inclusive organisation. We invest in skill development, leadership programs, and structured career growth opportunities to enhance engagement and retention. Our goal is to drive employee performance and productivity by empowering them with relevant training. We have implemented various ongoing programs designed to enhance employees' skills and knowledge, including workshops, seminars, and training sessions to support their professional growth. We also hold seminars to enhance awareness of company policies and standard operating procedures. Additionally, we periodically offer workshops focused on soft skills, behavioural training, business etiquette, and other career development topics.

We provide a safe, healthy and thriving workplace with regular trainings on safety practices, health camps, and awareness programs. We implement several employee welfare activities to maintain a supportive work environment including medical insurance, scholarships for children, additional financial support through loans, subsidised meals, and transportation facilities. Recreational and cultural activities are encouraged to foster teamwork and a positive work environment. Our focus on welfare and development contributes to high employee commitment, enabling us to deliver long-term organisational performance.

For a table setting forth the attrition and the attrition rate of our employees during the last three fiscal years, please see “Risk Factors – 38. Material increases in employee benefits expense as a percentage of our revenue from operations could have an adverse effect on our business, financial condition, results of operations and cash flows” on page 50.

PROPERTIES

We cannot assure you that we could not have achieved more favourable terms had such transactions not been entered into with related parties” on page 45.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

We identify and address the material topics most relevant to our operations under the three pillars of Environment, Social, and Governance (ESG). These topics are derived from a comprehensive materiality assessment that prioritises key areas based on their impact on our operations and the influence they have on stakeholders.

Environment: We demonstrate our commitment to environmental sustainability through a strategic focus on key areas of environmental impact. We regularly assess our operational activities to ensure compliance with regulatory standards while actively contributing to global environmental objectives.

Social: Our commitment to social responsibility is reflected in our focus on safeguarding product safety, quality, and the health and safety of our workforce. By prioritising product safety and quality management and occupational health and safety, we ensure that our operations not only meet but exceed industry standards. Through rigorous testing, continuous monitoring, and comprehensive employee training, we strive for an empowered and valued workforce, supported by continuous training and development.

Governance: We uphold the principles of strong corporate governance and ethical business practices as cornerstones of our operations. Our approach to corporate governance and business ethics ensures transparency, accountability, and integrity in all our actions. By adhering to strict policies and implementing robust training, we mitigate risks associated with fraud, corruption, and conflicts of interest.

CORPORATE AND SOCIAL RESPONSIBILITY

We seek to be a socially responsible corporation, and we believe that CSR is an integral part of our operations. We have constituted a CSR committee of our Board of Directors and have adopted and implemented a CSR policy pursuant to which we carry out our CSR activities with certain focus areas, including eradication of hunger, poverty and malnutrition, promotion of education and gender equality.

KEY REGULATIONS AND POLICIES IN INDIA

The following is a brief overview of certain Indian laws, regulations, rules and guidelines which are relevant to our Company's business. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by regulatory bodies that are available in the public domain. The overview set out below is not exhaustive and is only intended to provide general information, and is neither designed, nor intended, to be a substitute for professional legal advice. For details of government approvals obtained by our Company in compliance with these regulations, see "Government and Other Approvals" beginning on page 382. The statements below are based on the current provisions of Indian law, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

Industry Specific Laws

The Textiles Committee Act, 1963 and the rules framed thereunder

The Textile Committee Act, 1963 ("Act") was enacted in 1963 to provide for the establishment of a committee for ensuring the quality of textiles and textile machinery and for matters connected therewith. The Act prescribes for establishment of a textile committee ("Textile Committee") with the general objective of ensuring a standard quality of textiles both for internal marketing and export purposes as well as standardisation of the type of textile machinery used for manufacture. In addition to the general objective as mentioned above, the functions of the Textile Committee *inter alia* include, to undertake, assist and encourage, scientific, technological and economic research in textile industry and textile machinery, promotion of export of textile and textile machinery, establishing or adopting or recognising standard specifications for textile and packing materials used in the packing of textiles or textile machinery for purpose of export and internal consumption and affix suitable marks on such standardized varieties of textiles and packing materials, specify the type of quality control or inspection which will be applied to textile or textile machinery, provide for training in the techniques of quality control to be applied to textiles or textile machinery, provide for inspection and examination of textiles, textile machinery and packing material used in the packing of textile and textile machinery, establishing laboratories and text houses for testing of textiles and data collection and such other matters related to the textile industry. The Textiles Committee Rules, 1965 govern the constitution and functioning of the Textile Committee, while the Textiles Committee (Cess) Rules, 1975 prescribe the manner of assessment, collection, and refund of cess levied on manufacturers of textiles and textile machinery.

Textile Development and Regulation Order, 2001 ("Textile Order")

The Central Government, in exercise of the powers conferred upon it under section 5 of the Essential Commodities Act, 1955 and in supersession of the Textile (Development and Regulation) Order, 1993, brought in force the Textile Order. Under the Textile Order every manufacturer of textiles, textile machinery and every person dealing with textiles is required to maintain books of accounts, data and other records relating to the business in the matter of production, processing, import, export, supply, distribution, sale, consumption etc. and shall furnish such returns or information in respect to the business as and when required by the textile commissioner. The Textile Order confers upon the textile commissioner powers to issue directions to any manufacturer regarding the specification or class of textiles which shall not be manufactured, dyes and chemicals which shall not be used in the manufacture of textile, maximum and minimum quantity of textiles which shall be manufactured, maximum ex-factory or wholesale or retail price at which textiles shall be sold, markings to be made on textiles by manufacturers and the time and manner of such markings and direct the officer in charge of any laboratory to carry out or cause to be carried out such tests relating to any textiles as may be specified by the textile commissioner.

Export Promotion Capital Goods Scheme ("EPCG Scheme")

The EPCG Scheme aims to facilitate import of capital goods for producing quality goods and services to enhance India's export competitiveness. The EPCG Scheme covers manufacturer exporters with or without supporting manufacturer(s), merchant exporters tied to supporting manufacturer(s) and service providers. The EPCG Scheme also covers a service provide who is designated/ certified as a Common Service Provider ("CSP") by the Directorate General of Foreign Trade.

The EPCG Scheme allows import of capital goods for pre-production, production, and post-production at zero customs duty. However, in respect of EPCG licenses with a duty saved of ₹ 1,000.00 million or more, the same export obligation shall be required to be fulfilled over a period of 12 years. Further, exporters availing the scheme

must export goods equivalent to six times of duties, taxes and cess saved on the capital goods procured under the authorization, to be fulfilled within six years of reckoned from the date of issue of authorization.

National Textile Policy, 2000

The National Textile Policy, 2000 (“NTP”) aims at facilitating the growth of the textile industry to attain and sustain a pre-eminent global standing in the manufacture and export of clothing. The objective is sought to be achieved by liberalising controls and regulations so that the different segments of the textile industry are enabled to perform in a greater competitive environment. In furtherance of its objectives, the strategic thrust of the NTP is on technological upgradation, enhancement of productivity, quality consciousness, product diversification, maximising employment opportunities, and so on. The NTP also envisages certain sector specific initiatives, including the sector of raw materials, spinning, weaving, powerloom, handloom, jute and textile. The Policy also lays down certain delivery mechanisms for the implementation of the policy and to enable the Indian textile industry to realise its full potential and achieve global excellence.

Salient objectives of the NTP are as follows –

- Equip the textile industry to withstand pressures of import penetration and maintain a dominant presence in the domestic market;
- Develop a strong multi-fiber base with thrust on product up-gradation and diversification;
- Sustain and strengthen the traditional knowledge, skills and capabilities of our weavers and craftspeople;
- Enrich human resource skills and capabilities, with special emphasis on those working in the decentralized sectors of the textile industry; and for this purpose to revitalize the institutional structure;
- Make Information Technology (“IT”), an integral part of the entire value chain of textile;
- Production and thereby facilitate the textile industry to achieve international standards in terms of quality, design and marketing; and
- Involve and ensure the active co-operation and partnership of the state governments, financial institutions, entrepreneurs, farmers and non-governmental organizations in the fulfilment of these objectives, vide the NTP, the government has conveyed its commitment towards providing a conducive environment to enable the Indian textile industry to realise its full potential, achieve global excellence, and fulfil its obligation to different sections of society.

National Textile Policy, 2024

The National Textile Policy, 2024 aims at strengthening the textile sector with a range of financial incentives and promoting employment. It builds on earlier frameworks with a focus on technical textiles, man-made fibre fabrics, and various manufacturing processes like weaving and dyeing. It introduces incentives such as capital subsidies, interest subvention, subsidized electricity, and wage support. The policy also offers support to self help groups (“SHGs”), promotes green and sustainable manufacturing, and facilitates technology acquisition and quality certification, aiming to boost India’s competitiveness and employment in the textile sector. It complements and updates prior policies to address modern industry challenges.

Gujarat Textile Policy, 2024

The Gujarat Textile Policy, 2024, issued by the Government of Gujarat, seeks to strengthen the state’s position as India’s textile hub by promoting integrated growth across the entire textile value chain. The Gujarat Textile Policy, 2024, effective from 1 October 2024 to 30 September 2029, aims to attract investments, boost employment, and support the development of garments, apparel, technical textiles, and related sectors. It provides an array of fiscal incentives, including capital and interest subsidies, power tariff and payroll assistance, and support for quality certification, technology acquisition, and sustainable practices. It lays down emphasis on fostering women’s participation, supporting MSMEs and youth, and encouraging green growth. Distinct benefits are available for labour-intensive units and projects investing in worker welfare, with eligibility criteria focused on investment thresholds and employment generation. The Gujarat Textile Policy, 2024, also outlines streamlined procedures for registration and incentive claims, and provides for flexibility in offering customised packages for mega-projects in the larger interest of the state.

Bureau of Indian Standards Act, 2016 (“BIS Act”) and Bureau of Indian Standards Rules, 2018

The BIS Act provides for the establishment of a bureau for the standardization, marking and quality certification of goods. Functions of the bureau include, *inter alia*, (a) recognizing as an Indian standard, any standard

established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) conducting such inspection and taking such samples of any material or substance as may be necessary to see whether any article or process in relation to which the standard mark has been used conforms to the Indian standard or whether the standard mark has been improperly used in relation to any article or process with or without a license. A person may apply to the bureau for grant of license or certificate of conformity, if the articles, goods, process, system or service confirms to an Indian standard. The Bureau of Indian Standards Rules, 2018, lay down *inter alia* the procedure for the establishment and review of Indian standards, adoption of standards as Indian standards and for publishing of Indian standards.

Boilers Act, 1923

The Boilers Act, 1923 regulates the installation, operation, and maintenance of boilers in India to ensure safety and prevent accidents. It mandates registration, periodic inspections, and certification of boilers by the Chief Inspector of Boilers. Only licensed operators can handle boilers, and safety standards must be strictly followed. The Act empowers state governments to enforce compliance and penalize violations, including fines or shutdowns for unregistered or unsafe boilers.

Electricity Act, 2003

The Electricity Act, 2003 (“**Electricity Act**”) was enacted to regulate the generation, transmission, distribution, trading and use of electricity by authorising a person to carry on the above acts either by availing a license or by seeking an exemption under the Electricity Act. Additionally, the Electricity Act states no person other than Central Transmission Utility or State Transmission Utility, or a licensee shall transmit or use electricity at a rate exceeding 250 watts and 100 volts in any street or place which is a factory within the meaning of the Factories Act, 1948 or a mine within the meaning of the Mines Act, 1952 or any place in which 100 or more persons are ordinarily likely to be assembled. An exception to the said rule is given by stating that the applicant shall apply by giving not less than 7 days’ notice in writing of his intention to the Electrical Inspector and to the District Magistrate or the Commissioner of Police as the case may be, containing the particulars of electrical installation and plant, if any, the nature and purpose of supply of such electricity. The Electricity Act also lays down the requirement of mandatory use of meters to regulate the use of electricity and authorises the Commission so formed under the Electricity Act, to determine the tariff for such usage. The Electricity Act also authorises the State Government to grant subsidy to the consumers or class of consumers it deems fit from paying the standard tariff required to be paid.

The Petroleum Act, 1934 (Petroleum Act) and Petroleum Rules, 2002

The Petroleum Act was passed to consolidate and amend the laws relating to the import, transport, storage, production, refining and blending of petroleum. Under the Petroleum Rules, 2002, any person intending to store furnace oil/petroleum, of such class and in such quantities, otherwise than under a license shall take the approval of the Chief Controller before commencing storage.

Sale of Goods Act, 1930 (the “Sale of Goods Act”)

The Sale of Goods Act governs contracts relating to sale of goods in India. The contracts for sale of goods are subject to the general principles of the law relating to contracts. A contract of sale may be an absolute one or based on certain conditions. The Sale of Goods Act contains provisions in relation to the essential aspects of such contracts, including the transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract and the conditions and warranties implied under a contract for sale of goods.

Production linked incentive scheme (“PLI Scheme”)

The aim of the PLI Scheme is to boost domestic manufacturing and cut down on import bills. The PLI Scheme provides companies with incentives on incremental sales from products manufactured in domestic units. Along with inviting foreign companies to set up shops in India, the PLI Scheme also aims to encourage local companies to set up or expand existing manufacturing units. The PLI Scheme was initially rolled out for mobile and allied equipment, pharmaceutical ingredients, and medical devices manufacturing. The government has thereafter expanded the ambit of the PLI Scheme to include as many as ten more sectors, such as textiles.

The Government of India approved the PLI Scheme for the textile sector in September 2021, with a total outlay of ₹10,683 crore over a five-year period. The scheme aims to promote domestic manufacturing and enhance exports in key segments of the textile value chain, specifically man-made fibre (“**MMF**”) fabrics and technical textiles. Incentives are provided on incremental turnover from eligible products manufactured in India, subject to prescribed investment and performance thresholds.

The PLI Scheme is intended to attract large-scale investments in the textile sector and reduce India’s reliance on imported MMF and high-value textile products. It forms part of the broader “Aatma Nirbhar Bharat Abhiyaan” initiative and is designed to strengthen India’s position in the global textile market. Both greenfield and brownfield projects are eligible under the scheme, and the incentives are fixed at the time of approval of the applicant, based on committed investment and projected sales.

Fire Prevention Laws

The State legislatures in India have the power to endow the municipalities with the power to implement schemes and perform functions in relation to matters listed in the 12th Schedule to the Constitution of India, which includes fire services. These legislations include provisions in relation to maintenance of fire safety and life saving measures by occupiers of buildings, procedure for obtaining no objection certificate and penalties for non-compliances.

Laws governing foreign investments

Foreign investment in India is governed by the provisions of the Foreign Exchange Management Act, 1999 (“**FEMA**”) and the rules, regulations and notifications thereunder, as issued by the RBI from time to time and the FEMA Non-Debt Instruments Rules (“**FEMA Rules**”) and the Foreign Direct Investment Policy (“**FDI Policy**”). In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which the foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA has now been entrusted to the concerned administrative ministries/departments.

The FEMA Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except for things done or omitted to be done before such supersession. The FEMA Rules have been amended on multiple occasions since their enactment, including most recently through the Foreign Exchange Management (Non-debt Instruments) (Amendment) Rules, 2026 notified on May 1, 2026 and the Foreign Exchange Management (Non-debt Instruments) (Second Amendment) Rules, 2026 notified on May 2, 2026.

The total holding by any individual NRI, on a repatriation basis, shall not exceed five percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant, provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. The total holding by each FPI or an investor group, shall be less than 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together, including any other direct and indirect foreign investments in the Indian company permitted under these rules, shall be up to the sectoral cap applicable to the sector in which the Company operates. The said limit of 10% and 24% shall be called the individual and aggregate limit, respectively.

The RBI, with an aim to operationalise a new overseas investment regime, has introduced the new Foreign Exchange Management (Overseas Investment) Rules, 2022 (“**OI Rules**”) and the Foreign Exchange Management (Overseas Investment) Regulations, 2022 (“**OI Regulations**”), vide Notification No. G.S.R. 646(E) and Notification No. FEMA 400/2022-RB dated August 22, 2022 respectively. Further, the Foreign Exchange Management (Overseas Investment) Directions, 2022 (“**OI Directions**”) were introduced to be read with the OI Rules and the OI Regulations. The new regime simplifies the framework to cover wider economic activity and thereby, significantly reducing the need for specific approvals. Investment may be made by an Indian entity only in a foreign entity engaged in activities permissible under the law in force in India and the host jurisdiction. Any manner of Overseas Direct Investment (“**ODI**”) by an Indian entity shall be made as prescribed in the OI Rules, namely: (i) subscription as part of MoA or purchase of equity capital, (ii) acquisition through bidding or tender

procedure, (iii) acquisition of equity capital by way of rights issue or allotment of bonus shares, (iv) capitalisation of any amount due from the foreign entity subject to applicable conditions, (v) swap of securities, and (vi) merger, demerger, amalgamation or any scheme of arrangement.

The Consolidated Foreign Direct Investment Policy of 2020 (the “Consolidated FDI Policy”)

The Department for Promotion of Industry and Internal Trade (“**DPIIT**”), Ministry of Commerce and Industry on October 28, 2020 issued Consolidated FDI Policy, effective from October 15, 2020. The Consolidated FDI Policy permits our Company 100% FDI under the automatic route. Pursuant to Press Note 3 of 2020, dated April 17, 2020, issued by the DPIIT, the Consolidated FDI Policy was amended with effect from October 15, 2020 to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the GoI. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the GoI. The aforesaid provisions of Press Note 3 of 2020 have been further amended by Press Note 2 (2026 Series) dated March 15, 2026, issued by DPIIT which substituted paragraph 3.1.1. of the Consolidated FDI Policy.

Foreign Trade (Development and Regulation) Act, 1992 and the rules framed thereunder (“Foreign Trade Act”)

The Foreign Trade Act, read with the applicable provisions of the Indian Foreign Trade Policy 2023, authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The Central Government has also been given a wide power to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The Foreign Trade Act requires every importer as well as exporter to obtain the Importer Exporter Code Number (“**IEC**”) from the Director-General or the authorised officer. The Director General is authorised to suspend or cancel IEC in case of (i) contravention by any person any of the provisions of the Foreign Trade Act or any rules or orders made thereunder or the foreign trade policy or any other law for the time being in force relating to Central excise or customs or foreign exchange or person has committed any other economic offence under any other law for the time being in force as may be specified by the Central Government or (ii) making an export or import in a manner prejudicial to the trade relations of India with any foreign country or to the interests of other persons engaged in imports or exports or has brought disrepute to the credit or the goods of, or services or technology provided from, the country; or (iii) importing or exporting specified goods or services or technology, in contravention of any provision of the Foreign Trade Act or any rules or orders made thereunder or the foreign trade policy. Where any IEC number granted to a person has been suspended or cancelled, the person shall not be entitled to import or export any goods or services or technology except under a special licence, granted by the Director General to that person in a manner and subject to conditions as may be prescribed.

Customs Act, 1962 (“Customs Act”), the Customs Tariff Act, 1975 and rules made thereunder

The provisions of the Customs Act and rules made there under are applicable to imported goods i.e. goods brought into India from a place outside India (except goods cleared for home consumption) and export goods i.e. goods which are to be taken out of India to a place outside India. Imported goods and export goods are subject to duties of customs as specified under the Customs Tariff Act, 1975

Environmental Laws

The Environment (Protection) Act, 1986 (“EPA”) read with Environment Protection Rules, 1986 (the “EP Rules”) and the Environmental Impact Assessment Notification, 2006 (“EIA Notification”)

The EPA has been enacted for the protection and improvement of the environment. It stipulates that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emit any environmental pollutant in excess of such standards as may be prescribed. Further, no person shall handle or cause to be handled any hazardous substance except in accordance with such procedure and after complying with such safeguards as may be prescribed. EPA empowers the Central Government to take all measures necessary to protect and improve the environment such as laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and generally to curb environmental pollution.

Further, the EP Rules specifies, *inter alia*, the standards for emission or discharge of environmental pollutants, prohibitions and restrictions on the location of industries as well as on the handling of hazardous substances in different areas. For contravention of any of the provisions of the EP Act or the rules framed thereunder, the punishment includes either imprisonment or fine or both. Additionally, under the EIA Notification and its subsequent amendments, projects are required to mandatorily obtain environmental clearance from the concerned authorities depending on the potential impact on human health and resources.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act was enacted to control and prevent water pollution and for maintaining or restoring of wholesomeness of water in the country. The Water Act provides for the establishment of Pollution Control Boards (“PCBs”) at Central and State levels to establish and enforce standards for discharging pollutants into water bodies. Further, any person intending to establish any industry, operation or process or any treatment and disposal system which is likely to discharge sewage or other pollution into a water body is required to obtain prior consent of the relevant state PCB. Failure to comply with specified directions or orders under the Water Act or acting in violation of the provisions of the Water Act, may lead to imprisonment of up to seven years, fines up to ₹10,000, and additional daily fines for continued non-compliance. In case of violation by a company, both the company and persons responsible for its business are deemed guilty unless they prove lack of knowledge or due diligence. Directors, managers, secretary or other officers of the company involved through consent, connivance, or neglect are also held liable and punished accordingly.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

Under the Air Act, the relevant state pollution control board may inspect any industrial plant or manufacturing process and give orders, as it may deem fit, for the prevention, control and abatement of air pollution. Further, industrial plants and manufacturing processes are required to adhere to the standards for emission of air pollutants laid down by the relevant state pollution control board, in consultation with the Central Pollution Control Board. The relevant state pollution control board is also empowered to declare air pollution control areas. Additionally, consent of the state pollution control board is required prior to establishing and operating an industrial plant. The consent by the state pollution control board may contain provisions regarding installation of pollution control equipment and the quantity of emissions permitted at the industrial plant. Under Section 37 of the Air Act, whoever fails to comply with the provisions of Section 22 or the directions issued under Section 31A of the Air Act, shall be liable to the penalty up to ₹ 1,500,000. There is an additional penalty of ₹ 10,000 per day if the requisite compliances under the aforesaid sections are not carried out.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Waste Rules”)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste. Under the Hazardous Waste Rules, “hazardous waste” *inter alia* means any waste which by reason of characteristics such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive, causes danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment or third party resulting from the improper handling and management and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

Plastic Waste Management Rules, 2016 (“Plastic Waste Management Rules”)

The Plastic Waste Management Rules stipulate conditions for the manufacture, importer stocking, distribution and use of plastic carry bags, plastic sheets, packaging etc. They aim to increase minimum thickness of plastic carry bags and plastic sheets to 50 microns and also to facilitate collection and recycle of plastic waste. The Plastic Waste Management Rules bring in the responsibilities of producers, generators, importers and brand owners in the plastic waste management system and has introduced a collect back system of plastic waste by producers or brand owners. In addition to this, the applicability of the Plastic Waste Management Rules extends to rural areas as well.

Draft Environment Impact Assessment Notification 2020 (“Draft EIA 2020”)

The Ministry of Environment, Forest and Climate Change issued Draft EIA 2020, on March 23, 2020. It proposes to replace the existing Environment Impact Assessment Notification, 2006. It classifies all new projects or

activities, including expansion and modernization of projects or activities, into three categories, namely, Category A, Category B1 and Category B2. It contemplates two kinds of approvals, being (i) prior environment clearance from the expert appraisal committee and (ii) environmental permission from concerned regulatory authority.

Projects or activities in Category A and Category B1 will receive prior environmental clearance from expert appraisal committee after completing a six-stage process –scoping, preparation of draft environmental impact assessment report, public consultation, preparation of final environmental impact assessment report, appraisal, and grant or rejection of prior environmental clearance. Projects or activities in Category B2 which require prior environmental clearance from expert appraisal committee must complete a three-stage process –preparation of environment management plan report, appraisal, grant or rejection of prior environmental clearance. Projects or activities in Category B2 which do not require prior environmental clearance from expert appraisal committee must complete a three-stage process –preparation of environment management plan report, verification of completeness of the application by regulatory authority, grant or rejection of prior environment permission.

The Draft EIA 2020 also provides a list of projects and activities exempted from the application of the notification. It also has provisions for monitoring the compliance and dealing with non-compliance of the conditions in prior environmental clearance and prior environmental permission.

Laws relating to Taxation

Tax related laws that are pertinent, include the Income Tax Act 2025, Income Tax Act 1961 (now repealed by the Income Tax Act, 2025), Income Tax Rules, 2026, Income Tax Rules, 1962 (now repealed by the Income Tax Rules, 1962), Indian Stamp Act, 1899, and GST which includes the Central Goods and Services Tax Act, 2017, various State Goods and Services Tax legislations and the Integrated Goods and Services Tax Act, 2017, registrations issued under the applicable tax on professions, trades, callings and employments legislations of the relevant states, issued by the Directorate of Commercial Tax, and various rules and notifications thereunder and as issued by taxation authorities.

Labour Laws

Shops and establishments legislations of various states

Under the provisions of local shops and establishments legislations applicable in the states in which establishments are set up, establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of opening and closing hours, daily and weekly working hours, rest intervals, overtime, holidays, leave, health and safety measures, termination of service, wages for overtime work, maintenance of shops and establishments and other rights and obligations of the employers and employees. There are penalties prescribed in the form of monetary fine or imprisonment for violation of the legislations.

In addition to the local shops and establishments legislations, the employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws. The various labour and employment related legislations that may apply to our operations, from the perspective of protecting the workers' rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include, among others, the following: (i) relevant State specific shops and commercial establishment legislations; (ii) Apprenticeship Act, 1961; (iii) Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013; and (iv) Child Labour (Prohibition and Regulation) Act, 1986.

Other labour law legislations

In order to rationalize and reform labour laws in India, the Government, through Gazette notifications dated November 21, 2025, has implemented four labour codes in a phased manner:

- (a) ***Code on Wages, 2019***, which regulates and amalgamates wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976 received the assent of the President of India on August 8, 2019. It regulates, *inter alia*, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees. Barring a few, all provisions of this code have been brought into force by the Central Government through its notice dated November 21, 2025.

- (b) **Industrial Relations Code, 2020**, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes, received the assent of the President of India on September 28, 2020. All provisions of this code have been brought into force by the Central Government through its notice dated November 21, 2025. The provisions of this code subsume and simplify the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.
- (c) **Code on Social Security, 2020**, received the assent of the President of India on September 28, 2020 and was notified by the Government of India on November 21, 2025, barring a few provisions. It amends and consolidates laws relating to social security, and subsumes various social security related legislations, *inter alia* including the Employee's Compensation Act, 1923, Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees may suffer, among others.
- (d) **Occupational Safety, Health and Working Conditions Code, 2020**, received the assent of the President of India on September 28, 2020, which amends and subsumes certain existing legislations, including Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979 and the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996. All provisions of this code have been brought into force by the Central Government through its notice dated November 21, 2025.

Pursuant to the notification of the four labour codes, the Government of India, on May 8, 2026, has notified the Occupational Safety, Health and Working Conditions (Central) Rules, 2026, Industrial Relations (Central) Rules, 2026, Code on Wages (Central) Rules, 2026, and Social Security (Central) Rules, 2026, to provide, among other things, the procedures for enforcement of the labour codes.

Intellectual Property Laws

The Copyright Act, 1957

The Copyright Act, along with the Copyright Rules, 2013 ("**Copyright Laws**") governs copyright protection in India. The Register of Copyrights under the Copyright Laws acts as *prima facie* evidence of the particulars entered therein and helps expedite infringement proceedings and reduce delay caused due to evidentiary considerations. The Copyright Laws prescribe a fine, imprisonment or both for violations, with enhanced penalty on second or subsequent convictions.

The Trade Marks Act, 1999 ("Trademarks Act")

The Trademarks Act provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement. The Trademarks Act also prohibits any registration of deceptively similar trademarks or compounds, among others. It also provides for infringement, falsifying and falsely applying for trademarks.

The Patents Act, 1970

The Patents Act governs the patent regime in India. A patent under the Patents Act is an intellectual property right relating to inventions and grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling and importing the patented product or process or produce that product. The Patents Act recognises both product and process patents and prescribes eligibility criteria for grant of patents, including the requirement that an invention must satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection.

The Design Act, 2000 (the "Design Act")

The Design Act consolidates and amends the law relating to the protection of designs. The Design Act is a complete code in itself and is statutory in nature and protects new or original designs from getting copied which cause loss to the proprietor. The proprietor upon registration gets 'copyrights in design' for the period of 10 years

from the date of registration which can be renewed for a second period of five years, before the expiration of original period of 10 years. The controller registers a design under this Act after verifying that the design of any person, claiming to be the proprietor, is the new or original design not previously published anywhere in any country and is not against any public policy or morality. Any obvious or fraudulent imitation of a design, which is already registered, without the consent of its proprietor, is unlawful. It also prohibits the import of any material which closely resembles a registered design. The Central Government also drafted the Design Rules, 2001 (the “**Design Rules**”) under the authority of the Design Act for the purposes of specifying certain prescriptions regarding the practical aspects related to designs such as payment of fees, register for designs, classification of goods, address for service, restoration of designs, etc

Other Applicable Laws

DIVIDEND POLICY

The declaration and payment of dividend on our Equity Shares, if any, will be recommended by our Board and/or approved by our Shareholders, at their discretion, subject to the provisions of our Articles of Association, the applicable laws including the Companies Act read with the rules notified thereunder and SEBI Listing Regulations and the dividend distribution policy of our Company may be reviewed and amended periodically by our Board in accordance with the same. The dividend distribution policy of our Company was approved and adopted by our Board on September 4, 2025 (“**Dividend Policy**”).

In terms of the Dividend Policy, the dividend pay-out shall be determined by our Board after taking into account a number of factors, including but not limited to (i) internal factors and financial parameters such as operating cash flow of our Company, profit after tax during the year, EPS, working capital and capital expenditure requirements, business expansion and growth, likelihood of crystallization of contingent liabilities, additional investment required in subsidiaries and associates of our Company or technology and physical infrastructure; and (ii) external factors such as industry outlook and economic environment, capital markets, global conditions, taxation policy, technological changes, regulatory changes, dividend pay-out ratio of competitors, statutory provisions and guidelines.

In addition, our Company’s ability to pay dividends in the future may be impacted by a number of other factors, including restrictive covenants under our current or future loan or financing documents or arrangements.

Our Company has not declared or paid any dividends on equity shares in any of the three Fiscals preceding the date of this Prospectus and in the current Fiscal until the filing of this Prospectus.

The Board, at its meeting held on May 18, 2026, has recommended a dividend at the rate of 0.01% per annum on 3,501,372 CCPS outstanding as on the Record Date (*as defined below*), on a pro rata basis, for Fiscal 2026, which is payable to the holders of CCPS whose name appears in the register of members as on June 12, 2026 (“**Record Date**”).

There is no guarantee that any dividends will be declared or paid in the future. See, “*Risk Factors – 50. We cannot assure payment of dividends on the Equity Shares in the future and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing agreements.*” on page 57.

The Restated Financial Information, which have been approved by the board of directors (“Board of Directors”) of the Company at their meeting held on June 05, 2026, have been prepared by the Company in accordance with the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 (the “Act”);
- b) the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the “SEBI ICDR Regulations”); and
- c) the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (“ICAI”), as amended from time to time (the “Guidance Note”).

- d) Email dated October 28, 2021 from Securities and Exchange Board of India (SEBI) to Association of Investment Bankers of India (“SEBI Communication”)
2. The Company’s management is responsible for the preparation of Restated Financial Information for the purpose of inclusion in the Offer Documents (RHP and the Prospectus) to be filed with Securities and Exchange Board of India (“SEBI”), BSE Limited (“BSE”), National Stock Exchange of India Limited (“NSE”) and the Registrar of Companies, Mumbai-I at Mumbai, in connection with the Offer. The Restated Financial Information have been prepared by the management of the Company in accordance with the basis of preparation stated in Note 2 to Annexure V to the Restated Financial Information. The respective Board of Directors of the companies included in the Group are responsible for designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the respective Restated Financial Information. The respective Board of Directors of the companies included in the Group are also responsible for identifying and ensuring that the Company complies with the Act, the SEBI ICDR Regulations, the Guidance Note and SEBI Communication.
 3. We have examined such Restated Financial Information taking into consideration:
 - a) the terms of reference and our engagement agreed with you vide our engagement letter dated March 20, 2025, in connection with the Offer.
 - b) The Guidance Note read with SEBI Communication. The Guidance Note also requires that we comply with the ethical requirements as stated in the Code of Ethics issued by the ICAI;
 - c) the concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Information; and
 - d) the requirements of Section 26 of the Act and the SEBI ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the SEBI ICDR Regulations and the Guidance Note in connection with the Offer.
 4. The Restated Financial Information have been compiled by the management from the:
 - a) Audited consolidated financial statements of the Group as at and for the years ended March 31, 2026 and March 31, 2025 prepared in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, along with the presentation requirements of Division II of Schedule III to the Act (collectively, the “**Audited Consolidated Financial Statements**”), which have been approved by the Board of Directors at their meetings held on May 18, 2026 and June 10, 2025, respectively as stated in Note 2 to Annexure V.
 - b) Audited special purpose combined financial statements of the Group as at and for the year ended March 31, 2024, prepared in accordance with the basis of preparation, as set out in Note 2 of Annexure V of the Restated Financial Information (the “**Audited Special Purpose Combined Financial Statements**”), which have been approved by the Board of Directors at their meeting held on September 04, 2025, on which we have issued our special purpose audit report dated September 04, 2025.
 - c) The Audited Consolidated Financial Statements and the Audited Special Purpose Combined Financial Statements referred to in paragraphs (a) & (b) above includes financial statements and other financial information of Engineered Coated Fabric Private Limited (the “ECFPL”) which is a wholly owned subsidiary of the Company and is audited by the Chaturvedi Sohan & Co.  - There are no qualifications in the Other Auditors’ reports on the audited financial statements of ECFPL as at and for the years ended March 31, 2026, March 31, 2025, and March 31, 2024, that require any adjustments to the Restated Financial Information of ECFPL ; and
 - The Restated Financial Information of ECFPL have been prepared in accordance with the Act, the SEBI ICDR Regulations, the Guidance Note and SEBI Communication.
- e) The financial statements of KCPL referred in paragraph 4(d) above are audited by the Other Component Auditor and accordingly reliance is placed on Restated Statement of Assets and Liabilities as at March 31, 2026, the Restated Statement of Profit and Loss (including Other Comprehensive Income), the Restated Statement of Changes in Equity, the Restated Statement of Cash Flows along with the Statement of Material Accounting Policies and other Explanatory Information for the years ended March 31, 2026 in so far as it relates to the amounts and disclosures included in respect of the said subsidiary is based solely on

the examination report issued by the Other Component Auditor. The Other Component Auditor has also confirmed that the above Restated Financial Information of KCPL :

- have been prepared after incorporating adjustments for the changes in accounting policies, any material errors and regroupings/ reclassifications to reflect the same accounting treatment as per the accounting policies and grouping/ classifications, if any, followed in the audited consolidated financial statements of the Group as at and for year ended March 31, 2026 as more fully described in Restated Financial Information.
- there are no qualifications in the Other Component Auditors' reports on the audited financial statements of KCPL as at and for the years ended March 31, 2026 that require any adjustments to the Restated Financial Information of ECFPL; and
- The Restated Financial Information of KCPL have been prepared in accordance with the Act, the SEBI ICDR Regulations, the Guidance Note and SEBI Communication.

6. The audit reports issued by us referred to in paragraph 5 included the following matters, which do not require any adjustment to the Restated Financial Information:

Other Matter Paragraph with respect to our audit report issued by us referred in paragraph 5(a)

“We did not audit the financial statements of 2 subsidiaries, whose financial statements reflect total assets of Rs. 179.54 million as at March 31, 2026, total revenues of Rs. 361.68 million, net profit (including other comprehensive income) of Rs.43.04 million and net cash outflow amounting to Rs. 5.91 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements is not modified in respect of the above matters.”

Report on Other Legal and Regulatory Requirements paragraphs with respect to our audit report issued by us referred in paragraph 5(a)

Reporting on Audit Trail

Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility, except that audit trail feature was enabled at the database level from July 27, 2025 in respect of an accounting software to log any direct data changes as explained in Note 52 to the financial statements.

Further, where enabled, audit trail feature has operated for all relevant transactions recorded in the accounting software. Also, during the course of our audit, we did not come across any instance of audit trail feature being tampered with in respect of such accounting software. Additionally, the audit trail of prior year has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in respective year.

Other Matter Paragraph with respect to our audit report issued by us referred in paragraph 5(b)

“We did not audit the financial statements of Engineered Coated Fabric Private Limited, whose financial statements (before consolidation adjustments) reflect total assets of Rs.138.57 million as at March 31, 2025, total revenues of Rs.478.40 million and net cash inflows amounting to Rs.30.93 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose report have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiary and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid Subsidiary, is based solely on the reports of the other auditor.

Our opinion on the consolidated financial statements is not modified in respect of the above matters.”

Report on Other Legal and Regulatory Requirements paragraphs with respect to our audit report issued by us referred in paragraph 5(b)

Reporting on Audit Trail

“Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility except that the audit trail feature at the application level was enabled from January 11, 2025 for Purchase module and February 12, 2025 for Customer Module and June 25, 2024 for Sales module and was not enabled at the database level to log any direct data changes for the entire year as explained in note 53 to the financial statements.

Further, where enabled, audit trail feature has operated throughout the period for all relevant transactions recorded in the accounting software. Also, during the course of our audit, we did not come across any instance of audit trail feature being tampered with in respect of such accounting software. Additionally, the audit trail of prior year has not been preserved by the Company as it was not enabled in the prior year as per the statutory requirements for record retention.”

Emphasis of Matter paragraphs with respect to our audit report issued by us referred in paragraph 5(c)

“We draw attention to note 2(a) to the accompanying Special Purpose Combined Financial Statements, which describe the purpose and basis of its accounting. These Special Purpose Combined Financial Statements have been prepared by the management of the Company, solely for the purpose of the preparation of the Restated Financial Information of the Company for the year ended March 31, 2024, to be included in the Draft Red Herring Prospectus, Red Herring Prospectus and Prospectus to be filed by the Company with the Securities and Exchange Board of India (‘SEBI’), National Stock Exchange of India Limited, BSE Limited and Registrar of Companies, Mumbai, Maharashtra, as applicable, in connection with the proposed Initial Public Offering of equity shares of the Company, to meet the requirements of Section 26 of Part I of Chapter III of the Companies Act, 2013, the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time (‘SEBI ICDR Regulations’), and the Guidance Note on Reports in Company Prospectus (Revised 2019) issued by ICAI. As a result, these Special Purpose Combined Financial Statements may not be suitable for another purpose.

Our report is intended solely for the purpose specified above. This should not be distributed to or used by any other parties. M S K A & Associates shall not be liable to the

Company or to any other concerned for any claims, liabilities or expenses relating to this assignment. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Our Opinion is not modified in respect of this matter.”

Other Matter Paragraph with respect to our audit report issued by us referred in paragraph 5(c)

“We did not audit the financial statements of Engineered Coated Fabric Private Limited, whose financial statements (before consolidation adjustments) reflect total assets of Rs. 163.12 million as at March 31, 2024, total revenues of Rs. 552.18 million and net cash inflows amounting to Rs. 8.34 million for the year ended on that date, as considered in the financial statements. These financial statements have been audited by other auditor whose report have been furnished to us by the Management and our opinion on the Special Purpose Combined Financial Statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiary and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of the other auditor.

Our opinion on the Special Purpose Combined Financial Statements is not modified in respect of the above matter.”

Other Matter Paragraph with respect to Other Auditor’s report referred in paragraph 5(d) for the year ended March 31, 2025

“The comparative financial information of the company for the year ended March 31, 2024 and transition date opening balance Sheet as at April 01, 2023 included in these financial statements, are based on the previously issued financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2021 specified under Section 133 and other relevant provisions of the Act audited by the predecessor auditor whose report for the year ended March 31, 2024 and March 31, 2023 dated September 04, 2024 and September 01, 2023, respectively expressed an unmodified audit opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the IND AS, which have been audited by us.”

Other Matter Paragraph with respect to Other Auditor’s report referred in paragraph 5(d) for the year ended March 31, 2024

“The Statutory Financial Statements of the Company for the year ended March 31, 2024, prepared in accordance with the Accounting Standards specified under section 133 of the Act, read together with the Companies (Accounting Standards) Rules, 2021 and other accounting principles generally accepted in India, were audited by predecessor auditor “Mamta K Mehta and Associates” whose report expressed an unmodified opinion.”

7. Based on our examination and according to the information and explanations given to us, we report that the Restated Financial Information:
 - a) have been prepared after incorporating adjustments for the changes in accounting policies, any material errors and regroupings/ reclassifications retrospectively in the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024, to reflect the same accounting treatment as per the accounting policies and grouping/ classifications followed as at and

for the year ended March 31, 2026, as more fully described in Note 2 to Annexure V to Restated Financial Information;

- b) there are no qualifications in the auditors' reports on the audited financial statements of the Company as at and for the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024 which require any adjustments to the Restated Financial Information. However, items relating to emphasis of matter, as referred to in paragraph 6 above which do not require any corrective adjustments in the Restated Financial Information, have been disclosed in Note Part C - (b)(iii) to Annexure VI to Restated Financial Information; and
 - c) have been prepared in accordance with the Act, the SEBI ICDR Regulations, Guidance Note and SEBI Communication.
8. The Restated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of the reports on the audited financial statements mentioned in paragraph 4 above.
9. This report should not in any way be construed as a reissuance or re-dating of any of the previous auditors' reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.
10. We have no responsibility to update our report for events and circumstances occurring after the date of this report.
11. Our report is intended solely for use of the Board of Directors and for inclusion in the Offer Documents (RHP and the Prospectus) to be filed with the SEBI, BSE, NSE and the Registrar of Companies, Mumbai-I at Mumbai ('RoC'), as applicable in connection with the Offer. Our report should not be used, referred to or distributed for any other purpose without prior consent in writing. Accordingly, we do not accept or assume any liability or any duty of care towards any other person relying on the report. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

1 Group overview

Kusumgar Limited (Formerly known as Kusumgar Private Limited) ("the Holding Company or "the Company") is a public company domiciled in India and was incorporated on June 15, 1990 under the provisions of Companies Act, 1956 with its registered office in Mumbai, Maharashtra.

The holding company along with its Subsidiaries is engaged primarily in the business of manufacturing, marketing, and supplying a diverse range of technical textile fabrics, offering innovative and high-performance solutions to meet evolving customer requirements.

The Consolidated financial statements include the financial statements of the Holding Company and its subsidiaries, as mentioned below, (collectively referred to as the "Group").

2 Basis of Preparation of Restated Financial Information

(a) Statement of compliance

The Restated Financial Information of the Company and its subsidiaries comprises of the Restated Statement of Assets and Liabilities as at 31 March 2026, 31 March 2025 and 31 March 2024, the Restated Statement of Profit and Loss (including Other Comprehensive income), the Restated Statement of Cash Flows, the Restated Statement of Changes in Equity for the years ended 31 March 2026, 31 March 2025 and 31 March 2024, the summary of material accounting policies and other explanatory Information (collectively, the "Restated Financial Information").

These Restated Financial Information have been prepared by the Management of the Company for the purpose of inclusion in the Red Herring Prospectus the ("RHP") and the Prospectus to be filed with the Securities and Exchange Board of India ("SEBI"), BSE Limited (the "BSE") and National Stock Exchange of India Limited (the "NSE") (BSE and NSE together, referred to as the "Stock Exchanges") prepared by the Company in connection with its proposed initial public offer of equity shares ("IPO"). These Restated Financial Information have been prepared in terms of the requirements of:

(a) Section 26 of Part I of Chapter III of the Companies Act, 2013 (the "Act");

(b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018, as amended (the "ICDR Regulations")

(c) the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended (the "Guidance Note").

(d) E-mail dated 28 October 2021 from Securities and Exchange Board of India ("SEBI") to Association of Investment Bankers of India, instructing lead managers to ensure that companies provide consolidated financial statements prepared in accordance with Indian Accounting Standards (Ind AS) for all the three years.

These Restated Financial Information have been compiled by the management from:

(a) the audited consolidated financial statements of the Group as at and for the year ended 31 March 2026 prepared in accordance with Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and other accounting principles generally accepted in India which have been approved by the Board of Directors at their meeting held on 18 May 2026.

(b) the audited consolidated financial statements of the Group as at and for the year ended 31 March 2025 prepared in accordance with Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and other accounting principles generally accepted in India which have been approved by the Board of Directors at their meeting held on 10 June 2025.

(c) the audited special purpose combined financial statements of the Group as at and for the year ended 31 March 2024 prepared based on the following:

(i) The audited standalone statutory financial statements of the Company as at and for the year ended 31 March 2024, prepared in accordance with Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other recognized accounting practices and policies generally accepted in India; and

(ii) Pursuant to the Companies (Indian Accounting Standard) Rules, 2015 (as amended from time to time), Engineered Coated Fabric Private Limited ("ECFPL" or the "Subsidiary"), adopted 01 April 2023 as reporting date for first time adoption of Indian Accounting Standards (Ind AS) notified under these rules, and consequently 01 April 2023 as the transition date for preparation of its statutory financial statements for the year ended 31 March 2025. Hence, the general purpose financial statements of the Subsidiary as at and for the year ended 31 March 2025, were the first financials statements, prepared in accordance with the Ind AS. Up to, for the financial year ended 31 March 2024 the Subsidiary had prepared its general purpose financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with Companies (Accounting Standards) Rules, 2021 ("Indian GAAP" or "Previous GAAP") due to which these Special Purpose financial statements are prepared. Also, these Special Purpose Financial Statements are not the statutory financial statements of the Subsidiary under the Act. These Special Purpose financial statements of the Subsidiary as at and for the year ended 31 March 2024, have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (01 April 2023) and as per the presentation, accounting policies and grouping/classifications including revised Schedule III to the Companies Act, 2013 disclosures followed as at and for the year ended 31 March 2025 which have been approved by the Board of Directors at their meeting held on 03 September 2025.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

As disclosed in Note 51 to the Restated Financial Information, the Company acquired Engineered Coated Fabric Private Limited (the "Subsidiary") on 05 December 2024. The statutory date of transition to Ind AS for the Subsidiary is 01 April 2023. However, for the purpose of preparing the Restated Financial Information, the Company has adopted a transition date of 01 April 2022. Accordingly, the Subsidiary has applied the same accounting policies and policy choices (including both mandatory exceptions and optional exemptions availed under Ind AS 101, as applicable) as on 01 April 2022, consistent with those initially adopted on the statutory transition date of 01 April 2023. This acquisition has been classified as a common control transaction in accordance with Appendix C to Ind AS 103, Business Combinations.

Accordingly, audited standalone statutory financial statements of the Company for the year ended 31 March 2024 and audited special purpose financial statements of the subsidiary acquired vide common control transaction (Refer note 51) for the year ended 31 March 2024 have been combined in accordance with Guidance Note on Combined and Carve-Out Financial Statements issued by the Institute of Chartered Accountants of India.

A reconciliation of total equity and total comprehensive income between the Audited Consolidated Financial Statements as at and for the years ended 31 March 2026 and 31 March 2025, Audited Special Purpose Combined Financial Statements as at and for the year ended 31 March 2024 and Restated Financial Information has been presented in Annexure VI - Part A.

The Restated Financial Information were authorized for issue by the Company's Board of Directors on 05 June 2026

(b) Principles of Consolidation

The Restated Financial Information comprise the financial statements of the Company and its Subsidiaries. Subsidiaries are entities controlled by the Group. The Restated Financial Information of the Group have been prepared in accordance with the Indian Accounting Standards on "Consolidated Financial Statements" (Ind AS 110) notified under Section 133 of the Companies Act, 2013. The Group controls an investee only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Restated Financial Information from the date the Group gains control until the date the Group ceases to control the subsidiary.

Restated Financial Information are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the Restated Financial Information for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the Restated Financial Information to ensure conformity with the Group's accounting policies. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

The Combined Financial Statements have been prepared by combining like items of assets, liabilities, equity, income, expenses and cash flows of the entities forming part of Group. All the intragroup assets and liabilities, equity, income, expenses and cash flows relating to entities forming part of Group have been eliminated and profits or losses arising from intragroup transactions have been eliminated in full.

Combined financial information are prepared using uniform accounting policies for like transactions and other events in similar circumstances. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

(c) Basis of measurement

The Restated Financial Information have been prepared on accrual basis and under historical cost convention, except for the following:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- Employees defined benefit obligation and leave encashment are recognised as per actuarial valuation.
- Share-based payments liability measured at fair value

Classification into current and non-current:

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Group has ascertained its normal operating cycle as 12 months for the purpose of Current/Non-current classification of assets and liabilities.

(d) Use of estimates, judgements and assumptions

The preparation of Restated Financial Information requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the Group's financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

(Refer Note 4 for details).

Kusumgar Limited (formerly known as Kusumgar Private Limited)**Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information***(All amounts are in INR millions, unless otherwise stated)***(e) Presentation currency and rounding off**

The Restated Financial Information are presented in Indian Rupees (INR), which is both the functional currency of the Group and the currency of the primary economic environment in which it operates. All amounts are stated in millions of INR, rounded to two decimal places, in accordance with the requirements of Schedule III to the Companies Act 2013, unless stated otherwise. Figures represented as "0" denote values that are not zero but have been rounded to the nearest INR million.

(f) Going Concern

The Restated Financial Information are prepared on a going concern basis as the Management is satisfied that the Group shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

3 Material accounting policies

A summary of the material accounting policies applied in the preparation of the Restated Financial Information are as given below. These accounting policies have been applied consistently to all periods presented in the Restated Financial Information.

3.01 Property, plant and equipment

Property, plant and equipment, are stated at historical cost of acquisition or construction less accumulated depreciation and impairment losses, if any. Cost of property, plant and equipment comprises its purchase price net of any discounts and rebates, any import duties and other taxes (other than those subsequently recovered from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use.

The Group identifies and determines cost of each part of an item of property plant and equipment separately if the part has a cost which is significant to the total cost of that item of property plant and equipment and has useful life that is materially different from that of the remaining item.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced (All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred).

Interest cost incurred is capitalized up to the date the asset is ready for its intended use for qualifying assets, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation methods, estimated useful lives

Depreciation on property, plant and equipment is provided on a pro-rata basis on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013, or re-assessed by the Group. The Group has estimated the following as useful life to provide depreciation on its Property, Plant & Equipment.

The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

Name of the asset	Estimated Lives by the management	Useful the
Buildings		3 to 30 years
Plant & Machinery		7.5 to 15 years
Electrical Installation		10 years
Furniture & Fixtures		10 years
Vehicles		8 to 10 years
Leasehold Improvement		Lower of lease period & estimated useful life
Office/Factory Equipment		5 years
Computers		3 years

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other income' / 'Other expenses' respectively.

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Government grants relating to assets, including non-monetary grants at fair value, shall be presented in the balance sheet either by setting up the grant as deferred income or by deducting the grant in arriving at the carrying amount of the asset.

3.02 Capital work-in-progress

Cost of assets not ready for intended use, as on the Balance sheet date, is shown as capital work in progress. The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

3.03 Other Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognised on a straight line basis over their estimated useful lives so as to reflect the pattern in which the assets economic benefits are consumed. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. The amortization of intangible asset is included in Depreciation and amortization expense in Statement of Profit and Loss.

Software is amortized over the management's estimate of its useful life, i.e. 6 years.

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

3.04 Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Units (CGU's) fair value less costs of disposal and its value in use.

The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

The Group bases its impairment calculation on most recent budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

3.05 Inventories

Inventories are valued at the lower of cost or net realizable value.

Cost of raw material, stores spares, packing material etc. includes cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts.

Finished goods and work-in-progress : Cost includes cost of direct material and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing cost.

Spare parts those does not meet definition of Property, Plant and Equipment are carried as inventory.

Transit stock are valued at cost.

3.06 Cash and cash equivalents and Cash flow statement

Cash and cash equivalent in the balance sheet comprises cash at banks, cash on hand, fixed deposits having a original maturity of less than 3 months, which are subject to an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby net profits before tax are adjusted for the effects of the transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Group are segregated.

3.07 Foreign Currency Translation

(a) Initial Recognition :

On initial recognition, transactions in foreign currencies entered into by the Group are recorded in the functional currency, by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

(b) Measurement of foreign currency items at reporting date :

Foreign currency monetary items of the Group are translated at the closing exchange rates. Non monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured. Exchange differences arising out of foreign exchange translations and settlements during the year are recognised in the Consolidated Statement of Profit and Loss.

(c) Translation of financial statements of foreign entities :

On consolidation, the assets and liabilities of foreign operations are translated into INR at the exchange rate prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions.

Any exchange differences arising from the translation of foreign operations are recognized in the Consolidated Statement of Other Comprehensive Income (OCI). These exchange differences are accumulated in equity under a separate component known as the Foreign Currency Translation Reserve.

3.08 Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are possible assets that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent asset is disclosed, where an inflow of economic benefits is probable.

3.09 Fair value measurement

The Group measures certain financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the Group.

The best estimate of the fair value of a financial instrument on initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently that difference is recognised in Statement of Profit and Loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.10 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

(i) Initial recognition and measurement

At initial recognition, financial asset is measured at its fair value plus the transaction cost directly attributable to the acquisition of the financial asset in the case of a financial asset measured not at fair value through profit or loss. Transaction costs directly attributable to the acquisition of financial assets measured at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit and Loss.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through other comprehensive income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss.

When the financial asset is derecognised, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains / losses.

Fair value through profit or loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and it is irrevocable.

In case of equity instruments classified as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

(iii) Impairment of financial assets

In accordance with Ind AS 109 "Financial Instruments", the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Trade receivables:

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables resulting from transactions within the scope of Ind AS 115 "Revenue from Contracts with Customers". The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

Other financial assets:

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss.

However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Lifetime ECL is the expected credit loss resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after year end.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original effective interest rate (EIR). When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the Statement of Profit and Loss. For financial assets measured at amortised cost, ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognised only when

- a) the rights to receive cash flows from the financial asset is transferred or expired
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the received cash flows in full without material delay to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognised only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the financial asset is neither transferred, nor the entity retains substantially all risks and rewards of ownership of the financial asset, then in that case financial asset is derecognized only if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

On derecognition of a financial asset, the difference between the carrying amount and the consideration received is recognised in the Statement of Profit and Loss.

(b) Financial liabilities and equity instruments

Classification as debt or equity

An instrument issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans, borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

Derivative financial instruments

The Group uses derivative financial instruments, primarily foreign exchange forward contracts, to manage its exposure to foreign exchange risk. These contracts are generally entered into with banks as counterparties.

Derivatives that are not designated as hedging instruments, or those designated as hedges but deemed ineffective under Ind AS 109, are accounted for as financial assets or financial liabilities at fair value through profit or loss.

Such derivatives are initially recognized at fair value on the contract date, with any attributable transaction costs recognized in the Statement of Profit and Loss when incurred. Subsequently, these derivatives are re-measured at fair value through profit or loss, and any resulting gains or losses are recorded in other income or other expenses.

Derivatives with a positive fair value are classified as financial assets, while those with a negative fair value are classified as financial liabilities.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

The entity's long-term borrowings are all at a variable interest rate; therefore, the unamortised transaction costs incurred on these borrowings are amortized on a straight-line basis instead of using the effective interest rate (EIR) method."

Financial liabilities at amortised cost

All the financial liabilities of the Group are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(iii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

3.11 Corporate Guarantee

Corporate guarantees given are treated as deferred income and amortized over the term of the guarantee on a systematic basis. The amortization is recognized in the profit and loss statement under "Other Income," reflecting the usage pattern of the guarantee.

3.12 Leases

As a lessee:

At inception of a contract, the Group assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

(a) The contract involves the use of an identified asset -this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;

(b) The Group has the right to substantially all of the economic benefits from the use of the asset throughout the period of use; and

(c) The Group has the right to direct the use of the asset. The Group has this right when it has the decision making rights that are most relevant to changing how and for what purposes the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the

right to direct the use of the asset if either:

- The Group has the right to operate the asset; or
- The Group designed the asset in a way that predetermines how and for what purposes it will be used

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Group's incremental borrowing rate. The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected to not recognize leases with a lease term of 12 months or less or of low value in the balance sheet, and lease costs for those short-term leases or low-value leases are recognized on a straight-line basis over the lease term in the Statement of Profit and Loss. The Group has elected the lessee practical expedient to combine lease and non-lease components and account for the combined unit as a single lease component.

3.13 Employee Benefits

(i) Defined benefit plans

Gratuity: The Group's gratuity benefit scheme is a defined benefit plan. Group's net obligation in respect of a defined benefit plan is calculated by estimating amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Present value of obligation under such benefit plan is determined based on actuarial valuation using projected unit credit method which recognizes each period of service that give rise to additional units of employee benefit entitlement and measures each unit separately to build up final obligation. Obligation is measured at present values of estimated future cash flows. The discounted rates used for determining present value are based on market yields on Government Securities as at the balance sheet date.

Defined benefit costs are categorised as follows:

- i. The current service cost of the defined benefit plans, recognised in the Statement of Profit and Loss in employee benefits expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs, which comprise plan amendments and curtailments, as well as gains or losses on the settlement of pension benefits are recognised immediately in the Statement of Profit and Loss when they occur.
- ii. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in finance cost in the Statement of Profit and Loss.
- iii. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

(ii) Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits. The Group provides benefits such as provident fund to its employees which is treated as defined contribution plan.

(iii) Short-term employee benefit obligations

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognized as an expense as the related service is rendered by employees.

(iv) Compensated absences:

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date using the Projected Unit Credit Method

Presentation and disclosure:

For the purpose of presentation of defined benefit plans and compensated absences, the allocation between the current and non-current provisions has been made as determined by an actuary.

3.14 Revenue Recognition

Revenue from contracts with customers is recognised on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services. It is measured at transaction price (net of variable consideration) allocated to that performance obligation. Revenue (net of variable consideration) is recognised only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

(i) Sale of Products

Revenue from sale of products is recognised when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the goods are shipped to the customer or on delivery to the customer, as may be specified in the contract.

(ii) Rendering of Services:

Revenue from services is recognised over time by measuring progress towards satisfaction of performance obligations for the services rendered.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

(iii) Other Operating revenue

Government Grants and subsidies:

Recognition and Measurement:

The Group recognises grant as income when there is a reasonable assurance that the Group will comply with all necessary conditions attached to them and the grant or subsidy will be received in accordance with Ind AS 20, Accounting for Government Grants and Disclosure of Government Assistance.

Revenue from export incentives, including those arising under the Remission of Duties and Taxes on Exported Products (RoDTEP), and Duty Drawback Scheme, is recognised on an accrual basis, post-export, at the rates at which the entitlements accrue.

Presentation:

Income from the above grants and subsidies are presented under Revenue from Operations - "Other Operating Income".

3.15 Other income

Interest income

Interest income is recognized when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is included under the head 'other income' in the Statement of profit and loss.

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of profit and loss.

3.16 Taxes

Tax expense for the year, comprising current tax and deferred tax, are included in determination of the net profit or loss for the year.

(i) Current income tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Advance taxes and provisions for current income taxes are presented in the balance sheet after offsetting advance tax paid and income tax provision arising in the same tax jurisdiction and where the Group intends to settle the asset and liability on a net basis.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is recognised on temporary differences, being differences between the carrying amount of assets and liabilities and corresponding tax bases used in the computation of taxable profit. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Group has a legally enforceable right for such set off.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside Statement of Profit and Loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

3.17 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.18 Segment Reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker (CODM) to make decisions for which discrete financial information is available. The Group is engaged in selling of goods. The CODM identified entire business as a single reportable segment, namely manufacturing of technical textiles fabrics, hence segment reporting is not applicable (Refer note 45).

(All amounts are in INR millions, unless otherwise stated)

3.19 Employee stock compensation cost

The fair value of options granted under the Group's employee stock option scheme measured as the excess of the fair value over the exercise price of the option at the date of grant is recognised as an employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted :

- ▶ 'including any market performance conditions (e.g. the entity's share price)
- ▶ 'excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- ▶ 'including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holding shares for a specific period of time). Further details are given in Note 49.

That cost is recognised, together with a corresponding increase in share options outstanding account in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

3.20 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

3.21 Business combination under common control

Common control business combination refers to a business combination involving entities in which all the combining entities are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. Business combinations involving entities or businesses under common control have been accounted for using the pooling of interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts. No adjustments have been made to reflect fair values, or to recognise any new assets or liabilities.

The financial information in the Restated Financial Information in respect of prior periods have been restated as if the business combination had occurred from the beginning of the earliest period presented in these Restated Financial Information, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information has been restated only from date of the business combination.

The difference, if any, between the purchase consideration paid either in the form of share capital or cash or other assets and the amount of net assets of the entities acquired is transferred to capital reserve in case of credit balance and common control adjustment deficit account in case of debit balance and presented separately from other reserves within equity. The nature and purpose of such reserve is disclosed in the notes.

4 Material accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the acGrouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

4.01 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) Useful lives of property, plant and equipment and intangible assets

As described in the significant accounting policies, the Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. Useful lives of intangible assets is determined on the basis of estimated benefits to be derived from use of such intangible assets. These reassessments may result in change in the depreciation /amortization expense in future periods.

(b) Actuarial Valuation

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in Other Comprehensive Income. Such valuation depend upon assumptions determined after taking into account discount rate, salary growth rate, expected rate of return, mortality and attrition rate. Information about such valuation is provided in notes to the financial statements.

Kusumgar Limited (formerly known as Kusumgar Private Limited)

Annexure V - Material Accounting Policies and other explanatory information to Restated Financial Information

(All amounts are in INR millions, unless otherwise stated)

(c) Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

(d) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Group as it is not possible to predict the outcome of pending matters with accuracy.

(e) Provisions

Provisions are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The litigations and claims to which the Group is exposed are assessed by management and in certain cases with the support of external specialised lawyers.

(f) Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Group reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the Restated Financial Information.

(g) Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

(h) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions

(i) Provision for expected credit losses of trade receivables and contract assets

The Group uses a provision matrix to calculate expected credit loss (ECL) for trade receivables and contract assets.

The provision matrix is initially based on the Group's historical observed default rates. At every reporting date, the historical observed default rates are updated.

The assessment of the correlation between historical observed default rates and ECLs is a significant estimate. The Group's historical credit loss experience may also not be representative of customer's actual default in the future.

(j) Share based payments

For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Group uses a Black Scholes model for Employee Stock Option. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 49.

5 Recent pronouncements

The Ministry of corporate Affairs ("MCA") notified amendments on 7 May 2025 and 13 August 2025 under the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which is effective from annual reporting periods beginning on or after 1 April 2025.

(a) Amendment to IND AS 7 and IND AS 107 - Supplier Finance Arrangement - The Group does not have any supplier finance arrangement during the reporting period

(b) Amendment to Ind AS 1 - Classification of liabilities as current or non-current and non-current - These amendments have no effect on the measurement of any items in the Consolidated financial statements of the Group. The Group did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(c) Amendment to Ind AS 12 - Pillar-Two Tax Reforms - The Group is not within the scope of the OECD Pillar Two Module Rule, as pillar Two legislative has not yet been enacted in any of the jurisdiction in which the Company operate.

(d) Amendment to Ind AS 21-Lack of exchangeability - These Amendment did not have any material impact on the account recognised in prior period and are not expected to significantly affect the current or future periods.

Ind AS 101 requires an entity to assess and determine the impairment allowance on financial assets as per Ind AS 109 using the reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments which were initially recognised and compare that to the credit risk at the date of transition to Ind AS. Group has applied this exception prospectively.

" (i) Clause ii(b) of the CARO 2020 order

During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores rupees, in aggregate from Banks on the basis of security of current assets. Refer note 24 to the standalone financial statements.

Based on the records examined by us in the normal course of audit of the standalone financial statements, quarterly returns / statements filed with such Banks are not in agreement with the books of accounts of the Company. Details of the same are as below.

Difference in value of stock for Quarter Ended	Amount disclosed as per quarterly return /Statement (INR in million)	Amount as per books of account (INR in million)	Difference	Remarks
Jun-24	945	955	(10)	The quarterly returns or statements filed by the Company for working capital limits with such banks are generally in agreement with the books of account of the Company. However, for the quarters specified is difference between the value of stock as per the company's books and the stock value reported in the quarterly stock statement submitted to the bank are primarily due to changes in the valuation of closing inventories.
September - 2024	1,112	1,049	63	
December - 2024	1,168	1,289	(121)	

(ii) Clause vii(a) of the CARO 2020 order

According to the information and explanations given to us and the records examined by us, in our opinion, undisputed statutory dues including Goods and Services tax, provident fund, employees' state insurance, income-tax, duty of customs, cess, and other statutory dues have generally been regularly deposited with the appropriate authorities during the year, though there has been a slight delay in a few cases.

(iii) Clause ix(d) of the CARO 2020 order

According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that funds raised on short term basis in the form of cash credit facility from banks aggregating to INR.657.27 millions has been used for long-term purposes."

As at and for the year ended 31 March 2024:

" (i) Clause vii(a) of the CARO 2020 order

According to the information and explanations given to us and the records of the Company examined by us, in our opinion, undisputed statutory dues including Goods and Services tax, provident fund, employees' state insurance, profession tax, income-tax, duty of customs, cess and other statutory dues have generally been regularly deposited with the appropriate authorities during the year, though there has been a slight delay in a few cases."

(d) Report on other legal and regulatory requirements

Reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) for the year ended March 31, 2026

" Based on our examination which included test check, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility, except that audit trail feature was enabled at the database level from July 27, 2025 in respect of an accounting software to log any direct data changes as explained in Note 53 to the financial statements. Further, where enabled, audit trail feature has operated for all relevant transactions recorded in the accounting software. Also, during the course of our audit, we did not come across any instance of audit trail feature being tampered with in respect of such accounting software. Additionally, the audit trail of prior year has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in respective years.

Reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) for the year ended March 31, 2025

" Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility except that the audit trail feature at the application level was enabled from 11 January 2025 for Purchase module and 12 February 2025 for Customer Module and 25 June 2024 for Sales module and was not enabled at the database level to log any direct data changes for the entire year as explained in note 53 to the financial statements. Further, where enabled, audit trail feature has operated throughout the period for all relevant transactions recorded in the accounting software. Also, during the course of our audit, we did not come across any instance of audit trail feature being tampered with in respect of such accounting software. Additionally, the audit trail of prior year has not been preserved by the Company as it was not enabled in the prior year as per the statutory requirements for record retention.

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in the paragraph 2(g)(vi) below on reporting under Rule 11(g). Also, in the absence of sufficient appropriate audit evidence we are unable to comment whether back-up of the books of account and other books and papers maintained in electronic mode is taken on a daily basis. Further, Books of accounts have been kept in servers physically located in India."

Reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) for the year ended 31 March 2024

" Based on our examination, the Company has used an accounting software for maintaining its books of account during the year ended 31 March 2024, which has a feature of recording audit trail (edit log) facility, except that the audit trail feature was not enabled in the accounting software throughout the year."

Nature and purpose of reserves

(a) Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013

(b) Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013 including for dividends and bonus issue.

(c) Retained earnings are the profits that the Group has earned/incurred till date, less any transfers to general reserve, bonus share issue, dividends or other distributions paid to shareholders.

(d) Other comprehensive Income reserve represents the cumulative gains and losses arising on the revaluation of equity investments measured at fair value through other comprehensive income.

(e) The share options outstanding reserve is used to recognise the grant date fair value of options issued to employees under Employee stock option plan. This Reserve is transferred to Securities Premium or Retained Earnings on exercise or lapse of vested options.

(f) Common control adjustment deficit account pertains to the impact of accounting for common control business combinations as detailed in note 51. The same will be utilised for the purposes as permitted by the Companies Act, 2013.

(g) Foreign Currency Translation Reserve is the exchange differences arising from the translation of financial statements of foreign subsidiaries with functional currency other than Indian rupees is recognized in other comprehensive income and is presented within equity.

(c) Defined benefit plans

Gratuity:

The Group provides for gratuity for employees in India as per the Payment of code on social security 2020. Employees who are in continuous service for a period of 5 years are eligible for gratuity and currently the Group has funded gratuity plan. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method.

Year 6 and above	23.83	18.73	14.59

The weighted average duration of defined benefit obligation is 9.20 years.

x) Gratuity is a defined benefit plan and entity is exposed to the following risks:

(i) Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

- Adverse salary growth experience: Salary hikes that are higher than the assumed salary escalation will result in obligation at a rate that is higher than expected.
- Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.
- Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

(ii) Investment / Interest Risk:

The Group is exposed to Investment / Interest risk if the return on the invested fund falls below the discount rate used to arrive at present value of the benefit.

(b) Performance Obligation

Sale of Products:

The performance obligation in case of sale of product is satisfied at a point in time i.e., when the goods are shipped to the customer or on delivery to the customer, as may be specified in the contract.

Rendering of Services:

Revenue from services is recognised over time by measuring progress towards satisfaction of performance obligations for the services rendered. The Company does not have any remaining performance obligation, as contracts entered for sale of goods are for a shorter duration. There are no contracts for sale of services wherein performance obligation is unsatisfied, to which transaction price has been allocated.

(c) Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue (Contract Asset), and deferred revenue (Contract liability) in Group's Balance Sheet.

The following table provides information about receivables, unbilled revenue and deferred revenue from contracts with customers:

Particulars	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024
Trade receivables	2,332.79	561.10	422.39
Advance From Customer (Contract Liability)	87.59	27.44	1,264.61

Trade receivables are non-interest bearing and are generally on terms of 30 to 45 days.

Set out below is the amount of revenue recognised from:

Particulars	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024

45 SEGMENT REPORTING

In accordance with Indian Accounting Standard (Ind AS) 108 on Operating Segments, the Group's business activities, as reviewed by the management, fall within a single operating segment, namely manufacturing of technical textiles fabrics. Consequently, no additional segmental disclosures are required in these financial statements beyond those already provided.

Operations of the Group are managed from India and United Arab Emirates. Accordingly, the following have been identified as operating and reportable segments: (a) "Within India", and (b) "Outside India". In presenting geographic information, segment revenue has been based on the location of the customer and segment assets are based on geographical location of assets.

(b) Fair value hierarchy

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Kusumgar Limited (formerly known as Kusumgar Private Limited)
Annexure VII - Notes to the Restated Financial Information
(All amounts are in INR millions, unless otherwise stated)

The Group has classified its financial instruments into the three levels prescribed under the Ind AS as below-

Particulars	Level 1	Level 2	Level 3	Total
As at				
31 March 2026				
FVTOCI-Investments in unquoted equity instruments	-	-	154.19	154.19

Fair value of Financial Assets and Liabilities measured at amortized cost:

The fair value of trade receivables, cash and cash equivalents, other bank balances, loans, other financial assets (current), borrowings (current), trade payables and other financial liabilities (current) are approximate to the carrying amounts because of the short-term nature of these financial instruments.

Fair value measurements using observable inputs (level 2)

The fair values of the derivative financial instruments has been determined using valuation techniques with market observable inputs as at reporting date.

Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the periods ended 31 March 2025, 31 March 2024 and 31 March 2023:

47 CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued equity capital, securities premium, all other equity reserves attributable to the shareholders of the Group. The primary objective of the Group's capital management is to maintain a strong capital base to ensure sustained growth in business and to maximize the shareholders value. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans including interest accrued, and by reducing cash and cash equivalents, bank balances other than cash and cash equivalents.

48 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's financial risk management policy is set by the managing board. These risks are categorised into market risk, credit risk and liquidity risk.

(a) Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument.

The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, and other market changes that affect market risk sensitive instruments. Financial instruments affected by market risk include borrowings and derivative financial instruments. The Group exposed to below two market risks-

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's borrowings with floating interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on variable borrowings, with all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Effect on profit before tax 1% increase/ 1% decrease		
	As at	As at	As at
	31 March 2026	31 March 2025	31 March 2024
Borrowings (Impact on profit and loss)	(1.81)/1.81	(0.92)/0.92	(0.31)/0.31

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's trade receivable and trade payable.

The foreign currency trade receivables/trade payables balances (unhedged) are as follows:

JPY (+/- 10% movement)	-	-	1.88
GBK (+/- 10% movement)	(0.00)	-	-

(b) **Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Group's trade receivables, loans, security deposits, bank balances and other financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The gross carrying amounts of following financial assets represent the maximum credit risk exposure:

Particulars	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024
Trade receivables	2,332.79	561.10	422.39
Cash and cash equivalents	268.29	304.94	326.80
Other bank balances	212.32	106.93	1,106.13
Investments	154.20	149.67	121.80
Loans	-	155.69	-
Other financial assets	386.03	297.99	100.30
Total	3,353.62	1,576.32	2,077.42

Balances with banks and fixed deposits are considered to have negligible risk or nil risk, as they are maintained with high rated banks / financial institutions as approved by the Board of directors.

Investments - The Group limits its exposure to credit risk by generally investing with counterparties that have a good credit rating. The Group does not expect any losses from non-performance by these counter-parties.

The Group is exposed to credit risk on its loan receivables and other financial assets. However, there is no material concentration of credit risk, as exposures are well diversified and no single counterparty presents a significant risk.

The Group applies the Ind AS 109 simplified approach for measuring expected credit losses which uses a lifetime expected loss allowance (ECL) for trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Group uses a provision matrix to measure the ECLs of trade receivables. The provision matrix is initially based on the Group's historical observed default rates. Based on evaluation carried out and to the best estimate of management, historical loss sufficiently covers expected loss as well as future contingencies, hence no adjustment for forward looking factors is carried.

Reconciliation of loss allowance for trade receivables

Particulars	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024
Opening provision	68.67	30.62	20.78

Reversal	(6.23)	-	-
Amounts written off	-	-	-
Closing provision	62.48	68.67	30.62

Other financial assets: (except fixed deposit with bank and interest accrued)

Based on the assessment carried out by the Group, credit risk on certain aged security deposits has increased significantly and these balances are considered credit-impaired.

Reconciliation of loss allowance for security deposits

Particulars	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024

Amounts written off	-	-	(0.80)
Closing provision	-	-	-

Note-Credit risk for security deposit other than above and other receivables has not increased significantly.

(c) **Liquidity risk**

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities.

The table below summarizes the undiscounted maturity profile of the Group's financial liabilities on an undiscounted basis:

49 Employee stock option plan

Equity-settled share option plan

Kusumgar ESOP Plan 2024 ("ESOP 2024") was approved by the Board of Directors and the Shareholders of the Company on 22nd October, 2024. The ESOP 2024 covers grant of Options to the specified employees of the Company covered under ESOP 2024.

As per the scheme, the number of shares that will vest is conditional upon the employee rendering the requisite service. The shares will be issued in tranches over the vesting period, in accordance with the terms of the plan.

This valuation report has been prepared using the Black-Scholes model, which takes into account key components such as historical volatility, exercise price, and the risk-free rate of return.

51 BUSINESS COMBINATION UNDER COMMON CONTROL

Pursuant to the business transfer agreement dated 05 December 2024, the Kusumgar Limited ("the Company") has acquired Engineered Coated Fabric Private Limited ("ECFPL") on a going concern basis.

The Company is engaged in the business of manufacturing and marketing of various critical technical textiles. The Company is owned by Kusumgar Family wherein Mr. Siddharth Y Kusumgar and Mrs. Sapna S Kusumgar jointly owns 95.67% of the entity. The Company decided to acquire a 100% stake in Engineered Coated Fabric Private Limited ('ECFPL'), which was then owned by Mr. Siddharth Y Kusumgar and Mrs. Sapna S Kusumgar equally, to attain economies of scale. Considering the above ECFPL pre and post the acquisition would ultimately be controlled by the same group of people i.e. Siddharth Y Kusumgar and Sapna S Kusumgar and thus common control accounting as per IND AS 103 is applicable.

As a result, the transaction has been accounted in accordance with "Pooling of Interest Method" laid down by Appendix C (Business Combinations of Entities under Common Control) of Indian Accounting Standard 103 (Ind AS 103), notified under the Companies' Act, 2013.

The Company has acquired ECFPL for a total cash consideration of INR 1,118.53 million, determined at arms' length basis fair value of the business acquired. As per the "Pooling of Interest Method" referred above, the assets and liabilities of the acquired business have been recorded in the books of the Company at their carrying amounts and no adjustments have been made to reflect fair values (of tangible/intangible assets acquired by the Company). Also, as required by the Appendix C to Ind AS 103, there is no recognition of any new asset (tangible/intangible) or liability arising from this business combination irrespective of their market/fair values on the acquisition date. The retained earnings of the ECFPL have been merged with the retained earnings of the Company. The difference between the purchase consideration paid for the acquisition and the net assets acquired as of the acquisition date as well as each reporting date before the acquisition date was transferred to Common control adjustment deficit account and presented separately within other equity.

As required under Ind AS 103, the current accounting period and comparative accounting period presented in the financial statements of the Company and accompanying Notes have been prepared by including the accounting effects of the acquisition of the business, as stated above, as if the purchase had occurred from the beginning of the comparative period in the financial statements, i.e. 01 April 2022.

OTHER FINANCIAL INFORMATION

Accounting ratios

The accounting ratios derived from the Restated Financial Information required to be disclosed under Clause 11 of Part A of Schedule VI of the SEBI ICDR Regulations and other non-GAAP measures are set forth below. The table below should be read in conjunction with the sections titled “Risk Factors”, “Restated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, on pages 22, 267 and 335, respectively.

Particulars	As at/for the Fiscals ended March 31,		
	2026	2025	2024
Restated earnings per equity share (Face value of ₹1 each) - Basic EPS (in ₹) ⁽¹⁾	9.68	11.03	8.32
Restated earnings per equity share (Face value of ₹1 each) – Diluted EPS (in ₹) ⁽²⁾	9.31	10.81	8.32
Return on Net Worth (in %) ⁽³⁾	19.52%	43.45%	60.13%
Net Asset Value per Equity Share (in ₹) ⁽⁴⁾	49.56	25.40*	7,053.22
EBITDA (in ₹ million) ⁽⁵⁾	1,878.50	1,883.89	1,318.47

* Pursuant to a special resolution of our shareholders dated October 1, 2024 each equity share of our Company of face value of ₹ 100 was sub-divided into Equity Shares of face value of ₹ 1 each and accordingly, the issued, subscribed and paid-up Equity Share capital of our Company was sub-divided from 199,000 equity shares of face value of ₹100 each into 19,900,000 Equity Shares of face value of ₹ 1 each. The earnings per Equity Share (basic and diluted) and Net Asset Value per Equity Shares has been calculated after giving effect to such sub-division.

Notes: The ratios based on Restated Financial Information have been computed as below:

⁽¹⁾Basic EPS (₹) = Net Profit after tax, as restated, attributable to equity shareholders divided by weighted average no. of equity shares outstanding during the year.

⁽²⁾Diluted EPS (₹) = Net Profit after tax, as restated, attributable to equity shareholders divided by weighted average no. of diluted equity shares outstanding during the year.

⁽³⁾Return on Net Worth (%) = Net Profit after tax, as restated for the end of the year divided by Net Worth as at the end of the year. Net Worth” has been defined as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation in accordance with Regulation 2(1)(hh) of the SEBI ICDR Regulations.

⁽⁴⁾Net Asset Value per Equity Share = Net Worth at the end of the year divided by total number of equity shares outstanding at the end of year.

⁽⁵⁾EBITDA = Aggregate of restated profit/(loss) before tax, finance cost, depreciation and amortisation, less other income.

For reconciliation of Non-GAAP measures, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations–Key Performance Indicators and Certain Non-GAAP Measures” on page 341.

- (h) any information given in connection with any of the transaction documents is incorrect or misleading in any material respect;
- (i) any security furnished to secure obligations or liabilities of our Company to the lender is or becomes invalid or unenforceable; and
- (j) cross defaults across other facilities of our Company.

This is an indicative list and there may be additional terms that may amount to an event of default under the various borrowing arrangements entered into by us.

9. ***Consequences of occurrence of events of default:*** Upon the occurrence of events of default, our lenders may:

- (a) terminate the facility and/or declare all amounts outstanding in respect of the facility to be due and payable immediately irrespective of the maturity date;
- (b) demand cure of the default;
- (c) convert whole or part of the outstanding loan obligations into to equity (either fully or partially);
- (d) enforce security or change any of the terms of sanction;
- (e) suspend further access to or withdrawals by our Company of the facilities;
- (f) incur all expenses from our Company in connection with preservation of, or enforcement actions against us and collection of dues; and
- (g) impose a penalty upon an event of default under the various borrowing arrangements entered into by us.

The above is an indicative list and there may be additional consequences of an event of default under the various borrowing arrangements entered into by us.

We have obtained the necessary consents required under the relevant loan documentation for undertaking activities in relation to the Offer. For further details of financial and other covenants required to be complied with in relation to our borrowings, see “*Risk Factors – 20. Our financing agreements contain covenants that limit our flexibility in operating our business. Any future failure to meet the conditions under our financing arrangements or obtain any consents thereunder could have a material adverse effect on our business, financial condition, results of operations and cash flows.*” on page 39.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Prospective investors should read the following discussion of our financial condition and results of operations together with our Restated Financial Information, which are included in “Restated Financial Information” on page 267, along with “Industry Overview” and “Our Business” on pages 137 and 185, respectively.

This section contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements. For details, see “Forward-Looking Statements” on page 20.

All references in this section to a particular Financial Year or FY or Fiscal, unless stated otherwise, are to the 12-month period ended on March 31 of that particular calendar year.

We have included certain non-GAAP financial measures and other performance indicators relating to our financial performance and business in this section. Such measures and indicators are not standardized terms and hence a direct comparison of these measures and indicators between companies may not be possible. For further details, see “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Non-Generally Accepted Accounting Principles” on page 18.

Unless otherwise indicated, industry and market data used in this section have been derived from the industry report titled “Engineered Fabrics Industry Report” dated June 21, 2026 (the “**1Lattice Report**”) prepared and issued by Lattice Technologies Private Limited (“**Lattice**”). Our Company commissioned Lattice to prepare the 1Lattice Report specifically for the purpose of the Offer for an agreed fee pursuant to the engagement letter dated February 3, 2025. The data included herein includes excerpts from the 1Lattice Report and may have been re-ordered by us for the purpose of presentation. There are no portions of or data or information in the 1Lattice Report that may be relevant for the proposed Offer that have been omitted or changed in any manner. For more details on the 1Lattice Report, see “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Industry and market data” on page 18. A copy of the 1Lattice Report was made available on our Company’s website at <https://www.kusumgar.com/investor-relations/home/> from the date of the Red Herring Prospectus until the Bid / Offer Closing Date.

OVERVIEW

For an overview of our business, see “Our Business – Overview” on page 185.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our results of operations have been, and will be, affected by many factors. The following is a discussion of certain factors that have had, and we expect will continue to have, a significant effect on our results of operations and financial condition.

Geopolitical developments, resulting in heightened defence spending globally and stronger demand across defence related market segments

We manufacture products primarily for four diverse market segments: (i) Aerospace and Defence Fabrics; (ii) Aerospace and Defence Solutions; (iii) Industrial and Automotive Fabrics; and (iv) Outdoor and Lifestyle Fabrics. For more details, see “Our Business - Overview” on page 185. The following table sets forth our revenue from contracts with customers from these four market segments, and from sales falling outside of those four market segments, for the fiscal years indicated.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers
Aerospace and Defence Fabrics	2,136.99	31.67%	3,700.92	48.06%	3,134.88	68.79%

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers
Aerospace and Defence Solutions	1,550.17	22.97%	2,219.02	28.81%	8.64	0.19%
Industrial and Automotive Fabrics	1,648.60	24.43%	1,126.34	14.63%	1,113.86	24.44%
Outdoor and Lifestyle Fabrics	1,253.15	18.57%	569.00	7.39%	291.65	6.40%
Other Sales ⁽¹⁾	159.23	2.36%	85.67	1.11%	7.92	0.17%
Revenue from contracts with customers	6,748.14	100.00%	7,700.95	100.00%	4,556.94	100.00%

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

Our revenue from Aerospace and Defence Fabrics decreased in Fiscal 2026 compared to Fiscal 2025 primarily due to a large order received in Fiscal 2025 that was not re-ordered in Fiscal 2026. We received ₹2,045.75 million from this order in Fiscal 2025 and ₹286.16 million from this order in Fiscal 2026. Our revenue from Aerospace and Defence Solutions decreased in Fiscal 2026 compared to Fiscal 2025 primarily due to the partial deferral of contract performance on a large contract due to operational requirements of the customer. In Fiscal 2026, we received an order with a contract value of ₹2,371.96 million, of which only 23.61% was executed in Fiscal 2026. We expect the remaining balance to be executed in Fiscal 2027.

The increase in revenue from our Aerospace and Defence Solutions market segment from Fiscal 2024 to Fiscal 2025 was primarily due to a single large order for Combat Free Fall (CFF) parachute systems from which ₹2,219.02 million was recognised as revenue from our Aerospace and Defence Solutions market segment for Fiscal 2025. This represented the entirety of our revenue from our Aerospace and Defence Solutions market segment for Fiscal 2025. CFF parachute systems were a new product introduced by us in Fiscal 2025. For more details, see “– Significant Factors Affecting our Results of Operations and Financial Condition – Our Ability to Upgrade our Existing Products and Introduce New Products” and “– Our Results of Operations – Fiscal 2025 compared to Fiscal 2024 – Income” on pages 337 and 364, respectively.

The aerospace and defence industry is experiencing significant growth, driven by rising geopolitical tensions and a surge in defence spending globally (source: 1Lattice Report). The 1Lattice Report notes that global defence spending is projected to grow at a CAGR of approximately 5.1% from 2025 to 2030, to reach approximately US\$ 3.7 trillion in 2030 (source: 1Lattice Report). Furthermore, the geopolitical tensions are accelerating investments in resilient, cutting-edge solutions and create a steady demand for specialised engineered fabrics and solutions (source: 1Lattice Report). Additionally, government policies supporting indigenous production are strengthening indigenous capabilities and ensuring long-term sustainability (source: 1Lattice Report).

The table below sets forth our revenue from contracts with customers from our four primary market segments, and from sales falling outside of those four market segments, for the fiscal years indicated and the percentage growth in such revenue from the previous fiscal year’s revenue.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

Increased demand from Indian customers driven by favourable global trade dynamics, including the shift towards a “China + 1” sourcing strategy

The demand for our products from Indian customers increased primarily due to favourable global trade dynamics. Favourable global trade dynamics included the shift towards a “China + 1” sourcing strategy (due to factors such as trade tariffs and trade barriers impacting the price of imports from China), supply chain diversification by multinational corporations, and a broader shift by global buyers towards India as a sourcing hub. In particular, in respect of the “China + 1” sourcing strategy, as companies seek to diversify their supply chains away from China, India has witnessed rapid development in industries such as electronics, pharmaceuticals, and automotive manufacturing (*source: 1Lattice Report*). Supporting this shift, the Production-Linked Incentive scheme has as of December 2025 attracted ₹2.1 trillion in investments across 14 sectors (*source: 1Lattice Report*).

The table below sets forth our revenue from contracts with customers from within India and outside India for the fiscal years indicated.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers

Revenue from New Customers

Our revenue from new customers (which we define as customers in a fiscal year who were not our customers within the previous two fiscal years (“**New Customers**”)) has made a material contribution to our revenue for Fiscals 2026, 2025 and 2024. The table below sets forth our revenue from contracts with existing customers (which we define as customers in a fiscal year who were our customers within the previous two fiscal years (“**Existing Customers**”)) and revenue from contracts with New Customers and such revenue as a percentage of our revenue from contracts with customers.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers
Existing Customers	5,495.67	81.44%	5,312.27	68.98%	1,966.90	43.16%
New Customers	1,252.47	18.56%	2,388.68	31.02%	2,590.04	56.84%
Revenue from contracts with customer	6,748.14	100.00%	7,700.95	100.00%	4,556.94	100.00%

The table below sets forth our revenue from Existing Customers and New Customers and revenue from contracts with customers for the fiscal years indicated and the percentage increase in such revenue from the previous fiscal year’s revenue.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024
	₹ in million	% increase from the previous Fiscal	₹ in million	% increase from the previous Fiscal	₹ in million
Existing Customers	5,495.67	3.45%	5,312.27	170.08%	1,966.90

Revenue from contracts with customer	6,748.14	(12.37)%	7,700.95	68.99%	4,556.94

Our Ability to Upgrade our Existing Products and Introduce New Products

We dedicate significant efforts and resources into research and development to upgrade our products and develop new products and these upgraded and new products have made a material contribution to our revenue from operations. The table below sets forth our revenue from new SKUs introduced during the fiscal year and our revenue from SKUs introduced in prior fiscal years, in each of the fiscal years indicated, and such revenue as a percentage of our revenue from contracts with customers.

	Fiscal 2026		Fiscal 2025		Fiscal 2024
	₹ in million	% increase from the previous Fiscal	₹ in million	% increase from the previous Fiscal	₹ in million
Revenue from new SKUs introduced during the Fiscal [A]	2,042.96	(28.67)%	2,864.21	18.14%	2,424.32
Revenue from SKUs introduced in prior Fiscals [B]	4,705.18	(0.45)%	4,726.22	156.96%	1,839.27

The table below sets forth examples of the new types of products (i.e., a new type of product and not a variation of an existing product) we launched and from which we earned revenue in the periods indicated.

Particulars	Type of new product
Fiscal 2026	Nil
Fiscal 2025	Combat Free Fall (CFF) parachute systems
Fiscal 2024	Nil
Fiscal 2023	Infrared reflective fabric and fabric for extreme cold weather clothing

The table below sets forth our revenue from contracts with customers from each of the above listed new type of products.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers	₹ in million	% of revenue from contracts with customers
Infrared reflective fabric and fabric for extreme cold weather clothing	-	-	1,986.88	25.80%	2,153.40	47.26%

Cost of Materials Consumed and Changes in Inventories of Finished Goods and Semi-Finished Goods

The cost of materials consumed and changes in inventories of finished goods and semi-finished goods together represent a significant percentage of revenue from our sale of products. The table below sets forth our cost of materials consumed, changes in inventories of finished goods and semi-finished goods, the total of the foregoing, and the total as a percentage of our revenue from sale of products for the fiscal years indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
	₹ in million, except percentages		
Cost of materials consumed [A]	3,081.66	3,713.71	2,002.86

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
	₹ in million, except percentages		
Changes in inventories of finished goods and semi-finished goods [B]	(519.12)	(111.76)	(232.62)
Total [C = A + B]	2,562.54	3,601.95	1,770.24
Total as a percentage of sale of products [D = C/E] (%)	41.17%	46.86%	38.94%
Sale of products [E]	6,225.01	7,685.98	4,545.65

The prices of the raw materials we need are affected by numerous factors beyond our control, including, among others, trade policies, the price of oil, production capacity and transportation costs (*source: 1Lattice Report*). Fluctuations in global demand and supply, and currency exchange rates further exacerbate the situation, as they influence the base prices of various raw materials (*source: 1Lattice Report*).

If the prices of the raw materials we need rapidly increase, we may be unable to increase the prices for our products in sufficient time to fully offset increasing raw material prices. Our ability to transfer increases in raw material costs to our customers is dependent on, among others, market conditions as well as pricing of similar products by our competitors. In Fiscals 2026, 2025 and 2024, we have been successful in transferring increases in raw material costs to customers through increased prices, although there has typically been a time lag.

For details, see “Our Business – Strengths – Our track record has given us access to technology and markets through partnerships.” on page 191. We expect product upgrades and new products to make a meaningful contribution to our revenue from operations in the future.

Capacity utilisation and increase in production capacity

Given the nature of our business, our profitability is partially dependent on our ability to spread fixed production costs over higher production volumes. A higher capacity utilisation spreads fixed costs over more units, boosting margins, while low utilisation spreads fixed costs over fewer units, decreasing margins. At the same time, an increase in production capacity, even without a corresponding rise in capacity utilisation, can support profitability so long as margins on incremental sales exceed the additional fixed production costs. In such cases, the added capacity allows the Company to meet higher demand, reduce bottlenecks, and benefit from economies of scale as volumes increase over time.

The table below sets forth our aggregate installed capacity, actual production volume and capacity utilisation across all our manufacturing facilities for the fiscal years indicated:

Metric	Fiscal 2026	Fiscal 2025 ⁽¹⁾	Fiscal 2024
Installed Capacity ⁽²⁾ (metres in million)	161.97	147.52	66.58
Actual Production ⁽³⁾ (metres in million)	84.62	62.41	60.05
Capacity Utilisation ⁽⁴⁾ (%)	52.24%	56.36%	87.02%

Notes:

⁽¹⁾ The Company’s total installed capacity increased from 66.58 million metres as at March 31, 2024 to 147.52 million metres as at March 31, 2025 due to its commencement of operations at an additional manufacturing facility located at Block No. 172, Old Block No. 157, Kothwa, Taluka Mangrol, District Surat, on April 1, 2024 for scouring, dyeing, finishing, processing and coating nylon and polyester fabrics. The addition of this manufacturing facility also led to an increase in the Company’s final output capacity from 48.86 million metres as at March 31, 2024 to 127.80 million metres as at March 31, 2025. While the Company’s total installed capacity is the aggregate of installed capacity at all its factories, the Company’s final output capacity is the aggregate of the installed capacity at its processing, dyeing, finishing, printing and coating factories. The capacity of weaving factories, which make up the remainder of the Company’s factories, is not included in the Company’s final output capacity as fabric that is only weaved is an intermediate product that is not sold. The Company only sells finished fabric, being fabric that has been processed, dyed, finished, printed and/or coated at one of its other factories.

⁽²⁾ Installed capacity represents the installed capacity as of the last date of the relevant Fiscal. The installed capacity is based on various assumptions and estimates, including standard capacity calculation practice in the industry in which we operate. Assumptions and estimates taken into account for measuring installed capacities include 355 working days in a year.

⁽³⁾ Actual production represents the quantum of production in the relevant Fiscal.

⁽⁴⁾ Capacity utilization has been calculated on the basis of actual production in the relevant Fiscal divided by the installed capacity as at the end of such Fiscal.

For details regarding our installed capacity, actual production and capacity utilisation for Fiscals 2026, 2025 and 2024, see “Our Business – Manufacturing Capabilities” on page 199.

Capital investments resulting in increases in depreciation

Capital investments and associated operating costs are related to the commissioning of new processing and weaving units.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
	(₹ in million, except percentages)		
Depreciation and amortisation expense	466.89	341.90	170.97
Of which:			
Depreciation of property, plant and equipment	358.79	255.46	123.97
Depreciation of property, plant and equipment as a percentage of sale of products	5.76%	3.32%	2.73%
Sale of products	6,225.01	7,685.98	4,545.65

Employee Benefits Expense

The table below sets forth our total number of employees as at the dates indicated and our employee benefits expense for the fiscal years indicated and as a percentage of revenue from operations.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
	₹ in million, except as noted		
Total number of employees	1,051	1,058	866
Employee benefits expense [A]	881.86	655.73	414.85
Employee benefits expense as a percentage of revenue from operations [B = A/C] (%)	12.74%	8.42%	8.87%
Revenue from operations [C]	6,920.03	7,789.97	4,679.08

Changes in Currency Exchange Rates

Although our Company’s reporting currency is in Indian Rupees, we transact a portion of our business in several other currencies. Certain portions of our income and expenses are generated or incurred in other currencies and certain portions of our assets (trade receivables and cash and cash equivalents) and liabilities (trade payables) are in other currencies, such as USD and Euros.

The table below sets forth our total foreign currency receivables, total trade payables, total foreign currency borrowings, the total value of our outstanding forward contracts against net receivables and borrowings, and net gain/(loss) on foreign currency transactions as at and for the fiscal years indicated.

Particulars	As at and for the year ended March 31,		
	2026	2025	2024
	(₹ in million)		
Total foreign currency trade receivables	1,671.82	307.44	225.85
Cash and cash equivalents in foreign currency (In Exchange Earning Foreign Currency (EEFC) account and cash in hand)	19.96	37.29	48.92
Trade payables in foreign currency	310.87	127.38	194.76
Buyers Credit	-	16.02	-
Foreign currency borrowings (non-current)	-	-	-
Outstanding forward contracts against net receivables and borrowings	142.97	-	714.56
Net gain/(loss) on foreign currency transactions	147.91	46.95	32.40

The exchange rates between the Indian Rupee and the currencies in which we receive payments for such exports, primarily the USD, have fluctuated in the past and our results of operations have been affected by such fluctuations in the past and may be impacted by such fluctuations in the future. Due to our inherent net foreign currency long position, depreciation of the Indian Rupee against foreign currencies will generally have a positive effect on our revenues and our results of operations and appreciation of the Indian Rupee against foreign currencies will

generally have a negative effect on our revenues and our results of operations. There can be no guarantee that such fluctuations will not adversely affect our results of operations. However, the positive effect on depreciation of the Indian Rupee may not be sustained or may not show an appreciable effect on our results of operations in any given financial period due to other variables affecting our results of operations during the same period. Moreover, we expect that our cost of imported goods, such as raw materials, imported stores and spares, and other expenses incurred by us may rise during a sustained depreciation of the Indian Rupee against the USD.

Our exposure to the risk of changes in foreign exchange rates relates primarily to our operating activities (when revenue or expense is denominated in a different currency from our functional currency). We from time to time hedge a significant portion of our net foreign exchange exposure through forward contracts and foreign currency borrowings. We are exposed to foreign currency risk on the unhedged exposure of foreign currency translation of receivables and trade payables. For additional quantitative disclosures on foreign currency risk, see “*Restated Financial Information – Note 48 – Financial Risk Management Objectives and Policies – (a) Market Risk – (ii) Foreign Currency Risk*” on page 320.

KEY PERFORMANCE INDICATORS AND CERTAIN NON-GAAP MEASURES

In evaluating our business, we consider and use certain non-GAAP financial measures and key performance indicators that are presented below as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures and key performance indicators are not intended to be considered in isolation or as a substitute for the Restated Financial Information. We present these non-GAAP financial measures and key performance indicators because they are used by our management to evaluate our operating performance. These non-GAAP financial measures are not defined under the Ind AS and are not presented in accordance with the Ind AS. The non-GAAP financial measures and key performance indicators have limitations as analytical tools. Further, these non-GAAP financial measures and key performance indicators may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these matrices should not be considered in isolation or construed as an alternative to the Ind AS measures of financial performance or as an indicator of our financial condition, results of operations or cash flows.

For details of certain Ind AS financial measures, non-GAAP financial measures and statistical measures, see “*Our Business – Overview*” and “*Basis for Offer Price – Key Performance Indicators (“KPIs”)*” on page 185 and 119, respectively.

Reconciliation of Non-GAAP Financial Measures

The following table sets forth our EBITDA and EBITDA Margin, which are non-GAAP financial measures, for the fiscal years indicated.

Particulars	For the year ended March 31,		
	2026	2025	2024
	(₹ in million, except percentages)		
Profit for the year	982.00	1,119.88	843.96
Less:			
Other income	197.75	112.15	66.43
Add:			
Total income tax expense	367.58	387.95	306.75
Finance costs	259.78	146.31	63.22
Depreciation and amortisation expense	466.89	341.90	170.97
EBITDA [A]	1,878.50	1,883.89	1,318.47
Revenue from operations [B]	6,920.03	7,789.97	4,679.08
EBITDA Margin [A/B] (%)	27.15%	24.18%	28.18%

Our EBITDA decreased by 0.29% to ₹1,878.50 million in Fiscal 2026 from ₹1,883.89 million in Fiscal 2025. This decrease was primarily due to the 12.31% decrease in our profit for the year to ₹982.00 million in Fiscal 2026 from ₹1,119.98 million in Fiscal 2025 and 76.33% increase in our other income to ₹197.75 million in Fiscal 2026 from ₹112.15 million in Fiscal 2025, which was partially offset by, amongst other things increase 77.55% in our finance costs to ₹259.78 million in Fiscal 2026 from ₹146.31 million in Fiscal 2025. For details on the reasons for the changes in the line items in the above table, see “– *Our Results of Operations – Fiscal 2026 compared to Fiscal 2025*” on page 361.

Our EBITDA increased by 42.88% to ₹1,883.89 million in Fiscal 2025 from ₹1,318.47 million in Fiscal 2024. This increase was primarily due to the 32.69% increase in our profit for the year to ₹1,119.98 million in Fiscal 2025 from ₹843.96 million in Fiscal 2024, which increase was primarily due to an increase in our revenue from contracts with customers in each of our Aerospace and Defence Solutions and Aerospace and Defence Fabrics and market segments. Our revenue from Aerospace and Defence Solutions increased to ₹2,219.02 million for Fiscal 2025 from ₹8.64 million for Fiscal 2024. This increase was primarily due to a large order for Combat Free Fall (CFF) parachute systems, which was a new product introduced by us in Fiscal 2025. We recognised revenue of ₹2,225.88 million from this large order for Fiscal 2025, with ₹2,219.02 million of such revenue recognised as revenue under our Aerospace and Defence Solutions market segment. We generally do not have long-term agreements for the sale of any of our products, including for Combat Free Fall (CFF) parachute systems, so the revenue from this product in Fiscal 2025 may not be indicative of the revenue from this product in future fiscal years. Our revenue from Aerospace and Defence Fabrics increased by 18.06% to ₹3,700.92 million for Fiscal 2025 from ₹3,134.88 million for Fiscal 2024, which increase was primarily due to an increase in the volume of orders, as well as a change in our product mix. The increase in the volume of orders was primarily attributable to an increase in sales to customers in India, and not any singular large order. The change in product mix included increases in the sale of specialised military fabrics, the manufacturing of which involves advanced specifications, proprietary know how, and enhanced value addition, resulting in higher prices compared to legacy fabric offerings. For more details on the reasons for the changes in the line items in the above table, see “– Our Results of Operations – Fiscal 2025 compared to Fiscal 2024” on page 364.

BASIS OF PREPARATION OF RESTATED FINANCIAL INFORMATION

Basis of preparation

Basis of Preparation of Restated Financial Information

- (a) Statement of compliance

The Restated Financial Information of the Company and its subsidiaries comprises of the Restated Statement of Assets and Liabilities as at 31 March 2026, 31 March 2025 and 31 March 2024, the Restated Statement of Profit and Loss (including Other Comprehensive income), the Restated Statement of Cash Flows, the Restated Statement of Changes in Equity for the years ended 31 March 2026, 31 March 2025 and 31 March 2024, the summary of material accounting policies and other explanatory Information (collectively, the “**Restated Financial Information**”).

These Restated Financial Information have been prepared by the Management of the Company for the purpose of inclusion in the Red Herring Prospectus and this Prospectus filed with the Securities and Exchange Board of India (“SEBI”), BSE Limited (the “BSE”) and National Stock Exchange of India Limited (the “NSE”) (BSE and NSE together, referred to as the “Stock Exchanges”) prepared by the Company in connection with its proposed initial public offer of equity shares (“IPO”). These Restated Financial Information have been prepared in terms of the requirements of:

(a) Section 26 of Part I of Chapter III of the Companies Act, 2013 (the “Act”);

(b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018, as amended (the “ICDR Regulations”)

(c) the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (“ICAI”), as amended (the “Guidance Note”).

(d) E-mail dated 28 October 2021 from SEBI to Association of Investment Bankers of India, instructing lead managers to ensure that companies provide consolidated financial statements prepared in accordance with Indian Accounting Standards (Ind AS) for all the three years.

These Restated Financial Information have been compiled by the management from:

(a) the audited consolidated financial statements of the Group as at and for the year ended 31 March 2026 prepared in accordance with Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and other accounting principles generally accepted in India which have been approved by the Board of Directors at their meeting held on 18 May 2026.

(b) the audited consolidated financial statements of the Group as at and for the year ended 31 March 2025 prepared in accordance with Ind AS as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and other accounting principles generally accepted in India which have been approved by the Board of Directors at their meeting held on 10 June 2025.

(c) the audited special purpose combined financial statements of the Group as at and for the year ended 31 March 2024 prepared based on the following:

(i) The audited standalone statutory financial statements of the Company as at and for the year ended 31 March 2024, prepared in accordance with Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other recognized accounting practices and policies generally accepted in India; and

(ii) Pursuant to the Companies (Indian Accounting Standard) Rules, 2015 (as amended from time to time), Engineered Coated Fabric Private Limited (“ECFPL” or the “Subsidiary”), adopted 01 April 2023 as reporting date for first time adoption of Indian Accounting Standards (Ind AS) notified under these rules, and consequently 01 April 2023 as the transition date for preparation of its statutory financial statements for the year ended 31 March 2025. Hence, the general purpose financial statements of the Subsidiary as at and for the year ended 31 March 2025, were the first financials statements, prepared in accordance with the Ind AS. Up to, for the financial year ended 31 March 2024 the Subsidiary had prepared its general purpose financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with Companies (Accounting Standards) Rules, 2021 (“Indian GAAP” or “Previous GAAP”) due to which these Special Purpose financial statements are prepared. Also, these Special Purpose Financial Statements are not the statutory financial statements of the Subsidiary under the Act. These Special Purpose financial statements of the Subsidiary as at and for the year ended 31 March 2024, have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (01 April 2023) and as per the presentation, accounting policies and grouping/classifications including revised Schedule III to the Companies Act, 2013 disclosures followed as at and for the year ended 31 March 2025 which have been approved by the Board of Directors at their meeting held on 03 September 2025.

As disclosed in Note 51 to the Restated Financial Information, the Company acquired Engineered Coated Fabric

Private Limited (the “Subsidiary”) on 05 December 2024. The statutory date of transition to Ind AS for the Subsidiary is 01 April 2023. However, for the purpose of preparing the Restated Financial Information, the Company has adopted a transition date of 01 April 2022. Accordingly, the Subsidiary has applied the same accounting policies and policy choices (including both mandatory exceptions and optional exemptions availed under Ind AS 101, as applicable) as on 01 April 2022, consistent with those initially adopted on the statutory transition date of 01 April 2023. This acquisition has been classified as a common control transaction in accordance with Appendix C to Ind AS 103, Business Combinations.

Accordingly, audited standalone statutory financial statements of the Company for the year ended 31 March 2024 and audited special purpose financial statements of the subsidiary acquired vide common control transaction (Refer note 51) for the year ended 31 March 2024 have been combined in accordance with Guidance Note on Combined and Carve-Out Financial Statements issued by the Institute of Chartered Accountants of India.

A reconciliation of total equity and total comprehensive income between the Audited Consolidated Financial Statements as at and for the years ended 31 March 2026 and 31 March 2025, Audited Special Purpose Combined Financial Statements as at and for the year ended 31 March 2024 and Restated Financial Information has been presented in Annexure VI - Part A.

The Restated Financial Information were authorized for issue by the Company's Board of Directors on 05 June 2026

(b) Principles of Consolidation

The Restated Financial Information comprise the financial statements of the Company and its Subsidiaries. Subsidiaries are entities controlled by the Group. The Restated Financial Information of the Group have been prepared in accordance with the Indian Accounting Standards on “Consolidated Financial Statements” (Ind AS 110) notified under Section 133 of the Companies Act, 2013. The Group controls an investee only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Restated Financial Information from the date the Group gains control until the date the Group ceases to control the subsidiary.

Restated Financial Information are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the Restated Financial Information for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the Restated Financial Information to ensure conformity with the Group's accounting policies. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

The Combined Financial Statements have been prepared by combining like items of assets, liabilities, equity, income, expenses and cash flows of the entities forming part of Group. All the intragroup assets and liabilities, equity, income, expenses and cash flows relating to entities forming part of Group have been eliminated and profits or losses arising from intragroup transactions have been eliminated in full.

Combined financial information are prepared using uniform accounting policies for like transactions and other events in similar circumstances. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

(c) Basis of measurement

The Restated Financial Information have been prepared on accrual basis and under historical cost convention,

except for the following:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- Employees defined benefit obligation and leave encashment are recognised as per actuarial valuation.
- Share-based payments liability measured at fair value"

Classification into current and non-current:

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Group has ascertained its normal operating cycle as 12 months for the purpose of Current/Non-current classification of assets and liabilities.

(d) Use of estimates, judgements and assumptions

The preparation of Restated Financial Information requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the Group's financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected. (Refer Note 4 for details).

(e) Presentation currency and rounding off

The Restated Financial Information are presented in Indian Rupees (INR), which is both the functional currency of the Group and the currency of the primary economic environment in which it operates. All amounts are stated in millions of INR, rounded to two decimal places, in accordance with the requirements of Schedule III to the Companies Act 2013, unless stated otherwise. Figures represented as "0" denote values that are not zero but have been rounded to the nearest INR million.

(f) Going Concern

The Restated Financial Information are prepared on a going concern basis as the Management is satisfied that the Group shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

Material accounting policies

A summary of the material accounting policies applied in the preparation of the Restated Financial Information are as given below. These accounting policies have been applied consistently to all periods presented in the Restated Financial Information.

Property, plant and equipment

Property, plant and equipment, are stated at historical cost of acquisition or construction less accumulated depreciation and impairment losses, if any. Cost of property, plant and equipment comprises its purchase price net of any discounts and rebates, any import duties and other taxes (other than those subsequently recovered from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use.

The Group identifies and determines cost of each part of an item of property plant and equipment separately if the part has a cost which is significant to the total cost of that item of property plant and equipment and has useful life that is materially different from that of the remaining item.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced (All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred).

Interest cost incurred is capitalized up to the date the asset is ready for its intended use for qualifying assets, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation methods, estimated useful lives

Depreciation on property, plant and equipment is provided on a pro-rata basis on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013, or re-assessed by the Group. The Group has estimated the following as useful life to provide depreciation on its Property, Plant & Equipment.

The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

Name of the asset	Estimated Useful Lives by the management
Buildings	3 to 30 years
Plant & Machinery	7.5 to 15 years
Electrical Installation	10 years
Furniture & Fixtures	10 years
Vehicles	10 years
Leasehold Improvement	8 to 10 years Lower of lease period & estimated useful life
Office/Factory Equipment	5 years
Computers	3 years

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other income' / 'Other expenses' respectively.

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Government grants relating to assets, including non-monetary grants at fair value, shall be presented in the balance sheet either by setting up the grant as deferred income or by deducting the grant in arriving at the carrying amount of the asset.

Capital work-in-progress

Cost of assets not ready for intended use, as on the Balance sheet date, is shown as capital work in progress. The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

Other Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognised on a straight line basis over their estimated useful lives so as to reflect the pattern in which the assets economic benefits are consumed. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. The amortization of intangible asset is included in Depreciation and amortization expense in Statement of Profit and Loss.

Software is amortized over the management's estimate of its useful life, i.e. 6 years.

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Units (CGU's) fair value less costs of disposal and its value in use.

The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

The Group bases its impairment calculation on most recent budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Inventories

Inventories are valued at the lower of cost or net realizable value.

Cost of raw material, stores spares, packing material etc. includes cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after

deducting rebates and discounts.

Finished goods and work-in-progress : Cost includes cost of direct material and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing cost.

Spare parts those does not meet definition of Property, Plant and Equipment are carried as inventory.

Transit stock are valued at cost.

Cash and cash equivalents and Cash flow statement

Cash and cash equivalent in the balance sheet comprises cash at banks, cash on hand, fixed deposits having a original maturity of less than 3 months, which are subject to an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby net profits before tax are adjusted for the effects of the transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Group are segregated.

Foreign Currency Translation

(a) Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Group are recorded in the functional currency, by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

(b) Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Group are translated at the closing exchange rates. Nonmonetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of foreign exchange translations and settlements during the year are recognised in the Consolidated Statement of Profit and Loss.

(c) Translation of financial statements of foreign entities :

On consolidation, the assets and liabilities of foreign operations are translated into INR at the exchange rate prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions.

Any exchange differences arising from the translation of foreign operations are recognized in the Consolidated Statement of Other Comprehensive Income (OCI). These exchange differences are accumulated in equity under a separate component known as the Foreign Currency Translation Reserve.

Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are possible assets that arises from past events and whose existence will be confirmed only by

the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent asset is disclosed, where an inflow of economic benefits is probable.

Fair value measurement

The Group measures certain financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the Group.

The best estimate of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently that difference is recognised in Statement of Profit and Loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

(i) Initial recognition and measurement

At initial recognition, financial asset is measured at its fair value plus the transaction cost directly attributable to the acquisition of the financial asset in the case of a financial asset measured not at fair value through profit or loss. Transaction costs directly attributable to the acquisition of financial assets measured at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial

assets is included in finance income using the effective interest rate method (EIR).

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit and Loss.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through other comprehensive income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss.

When the financial asset is derecognised, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains / losses.

Fair value through profit or loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and it is irrevocable.

In case of equity instruments classified as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

(iii) Impairment of financial assets

In accordance with Ind AS 109 "Financial Instruments", the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Trade receivables:

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables resulting from transactions within the scope of Ind AS 115 "Revenue from Contracts with Customers". The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition."

Other financial assets:

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss.

However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Lifetime ECL is the expected credit loss resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after year end.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original effective interest

rate (EIR). When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the Statement of Profit and Loss. For financial assets measured at amortised cost, ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognised only when

- a) the rights to receive cash flows from the financial asset is transferred or expired
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the received cash flows in full without material delay to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognised only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the financial asset is neither transferred, nor the entity retains substantially all risks and rewards of ownership of the financial asset, then in that case financial asset is derecognized only if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

On derecognition of a financial asset, the difference between the carrying amount and the consideration received is recognised in the Statement of Profit and Loss.

(b) Financial liabilities and equity instruments

Classification as debt or equity

An instrument issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans, borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial

liabilities designated upon initial recognition as at fair value through profit or loss.

Derivative financial instruments

The Group uses derivative financial instruments, primarily foreign exchange forward contracts, to manage its exposure to foreign exchange risk. These contracts are generally entered into with banks as counterparties.

Derivatives that are not designated as hedging instruments, or those designated as hedges but deemed ineffective under Ind AS 109, are accounted for as financial assets or financial liabilities at fair value through profit or loss.

Such derivatives are initially recognized at fair value on the contract date, with any attributable transaction costs recognized in the Statement of Profit and Loss when incurred. Subsequently, these derivatives are re-measured at fair value through profit or loss, and any resulting gains or losses are recorded in other income or other expenses.

Derivatives with a positive fair value are classified as financial assets, while those with a negative fair value are classified as financial liabilities.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

The entity's long-term borrowings are all at a variable interest rate; therefore, the unamortised transaction costs incurred on these borrowings are amortized on a straight-line basis instead of using the effective interest rate (EIR) method.

Financial liabilities at amortised cost

All the financial liabilities of the Group are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(iii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

Corporate Guarantee

Corporate guarantees given are treated as deferred income and amortized over the term of the guarantee on a systematic basis. The amortization is recognized in the profit and loss statement under "Other Income," reflecting the usage pattern of the guarantee.

Leases

As a lessee:

At inception of a contract, the Group assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

(a) The contract involves the use of an identified asset –this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;

(b) The Group has the right to substantially all of the economic benefits from the use of the asset throughout the period of use; and

(c) The Group has the right to direct the use of the asset. The Group has this right when it has the decision making rights that are most relevant to changing how and for what purposes the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:

- The Group has the right to operate the asset; or
- The Group designed the asset in a way that predetermines how and for what purposes it will be used

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Group's incremental borrowing rate. The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected to not recognize leases with a lease term of 12 months or less or of low value in the balance sheet, and lease costs for those short-term leases or low-value leases are recognized on a straight-line basis over the lease term in the Statement of Profit and Loss. The Group has elected the lessee practical expedient to combine lease and non-lease components and account for the combined unit as a single lease component.

Employee Benefits

(i) Defined benefit plans

Gratuity: The Group's gratuity benefit scheme is a defined benefit plan. Group's net obligation in respect of a defined benefit plan is calculated by estimating amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Present value of obligation under such benefit plan is determined based on actuarial valuation using projected unit credit method which recognizes each period of service that give rise to additional units of employee benefit entitlement and measures each unit separately to build up final obligation. Obligation is measured at present values of estimated future cash flows. The discounted rates used for determining present value are based on market yields

on Government Securities as at the balance sheet date.

Defined benefit costs are categorised as follows:

- i. The current service cost of the defined benefit plans, recognised in the Statement of Profit and Loss in employee benefits expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs, which comprise plan amendments and curtailments, as well as gains or losses on the settlement of pension benefits are recognised immediately in the Statement of Profit and Loss when they occur.
- ii. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in finance cost in the Statement of Profit and Loss.
- iii. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

(ii) Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

The Group provides benefits such as provident fund to its employees which is treated as defined contribution plan.

(iii) Short-term employee benefit obligations

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognized as an expense as the related service is rendered by employees.

(iv) Compensated absences:

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date using the Projected Unit Credit Method

Presentation and disclosure:

For the purpose of presentation of defined benefit plans and compensated absences, the allocation between the current and non-current provisions has been made as determined by an actuary.

Revenue Recognition

Revenue from contracts with customers is recognised on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services. It is measured at transaction price (net of variable consideration) allocated to that performance obligation. Revenue (net of variable consideration) is recognised only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

(i) Sale of Products

Revenue from sale of products is recognised when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the goods are shipped

to the customer or on delivery to the customer, as may be specified in the contract.

(ii) Rendering of Services:

Revenue from services is recognised over time by measuring progress towards satisfaction of performance obligations for the services rendered.

(iii) Other Operating revenue

Government Grants and subsidies:

Recognition and Measurement:

The Group recognises grant as income when there is a reasonable assurance that the Group will comply with all necessary conditions attached to them and the grant or subsidy will be received in accordance with Ind AS 20, Accounting for Government Grants and Disclosure of Government Assistance.

Revenue from export incentives, including those arising under the Remission of Duties and Taxes on Exported Products (RoDTEP), and Duty Drawback Scheme, is recognised on an accrual basis, post-export, at the rates at which the entitlements accrue.

Presentation:

Income from the above grants and subsidies are presented under Revenue from Operations – “Other Operating Income”.

Other income

Interest income

Interest income is recognized when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is included under the head

‘other income’ in the Statement of profit and loss.

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of profit and loss.

Taxes

Tax expense for the year, comprising current tax and deferred tax, are included in determination of the net profit or loss for the year.

(i) Current income tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Advance taxes and provisions for current income taxes are presented in the balance sheet after offsetting advance tax paid and income tax provision arising in the same tax jurisdiction and where the Group intends to settle the asset and liability on a net basis.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is recognised on temporary differences, being differences between the carrying amount of assets and liabilities and corresponding tax bases used in the computation of taxable profit. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are

recognised for all temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Group has a legally enforceable right for such set off.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside Statement of Profit and Loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Segment Reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker ("CODM") to make decisions for which discrete financial information is available. The Group is engaged in selling of goods. The CODM identified entire business as a single reportable segment, namely manufacturing of technical textiles fabrics, hence segment reporting is not applicable (Refer note 45).

Employee stock compensation cost

The fair value of options granted under the Group's employee stock option scheme measured as the excess of the fair value over the exercise price of the option at the date of grant is recognised as an employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g. the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holding shares for a specific period of time). Further details are given in Note 49.

That cost is recognised, together with a corresponding increase in share options outstanding account in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Business combination under common control

Common control business combination refers to a business combination involving entities in which all the combining entities are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. Business combinations involving entities or businesses under common control have been accounted for using the pooling of interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts. No adjustments have been made to reflect fair values, or to recognise any new assets or liabilities.

The financial information in the Restated Financial Information in respect of prior periods have been restated as if the business combination had occurred from the beginning of the earliest period presented in these Restated Financial Information, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information has been restated only from date of the business combination.

The difference, if any, between the purchase consideration paid either in the form of share capital or cash or other assets and the amount of net assets of the entities acquired is transferred to capital reserve in case of credit balance and common control adjustment deficit account in case of debit balance and presented separately from other reserves within equity. The nature and purpose of such reserve is disclosed in the notes.

Material accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the Grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) Useful lives of property, plant and equipment and intangible assets

As described in the significant accounting policies, the Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. Useful lives of intangible assets is determined on the basis of estimated benefits to be derived from use of such intangible assets. These reassessments may result in change in the depreciation /amortization expense in future periods.

(b) Actuarial Valuation

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in Other Comprehensive Income. Such valuation depend upon assumptions determined after taking into account discount rate, salary growth rate, expected rate of return, mortality and attrition rate. Information about such valuation is provided in notes to the financial statements.

(c) Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

(d) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Group as it is not possible to predict the outcome of pending matters with accuracy.

(e) Provisions

Provisions are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The litigations and claims to which the Group is exposed are assessed by management and in certain cases with the support of external specialised lawyers.

(f) Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Group reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the Restated Financial Information.

(g) Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

(h) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions

(i) Provision for expected credit losses of trade receivables and contract assets

The Group uses a provision matrix to calculate expected credit loss (ECL) for trade receivables and contract assets.

The provision matrix is initially based on the Group's historical observed default rates. At every reporting date, the historical observed default rates are updated.

The assessment of the correlation between historical observed default rates and ECLs is a significant estimate. The Group's historical credit loss experience may also not be representative of customer's actual default in the future.

(j) Share based payments

For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Group uses a Black Scholes model for Employee Stock Option. The assumptions and models used for estimating fair

value for share-based payment transactions are disclosed in Note 49.

Recent pronouncements

The Ministry of corporate Affairs ("MCA") notified amendments on 7 May 2025 and 13 August 2025 under the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which is effective from annual reporting periods beginning on or after 1 April 2025.

(a) Amendment to IND AS 7 and IND AS 107 – Supplier Finance Arrangement – The Group does not have any supplier finance arrangement during the reporting period

(b) Amendment to Ind AS 1 - Classification of liabilities as current or non-current and non-current – These amendments have no effect on the measurement of any items in the Consolidated financial statements of the Group. The Group did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(c) Amendment to Ind AS 12 – Pillar-Two Tax Reforms – The Group is not within the scope of the OECD Pillar Two Module Rule, as pillar Two legislative has not yet been enacted in any of the jurisdiction in which the Company operate.

(d) Amendment to Ind AS 21-Lack of exchangeability – These Amendment did not have any material impact on the account recognised in prior period and are not expected to significantly affect the current or future periods.

DESCRIPTION OF KEY COMPONENTS OF OUR RESTATED STATEMENT OF PROFIT AND LOSS

Income

Our total income consists of revenue from operations and other income.

Revenue from operations

Our revenue from operations is generated from: (i) revenue from contracts with customers, which includes revenue from (a) the sale of products (being manufactured goods) and (b) the sale of services; and (ii) other operating income, which includes revenue from (a) government grants, (b) duty drawback, (c) Remission of Duties and Taxes on Exported Products scheme (the "RODTEP") income, and (d) sale of scrap.

Other income

Our other income consists of: (i) foreign exchange gain; (ii) interest income, which includes (a) interest income on fixed deposits, (b) interest income on the unwinding of discounts on security deposits and (c) other interest income; (iii) allowance for expected credit loss reversal; (iv) profit on the sale of assets; (v) sundry balance written back; (vi) gain on cancellation of lease; and (vii) miscellaneous income. Components of our miscellaneous income for the past three Fiscals have included interest subsidy for a term loan.

Expenses

Our total expenses consist of: (i) cost of materials consumed; (ii) changes in inventories of finished goods and semi-finished goods; (iii) cost of service; (iv) employee benefits expense; (v) finance costs; (vi) depreciation and amortisation expense; and (vii) other expenses.

Cost of materials consumed

Our cost of materials consumed is the net of our opening stock plus the purchases during the relevant financial year less our closing stock.

Changes in inventories of finished goods and semi-finished goods

Our changes in inventories of finished goods and semi-finished goods indicate the difference between inventory of finished stock and semi-finished stock at the beginning of the year, and at the end of the year.

Cost of service

Our cost of services pertains to costs incurred by Kusumgar Middle East FZ LLC, our Company's subsidiary. Kusumgar Middle East FZ LLC was awarded a comprehensive maintenance contract by a customer and subsequently subcontracted the service portion of the contract to our Company. In the standalone financial statements of Kusumgar Middle East FZ LLC, the total cost disclosed under "Cost of Services" comprises the subcontracting charges payable to our Company, along with applicable GST and other direct costs incurred by Kusumgar Middle East FZ LLC. During consolidation, the inter-company revenue and corresponding costs relating to the subcontract arrangement between Kusumgar Middle East FZ LLC and our Company were eliminated. Accordingly, only the external costs, including GST and other direct expenses, incurred by Kusumgar Middle East FZ LLC are reflected under "Cost of Services" in the consolidated financial statements.

Employee benefits expense

Our employee benefits expense consists of: (i) salaries, wages and bonus; (ii) staff welfare expenses; (iii) contributions to provident and other funds (including superannuation funds and new pension schemes); (iv) share based payments to employees; (v) leave encashment expenses; and (vi) gratuity expenses.

Finance costs

Our finance costs consist of: (i) interest expense, which include (a) interest expense on borrowings at amortised cost, (b) interest expense on unsecured loans from director, and (c) interest expense on lease liabilities; and (ii) bank and other finance charges.

Depreciation and amortisation expense

Our depreciation and amortisation expense consists of: (i) depreciation of property, plant and equipment; (ii) depreciation on right-of-use assets; and (iii) amortisation of intangible assets.

Other expenses

Our other expenses primarily consist of: (i) power and fuel; (ii) job work and labour charges (including charges arising from transactions with related parties); (iii) warranty expenses; (iv) royalty expenses; (v) consumption of stores; (vi) travelling and conveyance; (vii) freight and forwarding charges; (viii) professional and legal fees; (ix) effluent treatment charges; (x) advertisement and marketing; (xii) repairs & maintenance on: (a) plant and machinery; (b) building; and (c) others; (xiii) rates and taxes; (xiv) testing charges; (xv) corporate social responsibility expenses; (xvi) fair value loss on foreign currency forward contract; (xvii) insurance charges; (xviii) rent expenses; (xix) brokerage and commission; (xx) allowance for expected credit loss; (xxi) payment to auditors; (xxii) director sitting fees; (xxiii) loss on sale of assets; (xxiv) provision for doubtful advance; (xxv) bad debts; (xxvi) sundry balances written off; (xxvii) contribution to political parties; (xxviii) donation; (xxix) miscellaneous and administration expenses. Components of our miscellaneous expenses (other than administration expenses) for the past three Fiscals have included factory expenses, postage and courier and telegrams, and membership fees. For more details on certain of our job work and labour charges, see "*Restated Financial Information – Note 43 – Related Party Disclosures*" on page 313.

Income Tax expense

Our tax expenses consist of: (i) current tax; (ii) short provision for tax relating to prior years; and (iii) deferred tax expense/(credit).

Fiscal 2026 compared to Fiscal 2025

Income

Revenue from operations

Set forth below is a table showing our revenue from operations for Fiscals 2026 and 2025.

Particulars	Fiscal 2026	Fiscal 2025	Percentage Increase/ (Decrease) (%)
	₹ in million		
Revenue from operations:			
Sale of products	6,225.01	7,685.98	(19.01)%
Sale of services	523.13	14.97	3,394.52%
Revenue from contracts with customers	6,748.14	7,700.95	(12.37)%
Other operating income:			
Government grants	77.15	18.04	327.66%
Duty drawback	44.05	29.33	50.19%
RODTEP income	27.40	21.03	30.29%
Sale of scrap	23.29	20.62	12.95%
Total	6,920.03	7,789.97	(11.17)%

Our revenue from operations decreased by 11.17% to ₹6,920.03 million for Fiscal 2026 from ₹7,789.97 million for Fiscal 2025, which decrease was primarily due to a 12.37% decrease in our revenue from contracts with customers, which is discussed below.

Revenue from contracts with customers

Our revenue from contracts with customers decreased by 12.37% to ₹6,748.14 million for Fiscal 2026 from ₹7,700.95 million for Fiscal 2025, which decrease was primarily due to a decrease in our revenue from Aerospace and Defence Fabrics and Aerospace and Defence Solutions.

The table below sets forth our revenue from contracts with customers from our four primary market segments, and from sales falling outside of those four market segments, for Fiscal 2026 and Fiscal 2025.

Particulars	Fiscal 2026	Fiscal 2025	Percentage Increase/ (Decrease) (%)
	₹ in million		
Aerospace and Defence Fabrics	2,136.99	3,700.92	(42.26)%
Aerospace and Defence Solutions	1,550.17	2,219.02	(30.14)%
Industrial and Automotive Fabrics	1,648.60	1,126.34	46.37%
Outdoor and Lifestyle Fabrics	1,253.15	569.00	120.24%
Other Sales ⁽¹⁾	159.23	85.67	85.86%
Revenue from contracts with customers	6,748.14	7,700.95	(12.37)%

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

Our revenue from Aerospace and Defence Fabrics decreased by 42.26% to ₹2,136.99 million for Fiscal 2026 from ₹3,700.92 million for Fiscal 2025, which decrease was primarily due to a large order received in Fiscal 2025 that was not re-ordered in Fiscal 2026. We recognized revenue of ₹2,045.75 million from this order in Fiscal 2025 and ₹286.16 million from this order in Fiscal 2026.

Our revenue from Aerospace and Defence Solutions decreased by 30.14% to ₹1,550.17 million for Fiscal 2026 from ₹2,219.02 million for Fiscal 2025. This decrease was primarily due to the partial deferral of contract performance on a large contract due to operational requirements of the customer. In Fiscal 2026, we received an order with a contract value of ₹2,371.96 million, of which 23.61% was executed in Fiscal 2026 and we expect the remaining balance will be executed in Fiscal 2027.

Our revenue from Industrial and Automotive Fabrics increased by 46.37% to ₹1,648.60 million for Fiscal 2026 from ₹1,126.34 million for Fiscal 2025. This increase was primarily due to an increase in orders from existing customers.

Our revenue from Outdoor and Lifestyle Fabrics increased by 120.24% to ₹1,253.15 million for Fiscal 2026 from ₹569.00 million for Fiscal 2025. This increase was primarily due to an increase in orders from existing customers.

Our revenue from Other Sales increased by 85.86% to ₹159.23 million for Fiscal 2026 from ₹85.67 million for Fiscal 2025. This increase was primarily due to an increase in sales.

Other operating income

Other operating income increased by 93.09% to ₹171.89 million for Fiscal 2026 from ₹89.02 million for Fiscal 2025, which was primarily due to government grant receipts increased to ₹77.15 million in Fiscal 2026 to ₹18.04 million in Fiscal 2025.

Other income

Other income increased by 76.33% to ₹197.75 million for Fiscal 2026 from ₹112.15 million for Fiscal 2025. This increase was primarily due to an increase in foreign exchange gain to ₹147.91 million for Fiscal 2026 from ₹46.95 million for Fiscal 2025. This was partially offset by a decrease in interest income on fixed deposits to ₹21.89 million for Fiscal 2026 from ₹57.57 million for Fiscal 2025.

Expenses

Cost of materials consumed and changes in inventories of finished goods and semi-finished goods

Set forth below is a table showing the components of our cost of materials consumed and changes in inventories of finished goods and semi-finished goods for Fiscals 2026 and 2025.

Particulars	Fiscal 2026	Fiscal 2025	Percentage Increase/ (Decrease) (%)
	₹ in million		
Cost of materials consumed:			
Opening stock	510.56	726.11	(29.69)%
Add: Purchases	3,059.22	3,498.16	(12.55)%
Less: Closing stock	(488.12)	(510.56)	(4.40)%
Cost of materials consumed [A]	3,081.66	3,713.71	(17.02)%

Particulars	Fiscal 2026	Fiscal 2025	Percentage Increase/ (Decrease) (%)
	₹ in million		
Add: Changes in inventories of finished goods and semi-finished goods [B]	(519.12)	(111.76)	364.50%
Cost of materials consumed (including changes in inventories of finished goods and semi-finished goods) [C = A + B]	2,562.54	3,601.95	(28.86)%
Cost of material consumed (including changes in inventories of finished goods and semi-finished goods) as a percentage of revenue from contracts with customers [D = C/E] (%)	37.97%	46.77%	(18.82)%
Revenue from contracts with customers [E]	6,748.14	7,700.95	(12.37)%

Our cost of materials consumed (including changes in inventories of finished goods and semi-finished goods) decreased by 28.86% to ₹2,562.54 million for Fiscal 2026 from ₹3,601.95 million for Fiscal 2025. This was primarily due to a decrease in purchases during Fiscal 2026 by 12.55% to ₹3,059.22 million for Fiscal 2026 from ₹3,498.16 million for Fiscal 2025, and a decrease in opening stock by 29.69% to ₹510.56 million for Fiscal 2026 from ₹726.11 million for Fiscal 2025. This decrease in purchases was in turn primarily due to change in product mix. Our cost of materials consumed (including changes in inventories of finished goods and semi-finished goods) as a percentage of our revenue from contracts with customers decreased by 18.82% in Fiscal 2026 as compared to Fiscal 2025.

Cost of services

Our cost of services increased to ₹84.47 million for Fiscal 2026 from nil for Fiscal 2025. This was primarily due to costs incurred by Kusumgar Middle East FZ LLC, our Company's subsidiary. Kusumgar Middle East FZ LLC was awarded a comprehensive maintenance contract by a customer and subsequently subcontracted the service portion of the contract to our Company. In the standalone financial statements of Kusumgar Middle East FZ LLC, the total cost disclosed under "Cost of Services" comprises the subcontracting charges payable to our Company, along with applicable GST and other direct costs incurred by Kusumgar Middle East FZ LLC. During consolidation, the inter-company revenue and corresponding costs relating to the subcontract arrangement between Kusumgar Middle East FZ LLC and our Company were eliminated. Accordingly, only the external costs, including GST and other direct expenses, incurred by Kusumgar Middle East FZ LLC are reflected under "Cost of Services" in the consolidated financial statements

Employee benefits expense

Our employee benefits expense increased by 34.49% to ₹881.86 million for Fiscal 2026 from ₹655.73 million for Fiscal 2025. This was primarily due to an increase in salaries, wages and bonus to employees by 7.71% to ₹579.20 million for Fiscal 2026 from ₹537.74 million for Fiscal 2025 and share based payment to employees by 491.07% to ₹204.33 million for Fiscal 2026 from ₹34.57 million for Fiscal 2025. The increase in salaries, wages and bonus to employees was mainly on account of increase in annual compensation increments provided to employees. The increase in share based payment to employees was due to ESOP expenses amortized during the period. Our employee benefits expense as a percentage of revenue from operations increased by 4.32% in Fiscal 2026 as compared to Fiscal 2025.

Finance costs

Our finance costs increased by 77.55% to ₹259.78 million for Fiscal 2026 from ₹146.31 million for Fiscal 2025. This increase was primarily due to a 84.66% increase in interest expenses to ₹242.31 million for Fiscal 2026 from ₹131.22 million for Fiscal 2025, which was in turn primarily due to a 103.36% increase in interest expense on borrowings to ₹186.54 million for Fiscal 2026 from ₹91.73 million for Fiscal 2025, and a 41.22% increase in lease liabilities to ₹55.77 million for Fiscal 2026 from ₹39.49 million for Fiscal 2025.

Depreciation and amortisation expense

Our depreciation and amortisation expense increased by 36.56% to ₹466.89 million for Fiscal 2026 from ₹341.90 million for Fiscal 2025, primarily due to an increase in depreciation of property, plant and equipment by 40.45% to ₹358.79 million for Fiscal 2026 from ₹255.46 million for Fiscal 2025.

Other expenses

Our other expenses decreased by 8.23% to ₹1,512.66 million for Fiscal 2026 from ₹1,648.40 million for Fiscal 2025.

Our other expenses decreased primarily due to a 31.65% decrease in royalty expense to ₹88.61 million for Fiscal 2026 from ₹129.64 million for Fiscal 2025, a 24.64% decrease in consumption of stores to ₹122.48 million for Fiscal 2026 from ₹162.53 million for Fiscal 2025, a 32.17% decrease in freight and forwarding charges to ₹87.00 million for Fiscal 2026 from ₹128.25 million for Fiscal 2025, a 60.83% decrease in rates and taxes to ₹15.05 million for Fiscal 2026 from ₹38.42 million for Fiscal 2025 and a 100.00% decrease in allowance for expected credit loss to nil for Fiscal 2026 from ₹38.05 million for Fiscal 2025. The decrease in royalty expense was primarily due to a decline in the royalty base business, the decrease in consumption of stores was primarily due to efficiencies achieved at a new manufacturing facility, the decrease in freight and forwarding charges was primarily due to a decline in purchases of imported raw materials, the decrease in rates and taxes was primarily due to the elevated rates and taxes expense in Fiscal 2025 having included a one-off charge arising from the increase in the Company's authorised share capital, which did not recur in Fiscal 2026, and the decrease in allowance for expected credit loss was primarily due to a significant portion of trade receivables remaining either not yet due or less than six months past due.

The foregoing was offset slightly by an increase in our job work and labour charges by 9.70% to ₹397.74 million for Fiscal 2026 from ₹362.57 million for Fiscal 2025, which was due to the general inflationary increase in labour costs, and an 8.83% increase in power and fuel to ₹362.74 million for Fiscal 2026 from ₹333.31 million for Fiscal 2025, which was due to increased electricity consumption arising from the commissioning of additional weaving production capacity at Kosamba 2 and increase in processing capacity at Karanj.

Income Tax expense

Our total income tax expense decreased by 5.25% to ₹367.58 million for Fiscal 2026 from ₹387.95 million for Fiscal 2025. Our current tax decreased by 11.42% to ₹362.22 million for Fiscal 2026 from ₹408.91 million for Fiscal 2025. Our total income tax expense as a percentage of profit before tax was 27.24% for Fiscal 2026 compared to 25.73% for Fiscal 2025.

Profit for the year

Primarily for the reasons stated above, our profit for the year decreased by 12.31% to ₹982.00 million for Fiscal 2026 from ₹1,119.88 million for Fiscal 2025.

Fiscal 2025 compared to Fiscal 2024

Income

Revenue from operations

Set forth below is a table showing our revenue from operations for Fiscals 2025 and 2024.

Particulars	Fiscal 2025	Fiscal 2024	Percentage Increase/ (Decrease) (%)
	₹ in million		
Revenue from operations:			
Sale of products	7,685.98	4,545.65	69.08%
Sale of services	14.97	11.29	32.60%
Revenue from contracts with customers	7,700.95	4,556.94	68.99%
Other operating income:			
Government grants	18.04	52.34	(65.53%)
Duty drawback	29.33	27.20	7.83%
RODTEP income	21.03	24.55	(14.34%)
Sale of scrap	20.62	18.05	14.24%
Total	7,789.97	4,679.08	66.49%

Our revenue from operations increased by 66.49% to ₹7,789.97 million for Fiscal 2025 from ₹4,679.08 million for Fiscal 2024, which increase was primarily due to a 68.99% increase in our revenue from contracts with customers, which is discussed below.

Revenue from contracts with customers

Our revenue from contracts with customers increased by 68.99% to ₹7,700.95 million for Fiscal 2025 from ₹4,556.94 million for Fiscal 2024, which increase was primarily due to an increase in our revenue from Aerospace and Defence Fabrics, Aerospace and Defence Solutions and Outdoor and Lifestyle Fabrics.

The table below sets forth our revenue from contracts with customers from our four primary market segments, and from sales falling outside of those four market segments, for Fiscal 2025 and Fiscal 2024.

Particulars	Fiscal 2025	Fiscal 2024	Percentage Increase/ (Decrease) (%)
	₹ in million		
Aerospace and Defence Fabrics	3,700.92	3,134.88	18.06%
Aerospace and Defence Solutions	2,219.02	8.64	25,583.10%
Industrial and Automotive Fabrics	1,126.34	1,113.86	1.12%
Outdoor and Lifestyle Fabrics	569.00	291.65	95.10%
Other Sales ⁽¹⁾	85.67	7.92	981.69%
Revenue from contracts with customers	7,700.95	4,556.94	68.99%

Note:

(1) Revenue from other sales includes revenue from the sale of yarn and chemicals, revenue from job work undertaken for customers, as well as revenue from the sale of products and services outside of our four primary market segments.

Our revenue from Aerospace and Defence Fabrics increased by 18.06% to ₹3,700.92 million for Fiscal 2025 from ₹3,134.88 million for Fiscal 2024, which increase was primarily due to an increase in the volume of orders, as well as a change in our product mix. The increase in the volume of orders was primarily attributable to customers outside India.

Our revenue from Aerospace and Defence Solutions increased to ₹2,219.02 million for Fiscal 2025 from ₹8.64 million for Fiscal 2024. This increase was primarily due to a large order for Combat Free Fall (CFF) parachute systems, which was a new product introduced by us in Fiscal 2025. We recognised a revenue of ₹2,225.88 million from this large order for Fiscal 2025.

Our revenue from Outdoor and Lifestyle Fabrics increased by 95.10% to ₹569.00 million for Fiscal 2025 from ₹291.65 million for Fiscal 2024. This increase was primarily due to an increase in our final output capacity (comprising the aggregate installed capacity of our processing, dyeing, finishing, printing and coating factories) to 127.80 million metres as at March 31, 2025 from 48.86 million metres as at March 31, 2024. Our final output capacity increased due to our commencement of operations at an additional manufacturing facility located at Kothwa, Taluka Mangrol, District Surat, Gujarat, India on April 1, 2024. We use this manufacturing facility for scouring, dyeing, finishing, processing and coating nylon and polyester fabrics. For more details on our manufacturing capabilities, see “Our Business – Manufacturing Capabilities” on page 199.

Other operating income

Other operating income decreased by 27.12% to ₹89.02 million for Fiscal 2025 from ₹122.14 million for Fiscal 2024, which was primarily due to a decrease in government grants.

Other income

Other income increased by 68.82% to ₹112.15 million for Fiscal 2025 from ₹66.43 million for Fiscal 2024. This increase was primarily due to an increase in foreign exchange gain to ₹46.95 million for Fiscal 2025 from ₹32.40 million for Fiscal 2024, and an increase in interest income on fixed deposits to ₹57.57 million for Fiscal 2025 from ₹29.52 million for Fiscal 2024.

Expenses

Cost of materials consumed and changes in inventories of finished goods and semi-finished goods

Set forth below is a table showing the components of our cost of materials consumed and changes in inventories of finished goods and semi-finished goods for Fiscals 2025 and 2024.

Particulars	Fiscal 2025	Fiscal 2024	Percentage Increase/ (Decrease) (%)
	₹ in million		
Cost of materials consumed:			
Opening stock	726.11	203.25	257.25%
Add: Purchases	3,498.16	2,525.72	38.50%
Less: Closing stock	(510.56)	(726.11)	(29.69%)
Cost of materials consumed [A]	3,713.71	2,002.86	85.42%
Add: Changes in inventories of finished goods and semi-finished goods [B]	(111.76)	(232.62)	(51.96)%
Cost of materials consumed (including changes in inventories of finished goods and semi-finished goods) [C = A + B]	3,601.95	1,770.24	103.47%
Cost of material consumed (including changes in inventories of finished goods and semi-finished goods) as a percentage of revenue from contracts with customers [D = C/E] (%)	46.77%	38.85%	20.39%
Revenue from contracts with customers [E]	7,700.95	4,556.94	68.99%

Our cost of materials consumed (including changes in inventories of finished goods and semi-finished goods) increased by 103.47% to ₹3,601.95 million for Fiscal 2025 from ₹1,770.24 million for Fiscal 2024. This was primarily due to an increase in purchases during Fiscal 2025 by 38.50% to ₹3,498.16 million for Fiscal 2025 from ₹2,525.72 million for Fiscal 2024, and an increase in opening stock by 257.25% to ₹726.11 million for Fiscal 2025 from ₹203.25 million for Fiscal 2024. This increase in purchases was in turn primarily due to a change in our product mix. Our cost of materials consumed (including changes in inventories of finished goods and semi-finished goods) as a percentage of our revenue from contracts with customers increased to 46.77% for Fiscal 2025 from 38.85% for Fiscal 2024.

Employee benefits expense

Our employee benefits expense increased by 58.06% to ₹655.73 million for Fiscal 2025 from ₹414.85 million for Fiscal 2024. This was primarily due to an increase in salaries, wages and bonus by 45.03% to ₹537.74 million for Fiscal 2025 from ₹370.79 million for Fiscal 2024. The increase in salaries, wages and bonus was primarily due to a 23.23% increase in the number of employees from 866 employees at March 31, 2024 to 1,058 employees at March 31, 2025 with new employees being recruited at various salary levels, as well as salary increments for certain employees. However, our employee benefits expense as a percentage of revenue from operations decreased by 5.06% in Fiscal 2025 as compared to Fiscal 2024.

Finance costs

Our finance costs increased by 131.43% to ₹146.31 million for Fiscal 2025 from ₹63.22 million for Fiscal 2024. This increase was primarily due to a 219.66% increase in interest expenses to ₹131.22 million for Fiscal 2025 from ₹41.05 million for Fiscal 2024, which was in turn primarily due to a 195.90% increase in interest expense on borrowings to ₹91.73 million for Fiscal 2025 from ₹31.00 million for Fiscal 2024, and a 292.94% increase in lease liabilities to ₹39.49 million for Fiscal 2025 from ₹10.05 million for Fiscal 2024.

Depreciation and amortisation expense

Our depreciation and amortisation expense increased by 99.98% to ₹341.90 million for Fiscal 2025 from ₹170.97 million for Fiscal 2024, primarily due to an increase in depreciation of property, plant and equipment by 106.07% to ₹255.46 million for Fiscal 2025 from ₹123.97 million for Fiscal 2024.

Other expenses

Our other expenses increased by 40.23% to ₹1,648.40 million for Fiscal 2025 from ₹1,175.52 million for Fiscal 2024. Our other expenses increased primarily due to a 93.98% increase in our job work and labour charges to ₹362.57 million for Fiscal 2025 from ₹186.91 million for Fiscal 2024, a 57.86% increase in power and fuel to ₹333.31 million for Fiscal 2025 from ₹211.14 million for Fiscal 2024, and a 150.73% increase in freight and forwarding charges to ₹128.25 million for Fiscal 2025 from ₹51.15 million for Fiscal 2024. The increase in job work and labour charges was primarily due to a requirement for additional capacity to fulfil customer orders, the increase in power and fuel was primarily due to a combination of increased sales and utility charges, and the increase in freight and forwarding charges was primarily due to increase sales orders. The foregoing was offset slightly by a decrease in royalty expenses by 60.12% to ₹129.64 million for Fiscal 2025 from ₹325.08 million for Fiscal 2024, which was due to a decrease in royalty related fulfilled orders in Fiscal 2025 as compared to Fiscal 2024.

Income Tax expense

Our total tax expense increased by 26.47% to ₹387.95 million for Fiscal 2025 from ₹306.75 million for Fiscal 2024. Our current tax increased by 41.43% to ₹408.91 million for Fiscal 2025 from ₹289.13 million for Fiscal 2024. Our total tax expense as a percentage of profit before tax was 25.73% for Fiscal 2025 compared to 26.66% for Fiscal 2024.

Profit for the year

Primarily for the reasons stated above, our profit for the year increased by 32.69% to ₹1,119.88 million for Fiscal 2025 from ₹843.96 million for Fiscal 2024.

Our total non-current assets were ₹2,224.00 million as at March 31, 2024 and increased by 44.40% to ₹3,211.39 million as at March 31, 2025 and 15.79% to ₹3,718.52 million as at March 31, 2026. The increase in our non-

current assets from March 31, 2024 to March 31, 2025 was primarily due to an increase in property, plant and equipment from ₹1,367.20 million as at March 31, 2024 to ₹1,718.63 million as at March 31, 2025, as well as an increase in capital work in progress from ₹84.34 million as at March 31, 2024 to ₹451.94 million as at March 31, 2025. The increase in property, plant and equipment was primarily due to business expansion to cater to increasing customer demand and the increase in capital work in progress was primarily due to the time taken to install additional capacity in downstream processes which resulted in an increase in work in progress from upstream processes. The increase in our non-current assets from March 31, 2025 to March 31, 2026 was primarily due to an increase in property, plant and equipment from ₹1,718.63 million as at March 31, 2025 to ₹2,356.68 million as at March 31, 2026, an increase in right-of-use-asset from ₹605.92 million as at March 31, 2025 to ₹705.76 million as at March 31, 2026 and an increase in other financial assets from ₹59.61 million as at March 31, 2025 to ₹197.30 million as at March 31, 2026. The increase in property, plant and equipment was primarily due to capitalisation of plant and machinery, increase in right-of-use-asset was primarily due to addition in the leasehold land and building, and an increase in other non-current financial assets was primarily due to bank deposit having remaining maturity of more than 12 months grouped under non-current assets.

Our inventories were ₹1,437.11 million as at March 31, 2024, and decreased by 4.74% to ₹1,369.02 million as at March 31, 2025 and increased by 42.33% to ₹1,948.58 million as at March 31, 2026. The increase in our inventories from March 31, 2025 to March 31, 2026 was primarily due to increase in finished goods and postponement of sales to first quarter of Fiscal 2027.

Our other bank balances were ₹1,106.13 million as at March 31, 2024, and decreased by 90.33% to ₹106.93 million as at March 31, 2025 and increased by 98.55% to ₹212.32 million as at March 31, 2026. The decrease in our other bank balances from March 31, 2024 to March 31, 2025 was primarily due to the acquisition of ECFPL in a cash transaction and capital investments to make upgrades to our manufacturing facility. The increase in our other bank balances from March 31, 2025 to March 31, 2026 was primarily due to pre-IPO funds raised during the year.

Our trade receivables increased from ₹422.39 million as at March 31, 2024 to ₹561.10 million and increased to ₹2,332.79 million as at March 31, 2026. The increase in trade receivables from March 31, 2024 to March 31, 2025 was primarily due to the increase in our revenue from operations in Fiscal 2025 compared to Fiscal 2024. The increase in trade receivables from March 31, 2025 to March 31, 2026 was primarily due to the majority of our sales happening in the fourth quarter of Fiscal 2026.

Current loans increased from nil as at March 31, 2024 to ₹155.69 million as at March 31, 2025 and decreased to nil as at March 31, 2026. The decrease in current loans from March 31, 2025 to March 31, 2026 was due to the repayment by the relevant counterparties of loans that had been extended by the Company during Fiscal 2025. Our other financial assets were ₹26.57 million as at March 31, 2024 and increased by 797.06% to ₹238.38 million as at March 31, 2025 and decreased by 20.83% to ₹188.74 million. The increase in other financial assets from March 31, 2024 to March 31, 2025 was primarily due to an increase in earnest money deposits (EMDs)/security deposits to secure a government tender by 981.32% to ₹234.43 million as at March 31, 2025 from ₹21.68 million as at March 31, 2024. The increase in other financial assets from March 31, 2025 to March 31, 2026 was primarily due to an increase in fixed deposits.

Our total equity increased from ₹1,403.59 million as at March 31, 2024 to ₹2,577.52 million as at March 31, 2025 and further increased to ₹5,029.54 million as at March 31, 2026. These increases were primarily due to increases in other equity, which increased from ₹1,383.69 million as at March 31, 2024 to ₹2,476.03 million as at March 31, 2025 and further increased to ₹4,910.54 million as at March 31, 2026, which was in turn primarily due to retained earnings and issue of Compulsory Convertible preference Share at Premium.

Our total non-current liabilities increased from ₹769.23 million as at March 31, 2024 to ₹1,279.56 million as at March 31, 2025 and further increased to ₹1,471.30 million as at March 31, 2026. The increase in total non-current liabilities as at March 31, 2025 was primarily due to an increase in non-current borrowings from ₹348.05 million as at March 31, 2024 to ₹757.64 million as at March 31, 2025, which was primarily due to certain payment tranches for term loans from banks becoming due during Fiscal 2025. The increase in total non-current liabilities as at March 31, 2026 was primarily due to increase in non-current borrowing from ₹757.64 million as at March 31, 2025 to ₹851.19 million as at March 31, 2026 and increase in lease liability from ₹479.30 million as at March 31, 2025 to ₹574.50 million as at March 31, 2026.

Our total current liabilities decreased from ₹3,674.59 million as at March 31, 2024 to ₹2,466.90 million as at March 31, 2025 and increased to ₹2,549.88 million as at March 31, 2026. The decrease in total current liabilities as at March 31, 2025 was primarily due to a decrease in advances from customers from ₹1,264.61 million as at March 31, 2024 to ₹27.44 million as at March 31, 2025, coupled with the absence of any purchase consideration payable as compared to the purchase consideration of ₹1,118.53 million payable as at March 31, 2024 for the Company's acquisition of ECFPL, and partially offset by an increase in current borrowings from ₹417.28 million as at March 31, 2024 to ₹1,707.37 million as at March 31, 2025 that was primarily attributable to an increase in a working capital demand loan from a bank. The foregoing purchase consideration payable as at each of March 31, 2024 has been recorded as a component of, and is reflected in, our other financial liabilities. Our other financial liabilities as at each of March 31, 2026, March 31, 2025, and 2024 also included bonus payable to certain of our related parties. The increase in total current liabilities as at March 31, 2026 was primarily due to increase in trade payable from ₹472.07 million as at 31 March, 2025 to ₹667.62 million, and an increase in current tax liability (Net) from nil as at 31 March, 2025 to ₹156.29 million as at March 2026.

Liquidity and capital resources

Our liquidity requirements primarily relate to operational costs incurred in the ongoing conduct of our business activities. Our sources of liquidity for Fiscals 2026, 2025 and 2024 were primarily borrowings from banks and financial institutions.

As at March 31, 2026 our cash and cash equivalents aggregated to ₹268.29 million.

Fiscal 2024

Net cash flows generated from financing were ₹211.84 million during Fiscal 2024. The key adjustments to our cash flow from financing activities were proceeds from borrowings of ₹370.67 million, which were partially offset by the repayment of borrowings of ₹82.67 million.

Borrowings

As at March 31, 2026, we had total borrowings of ₹2,235.83 million, which consisted of non-current borrowings and current borrowings.

We are bound by restrictive and other covenants in our facility agreements with various lenders, including but not limited to, restrictions on the utilisation of the loan for certain specified purposes, timely provision of information and documents, timely creation of security, obtaining prior consent and waiver from existing lenders and maintenance of financial ratios, including debt to tangible net worth, debt-service coverage ratio and fixed assets coverage ratio. Further, most of our loan documents contain restrictive covenants that require us to obtain prior written approval from the appropriate lender for various corporate actions, including effecting any change in the composition or management or the shareholding or capital structure of our Company, any merger, amalgamation, acquisition, compromise or other restructuring. Our term loans and working capital facilities are secured by, among others, a charge over material, stock in process, current assets and moveable assets, fixed deposits, demand promissory notes and personal guarantees from certain of our Promoters.

In Fiscal 2025, our Company breached a financial covenant in one of our loan agreements where our Company's current ratio (being the total current assets divided by the total current liabilities), calculated on a standalone basis, fell below the prescribed threshold in the loan agreement. The lender has waived the said breach. For more details on the risks arising from covenants of such nature, see *"Risk Factors – 20. Our financing agreements contain covenants that limit our flexibility in operating our business. Any future failure to meet the conditions under our financing arrangements or obtain any consents thereunder could have a material adverse effect on our business, financial condition, results of operations and cash flows."* on page 39.

The following table provides the types and amounts of our outstanding borrowings as at the dates indicated.

Off-balance sheet arrangements

We do not have any off-balance sheet arrangements or other relationships with any entity that have been established for the purposes of facilitating off-balance sheet arrangements.

Quantitative and qualitative disclosure on market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, and other market changes that affect market risk sensitive instruments. Financial instruments affected by market risk include borrowings and derivative financial instruments. The Group exposed to below two market risks, interest rate risk and foreign currency risk. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's borrowings with floating interest rates.

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's trade receivable and trade payable.

For quantitative disclosures on the Group's market risk, see *"Restated Financial Information – Note 48 – Financial Risk Management Objectives and Policies – (a) Market risk"* on page 320.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Group's trade receivables, loans, security deposits, bank balances and other financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

For quantitative disclosures on the Group's credit risk, see *"Restated Financial Information – Note 48 – Financial Risk Management Objectives and Policies – (b) Credit risk"* on page 321.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities.

For quantitative disclosures on the Group's liquidity risk, see *"Restated Financial Information – Note 48 – Financial Risk Management Objectives and Policies – (c) Liquidity risk"* on page 321.

Reservations, qualifications and adverse remarks

There are no reservations, qualifications or adverse remarks in the Statutory Auditors' examination report on the Restated Financial Information that requisite any adjustments to the Restated Financial Information.

The Statutory Auditors have included certain observations in the annexure to their reports on our Company's audited financial statements for the years ended March 31, 2026, March 31, 2025 and March 31, 2024, as required under the Companies (Auditor's Report) Order, 2020, which do not require any adjustment to the Restated Financial Information. For more details, see "*Risk Factors – 7. Certain observations have been included in the Statutory Auditor's report on our audited standalone financial statements for the years ended March 31, 2026, March 31, 2025 and March 31, 2024 as required under the Companies (Auditor's Report) Order, 2020*" on page 27.

The Statutory Auditors have also identified limitations in the audit trail functionality of our accounting software for Fiscal 2025, which may impact our compliance with Rule 11(g) of the Companies (Audit and Auditors) Rules. For more details, see "*Risk Factors – 17. The audit trail functionality of our accounting software for Fiscals 2025 and 2024 was not in compliance with Rule 11(g) of the Companies (Audit and Auditors) Rules*" on page 37 and "*Restated Financial Information – Note 52 – Other Matters – Audit Trail*" on page 327.

The above observations have been included in Annexure VI Part C to the Restated Financial Information. For more details, see "*Restated Financial Information – Part A*" on page 292.

Unusual or infrequent events or transactions

Other than as described in this section and "*Our Business*", "*Risk Factors*" and "*History and Certain Corporate Matters*" on pages 185, 22 and 224, respectively, there have been no events or transactions which may be described as "unusual" or "infrequent".

Significant economic changes that materially affected or are likely to affect revenue from operations

Other than as described in this section, and in "*Our Business*", "*Risk Factors*" and "*Industry Overview*" on pages 185, 22, and 224, respectively, there have been no significant economic changes that materially affected or are likely to affect our revenue from operations.

Known trends or uncertainties that have had or are expected to have a material adverse effect on revenue from operations or other income

Except as described in this section and in "*Risk Factors*" on page 22, to our knowledge, there are no trends or uncertainties that have had, or are expected to have, a material adverse effect on our revenue from operations or other income.

Total turnover of each major operating segment in which the issuer operated

In accordance with Ind AS 108 on Operating Segments, our business activities, as reviewed by the management, fall within a single operating segment, namely manufacturing of technical textiles fabrics. Therefore, there are no reportable segments for our Company under the requirements of Ind AS 108 "*Operating Segments*". For more information, see "*Restated Financial Information – Note 45 – Segment Reporting*" on page 317.

Future relationships between costs and revenue

Other than as described in this section and in "*Our Business*" and "*Risk Factors*" on pages 185 and 22, respectively, there are no known factors that are expected to have an effect on our costs and revenue.

Material increases in revenues and sales

Material increases in our revenues and sales are primarily due to the reasons described in "*– Significant Factors Affecting our Results of Operations and Financial Condition*" on page 334.

New products or business segments

Our results of operations were materially affected by the launch of new products. For details, see "*– Significant Factors Affecting our Results of Operations and Financial Condition - Our Ability to Upgrade our Existing Products and Introduce New Products*" on page 337. We did not enter into any new business segments.

Seasonality

Our financial condition and results of operations were not materially affected by seasonal factors.

Customer and supplier concentration

Our Company has a customer concentration. For details, see “*Risk Factors – 2. Our top customer and our top 10 customers contributed 11.13% and 59.52%, respectively, of our revenue from contracts with customers for Fiscal 2026. Any decrease in sales to such customers or the loss of such customers could have an adverse effect on our business, results of operations, financial condition and cash flows*” on page 24.

Our Company has a supplier concentration. For details, see “*Risk Factors – 6. In order to get better pricing by buying in larger volumes, we generally buy the primary materials we need from a few suppliers. For Fiscal 2026, our cost of materials consumed purchased from our top 10 suppliers represented 51.42% of our cost of materials consumed. We have not entered into long-term agreements with these suppliers and if any of our top 10 suppliers ceased selling us the materials we require in the quantities we need, and we were unable to find a supplier to replace it, it could have a material adverse effect on our business, financial condition, results of operations and cash flows*” on page 26.

Competitive conditions

For a description of the competitive conditions in the industries in which we operate, see “*Our Business – Competition*” and “*Industry Overview*” on pages 210 and 137, respectively.

Material developments after March 31, 2026

There have been no material developments, and no circumstances have arisen after March 31, 2026, that materially and adversely affects, or are likely to affect, our trading, revenue, profitability, performance, prospects, value of our assets, or our ability to pay our liabilities within the next 12 months.

SECTION VII: LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except as stated below, as on the date of this Prospectus, there are no other outstanding (i) criminal proceedings (including matters which are at FIR stage whether cognizance has been taken or not by any court or judicial authority) involving our Company, Subsidiaries, Directors or Promoters (“**Relevant Parties**”) and Key Managerial Personnel and Senior Management; (ii) actions taken (including any orders passed or show cause notices issued) by regulatory authorities and/or statutory authorities (including any judicial, quasi-judicial, administrative authorities or enforcement authorities) involving the Relevant Parties and Key Managerial Personnel and Senior Management; (iii) claims related to direct and indirect taxes involving the Relevant Parties, in a consolidated manner; and (iv) other litigations involving the Relevant Parties (including civil litigation / arbitration proceedings) which has been determined to be material pursuant to the Materiality Policy (as disclosed herein below) or (v) litigations involving our Group Company which may have a material impact on our Company. Further, as on the date of this Prospectus, there are no disciplinary actions (including penalties imposed) by SEBI or recognized stock exchanges, against our Promoters in the last five Fiscals immediately preceding the date of this Prospectus including any outstanding action.

In accordance with the Materiality Policy, for the purposes of (iv) above, any other outstanding litigation or arbitration proceedings involving the Relevant Parties (including tax litigation mentioned in (iii) above) would be considered ‘material’ for the purpose of disclosure in the Offer Documents, if:

- (a) the value or expected impact in terms of value, to the extent quantifiable, of such outstanding litigation (including civil litigation/arbitration proceedings) exceeds the lower of the following: (a) two percent of turnover as per the latest Restated Financial Information; or (b) two percent of net worth, as per the Restated Financial Information, except in case the arithmetic value of the net worth is negative; or (c) five percent of the average of absolute value of profit or loss after tax, as per the last three Fiscals as per the Restated Financial Information. Accordingly, five percent of the average of absolute value of restated profit for the year, based on the Restated Financial Information of the preceding three Fiscals disclosed in this Prospectus, i.e., ₹49.10 million has been considered as the materiality threshold; or
- (b) any outstanding litigation (including civil litigation/arbitration proceedings), where the value or expected impact in terms of value is not quantifiable or lower than the threshold specified in (a) above, but an outcome of which could (i) materially and adversely affect our Company’s business, prospects, operations, performance, financial position or reputation; (ii) or any outstanding litigation/arbitration proceedings where the decision in one matter is likely to affect the decision in similar matters, such that the cumulative amount involved in such matters exceeds the threshold as specified in (a) above, even though the amount involved in an individual matter may not exceed the threshold as specified in (a) above.

It is clarified that pre-litigation notices received by any of the Relevant Parties or Group Company from third parties (excluding those notices issued by any regulatory, government, tax or statutory authorities or notices threatening criminal action) shall, unless otherwise decided by the Board, not be considered as litigation and accordingly not be disclosed in this Prospectus until such time that Relevant Parties or Group Company, as applicable, are impleaded as a party in such litigation proceedings before any judicial or arbitral forum, tribunal or government authority.

Further, in accordance with the Materiality Policy, a creditor of our Company shall be considered to be material for the purpose of disclosure in this Prospectus and on the website of our Company, if amounts due to such creditor is equivalent to or in excess of five percent of the trade payables of our Company as at the end of the most recent financial period covered in the Restated Financial Information. The consolidated trade payables of our Company as on March 31, 2026, was ₹ 667.62 million. Accordingly, a creditor has been considered ‘material’ if the amount due to such creditor exceeds ₹ 33.38 million as on March 31, 2026.

For outstanding dues to any micro, small or medium enterprise, the disclosure shall be based on information available with our Company regarding the status of the creditor as defined under the MSMED Act.

All terms defined in a particular litigation disclosure below are for that particular litigation only.

LITIGATION INVOLVING OUR COMPANY

(a) *Outstanding litigation proceedings against our Company*

(i) *Criminal proceedings*

As on the date of this Prospectus, there are no pending criminal proceedings initiated against our Company.

(ii) *Actions by statutory or regulatory authorities*

As on the date of this Prospectus, there are no pending actions initiated by any statutory or regulatory authorities against our Company.

(iii) *Other material proceedings*

Collage Design Private Limited (“**Petitioner**”) carried out certain interior and construction work for our Company for its admin building in Surat. The Petitioner alleged that upon completion of the works, relying on a virtual completion certificate dated April 7, 2025, it raised invoices aggregating approximately ₹106.22 million, of which ₹19.65 million remained outstanding after part-payments by our Company. Subsequently, the Petitioner issued a demand notice dated October 2, 2025, claiming a total outstanding amount of ₹22.30 million, including interest. Upon receipt of the notice, our Company, *vide* its reply dated October 13, 2025 (“**Reply**”), contended that no amount is due and payable, on the grounds that certain alleged additional works were unapproved, several works remained incomplete or defective, and the completion certificate was not issued by an authorised representative. The Petitioner subsequently filed a petition dated December 6, 2025 (“**Petition**”) under Section 9 of the Insolvency and Bankruptcy Code, 2016 (“**IBC**”) before the National Company Law Tribunal at Mumbai (“**NCLT**”) against our Company seeking initiation of corporate insolvency resolution process claiming an outstanding amount of ₹22.30 million arising from unpaid invoices. The NCLT, *vide* its order dated January 20, 2026, has noticed several defects in the Petition, including, *inter alia*, that no date of default had been stated, interest had been claimed without disclosing the basis and invoice-wise computation of the outstanding had not been annexed. The Petitioner has filed an additional affidavit to remove the defects in the Petition. The NCLT accordingly has directed our Company to file its reply. The matter is currently pending.

Selling and Transfer Restrictions

Invitations to subscribe to or purchase the Equity Shares in the Offer were made only pursuant to the Red Herring Prospectus if the recipient is in India or the preliminary offering memorandum for the Offer, which comprises the Red Herring Prospectus and the preliminary international wrap for the Offer, if the recipient is outside India. No person outside India was eligible to Bid for Equity Shares in the Offer unless that person had received the preliminary offering memorandum for the Offer, which contained the selling restrictions for the Offer outside India.

The Equity Shares offered in the Offer have not been and will not be registered, listed or otherwise qualified in any jurisdiction except India and may not be offered or sold to persons outside of India except in compliance with the applicable laws of each such jurisdiction. In particular, the Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**U.S. Securities Act**”), or the securities laws of any state of the United States and may not be offered or sold in the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. The Equity Shares offered in the Offer are being offered and sold only outside the United States in “offshore transactions” as defined in and in reliance on Regulation S under the U.S. Securities Act (“**Regulation S**”).

Each purchaser of the Equity Shares in the Offer who does not receive a copy of the preliminary offering memorandum shall be deemed to represent and warrant to and agree with our Company, Promoter Selling Shareholders and the members of the Syndicate as follows:

- It was outside the United States (as defined in Regulation S) at the time the offer of the Equity Shares was made to it and it was outside the United States (as defined in Regulation S) when its buy order for the Equity Shares was originated.
- It did not purchase the Equity Shares as a result of any “directed selling efforts” (as defined in Regulation S).
- It bought the Equity Shares for investment purposes and not with a view to the distribution thereof. If in the future it decides to resell or otherwise transfer any of the Equity Shares, it agrees that it will not offer, sell or otherwise transfer the Equity Shares except in a transaction complying with Rule 903 or Rule 904 of Regulation S or pursuant to any other available exemption from registration under the U.S. Securities Act.
- It will not sell or transfer any Equity Shares or any economic interest therein, including any offshore derivative instruments, such as participatory notes, issued against the Equity Shares, other than in accordance with applicable laws.
- If it acquired any of the Equity Shares as fiduciary or agent for one or more investor accounts, it has sole investment discretion with respect to each such account and that it has full power to make the foregoing representations, warranties, acknowledgements and agreements on behalf of each such account.
- If it acquired any of the Equity Shares for one or more managed accounts, that it was authorized in writing by each such managed account to subscribe to the Equity Shares for each managed account and to make (and it hereby makes) the representations, warranties, acknowledgements and agreements herein for and on behalf of each such account, reading the reference to “it” to include such accounts.
- It agrees to indemnify and hold the Company, Promoter Selling Shareholders and the members of the Syndicate harmless from any and all costs, claims, liabilities and expenses (including legal fees and expenses) arising out of or in connection with any breach of these representations, warranties or agreements. It agrees that the indemnity set forth in this paragraph shall survive the resale of the Equity Shares.
- It acknowledges that our Company, Promoter Selling Shareholders and the members of the Syndicate and others will rely upon the truth and accuracy of the foregoing representations, warranties, acknowledgements and agreements.

Until the expiry of 40 days after the commencement of this Offer, an offer or sale of Equity Shares sold in this Offer within the United States by a dealer (whether or not it is participating in this Offer) may violate the registration requirements of the U.S. Securities Act.

Redressal of investor grievances

In terms of the SEBI ICDR Master Circular and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the Bidders shall be compensated by the SCSBs in accordance with SEBI ICDR Master Circular in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially-allotted applications, for the stipulated period. Further, in terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the Book Running Lead Managers, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

In accordance with the SEBI ICDR Master Circular, following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount; and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and 2. ₹100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted/ partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the BRLMs shall be liable to compensate the investor ₹100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with the SEBI ICDR Master Circular.

The Registrar Agreement provides for retention of records with the Registrar to the Offer for a period of at least eight years, or any such period as may be specified from the last date of dispatch of the letters of allotment and demat credit to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

Bidders can contact the Company Secretary and Compliance Officer and/or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Offer related queries and for redressal of complaints, Bidders may also write to the BRLMs, in the manner provided below.

All grievances in relation to the Bidding process may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder DP ID, Client ID, UPI ID, PAN, date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder.

All grievances relating to Bids submitted with Registered Brokers, may be addressed to the Stock Exchanges, with a copy to the Registrar to the Offer. Further, Bidders shall also enclose a copy of the Acknowledgment Slip received from the Designated Intermediaries in addition to the information mentioned hereinabove.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the BRLMs with whom the Bid cum Application Form was submitted by the Anchor Investor. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders. Our Company, the Promoter Selling Shareholders, the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations. Investors can contact the Company Secretary and Compliance Officer, the BRLMs or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

Disposal of Investor Grievances by our Company

Our Company has obtained authentication on the SEBI SCORES in terms of the SEBI circular bearing number SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023 in relation to redressal of investor grievances through SCORES.

Our Company has constituted a Stakeholders' Relationship Committee to review and redress the shareholders' and investors' grievances such as transfer of Equity Shares, non-recovery of balance payments, declared dividends, approve subdivision, consolidation, transfer and issue of duplicate shares. For details, see "*Our Management – Stakeholders' Relationship Committee*" on page 253. Our Company has also appointed Devanand Parshottam Mojindra, Company Secretary of our Company, as the Compliance Officer for the Offer. For details, see "*General Information*" on page 78.

In the three years preceding the date of this Prospectus, our Company has not received any investor complaints. As on the date of this Prospectus, there are no pending investor complaints in relation to our Company.

The Promoter Selling Shareholders have, severally and not jointly, authorised the Company Secretary and Compliance Officer of our Company, and the Registrar to the Offer to redress any complaints received from Bidders in respect of the Offer for Sale.

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be 10 Working Days from the date

of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

As on date of this Prospectus, our Subsidiaries are not listed on any stock exchange.

Other confirmations

Any person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the initial public offer, except for fees or commission for services rendered in relation to the Offer.

Exemptions from complying with any provision of securities laws, if any, granted by SEBI

Our Company has not applied for any exemption from complying with any provisions of securities laws before SEBI.

SECTION VIII – OFFER RELATED INFORMATION

TERMS OF THE OFFER

The Equity Shares being issued, offered and Allotted pursuant to this Offer shall be subject to the provisions of the Companies Act, the SCRA, SCRR, SEBI ICDR Regulations, the SEBI Listing Regulations, our Memorandum of Association and Articles of Associations, the terms of the Red Herring Prospectus, this Prospectus, the Abridged Prospectus, the Bid cum Application Form, the Revision Form, CAN, the Allotment Advice and other terms and conditions as may be incorporated in the Allotment Advice and other documents or certificates that were and may be executed in respect of this Offer. The Equity Shares shall also be subject to all applicable laws, guidelines, rules, notifications and regulations relating to the offer of capital and listing and trading of securities offered from time to time by SEBI, the GoI, the Stock Exchanges, the RoC, the RBI, and/or other authorities, as in force on the date of this Offer and to the extent applicable, or such other conditions as may be prescribed by such governmental, regulatory or statutory authority while granting its approval for the Offer.

The Offer

The Offer comprised an Offer for Sale by the Promoter Selling Shareholders. Expenses for the Offer shall be shared amongst the Promoter Selling Shareholders in the manner specified in “*Objects of the Offer – Offer related expenses*”, on page 114.

Ranking of the Equity Shares

The Equity Shares being Allotted and transferred pursuant to the Offer shall be subject to the provisions of the Companies Act, the SEBI ICDR Regulations, SCRA, SCRR, our Memorandum of Association and Articles of Association and shall rank *pari passu* in all respects with the existing Equity Shares including rights in respect of dividend, voting and other corporate benefits if any, declared by our Company after the date of Allotment. For further details, see “*Description of Equity Shares and Terms of Articles of Association*” on page 439.

Mode of payment of dividend

Our Company shall pay dividends, if declared, to Shareholders of our Company as per the provisions of the Companies Act, 2013, our Memorandum of Association and Articles of Association, the SEBI Listing Regulations and other applicable law. All dividends, if any, declared by our Company after the date of Allotment, will be payable to the Bidders who have been Allotted Equity Shares in the Offer, in accordance with applicable law. For further details in relation to dividends, see “*Dividend Policy*” and “*Description of Equity Shares and Terms of Articles of Association*” on pages 266 and 439, respectively.

Face Value, Price Band and Offer Price

The face value of the Equity Shares is ₹1. The Floor Price of Equity Shares is ₹ 398 per Equity Share and the Cap Price is ₹ 419 per Equity Share. The Anchor Investor Offer Price is ₹419 per Equity Share. Price Band, Employee Discount and minimum Bid Lot for the Offer were decided by our Company, in consultation with the BRLMs, and advertised in all editions of the English national daily newspaper Financial Express, all editions of the Hindi national daily newspaper Jansatta, and Mumbai edition of Navshakti the Marathi daily newspaper (Marathi being the regional language of Maharashtra, where our Registered and Corporate Office is located), each with wide circulation, at least two Working Days prior to the Bid / Offer Opening Date, were made available to the Stock Exchanges for the purpose of uploading on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price, was pre-filled in the Bid cum Application Forms available at the websites of the Stock Exchanges. The Offer Price was determined by our Company in consultation with the BRLMs, after the Bid/Offer Closing Date, on the basis of assessment of market demand for the Equity Shares offered by way of Book Building Process.

At any given point of time there shall be only one denomination for the Equity Shares.

Compliance with disclosure and accounting norms

Our Company shall comply with all applicable disclosure and accounting norms as specified by SEBI from time to time.

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and the provisions of our Articles, our Shareholders shall have the following rights:

1. The right to receive dividend, if declared;
2. The right to attend general meetings and exercise voting rights, unless prohibited by law;
3. The right to vote on a poll either in person or by proxy or 'e-voting' in accordance with the provisions of the Companies Act;
4. Right to receive offers for rights shares and be allotted bonus shares, if announced;
5. Right to receive surplus on liquidation, subject to any statutory and preferential claims being satisfied;
6. The right to freely transfer their Equity Shares, subject to foreign exchange regulations and other applicable laws, including rules framed by the RBI;
7. Such other rights, as may be available to a shareholder of a listed public company under applicable law, including the Companies Act, 2013, the terms of the SEBI Listing Regulations, and our Memorandum of Association and Articles of Association;

For a detailed description of the provisions of our Articles relating to voting rights, dividend, forfeiture and lien, transfer and transmission, and/or consolidation / splitting, see "*Description of Equity Shares and Terms of Articles of Association*" on page 439.

Allotment of Equity Shares in dematerialised form

Pursuant to Section 29 of the Companies Act, 2013, and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. Hence, the Equity Shares offered through the Red Herring Prospectus can be applied for in the dematerialised form only. In this context, our Company has entered into the following agreements:

- (i) Tripartite agreement dated August 20, 2021, amongst our Company, NSDL and Registrar to the Offer; and
- (ii) Tripartite agreement dated September 19, 2025, amongst our Company, CDSL and Registrar to the Offer.

Market lot and trading lot

The trading of our Equity Shares on the Stock Exchanges shall only be in dematerialised form, consequent to which, the tradable lot is one Equity Share. Allotment of Equity Shares will be only in electronic form in multiples of 35 Equity Shares, subject to a minimum Allotment of 35 Equity Shares of face value of ₹ 1 each. For the method of Basis of Allotment, see "*Offer Procedure*" on page 417.

Joint holders

Subject to provisions contained in our Articles, where two or more persons are registered as the holders of any Equity Share, they shall be deemed to hold such Equity Shares as joint holders with benefits of survivorship.

Jurisdiction

The courts of Mumbai, Maharashtra, India will have exclusive jurisdiction in relation to this Offer.

Period of operation of subscription list

See "*Bid/ Offer Programme*" on page 406.

Nomination facility to Bidders

In accordance with Section 72 of the Companies Act, 2013, read with the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole or first Bidder, along with other joint Bidders, may nominate any one person in whom, in the event of the death of the sole Bidder or in case of joint Bidders, the death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of death of the original holder(s), shall be entitled to the same advantages to which such person would be entitled if such person were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to the Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer of Equity Share(s) by the person nominating. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation. A buyer will be entitled to make a fresh nomination in the manner prescribed. A fresh nomination can be made only on the prescribed form, which is available on request at our Registered and Corporate Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 as mentioned above, shall, upon the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment will be made only in dematerialised form, there shall be no requirement for a separate nomination with our Company. Nominations registered with the respective Collecting Depository Participant of the Bidder will prevail. If Bidders wish to change their nomination, they are requested to inform their respective Collecting Depository Participant.

Credit of Equity Shares to demat accounts of Allottees	On or about Tuesday, July 14, 2026
Commencement of trading of the Equity Shares on the Stock Exchanges	On or about Wednesday, July 15, 2026

* In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date for cancelled / withdrawn / deleted ASBA Forms, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/partially allotted Bids, exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the SCSB responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. The Bidder shall be compensated in the manner specified in the SEBI ICDR Master Circular and SEBI RTA Master Circular, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of our Company with the SCSBs, to the extent applicable.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI RTA Master Circular and the SEBI ICDR Master Circular and any subsequent circulars or notifications issued by SEBI in this regard.

The above timetable is indicative and does not constitute any obligation or liability on our Company, the Promoter Selling Shareholders or the BRLMs.

While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days from the Bid / Offer Closing Date, or such other period as prescribed by the SEBI, the timetable may be extended due to various factors, such as any delay in receiving the final listing and trading approval from the Stock Exchanges, and delay in respect of final certificates from SCSBs. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. Each of the Promoter Selling Shareholders shall provide reasonable support and cooperation as may be requested by the BRLMs and/or the Company to facilitate the process of listing and commencement of trading of Equity Shares on the Stock Exchanges and solely to the extent such assistance is in relation to its portion of the Offered Shares.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid / Offer Closing Date or such other time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the intermediary responsible for causing such delay in unblocking, in the manner specified in the UPI Circulars, to the extent applicable, which for the avoidance of doubt, shall be deemed to be incorporated herein. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Any circulars or notifications from SEBI after the date of this Prospectus may result in changes to the listing timelines. Further, the Offer procedure is subject to change to any revised SEBI circulars to this effect.

The Registrar to the Offer was required to submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSB's were required to unblock such applications by the closing hours of the Working Day and submit the confirmation to the Book Running Lead Managers and the RTA on a daily basis, as per the format prescribed in SEBI ICDR Master Circular. To avoid duplication, the facility of re-initiation provided to Syndicate Member was preferably allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids. It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount was not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, were required to be rejected.

On the Bid/ Offer Closing Date, the Bids were uploaded until:

4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by RIBs and Eligible Employees Bidding in the Employee Reservation Portion.

On Bid / Offer Closing Date, extension of time may have been granted by the Stock Exchanges only for uploading Bids received by Retail Individual Bidders and Eligible Employees Bidding in the Employee Reservation Portion, after taking into account the total number of Bids received and as reported by the BRLMs to the Stock Exchanges.

The Registrar to the Offer was required to submit the details of cancelled / withdrawn / deleted applications to the SCSBs on daily basis within 60 minutes of the Bid closure time from the Bid / Offer Opening Date till the Bid / Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs were required to unblock such applications by the closing hours of the Working Day.

To avoid duplication, the facility of re-initiation provided to Syndicate Member was preferably allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount was not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, were required to be rejected.

Due to limitation of time available for uploading the Bids on the Bid/ Offer Closing Date, Bidders were advised to submit their Bids one day prior to the Bid/ Offer Closing Date and were advised to submit their Bids no later than 12:00 p.m. IST on the Bid/ Offer Closing Date. Any time mentioned in this Prospectus is IST. Bidders were cautioned that, in the event a large number of Bids were received on the Bid/ Offer Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that were not uploaded could not be considered for allocation under this Offer. Bids and any revision to the Bids, were accepted only during Working Days, during the Bid/ Offer Period. Bids were accepted only during Monday to Friday (excluding any public holiday), during the Bid/Offer period. Investors may please note that as per letter no. list/SMD/SM/2006 dated July 3, 2006, and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE, respectively, Bids and any revision in Bids were not accepted on Saturdays, Sundays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders were uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

The Designated Intermediaries could modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) sent the bid information to the Registrar to the Offer for further processing.

In case of discrepancy in data entered in the electronic book vis-à-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges was taken as the final data for the purpose of Allotment.

Employee Discount

Employee Discount was offered to Eligible Employees bidding in the Employee Reservation Portion, and, at the time of making a Bid. Eligible Employees bidding in the Employee Reservation Portion at a price within the Price Band could make payment based on Bid Amount net of Employee Discount at the time of making a Bid. Eligible

Employees bidding in the Employee Reservation Portion at the Cut-Off Price have to ensure payment at the Cap Price, less Employee Discount, at the time of making a Bid.

Minimum subscription

As this was an offer for sale by the Promoter Selling Shareholders, the requirement of minimum subscription of 90% of the Offer under the SEBI ICDR Regulations is not applicable to this Offer. However, if our Company does not receive the minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, as applicable, within 60 days from the date of Bid/offer Closing Date or; withdrawal of applications; or after technical rejections or any other reason; or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares so offered under the offer document, our Company shall forthwith refund/unblock the entire subscription amount received in accordance with applicable law including the SEBI ICDR Master Circular. If there is a delay beyond the timeline prescribed under law, our Company and every Director of our Company who is an officer in default, to the extent applicable, shall pay interest at the rate of 15% per annum as per the SEBI ICDR Master Circular and other applicable law. The Promoter Selling Shareholders shall reimburse to the extent of the Equity Shares offered by the Promoter Selling Shareholders in the Offer, any expenses and interest incurred by our Company on behalf of the Promoter Selling Shareholders for any delays in making refunds as required under the Companies Act and any other applicable law, provided that the Promoter Selling Shareholders shall not be responsible or liable for payment of such interest, unless such delay is solely and directly attributable to an act or omission of the respective Promoter Selling Shareholders in relation to its respective portion of the Offered Shares. All refunds made, interest borne, and expenses incurred (with regard to payment of refunds) by our Company on behalf of any such Promoter Selling Shareholders will be adjusted or reimbursed by such Promoter Selling Shareholders, severally and not jointly, to the extent of its respective portion of the Equity Shares offered by the Promoter Selling Shareholders in the Offer, to our Company as agreed among our Company and the Promoter Selling Shareholders in writing, in accordance with Applicable Law.

If there is a delay beyond two Working days, our Company, every Director of our Company, who is an officer in default shall pay interest at the rate of 15% per annum, in accordance with the SEBI ICDR Master Circular and the SEBI ICDR Regulations.

Further, in terms of Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Bidders to whom the Equity Shares will be Allotted will be not less than 1,000 failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for disposal of odd lots

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

New financial instruments

Our Company is not issuing any new financial instruments through this Offer.

Restriction on transfer and transmission of shares

Except for the lock-in of the pre-Offer Equity Shares, the Promoters' Contribution and Equity Shares allotted to Anchor Investors pursuant to the Offer, as detailed in "*Capital Structure*" on page 88, and except as provided in our Articles, there are no restrictions on transfers and transmission of Equity Shares or on their consolidation or splitting. See, "*Description of Equity Shares and Terms of Articles of Association*" at page 439.

Option to receive Equity Shares in Dematerialized Form

Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchanges.

Withdrawal of the Offer

Our Company and the Promoter Selling Shareholders, in consultation with the BRLMs, reserve the right not to proceed with the entire or portion of the Offer for any reason at any time after the Bid / Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the same newspapers, in which the pre-Offer advertisements were published, within two days of the Bid / Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. Further, the Stock Exchanges shall be informed promptly in this regard by our Company and the BRLMs, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification and also inform the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. In the event of withdrawal of the Offer and subsequently, plans of a fresh offer by our Company, a fresh draft red herring prospectus will be submitted again to SEBI.

Notwithstanding the foregoing, this Offer is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days of the Bid/Offer Closing Date or such other period as may be prescribed. If Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded/unblocked within the time prescribed under applicable law.

Retail, QIB, NIB and other reserved categories and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies is blocked.

OFFER PROCEDURE

All Bidders were required to read the General Information Document for investing in public issues prepared and issued in accordance with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 and the UPI Circulars (the “**General Information Document**”) which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations which is part of the abridged prospectus accompanying the Bid cum Application Form. The General Information Document is available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer, particularly in relation to process for Bids by UPI Bidders through the UPI Mechanism. The details and process provided in the General Information Document should be read in conjunction with this section.

Bidders could refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) designated date; (viii) disposal of applications and electronic registration of bids; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application could have been rejected on technical grounds); (xi) applicable provisions of Companies Act relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and the consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for UPI Bidders applying through Designated Intermediaries was made effective along with the timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with the existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings whose application size are up to ₹0.50 million shall use the UPI Mechanism. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹0.20 million and up to ₹0.50 million, using the UPI Mechanism, shall provide their UPI ID in the Bid cum-Application Form for Bidding through Syndicate, Sub-Syndicate Members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”) and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Offer will be undertaken pursuant to the processes and procedures under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

SEBI vide the SEBI ICDR Master Circular has prescribed certain additional measures for streamlining the process of initial public issues and redressing investor grievances. The SEBI RTA Master Circular has consolidated the aforementioned circulars (excluding SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023) and rescinded these circulars to the extent relevant for the RTAs. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories). In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in the SEBI ICDR Master Circular and the SEBI RTA Master Circular shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and lead managers shall continue to coordinate with intermediaries involved in the said process.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in the SEBI ICDR Master Circular shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and lead managers shall continue to coordinate with intermediaries involved in the said process.

Pursuant to circular no. NSDL/CIR/II/28/2023 dated August 8, 2023, issued by NSDL and circular no. CDSL/OPS/RTA/POLCY/2023/161 dated August 8, 2023 issued by CDSL, our Company may request the Depositories to suspend/ freeze the ISIN in depository system from or around the date of the Red Herring Prospectus till the listing and commencement of trading of our Equity Shares. The Shareholders who intend to transfer the pre-Offer shares may request our Company and/ or the Registrar for facilitating transfer of shares under suspended/ frozen ISIN by submitting requisite documents to our Company and/ or the Registrar. Our Company and/ or the Registrar would then send the requisite documents along with applicable stamp duty and corporate action charges to the respective depository to execute the transfer of shares under suspended ISIN through corporate action. The transfer request shall be accepted by the Depositories from our Company till one day prior to Bid/ Offer Opening Date.

SEBI vide its circular no. SEBI/HO/CFD/CFD-TPD-1/P/CIR/2024/5 dated May 24, 2024 (“AV Circular”) has introduced the disclosure of audiovisual presentation of disclosures made in Offer Documents. Pursuant to the AV Circular, investors are advised not to rely on any other document, content or information provided in respect to the public issue on the internet/online websites/social media platforms/micro-blogging platforms by influencers. Further, investors are advised to rely only on the information contained in the Offer Documents and the pre-Offer and Price Band advertisement for making investment decision.

Bidders were advised to make their independent investigations and ensure that their Bids were submitted in accordance with applicable laws and did not exceed the investment limits or maximum number of Equity Shares that could be held by them under applicable law or as specified in the Red Herring Prospectus and this Prospectus.

The BRLMs shall be the nodal entity for any issues arising out of public issuance process.

Book Building Procedure

The Offer was being made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Net Offer was available for allocation to QIBs on a proportionate basis, provided that our Company in consultation with the BRLMs allocated up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which 40% of the Anchor Investor Portion was reserved for domestic Mutual Funds, Life Insurance Companies and Pension Funds, in the following manner (i) 33.33% of the Anchor Investor Portion was reserved for domestic Mutual Funds and (ii) 6.67% of the Anchor Investor Portion was reserved for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. Further, in the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares could be added to the Net QIB Portion. 5% of the Net QIB Portion was available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Net Offer was available for allocation to Non-Institutional Bidders and not less than 35% of the Net Offer was available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received at or above the Offer Price. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, was subject to the following: (i) one-third of the portion available to Non-Institutional Bidders was reserved for Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million and (ii) two-third of the portion available to Non-Institutional Bidders was reserved for Bidders with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories could be allocated to Bidders in the other sub-category of Non-Institutional Bidders. Furthermore, 92,105 Equity Shares, aggregating to ₹35.00 million were available for

allocation on a proportionate basis only to Eligible Employees Bidding in the Employee Reservation Portion, subject to valid Bids having been received at or above the Offer Price, net of Employee Discount.

Subject to valid Bids having been received at or above the Offer Price, under-subscription, if any, in any category except in the QIB Portion, could be met with spill over from any other category or combination of categories on proportionate basis, at the discretion of our Company in consultation with the BRLMs and the Designated Stock Exchange subject to applicable laws.

In the event of under-subscription in the Employee Reservation Portion (if any), the unsubscribed portion could have been made available for allocation and Allotment, proportionately to all Eligible Employees who had Bid in excess of ₹0.20 million (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹0.50 million (net of Employee Discount). The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation of up to ₹0.50 million), could be added to the Net Offer, provided that under-subscription, if any, in the QIB Portion could not be met with spill over from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which did not have the details of the Bidders' depository account, including the DP ID and the Client ID and the PAN and UPI ID (for UPI Bidders), were treated as incomplete and rejected. Bidders do not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of *inter alia* equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the relevant UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidder through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced and implemented the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase was applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI pursuant to its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, had decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI pursuant to its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

Phase III: This phase became applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer was undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular and SEBI ICDR Master Circular, in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law.

All SCSBs offering the facility of making application in public issues had to also provide facility to make application using UPI.

NPCI through its circular (NPCI/UIP/OC No. 127/ 2021-22) dated December 9, 2021, *inter alia*, has enhanced the per transaction limit from ₹ 0.20 million to ₹ 0.50 million for applications using UPI in initial public offerings.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-*Offer* BRLM will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public issues had to also provide facility to make application using UPI.

Our Company was required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders.

The Sponsor Banks shall host a web portal for intermediaries (closed user group) from the date of Bid/*Offer* Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the *Offer* bidding process.

For further details, refer to the General Information Document which is available on the websites of the Stock Exchanges and the BRLMs.

Electronic registration of Bids

- a) The Designated Intermediary could register the Bids using the online facilities of the Stock Exchanges. The Designated Intermediaries could also set up facilities for off-line electronic registration of Bids, subject to the condition that they would subsequently upload the off-line data file into the online facilities for the Book Building process on a regular basis before the closure of the *Offer*.
- b) On the Bid / *Offer* Closing Date, the Designated Intermediaries could upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus and this Prospectus.
- c) Only Bids that were uploaded on the Stock Exchanges' platform will be considered for allocation / Allotment. The Designated Intermediaries were given till 5:00 pm on the Bid / *Offer* Closing Date to modify select fields uploaded in the Stock Exchanges' platform during the Bid / *Offer* Period after which the Stock Exchange(s) sent the Bid information to the Registrar to the *Offer* for further processing.
- d) QIBs and Non-Institutional Bidders could neither revise their Bids downwards nor cancel/withdraw their Bids.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus were made available with the Designated Intermediaries at relevant Bidding Centers and at our Registered and Corporate Office. An electronic copy of the ASBA Form was made available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid / *Offer* Opening Date. The Bid Cum Application Forms for Eligible Employees Bidding in the Employee Reservation Portion were available at the Registered and Corporate Office of our Company.

Copies of the Anchor Investor Application Form were made available at the offices of the BRLMs.

All Bidders (other than Anchor Investors) were required to compulsorily use the ASBA process to participate in the Offer. Anchor Investors were not permitted to participate in this Offer through the ASBA process.

Bidders (other than Anchor Investors and UPI Bidders) were required to provide bank account details and authorisation by the ASBA account holder to block funds in their respective ASBA Accounts in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain such details are liable to be rejected.

UPI Bidders submitting their Bid cum Application Form to any Designated Intermediary (other than SCSBs) were required to Bid using the UPI Mechanism and must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bids submitted by UPI Bidders with any Designated Intermediary (other than SCSBs) without mentioning the UPI ID are liable to be rejected. UPI Bidders may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

Further, ASBA Bidders shall ensure that the Bids are submitted at the Bidding Centres only on ASBA Forms bearing the stamp of a Designated Intermediary (except in case of electronic ASBA Forms) and ASBA Forms not bearing such specified stamp maybe liable for rejection. Bidders using the ASBA process to participate in the Offer must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked therein. In order to ensure timely information to investors SCSBs are required to send SMS alerts to investors intimating them about the Bid Amounts blocked / unblocked.

Since the Offer was made under Phase III (on a mandatory basis), ASBA Bidders could submit the ASBA Form in the manner below:

- (i) RIBs (other than RIBs using UPI Mechanism) were required to submit their ASBA Forms with SCSBs (physically or online, as applicable), or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- (ii) UPI Bidders were required to submit their ASBA Forms with the Syndicate, Sub-Syndicate Members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts) provided by certain brokers.
- (iii) QIBs and NIBs not using the UPI Mechanism were required to submit their ASBA Forms with SCSBs, Syndicate, Sub-Syndicate Members, Registered Brokers, RTAs or CDPs.

ASBA Bidders were also required to ensure that the ASBA Account had sufficient credit balance as an amount equivalent to the full Bid Amount which could be blocked by the SCSB or the Sponsor Banks, as applicable, at the time of submitting the Bid. In order to ensure timely information to investors, SCSBs were required to send SMS alerts to investors intimating them about Bid Amounts blocked / unblocked, including details as prescribed in Annexure XVII of the SEBI ICDR Master Circular.

All the ASBA applications in Public Issues were processed only after the application monies was blocked in the investor's bank accounts. Stock Exchanges could accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. The circular was made applicable for all categories of investors viz. Retail Individual Bidders, QIB and NIB and also for all modes through which the applications were being processed.

UPI Bidders were required to provide the UPI ID in the relevant space provided in the Bid cum Application Form.

The prescribed colour of the Bid cum Application Forms for various categories was as follows:

Category	Colour of Bid cum Application Form*
Resident Indians including resident QIBs, Non-Institutional Bidders, Retail Individual Bidders and Eligible NRIs applying on a non-repatriation basis	White
Non-Residents including FPIs, Eligible NRIs applying on a repatriation basis, FVCIs and registered bilateral and multilateral institutions	Blue
Anchor Investors	White
Eligible Employees Bidding in the Employee Reservation Portion	Pink

** Excluding electronic Bid cum Application Forms*

Notes:

(1) Electronic Bid cum Application forms were made available for download on the website of NSE (www.nseindia.com) and BSE (www.bseindia.com).

(2) Bid cum Application Forms for Anchor Investors were made available at the offices of the BRLMs.

(3) Bid cum Application Forms for Eligible Employees were made available at the Registered and Corporate Office of our Company.

In case of ASBA Forms, the relevant Designated Intermediaries uploaded the relevant Bid details in the electronic bidding system of the Stock Exchanges. Designated Intermediaries (other than SCSBs) submitted / delivered the ASBA Forms (except Bid cum Application Forms submitted by UPI Bidders) to the respective SCSB, where the Bidder had a bank account and could not submit it to any non-SCSB bank or any Escrow Collection Banks. For UPI Bidders, the Stock Exchanges were required to share the Bid details (including UPI ID) with the Sponsor Banks on a continuous basis to enable the Sponsor Banks to initiate a UPI Mandate Request to such UPI Bidders for blocking of funds. The Sponsor Banks initiated request for blocking of funds through NPCI to UPI Bidders, who accepted the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI was required to maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Banks, NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions / investor complaints to the Sponsor Banks and the issuer bank. The Sponsor Banks and the Bankers to the Offer shall provide the audit trail to the BRLMs for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in SEBI ICDR Master Circular.

For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders should accept UPI Mandate Requests for blocking of funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Banks will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Banks will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLMs in the format and within the timelines as specified under the UPI Circulars. Sponsor Banks and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Banks on a continuous basis.

The Sponsor Banks shall host a web portal for intermediaries (closed user group) from the date of Bid / Offer Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks / unblocks, performance of apps and UPI handles, down-time / network latency (if any) across intermediaries and any such processes having an impact / bearing on the Offer Bidding process.

Pursuant to NSE circular dated August 3, 2022 with reference no. 25/2022, the following is applicable to all initial public offers opening on or after September 1, 2022:

- (a) Cut-off time for acceptance of UPI mandate shall be up to 5:00 p.m. on the initial public offer closure date and existing process of UPI bid entry by syndicate members, registrars to the offer and Depository Participants shall continue till further notice;
- (b) There shall be no T+1 mismatch modification session for PAN-DP mismatch and bank/ location code on T+1 day for already uploaded bids. The dedicated window provided for mismatch modification on T+1 day shall be discontinued;
- (c) Bid entry and modification/ cancellation (if any) shall be allowed in parallel to the regular bidding period up to 4.00 p.m. for QIBs and Non-Institutional Bidders categories and up to 5.00 p.m. for Retail Individual categories on the initial public offer closure day; and
- (d) QIBs and Non-Institutional Bidders can neither revise their bids downwards nor cancel/withdraw their bids;
- (e) The Stock Exchanges shall display Offer demand details on its website and for UPI bids the demand shall include/consider UPI bids only with latest status as RC 100–black request accepted by Investor/ client, based on responses/status received from the Sponsor Banks.

Participation by Promoters, Promoter Group, the Book Running Lead Managers, associates and affiliates of the Book Running Lead Managers and the Syndicate Member and the persons related to Promoters, Promoter Group, Book Running Lead Managers and the Syndicate Member and Bids by Anchor Investors

The BRLMs and the Syndicate Member were not allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLMs and the Syndicate Member could purchase Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as would be applicable to such Bidders, and such subscription would be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLMs and Syndicate Member, were treated equally for the purpose of allocation to be made on a proportionate basis.

Except as stated below, neither the Book Running Lead Managers nor any associate of the Book Running Lead Managers applied in the Offer under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associates of the Book Running Lead Managers;
- (ii) insurance companies promoted by entities which are associates of the Book Running Lead Managers;
- (iii) AIFs sponsored by the entities which are associates of the Book Running Lead Managers;
- (iv) FPIs other than individuals, corporate bodies and family offices which are associates of the Book Running Lead Managers; or
- (v) Pension funds, with minimum corpus of ₹250.00 million and registered with the Pension Fund Regulatory and Development Authority established under Section 3(1) of the Pension Fund Regulatory and Development Authority Act, 2013, and sponsored by entities which are associates of the Book Running Lead Managers.

Further, an Anchor Investor was deemed to be an “associate of the Book Running Lead Manager” if: (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or (iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the BRLMs.

Further, the Promoters and members of the Promoter Group did not participate by applying for Equity Shares in the Offer, except in accordance with the applicable law. Furthermore, persons related to the Promoters and the Promoter Group did not apply in the Offer under the Anchor Investor Portion. It is clarified that a qualified institutional buyer who has rights under a shareholders’ agreement or voting agreement entered into with any of the Promoters or members of the Promoter Group of our Company, veto rights or a right to appoint any nominee director on our Board, was deemed to be a person related to the Promoters or Promoter Group of our Company.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate was required to be lodged with the Bid cum Application Form. Failing this, our Company in consultation with BRLMs reserves the right to reject any Bid without assigning any reason thereof. Bids made by asset management companies or custodians of Mutual Funds were specifically required to state the names of the concerned schemes for which such Bids were made, subject to applicable law.

In case of a Mutual Fund, a separate Bid could be made in respect of each scheme of a Mutual Fund registered with the SEBI and such Bids in respect of more than one scheme of a Mutual Fund would not be treated as multiple Bids, provided that such Bids clearly indicated the scheme for which the Bid was submitted.

No Mutual Fund scheme can invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific scheme. No Mutual Fund under all its schemes can own more than 10% of any company’s paid-up share capital carrying voting rights.

Bids by Eligible NRIs

Eligible NRIs could obtain copies of Bid cum Application Form from the offices of the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange were considered for Allotment. Eligible NRIs Bidding on a repatriation basis were required to authorise their SCSBs or confirm or

accept the UPI Mandate Request (in case of UPI Bidders) to block their Non-Resident External Accounts (“**NRE Account**”), or Foreign Currency Non-Resident Accounts (“**FCNR Account**”), and Eligible NRIs bidding on a non-repatriation basis were required to authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders) to block their Non-Resident Ordinary (“**NRO**”) accounts for the full Bid amount, at the time of submission of the Bid cum Application Form. Participation of Eligible NRIs in the Offer is subject to the FEMA regulations. NRIs applying in the Offer through the UPI Mechanism were advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

In accordance with the FEMA Non-debt Instrument Rules, the total holding by any individual NRI, on a repatriation basis, could not exceed 5% of the total paid-up equity capital on a fully diluted basis of an Indian company listed on a recognised stock exchange or could not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company listed on a recognised stock exchange and the total holdings of all NRIs and OCIs put together could not exceed 10% of the total paid-up equity capital on a fully diluted basis by an Indian company listed on a recognised stock exchange or could not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant of an Indian company listed on a recognised stock exchange. Provided that the aggregate ceiling of 10% could be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. By way of Press Note 1 (2021 Series) dated March 19, 2021, issued by the DPIIT, it has been clarified that an investment made by an Indian entity which is owned and controlled by NRIs on a non-repatriation basis, shall not be considered for calculation of indirect foreign investment.

Eligible NRIs were permitted to apply in the Offer through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs could use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Offer, provided the UPI facility was enabled for their NRE / NRO accounts.

Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (Blue in colour).

Eligible NRIs Bidding on non-repatriation basis were advised to use the Bid cum Application Form for residents (White in colour).

For details of restrictions on investment by NRIs, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 477.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs were required to be made in the individual name of the Karta. The Bidder was required to specify that the Bid was being made in the name of the HUF in the Bid cum Application Form / Application Form as follows: “Name of sole or First Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids by HUFs will be considered at par with Bids from individuals.

Bids by FPIs

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Offer Equity Share capital. Further, in terms of the FEMA Non-debt Instruments Rules, the total holding by each FPI, of an investor group, shall be below 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis and the aggregate limit for FPI investments shall be the sectoral caps applicable to our Company, which is 100% of the total paid-up Equity Share capital of our Company on a fully diluted basis. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the total investment made by the FPI, or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor were required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100% under the automatic route).

In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included. Bids by FPIs which utilise the multi investment manager structure, submitted with the

same PAN but with different beneficiary account numbers, Client IDs and DP IDs were not be treated as multiple Bids.

FPIs were permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In terms of the FEMA Non-debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs was required to be included.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by, or on behalf of it subject to, *inter alia*, the following conditions:

1. such offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
2. prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

The FPIs who wish to participate in the Offer were advised to use the Bid cum Application Form for non-residents.

Bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the operational guidelines for FPIs and designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (such structure referred to as “**MIM Structure**”), provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs.

Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

Further, in the following cases, Bids by FPIs were not treated as multiple Bids:

1. FPIs which utilised the MIM structure, indicating the name of their respective investment managers in such confirmation;
2. Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments;
3. Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
4. FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager;
5. Multiple branches in different jurisdictions of foreign bank registered as FPIs;
6. Government and Government related investors registered as Category 1 FPIs; and
7. Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN). In order to ensure valid Bids, FPIs making multiple Bids using

the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilized any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason.

Bids by SEBI registered Alternative Investment Funds, Venture Capital Funds and Foreign Venture Capital Investors

The SEBI AIF Regulations, as amended prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996, venture capital funds which have not re-registered as AIFs under the SEBI AIF Regulations shall continue to be regulated by the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations as amended prescribe the investment restrictions on FVCIs.

The Category I and II AIFs cannot invest more than 25% of their investible funds in one investee company. A Category III AIF cannot invest more than 10% of its investible funds in one investee company. An FVCI can invest only up to 33.33% of its investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering of a venture capital undertaking or an investee company (as defined under the SEBI AIF Regulations) whose shares are proposed to be listed.

Participation of AIFs, VCFs and FVCIs was subject to the FEMA Rules.

In terms of Regulation 20(20) of SEBI AIF Regulations, every AIF, manager of the AIF and key management personnel of the manager and the AIF shall exercise specific due diligence, with respect to investors and investments of the AIF, to prevent facilitation of circumvention of such laws, as may be specified by SEBI from time to time. In this regard, SEBI through its circular dated October 8, 2024 mandates that for every scheme of AIFs having an investor, or investors belonging to the same group, who contribute(s) 50% or more to the corpus of the scheme, necessary due diligence as per the implementation standards formulated by Standard Setting Forum for AIFs (“SFA”), shall be carried out prior to availing benefits available to QIBs under SEBI ICDR Regulations and other SEBI regulations.

All non-resident investors were required to note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company, the Promoter Selling Shareholders or the BRLMs will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, was required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with BRLMs, reserves the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company’s investment committee were required to be attached to the Bid cum Application Form, failing which our Company in consultation with BRLMs, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949 (the “**Banking Regulation Act**”), and Master Direction – Reserve Bank of India (Financial Services

provided by Banks) Directions, 2016 is 10% of the paid-up share capital of the investee company or 10% of the bank's own paid-up share capital and reserves, as per the last audited balance sheet or a subsequent balance sheet, whichever is less. Further, the aggregate investment in subsidiaries and other entities engaged in financial and non-financial services cannot exceed 20% of the bank's paid-up share capital and reserves. A banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if: (a) the investee company is engaged in non-financial activities in which banking companies are permitted to engage under the Banking Regulation Act or (b) the additional acquisition is through restructuring of debt, or to protect the bank's interest on loans / investments made to a company, provided that the bank is required to submit a time-bound action plan for disposal of such shares (in this sub-clause (b)) within a specified period to the RBI. A banking company would require a prior approval of the RBI to make investment in excess of 30% of the paid-up share capital of the investee company, investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

Bids by SCSBs

SCSBs participating in the Offer were required to comply with the terms of the circulars dated September 13, 2012 and January 2, 2013 issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have had a separate account in their own name with any other SEBI registered SCSBs. Further, such account was required to be used solely for the purpose of making application in public issues and clear demarcated funds were available in such account for such Bids.

Bids by insurance companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI was required to be attached to the Bid cum Application Form. Failing this, our Company in consultation with BRLMs, reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 ("**IRDA Investment Regulations**"), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders were advised to refer to the IRDA Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Bids by Systemically Important Non-Banking Financial Companies

In case of Bids made by NBFC-SI, a certified copy of the certificate of registration issued by the RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s), was required to be attached to the Bid-cum Application Form. Failing this, our Company in consultation with BRLMs, reserve the right to reject any Bid, without assigning any reason thereof. NBFC-SI participating in the Offer were required to comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The above information was given for the benefit of the Bidders. Our Company, the Promoter Selling Shareholders and the Book Running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus, when filed. Bidders were advised to make their independent investigations and ensure that any single Bid from them did not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation and as specified in the Red Herring Prospectus and this Prospectus when filed.

In accordance with existing regulations issued by RBI, OCBs cannot participate in the Offer.

Information for Bidders

The relevant Designated Intermediary could enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options will not be considered as multiple Bids. It was the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revised his or her Bid, he / she was required to surrender the earlier Acknowledgement Slip and could request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system was not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLMs are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Draft Red Herring Prospectus or the Red Herring Prospectus or this Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Designated Stock Exchange, along with the BRLMs and the Registrar, shall ensure that the basis of allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

Method of allotment as may be prescribed by SEBI from time to time

Our Company has not and will not make any Allotment in excess of the Equity Shares offered through the Offer through the offer document except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation with the Designated Stock Exchange.

The allotment of Equity Shares to Bidders other than to the Retail Individual Bidders, Non-Institutional Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed.

The allotment of Equity Shares to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to the availability of Equity Shares in Retail Individual Bidder category, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Not less than 15% of the Offer were made available for allocation to Non-Institutional Bidders. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, shall be subject to the following: (i) one-third of the portion available to Non-Institutional Bidders was reserved for applicants with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹ 1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders. The allotment to each Non-Institutional Bidder shall not be less than the Minimum NIB application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares.

Payment into Escrow Account(s) for Anchor Investors

Our Company, in consultation with the BRLMs, in their absolute discretion, decided the list of Anchor Investors to whom the Allotment Advice was sent, pursuant to which the details of the Equity Shares allocated to them in their respective names has been notified to such Anchor Investors. Anchor Investors are not permitted to Bid in the Offer through the ASBA process. Instead, Anchor Investors should transfer the Bid Amount (through direct credit, RTGS, NACH or NEFT) to the Escrow Accounts. The payment instruments for payment into the Escrow Accounts was drawn in favour of:

- (i) In case of resident Anchor Investors: “KUSUMGAR LIMITED – ANCHOR RESIDENT ACCOUNT”
- (ii) In case of non-resident Anchor Investors: “KUSUMGAR LIMITED – ANCHOR NON-RESIDENT ACCOUNT”

Anchor Investors were required to note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Promoter Selling Shareholders, the Syndicate, the Bankers to the Offer and the Registrar to the Offer to facilitate collections from Anchor Investors.

Allotment Advertisement

Our Company, the BRLMs and the Registrar shall publish an allotment advertisement before commencement of trading, disclosing the date of commencement of trading in all editions of a widely circulated English national

daily newspaper, Financial Express, all editions of a widely circulated Hindi national daily newspaper, Jansatta and Mumbai edition of a widely circulated Marathi daily newspaper Navshakti (Marathi being the regional language of Maharashtra, where our Registered and Corporate Office is located).

Depository Arrangements

The Allotment of the Equity Shares in shall be only in a dematerialised form, (*i.e.*, not in the form of physical certificates but be fungible and be represented by the statement issued through the electronic mode). In this context, tripartite agreements had been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated August 20, 2021, amongst our Company, NSDL and Registrar to the Offer.
- Tripartite agreement dated September 19, 2025, amongst our Company, CDSL and Registrar to the Offer.

Undertaking by our Company

Our Company undertakes the following:

- (i) that the complaints received in respect of the Offer shall be attended to by our Company expeditiously and satisfactorily;
- (ii) that if the Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded / unblocked within the time prescribed under applicable law, failing which interest will be due to be paid to the Bidders at the rate prescribed under applicable law for the delayed period;
- (iii) that all steps will be taken for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed within three Working Days from the Bid / Offer Closing Date or such other time as may be prescribed;
- (iv) that funds required for making refunds to unsuccessful applicants as per the mode(s) disclosed shall be made available to the Registrar to the Offer by our Company;
- (v) where refunds (to the extent applicable) are made through electronic transfer of funds, a suitable communication shall be sent to the Applicant within the time prescribed under applicable law, giving details of the bank where refunds shall be credited along with amount and expected date of electronic credit of refund;
- (vi) that if our Company does not proceed with the Offer after the Bid / Offer Closing Date but prior to Allotment, the reason thereof shall be given as a public notice within two days of the Bid / Offer Closing Date. The public notice shall be issued in the same newspapers where the pre-Offer advertisements were published. The Stock Exchanges on which the Equity Shares are proposed to be listed shall also be informed promptly;
- (vii) that if our Company in consultation with the BRLMs, withdraw the Offer after the Bid / Offer Closing Date, our Company shall be required to file a fresh draft offer document with SEBI, in the event our Company and/or the Promoter Selling Shareholders subsequently decide to proceed with the Offer thereafter;
- (viii) that adequate arrangements shall be made to collect all Bid cum Application Forms submitted by Bidders and Anchor Investor Application Form from Anchor Investors;
- (ix) except for the allotment of Equity Shares to eligible employees pursuant to exercise of options granted under the ESOP Scheme, if undertaken, no further issue of Equity Shares shall be made until the Equity Shares issued or offered through the Red Herring Prospectus are listed or until the Bid monies are refunded/unblocked in the ASBA Accounts on account of non-listing, under-subscription etc.;
- (x) that the promoters' contribution in full, wherever required, shall be brought in advance before the Offer opens for public subscription and the balance, if any, shall be brought on a pro rata basis before the calls are made on public in accordance with SEBI ICDR Regulations; and
- (xi) that adequate arrangements were made to collect all ASBA applications and to consider them similar to non-ASBA applications when finalising the basis of allotment.

Undertakings by the Promoter Selling Shareholders

The Promoter Selling Shareholders, severally and not jointly, undertake the following in respect of themselves as the Promoter Selling Shareholders, and the Offered Shares:

- (i) that the Offered Shares are eligible for being offered in the Offer for Sale in terms of Regulation 8 of the SEBI ICDR Regulations and are in dematerialised form;
- (ii) that they are the legal and beneficial owner of, and have clear and marketable title to the Offered Shares;
- (iii) the Offered Shares shall be transferred to the Allottees in the Offer, free and clear of any encumbrances;
- (iv) that they shall not have recourse to the proceeds of the Offer for Sale which shall be held in escrow in its favour, until final listing and trading approvals have been received from the Stock Exchanges; and
- (v) only the statements and undertakings provided above, in relation to the Promoter Selling Shareholders, are statements which are specifically confirmed or undertaken, severally and not jointly, by each Promoter Selling Shareholder in relation to themselves and their respective portion of the Offered Shares. All other statements or undertakings in this Prospectus in relation to the Promoter Selling Shareholders, shall be statements made by our Company, even if the same relate to the Promoter Selling Shareholders

Utilisation of Offer Proceeds

All the monies received out of the Offer shall be credited/transferred to a separate bank account other than the bank account referred to in sub section (3) of Section 40 of the Companies Act. Since this Offer is entirely an Offer for Sale, our Company will not directly or indirectly receive any Offer Proceeds, and all the Offer Proceeds will be received by the Promoter Selling Shareholders, in proportion to their respective portion of the Offered Shares sold by them as part of the Offer. For details of the Offered Shares, see “*Other Regulatory and Statutory Disclosures*” on page 388.

(2) Unless the context otherwise requires, words or expressions contained in these Articles shall bear the same meaning as in the Act or any statutory modification thereof in force at the date at which these Articles become binding on the Company. In these Articles, all Capitalised items not defined herein below shall have the meanings assigned to them in the other parts of these Articles when defined for use.

II Share Capital and variation of rights

1. Subject to the provisions of the Act and these Articles, the shares in the Capital of the Company for the time being (including any shares forming part of any increased Capital of the Company) shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons or employees (under ESOP scheme passed by Special Resolution), in such proportion and on such terms and conditions and either at a premium or at par or at a discount and at such time as they may from time to time think fit, in accordance with applicable law, may issue and allot Shares in the Capital of the Company on payment in full or part of any property sold and transferred or for any services rendered to the Company in the conduct of its business and any shares which may be so allotted may be issued as fully paid up shares and if so issued, shall be deemed to be fully paid up shares.

The Company may, subject to the provisions contained in (i) Section 62 of the Act; and (ii) these Articles, issue securities on a preferential basis to any person. The Company may also, subject to the provisions contained in (i) Section 42 of the Act; and (ii) these Articles, make private placement of its securities.

Except so far as otherwise provided by the conditions of issue or by these Articles, any Capital raised by the creation of new shares shall be considered as part of the existing Capital, and shall be subject to the provisions herein contained, with reference to the payment of calls and instalments, forfeiture, lien, surrender, transfer and transmission, voting and otherwise.

2. (i) Every person whose name is entered as a member in the Register of Members shall be entitled to receive, in marketable lots, for all the shares of each class or denomination registered in his name, or if the directors so approve (upon paying such fee as the Directors so time determine) to several certificates, each for one or more of such shares and the Company shall complete and have ready for delivery such certificates within two Months after incorporation, in case of subscribers to the memorandum or after allotment or within one Month after the receipt of application for the registration of transfer or transmission, sub-division, consolidation or renewal of any of its shares as the case may be or within such other period as the conditions of issue shall be provided,—

(a) one certificate for all his shares without payment of any charges; or

(b) several certificates, each for one or more of his shares, upon payment of twenty rupees for each certificate after the first.

(ii) Every certificate shall specify the shares to which it relates and the amount paid-up thereon and shall be signed by two Directors or by a director and the Company secretary, wherever the Company has appointed a Company secretary:

Provided that in case the Company has a common seal it shall be affixed in the presence of the persons required to sign the certificate.

(iii) In respect of any share or shares held jointly by several persons, the Company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.

3. (i) If any Share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deem adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of such fees (not exceeding Rs. 20 (twenty) for each certificate) as the Board shall prescribe. Provided that, no fee shall be charged for issue of a new certificate in replacement of those which are old, defaced or worn out or where there is no further space on the back thereof for endorsement of transfer.

Provided that notwithstanding what is stated above, the Directors shall comply with such rules or regulation or requirements of any Stock Exchange or the rules made under the Act or rules made under Securities Contracts (Regulation) Act, 1956 or any other Act, or rules applicable thereof in this behalf.

(ii) The provisions of Articles (2) and (3) shall *mutatis mutandis* apply to other securities of the Company.

4. Except as required by law, no person shall be recognised by the Company as holding any share upon any trust, and the Company shall not be bound by, or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any share, or any interest in any fractional part of a share, or (except only as by these Articles or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.

5. (i) The Company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent. or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.

(ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.

(iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.

6. (i) If at any time the share Capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of section 48, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.

(ii) To every such separate meeting, the provisions of these Articles relating to general meetings shall *mutatis mutandis* apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.

7. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* therewith.
8. Subject to the provisions of section 55, any preference shares may, with the sanction of an ordinary resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the Company before the issue of the shares may, by special resolution, determine.

Lien

9. (i) The Company shall have a first and paramount lien—

(a) on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and

(b) on all shares (not being fully paid shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the Company:

Provided that the Board of Directors may at any time declare any share to be wholly or in part exempt from the provisions of this clause.

(ii) The Company's lien, if any, on a share shall extend to all dividends payable and bonuses declared from time to time in respect of such shares.

10. The Company may sell, in such manner as the Board thinks fit, any shares on which the Company has a lien:

Provided that no sale shall be made—

(a) unless a sum in respect of which the lien exists is presently payable; or

(b) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.

11. (i) To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof.

(ii) The purchaser shall be registered as the holder of the shares comprised in any such transfer.

(iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

12. (i) The proceeds of the sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.

(ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.

Calls on Shares

13. (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:

Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one month from the date fixed for the payment of the last preceding call.

(ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his shares.

(iii) A call may be revoked or postponed at the discretion of the Board.

14. A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be required to be paid by instalments.

15. The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.

16. (i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent. per annum or at such lower rate, if any, as the Board may determine.

(ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.

17. (i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these Articles, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.

(ii) In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.

18. The Board—

(a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and

(b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the Company in general meeting shall otherwise direct, twelve per cent. per annum, as may be agreed upon between the Board and the member paying the sum in advance.

Transfer of Shares

19. (i) The instrument of transfer of any share in the Company shall be executed by or on behalf of both the transferor and transferee.

(ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.

20. The Board may, subject to the right of appeal conferred by section 58 decline to register—

(a) the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or

(b) any transfer of shares on which the Company has a lien.

21. The Board may decline to recognise any instrument of transfer unless—

(a) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;

(b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and

(c) the instrument of transfer is in respect of only one class of shares.

22. On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:

Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.

Transmission of Shares

23. (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the Company as having any title to his interest in the shares.

(ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.

24. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either—

(a) to be registered himself as holder of the share; or

(b) to make such transfer of the share as the deceased or insolvent member could have made.

(ii) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.

25. (i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.

(ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.

(iii) All the limitations, restrictions and provisions of these Articles relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.

26. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

Forfeiture of shares

27. If a member fails to pay any call, or instalment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid, serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest which may have accrued.

28. The notice aforesaid shall—

(a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

(b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.

29. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

30. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

(ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.

31. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the Company all monies which, at the date of forfeiture, were presently payable by him to the Company in respect of the shares.

(ii) The liability of such person shall cease if and when the Company shall have received payment in full of all such monies in respect of the shares.

32. (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the Company, and that a share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;

(ii) The Company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;

(iii) The transferee shall thereupon be registered as the holder of the share; and

(iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

33. The provisions of these Articles as to forfeiture shall apply in the case of non payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

Alteration of Capital

34. The Company may, from time to time, by ordinary resolution increase the share Capital by such sum, to be divided into shares of such amount, as may be specified in the resolution.

35. Subject to the provisions of section 61, the Company may, by ordinary resolution,—

- (a) consolidate and divide all or any of its share Capital into shares of larger amount than its existing shares;
- (b) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination;
- (c) sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum;
- (d) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.

36. Where shares are converted into stock,—

- (a) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit:

Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

- (b) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the Company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

- (c) such of the regulations of the Company as are applicable to paid-up shares shall apply to stock and the words “share” and “shareholder” in those regulations shall include “stock” and “stock-holder” respectively.

37. The Company may, by special resolution, reduce in any manner and with, and subject to, any incident authorised and consent required by law,—

- (a) its share Capital;
- (b) any Capital redemption reserve account; or
- (c) any share premium account.

Capitalisation of profits

38. (i) The Company in general meeting may, upon the recommendation of the Board, resolve—

- (a) that it is desirable to Capitalise any part of the amount for the time being standing to the credit of any of the Company’s reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and

- (b) that such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.

- (ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards—

- (A) paying up any amounts for the time being unpaid on any shares held by such members respectively;

(B) paying up in full, unissued shares of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;

(C) partly in the way specified in sub-clause (A) and partly in that specified in sub-clause (B);

(D) A securities premium account and a Capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the Company as fully paid bonus shares;

(E) The Board shall give effect to the resolution passed by the Company in pursuance of this regulation.

39. (i) Whenever such a resolution as aforesaid shall have been passed, the Board shall—

(a) make all appropriations and applications of the undivided profits resolved to be Capitalised thereby, and all allotments and issues of fully paid shares if any; and

(b) generally do all acts and things required to give effect thereto.

(ii) The Board shall have power—

(a) to make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of shares becoming distributable in fractions; and

(b) to authorise any person to enter, on behalf of all the members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid-up, of any further shares to which they may be entitled upon such Capitalisation, or as the case may require, for the payment by the Company on their behalf, by the application thereto of their respective proportions of profits resolved to be Capitalised, of the amount or any part of the amounts remaining unpaid on their existing shares;

(iii) Any agreement made under such authority shall be effective and binding on such members.

Buy-back of shares

40. Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the Company may purchase its own shares or other specified securities.

General meetings

41. All general meetings other than annual general meeting shall be called extraordinary general meeting.

42. (i) The Board may, whenever it thinks fit, call an extraordinary general meeting.

(ii) If at any time Directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the Company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.

Proceedings at general meetings

43. (i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when the meeting proceeds to business.

(ii) Save as otherwise provided herein, the quorum for the general meetings shall be as provided in section 103.

44. The chairperson, if any, of the Board shall preside as Chairperson at every general meeting of the Company.

45. If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the Directors present shall elect one of their members to be Chairperson of the meeting.

46. If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be Chairperson of the meeting.

Adjournment of meeting

47. (i) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.
- (ii) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.
- (iii) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
- (iv) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

Voting rights

48. Subject to any rights or restrictions for the time being attached to any class or classes of shares,—
- (a) on a show of hands, every member present in person shall have one vote; and
- (b) on a poll, the voting rights of members shall be in proportion to his share in the paid-up equity share Capital of the Company.
49. A member may exercise his vote at a meeting by electronic means in accordance with section 108 and shall vote only once.
50. (i) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.
- (ii) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.
51. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.
52. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.
53. No member shall be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of shares in the Company have been paid.
54. (i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.
- (ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.

Proxy

55. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the Company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
56. An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105.
57. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given:

Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

Board of Directors

58. Subject to provisions of the Act, the number of Directors shall not be less than three and not more than fifteen. Provided the Company may appoint more than fifteen directors after passing a special resolution. Any Director is not required to hold any qualification shares.
59. (i) The remuneration of the Directors shall, in so far as it consists of a monthly payment, be deemed to accrue from day-to-day.
- (ii) In addition to the remuneration payable to them in pursuance of the Act, the Directors may be paid all travelling, hotel and other expenses properly incurred by them—
- (a) in attending and returning from meetings of the Board of Directors or any committee thereof or general meetings of the Company; or
- (b) in connection with the business of the Company.
60. The Board may pay all expenses incurred in getting up and registering the Company.
61. The Company may exercise the powers conferred on it by section 88 with regard to the keeping of a foreign register; and the Board may (subject to the provisions of that section) make and vary such regulations as it may think fit respecting the keeping of any such register.
62. All cheques, promissory notes, drafts, hundis, bills of exchange and other negotiable instruments, and all receipts for monies paid to the Company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case may be, by such person and in such manner as the Board shall from time to time by resolution determine.
63. Every director present at any meeting of the Board or of a committee thereof shall sign his name in a book to be kept for that purpose.
64. (i) Subject to the provisions of section 149, the Board shall have power at any time, and from time to time, to appoint a person as an additional director, provided the number of the Directors and additional Directors together shall not at any time exceed the maximum strength fixed for the Board by the articles.
- (ii) Such person shall hold office only up to the date of the next annual general meeting of the Company but shall be eligible for appointment by the Company as a director at that meeting subject to the provisions of the Act.
65. At the Annual General Meeting of the Company to be held every year, one third of such of the Directors as are liable to retire by rotation for time being, or, if their number is not three or a multiple of three then the number nearest to one third shall retire from office, and they will be eligible for re-election, provided that the office of Non-executive Independent Directors shall not be liable to retirement by rotation.
66. A retiring Director shall be eligible for re-election and the Company, at the Annual General Meeting at which a Director retires in the manner aforesaid, may fill up the vacated office by electing a person thereto.
67. The Directors to retire in every year shall be those who have been longest in office since their last election, but as between persons who became Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lots.

Proceedings of the Board

68. (i) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit.
- (ii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.
69. (i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.

- (ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.
70. The continuing Directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing Directors or director may act for the purpose of increasing the number of Directors to that fixed for the quorum, or of summoning a general meeting of the Company, but for no other purpose.
71. (i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the Directors present may choose one of their number to be Chairperson of the meeting.
72. (i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.
- (ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.
73. (i) A committee may elect a Chairperson of its meetings.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.
74. (i) A committee may meet and adjourn as it thinks fit.
- (ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.
75. All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such Directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.
76. Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.

Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer

77. Subject to the provisions of the Act,—
- (i) A chief executive officer, manager, Company secretary or chief financial officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any chief executive officer, manager, Company secretary or chief financial officer so appointed may be removed by means of a resolution of the Board;
- (ii) A director may be appointed as chief executive officer, manager, Company secretary or chief financial officer.
78. A provision of the Act or these Articles requiring or authorising a thing to be done by or to a director and chief executive officer, manager, Company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as director and as, or in place of, chief executive officer, manager, Company secretary or chief financial officer.

The Seal

79. (i) The Board shall provide for the safe custody of the seal.
- (ii) The seal of the Company shall not be affixed to any instrument except by the authority of a resolution of the Board or of a committee of the Board authorised by it in that behalf, and except in the presence of at least two Directors and of the secretary or such other person as the Board may appoint for the purpose; and those two

Directors and the secretary or other person aforesaid shall sign every instrument to which the seal of the Company is so affixed in their presence.

Dividends and Reserve

80. The Company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
81. Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the Company.
82. (i) The Board may, before recommending any dividend, set aside out of the profits of the Company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the Company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the Company or be invested in such investments (other than shares of the Company) as the Board may, from time to time, think fit.
- (ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.
83. (i) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the Company, dividends may be declared and paid according to the amounts of the shares.
- (ii) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.
- (iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid;
84. The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the Company on account of calls or otherwise in relation to the shares of the Company.
85. (i) Any dividend, interest or other monies payable in cash in respect of shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.
- (ii) Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.
86. Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.
87. Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.
88. No dividend shall bear interest against the Company.

Accounts

89. (i) The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the Company, or any of them, shall be open to the inspection of members not being Directors.
- (ii) No member (not being a director) shall have any right of inspecting any account or book or document of the Company except as conferred by law or authorised by the Board or by the Company in general meeting.

Winding up

90. Subject to the provisions of Chapter XX of the Act and rules made thereunder—

(i) If the Company shall be wound up, the liquidator may, with the sanction of a special resolution of the Company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the Company, whether they shall consist of property of the same kind or not.

(ii) For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members.

(iii) The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any shares or other securities whereon there is any liability.

Indemnity

91. Every officer of the Company shall be indemnified out of the assets of the Company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the Tribunal.

Dematerialisation of Shares

92. a Notwithstanding anything contained herein, the Company shall be entitled to dematerialize its Shares, Debentures and other securities pursuant to the Depositories Act, 1996 and to offer its Shares, Debentures and other Securities for subscription in a dematerialized form. The Company shall further be entitled to maintain a Register of Members with the details of Members holding shares both in material and dematerialized form in any media as permitted by law including any form of electronic media.

92b In case of transfer of shares or other marketable Securities where the Company has not issued any Certificates and where such shares or Securities are being held in an electronic and fungible form, the provisions of Depositories Act, 1996 shall apply.

Directors' & Officers' Liability Insurance

93. Subject to the provisions of the Act and Law, the Company shall procure, at its own cost, comprehensive directors and officers liability insurance for each Director which shall not form a part of the remuneration payable to the Directors in the circumstances described under Section 197 of the Act: -

- (a) on terms approved by the Board;
- (b) which includes each Director as a policyholder;
- (c) is from an internationally recognised insurer approved by the Board; and
- (d) for coverage for claims of an amount as may be decided by the Board, from time to time.

Amendment to Memorandum and Articles of Association

94. The Company may amend its Memorandum of Association and Articles of Association in accordance with Sections 13, 14 and 15 of the Act and such other provisions of Law, as may be applicable from time-to-time. The shareholders shall vote for the equity shares owned or held on record by such shareholders at any Annual or Extraordinary General meeting of the Company in accordance with these Articles.

(i) The shareholders shall not pass any resolution or take any decision which is contrary to any of the terms of these Articles.

(ii) The Articles of the Company shall not be amended unless approved by the Members by a special resolution for each such amendment/s.

General Clause

95. Subject to the Articles, wherever in the Act it has been provided that the Company would carry out any transaction only if the Company is so authorized by its Articles, then and in that case, these Articles hereby authorizes and empowers the Company to have such right, privilege or authority and to carry such transactions as have been permitted by the Act, without there being any specific regulation in that behalf herein provided.

96. At any point of time from the date of adoption of these Articles, if the Articles are or become contrary to the provisions of the SEBI Listing Regulations, the provisions of the SEBI Listing Regulations shall prevail over the Articles to such extent and the Company shall discharge all its obligations as prescribed under the SEBI Listing Regulations, from time to time.
97. Notwithstanding anything contained in these Articles, the instructions/guidelines issued from time to time by the Ministry of Corporate Affairs or SEBI by way of circulars notifications etc. in respect of any of the matters with regard to powers of the board/convening/conducting of board meetings/committee meetings/general meetings, minutes of the meetings, sending of annual report by e-mail, video-conferencing and maintenance of registers/records etc., shall have overriding effect on these Articles for compliance thereof.

 - (v) The IPO shall include an Offer for Sale portion and subject to eligibility requirements under Applicable Law, each Investor shall have the right (but not the obligation) to participate in the Offer for Sale to sell the Shares held by it (*determined on a Fully Diluted Basis*). Subject to Applicable Law, such participation right of the Investors shall rank in priority to that of any other Shareholder of the Company (*other than the Investors*), and among the Investors shall be allocated on a pro rata basis in proportion to their respective shareholding (*on a Fully Diluted Basis*).
 - (vi) Subject to Applicable Law (including in respect of any fees required to be borne in relation to an Offer for Sale), all fees and expenses required to be paid in respect of the IPO including in connection with any statutory filings, approvals and registration fees, and fees payable to merchant bankers, underwriters, book-runners, issue registrars or any other intermediaries involved in any manner in relation to the IPO shall be borne and paid by the Company. Provided however that the proportionate

expenses for sale of each Investor's Securities in an Offer for Sale shall be solely borne by the respective Investor.

- (vii) Subject to applicable Law, the Investors shall not be required to give any representation, warranty or indemnity in connection with the IPO, other than, in case of any sale by an Investor of the Securities held by it in the Offer for Sale, and in such case, each Investor's obligation to provide representations and warranties shall be limited to:
 - (A) the Equity Shares, if any, offered for sale by the Investor in the IPO being free from Encumbrances and the Investor having legal and valid title to said Shares; and
 - (B) the authority and capacity of the Investor to participate in such Offer for Sale.
- (viii) In the event of the IPO Discontinuance, and without prejudice to the rights of the Investors under these Articles, under Applicable Law and in equity, the Investors shall continue to have a right to require the Company and the Promoters to undertake the IPO within such timelines as may be mutually agreed between the Company, Promoters and the Investors or provide an exit to the Investors.
- (c) **Reinstatement of Rights:** Notwithstanding anything stated in the Transaction Documents, in the event of IPO Discontinuance after the Securities held by any Investor and/ or the rights attached thereto have been altered (such alterations being, collectively, the "**Alteration of Rights**") to enable filings for a proposed IPO in the manner mutually agreed between the Investor and the Promoters, all the rights attached to the Securities held by the Investors and available under the Transaction Documents to the Investors shall be deemed to have been reinstated with immediate effect from the date of the IPO Discontinuance, as they were immediately prior to the Alteration of Rights. The Company and Promoters undertake and covenant to the Investors that they shall promptly, and in any case, within 15 (fifteen) days from the date of the IPO Discontinuance, take all such actions as may be required to ensure effective reinstatement of such rights, including causing the alteration of the Charter Documents to include the rights of the Investors, as they existed immediately prior to the Alteration of Rights, issuing of securities to the Investors as may be necessary, and entering into agreements necessary in this regard with the relevant Investors.
- (d) Notwithstanding anything contained herein, the Parties agree that no Investor shall be deemed to be a promoter of the Company for the purpose of the IPO and none of the Securities which will be held by the Investors shall be subject to any statutory lock-in imposed on promoters in connection with such IPO. No declaration or statement shall be made that may result in the Investors being deemed a promoter, either directly or indirectly, in filings with any Governmental Authority, offer documents or otherwise, with a view to ensuring that restrictions under Applicable Law to promoters do not apply to the Investors, who are financial investors and not promoters of, the Company.
- (e) The Company and the Promoters shall severally indemnify each Investor against any direct and actual loss, claim, damage, liability (including reasonable attorneys' fees), cost or expense arising out of or relating to any misstatements and omissions of the Company in any registration statement, offering document or preliminary offering document, and like violations of applicable securities laws by the Company or any other error or omission of the Company in connection with a public offering hereunder, except with respect to information provided by an Investor, in writing, expressly for inclusion therein.
- (f) Notwithstanding anything to the contrary, in the event: (i) the Promoters and the Investor Clusters mutually agree that the IPO is unlikely to be consummated within the IPO Timeline; or (ii) in the event of an IPO Discontinuance; or (iii) an Event of Default occurs (each a "**Exit Trigger Event**"), then each Investor Cluster may at its sole discretion exercise its right under Article 2.02 and / or Article 2.03 and / or Article 2.04 (collectively, "**Exit Rights**") within a period of 18 (eighteen) months from the occurrence of any of the Exit Trigger Event ("**Exit Trigger Timeline**") and each Investor Cluster's Exit Rights are independent, cumulative, and without prejudice to all other rights available to them, and the exercise or non-exercise of any of the Exit Rights shall not prejudice or constitute a waiver of any other rights of the Investors (including other Exit Rights), whether under these Articles or otherwise.

Article 2.02. Put Option

- (a) Upon occurrence of an Exit Trigger Event, each Investor ("**Exercising Investor**") shall have the right, but not an obligation, to require the Promoters, and the Promoters hereby irrevocably agree, to purchase, any or all of

the Securities held by the Exercising Investor(s) ("**Put Securities**") at the Exit Price, by exercising the put option under this Article 2.02 ("**Put Option**") by delivering a written notice to the Promoters ("**Put Notice**") within the Exit Trigger Timeline, specifying:

- (i) the number of Put Securities to be sold; and
 - (ii) the proposed date for consummation of the sale of the Put Securities, which shall not be later than 60 (sixty) days from the date of the Put Notice ("**Put Option Sale Timeline**").
- (b) Upon receipt of the Put Notice, the Promoters shall, subject to Applicable Law, be unconditionally and irrevocably obligated, on a joint and several basis, to purchase, or cause the purchase of, the Put Securities from the Exercising Investor(s) at the Exit Price; and complete the purchase within the Put Option Sale Timeline. The Exit Price shall be subject to withholding or deduction of taxes, as may be required under the Applicable Law. The Promoters may, at their sole discretion, elect to purchase the Put Securities, in such proportion amongst themselves or their Affiliates, as they may deem fit.
- (c) The Exercising Investor(s) shall not be required to provide any representations, warranties or indemnities to the Promoters, including any representations, warranties and indemnities in relation to the business and operations of the Company.
- (d) Provided however that the Exercising Investor(s) shall be required to provide representations and warranties in relation to:
- (i) the Put Securities being free from Encumbrances and the Exercising Investor having legal and valid title to the Put Securities;
 - (ii) the authority and capacity of the Exercising Investor to sell the Put Securities; and
 - (iii) the tax status of the Exercising Investor, as is customary to transactions of this nature.

Article 2.03. Third Party Sale

- (a) Upon occurrence of an Exit Trigger Event and without prejudice to the rights of the Investors to exercise the Put Option, on the written request of an Investor ("**Request for Third Party Sale**") within the Exit Trigger Timeline, the Company and the Promoters shall take all necessary steps to complete a sale of the Securities held by such Investor to a third party, as identified by the Promoters and/or the Company and agreed by the relevant Investor ("**Third Party Sale**") and provide an exit to the Investor who has submitted a Request for Third Party Sale at a price not less than the Exit Price, within 180 (one hundred and eighty) days from the date of the Request for Third Party Sale. For the avoidance of doubt, in the event any offer for a Third Party Sale is at less than the Exit Price, such Third Party Sale shall not be a valid discharge of the obligation of the Company and the Promoters under this Article 2.03 (*Third Party Sale*).

Article 2.04. Buy-Back

- (a) Upon occurrence of an Exit Trigger Event and without prejudice to the rights of the Investors to exercise the Put Option or the Third Party Sale, the Investors shall, at their respective sole discretion, have the right to issue a written notice ("**Buy-back Notice**") within the Exit Trigger Timeline to the Company specifying the number of Securities of such Investor ("**Buy-Back Securities**") to be bought back by the Company.
- (b) Subject to Applicable Law, the Company shall, within 60 (sixty) days of receipt of the Buy-back Notice from an Investor, complete the buy-back of the Buy-Back Securities from such Investor at the Exit Price.
- (c) The Exit Price payable by the Company on buy back of the Buy-Back Securities shall be subject to withholding or deduction of taxes, as may be required under the Applicable Law.

Article 2.05. Tag-Along Right

- (a) If any of the Promoters ("**Tag Transferors**") propose(s) to sell any or all of the Securities of the Company held by them ("**Transfer Securities**") to any Person that is not a Permitted Transferee or otherwise by way of an Offer for Sale ("**Tag Transferee**"), then no later than 15 (fifteen) Business Days prior to the date of such proposed sale, the Tag Transferors shall notify the Investors, in writing, of such proposed sale ("**Offer Notice**"). The Offer Notice shall specify: (i) the name, address and identity of the Tag Transferee; (ii) the

purchase price and form of consideration offered by the Tag Transferee for each Transfer Security; (iii) the number of Transfer Securities that the Tag Transferors propose to transfer; and (iv) the proposed date of such sale.

- (b) Each Investor (“**Tag Shareholders**”) shall, within 15 (fifteen) Business Days from receipt of the Offer Notice (“**Tag Response Period**”), have the right (but not the obligation) to deliver a written notice to the Tag Transferors (“**Tag Acceptance Notice**”), specifying the irrevocable election of the Tag Shareholder to Transfer the Tag Along Securities (*as defined below*) to the Tag Transferee specified in the Offer Notice, and the Tag Transferor shall be bound to cause the Tag Transferee to purchase from the Tag Shareholder, such number of Securities held by the Tag Shareholder in the Company which represents the same proportion that the Transfer Securities proposed to be Transferred by Tag Transferors bear to the aggregate number of Securities held by the Tag Transferors (“**Tag Along Securities**”), at the same price and on the same terms and conditions as specified in the Offer Notice and offered to the Tag Transferors (“**Tag Along Right**”). Provided however that if any Transfer by any one or more of the Promoters, would result in (i) the change in Control of the Company; or (ii) the aggregate shareholding of the Promoters and their Affiliates, in the Company falling by 20% of the Share Capital of the Company as on the effective date of the Letter Agreement, on a Fully Diluted Basis, then each Tag Shareholder shall have the right (but not the obligation) to Transfer all the Securities held by it to the Tag Transferee by issuing the Tag Acceptance Notice, and the term ‘Tag Along Securities’ shall be construed accordingly.
- (c) If the Tag Shareholder has expressly refused (in writing) to exercise its Tag Along Right or a Tag Acceptance Notice is not received by the Tag Transferor(s) from the Tag Shareholder within the Tag Response Period, then the Tag Shareholder shall be deemed to have irrevocably elected not to participate in the proposed sale (“**Tag Rejection**”). Upon Tag Rejection, the Tag Transferor shall be entitled to proceed with the sale of the Transfer Securities to the Tag Transferee on the same terms and conditions and for the same price as is specified in Offer Notice. In the event of a failure of the Tag Transferor to consummate the sale of the Transfer Securities within 120 (one hundred twenty) days from the date of the Tag Rejection, any Transfer of Securities by the Promoters shall again be subject to this Article 2.05. (*Tag Along Right*).
- (d) If a Tag Acceptance Notice is received by the Tag Transferors from the Tag Shareholder within the Tag Response Period, then the relevant Tag Transferors shall not undertake the proposed sale of the Transfer Securities to the Tag Transferee specified in the Offer Notice, unless such Tag Transferee purchases all the Tag Along Securities along with the Transfer Securities, simultaneously and on the same terms and conditions as set out in the Offer Notice and offered to the Tag Transferors. In the event of a failure to consummate the sale of the Tag Along Securities within 180 (one hundred and eighty) days from the date on which the Tag Acceptance Notice is received by the Tag Transferor, any Transfer of Securities by the Promoters shall again be subject to this Article 2.05. (*Tag Along Right*).
- (e) Each Tag Shareholder shall provide representations, warranties, and corresponding indemnities to the Tag Transferee, in relation to: (i) title of the Tag Shareholder with respect to its Tag Along Securities; (ii) the ability and authority of the Tag Shareholders to sell its Tag Along Securities; and (iii) the Tag Along Securities being free and clear of any and all Encumbrances. It is clarified that no Tag Shareholder will be required (i) to make any representations or warranties in relation to the business and operations of the Company, or (ii) to otherwise be liable or responsible for any indemnification (except in respect of their own breach) or any other similar obligation; or (iii) to enter into any non-competition or similar covenants in relation to the Company or the Business.
- (f) The Tag Shareholder(s), Tag Transferors and the Tag Transferee shall mutually agree in writing to extend the period within which a Transfer of Securities has to be completed by such further period as is necessary for the purpose of obtaining any consent or Approvals from a Governmental Authority or required under Applicable Law, for the Transfer of the Tag Along Securities.

Article 2.06. Exit Support

- (a) Notwithstanding anything contrary stated in these Articles, the Company and the Promoters agree and undertake: (i) to support any proposed exit of the Investors (as applicable), including pursuant to Article 2.01 (*Initial Public Offering*), Article 2.02 (*Put Option*), Article 2.03 (*Third Party Sale*), Article 2.04 (*Buy-Back*), and Article 2.05 (*Tag Along Right*), bearing all cost of such exit (save and except the costs of the Investors’ legal and tax counsel; and it being clarified that reference to “costs” shall not include any income taxes (including any surcharge, cess, interest, penalty, fees and fines levied thereon) arising to the Investor from such exit, which shall be to the account of the relevant Investor), procuring all internal, statutory and third

party approvals, engaging relevant consultants and advisors, facilitating any valuation, diligence or audit exercise, exercising all voting rights, executing any contracts and documents and generally doing all such other acts deeds and things as may be necessary or desirable for this purpose, till such time such Investor has achieved a complete exit from the Company and each Investor shall be entitled to exercise its rights more than one time. Each Investor shall cooperate with the Company, the Promoters and the other Investors and do all such acts, deeds and things as may be required to give effect to their exit, including procuring all internal, statutory and third-party approvals, engaging relevant consultants and advisors, exercising all voting rights, executing any contracts and documents and generally doing all such other acts deeds and things as may be necessary or desirable for this purpose.

Article III

Transfer of Shares

Article 3.01. Transfers by Investors and Promoters

- (a) Notwithstanding anything to the contrary, but subject to Article 3.01. and Clause 14.8 of the Letter Agreement, each Investor shall be entitled to transfer any or all of its Securities in the Company, without any restriction whatsoever, to any Person (including its Affiliate).
- (b) Each Investor agrees and undertakes that it shall not at any time, directly or indirectly, Transfer any Securities held by it in the Company or any rights attached to such Securities to any Competitor, without the prior written consent of the Board. Provided however that such restriction shall fall away, upon occurrence of any of the Exit Trigger Events.
- (c) Any purported Transfer of Securities in contravention of this article shall be null and void and shall not be binding on the Company.
- (d) Each Investor shall ensure that, upon Transfer of any Securities by such Investor in accordance with these Articles, the transferee executes a deed of adherence with the Promoters and the Company in the form set out in **Schedule 4** of the Letter Agreement (*Deed of Adherence*). Provided that until such time that an Investor continues to hold any Securities in the Company, there shall be no duplication of rights available to such Investor and its transferee of its Securities, and the obligations of the Investor and such transferee relating to any Securities held by them in the Company shall be several.
- (e) The Promoters and Promoter Group agree and undertake that they shall not at any time, directly or indirectly, Transfer any Securities held by them in the Company or any rights attached to such Securities to any third party, without the prior written consent of the Investor Clusters (acting by way of majority (in the manner set out in Article 7.03. (*Investor Cluster Majority*))). Provided however that (i) the Transfer of any or all of the Securities by any member of the Promoter Group to an Affiliate of the Promoter Group, which is 100% (hundred percent) owned and/or controlled by Sapna and/or Siddharth (“**Wholly Owned Affiliate**”) and inter se Transfers between the Promoter Group, and their estate, heirs, successors, spouse, parents, siblings, children, or grandchildren of the foregoing persons; any foundation set up as a trust, partnership or body corporate created for the exclusive benefit of one or more of the foregoing persons, where either Siddharth and / or Sapna act as sole trustee or which is solely controlled by Siddharth and / or Sapna as applicable (collectively “**Permitted Transferees**”), shall be permitted without requiring the consent of any Investor Cluster, subject to Siddharth, Sapna, Wholly Owned Affiliate and/or any trust where either Siddharth and/or Sapna act as sole trustee, together holding at least 75% of the Share Capital of the Company, and subject to: (i) the Promoters continuing to be bound by the provisions of the Transaction Documents, including all the obligations set out under these Articles and the SSPA, and (ii) the Securities held by such Permitted Transferee shall continue to be subject to the same restrictions as are applicable to the Securities held by the Promoters under these Articles. If, however, at any point in time the Permitted Transferee to whom any portion of any of the Promoter’s Securities have been transferred ceases to be an Affiliate of the Promoter, then the Promoter shall take all necessary prompt steps to ensure that the Securities of the Promoter which had been Transferred are Transferred back to the Promoter. Provided further that nothing in this article should restrict any Transfer of Securities by any member of the Promoter Group pursuant to any SSPA or under the Offer for Sale.

Article 3.02. Pre-Emptive Right

- (a) In case of any issuance of Securities by the Company to any Person, except through the IPO, (“**Issuance**”), each Investor (“**Pre-emptive Right Holder**”), shall have the right but not an obligation to participate, on the

same terms and conditions as are offered to prospective investors in any Issuance by the Company, to the extent necessary to maintain its proportionate shareholding in the Company on a Fully Diluted Basis (either through itself or through any of its Affiliates) (“**Pro-Rata Share**”) in the Company in accordance with the provisions of this Article 3.02. (*Pre-Emptive Right*) (“**Pre-Emptive Right**”).

- (b) The Pre-emptive Right shall be offered by the Company by issuing a written notice to the Pre-emptive Right Holder (“**Issuance Notice**”) setting forth in detail the terms of the proposed Issuance, including the price of the proposed Issuance (“**Issuance Price**”), the date of closing of the proposed Issuance (which shall not be less than 45 (forty-five) days and no later than 90 (ninety) days from the date of the Issuance Notice), the manner and time of payment of the subscription amount and the number and class of Securities proposed to be issued (“**Issuance Securities**”).
- (c) If a Pre-emptive Right Holder wishes to exercise its Pre-emptive Right, then within 30 (thirty) Business Days from the date of receipt of the Issuance Notice, it shall issue a notice (“**Exercise Notice**”) to the Company notifying its intention to exercise the Pre-emptive Right on all or part of its Pro-Rata Share of the Issuance Securities. Further, on the date of closing of such Issuance, the Pre-emptive Right Holder shall pay for and subscribe to such number of the Issuance Securities as it wishes to subscribe to (but up to its Pro-Rata Share) at the Issuance Price and on the terms and conditions set out in the Issuance Notice. The Company shall issue and allot the respective Issuance Securities to the Pre-emptive Right Holder on the date of closing of the Issuance as stated in the Issuance Notice.
- (d) If the Pre-emptive Right Holder does not issue an Exercise Notice within the time periods specified in Article 3.02.(c) above, then the Company may issue and allot such number of Issuance Securities as remaining unsubscribed by such Pre-emptive Right Holder, to any Person at the Issuance Price and on the terms and conditions mentioned in the Issuance Notice.
- (e) The Issuance shall be completed no later than 120 (one hundred and twenty) days from the date of the Issuance Notice, failing which the right of the Company to make the Issuance shall lapse and the provisions of this Article 3.02. (*Pre-Emptive Right*) shall once again apply to such Issuance.
- (f) The Parties hereby agree that, notwithstanding the above, there exists no commitment by the Investor to further capitalize the Company or provide financial assistance to the Company in any form whatsoever.
- (g) Further, the Parties hereby agree that the Company shall bear all costs in relation to and associated with any Issuances undertaken in the manner contemplated in this Article 3.02. (*Pre-Emptive Right*), including the stamp duty on the Issuance. Provided however that each Pre-emptive Right Holder shall bear its own costs and expenses (including legal and advisory fees) incurred in connection with the exercise of such rights.

Article 3.03. Anti-Dilution Protection

- (a) In the event of a Down-round, each Investor shall be entitled to a broad based weighted average anti-dilution protection on the Securities held by it, in accordance with the formula set forth under **Schedule 2** of the Letter Agreement (*Anti-dilution Protection*). In such an event, the Company and the Promoters shall forthwith take necessary steps to give effect to the broad based weighted average anti-dilution protection of the relevant Investor by: (i) adjusting the conversion ratio of the Investor’s Securities that are convertible preference shares issued by the Company; (ii) the Company undertaking a fresh issuance of the additional Securities to the relevant Investor at the lowest permissible price under Applicable Law (including by way of a rights issue) as bonus shares or as otherwise permitted under Applicable Law, simultaneously with the dilution issue; and/ or (iii) such other steps that are permissible under Applicable Law such that the relevant Investor is entitled to additional Securities arising from the price adjustment pursuant to **Schedule 2** of the Letter Agreement (*Anti-dilution Protection*).
- (b) It is clarified that if an Investor is entitled to any Securities pursuant to Article 3.03 (*Anti-dilution Protection*), such Securities shall be included towards calculation of the total Securities held by such Investor (including, but not limited, towards Securities to be issued to an Investor pursuant to any Issuance as required pursuant to Article 3.02 (*Pre-Emptive Right*)). In the event that for any reason, it is not possible for the Parties to ensure that the intent of Article 3.03 (*Anti-dilution Protection*) is achieved in the manner prescribed above, then the Parties shall undertake such other alternative structure or mechanism so as to ensure that the intent of Article 3.03 (*Anti-dilution Protection*) is achieved.
- (c) Without prejudice to the generality of Article 3.03.(a) above,

- (i) if a portion of the Subscription Shares have been converted to Equity Shares, then the anti-dilution mechanism set out above shall be accomplished as far as is possible under Applicable Law by an adjustment to the conversion price of the remaining Subscription Shares in the manner set out above, and thereafter by issuing such number of Equity Shares to the relevant holders of such Subscription Shares at the lowest price possible under Applicable Law, so as to give full effect to the broad based weighted average anti-dilution rights as set out above;
- (ii) if all of the Subscription Shares have been converted to Equity Shares, and in relation to the Securities acquired by the Investors pursuant to the SSPA, the anti-dilution mechanism set out above shall be accomplished by issuing such number of Equity Shares to the relevant holders of the converted Equity Shares, at the lowest price possible under Applicable Law, so as to give full effect to the broad based weighted average anti-dilution rights of the underlying instrument as per the formula set out under **Schedule 2** of the Letter Agreement (*Anti-dilution Protection*) or in such manner as may be permitted under Applicable Law to achieve the same economic effect.

ARTICLE IV

RESERVED MATTERS AND OTHER RIGHTS

ARTICLE 4.01. RESERVED MATTERS

- (K) Entering into any commitment or agreement in relation to any of the foregoing actions.

(* For the avoidance of doubt, all the matters outlined in this Article 4.01.(a) shall apply in relation to all members of the Group)

whether in any meeting of any board of directors, meeting of a committee of directors, general meeting of shareholders, through any resolutions by circulation or otherwise, with respect to any member of the Group. It is further clarified that, no member of the Group shall directly or indirectly, authorize any Person to take any decisions or actions in relation to (i) any Unanimous Consent Reserved Matter, save with the prior written consent of each Investor Cluster; or (ii) any Investor Majority Reserved Matter, save with the prior written consent of the Investor Clusters (*acting by way of majority (in the manner set out in in Article 7.03. (Investor Cluster Majority)*); as provided under this Article 4.01. (*Reserved Matters*)).

- (b) Subject to the provisions contained in these Articles, if any Reserved Matter is proposed to be discussed at a board or shareholders’ meeting, the same must be included in the agenda of the meeting which is circulated prior to such meeting and simultaneously shared with each Investor Cluster.
- (c) In the event any action, decision or resolution is effected without complying with the provisions of this Article 4.01. (*Reserved Matters*), such action, decision or resolution shall be void ab initio and shall not be valid or binding on any Person including any member of the Group. If any of these Articles conflicts with this Article 4.01. (*Reserved Matters*), Article 4.01. (*Reserved Matters*) shall prevail.
- (d) The Parties agree that the principles set out in this Article 4.01. (*Reserved Matters*) are fundamental to the governance of the Group and each Party undertakes not to commit any act or omission that would violate or prejudice the spirit and intent of this Article 4.01. (*Reserved Matters*).

- (e) Notwithstanding anything to the contrary contained in these Articles, the matters set out under this Article 4.01. (*Reserved Matters*) shall not include the following actions taken by the Company solely in relation to pursuing the IPO within the IPO Timeline, i.e., issuance of bonus Securities in furtherance to the IPO process, amendment to the charter documents as required under Applicable Laws for undertaking the IPO, or matters covered in Article 2.01.(b)(iv), increase in share capital to give effect to any of these Articles and the SSPA, and Transfer of Securities contemplated in the SSPA

Article 4.02. Information, Inspection, Observer, and Other Rights

- (a) The Company shall provide to each Investor Cluster, the following information within the timelines mentioned below:
- (i) within 120 (one hundred and twenty) days or such other days as mutually agreed upon between the Parties after the end of each Financial Year, the annual audited consolidated financial statements of the Company and each Subsidiary for such Financial Year;
 - (ii) within 30 (thirty) days after the end of each quarter, quarterly MIS of the Company and the Subsidiaries, in the form as agreed between the Company and the Investor Clusters;
 - (iii) within 60 (sixty) days from the end of each financial quarter, unaudited quarterly financial statements (including balance sheet, cash flow statement and profit and loss account) of the Company;
 - (iv) notices, circulars, minutes of all the annual general meetings, extraordinary general meetings and Board meetings within the period prescribed under Applicable Law, simultaneously with other Shareholders and/ or the Directors of the Company, as the case may be;
 - (v) promptly, such additional information of any event in respect of any member of the Group which has a material adverse effect on the business, properties, assets or liabilities, in each case, of the Group;
 - (vi) promptly, all or any notice of any Insolvency Event and/or application for winding up, statutory notice of winding up or if a custodian, liquidator or receiver is appointed or sought to be appointed in relation to any members of the Group, their respective properties or business or undertakings;
 - (vii) information in relation to the timeline of the proposed listing of Securities as a part of the IPO, at least 15 (fifteen) days prior to the proposed listing;
 - (viii) any repayment default of any indebtedness by any member of the Group; and
 - (ix) any other information that may be reasonably requested by an Investor Cluster, within 30 (thirty) days from date of written request for such information from the relevant Investor Cluster.
- (b) Upon providing reasonable notice to the Company, each Investor shall have the right to visit the offices of the Company during normal business hours to inspect its books and records and take copies of such books and records at its sole cost.
- (c) Each Investor Cluster shall be entitled to nominate 1 (one) observer on the Board and its committees (such nominee being an “**Investor Cluster Observer**”). Each Investor Cluster Observer shall be entitled to attend all meetings of the Board and its committees. For the avoidance of doubt, no Investor Cluster Observer shall be entitled to vote at the meetings of the Board and/or its committees or be counted towards the quorum for such meetings. The Investor Cluster Observer shall be removed only upon the written consent of the relevant Investor Cluster, and such Investor Cluster may, at any time, nominate another individual as the Investor Cluster Observer.
- (d) Upon occurrence of any Liquidation Event, the proceeds available for distribution amongst the Shareholders shall be dispersed in the following manner (“**Liquidation Preference**”): (i) firstly, to the Investors (whether holding compulsorily convertible preference shares and/or Equity Shares) who shall have Liquidation Preference, on a *pari passu* basis, and get priority over all other Shareholders for the distribution (whether from capital, reserves, surplus, earnings or sale consideration) of proceeds realized

from the occurrence of the Liquidation Event, to the extent of the higher of: (A) an amount equivalent to the monies paid by each such Investor for the subscription and purchase of the Securities held by such Investor at such time, plus all accrued but unpaid dividends thereon; and (B) an amount equivalent to the pro rata entitlement out of the liquidation proceeds based on the Investors' shareholding in the Company, plus all accrued but unpaid dividends thereon, ("**Preference Amount**"); and (ii) secondly, after the full payment or distribution of the Preference Amount to the Investors, if the proceeds are available for distribution thereafter, the same shall be distributed to all Shareholders of the Company on a pro-rata, Fully Diluted Basis. If the proceeds available for distribution are insufficient to pay the entire Preference Amount to all the Investors in full, then the proceeds shall be distributed pro-rata amongst the Investors in proportion to their individual Preference Amount.

Article 4.03. Fallaway of the Rights

- (a) On and from the occurrence of the following events of default ("**Event of Default**"):
- (i) fraud or wilful misconduct by the Promoters in relation to the Company or by the Company in relation to the Business;

ARTICLE VI

DISPUTE RESOLUTION

Article 6.01. Dispute Resolution

- (a) Any dispute, controversy, difference or claim arising between the Parties or any of them, arising out of or in connection with these Articles, including any question regarding its existence, validity or termination or the consequences of its nullity, shall be referred at the request in writing of any disputing Party(ies) ("**Claimant(s)**") by way of a notice to the other disputing Party(ies) ("**Respondent(s)**") to binding arbitration by a panel of arbitrators (the "**Arbitration Board**") and finally resolved by arbitration administered by the Singapore International Arbitration Centre ("**SIAC**") in accordance with the Arbitration Rules of the Singapore International Arbitration Centre for the time being in force, which rules are deemed to be incorporated by reference in this Article 6.01. (*Dispute Resolution*).
- (b) The seat of the arbitration shall be Singapore and the venue of arbitration shall be Delhi.
- (c) The Arbitration Board will consist of 3 (three) arbitrators. The Claimant(s) shall nominate 1 (one) arbitrator and the Respondent(s) shall, nominate 1 (one) arbitrator. The 2 (two) Party-nominated arbitrators will then attempt to agree for a period of 15 (fifteen) days, in consultation with the Parties to the arbitration, upon the nomination of the third arbitrator who shall be the presiding arbitrator of the Arbitration Board, barring which the SIAC shall select the third arbitrator (or any arbitrator that the Claimant(s) or Respondent(s) shall fail to nominate in accordance with the foregoing).
- (d) The language used in the arbitral proceedings shall be English. All documents submitted in connection with the proceedings shall be in the English language, or, if in another language, accompanied by an English translation.
- (e) The decision of the Arbitration Board shall be final and binding on all the Parties.
- (f) The Parties agree that the (Indian) Arbitration and Conciliation Act, 1996 (including Part I thereof) will not apply to the provisions of this Article 6.01. (*Dispute Resolution*).
- (g) Notwithstanding any of the foregoing provisions of this Article 6.01. (*Dispute Resolution*), in the event that a dispute subsists and, at that time, there also subsists another dispute, controversy, difference or claim arising between those same Parties in relation to or connected with these Articles and which is already the subject of existing arbitration proceedings, the Parties must (unless they otherwise agree in writing) procure (including by the exercise of rights and discretions available to them under these Articles) that the dispute is referred to and heard by Arbitration Board hearing the existing arbitration proceedings.

- (h) Notwithstanding the existence of any dispute or the conduct of any arbitration proceedings pursuant to these Articles, these Articles will remain in full force and effect and the Parties must continue to perform their obligations hereunder.

ARTICLE VII

MISCELLANEOUS

Article 7.01. Most Favourable Terms

- (a) From the Execution Date of the Letter Agreement, if the Company and/or the Promoters (i) offer any rights, privileges, or terms to any Shareholder that are more favourable than the rights, privileges or terms offered to any Investor under the Transaction Documents, or (ii) subject any Shareholder with any obligations that are less burdensome than the obligations of any Investor under the Transaction Documents, then the Company and/or the Promoters shall extend such more favourable rights, privileges, or terms and/or such less burdensome obligations to each Investor on a pari passu basis. The Parties acknowledge that Nuvama Custodial Services Limited is not a party to the Letter Agreement and accordingly the foregoing obligation of the Company and/or the Promoters shall not be applicable in relation to Nuvama Custodial Services Limited, unless they become a party to the Letter Agreement.
- (b) The Company and/or Promoters represent that as on the Execution Date of the Letter Agreement the SSPA of any Investor Cluster does not have more favourable rights or less burdensome obligations as compared to the SSPA executed by any other Investor Cluster.
- (c) For the avoidance of doubt, the difference in the Exit Price between a person resident in India (as determined in accordance with FEMA) and a person resident outside India (as determined in accordance with FEMA) for the purpose of compliance with FEMA, shall not be construed as a more favorable right in favor of a person resident in India (as determined in accordance with FEMA) for purposes of this clause.

Article 7.02. Assignment

- (a) Neither Party shall be entitled to assign or transfer, either in whole or in part, any of their respective rights and obligations under these Articles to any Person, without the prior written consent of the other Party. Notwithstanding the foregoing, each Investor is permitted to assign any of its rights, liabilities or obligations under these Articles to any of its respective Affiliates or to any transferee, as per the terms of these Articles, of the Securities held by it in the Company, without the prior written consent of the other Parties to these Articles.

Article 7.03. Waiver

- (a) No waiver of any provision of these Articles or consent to any departure from it by any Party shall be effective unless it is in writing signed by the Party giving such waiver or consent to such departure. A waiver or consent shall be effective only for the purpose for which it is given. No default or delay on the part of any Party in exercising any rights, powers or privileges operates as a waiver of any right, nor does a single or partial exercise of a right preclude any exercise of other rights, powers or privileges or any abandonment or discontinuance of steps to enforce such right or power, or any course of conduct.

Article 7.04. Charter Documents

- (a) In the event of any conflict between the Charter Documents and the Letter Agreement, the terms of the Letter Agreement shall prevail over the Charter Documents, and the Charter Documents shall at all times reflect the provisions of the Letter Agreement. The Parties shall procure that the Charter Documents are amended to reflect the terms of the Letter Agreement from the Effective Date of the Letter Agreement.

Article 7.05. Promoter Group Representative

- (a) The Promoter Group hereby jointly appoints Siddharth as the representative of the Promoter Group (“**Promoter Group Representative**”) to act on their behalf for all purposes under these Articles, including receipt and delivery of notices, attending meetings and exercising rights and obligations of the

Promoter Group under the Transaction Documents (other than in relation to transfer of Securities). Any action by the Promoter Group Representative shall be binding on all members of the Promoter Group.

- (b) Each Promoter shall be jointly and severally liable for the performance of the obligations of the Promoter and/ or the Promoter Group under these Articles.
- (c) Any communication by the Company, the Investors or other Shareholders made to Promoter Group Representative shall be deemed to be communicated to all members of the Promoter Group. Each of the Investors, other Shareholders and the Company shall be entitled to act solely on the basis of such exercise of rights by, and such communication with such Promoter Group Representative.

Article 7.06. Investor Bloc

- (a) All rights available to each Investor forming part of MO Investors (*as defined under the Letter Agreement*) under these Articles shall be exercised as a bloc and collectively, and not by each of them separately. Such rights shall be exercised only by Mr. Vishal Katkoria on behalf of MO Investors as the representative of the MO Investors for all purposes in connection with all rights under these Articles, unless otherwise notified to the Company and the Promoters in writing by the representative identified above on behalf of the MO Investors.
- (b) Any communication by the Company, the Promoters, the Investors or other Shareholders in relation to the MO Investors shall be made with the relevant representative identified in Article 7.02.(a) above and Article 7.02.(c) below and the same shall be deemed to be communicated to all MO Investors. Each of the Promoters, Investors, other Shareholders and the Company shall be entitled to act solely on the basis of such exercise of rights by, and such communication with such representative. The Investors of each Investor Cluster shall be solely and entirely liable and responsible for resolution of any inter-se dispute as between the Investors of such Investor Cluster.
- (c) Notwithstanding the foregoing, for the purposes of these Articles, the WO Investors (*as defined under the Letter Agreement*) (and their respective Affiliates or Persons to whom such WO Investor has Transferred any Securities in accordance with these Articles) shall at all times, exercise their rights, powers, consents under these Articles independently. The Parties agree and acknowledge that the rights, obligations, and liabilities of the Parties under these Articles are several and not joint, and nothing contained herein shall be construed to create a partnership, association of persons or joint liability among the WO Investors, the other Investors and/ or the Promoters. Provided, however, that for the purposes of exercise of rights by the WO Investors under these Articles, including under (i) Article 4.01. (*Reserved Matters*) and Article 7.03. (*Investor Cluster Majority*), the Parties have mutually agreed that the vote of the WO Investors shall be counted collectively as 1 (one) vote, which vote shall be determined based on majority amongst the WO Investors; and (ii) Article 4.02. (*Information, Inspection, Observer and Other Rights*), **Schedule 1** of the Letter Agreement (*Calculation of Fair Market Value*), the WO Investors shall exercise the rights jointly. For clarity, each individual WO Investor will not have a separate vote.
- (d) Each Investor shall be severally liable for the performance of its obligations under these Articles.
- (e) It is agreed and acknowledged that any decisions or actions undertaken as a result of this Article 7.02. (*Investor Bloc*) are for administrative convenience.

Article 7.07. Investor Cluster Majority

- (a) Notwithstanding anything to the contrary contained in these Articles, wherever these Articles provides that the approval or consent of the Investor Cluster (*acting by way of majority*) is required for any matter, such approval or consent shall be deemed to have been validly obtained if at least 3 (three) out of the 4 (four) Investor Cluster provide such approval or consent, regardless of their respective shareholding percentages in the Company.

ARTICLE VIII

IPO RELATED MATTERS

In order to facilitate and enable the consummation of the IPO and pursuant to the requirement under Applicable Law, and for certain other actions contemplated, the Parties have agreed to inter alia: (a) amend certain terms of the Letter Agreement and these Articles in accordance with the provisions mentioned hereunder; (b) waive certain rights and the corresponding obligations of the other Parties, as applicable; (c) consent to certain matters under the terms of the Letter Agreement and these Articles; and (d) terminate the rights available to them under the Letter Agreement and these Articles, each in the manner and in accordance with the terms set out in this Article VIII.

For the purposes of this Article and any actions and transactions contemplated hereunder, it is hereby clarified that the phrase '*consummation of the IPO*' as referred to in this Article shall mean the date of listing and trading of the Equity Shares of the Company pursuant to the IPO.

In case of any conflict between the terms of this Article VIII with the other terms of these Articles or the Letter Agreement, the terms of this Article VIII shall prevail, *vis-à-vis* the contents of this Article VIII.

The provisions of this Article VIII shall come into effect and be binding on and from the date of filing of the draft red herring prospectus in relation to the proposed Offer ("**DRHP**") with the Securities and Exchange Board of India ("**SEBI**") ("**Effective Date**"), until such time as the Waiver cum Amendment Agreement is terminated in accordance with the provisions of Clause 5 of the Waiver cum Amendment Agreement hereof.

Article 8.01. Waivers and Consent

- (a) Each Party (to the extent that such Party is entitled to rights under the relevant articles as set out below), subject to the terms and conditions of this Article VIII, agrees to waive its rights under the following Articles of Part B of these Articles, specifically solely to the extent of any transfers proposed to be undertaken pursuant to the Offer for Sale or, as disclosed in the Offer Documents with effect from the date of consummation of the IPO, i.e., upon the actual listing and trading of the Securities:
 - (i) Article 3.01. (Transfers by Investors and Promoters);
 - (ii) Article 3.02. (Pre-Emptive Right); and
 - (iii) Article 3.03. (Anti-Dilution Protection) and Schedule 2 of the Letter Agreement (Anti-Dilution Protection).
- (b) Investors also agree to hereby agree to waive the rights and restrictions under the following Articles of Part B of these Articles with effect from the date of consummation of the IPO, i.e., upon the actual listing and trading of the Securities:
 - (i) Article II (*Exit Rights*), except in relation to the obligation under Article 2.01 (*Initial Public Offering*);
 - (ii) Article 2.01(e) (Initial Public Offering);
 - (iii) Article 2.01(b)(v) (Initial Public Offering); and
 - (iv) Article 2.03 (Third Party Sale);
 - (v) Article 2.05 (Tag Along Right);
 - (vi) Article 2.06 (Exit Support), except in relation to the obligation under Article 2.01 (Initial Public Offering);
 - (vii) Article 4.01 (Reserved Matters) and Schedule 3 of the Letter Agreement (List of Reserved Matters);
 - (viii) Article 4.02(c) (Information, Inspection, Observer and Other Rights);
 - (ix) Clause 9.4 of the Letter Agreement (Term and Termination and Event of Default); and
 - (x) Article 7.03 (Investor Cluster Majority).

- (c) Further from the Effective Date, Investors also agree to hereby agree to the deletion of the following Articles of Part B of these Articles:
- (i) Article 2.01(f) (limb (i) and (iii));
 - (ii) Article 2.02 (Put Option); and
 - (iii) Article 2.04 (Buy-Back);
- (d) From the date of filing of the red herring prospectus for the Offer with the Registrar of Companies, Maharashtra at Mumbai, Investors acknowledge and agree that information and inspection rights under Article 4.02(a) and Article 4.02(b) shall be subject to compliance with the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended (“**SEBI Insider Trading Regulations**”). Further, Parties agree and acknowledge that Company shall not be obligated to provide to any Party information which the Company is prohibited from sharing/providing under the SEBI Insider Trading Regulations.
- (e) Pursuant to Article V (Confidentiality), the Parties hereby consent to the disclosure of the contents of these Articles, Letter Agreement, the SSPA and the Waiver cum Amendment Agreement, as may be required to be disclosed under Law, in the Offer Documents, and other material in connection with the Offer. Each Party consents to include a copy of the Letter Agreement, the SSPA and the Waiver cum Amendment Agreement as a material document which would be filed with the Registrar of Companies, Maharashtra at Mumbai along with the red herring prospectus/prospectus filed in relation to the Offer and to include copies of the Letter Agreement, SSPA and the Waiver cum Amendment Agreement as material documents for inspection at the registered office of the Company or electronically on the Company’s website, solely to the extent required under Law.
- (f) Any consent or waiver granted under the Waiver cum Amendment Agreement in respect of the relevant provisions of the Letter Agreement shall also be deemed to be a consent or waiver under the corresponding provisions of these Articles.

Article 8.02. Amendments to these Articles

- (a) Definition of ‘Encumbrance’ in Part B of these Articles shall be, and hereby is, substituted in its entirety with the following:
- “‘Encumbrance’ shall mean: (i) any mortgage, charge (whether fixed or floating), pledge, lien, hypothecation, assignment, deed of trust, security interest or other encumbrance of any kind securing, or conferring any priority of payment in respect of, any obligation of any Person, including without limitation any right granted by a transaction which, in legal terms, is not the granting of security but which has an economic or financial effect similar to the granting of security under Applicable Law; (ii) voting agreement or trust, right of pre-emption or first offer or refusal, title retention agreement, conditional sale agreement, or other transfer restrictions in favour of any Person; (iii) any restriction in favour of any Person(s) (individually or collectively) to deal with the benefits of an asset under Law or contract; and (iv) agreement or arrangement to create any of the foregoing, including by way of an adverse order; as to title, possession or use of an asset, and the term “Encumber” shall be construed accordingly. Provided however that any lock-in of Equity Shares pursuant to the IPO as required under Applicable Law or Transfer of Equity Shares in share escrow accounts in accordance with any IPO related agreements to be entered into by any of the Parties shall not be construed as “Encumbrance”;*”
- (b) Article 2.01(vi) shall be, and hereby is, substituted in its entirety with the following:
- “Subject to Applicable Law (including in respect of any fees required to be borne in relation to an Offer for Sale), all fees and expenses required to be paid in respect of the IPO including in connection with any statutory filings, approvals and registration fees, and fees payable to merchant bankers, underwriters, book-runners, issue registrars or any other intermediaries involved in any manner in relation to the IPO shall be borne and paid by the Company in the first instance. Each Shareholder participating in an Offer for Sale (“Selling Shareholders”) will reimburse the Company, in proportion to its respective portion of the Equity Shares in the Offer, for expenses, as agreed upon between the Company and the respective Selling Shareholders, that have been incurred by the Company, on behalf such Selling Shareholder, in accordance with Section 28 of the Companies Act.”*

Article 8.03. Terms and Termination

- (a) This Article VIII (and the amendments/ waivers/ consents as set forth herein) shall become effective and binding on the Parties on and from the Effective Date and shall continue in full force and effect unless terminated on account of any of the following events, whichever is earlier (such date, the “**Termination Date**”):
- (i) the Waiver cum Amendment Agreement being terminated by the mutual written agreement of all Parties;
 - (ii) in the event that consummation of the IPO does not occur: (a) within 12 months from the date of receipt of the final observations from SEBI on the DRHP filed by the Company in respect of an IPO; or (b) by December 31, 2027, whichever is earlier; or
 - (iii) the occurrence of the Exit Trigger Event indicated in Article 2.01(f) or the date on which the Board terminates the offer agreement entered into in relation to the IPO with book running lead managers; or
 - (iv) such other date as may be mutually agreed to in writing among the Parties.
- (b) If any of the events under Article 8.03(a) occur:
- (i) the provisions of Article VIII shall automatically fall away, and the amendments, consents and waivers provided under this Article VIII will cease to be effective, without any further act and without any liabilities or obligations whatsoever; and
 - (ii) the provisions of Part B of these Articles (except for Article VIII of Part B of these Articles), including but not limited to Article 2.01 limb (a) and (c)); Article 2.02 (Put Option) and Article 2.04 (Buy-Back), shall: (A) continue without any prejudice whatsoever thereto; (B) immediately and automatically stand reinstated including in accordance with Article 2.01, with full force and effect, without any further action or deed required; and (C) be deemed to have been in force during the period between Effective Date and the Termination Date (as defined under the Waiver cum Amendment Agreement), without any break or interruption whatsoever, save and except for any actions undertaken by the Company in accordance with the Waiver cum Amendment Agreement, for the purposes of an IPO (as contemplated under the Transaction Documents).
 - (iii) To the extent any specific actions cannot be reversed to *status quo ante*, the Parties will mutually engage in good faith discussions to ensure that, to the fullest extent possible under Applicable Law, all of the rights and privileges of the Parties are reinstated to the position they would have been without such actions at the earliest. Each Party severally agrees to take all necessary steps and perform and complete all necessary actions, as may be required, including (i) an amendment to these Articles to reinstate them to form, content and manner reflecting the terms of the Letter Agreement prior to the execution of the Waiver cum Amendment Agreement; and (ii) making relevant filings and applications (as applicable) with the government authority in relation to the above. Further, in relation to the Securities held by the Investors that are converted into Equity Shares, such decisions and actions that the Investors may require, may without limitation include, subject to Applicable Laws, modification and/or reclassification of the Equity Shares arising out of the conversion of the Securities into Equity Shares of a different class which rank in preference to the remainder of the issued, paid-up and subscribed share capital of the Company with respect to rights as were attached to the Securities immediately prior to the conversion of the Securities to Equity Shares. The provisions of this Article 8.03(a) shall survive the termination of the Waiver cum Amendment Agreement and this Article VIII.
- (c) Part B of the Articles constitute the entire understanding between the Parties , and no other side agreements have been entered into by any Party in relation to the subject matter. Except to the extent specifically set out in this Article VIII, all other terms of the Part B of these Articles shall remain unaltered and shall continue in full force and effect. Nothing herein shall affect or alter, in any manner whatsoever, the provisions of Part B of these Articles, except as expressly set out in this Article VIII.

- (d) No change or additions to, or modification to, the Waiver cum Amendment Agreement shall be valid unless made in writing and signed by all the Parties.

SECTION X – OTHER INFORMATION

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The responsibility of granting approval for foreign investment under the Consolidated FDI Policy (defined herein below) and FEMA has been entrusted to the concerned ministries / departments.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the “**Consolidated FDI Policy**”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular.

Under the current FDI Policy, 100% foreign direct investment is permitted in the manufacturing sector, under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer. For details, see “*Offer Procedure*” on page 417.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the FEMA Rules, any investment, subscription, purchase or sale of equity instruments by entities, investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Offer Period.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, see “*Offer Procedure – Bids by Eligible NRIs*” and “*Offer Procedure – Bids by FPIs*” on pages 423 and 424, respectively.

The above information was given for the benefit of the Bidders. Our Company, the Promoter Selling Shareholders and the BRLMs are not liable for any amendments, modification, or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Bidders were advised to make their independent investigations and ensure that the number of Equity Shares Bid for which did not exceed the applicable limits under laws and regulations.
