RISKS IN RELATION TO THE FIRST OFFER

This being the first public offer of our Company, there has been no formal market for the Equity Shares. The face value of the Equity Shares is ₹ 5 each. The Floor Price, Cap Price and Offer Price, each as determined by our Company in consultation with the BRLMs, on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, and in accordance with SEBI ICDR Regulations, as stated in "***Basis for Offer Price***" beginning on page 140, should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISK

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Investors were advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors were advised to rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares offered in the Offer have not been recommended or approved by the Securities and Exchange Board of India ("**SEBI**"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Prospectus. Specific attention of the investors was invited to "***Risk Factors***" beginning on page 20.

ISSUER'S AND PROMOTER SELLING SHAREHOLDER'S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading in any material respect. The Promoter Selling Shareholder accepts responsibility for and confirms only the statements and undertakings expressly made or confirmed by the Promoter Selling Shareholder in this Prospectus to the extent of information solely pertaining to itself and the Offered Shares and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect.

Certain Conventions

All references in this Prospectus to "India" are to the Republic of India and its territories and possessions and all references herein to the "Government", "Indian Government", "GoI", "Central Government" or the "State Government" are to the Government of India, central or state, as applicable. All references herein to (i) "US", the "U.S." or the "United States" are to the United States of America and its territories and possessions; and (ii) "Singapore" are to the Republic of Singapore.

Unless indicated otherwise, all references to time in this Prospectus are to Indian Standard Time ("**IST**"). Unless indicated otherwise, all references to a year in this Prospectus are to a Calendar Year.

Unless indicated otherwise, all references to page numbers in this Prospectus are to page numbers of this Prospectus.

Financial Data

Our Company's financial year commences on April 1 of the immediately preceding Calendar Year and ends on March 31 of that particular Calendar Year. Accordingly, all references in this Prospectus to a particular fiscal or financial year are to the 12-month period commencing on April 1 of the immediately preceding Calendar Year and ending on March 31 of that particular Calendar Year.

Unless indicated otherwise, the financial information included in this Prospectus is derived from our Restated Consolidated Financial Information. The Restated Consolidated Financial Information included in this Prospectus is as at and for the three months period ended June 30, 2026 and June 30, 2025 and the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024, which comprise (i) the restated consolidated statement of assets and liabilities, restated consolidated statement of profit and loss (including other comprehensive income), and restated consolidated statement of changes in equity and restated consolidated statement of cash flows as at and for the three months period ended June 30, 2026 and June 30, 2025 and the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024 and (ii) a summary of material accounting policies and the other explanatory information as at and for the three months period ended June 30, 2026 and June 30, 2025 and the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024 each prepared in accordance with Ind AS and restated in accordance with the requirements of Section 26 of Part I of Chapter III of the Companies Act, 2013, relevant provisions of the SEBI ICDR Regulations and the Guidance Note on Reports on Company Prospectuses (Revised 2019) issued by the ICAI as amended from time to time read with the general directions dated October 28, 2021 received from SEBI. For further details, see "***Restated Consolidated Financial Information***" on page 304 of this Prospectus.

Unless the context otherwise requires, any percentage, amounts, as set forth in "***Risk Factors***", "***Our Business***" and "***Management's Discussion and Analysis of Financial Conditions and Results of Operations***" beginning on pages 20, 228 and 393, respectively and elsewhere in this Prospectus have been calculated on the basis of our Restated Consolidated Financial Information unless otherwise stated.

There are significant differences between the Ind AS, the International Financial Reporting Standards issued by the International Accounting Standard Board (the "**IFRS**") and the Generally Accepted Accounting Principles in the United States of America (the "**U.S. GAAP**"). Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company's financial data. Investors were advised to consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar, and the impact on our financial data. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with accounting standards in India, the Ind AS, the Companies Act, 2013 and the SEBI ICDR Regulations, on the financial disclosures presented in this Prospectus should accordingly be limited. For details see, "***Risk Factors – Significant differences exist between the Indian Accounting Standards used to prepare our financial information and other accounting principles, such as the United States Generally Accepted Accounting Principles and the International Financial Reporting Standards, which may affect investors' assessments of our financial condition***" on page 70.

Certain figures contained in this Prospectus, including financial information, have been subject to rounding adjustments. All decimals have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. However, where any figures that may have been sourced from third-party industry sources, including the CARE Report, are rounded off to other than two decimal points in their respective sources, such figures appear in this Prospectus as rounded-off to such number of decimal points as provided in such respective sources.

Non-Generally Accepted Accounting Principles Financial Measures

Certain non-generally accepted accounting principle ("**Non-GAAP**") measures, such as GP Income, PAT Margin, Cost-to-income ratio, FPAUM, Total Borrowings, Cash and Cash Equivalents including Bank balances, Return on equity and Debt to Equity (D/E) ("**Non-GAAP Measures**") presented in this Prospectus are a supplemental measure of our performance and liquidity that are not required by, or presented in accordance with Ind AS, IFRS or U.S. GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS and should not be considered in isolation or construed as an alternative to cash flows, profit/(loss) for the year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. In addition, the Non-GAAP Measures as used by the Company and their definitions as set out herein, are not standardised terms, hence a direct comparison of similarly titled Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although the Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that they are useful to an investor in evaluating us because they are widely used measures to evaluate a company's operating performance. For details see, "***Management's Discussion and Analysis of Financial Position and Results of Operations – Certain Non-GAAP Measures***" on page 410.

Industry and Market Data

Unless stated otherwise, industry and market data used in this Prospectus has been obtained or derived from the CARE Report and publicly available information as well as other industry publications and sources. The CARE Report has been exclusively commissioned and paid for by our Company, pursuant to engagement letters dated August 22, 2024 and May 16, 2025, for the purposes of confirming our understanding of the industry in which our Company operates, in connection with the Offer.

The CARE Report was also available at our Company's website at https://www.eaaa.in/investor-relations/ from the date of filing of the Red Herring Prospectus until the Bid/ Offer Closing Date.

CARE is an independent agency with no relationship with our Company, its Subsidiaries, Promoters, Directors, Key Managerial Personnel, Senior Management or the Book Running Lead Managers.

Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. The data used in these sources may have been reclassified by us for the purposes of presentation. Data from these sources may also not be comparable. The extent to which the industry and market data presented in this Prospectus is meaningful depends upon the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in "***Risk Factors – We have commissioned an industry report from CARE which has been used for industry related data in this Prospectus and such data has not been independently verified by us.***" on page 65. Accordingly, investment decisions should not be based solely on such information.

Currency and Units of Presentation

All references to "**Rupees**" or "**₹**" or "**Rs.**" or "**INR**" are to Indian Rupees, the official currency of the Republic of India. All references to "**US$**", "**U.S. Dollar**", "**USD**" or "**U.S. Dollars**" are to United States Dollar, the official currency of the United States of America. All references to "**SGD**" are to Singapore dollar, the official currency of Singapore.

In this Prospectus, our Company has presented certain numerical information. All figures have been expressed in millions or in whole numbers where the numbers have been too small to represent in millions, except where specifically indicated. One million represents 10 lakhs or 1,000,000 and 10 million represents one crore or 10,000,000. However, where any figures that may have been sourced from third party industry sources are expressed in denominations other than millions in their respective sources, such figures appear in this Prospectus expressed in such denominations or rounded-off to such number of decimal points as provided in such respective sources.

Exchange Rates

This Prospectus contains conversions of U.S. Dollars and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that such currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all.

The following table sets forth as of the dates indicated, information with respect to the exchange rate between the Indian Rupee, the U.S. Dollar, and Singapore dollar:

(in ₹)

Currency	Exchange rate as on the three months period ended June 30, 2026	Exchange rate as on the three months period ended June 30, 2025	Exchange rate as on March 31, 2026	Exchange rate as on March 31, 2025	Exchange rate as on March 31, 2024

Notes:

1. *Exchange rate is rounded off to two decimal points.*
2. *In the event that any of the aforementioned date is a public holiday, the exchange rate of the previous calendar day not being a public holiday have been considered.*

Notice to Prospective Investors in the United States

The Equity Shares have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Prospectus or approved or disapproved the Equity Shares. Any representation to the contrary is a criminal offence in the United States. In making an investment decision, investors must rely on their own examination of our Company and the terms of the Offer, including the merits and risks involved. The Equity Shares have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**") or any other applicable law of the United States and, may not be offered or sold within the United States or to, or for the account or benefit of, U.S. Persons as defined in Regulation S under the U.S. Securities Act ("**U.S. Persons**") except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws.

Our Company has not registered and does not intend to register under the U.S. Investment Company Act of 1940, as amended (the "**U.S. Investment Company Act**") in reliance on Section 3(c)(7) of the U.S. Investment Company Act, and investors will not be entitled to the benefits of the U.S. Investment Company Act. Accordingly, the Equity Shares are only being offered and sold (i) to persons in the United States or to or for the account or benefit of, U.S. Persons, in each case to investors that are both "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in the Red Herring Prospectus and this Prospectus as "**U.S. QIBs**" and, for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in the Red Herring Prospectus and this Prospectus as "**QIBs**") and "qualified purchasers" (as defined under the U.S. Investment Company Act and referred to in the Red Herring Prospectus and this Prospectus as "**QPs**") in transactions exempt from or not subject to the registration requirements of the U.S. Securities Act and in reliance on Section 3(c)(7) of the U.S. Investment Company Act; or (ii) outside the United States to investors that are not U.S. Persons nor persons acquiring for the account or benefit of U.S. Persons in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur. The Equity Shares may not be re-offered, re-sold, pledged or otherwise transferred except in an "offshore transaction" as defined in, and in reliance on, Regulation S to a person outside the United States and not known by the transferor

to be a U.S. Person by pre-arrangement or otherwise (such permitted transactions including, for the avoidance of doubt, a bona fide sale on the BSE or NSE).

As we are relying on an analysis that our Company does not come within the definition of an "investment company" under the U.S. Investment Company Act because of the exception provided under Section 3(c)(7) thereunder, our Company may be considered a "covered fund" as defined in the Volcker Rule. See *"**Risk Factors – Our Company is not, and does not intend to become, regulated as an investment company under the U.S. Investment Company Act and related rules**."* on page 66 and *"**Risk Factors – U.S. regulation of investment activities may negatively affect the ability of banking entities to purchase our Equity Shares**"* on page 66.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made, by persons in any such jurisdiction except in compliance with the applicable laws of such jurisdiction.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain "forward-looking statements". All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward- looking statements. These forward-looking statements include statements with respect to our business strategy, our expected revenue and profitability, our goals and other matters discussed in this Prospectus regarding matters that are not historical facts. These forward-looking statements can generally be identified by words or phrases such as ***"aim"***, ***"anticipate"***, ***"believe"***, ***"expect"***, ***"estimate"***, ***"intend"***, ***"likely to"***, ***"objective"***, ***"plan"***, ***"propose"***, ***"project"***, ***"will"***, ***"will continue"***, ***"seek to"***, ***"strive to"***, ***"will pursue"***, ***"will achieve"*** or other words or phrases of similar import. Similarly, statements which describe our strategies, objectives, plans or goals are also forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations, and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by such forward-looking statements. This could be due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes in the industry we operate in and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India that may have an impact on our business or investments, monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates and prices, the general performance of Indian and global financial markets, changes in domestic laws, changes in the competitive landscape and incidence of any natural calamities and/or violence, regulations and taxes and changes in competition in the industry in which we operate.

Significant factors that could cause our actual results to differ materially include, but are not limited to:

- Our Variable Additional Return constitutes 32.41%, 27.54%, 30.14%, 24.25% and 16.19% of our Total Income for the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024, respectively. Further, the realized Variable Additional Return may be different from our Variable Additional Return recognized on a year-on-year basis and the timing and receipt of Variable Additional Return are unpredictable and contribute to volatility in our cash flows.

- Our revenue and profit are dependent on our Management and Advisory Fees, GP Income and the Variable Additional Return we earn with respect to the funds managed by us, and any adverse factors affecting our Management and Advisory Fees, GP Income or our Variable Additional Return may result in a decline in our income and profit.

- Our historical growth rates may not be indicative of our future growth and if we do not manage our growth effectively, our financial performance could be adversely affected.

- Valuation methodologies for certain assets can be subject to significant subjectivity, and the values of assets may never be realized.

- We do not have any directly comparable Indian listed peers, which may affect investor perception and valuation of our business.

- Our clients may not honor their capital calls, which could adversely affect our ability to invest, and in turn affect our fund's operations and performance. Further, we are exposed to concentration risks related to our clients, which could impact the performance and stability of our funds.

- Our Group Companies and Promoters are subject to purview of various authorities such as SEBI, RBI and tax authorities which may result in financial penalties, additional compliances and regulatory restrictions.

- We have experienced negative cash flows in the past and prolonged negative cash flow could adversely affect our financial condition and business operations.

- The timing and receipt of Variable Additional Return are unpredictable and contribute to volatility in our cash flows.

- We are subject to certain risks associated with the actions of our distributors or placement agents. Any mismanagement in handling our relationships with our distributors or placement agents could have a material adverse effect on our business, financial condition and results of operations.

For further discussion of factors that could cause our actual results to differ from expectations, see "***Risk Factors***", "***Our Business***", "***Industry Overview***", and "***Management's Discussion and Analysis of Financial Condition and Results of Operations***" beginning on pages 20, 228, 160, and 393, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Forward-looking statements reflect our current views as of the date of this Prospectus and are not a guarantee of future performance. Although we believe that the assumptions on which such statements are based are reasonable, any such assumptions as well as the statements based on them could prove to be inaccurate.

We cannot assure Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of our future performance.

Neither our Company, our Promoters (including the Promoter Selling Shareholder), our Directors, nor the Syndicate, or any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company and the BRLMs will ensure that Bidders in India are informed of material developments, which may have a material effect on our Company from the date of the Red Herring Prospectus until the date of Allotment.

SECTION II – RISK FACTORS

*An investment in our Equity Shares involves a high degree of risk. Potential investors should carefully consider all of the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. This Prospectus contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the considerations described in this section and elsewhere in this Prospectus. See "**Forward-Looking Statements**" beginning on page 18 of this Prospectus.*

We have described the risks and uncertainties that we believe are material, but these risks and uncertainties may not be the only risks relevant to us, our Equity Shares, or the industry in which we currently operate or propose to operate. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse impact on our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition may be adversely affected, the price of the Equity Shares could decline, and investors may lose all or part of their investment.

In making an investment decision, investors were advised to rely on their own examination of us and our business and the terms of the Offer including the merits and risks involved.

*Investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Offer. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Investors were advised to pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. To obtain a complete understanding of our business, you should read this section in conjunction with the sections titled "**Industry Overview**", "**Our Business**", "**Restated Consolidated Financial Information**" and "**Management's Discussion and Analysis of Financial Position and Results of Operations**" beginning on pages 160, 228, 304 and 393, respectively, of this Prospectus, as well as the other financial information contained in this Prospectus.*

*Unless otherwise indicated, industry and market data used in this section have been derived from the report titled "Industry Research Report on Alternatives" dated October 2026 (the "**CARE Report**") prepared and issued by CARE Analytics & Advisory Private Limited ("**CARE**"), appointed by us on August 22, 2024 and on May 16, 2025, and exclusively commissioned and paid for by us in connection with the Offer. Unless otherwise indicated, all financial, operational, industry and other related information derived from the CARE Report and included herein with respect to any particular year refers to such information for the relevant calendar year. Also see, "**Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation**" beginning on page 14 of this Prospectus. CARE is an independent agency and is not related to our Company, its Subsidiaries, its Directors, Promoter Group, Key Managerial Personnel, Senior Management or Promoter Selling Shareholder.*

Unless the context otherwise requires, in this section, references to "we", "us" and "our" are to EAAA India Alternatives Limited on a consolidated basis, or the funds managed by the EAAA India Alternatives Limited or its Subsidiaries, while references to "our Company" or "the Company", are to EAAA India Alternatives Limited on a standalone basis. Furthermore, unless the context otherwise indicates, all references, including reference to financial and operating information and the Restated Consolidated Financial Information, to the terms "we", "us" and "our" for the three months period ended June 30, 2026, June 30, 2025 and each of the Financial Years ended March 31, 2026, March 31, 2025, and March 31, 2024, are to the Company and our Subsidiaries, on a consolidated basis. Our financial year ends on March 31 of each year, so all references to a particular Financial Year/ Fiscal are to the twelve-month period ended March 31 of that year.

Internal Risk Factors

1. Our Variable Additional Return constitutes 32.41%, 27.54%, 30.14%, 24.25% and 16.19% of our Total Income for the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024, respectively. Further, the realized Variable Additional Return may be different from our Variable Additional Return recognized on a year-on-year basis and the timing and receipt of Variable Additional Return are unpredictable and contribute to volatility in our cash flows.

Our Variable Additional Return is calculated on an accrual year-to-year basis and therefore might differ from the

realized Variable Additional Return. Based on the guidance under the Ind AS (as defined below) and the current policy that we adopted for recognition of Variable Additional Return, Variable Additional Return is recognized in our books of accounts after a minimum of three years from its initial close date. It is also contingent upon the fund's performance achieving at least 1.25 times the hurdle rate specified in the respective fund documents at the time of recognition of Variable Additional Return. According to the waterfall mechanism specified in each fund document, and subject to the above conditions, Variable Additional Return is calculated and recognized over the remaining life of the respective funds up to the expected date of the first realisation.

The timing and receipt of Variable Additional Return (net of Variable Additional Return related cost) from the funds we manage and advise are inherently unpredictable and contribute to the volatility of our cash flows. Further, this risk should be viewed as Net Variable Additional Return i.e., Variable Additional Return less Variable Additional Return related cost.

Given below is our Net Variable Additional Return for the periods indicated:

Particulars	Three months period ended June 30,				For the Financial Year ended						Total accrued[2]
	2026		2025		2026		2025		2024		
	(in ₹ million)	(%) of total income	(in ₹ million)	(%) of total income	(in ₹ million)	(%) of total income	(in ₹ million)	(%) of total income	(in ₹ million)	(%) of total income

Net Variable Additional Return (C=A-B)	264.50	7.87	451.46	21.33	1,293.85	13.43	595.98	7.58	104.04	1.78	2,258.37

Note:

(1) Variable Additional Return is the additional variable return to the Company and its Subsidiaries once the fund has achieved the hurdle rate of return for its investors based on NAV and/or Realization, shown as other operating revenues in Restated Consolidated Financial Information. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Company and its Subsidiaries' policies.

(2) Total accrued is for the period from April 1, 2023 till June 30, 2026.

Of the cumulative Variable Additional Return of ₹6,847.20 million recognized from Financial Year 2024 to the three months period ended June 30, 2026, ₹3,976.54 million has been realized.

Whilst we may accrue or recognise Variable Additional Return in our financial statements based on applicable accounting standards, calculated basis the fund performance and expected realisation timing, the actual cash receipts may differ which depends on the occurrence and timing of realisation events, distributions under the applicable waterfall mechanism in the fund documentation and the satisfaction of applicable hurdle rates and other criteria, as mentioned in the funds' governing documents. The timing of such cash receipts is influenced by factors largely beyond our control, including market conditions, exit opportunities for underlying investments, repayment by borrowing entities and fund-level distribution policies. As a result, there may be significant periods during which we have recognised Variable Additional Return in our financial statements but have not received corresponding cash proceeds, or receive them substantially later than the period of recognition.

2. Our revenue and profit are dependent on our Management and Advisory Fees, GP Income and the Variable Additional Return we earn with respect to the funds managed by us, and any adverse factors affecting our Management and Advisory Fees, GP Income or our Variable Additional Return may result in a decline in our income and profit.

Our Total Income comprises of Management and Advisory Fees, GP Income, Variable Additional Return and Miscellaneous Income. A significant portion of Total Income comes from our Management and Advisory Fees. It is the fee received for providing management and advisory services. Management and Advisory Fees is generally charged as a percentage of capital committed, capital invested, NAV, gross block etc. Our Management and Advisory Fees stream is notably stable, as they largely stem from multi-year contractual agreements, however, there is a risk that it may fluctuate depending on the performance of our funds, changes in fee structure, competition and market conditions which may consequently affect our Total Income. General partner and/or sponsor investments reflect our alignment of interests with clients by using our capital in the funds or co-investing in portfolio companies, on the same terms as the primary fund. GP Income represents the income on these investments. There is a risk that such GP Income might fluctuate depending on the profitability of these investments and affect our Total Income.

Additionally, we generate Variable Additional Return through additional return on sponsor or general partner commitment, which is dependent on the performance of our funds. The fluctuation of our Variable Additional Return will therefore affect our Total Income.

Our revenue from Management and Advisory Fees, GP Income, Variable Additional Return and Miscellaneous Income, as well as their contributions to our Total Income, were as follows for the periods/ Financial years stated in the table below:

Notes:

**The financial details are in agreement with the Restated Consolidated Financial Information for three months period ended June 30, 2026, June 30, 2025 and the Financial Years 2026, 2025 and 2024.*

(1) Management and Advisory fee is the fee received for providing management and advisory services. Management and Advisory Fee is generally charged as a percentage of capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) Variable Additional Return is the additional variable return to the Company and its Subsidiaries once the fund has achieved the hurdle rate of return for its investors based on NAV and/or Realisation, shown as other operating revenues in Restated Consolidated Financial Information. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Company and its Subsidiaries' policies.

(3) GP Income refers to Income on investments in funds or co-investing in portfolio companies, on the same terms as the primary fund. It is calculated as sum of Interest income on debt instruments/ Pass through certificates and Net Gain / (Loss) on fair value changes from Investments in AIF/ Debt Instrument / Pass through certificate / equity forming part of other income in the Restated Consolidated Financial Information.

(4) Miscellaneous Income is calculated as Other Income except interest income on debt instruments and pass through certificates and net gain/(loss) on fair value changes from investments in AIFs, debt instruments, pass through certificates and equity in the Restated Consolidated Financial Information.

(5) Total Income as per Restated Consolidated Financial Information.

A number of factors, including the performance of our funds, stronger competition, changes in fee structure, market conditions, changes in applicable law, could affect our Management and Advisory Fees, GP Income and Variable Additional Return and consequently may cause a decline in our Total Income and profit.

3. Our historical growth rates may not be indicative of our future growth and if we do not manage our growth effectively, our financial performance could be adversely affected.

Over the last three financial years, our FPAUM grew at compounded annual growth rate ("**CAGR**") of approximately 23.43% from ₹237,758.49 million in Financial Year 2023 to ₹447,104.42 million in Financial Year 2026.

	March 31,		
	2026	**2025**	**2024**
	(in ₹ million, unless otherwise stated)		
3-yr FPAUM[(1)] Growth[(2)] (%)	23.43%	26.24%	27.74%

Notes:

(1) FPAUM refers to the Assets Under Management on which we are entitled to earn Management and Advisory fees. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) 3-yr FPAUM Growth is computed as the compounded annual growth rate ("CAGR") from the FPAUM as at the last day of the relevant fiscal year to the FPAUM as at the last day of the fiscal year 3 years prior to the relevant fiscal year. 3-yr FPAUM growth is calculated for completed financial year.

The historical returns of our products should not be considered indicative of the future results of these products or the results of any other products we may develop in the future. The investment performance we achieve for our clients vary over time and the variance can be wide. Our business growth depends on, among other things, our ability to retain client trust, which is affected by our ability to maintain transparency, high governance standards, investment performance or retain key investment professionals. Our business growth also depends on our ability to deal with changing market conditions, such as developing new investment products, maintaining and extending our distribution capabilities, and complying with new regulations. Any failure in managing our growth could affect our AUM and/or FPAUM, or damage our brand or reputation, which could result in a reversal of any growth that is achieved.

We also may not be successful in implementing our growth plans, as their successful implementation is subject to many factors beyond our control, such as competition, client requirements, market conditions, regulatory environment, and rising employee costs and distribution costs and technology cost. As we continue to raise capital from overseas for our funds, our business may be exposed to additional challenges, including obtaining additional governmental or regulatory approvals, identifying and collaborating with local business partners with whom we may have no existing relationship, successfully marketing our products in markets in which we have no familiarity, attracting clients in a market in which we do not have significant experience or visibility, maintaining

standardized systems and procedures, and adapting our marketing strategy and operations to new markets in India in which different languages are spoken. Additionally, if we plan to expand our funds' investment portfolio overseas, we may not be able to achieve the desired yield and results, or incur costs which we may not be able to recover. As of the date of this Prospectus, there have been no such instances where we have been unsuccessful in implementing our growth plans. Moreover, investing through our foreign subsidiary, EAAA Pte Limited, introduces significant complexities and risks. Our subsidiary must navigate a different regulatory environment, where legal requirements and corporate governance standards can differ substantially from the Company. This structure exposes us to geopolitical and economic uncertainties in the host country, potentially impacting the subsidiary's stability and profitability. Our foreign subsidiary, EAAA Pte Limited, in the three month period ended June 30, 2026, Financial Year 2026, Financial Year 2025 and Financial Year 2024 invested a total of US$9.50 million alongside the offshore funds.

4. Valuation methodologies for certain assets can be subject to significant subjectivity, and the values of assets may never be realized.

Most of the investments of our funds are illiquid and thus may have no readily ascertainable market prices. We value these investments based on our estimate, or an independent third party's estimate, of their fair value as of the date of determination, which often involves significant subjectivity. There is no single standard for determining fair value in good faith and in many cases fair value is best expressed as a range of fair values from which a single estimate may be derived. We estimate the fair value of our investments based on third-party models, or models developed by us, which include discounted cash flow analyses and other techniques and may be based, at least in part, on independently sourced market parameters. The material estimates and assumptions used in these models include the timing and expected amount of cash flows, the appropriateness of discount rates used, and, in some cases, the ability to execute, the timing of and the estimated proceeds from expected financings, some or all of which factors may be ascribed more or less weight in light of the particular circumstances. The actual results related to any particular investment often vary materially as a result of the inaccuracy of these estimates and assumptions. In addition, because many of the illiquid investments held by our credit funds are in industries or sectors which are unstable, in distress or undergoing some uncertainty, such investments are subject to rapid changes in value caused by sudden company-specific or industry-wide developments.

Furthermore, our valuations are conducted in accordance with the International Private Equity and Venture Capital ("**IPEV**") Guidelines, as endorsed by the Indian Venture and Alternate Capital Association ("**IVCA**"), or such other guidelines as may be prescribed under applicable law, including the framework prescribed by SEBI pursuant to Chapter 22 of the Master Circular on "Standardised approach to valuation of investment portfolio of Alternative Investment Funds (AIFs)" and SEBI circular ref. SEBI/HO/AFD/PoD-1/P/CIR/2024/123 dated September 19, 2024 on "Modification in framework for valuation of investment portfolio of AIFs". In estimating the fair value of an investment, we are required to apply valuation techniques that are appropriate in light of the nature, facts and circumstances of the investment and to use reasonable current market data and inputs combined with market participant assumptions, with fair value estimated from the perspective of market participants and market conditions as at the relevant measurement date. For investments in unlisted securities and listed securities which are non-traded or thinly traded, and for which valuation norms have not been prescribed under the SEBI (Mutual Funds) Regulations, 1996, valuation is carried out in accordance with valuation guidelines endorsed by an AIF industry association representing at least 33% of the number of SEBI registered AIFs, currently the IPEV valuation framework as endorsed by the IVCA, with any further updates thereto deemed to form part of our valuation policy.

If we realize value on an investment that is significantly lower than the value at which it was reflected in a fund's net asset values, we will suffer losses in the applicable fund. This could in turn lead to a decline in assets value, GP Income and a loss up to the portion of the Variable Additional Return from affiliates reported in prior periods that was not realized upon disposition and, to some extent, Management and Advisory Fees. These effects could become applicable to many of our investments if our estimates and assumptions used in estimating their fair values differ from future valuations due to market developments. If asset values turn out to be materially different than values reflected in fund net asset values which could be on account of multiple factors, fund clients could lose confidence which could, in turn, result in difficulties in raising additional investments. For example, one of our funds, ESOF II had exposure towards two of the fund's investments which had an adverse impact on our overall fund performance due to the COVID-19 pandemic and the return generated by ESOF II was lesser than hurdle rate of 8% post tax in USD terms.

5. We do not have any directly comparable Indian listed peers, which may affect investor perception and valuation of our business.

We do not have directly comparable Indian listed peers. The CARE Report mentions that while 360 One WAM

Limited, Aditya Birla Sun Life AMC Limited, Anand Rathi Wealth Limited, Gaja Alternative Asset Management Limited, HDFC Asset Management Company Limited, ICICI Prudential Asset Management Company Limited, Nippon Life India Asset Management Limited, Nuvama Wealth Management Limited and UTI Asset Management Company Limited are peer group companies, they are not completely comparable owing to differences in business operations (*Source: CARE Report*). The absence of directly comparable Indian listed peers may present challenges in terms of how investors perceive and value our Company. The lack of comparable companies in the domestic market can create uncertainty and variability in the assessment of our financial performance, growth prospects, and overall business value.

Investors typically rely on peer comparisons to evaluate companies within the same industry or sector. These comparisons help in assessing relative performance metrics such as revenue growth, profitability, and market share. In the absence of directly comparable Indian listed peers, investors may find it difficult to benchmark our performance accurately, which could result in a perception of higher investment risk. This absence of directly comparable peers may also complicate the valuation process. Analysts and investors often use valuation multiples derived from peer companies to estimate a company's worth. Without comparable Indian peers, the valuation multiples applied to our business may be drawn from international or non-comparable entities, which may not accurately reflect the unique aspects of our operations and market environment. This could result in either an undervaluation or overvaluation of our business, affecting investor sentiment and our market capitalization.

Furthermore, the uniqueness of our business model may lead to misunderstandings or misperceptions about our strategic initiatives, risk profile, and growth trajectory. Investors unfamiliar with our specific market dynamics or operational strategies may be hesitant to invest, potentially leading to lower demand for our securities and increased volatility. Additionally, the lack of comparable peers may impact our ability to raise capital efficiently. Potential investors, including institutional investors, may require a higher risk premium to compensate for the perceived uncertainty, which could increase our cost of capital and affect fundraising efforts.

6. Our clients may not honor their capital calls, which could adversely affect our ability to invest, and in turn affect our fund's operations and performance. Further, we are exposed to concentration risks related to our clients, which could impact the performance and stability of our funds.

Our funds are dependent on our clients honoring their capital calls for disbursements to enable our funds to make investments and cover fund expenses. However, these capital calls may not be honored due to several factors, which in turn can adversely affect the operations and performance of our funds. For instance, our clients may face their own financial difficulties or liquidity constraints, or be subject to conflicting or competing investment commitments, making it challenging for them to fulfill capital commitments when called. We have experienced a few instances where the clients have not honored their capital calls and have taken active steps to deal with such situations based on the guidance provided in the regulations, fund documents and internal policies. While we have taken steps to deal with such situations, we cannot assure you that, it will not occur in the future and if it does, it may adversely affect our fund's operations and performance. Moreover, macroeconomic conditions, market disruptions, or changes in the regulatory environment could further impact the willingness or ability of our clients to meet their capital obligations in a timely manner.

Furthermore, in the three months period ended June 30, 2026 and last three financial years, there have been no instances where defaults or delays by clients have prevented our funds from making investments or covering fund expenses. Consequently, there has been no material impact on the fund's operations and performance during such periods. There have also been no instances where a failure to secure capital commitments timely has forced us to divest assets under suboptimal conditions, thereby adversely impacting investment returns and fund performance.

However, failure to timely secure capital commitment in future, if arisen, may compel us to divest assets under suboptimal conditions, adversely impacting investment returns and fund performance. Such scenarios could also strain our relationships with clients, potentially hindering our ability to raise future funds and impacting our revenue, profitability, and overall financial stability.

As of June 30, 2026, our top 10 clients contributed to 26.20% of our FPAUM. They consist of Indian family offices, global insurance companies, pension funds, with base in India, Germany, Canada, the United States of America, Sweden amongst others. None of them are related parties of our Company, in terms of Section 2(76) of the Companies Act. This concentration can lead to potential liquidity issues and increased risk if there are significant changes in the investment behaviour of these clients. The dependency on a few large clients may pose a threat to the financial stability of the fund if these clients decide to withdraw their investments, reduce their commitments, or face financial difficulties themselves.

7. Our Group Companies and Promoters are subject to purview of various authorities such as SEBI, RBI and tax authorities which may result in financial penalties, additional compliances and regulatory restrictions.

Operations of some of our Group Companies and Promoters are subject to the regulatory purview of regulators, such as the SEBI and RBI. For instance, in May 2024, RBI issued a cease-and-desist order on one of our Group Companies, ECL Finance Limited from undertaking any structured transactions in respect of its wholesale exposures, other than repayment and/or closure of accounts in its normal course of business. There was a separate order on Edelweiss Asset Reconstruction Company Limited ("**EARC**") by RBI, to cease and desist from acquisition of financial assets including security receipts (SRs) and reorganizing the existing SRs into senior and subordinate tranches. The response and risk mitigation plan submitted by EARC has been accepted by RBI, and *vide* its order dated December 17, 2024, RBI has lifted the restrictions imposed under such cease-and-desist orders, and the matters pertaining to both EARC and ECL Finance Limited are concluded. Furthermore, one of our Promoters, EFSL had received a notice dated February 9, 2024 bearing reference number SEBI/HO/DDHS-SEC/P/OW/2024/5802/1 from SEBI ("**SEBI Letter**"), under Section 15 HB for summary settlement in relation to alleged payments of additional interest for publicly issued NCDs and in its capacity as an issuer and the merchant banker. The SEBI issued a notice dated June 14, 2024 to EFSL ("**EFSL Notice**") for summary settlement of the probable proceedings under the SEBI Settlement Regulations as provided in the SEBI Letter. Subsequently, EFSL has filed the settlement applications, and an aggregate amount of ₹ 19.50 lakhs was remitted. However, SEBI had by way of its email dated October 9, 2025, informed EFSL that the applications cannot be processed as summary settlement applications and consequently the EFSL Notice stands withdrawn and the amount was refunded. SEBI further stated in the above e-mail that EFSL may apply for settlement under Regulation 3 of the SEBI Settlement Regulations. Subsequently, EFSL vide e-mail dated October 24, 2025, requested SEBI to treat the applications as settlement applications under Regulation 3 of the SEBI Settlement Regulations. Further, our Promoter, EFSL, is registered as merchant banker and also acts as an investment manager to certain AIFs registered with the SEBI. EFSL is required to undertake compliance with the applicable regulatory framework. Accordingly, in the ordinary course of business, EFSL receives notices and warning letters from SEBI from time to time, which are addressed by EFSL on an ongoing basis. For further details, see "***Outstanding Litigation and Other Material Developments***" on page 421. Additionally, one of our Promoters, ESIPL, has filed a settlement application with SEBI in relation to its ongoing matter which is currently pending, and we cannot assure you of the timeline or terms of such settlement at this stage. For further details, see "***Outstanding Litigation and Other Material Developments – I. Litigation involving our Company - (c) Actions by statutory and regulatory authorities involving our Company***" on page 422.

In March 2023, Income Tax authorities conducted investigations at the offices of EFSL, EFCL and certain of their subsidiaries (other than the Issuer) and assessment orders/demand notices have been received in relation to completion of the investigation. EFSL, EFCL and impacted subsidiaries have filed an appeal against relevant assessment orders.

While the orders passed by the RBI, SEBI and the tax authorities do not have a material impact on our Company, we cannot assure you that an adverse finding pursuant to these orders, or other similar orders issued by the relevant authorities or any other regulator in the future, will not have an impact on us.

8. We have experienced negative cash flows in the past and prolonged negative cash flow could adversely affect our financial condition and business operations.

We have experienced periods of negative cash flows in the past mainly due to utilization of free cash on account of investments done as general partner in our fund and payouts to distributors for raising new funds (larger AUM funds) as we continue to develop and expand our alternatives investment business. Specifically, prolonged periods of negative cash flows could affect or cause delays in implementing strategic initiatives or expansion plans. Our inability to commit capital to new and existing funds may reduce our ability to take advantage of attractive investment opportunities, adversely affecting the performance of our investment portfolio and potentially compromising our competitive position and market share. In such circumstances we may be required to secure additional funding or loans, leading to higher interest expenses and increased leverage ratios.

**The financial details are in agreement with the Restated Consolidated Financial Information for the three months period ended June 30, 2026, June 30, 2025, Financial Years 2026, 2025 and 2024.*

***Restated profit before and after tax as per Restated Consolidated Financial Information*

For further details of the reconciliation between profit before tax and cash flows from operating activities, see "***Restated Consolidated Financial Information – Annexure III – Restated Consolidated Statement of Cash Flows***" beginning on page 315.

The divergence between Profit after tax and negative operating cash flows can largely be attributable to the timing difference between the accrual and cash receipt of Variable Additional Return. Under our accounting policy, Variable Additional Return is recognised after a minimum of three years from a fund's initial close and contingent on achieving at least 1.25 times the hurdle rate; it is then calculated and recognised over the remaining life of the respective fund up to the expected date of first realisation which implies Variable Additional Return is accrued as income (and reflected in Profit after Tax) prior to the corresponding cash inflow, which is received only upon actual realisation of the underlying fund investments.

The negative operating cash flows in Financial Years 2025 and 2024 are therefore not reflective of any deterioration in the underlying profitability of our Company's business, but are instead, among other factors, a structural consequence of the waterfall distribution mechanism governing our Company's funds, under which accrued VAR converts to cash inflows only as underlying fund investments mature and realisations occur. There can be no assurance that such instances would not occur in the future. Furthermore, although there have been no such instances in the past, there can be no assurance that our Company will realise the cash flows accrued in the books, and any such non-realisation may lead to a reversal of accrued profits and, consequently, have an adverse

impact on our profitability.

9. The timing and receipt of Variable Additional Return are unpredictable and contribute to volatility in our cash flows.

The timing and receipt of Variable Additional Return (net of Variable Additional Return related cost) from the funds we manage and advise are inherently unpredictable and contribute to the volatility of our cash flows. Further, this risk should be viewed as Net Variable Additional Return i.e., Variable Additional Return less Variable Additional Return related cost.

Given below is our Net Variable Additional Return for the periods indicated:

(in ₹ million)

Particulars	Three months period ended June 30,		For the Financial Year ended			Total accrued[(2)]
	2026	2025	2026	2025	2024	
Variable Additional Return [(1)] (A)	1,089.53	582.98	2,904.72	1,907.29	945.66	**6,847.20**
Variable Additional Return related cost (B)	825.03	131.52	1,610.87	1,311.31	841.62	**4,588.83**
Net Variable Additional Return (C=A-B)	264.50	451.46	1,293.85	595.98	104.04	**2,258.37**

Note:

(1) Variable Additional Return is the additional variable return to the Company and its Subsidiaries once the fund has achieved the hurdle rate of return for its investors based on NAV and/or Realisation, shown as other operating revenues in Restated Consolidated Financial Information. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Company and its Subsidiaries' policies.

(2) Total accrued is for the period from April,1 2023 till June 30, 2026

Of the cumulative Variable Additional Return of ₹6,847.20 million recognized from Financial Year 2024 to the three months period ended June 30, 2026, ₹3,976.54 million has been realized.

Whilst we may accrue or recognise Variable Additional Return in our financial statements based on applicable accounting standards, calculated on the basis the fund performance and expected realisation timing, the actual cash receipts which depend on the occurrence and timing of realisation events, distributions under the applicable waterfall mechanism in the fund documentation and the satisfaction of applicable hurdle rates and other criteria, as mentioned in the funds' governing documents. The timing of such cash receipts is influenced by factors largely beyond our control, including market conditions, exit opportunities for underlying investments, repayment by borrowing entities and fund-level distribution policies. As a result, there may be significant periods during which we have recognised Variable Additional Return in our financial statements but have not received corresponding cash proceeds, or receive them substantially later than the period of recognition.

10. We are subject to certain risks associated with the actions of our distributors or placement agents. Any mismanagement in handling our relationships with our distributors or placement agents could have a material adverse effect on our business, financial condition and results of operations.

Mismanagement in handling our relationships with distributors or placement agents could have a negative impact on our business, financial condition, and results of operations. While we primarily rely on our own coverage team for our offshore clients and onshore institutional clients, our distributors play a role in the promotion and distribution of our products domestically to high-net worth individuals and family offices. Effective management and maintenance of these relationships are essential to our operational success and future growth. If we fail to manage these relationships effectively, it could result in a breakdown of communication, a loss of trust, and the withdrawal of support from key distributors. We do not have any exclusivity clauses in our contracts with Distributors and they might choose to partner with our competitors, reducing our market reach and depleting crucial channels through which we acquire new investments and clients. Such disruptions can lead to a decline in inflows of new capital, adversely affecting our revenue streams from Management and Advisory Fees, GP Income and Variable Additional Returns.

We have a diversified channel for distribution of our products which includes as of a total of 53 wealth management entities (as "**Distributors**"), chaperoning partners ("**CPs**") and offshore relationship managers ("**Offshore RMs**") as of June 30, 2026. The table below shows the growth of the number of distributors, CP and Offshore RMs and payment made to them for the period / Financial Years indicated:

Particulars	For the three months ended June 30,		For the Financial Year ended		
	2026	2025	2026	2025	2024
Number of Distributors, CPs and Offshore RMs	53	48	51	42	13

Particulars	For the three months ended June 30,		For the Financial Year ended		
	2026	2025	2026	2025	2024
Payment to Distributors, CPs and Offshore RMs (*in ₹ million*)	793.20	431.57	2,428.38	1,468.69	1,522.06

More than 33.75% of the funds raised from domestic investors in three months period ended June 30, 2026 were raised through distributors. The decline in the proportion of funds raised through distributors from the June 30, 2025 compared to June 30, 2026 is a function of the overall fund raising mix, with a significant part of the total fund raise attributable to certain fund vehicles (InvITs) placed through public offer and direct/strategic investor routes, which fall outside the distributor channel. The table below illustrates funds raised through these distributors over the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024.

Particulars	For the three months ended June 30,		For the Financial Year ended		
	2026	2025	2026	2025	2024
Funds raised through Distributors (*in ₹ million*)	68,777.50	29,370.00	87,692.00	43,240.93	69,924.80
Funds raised through Distributors (*as a percentage of total funds raised*)	33.75%	97.90%	80.79%	65.47%	72.19%
Funds raised through CPs and Offshore RM (*in ₹ million*)	-	-	-	3,186.17	12,183.33
Funds raised through CPs and Offshore RM (*as a percentage of total funds raised*)	-	-	-	4.82%	12.58%

Moreover, if distributors misrepresent our products or fail to comply with regulatory requirements applicable to them in their relevant jurisdiction of operation, it could lead to serious reputational damage and legal repercussions for our Company. Additionally, wrongful selling practices could attract regulatory scrutiny and potential sanctions or fines, complicating our compliance landscape and diverting resources to address legal matters. Moreover, distributors may also negotiate higher fees or commissions in the future, which could increase our operational costs and reduce our profitability. If we are unable to negotiate mutually beneficial terms with our distributors, it may impact our margins and reduce the overall financial benefits derived from our investment products. Strained distributor relationships could impair our market reputation and brand, making it more challenging to cultivate new relationships or restore damaged ones. This reputational damage could have long-term consequences, including decreased client confidence and increased difficulty in launching new products or entering new markets.

We focus on engaging reputed distributors who have proper systems and processes in place as they also run a reputation risk. These reputed distributors are more focused on offering suitable products as per client allocation needs. As of the date of this Prospectus, there have been no such instances wherein any legal action has been initiated by or against us by any distributor.

11. We are subject to specific risks associated with our Private Credit vertical and if any of these risks were to materialize, it could adversely affect our revenue, results of operations and business prospects.

Our FPAUM for our Private Credit vertical is set out in the table below as of the dates indicated:

	As of June 30,				As of March 31,					
	2026		2025		2026		2025		2024	
	(in ₹ million) [1]	% of Total FPAUM	(in ₹ million) [1]	% of Total FPAUM	(in ₹ million) [1]	% of Total FPAUM	(in ₹ million) [1]	% of Total FPAUM	(in ₹ million) [1]	% of Total FPAUM
Private Credit [2]	192,724.16	39.64	181,905.98	47.67	182,173.15	40.75	142,393.21	42.09	159,831.87	52.58

Notes:

(1) FPAUM refers to the Assets Under Management on which we are entitled to earn Management and Advisory fees. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) Private Credit FPAUM refers to FPAUM under our Private Credit business vertical. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

Some of our Private Credit verticals originate due to regulatory constraints on banks and non-banking financial companies ("**NBFCs**") that prevent them from offering the alternative investment products that we are able to offer. Any regulatory changes enabling banks and NBFCs to offer competing products and services could reduce our opportunities, thereby impacting our ability to capitalize on these market gaps.

Additionally, our Private Credit vertical and sub-verticals involve complex financing structures and intricate negotiations, increasing the likelihood of unsuccessful outcomes. The verticals are generally long-term investments, and they are dependent on long-term economic stability and vulnerable to economic downturns. They may also be sensitive to fluctuations in interest rates, which can affect their market value and return profile.

Furthermore, our Private Credit vertical also bears the risk that borrowers may default on their obligations, leading to potential losses and over-concentration in any sector can pose significant financial risk if those sectors experience unexpected difficulties.

Specifically, with respect to our Performing Credit and IG Credit sub-verticals, a portion of the investments are made at the holding company level (which in turn are invested in investee companies that hold assets), with exit opportunities often dependent on specific events such as refinancing, initial public offerings, or buyouts. These sub-verticals are also dependent on various external factors, including macro-economic factors affecting the regulatory environment, which could also impact the investee companies and consequently the performance of our funds. Additionally, our Special Situations sub-vertical involves higher risks due to the inherent volatility associated with investments in stressed or turnaround scenarios, which can lead to significant losses. The anticipated recovery from stressed assets may not occur as expected, resulting in lower-than-forecasted returns. If we are unable to achieve the returns from the disposal of stressed assets as expected, in part or at all for our funds, our Management and Advisory Fees, GP Income and Variable Additional Return, as well as our reputation as a fund manager, would be significantly and adversely affected. With respect to our Real Estate Credit sub-vertical, we face potential adverse developments in the real estate market that can diminish the value of collateral underpinning our investments. Projects under development may experience delays, cost overruns, or other issues that could compromise their viability, profitability and returns generated from the investment, and result in loss of capital in certain cases. For example, our real estate credit funds were launched between 2016 and 2018. These funds witnessed the impact of demonetization, the goods and services tax regime and the new Real Estates Regulation and Development Act guidelines impact, the NBFC crisis and the COVID-19 pandemic, over a period of 4-5 years post investments, and therefore many of the projects in these funds witnessed cost and time overruns.

If any of these risks were to materialize, it may adversely affect our revenue, results of operations and business prospects.

12. We are subject to specific risks with respect to our Real Assets vertical and if any of these risks were to materialize, it could adversely affect our revenue, results of operations and business prospects.

Our FPAUM for our Real Assets vertical is set out in the table below as of the dates indicated:

	As of June 30,				As of March 31,					
	2026		2025		2026		2025		2024	
	(in ₹ million) [(1)]	% of Total FPAUM	(in ₹ million) [(1)]	% of Total FPAUM	(in ₹ million) [(1)]	% of Total FPAUM	(in ₹ million) [(1)]	% of Total FPAUM	(in ₹ million) [(1)]	% of Total FPAUM
Real Assets [(2)]	280,399.05	57.67	192,292.96	50.39	254,029.76	56.82	188,607.83	55.75	143,797.42	47.30

Notes:

(1) FPAUM refers to the Assets Under Management on which we are entitled to earn Management and Advisory fees. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) Real Assets FPAUM refers to FPAUM under our Real Assets business vertical. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

Due to the long-term nature of our Real Assets vertical and sub-verticals, we are exposed to specific risks that could materially and adversely impact our financial results and operational performance. For example, our Real Assets portfolio may underperform due to lower-than-expected user demand or operational inefficiencies, leading to reduced profitability. The availability of assets is also dependent on government policies and macro-economic conditions. As such, we may also face risks due to undiversified investments in this segment. Economic cycles and interest rate fluctuations can markedly impact the value and demand for real estate and infrastructure projects, while the limited marketability of these assets poses liquidity challenges, making quick sales difficult and potentially leading to value loss.

Geographic and sector-specific risks also come into play, as investments are vulnerable to local economic conditions, regulatory changes, technological disruptions, and environmental regulations.

While our current Real Assets portfolio maintains a diversified footprint across various Indian states, the geographical distribution of our investments is subject to change. Future deployments under our existing funds, or the launch of new funds with different investment strategies or specific, may result in a higher concentration of capital within specific states or regions. Additionally, such concentration may arise from tactical shifts in investment strategy or the availability of high-conviction opportunities in particular growth corridors.

High geographical concentration exposes our investee companies and the funds managed and advised by us to regional economic slowdowns, changes in state-specific regulations, social unrest, political instability, demographic shifts, and natural disasters. Any adverse development in a region where we have significant exposure could adversely impact the operations and valuations of our investee companies, which may in turn

impact our cash flows and financial condition.

Additionally, operational inefficiencies and rising maintenance costs can reduce returns, and evolving laws and tax policies introduce further unpredictability. Although we have disaster management plans in place, the reliance on few large assets heightens the potential impact of any underperformance, with environmental factors such as natural disasters and climate change posing additional threats to asset value. Thereafter, the ability to exit these investments also remains subject to macro-economic conditions and the demand from strategic clients.

Additionally, we are also subject to specific risks relating to our Real Assets sub-verticals. Specifically, investing in infrastructure yield assets, including transportation and utilities, carry certain ownership risks. For example, the risk of higher than budgeted maintenance expenses can impact cash flows and profitability. Regulatory changes that affect tariffs, pricing, and operating licenses can significantly impact the financial performance of infrastructure assets. Any delay in payment could also have an impact on our business operations.

Commercial real estate yield investments are also subject to various risks that could adversely affect profitability. Fluctuations in demand for tenancy, and rental rates, change in interest rates, driven by economic downturns or changes in market preferences, can negatively impact occupancy rates and profitability. Additionally, changes in local market conditions and asset-specific factors can result in significant valuation adjustments, affecting balance sheet strength and debt covenants.

Furthermore, investments in energy transition assets inherently have greenfield risks. For example, investments in certain new technologies may not perform as expected or may quickly become obsolete, requiring further investment to stay current. Construction risks, such as delays in the execution or project management, affect the returns from the funds. Regulatory incentives and subsidies are also affecting the viability of energy transition projects, and changes or discontinuations of these incentives can negatively impact project viability. The success of energy transition projects also depends on market adoption of sustainable energy solutions and competing technologies.

Additionally, with respect to our perpetual capital sub-vertical, we may acquire infrastructure projects including power transmission and renewable energy projects, which are still under construction and development in the future in certain cases. The development of such projects is subject to substantial risks, including various planning, engineering and construction risks, along with regulatory hurdles on land acquisition and necessary environmental clearances.

13. Our commercial real estate yield funds are subject to the risks inherent in the ownership, development, and operation of real estate, which could have a material adverse effect on our business, financial condition and results of operations.

Our FPAUM for our commercial real estate yield funds is set out in the table below as of the dates indicated:

	As of June 30,				As of March 31,

Notes:

(1) FPAUM refers to the Assets Under Management on which we are entitled to earn Management and Advisory fees. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) Commercial Real Estate Yield Funds comprises of FPAUM under our Commercial Real Estate Yield funds of our Real Assets business vertical. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

Investments in our commercial real estate yield funds are subject to the risks inherent in the ownership and operation of real estate and real estate-related businesses and assets, including the deterioration of commercial real estate fundamentals. These risks include, but are not limited to, those associated with the burdens of ownership of real property, general and local economic conditions, changes in supply of and demand for competing properties in an area (as a result, for instance, of overbuilding), operating income, tenancy risks, the financial resources of tenants, changes in building, environmental, zoning and other laws, casualty or condemnation losses, energy and supply shortages, various uninsured or uninsurable risks, natural disasters, climate change related risks (including climate-related risks and acute and chronic physical risks), changes in government regulations (such as rent control), changes in real property tax rates, changes in income tax rates, changes in interest rates, the reduced availability of banking lines which may render the sale or refinancing of properties difficult or impracticable, increased mortgage defaults, increases in borrowing rates, changes to the taxation of business entities and the deductibility of corporate interest expense, negative developments in the economy, environmental liabilities,

contingent liabilities on disposition of assets, acts of god, terrorist attacks, war and other factors that are beyond our control. While there have been no such material instances in the past, there is no assurance that it would not happen in the future.

Our commercial real estate yield funds will also be subject to the risks normally associated with such assets and development activities, including risks relating to the availability and timely receipt of regulatory or environmental approvals, expropriation, issues with title deeds, the cost and timely completion of construction (including risks beyond the control of our fund, such as weather, labor conditions, or material shortages), and the availability of both construction and permanent financing with favorable terms.

14. The investments by certain of our funds in infrastructure assets may expose us to increased risks and liabilities, which could have a material adverse effect on our business, financial condition and results of operations.

Our FPAUM from infrastructure yield funds is set out in the table below as of the dates indicated:

	As of June 30,				As of March 31,					
	2026		2025		2026		2025		2024

Notes:

(1) FPAUM refers to the Assets Under Management on which we are entitled to earn Management and Advisory fees. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) Infrastructure Yield Funds comprises of FPAUM under our Infrastructure Yield funds of our Real Assets business vertical. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

Investments in infrastructure assets may expose us to increased risks and liabilities that are inherent in the ownership of infrastructure assets. For example, ownership of infrastructure assets may present additional risk of liability for personal and property injury or impose significant operating challenges and costs with respect to compliance with zoning, environmental or other applicable laws.

As of the date of this Prospectus, all our infrastructure assets are operational assets. However, if we were to make investments that requires construction and development, we may face construction risks including, without limitation: (a) less than optimal coordination with public utilities in the relocation of their facilities; (b) adverse weather conditions and unexpected construction conditions; (c) accidents or the breakdown or failure of construction equipment or processes; and (d) catastrophic events such as explosions, fires, terrorist activities and other similar events. These risks could, among other effects, adversely impact the cash flows available from investments in infrastructure assets or result in substantial unanticipated delays or expenses (which may exceed expected or forecasted budgets) and, under certain circumstances, could prevent completion of construction activities once undertaken.

Additionally, inadequate physical capacity management with respect to the assets managed by our funds may adversely affect our business, financial condition, and results of operations. Failure to adequately plan for and manage the physical capacity of these assets can lead to suboptimal utilization, bottlenecks, and inefficiencies. This can result in increased operational costs, reduced service quality, and ultimately, lower returns on our investments. Moreover, the cost of repairing or replacing damaged assets could be considerable. Repeated or prolonged service interruptions may result in permanent loss of clients, litigation, or penalties for regulatory or contractual noncompliance. Furthermore, the health and safety of employees and contractors are critical risk areas in the operation and maintenance of infrastructure assets. If safety procedures are not followed or if certain materials used in construction are improperly handled, it could lead to injuries to employees, contract laborers, or other individuals, as well as damage to the investee companies' properties and the properties of others, or harm to the environment. Due to the nature of these materials, the fund may be liable for certain costs, such as health-related claims or the removal or treatment of hazardous materials.

Moreover, infrastructure investments also often involve an ongoing commitment to government or regulatory agencies. The nature of these obligations exposes us to a higher level of regulatory control than typically imposed on other businesses and may require us to rely on complex government licenses, concessions, leases or contracts, which may be difficult to obtain or maintain. Infrastructure investments may require operators to manage such investments and such operators' failure to comply with laws, including prohibitions against bribing of government officials, may adversely affect the value of such investments and cause us serious reputational and legal harm. Revenues for such investments may rely on contractual agreements for the provision of services with a limited number of counterparties and are consequently subject to counterparty default risk. Additionally, the operations

and cash flow of infrastructure investments are more sensitive to regulatory change risk, changes in law, tax laws (such as GST issues in road projects), stricter environmental regulations, interest rate cyclicality, and climate and environmental changes. For example, revenues for toll roads can be subject to market conditions, including the availability of parallel modes of transport. Furthermore, services provided by infrastructure investments may be subject to rate regulations by government entities that determine or limit prices that may be charged. Similarly, users of applicable services or government entities in response to such users may react negatively to any adjustments in rates and thus reduce the profitability of such infrastructure investments.

15. Significant dividends have been paid out in Financial Year 2026 and our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.

Our Company had declared and paid an interim dividend at ₹17 per equity share and ₹15 per equity share (on face value of ₹5 per equity share) based on the approval by the Board of Directors at its meeting held on July 31, 2025, and November 3, 2025 respectively.

Furthermore, our Company has also declared and paid an interim dividend of ₹9.50 per equity share (on face value of ₹5 per equity share) based on the approval by the Board of Directors at its meeting held on July 30, 2026.

The table below indicates the dividends declared per equity share for the period / financial years mentioned:

** Pursuant to a resolution passed by our Board by circulation on August 9, 2024, and by our Shareholders in their meeting held on August 16, 2024, the issued, subscribed and paid-up capital of our Company was sub-divided from 32,140,123 equity shares of face value of ₹10 each to 64,280,246 Equity Shares of face value of ₹ 5 each.*

Interim Dividend of ₹9.50 per Equity Share were declared on July 30, 2026 on 64,280,246 shares while 375,000 Equity Shares are allotted on September 1, 2026.

Significant dividends have been paid in Financial Year 2026 and there can be no assurance that similar dividends will be paid in the future.

For Financial Year 2025, our net cash used in operating activities was ₹1,201.69 million while net cash generated from operating activities in Financial Year 2026 was ₹2,352.44 million. Furthermore, Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, our ability to pay dividends may also be restricted by the terms of financing arrangements that we may enter into. Dividends distributed by us may also attract taxes at rates applicable from time to time. We cannot assure you that we will be able to pay dividends in the future. For further details, see "***Dividend Policy***" on page 303.

16. Our Promoters will continue to retain a significant shareholding in our Company after the Offer, which will allow them to exercise influence over us. Any substantial change in our Promoters' shareholding, or change in their shareholding in our Company, may have an impact on the trading price of our Equity Shares.

Upon completion of the Offer, one of our Promoters will continue to retain a significant shareholding in our

Company and the cumulative post-Offer shareholding of our Promoters will be 78.43%. As a result, they will continue to exercise significant influence over our Company over all matters requiring shareholder approval, including for the appointment of directors, amendments to our constitutional documents and significant corporate transactions. Several transactions will still require the support of our Promoters. Furthermore, the Promoters' shareholding may limit the ability of a third party to acquire control. The interests of our Promoters could conflict with our Company's interests, your interests or the interests of our other shareholders. While the actions carried out by our Company after listing will be subject to the approval of our Board of Directors and Shareholders, as required under the Companies Act and the SEBI Listing Regulations, there is no assurance that our Promoters will act to resolve any conflicts of interest in our Company's or your favor and any such event may have an impact on the trading price of our Equity Shares. For further information in relation to the interests of our Promoters in the Company, see "***Our Promoters and Promoter Group***" beginning on page 295.

17. Significant interest rate fluctuations could have a material impact on our financial condition and results of operations.

Our financial condition and results of operations are subject to interest rate risks, and the profitability of our businesses is sensitive to interest rate fluctuations.

Our average cost of borrowings is set out in the table below as of the dates indicated:

***** *The financial details are in agreement with the Restated Consolidated Financial Information for the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024.*

****** *Total interest cost is finance cost excluding interest on working capital demand loan, interest on compulsory convertible debentures, interest on lease liability and financial and bank charges*

******* *Total Borrowings is sum of Borrowings (other than Debt Securities), Debt Securities under non-current liabilities and current liabilities as per Restated Consolidated Financial Information.*

Total interest cost for June 2026 and June 2025 are annualized for calculation purpose.

Further, in case of our Private Credit vertical, falling interest rates can negatively impact the returns from our products, making them less attractive to clients. Conversely, an upward shift in interest rates could lead to increased interest expenses on our portfolios' current and future borrowings, thereby adversely affecting the profitability of the fund and our Variable Additional Return. For Real Assets, fluctuations in interest rates can affect asset valuations and the cost of financing or refinancing real estate investments. Higher interest rates generally increase the cost of borrowing, which can suppress property values and limit investment opportunities. On the other hand, lower interest rates reduce borrowing costs, but can lead to overheated property markets and heightened competition for high-quality assets. When it comes to our other verticals, interest rates significantly influence the cost of debt and financing structures. Rising interest rates can increase the expense of servicing debt, thereby reducing the cash flows available for investment for our investee companies and potentially impacting exit strategies and valuations. Lower interest rates can facilitate cheaper borrowing but also saturate the market with liquidity, intensifying competition for attractive investment opportunities.

Additionally, in a falling interest rate scenario, investment opportunities within the fund's target risk and return range could diminish, resulting in a slowdown in deployment and consequently a reduction in our FPAUM and Total Income. Alternatively, the fund may be compelled to consider riskier investments to achieve its target internal rate of return ("**IRR**"). Conversely, in the case of rising interest rates, refinancing the fund's debt to enable fund exits could become more challenging. Another impact from an interest rate standpoint is the effect on borrowing done by funds, such as our structured lending fund. While there have been no material instances, fluctuations in interest rates can increase the cost of borrowing for these funds, thereby reducing returns for clients and affecting our Variable Additional Return.

Interest rates are highly sensitive to a number of factors, including monetary and tax policies, domestic and international economic and political considerations, trade surpluses and deficits, regulatory requirements, and other factors beyond our control. We cannot assure you that we will be able to successfully mitigate interest rate risks. Losses sustained from interest rate fluctuations may result in decreases in our revenue and profit, which could have an adverse effect on our business, results of operations, financial condition, and cash flows.

18. On realizing Variable Additional Return, employees are paid additional bonus. Any future change in favor of employees could reduce our income, or any future change not in favor of employees could affect our employee retention.

Our provision of bonus and Variable Additional Return related bonus, as a percentage of employee benefits expense and Variable Additional Return is set out in the table below for the periods indicated:

(in ₹ million, unless otherwise stated)

Particulars	For the three months period ended June 30,*		For the Financial Year ended*		
	2026	2025	2026	2025	2024
Provision of bonus and Variable Additional Return related bonus (included in salaries, wages and bonus expenses)	825.03	131.52	1,610.87	1,311.31	841.62
Total Employee benefits expense	1,371.20	699.69	3,816.46	3,021.13	2,167.20
Net gain/(loss) on fair value changes (Variable Additional Return)	1,089.53	582.98	2,904.72	1,907.29	945.66
Provision of bonus and Variable Additional Return related bonus percentage of Employee benefits expense	60.17%	18.80%	42.21%	43.40%	38.83%
Provision of bonus and Variable Additional Return related bonus percentage of Variable Additional Return	75.72%	22.56%	55.46%	68.75%	89.00%

** The financial details are in agreement with the Restated Consolidated Financial Information for the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024.*

A significant portion of the additional bonus is paid on generating Variable Additional Return by our funds. Maintaining a balance between rewarding our employees and sustaining profitability is crucial, and any imbalance could pose a notable risk to our business, financial condition and results of operations. If we amend our compensation policies to provide a larger share of the Variable Additional Return to our employees, our overall profitability may be adversely affected due to the increased compensation expenses. Conversely, if changes to our compensation policies are perceived as unfavorable by our employees, such as a reduction in their share of the additional bonus, we may face significant challenges in retaining our talent. Any increase in employee turnover could negatively impact our performance, operational efficiency, and our ability to raise and manage new funds.

19. We are subject to extensive laws, rules, and regulatory requirements which may impact our business, including resulting in financial penalties, loss of business, adverse, financial impact and/or damage to our reputation in instances of non-compliance.

As an alternative assets management platform, we are regulated by SEBI, IFSCA (Gift City Branch), MAS and any other regulator under any jurisdiction which we operate or have business in and are subject to various regulations, guidelines, circulars and notifications issued from time to time as applicable to AIFs and PMS. For instance, the IFSCA had done onsite visits and inspection at our Gift City Branch and had asked to take certain corrective measures. The same was responded in subsequent correspondence adequately. SEBI has issued separate regulations governing PMS and AIFs (which includes venture capital funds), including the constitution and management of alternative investments funds. The PMS Regulations, the SEBI AIF Regulations, the SEBI Act, *inter alia*, also provide that subject to meeting the thresholds as specified therein, any change of control (as defined in the PMS Regulations, the SEBI AIF Regulations and the SEBI Act, as applicable) with respect to our Company would require prior approval of SEBI, and may mandate the maintenance of a minimum net worth of our Company. Furthermore, we are subject to regular scrutiny and supervision by SEBI, such as periodic inspections from time to time to ensure that we are compliant with the applicable regulations. If we fail to comply with any regulations or guidelines, we may be subject to fines, sanctions and court proceedings, and may also lead to revocation of our license to function as a portfolio manager and to manage AIFs, as applicable and deemed fit by the authorities. Further, due to changes in regulations, the compliance and other costs may rise, which may reduce our profit or put us at a competitive disadvantage.

For example, our Company has previously filed a compounding application dated December 22, 2023 with the RBI for compounding of contravention of the provisions of Schedule I of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations 2000, for the 9 days delay in filing form FC-GPR for allotment of certain Equity Shares to Gamla Livforsakringsaktiebolaget Seb Trygg Liv (PUBL). Such compounding application was accepted and by way of its order dated April 2, 2024, the RBI has passed the compounding order with a penalty of ₹14,167/-. We cannot assure you that there will not be any delays in the filings required to be made by us under the applicable regulatory frameworks in the future, or that we will be able to compound any such violations in a similar manner, or with a comparable penalty, which may have an impact on our financial condition and result of operations. For details in relation to such allotment of Equity Shares, see "***Capital Structure – Share Capital History of our Company***" on page 116. Further, for instance, one of our

Subsidiaries, ERAML has received an administrative warning dated March 28, 2025 from SEBI in its capacity as an investment manager to the Anzen India Energy Yield Plus Trust ("**Anzen**"), in furtherance to an inspection of Anzen, advising ERAML to take appropriate corrective measures and rectify the discrepancies observed, including (a) submission of reports on the activities and performance of Anzen to the board of ERAML; (b) review of compliance report every quarter by the board of ERAML; (c) non-preparation of the half-yearly financial statements; (d) disclosure of net-worth of the investment manager of Anzen and the related disclosures. Further, in the past, ERAML has also received a letter dated February 6, 2025 from SEBI in furtherance to a thematic inspection of Anzen, advising ERAML to make certain disclosures in its valuation report, for which ERAML along with the relevant industry body has made necessary recommendations to SEBI. While we have not received any further communication in this regard, we cannot assure you such inspections will not occur in the future or that no further liability will arise out of these inspections.

Every scheme that our funds propose to introduce is required to file a placement memorandum with SEBI and in certain cases SEBI may communicate its observations. In the past, in inspection reports, notices, and warning letters, issued by SEBI to the funds and our Company (in its capacity as the investment manager) and one of our Promoters, ESIPL (in its capacity as the sponsor), and our key managerial personnel (in their capacity as the directors, members of committees or governing bodies of the schemes) have, among other things, identified certain deficiencies with respect to certain of our funds and schemes, including, *inter alia*: (i) maintenance of compliance standards, (ii) delays in reporting quarterly newsletters, statements of account and quarterly reports to contributors; (iii) delays in submission of quarterly reports; (iv) mitigation and disclosure of conflicts of interest; and (v) procurement of the required corporate approvals in respect of lower IRR during divestments. For further details, see "***Outstanding Litigation and Other Material Developments – I. Litigation involving our Company - (c) Actions by statutory and regulatory authorities involving our Company***" on page 422. While our funds have responded to such observations, as required by SEBI, and addressed them, we cannot assure you that SEBI will not make similar or other observations in the future. In the event we are unable to resolve such deficiencies to SEBI's satisfaction, we may be restricted in our ability to conduct our business. Furthermore, SEBI may initiate proceedings against our Company, Subsidiaries, and its officials or any of the funds we are associated with for any alleged non-compliance with its regulations. While we seek to comply with all regulatory provisions applicable to us, in the event we are unable to comply with the observations made by SEBI, imposition of any penalty or adverse findings by SEBI during any future inspections may have an adverse effect on our business, results of operations, financial condition, cash flows and reputation. As of the date of this Prospectus, our Company has filed a settlement application with SEBI in relation to its ongoing matter which is currently pending, and we cannot assure you of the timeline or terms of such settlement at this stage. For further details, see "***Outstanding Litigation and Other Material Developments***" on page 421.

We are also subject to regulatory inspections in regular course from SEBI in relation to our role as an investment manager to our funds. As part of the SEBI inspection, we were required to submit an inspection questionnaire and have submitted such questionnaires in the past. For instance, our Company received an inspection notice dated September 16, 2026 from SEBI under Regulation 30 of the SEBI AIF Regulations in relation to the inspection of books of accounts, records and other documents pertaining to one of the funds of our Company, for the period between April 1, 2025 to March 31, 2026. Additionally, our Company, in the capacity of the sponsor and investment manager of Edelweiss Stressed and Troubled Assets Revival Fund Trust ("**ESTAR**", also a noticee), received a show cause notice dated July 12, 2024 under Rule 4(1) of the SEBI (Procedure for Holding Inquiry and Imposing Penalties) Rules, 1995 read with Section 15I and Section 15HB of the SEBI Act ("**SEBI SCN**") from SEBI in relation to the alleged violation of certain provisions of SEBI AIF Regulations, and the relevant SEBI circulars. Our Company, accordingly, submitted a reply dated August 28, 2024 to the SEBI SCN, denying the allegations made in the SEBI SCN. Thereafter, a settlement application was filed and matter was settled by SEBI vide settlement order dated September 30, 2025 for a settlement amount of ₹61,42,500/- along with non-monetary term that EAAA would not associate with the two erstwhile personnel and the matter is closed. Our Company has taken corrective actions and internal measures which inter alia includes review and update of our Policy on Management of Conflict of Interest, constitution of a 'Fund Board' for the relevant fund, with effect from October 2018 comprising of 3 members (with minimum of 2 independent members) and formation of a 'Governance Committee' with a mandate to review potential conflict situations as and when likely to arise. While there have been no further actions taken by SEBI against us in relation to the above matter, in the past, we cannot assure you that we would not be subject to any such proceedings in the future and that no future liability will arise out of any such proceedings in the future.

Beyond domestic tax and FEMA regulations, we are also subject to regulations such as the Registered Investment Adviser ("**RIA**") requirements in the US, the Sustainable Finance Disclosure Regulation ("**SFDR**") for ESG in the EU, the Monetary Authority of Singapore ("**MAS**") regulations in Singapore, International Financial Services Centre Authority ("**IFSCA**") in Gift City, India, the Mauritius Regulatory Authority and applicable tax laws in

the jurisdiction in which we operate. Marketing funds in various jurisdictions also necessitates registering the funds with the relevant regulatory authorities. Violation of these regulations could pose significant risks to our operations. Furthermore, the U.S. law generally prohibits U.S. persons from directly or indirectly investing or otherwise doing business in or with certain countries that are subject to comprehensive sanctions and with certain persons or businesses that have been specially designated by the Office of Foreign Assets Control ("**OFAC**") of the US Department of the Treasury or other U.S. government agencies. Other governments and international or regional organizations also administer similar economic sanctions. Our investee companies may enter into transactions with their customers who may be doing business with, or located in, countries to which certain OFAC-administered and other sanctions apply. The investee companies may not be able to monitor any potential violation. If it were determined that transactions in which the investee companies participate violate U.S. or other sanctions, they could be subject to U.S. or other penalties, and future business prospects in the United States or with U.S. persons, or in other jurisdictions, could be adversely affected, which in turn may affect the investments in such portfolio company. Further, investors in the Equity Shares could incur reputational or other risks as the result of our investee company's dealings in or with countries or with persons that are the subject of U.S. sanctions. Any of the foregoing could adversely affect our business, financial condition, results of operations and prospects. The laws applicable to our business continue to evolve and may be amended, revised, or replaced in future by regulatory authorities, or due to judicial decisions. Such changes may impose onerous conditions on our business activities, or require us to change the systems, policies or procedures established by us for the purposes of compliance with applicable law. While there have been no such instances in the past, any onerous conditions imposed by, or material changes required to our systems, policies or procedures may increase our compliance cost thereby adversely affecting our business and results of operations.

Furthermore, there are no significant delays in payment of statutory dues. However, any delay in payment in future may have adverse financial and reputational impact on the Company.

We also raise capital from multiple geographies and any change in the compliance requirements and broader regulatory environment might affect our ability to raise capital and our fund's operations and performance.

Given the uncertainties and complexity of many of these regulatory actions, their outcome generally cannot be predicted with any reasonable degree of certainty and, accordingly, our provisions for regulatory actions may be inadequate. In addition, while we seek to comply with all regulatory provisions applicable to us, we cannot guarantee that we will be able to comply with all observations made by our regulators, which may result in sanctions, penalties and/or other restrictions and therefore restrict our ability to conduct certain lines of business or otherwise affect our ability to carry on our business.

20. Stronger competition in the market and changes in our fee structure could affect our Management and Advisory Fees, which may result in a decline in our income and profit.

We face strong competition in the alternative asset management segment. Our competitors may offer products with better fee structure or risk adjusted returns, which could sway existing or future clients to our competitors. As a result, we may be required to also change our Management and Advisory Fees structure or lower our Management and Advisory Fees to maintain the attractiveness of our products and services. Furthermore, in some asset classes that we may launch or plan to launch, we may be competing with other global institutional funds that are targeting investments in India. These global institutional funds may have more deployable capital, cash and liquidity than us, which puts pressure on the attractiveness of our existing or future products and services. For further details in relation to the competition we face, see "***Our Business – Competition***" on page 258.

Furthermore, our Management and Advisory Fees may be influenced by inputs from key clients in the fund. The fee percentages agreed upon for past funds may not necessarily be indicative of those for future funds. Changes to our fee structure, whether due to regulatory mandates or strategic business decisions to maintain the attractiveness of our products and services, can have an adverse effect on our income streams. Reducing Management and Advisory Fees to remain competitive can attract more clients initially but may lower the overall Management and Advisory Fees income if not accompanied by increases in FPAUM. This would lead to a decline in our income and profit. While there has been no material effect on our income and profit in the past due to competition or changes to our fee structure, there can be no assurance that it will not happen in the future.

21. Our insurance coverage may not be adequate to protect us against all potential losses, which may have a material adverse effect on our business, financial condition and results of operations.

Our operations are subject to various risks inherent in the financial sector, as well as fire, theft, robbery, earthquake, flood, acts of terrorism and other force majeure events. We maintain insurance which we believe is typical in our industry in India and in amounts which we believe to be commercially appropriate for a variety of

risks. We maintain insurance for our operations, including for all of our tangible fixed assets, through third-party insurers, either directly by us or from EFSL. We also maintain a directors and officers liability insurance for our Directors and employees. The following table sets forth details of our insurance coverage with respect to the carrying amount (gross/net) of property, plant and equipment of the Company as at the dates indicated:

(in ₹ million, unless otherwise specified)

	For the three months period ended June 30,		As at the Financial Year ended		
	2026	**2025**	**2026**	**2025**	**2024**
Amount of tangible gross property, plant and equipment* (a)	53.43	50.85	53.29	49.40	32.83
Amount of insurance obtained (b)	51.65	29.04	51.65	29.04	29.82
Insurance Coverage (in times) (c=b/a)	0.97	0.57	0.97	0.59	0.91
Amount of tangible net property, plant and equipment* (d)	11.58	18.65	12.90	19.96	6.35
Insurance coverage as a percentage to tangible net assets (b/d)	446%	156%	400%	145%	469%

**Right to use assets are considered as intangible assets*

We may not have identified every risk and may not be insured against every risk, including operational risk that may occur and the occurrence of an event that causes losses in excess of the limits specified in our policies, or losses arising from events or risks not covered by insurance policies or due to the same being inadequate, could materially harm our results of operations, financial condition and cash flows. There can be no assurance that any claims filed will be honored fully or timely under our insurance policies. Also, our financial condition may be affected to the extent we suffer any loss or damage that is not covered by insurance, or which exceeds our insurance coverage. In addition, we may not be able to renew certain of our insurance policies upon their expiration, either on commercially acceptable terms or at all.

While we have not faced any instances of failure of our insurance policies to adequately protect us against losses or claims exceeding our insurance coverage or insurance policies not being honored in full or on time that led to an adverse effect on our business or operations in the three months ended June 30, 2026 and Financial Years 2026, 2025 and 2024, if our losses significantly exceed or differ from our insurance coverage or cannot be recovered through insurance in the future, our business, results of operations, cash flows and financial condition could be adversely affected.

22. Foreign exchange fluctuation may affect the value of our investments.

A depreciation of the Indian Rupee relative to foreign currencies may increase the cost of liabilities and obligations that we must settle in foreign currencies. This volatility in foreign exchange rates can impact the predictability of our revenue, profitability, and overall financial performance, thereby making it more challenging for us to manage our investments and financial planning effectively. Additionally, we have offshore clients with varying currency requirements, and any adverse currency movements could negatively affect their returns from their investments with us. This, in turn, could reduce the attractiveness of our products in global or overseas markets.

The table below sets forth the effect of foreign exchange fluctuations on Variable Additional Return as on June 30, 2026:

Variable Additional Return (in ₹ million)	₹ Increase in foreign currencies rates (in %)	Effect on profit before tax (in ₹ million)	₹ Decrease in foreign currencies rates (in %)	Effect on profit before tax (in ₹ million)
3,130.32	5%	126.45	5%	(126.45)

Importantly, the depreciation of Indian Rupee against other currencies could affect our funds' ability to meet their performance thresholds, thereby adversely impacting our Variable Additional Return, which could in turn adversely affect our business, financial condition and results of operations.

23. Certain of our non-convertible debentures are listed on BSE and we are subject to rules and regulations with respect to such non-convertible debentures. If we fail to comply with such rules and regulations, we may be subject to certain penal actions, which may have an adverse effect on our business, results of operations, financial condition and cash flows.

Our Company has previously issued certain non-convertible debentures, which are listed on BSE. For details of such listed non-convertible debentures, see *"**Financial Indebtedness – Details of listed non-convertible debentures issued by our Company**"* on page 419. We are required to comply with various applicable rules and regulations, including the Securities and Exchange Board of India (Issue and Listing of Non-Convertible

Securities) Regulations, 2021 and SEBI Listing Regulations, in terms of our listed non-convertible debentures, and the listing agreement entered into therein. While we have been in compliance with such rules and regulations in the past (including as on the date of this Prospectus), if we fail to comply with such rules and regulations, we may be subject to certain penal actions, including, restrictions on the further issuance of securities and freezing of transfers of securities, which may have an adverse effect on our business, results of operations, financial condition and cash flows.

24. We may need additional capital in the future, and we cannot assure you that we will be able to obtain such capital on acceptable terms, or at all, which in turn could adversely affect our business, financial condition and results of operation.

We may require additional capital in the future for us to maintain our net worth and/or fulfil capital commitments to our funds, remain competitive, pay distribution fees and operating expenses, meet our liquidity needs and offer new products and services. Our ability to obtain additional capital from external sources in the future is subject to a variety of factors, including our future financial condition, results of operations and cash flows; our ability to obtain the necessary regulatory approvals on a timely basis; any tightening of credit markets and general market conditions for raising debt and equity; and economic, political and social conditions in the geographical markets in which we operate and elsewhere. We cannot assure that we will be able to obtain additional capital in a timely manner and on acceptable terms, or at all. Future debt financing could include terms that restrict our financial flexibility or restrict our ability to manage our business freely. Furthermore, the terms and amount of any additional capital raised through issuances of equity securities may result in significant dilution to our shareholders' equity interests.

25. The auditors' examination report on our Restated Consolidated Financial Information disclose emphasis of matter paragraphs and we cannot assure that our financial information for future periods will not contain emphasis of matters.

The auditors' examination report on our Restated Consolidated Financial Information contains an emphasis of matter paragraph which states the following:

*"We draw attention to Note 2 of Annexure V to the Special Purpose Consolidated Interim Financial Statements, which describes the basis of accounting. The Special Purpose Consolidated Interim Financial Statements have been prepared by the Company for the purpose of preparation of the Restated Consolidated Financial Information, which will be included in the Addendum to Draft Red Herring Prospectus ("**Addendum**"), Updated DRHP, Red Herring Prospectus ("**RHP**") and Prospectus (together referred as "**Offer Document**") in connection with the proposed issue of equity shares of the Company by way of offer for sale of equity shares by existing shareholders by way of initial public offer ("the "IPO").*

Our opinion on the Special Purpose Consolidated Interim Financial Statements is not modified in respect of this matter."

We cannot assure that the audit or assurance reports for any future periods will not contain emphasis of matters, qualifications or other observations which affect our results of operations in such future periods. For details on the auditors' examination report, see "***Restated Consolidated Financial Information***" on page 304.

26. We are exposed to risks associated with raising capital from overseas and investing in overseas markets, which could adversely affect our business, financial condition, results of operations and prospects.

We raise capital from multiple geographies, including from overseas, for our funds and our operations. A significant portion of our AUM relates to foreign clients. As of June 30, 2026, ₹322,285.20 million of our AUM or 33.80% of our total AUM was from clients outside of India. The table below sets forth the AUM from foreign clients as well as the AUM from clients in India for the periods / financial years mentioned:

	As of three months period ended June 30,				As of Financial Year ended March 31,					
	2026		2025		2026		2025		2024	
	(AUM in ₹ million)	%	(AUM in ₹ million)	%	(AUM in ₹ million)	%	(AUM in ₹ million)	%	(AUM in ₹ million)	%
AUM from clients from the Rest of the World[(1)]	322,285.20	33.80	288,298.49	45.78	301,848.57	41.52	285,595.52	47.90	296,373.86	**54.20**
AUM from clients in India[(2)]	631,163.58	66.20	341,405.22	54.22	425,214.69	58.48	310,693.72	52.10	250,415.49	45.80
Total AUM[(3)]	**953,448.78**	**100.00**	**629,703.71**	**100.00**	**727,063.26**	**100.00**	**596,289.24**	**100.00**	**546,789.35**	**100.00**

Note:

(1) AUM from clients from the Rest of the World refers to commitment received from clients from outside of India (including North America, Europe, etc.).

(2) AUM from clients in India refers to commitment received from clients from India.

(3) AUM refers to total commitment raised under Active Funds[(4)].

(4) Active Funds includes funds, Co-Investment PMS and InvITs managed / advised by the Company and its Subsidiaries, that are either accepting capital, making new investments, or managing their portfolio of assets, excluding the special purpose funds.

Offering our funds to clients in foreign jurisdictions typically requires us to obtain, maintain and renew additional governmental, regulatory or registration approvals, which may involve lengthy timelines, substantial costs and discretionary determinations by foreign regulators, and any delay, denial or revocation of such approvals could restrict our ability to raise capital or admit new investors in the relevant jurisdiction. Marketing our funds in jurisdictions where we have limited presence or track record also presents inherent challenges, including unfamiliarity with local investor preferences, distribution channels and market practices, and may require us to engage local placement agents or distributors, which could increase our costs and expose us to counterparty and reputational risks.

Furthermore, we make our investments overseas through one of our Material Subsidiaries in Singapore, EAAA Pte. Limited. Overseas investments are also subject to risks that may not arise, or may arise to a lesser extent, in domestic investments. For example, there can be no assurance that such investments will achieve the targeted yields or returns, and the diligence, structuring, advisory, custodial and transaction costs associated with pursuing them may be unrecoverable if a transaction does not complete or underperform. In addition, our overseas operations and investments expose us to cross-border operational risks that are distinct from those described above, including currency fluctuations and the cost or availability of hedging, geopolitical and economic instability in the host jurisdictions (including trade tensions, sanctions, armed conflict and changes in bilateral relations), and the incremental compliance costs of operating across multiple jurisdictions.

As of the date of this Prospectus, there have been no such instances where we have been unsuccessful in implementing our growth plans in respect of overseas capital raising or overseas investments. However, if any of the foregoing risks materialize in the future, it could adversely affect our business, cash flows, results of operations and prospects.

27. Our growth depends on our ability to successfully launch new funds, and our inability to raise capital, identify suitable investment opportunities or achieve successful exits for any new fund could adversely affect our business, financial condition and results of operations.

Our growth depends on our ability to launch new funds. The successful launch and operation of any new fund is subject to numerous risks and uncertainties, including our ability to raise capital from clients, identify and execute suitable investment opportunities, and generate successful exits that deliver returns consistent with our funds' investment objectives and clients' expectations.

We may not be able to raise sufficient capital commitments for a new fund within the timeframe we have targeted, or at all. Our ability to raise capital for new funds depends on various factors, many of which are beyond our control, including the historical performance of our existing funds, prevailing and anticipated interest rates, macroeconomic and market conditions in India and globally, investor sentiment towards our target asset classes or strategies, our reputation and brand, regulatory and tax considerations applicable to clients, and the level of competition we face from other asset managers offering similar or competing products. If we are unable to raise capital for a new fund which is sufficient to achieve the scale necessary for the fund to be commercially viable, we may be required to delay or abandon the launch of such fund, which could result in us having incurred costs, including costs relating to structuring, marketing and regulatory filings, without a corresponding benefit, and could adversely affect our reputation and our ability to raise capital for future funds.

Even where we successfully raise capital for a new fund, we may not be able to identify, evaluate, and secure a sufficient number of suitable investment opportunities that meet the fund's investment objectives and risk-return parameters within its investment period. If we are unable to deploy a new fund's committed capital in suitable investments within its investment period, clients may lose confidence in our ability to manage the fund effectively, we may be required to extend capital call timelines or return undeployed commitments, and the fund's overall returns may be adversely affected.

Furthermore, the success of any new fund is ultimately dependent on our ability to realize value through successful exits from the fund's investments on terms that generate returns consistent with the fund's investment objectives. Our ability to achieve successful exits is subject to numerous factors beyond our control, including prevailing market conditions, the availability of willing buyers or public markets for offering, the performance of portfolio

companies or underlying assets, and regulatory or contractual restrictions on transfer. We cannot assure you that we will be able to exit investments made by any new fund at valuations that reflect their expected or carrying value, or within the timeframes contemplated by the fund's documents, and prolonged holding periods or exits at depressed valuations could adversely affect such fund's returns.

Consequently, any inability to raise capital for, deploy capital under, or generate successful exits from, a new fund could damage our reputation and track record, adversely affect our ability to raise capital for subsequent funds, and have an adverse effect on our business, cash flows, financial condition, results of operations and prospects.

28. Our Company had declared a significant amount of ₹32.00 per Equity Share (aggregating to ₹2,056.97 million) as interim dividend in Fiscal 2026 and our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.

In Fiscal 2026, our Company declared an interim dividend of ₹32.00 per Equity Share (aggregating ₹2,056.97 million) on 64,280,246 Equity Shares. Except as disclosed below, our Company has not declared or paid dividends on the Equity Shares in any of the three months period ended June 30, 2026 and the three Financial Years preceding the date of this Prospectus and the period from July 1, 2026 until the date of this Prospectus:

**Pursuant to a resolution passed by our Board by circulation on August 9, 2024, and by our Shareholders in their meeting held on August 16, 2024, the issued, subscribed and paid-up capital of our Company was sub-divided from 32,140,123 equity shares of face value of ₹10 each to 64,280,246 Equity Shares of face value of ₹ 5 each.*

Interim Dividend of ₹9.50 per Equity Share was declared on July 30,2026 on 64,280,246 shares while 375,000 Equity Shares are allotted on September 1, 2026 pursuant to ESOP 2024

While the quantum of dividends paid in Fiscal 2026 and thereafter was significantly higher than our historical dividend practice, it should not be considered as indicative of our Company's dividend distribution policy ("**Dividend Policy**") or dividend payments in the future. As per our Dividend Policy, the declaration and payment of future dividends will be recommended by our Board and approved by our Shareholders at their discretion, subject to the provisions of the Articles of Association and applicable laws including the Companies Act, read with the rules notified thereunder, each as amended. Any future determination as to the quantum of dividends, if any, will be at the discretion of our Board and will depend on a number of internal and external factors, including our cash flow position, profits earned and available for distribution during the financial year, accumulated reserves including retained earnings, net profits during the financial year as per the consolidated financial statements, debt repayment schedules, fund requirements for contingencies and unforeseen events with financial implications, our expansion and diversification plans, restrictive covenants under our financing documents, business cycles, the domestic and global economic environment, government and regulatory provisions including taxation, inflation rates and the cost of raising funds from alternate sources. We may also retain all or a portion of our future earnings, if any, for proposed, ongoing or planned business expansion or for any other purpose considered appropriate by our Board, subject to compliance with the Companies Act. There can be no assurance that we will be able to declare or pay dividends of a similar magnitude, or at all, in any future financial year, or that our Shareholders will approve the dividend recommended by the Board.

29. We are subject to risks relating to end user computing ("EUC"), which involves critical business processes and decision-making activities that depend on user-developed applications such as spreadsheets and databases. Inadequate management of EUC can result in data inaccuracies, unauthorized access, operational inefficiencies, and compliance issues.

EUC involves critical business processes and decision-making activities that rely on user-developed applications, such as spreadsheets and databases. Inadequate oversight and management of EUC tools can lead to significant risks for our organization. One of the primary risks is data inaccuracy, which can arise from errors in the design, input, and interpretation of EUC applications. Such inaccuracies can distort our financial reporting, decision-

making processes, and overall business strategies, leading to suboptimal outcomes. Additionally, EUC applications are often developed without rigorous controls and oversight, increasing the risk of unauthorized access and data breaches. This lack of control can expose sensitive information to unapproved users, resulting in potential data loss, regulatory penalties, and reputational damage.

Operational inefficiencies are another critical risk associated with poorly managed EUC. The decentralized nature of EUC applications can lead to redundant processes, inconsistent data, and difficulty in ensuring data integrity across the organization. These inefficiencies can hinder our productivity, increase operational costs, and negatively impact our service delivery. Furthermore, inadequate EUC management can lead to compliance issues. EUC applications may fail to meet regulatory requirements, and the lack of formal oversight can result in non-compliance with data management and security standards. This non-compliance can attract regulatory scrutiny, financial penalties, and legal challenges, which may adversely affect our reputation, business and results of operations.

30. Adverse changes to applicable tax laws or regulations which could potentially affect our setting up of future funds could affect our Management and Advisory Fees, GP Income and Variable Additional Return, and consequently affect our business operations, financial condition and cash flows.

We have operations in multiple tax jurisdictions including India, Gift City, Singapore, etc. Changes in tax laws and regulations across the various jurisdictions where our funds' investment vehicles are domiciled can significantly impact our fund structures and overall returns. Should adverse tax laws arise in a particular jurisdiction where our funds are located, after-tax profits would diminish, thereby adversely affecting our financial performance. Such tax disincentives might also alter investor sentiment, affect our fund's performance and revenues (including Variable Additional Return).

Furthermore, we aim to launch new funds under our business vertical. See "***Our Business – Our Strategies – Continue to focus on delivering sustained investment performance and portfolio differentiation***" on page 248. If we are unable to obtain such approvals and registrations in a timely manner due to the adverse changes in regulations, that could affect our Company's ability to raise capital.

Although we have not yet experienced a material impact on our business operations, financial condition, or cash flows due to political instability, or changes in laws or regulations in the past, there is no guarantee that this will not occur in the future.

31. Introducing new business verticals, sub-verticals, or products may expose us to challenges and risks that may adversely affect our business, financial condition and results of operations.

We have been expanding and may continue to expand, our new business verticals and products. We will, from time to time, adjust the verticals of our fund line-ups. For example, during the marketing of our infrastructure vertical, we identified a need for energy transition and added an energy transition fund. The new business verticals, sub-verticals or products may have different operational models and risk profiles as compared to our more established existing business verticals, sub-verticals or products, and we may not have sufficient operating experience and expertise to effectively manage the new businesses and the corresponding risks.

The new business verticals, sub-verticals and products may expose us to challenges and risks, including but not limited to:

- insufficient experience, expertise and skills in offering new products and services and dealing with new counterparties and clients;
- stricter regulation and increased credit risk, market risk and operational risk;
- failure to achieve investment returns from our new businesses;
- reputational concerns arising from dealing with new counterparties and clients who are less familiar to us and may lack experiences;
- failure to hire sufficient qualified personnel to support the offering of new products and services;
- lack of market and client acceptance of our new products and services;
- failure to make accurate analysis or judgment on market conditions of our new business;
- failure to obtain sufficient financing from internal and external sources to support our business expansion;

- failure to successfully launch and scale new funds, including an inability to raise capital, identify suitable investment opportunities and achieve successful exits;
- failure to enhance our risk management capabilities and information technology systems in a timely manner to support new businesses and a broader range of products and services; and
- additional competition from new and established players.

There can be no assurance that the above highlighted risks would not occur in the future. If we are unable to achieve the expected results with respect to our offerings of new products and services, our business, financial condition and results of operations could be materially and adversely affected. Additionally, we may also not be able to introduce products that our competitors are able to. Our competitors may offer products with better fee structure or risk adjusted returns, which could sway existing or future clients to our competitors. Our inability to offer, or continue to offer, competitive, innovative or suitable products may affect our ability to launch new funds in the future.

32. Underperformance of our funds would cause a decline in our revenue, profitability and cash flow and may also adversely affect our ability to raise capital in the future.

We are required to commit a minimum amount to our funds as a general partner or sponsor. If any of our funds underperform, our revenue, profitability, and cash flow would decline due to decreased investment returns, and a reduction or elimination in the Variable Additional Return we earn. Additionally, the value of our FPAUM, which, in some cases, includes the net asset value of the assets under management, would decrease, in some cases, leading to a reduction in our Management and Advisory Fees, GP Income. We have not experienced any instances of poor performance leading to financial losses incurred at the overall fund level in the three months period ended June 30, 2026 and last three financial years. However, it must be noted that the Edelweiss Stressed and Troubled Assets Revival Fund-1, a fund of size ₹2,135.50 million, managed by our Company previously, which had completed its tenure in the Financial Year 2024, did not make any Variable Additional Return mainly due to the performance of its investments. It generated a pre-tax IRR of 10.71% computed at the end of the fund's life, falling short of hurdle rate of 12% pre-tax. If our funds perform poorly in the future, we could incur losses on our own principal investments. Furthermore, the Variable Additional Return may need to be repaid under giveback obligations in specific circumstances, such as covering tax obligations or litigation expenses.

Underperformance of our funds could make it more difficult for us to raise new capital. Our clients may decline to invest in future funds which we may launch. Clients and potential clients in our funds continually assess our funds' performance, and our ability to raise capital for existing and future funds will depend on the continued satisfactory performance of our funds.

33. Our Company manages several sector specific and agnostic funds which might be dependent on the performance of the industries in which the investee companies of the funds operate. Managing new funds including any adverse movement in the performance of our funds and fluctuation in the value of investments by our funds could affect our Management and Advisory Fees, GP Income and Variable Additional Return, which may expose us to challenges and risks that may adversely affect our business, financial condition and results of operations.

We manage several sector specific funds under our Infrastructure Yield, Commercial Real Estate Yield, Perpetual Capital and Real Estate Credit sub-verticals which are primarily focused on the infrastructure, commercial real estate and residential real estate sectors, respectively. We also manage several sector agnostic funds under our Performing Credit, Special Situations and IG Credit sub-verticals and other sub-verticals. While our investment philosophy emphasizes a diversified approach across these funds, our portfolio may be subject to significant sector concentration at various stages of a fund's lifecycle. This concentration may arise from the inherent cyclicality of the economy, where certain sectors may present more compelling risk-adjusted opportunities or superior entry valuations at a specific point in time, leading us to tactically overweight those sectors.

Furthermore, the deployment of capital, or exit thereafter, is often non-linear and may result in temporarily elevated concentration to certain sectors. During such periods, the funds may remain exposed to any adverse regulatory, economic, or market development affecting those specific sectors, which in turn could have an adverse impact on our cash flows and financial condition.

These industries may be sensitive to factors beyond our control, including general economic conditions such as consumer demand, consumer confidence, inflation, employment and disposable income levels, interest rate levels, demographic trends, technological changes, increasing environmental, health and safety regulations, government policies, political instability and fuel prices. A loss of, or a significant decrease in business or decline in these

sectors could materially and adversely affect business of the investee companies and may in turn affect our cash flows and financial condition.

Additionally, we may launch new funds in the future that may follow different investment strategies with varied geographic and industry exposure as compared to our present funds, and any such new funds could have different returns than such existing funds. We will, from time to time, also adjust the verticals of the fund line-up we may have. Managing new funds with a different asset mix than we generally invest in or verticals may have different operational models and risk profiles as compared to our existing business verticals and we may not have sufficient operating experience and expertise to effectively manage these new funds and the corresponding risks.

As a result, our financial performance is subject to considerable uncertainty related to the investments made by the funds managed and advised by us or the funds we may manage in the future and may fluctuate based on various external and internal factors and successful realization of investment gains of such funds. Our inability to realize the investment gains could materially impact our ability to sustain or increase our income and our results of operations could be adversely affected.

The performance of the funds affects our clients' perception of our Company and therefore directly impact their willingness to invest in our funds. For example, if the funds that we manage are performing poorly, clients may choose not to reinvest with us in the future, which would ultimately result in our FPAUM to not grow as expected or fail to match previous growth rate. Moreover, Variable Additional Return, which is linked to the fund's returns meeting their performance thresholds will be affected if the funds do not perform well, consequently affecting our income and profit. General partner and/or sponsor investments reflect our alignment of interests with clients by using our capital in the funds or co-investing in portfolio companies, on the same terms as the primary fund. The income generated from these investments, GP Income, may also be affected by adverse movement in our funds performance.

The volatility in the funds' investment profile would also affect clients' confidence in our Company. Significant fluctuations in the value of investments, driven by market conditions, economic changes, or specific asset performance would mean higher risk to the clients and could impact client confidence, thereby reducing investor appetite to invest in our funds. With such market volatility, alternative investments might also become less attractive to investors, and our ability to attract and retain capital could be significantly affected. With lower capital inflows and larger capital outflows, our income and profit would be adversely affected.

While we have had no material impact to our business operations, financial condition and cash flows in the past due to any adverse movement in the performance of our funds or fluctuations in the value of investments by our funds, there can be no assurance that it will not happen in the future.

34. Our ability to raise capital commitments for the new funds could be adversely affected if the appeal of alternative investments were to decline in the market.

Our growth depends on the growth of the alternative investment products and over the past few years alternative investment funds have become one of the key segments in private markets in India. However, our ability to raise capital commitments for new funds could be adversely affected if the general appeal of alternative investment products were to decline in the market. An investment in a fund is more illiquid and the returns on such investment may be more volatile than an investment in listed securities for which there is a more active and transparent market. Alternative investment products could fall into disfavor as a result of concerns about liquidity and short-term performance. Such disfavor towards alternative investment products could impact our ability to raise capital commitments for new funds, which would in turn, adversely affect our results of operations, financial condition and cash flows. Our failure to timely secure capital commitments may compel us to divest assets under suboptimal conditions, adversely impacting investment returns and fund performance. Such scenarios would potentially hinder our ability to raise adequate capital in the future and impact our revenue profitability, and overall financial stability.

35. Failing to detect and deter misconduct of our employees, distribution partners or other third-party providers or any potential error in product information or marketing material that we provide to our clients, or any false or misleading information provided by our distributors, relationship managers or investment professionals, may adversely affect our business, reputation, financial condition and results of operations.

Our business often requires that we deal with confidential information. If our employees were to improperly use or disclose this information, even if inadvertently, we may be subject to legal action and suffer serious harm to our reputation, financial position and current and future business relationships. It is not always possible to deter

employee misconduct, and the precautions we take to detect and prevent such activities may not always be effective. Misconduct by our employees, or even unsubstantiated allegations of misconduct, could result in an adverse effect on our reputation and our business. While we have implemented specific initiatives to reduce the likelihood of such situations occurring in future, including enhanced due diligence measures for high-risk cases, there can be no assurance that we will not be subjected to fraudulent claims in the future. We may be also subjected to fraudulent behavior and disclosures by clients and third parties in respect of other areas of operations, including money laundering and forgery, which may negatively impact our ability to comply with applicable regulations and have an adverse impact on our results of operations, profitability and reputation.

We provide extensive product information and marketing materials to potential clients. These materials are often utilized in various foreign jurisdictions, each of which has its own legal requirements for such materials. There is a risk that these materials may inadvertently contain inaccuracies, omissions, or outdated information, which may lead to potential clients making decisions based on incorrect data. While we have not experienced any instances of such errors highlighted by our clients, if there are changes in market conditions, regulatory updates, absence of relevant market information, technological limitations or even human error, our business, financial condition and operations might be adversely affected.

We are also exposed to the risk of our Directors and employees being non-compliant with insider trading regulations or engaging in front running in securities markets. While we have taken steps to reduce instances of fraud, mis-selling and other forms of misconduct by our agents, employees and distribution partners, conducting training programs as well as providing for directors and officers insurance for them, there can be no assurance that these measures will succeed in detecting or deterring misconduct or to provide sufficient evidence to conclude investigations of misconduct.

Furthermore, our employees, agents, distributors and other third parties could engage in misconduct that may adversely affect our business and reputational harm. For example, we face the risk of our distributors, relationship managers, and investment professionals conveying false or misleading information to potential clients, whether written or oral. While no such instance has occurred in the three months period ended June 30, 2026 and Financial Years 2026, 2025 and 2024, respectively, any such misinformation in the future may result from the absence of relevant market information or a lack of accurate understanding of market conditions. Should clients make decisions based on incorrect or misleading information, we may face reputational damage, regulatory penalties, and/or litigation claims from such clients. Any of these outcomes may adversely affect our business, financial condition, and results of operations. Furthermore, if an employee were to engage in illegal or suspicious activities, we could be subject to regulatory fines and suffer serious harm to our reputation (because of the negative perception resulting in such activities), financial position, client relationships and ability to attract new clients. While we have internal processes to detect, prevent and monitor our employees, agents, distributors and other third parties, we may not be successful in identifying or limiting such occurrences. Such misconduct could include, engaging in mis-selling, misrepresentation or fraudulent, deceptive or otherwise improper activities when marketing or selling products, binding us to transactions, hiding unauthorized or unsuccessful activities, such as insider trading, improperly using or disclosing confidential and price sensitive information, making illegal or improper payments, falsifying documents or data, recommending products, services or transactions that are not suitable for our clients; misappropriation of funds, engaging in unauthorized or excessive transactions to the detriment of our clients or not complying with applicable laws or our internal policies and procedures. While we have not experienced similar material issues in the past, there can be no assurance that it would not happen in the future.

36. Our business, financial condition, results of operations, and development prospects may be materially and adversely affected if we encounter challenges in the processes of client onboarding, offboarding, and client maintenance, including documentation and potential inaccuracies and compliance issues including with respect to our investor reports. Any failure to provide our clients with key updates may result in regulatory, contractual and reputational consequences, which may have an adverse impact on our business, results of operations, financial condition and cash flows.

The processes of client onboarding, offboarding, and client maintenance are critical to our operations. Any challenges or inefficiencies in these processes, such as delays or inaccuracies in documentation, could materially and adversely affect our ability to manage our client accounts efficiently. Inaccurate or incomplete documentation during the onboarding process may result in compliance issues, regulatory penalties, and damage to our reputation. Similarly, delays or errors in the offboarding process could lead to disputes and potential legal and contractual repercussions.

We are also required to furnish timely reports to our clients regarding their investment portfolio and under the

relevant governing documents of our funds, we are required to provide quarterly updates to our clients and ensure transparency and high governance standards. These reports include, among others, a summary of the portfolio, investment updates and transactions in the pipeline. Furthermore, the funds that our Company manages and invests in are also required to furnish reports on periodic basis to their investors. Our clients and the investors may rely on these communications for making informed decisions about their investments. However, it may be possible due to unforeseen circumstances or operational oversights, we may not be able to send the reports on timely basis or not send at all. Failing to provide such reports, in the prescribed manner, may result in non-compliance with regulatory requirements, thereby attracting scrutiny and action by regulatory bodies under applicable law. Missing updates may further decrease the level of transparency between us and our clients, and may harm our reputation, client relations in the long term, and our future ability to raise further funds. While there have only been minor instances in the past such as a minor delay in the newsletter circulation which did not lead to any significant repercussions, we cannot assure you that more serious instances may not arise in the future, and accordingly, may have an adverse effect on our business, results of operations, financial condition and cash flows.

The table below sets forth the number of clients at the beginning of the year / period, number of clients added, number of clients terminated and closing number of clients of the Company for the period / Financial Years mentioned.

	Three months period ended June 30,		For the Financial Year ended		
	2026	**2025**	**2026**	**2025**	**2024**
Number of clients at beginning of period[(1)]	5,936	4,041	4,041	3,091	2,209
No. of new clients added[(2)]	5,073	670	1,895	950	882
Closing number of clients	11,009	4,711	5,936	4,041	3,091

Note:

(1) Number of clients refers to the unique no. of client which represents the AUM as of financial year / period end.

(2) No. of new clients added refers to new unique clients added during the year / period. The number of new clients added in any financial year is driven by the specific nature of the funds and fund-raising initiatives undertaken in that period, including commitments from first-time institutional and non-institutional investors across multiple geographies.

37. Diminution in the value and delay in realization of our investments may adversely affect our business, financial condition, and results of operations.

Our fund investments are generally long tenured privately negotiated instruments. A reduction in the value of our investments could significantly harm our business, financial condition, and results of operations. Many of the assets in which we invest are generally long-term investments, which may not be readily marketable at a favorable price or at all, until certain appropriate time. If market conditions deteriorate or specific investments do not perform as expected, the investments may not be easily exited. As such, we may be forced to hold onto underperforming assets for longer than anticipated. For example, as prescribed under the SEBI AIF Regulations, we are required as a manager of a fund to continue to hold 2.5% of corpus or ₹50 million on continuous basis in case of Category I & II AIFs and 5% of corpus or ₹100 million in case of Category III AIFs. A decrease in the value of our investments could result in lower FPAUM and may, in some cases, impact the Management and Advisory Fees and GP Income we earn and potentially our Variable Additional Return.

Moreover, a reduction in value could lead to missed opportunities. Our stakeholders continually monitor the liquidity (only if there is a delay in realization or exit beyond fund life) and performance of our investments; sustained or significant illiquidity or losses could lead to a loss of confidence among our clients, hampering our ability to raise new capital or maintain existing client commitments. Consequently, our ability to grow and sustain our business could be affected by the illiquidity or diminution in the value of our investments.

Further, our Company's operations are inherently subject to asset-liability mismatch ("**ALM**") risk, arising from potential mismatches between the maturities of our financial assets and financial liabilities. As of June 30, 2026, our analysis of financial assets and financial liabilities by remaining contractual maturities, indicates that we maintained a healthy ALM position. For details, see "***Restated Consolidated Financial Information – Note 56B(i) – Analysis of non-derivative financial liabilities by remaining contractual maturities***" on page 378. However, there can be no assurance that we will be able to maintain such a favourable ALM position in future periods. Furthermore, any deterioration in our ALM profile, whether due to accelerated maturity of liabilities, delays in realisation of assets, adverse market conditions, or otherwise could have a material adverse effect on our liquidity, business, financial condition, and results of operations.

38. Our operations depend on our management and employees and our business may be materially and adversely affected if we are unable to recruit, train or retain a sufficient number of qualified employees.

The success of our business largely depends on our ability to attract and retain key personnel who possess in-depth knowledge and understanding of, and extensive working experience in, the financial and asset management industry. The key personnel include, among other, senior management, experienced investment managers and finance professionals, coverage staff, legal professionals, risk management personnel, and other operational personnel. If any of our senior management or other key personnel joins our competitors or establishes a competing business, we may lose some of our clients, which may have a material adverse effect on our business. We also implement non-solicit and cooling period clauses as parts of our standard contractual agreements.

The market for quality professionals is highly competitive and we face increasing competition in recruiting and retaining these individuals as other asset management companies and financial institutions are vying for the same pool of talent. In the face of such intense competition for talent, we may need to offer better compensation and other benefits to recruit and retain qualified professionals and additional costs may be incurred. Our business and financial condition could suffer materially if we are unable to retain our management team, key personnel, including our senior management, operating management, and other high-quality personnel, or cannot replace them upon their departure in a timely manner.

The table below sets forth the attrition level for our employees as well as cost per employee for the period / Financial Years mentioned.

Notes:

**Senior employees refer to employees designated as such by the Company and include individuals at the level of investment director (or equivalent) and above.*

***Other employees are all employees who do not fall within the definition of senior employees.*

****Attrition rate is the number of exits per average headcount. Average headcount represents average of employee headcount as of the last day of the current year and employee headcount of the last day of the previous year/period.*

We have implemented various measures to retain our employees, including competitive compensation and performance-based rewards such as VAR related bonus and employee stock option plans that align employee interests with fund performance and support long-term retention. Our lean team structure gives people broad exposure and real responsibility from early on, supported by tailored learning programmes and role-based designations that recognise and reward talent. We also foster an ownership-driven culture that values results over hours and regularly seek employee feedback to keep improving our culture within the organization.

39. Departure of any "key advisors" of our funds may lead to a suspension of capital calls or even terminate the investment period of our funds.

The success of our funds is heavily dependent on the expertise, judgment, and leadership of certain key individuals, often referred to as "key advisors" or "key persons", which includes the Executive Chairman and Whole-Time Director, a Chief Executive Officer and key personnels. In some of our funds, the clients insist on designating individuals with long-standing experience within the group or Company as key advisors. As of June 30, 2026, we had several key advisors across our funds. These key advisors may include the Company's Executive Chairman and Whole-Time Director, Chief Executive Officers, and one or more KMPs or SMPs. These individuals possess unique skills and experience critical to executing our investment strategy in managing our fund's operations effectively. The governing agreements of our funds typically include "key advisors" protections. The terms of these protections differ from fund to fund but will generally identify a minimum number of persons within our Company who are required to devote a specified position or a specified amount of their business time to the business and affairs of our Company and/or the relevant fund, failing which, new "key advisors" must be approved by our clients. If within the specified time these new "key advisors" are not approved, a temporary suspension will be placed on any further capital calls for purposes of making new investments, and a prolonged suspension will lead to the termination of the investment period of the funds. Some fund documents mandate the presence of a key advisor, allowing clients to terminate the investment period if most key advisors are no longer with our Company and suitable replacements are not found in a timely manner. Such termination would halt additional investments by the fund. In addition to having a significant negative impact on our revenue, net income and cash flow, the occurrence of such an event with respect to any of our funds would likely result in significant reputational damage to us.

40. Our Company will not receive any proceeds from the Offer for Sale.

The Offer comprises of an offer for sale of 7,207,207 Equity Shares^ of face value of ₹5 each aggregating to ₹12,000 million^ by the Promoter Selling Shareholder. The proceeds from the Offer for Sale net of Offer expenses will be transferred to the Promoter Selling Shareholder, hence our Company will not be receiving any proceeds from the Offer.

^Subject to finalisation of the Basis of Allotment.

41. Inherent and ongoing exposure to potential legal, tax and regulatory liabilities from divested or discontinued entities and businesses exposes us to adverse effects on our financial position, results of operations and business prospects.

As part of the strategic realignment of our business operations, our Promoters and group of companies have, over a period of time, discontinued or divested various subsidiaries and other entities. While these discontinued or divested subsidiaries or entities were sold or closed following due legal and regulatory processes, there remains the possibility that unforeseen litigation, tax demands, regulatory inquiries, or other disputes may arise in relation to such entities for their past operations. While no such instance has occurred in the three months period ended June 30, 2026 and Financial Years 2026, 2025, and 2024, respectively, these potential liabilities may stem from historical transactions, operations and other matters attributable to the periods prior to such sale/closure. Any such developments could have an adverse effect on the financial position, results of operations and business prospects of our Promoters, our Group including our Company.

42. We have operations in multiple jurisdictions through our subsidiaries in Singapore and our branch office in GIFT City, which exposes us to risks inherent to operations in other jurisdictions.

As part of our business operations, we operate a subsidiary in Singapore and a branch office in GIFT City, each of which have distinct legal and regulatory systems and we may be subject to risks arising from the distinct legal, regulatory and operational environments in these jurisdictions. These include risks related to:

- changes in laws, regulatory requirements and exchange control restrictions on repatriation of revenue or profits;
- challenges caused by language and cultural differences;
- health and security threats or the outbreak of an infectious disease;
- imposition of international sanctions on one or more of the countries in which we operate;
- fluctuations in currency exchange rates;

- political, social or economic instability in such countries;
- changes in taxes, trade policies and treaties;
- circumstances and conditions outside of our control such as natural disasters, civil disturbance, terrorist attacks, war or other military action;
- legal compliance costs associated with multiple international locations; and
- exposure to local banking, currency control and other financial-related risks.

Whilst there have not been any such instances which have materially affected us during the three months period ended June 30, 2026 and Financial Years 2026, 2025 and 2024, if any such risks do materialize, it could adversely affect our business, cash flows, results of operations and prospects.

43. The due diligence process that we undertake in connection with investments by our funds may not reveal all facts that may be relevant in connection with an investment.

Before making investments in our funds, we conduct due diligence, either by ourselves or with the assistance of external consultants, that we deem reasonable and appropriate based on the facts and circumstances applicable to each investment. While conducting the due diligence exercise, we may be required to evaluate important and complex business, financial, tax, accounting, environmental and legal issues. Outside consultants, legal advisors, accountants and investment banks may be involved in the due diligence process in varying degrees depending on the type of investment. Nevertheless, when conducting due diligence and making an assessment regarding an investment, we rely on the resources available to us, including information provided by the investee companies and, in some circumstances, third-party investigations. The due diligence investigation that we will carry out with respect to any investment opportunity may not reveal or highlight all relevant facts that may be necessary or helpful in evaluating such investment opportunity. Moreover, such an investigation will not necessarily result in the investment being successful. For example, under our Private Credit vertical, there was one instance in Financial Year 2026 involving an investment where external diligence did not sufficiently highlight the requirement for approval of the local authority prior to creation of a mortgage, which resulted in a delay in creation of charge on the said asset. However, this did not have an adverse impact on the internal rate of return expected from this investment.

In addition, investment opportunities may involve companies that have historic and/or unresolved regulatory, tax, fraud or accounting related investigations, audits or inquiries and/or have been subject to public accusations of improper behavior (including bribery and corruption). Even specific, enhanced due diligence investigations with respect to such matters may not reveal or highlight all facts and circumstances that may be relevant to evaluating the investment opportunity and/or accurately identifying and assessing settlements, enforcement actions and judgments that could arise and have a material adverse effect on the investee company's operations, financial condition, cash flow, reputation and prospects. Additionally, our due diligence investigations may not result in us making successful investments. Potential regulatory and tax notices against the investee company(ies) may impact our investments which can impose significant burdens on our business operations and may necessitate prolonged engagement with legal and regulatory bodies to resolve and recover invested funds.

The complexity and unpredictability of regulatory landscapes mean that even well-conducted due diligence cannot foresee every issue, increasing the potential for unforeseen financial and operational disruptions.

Failure to identify and adequately address risks associated with our investments, including unexpected regulatory notices and tax matters, could have a material adverse effect on our results of operations, financial condition, and cash flow. Our ability to manage and mitigate these risks is essential to preserving our business integrity and maintaining client confidence.

44. Our funds are subject to concentration risks related to our investee companies or assets, which could impact the performance and stability of our funds.

Our funds may face risks associated with concentrating a large proportion of its capital in a small number of investee companies or assets. As of June 30, 2026, there have been 102 completed investments spread across five flagship funds, providing a degree of portfolio diversification across investee companies. However, in accordance with SEBI AIF Regulations, Category I and Category II AIFs are prohibited from investing more than 25% of their investible funds (50% of investible funds in case of large value funds) in any single investee company and consequently the maximum exposure of our funds to any single investee company is restricted to 25% of our investible funds (50% of investible funds in case of large value funds). Any financial problems, regulatory

challenges, or market downturns faced by these investee companies can directly impact their performance, thereby affecting the fund's overall returns and valuation. The focus on a narrow set of investments increases the potential for significant financial losses if any investee company underperforms or fails. There are limited diversification opportunities in the various different sectors, geographic regions, and asset classes, and such efforts may not completely shield the fund from the adverse impacts associated with concentrated investments. This exposes the fund to fluctuations that could cause significant deviations in financial performance and investor returns.

45. We are exposed to additional risks associated with engaging foreign clients which comprise 33.80% of our total AUM, as of June 30, 2026.

A significant portion of our AUM relates to foreign clients. As of June 30, 2026, ₹322,285.20 million of our AUM or 33.80% of our total AUM are from clients outside of India. This considerable reliance on foreign clients exposes us to greater risks due to the differing legal and regulatory landscapes as well as ethical standards across the different jurisdictions. This could expose our Company to various risks including reputational risks – especially if those clients are involved in legal proceedings, regulatory actions, or any controversies. For further details of such risks, see "*Risk Factors – We are subject to extensive laws, rules, and regulatory requirements which may impact our business, including resulting in financial penalties, loss of business, adverse, financial impact and/or damage to our reputation in instances of non-compliance.*" The table below sets forth the AUM from foreign clients as well as the AUM from clients in India for the periods / Financial Years mentioned.

Note:

(1) AUM from clients from the Rest of the World refers to commitment received from clients from outside of India (including North America, Europe, etc.).

(2) AUM from clients in India refers to commitment received from clients from India.

(3) AUM refers to total commitment raised under Active Funds[(4)].

(4) Active Funds includes funds, Co-Investment PMS and InvITs managed / advised by the Company and its Subsidiaries, that are either accepting capital, making new investments, or managing their portfolio of assets, excluding the special purpose funds.

46. Our Company, Subsidiaries, Directors, Promoters, Key Managerial Personnel and Senior Management are or may be involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have an adverse effect on our business, financial condition, reputation, cash flows and results of operations.

In the ordinary course of business, our Company, our Subsidiaries, our Directors, our Promoters, our Key Managerial Personnel and our Senior Management are involved in certain legal proceedings pending at different levels of adjudication before various courts. A summary of outstanding litigation proceedings involving our Company, our Directors, our Subsidiaries, our Promoters, our Key Managerial Personnel, our Senior Management and Group Companies, as disclosed in "***Outstanding Litigation and Material Developments***" on page 421 is provided below:

*@ This excludes the regulatory proceeding in relation to one of our Promoters, ESIPL, which has already been disclosed under "**Outstanding Litigation and Other Material Developments - Litigation involving our Company - (c) Actions by statutory and regulatory authorities involving our Company**".*

In addition to the above, our Directors, our Key Managerial Personnel, our Senior Management, our Group Companies and our Promoters, may have in the past received the notices or warning letters from regulatory and statutory bodies.

We cannot provide any assurance that these legal proceedings will be decided in our favor or in favor of our Directors and our Promoters. While we do not believe that the resolution of any of these lawsuits against us will, individually or in the aggregate, have a material adverse effect on our business, financial condition and results of operations, litigation to which we subsequently become a party might result in substantial costs and divert management's attention and resources. Furthermore, any litigations, legal disputes, claims or administrative proceedings which are initially not of material importance may escalate and become important to us due to a variety of factors, such as the facts and circumstances of the cases, the likelihood of loss, the monetary amount at stake and the parties involved. Litigation or arbitration could result in substantial costs to, and a diversion of effort by, us and/or subject us to significant liabilities to third parties.

An adverse outcome in any of these proceedings may have an adverse effect on our business, financial position, prospects, results of operations and our reputation. For further details, see "***Outstanding Litigation and Material Developments***" beginning on page 421.

47. We may not be able to prevent others from unauthorized use of our intellectual property and may in the future become subject to patent, trademark and/or other intellectual property infringement claims.

As on date of this Prospectus, we have, *inter alia*, made applications dated (i) January 10, 2025 for the registration of the words "Citius TransNet" and "Citius"; (ii) May 15, 2025, for the registration of the word "EAAA TransInfra Managers" under class 36; (iii) June 22, 2026, for the registration of the word "Revinduz", as prescribed under the Trademarks Act. Edelweiss Financial Services Limited, one of our Promoters, is the proprietor of the logo "Edelweiss ALTERNATIVES" and the word "Edelweiss Alternatives" and has made trademark applications dated September 23, 2026, each, for the registration of the logo and the word. Pursuant to the no objection certificate dated September 14, 2026, Edelweiss Financial Services Limited, one of our Promoters, has granted our Company a no objection for the use of the "Edelweiss Alternatives" word mark and the logo. For further details see "***Our Business – Intellectual Property***" on page 261. While we have applied for such registrations and received no objections as of the date of this Prospectus, we are currently awaiting publication of the registration results for certain of our applications and there is no assurance that the registrations will be granted. An intellectual property registration granted to us may not be sufficient to protect our intellectual property rights. Additionally, Edelweiss Financial Services Limited, one of our Promoters and the proprietor of the registered mark "EAAA", pursuant to their no objection certificate dated September 25, 2024, has granted our Company a no objection for the registration of the mark under the Company's name. The rights provided to our Company to use the trademark and trade name "EAAA" and "Edelweiss ALTERNATIVES" may be subject to payment of royalty in future. This may result in additional payout for the Company. Furthermore, as we are not the registered owner of trade name "EAAA" and "Edelweiss ALTERNATIVES", we have limited ability to prevent any infringement of such intellectual property and a passing off action may not provide sufficient protection or may not provide us with a cause of action to file a suit before the relevant authorities. Further, as the "EAAA" and "Edelweiss ALTERNATIVES" trademarks, name or logo is not registered in our Company's name, we cannot assure you that we will continue to have the rights to use the same in the future.

We may also be subject to claims that we have breached our licensed use of software or otherwise infringed on the intellectual property of third parties, including infringement by service providers who use such licenses to

provide services to us. Any of the above matters could have a material adverse effect on our business, results of operations and financial performance.

48. We may face operational issues while deploying our fund, which could negatively impact our investments and returns.

Our business is subject to operational risks associated with the deployment of our funds, which include risks related to inadequate or failed internal processes, people, systems, or external events. Operational issues during the deployment of our fund can arise from variety of sources, including but not limited to inadequate internal controls, human errors, system failures, or unforeseen events. Such operational challenges can disrupt our investment processes, leading to incorrect or delayed investment decisions, and potentially result in financial losses. For example, inaccuracies in transaction processing, misallocation of assets, or lapses in documenting, safeguarding documentation, title deeds, security creation, and adhering to timelines for security invocation or liquidation at the time of default can impair our ability to capitalize on investment opportunities or expose us to unforeseen risks. In particular, effective management and tracking of the associated terms and conditions for our funds are essential for our operations. Any failure to accurately monitor and comply with these terms and conditions could lead to significant operational and financial repercussions. Inadequate management could result in breaches of contractual obligations under various agreements, leading to potential legal disputes and penalties. Such breaches could not only result in substantial financial costs but also damage our reputation and relationships with clients, partners, and regulators. Moreover, ineffective tracking can lead to errors in valuation, reporting, and compliance processes. This may result in material inaccuracies in our financial statements, misrepresentation of our financial health, and, consequently, erosion of client confidence. In addition, failure to manage terms and conditions effectively could adversely impact our revenue. Misalignment with agreed terms might lead to disputes over fee calculations or potential clawbacks of Variable Additional Return, all of which can significantly impair our revenue streams. Furthermore, poor management and tracking of these terms could also impede our strategic initiatives, affecting our ability to execute investment strategies and operational plans. Operational inefficiencies and compliance lapses may hinder our growth and development prospects, limiting our ability to attract new capital and expand our fund offerings. Any such operational failures can contribute to poor fund performance, discouraging clients from committing new capital, thereby adversely affecting our business, financial condition, and results of operations.

49. We enter into certain related party transactions in the ordinary course of our business, and we cannot assure you that such transactions will not have an adverse effect on our results of operation and financial condition.

We have entered into related party transactions and may continue to enter into related party transactions, which may involve conflicts of interest. For details on our related-party transactions, see "***Restated Consolidated Financial Information — Notes to the Restated Consolidated Financial Information — Note 48: Related party transactions***" on page 359.

The percentage of related party transactions entered into by our Company in the three months period ended June 30, 2026, and the Financial Years ended March 31, 2026, March 31, 2025, and March 31, 2024, from the revenue from operations is as follows:

(in ₹ million)

Nature of Transaction	For the period ended June 30, 2026		For the period ended June 30, 2025		For the year ended March 31, 2026		For the year ended March 31, 2025		For the year ended March 31, 2024	
	Amount	Percentage of revenue from operations (%)	Amount	Percentage of revenue from operations (%)	Amount	Percentage of revenue from operations (%)	Amount	Percentage of revenue from operations (%)	Amount	Percentage of revenue from operations (%)
Revenue from Operations	1.59	0.06%	4.10	0.21%	11.52	0.13%	454.18	6.78%	406.75	8.26%

While the related party transactions entered into in the past are conducted on an arm's length basis in the ordinary course of business, there can be no assurance that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. Further, the Issuer may continue to enter into related party transactions in the future, which may involve conflicts of interest. All related party transactions that we may enter into post-listing of the Equity Shares will be subject to Audit Committee or Board or Shareholder approval, as required under the Companies Act, 2013, the SEBI Listing Regulations and other applicable law, we cannot assure you that such future transactions, individually or in the aggregate will not have an adverse effect on our business, financial condition and results of operations.

50. We are subject to clawbacks or contingent repayment obligations under our investment agreements in certain cases, and any requirement to repay these amounts may affect our ability to make distributions to our clients or finance our operations, including future fund investments.

Under the investment agreements of our funds, we are subject to clawback or contingent repayment obligations in certain cases. Clawback provisions may be triggered by factors at the fund level such as litigation, indemnity payments, tax assessments or end of fund life recalculation for assessing aggregate fund IRR. In the event of litigation against a fund or an adverse tax ruling, we may need to return previously distributed Variable Additional Return to cover these liabilities. Furthermore, errors or recalculation in the computation of Variable Additional Return or tax incidence can also lead to clawback obligations. If Variable Additional Return were distributed based on incorrect calculations or recalibration under the fund level documents or if there are unforeseen tax liabilities, we could be required to repay these distributed amounts up to 100% of the Variable Additional Return earned by our Company for respective fund.

These clawback or contingent repayment obligations could have an adverse effect on our financial condition and liquidity. The obligation to return Variable Additional Return previously received can significantly impact our cash flow and profitability, particularly if substantial amounts are involved. In addition, the requirement to repay these amounts may also affect our ability to finance our operations, including future fund investments.

Moreover, the existence of such obligations might affect our reputation with our clients and could impair our ability to raise capital for new funds. Clients may view these occurrences negatively, reducing their inclination to invest with us in the future, which, in turn, could adversely affect our business, financial condition, results of operations and prospects. We have not experienced instances of where the clawback or contingent repayment obligations were triggered, we cannot assure you that, it will not occur in the future and if it does, it may adversely affect our fund's operations and performance.

51. Our funds may not have complete control over their investee companies, and any actions taken by the investee and/or the third parties involved in our investment projects may adversely affect our funds' performance.

Our funds usually acquire complete controlling stake in the investee companies in areas such as commercial real estate yield and infrastructure. However, there may be specific instances in commercial real estate yield and infrastructure where our funds may not have complete control over the companies or assets within our real assets portfolio in particular and private credit in general. In such cases, decisions made by our investees or third parties involved in our investment projects can significantly impact the performance of our funds. The investee companies may make decisions or take actions that do not align with our investment objectives or strategies, potentially leading to underperformance of the investments. For example, they might enter into contracts, undertake financial commitments, or initiate projects that we would not have endorsed, thereby increasing the risk and potentially leading to financial losses for our funds.

The inability to control the majority of actions within these companies or assets may also limit our influence on operational and strategic business decisions, affecting the implementation of our preferred practices and strategies. In such scenario, if such investee company cannot generate sufficient cash flow to meet its debt obligations or make dividend payments, there is no guarantee that such investee company will be able to secure refinancing arrangements at competitive rates, leading to increased cost of borrowings and lower profitability. As a result, the value of our fund's investment could be significantly reduced or even eliminated. Any amounts secured under a borrowing facility will take precedence over equity shareholders.

Furthermore, actions taken by investee or counterparties in the investment projects (e.g. other promoters, co-investors, etc.) can introduce significant operational, legal, and financial risks that could adversely impact the returns from these investments and, consequently, our overall fund performance. If adverse actions by investee companies or such counterparties result in poor fund performance, it could lead to a decline in client confidence. Despite our governance agreements, oversight mechanisms such as appointing a board member, and other protective measures, we may still be unable to prevent or mitigate this issue. Consequently, this could make it more challenging for us to raise new capital in the future, as both current and potential clients might become wary of investing in our funds.

Additionally, such counterparties may (a) have economic or business interests or goals that are different or inconsistent with those of the Company; (b) adopt actions or strategies contrary to our Company's policies or objectives; (c) undergo a change of control; (d) experience financial or other difficulties; or (e) be unable or unwilling to fulfil their obligations under the business venture agreements; any of these may affect our funds' performance and therefore our Company's financial conditions or results of operations. We cannot guarantee the

capability or performance of such counterparties in the development or operation of any particular portfolio asset. While there have been no material instances in the past, our financial condition and results of operations may be adversely affected by any actions of such counterparties that are beyond our control.

52. Inadequate or inconsistent monitoring of our fund's investments can lead to undetected performance issues, compliance risks, and missed opportunities for value enhancement.

Consistent and comprehensive monitoring of our fund's investments is critical to ensuring optimal performance and compliance with regulatory requirements. If our monitoring practices are inadequate or inconsistent, we may fail to detect underperforming investments, which can adversely impact the returns for our clients and the overall value of our FPAUM. This could lead to dissatisfaction among our clients, reduced inflows of commitments, etc., thereby negatively impacting our revenue and growth prospects.

Ineffective monitoring can expose us to compliance risks, as undetected issues may result in violations of regulatory requirements or contractual obligations. Such breaches could attract regulatory scrutiny, financial penalties, and damage to our corporate reputation, all of which could materially impair our business operations and financial health. Moreover, missed opportunities for value enhancement due to poor monitoring can result in suboptimal investment decisions, leading to lower realized returns. This can adversely affect our Variable Additional Return, thereby reducing our profitability and cash flow. Inadequate records and information management practices pose additional risks. Poor data management can lead to inaccuracies in our fund's financial reporting, misinforming stakeholders, and clients, which can erode trust and confidence in our management capabilities. Data inaccuracies can also lead to incorrect compliance filings, attracting regulatory penalties and legal challenges. Furthermore, regulatory non-compliance due to inadequate information management can have severe consequences, including fines, sanctions, and reputational damage. While there have been no material instances in the past, this could impede our ability to operate effectively, attract new clients, and retain existing ones in the future, which in turn could adversely affect our business, financial condition and results of operation.

53. A significant decrease in our internal or external liquidity, or potential lack of access to credit could adversely affect our business and reduce client confidence in us.

A significant decrease in our internal or external liquidity, or a potential lack of access to credit, could have several adverse effects on our business. Reduced liquidity could limit our ability to meet short-term obligations, fund operations, or take advantage of investment opportunities, thereby hampering our overall business performance. This situation could also undermine client confidence, as clients and investors may perceive increased financial instability and risk in our operations. Additionally, reduced liquidity heightens our default risk, where we may struggle to meet debt or other financial commitments. For example, as prescribed under the SEBI AIF regulations, our Company is required to maintain a continuing interest in the form of investment in the funds managed by our Company. In the event our Company fails to maintain such continuing interest, it may lead to potential defaults, non-compliance with our funds' placement memorandums, or regulatory non-compliances which may subsequently lead to legal and financial repercussions. For further details in relation to the regulatory framework that governs our Company please see *"**Key Regulations and Policies in India**"* on page 264 of this Prospectus.

The liquidity risks we face are exacerbated by the limited depth of the debt markets in India. The number of lenders is restricted, and it is often the case that the same lenders are involved with both the Company and many of the sub-verticals where a fund managed by the Company acts as the controlling shareholder. A default at the portfolio level could significantly hinder our access to credit. Factors that may adversely affect our liquidity position include, among others, failure to liquidate financial asset investments at certain target prices, over-concentration of holdings in certain assets and liabilities, increased regulatory capital requirements, unfavorable payment terms with distributors, delays or decreases in anticipated Variable Additional Return or other regulatory developments. We may need to seek additional financing or sell assets to meet our liquidity needs. During periods of adverse credit and capital market conditions, potential sources of external financing could be limited or unavailable at all, and our financing costs could increase. Additionally, our ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time, which is likely to occur in a liquidity and increase our cost of funding, which could adversely affect our business, financial condition, and the results of operations. Furthermore, a compromised liquidity position or difficulty in accessing credit markets can hinder subsequent fund-raising efforts. Maintaining adequate liquidity and credit access is critical to our operational stability, client confidence, and future fund-raising capabilities, and any significant disruptions in these areas could have far-reaching negative impacts on our business.

Additionally, clients, particularly financial institutions clients, may be less inclined to provide funding or invest in our funds. This can create a vicious cycle where limited access to credit exacerbates liquidity issues, making it even more challenging to secure new investments or refinance existing debts.

54. Our Promoters and certain of our Directors may be involved in ventures which are engaged in the same line of activity or business as that of our Company and this may result in conflicts of interest with us. Our Directors, Key Managerial Personnel and Senior Management may have interests in our Company in addition to their remuneration and reimbursement of expenses. Further, certain of our Group Companies operate in a similar line of business, which may lead to competition with these entities and could potentially result in a loss of business opportunity for our Company.

Certain of our Promoters, our Directors or our Key Managerial Personnel may be involved in ventures, which are engaged in the same line of activity or business as that of our Company, and may be interested to the extent of any transaction entered into by our Company with any other company, firm or entity in which they are interested, including as a director, shareholder, or promoter. We cannot assure you that our Promoters, our Directors or our Key Managerial Personnel will not provide competitive services or otherwise compete in business lines in which we are already present or will enter into in the future. This may give rise to conflicts of interest, which may adversely affect our business, financial condition and results of operations. Further, certain of our Promoters and Group Companies, including, Edelweiss Financial Services Limited, Edelweiss Securities and Investments Private Limited, Edelweiss Global Wealth Management Limited and Edelweiss Asset Management Limited, are engaged in a business similar to that of our Company. We shall adopt necessary procedures and practices as permitted by law to address any situations that may lead to conflict, as and when they may arise. For further details, see "***Our Management – Interest of Directors***" *and* "***Our Promoters and Promoter Group – Interests of our Promoters" and "Group Companies – B. Common pursuits between our Group Companies and our Company***" on pages 281, 300, and 434 respectively.

55. Any significant business disruptions and failure to maintain an effective business continuity management plan, could result in our business, financial condition, results of operations, and development prospects being adversely affected.

Events such as natural disasters, cyber-attacks, technical failures, or pandemics can disrupt our operations and impact our ability to provide timely services to clients and maintain regulatory compliance. Inadequate preparedness or response to such disruptions can lead to operational downtime, data loss, reputational damage, and financial loss. Specifically, assets held by investee companies where our funds have invested may experience damage due to natural disasters These events also disrupted business operations, directly impacting our revenue. Such natural calamities exemplify the vulnerabilities within our infrastructure and highlight the pressing need for robust disaster recovery and mitigation strategies.

Cyber-attacks also pose a persistent threat, with the potential to compromise sensitive data, disrupt operational processes, and incur substantial financial and reputational costs. As we increasingly rely on digital systems for our operations, these threats necessitate stringent cybersecurity measures. Technical failures, including system breakdowns and technical malfunctions, can cause significant disruptions to our service delivery. Similarly, pandemics, as evidenced by the recent global health crisis, can severely impede our operational capabilities and workforce availability. We have a business continuity management ("**BCM**") plan in place to address these risks; however, we cannot assure you that this plan will be entirely effective or that our operations will not be materially impacted. The effectiveness of our BCM plan is dependent on several factors including the nature, extent, and timing of the disruption, our preparation and response capabilities, and external dependencies over which we have limited control. Failure to maintain an effective business continuity management plan and adequately respond to these disruptions could have an adverse effect on our business, financial condition, and results of operations. While there have been no such material instances, our ability to continue generating revenues from affected entities, restore operational normalcy, and uphold our reputation is contingent upon the robustness of our preparedness and response strategies.

Furthermore, although we back-up business data regularly and we have a comprehensive different-city disaster recovery plan, any prolonged disruption to or malfunction in the operation of our information technology systems could limit our ability to monitor and manage data, control financial and operational conditions, monitor and manage our risk exposures, keep accurate records, provide high-quality client service, and develop and sell profitable products and services. Recovery from such disasters may be unable to mitigate our losses incurred during such malfunctions or disruptions. While we have not experienced any such issues in the past, there can be no assurance that it would not happen to us in the future. In addition, insurance or other precautionary measures may only partly, if at all, mitigate our losses.

56. We have, from time to time, availed certain secured and unsecured borrowings. If we are unable to comply with repayment and other covenants in our financing agreements, our business, financial condition, cash flows and credit rating could be adversely affected.

We have entered into various financing arrangements for purposes including meeting working capital requirements, general corporate purposes and other business requirements.

**As certified by NGS & Co. LLP, Chartered Accountants (FRN: 119850W/W100013), by way of their certificate dated October 19, 2026.*
Note: For market linked debentures and non-convertible debentures, face value has been considered as sanction amount.
The secured lenders of the Company as on the date of this Prospectus are Axis Bank Limited, ICICI Bank Limited, Federal Bank Limited, IndusInd Bank Limited, Poonawala Fincorp Limited and debenture holders.

Certain of our borrowings contain restrictive covenants, including, but not limited to, requirements that we obtain consent from and provide notice to the lenders prior to undertaking certain matters including altering our capital structure, changing our shareholding, changing the management and control, dilution of promoters' shareholding, and amending our constitutional documents. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business. Any fluctuations in the interest rates may directly impact the interest costs of such loans. Any demand from the lenders for repayment of such unsecured loans may affect our cash flow and financial condition. Our ability to make payments on and refinance our indebtedness will depend on our continued ability to generate cash from our future operations which to a certain extent is subject to general economic, financial, competitive, legislative, legal, regulatory and other factors, many of which are beyond our control. If our future cash flows from operations and other capital resources are insufficient to pay our debt obligations, meet our contractual obligations, or to fund our other liquidity needs, we may be forced to sell assets or attempt to restructure or refinance our existing indebtedness. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business and operations. In addition, any failure to make payments of interest and principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our creditworthiness and/or any credit rating we may hold, which could harm our ability to incur additional indebtedness on acceptable terms.

We have received necessary consents from our lenders for the Offer and related actions. Any failure to comply with the conditions and covenants in our financing agreements that is not waived by our lenders or otherwise cured could lead to a termination of our credit facilities, foreclosure or transfer of our assets, acceleration of all amounts due under such facilities or trigger cross-default or cross-acceleration provisions under certain of our other financing agreements, any of which could adversely affect our liquidity, financial condition and our ability to conduct and implement our business plans. Any default can negatively impact our credit rating, leading to difficulties in securing future loans at favorable interest rates. For more details of our indebtedness, please see "***Financial Indebtedness***" on page 416.

57. We do not own our Registered Office, and the Branch Offices from which we operate.

We do not own our Registered Office situated at Edelweiss House, Off C.S.T. Road, Mumbai City, Kalina

Mumbai 400 098, Maharashtra, India, and our two Branch Offices premises are occupied by us on a leave and license or leasehold basis. The average term for the lease deed is about four years. For further details, see "***Our Business – Properties***" on page 259. While we renew these leave and license agreement, lease agreements and deeds periodically in the ordinary course of business and have not experienced any instances that our agreements and deeds cannot be renewed on favorable terms or at all, in the event that these existing leases are terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our operations. If alternative premises are not available at the same or similar costs, sizes or locations, our business, financial condition, cash flows and results of operations may be adversely affected. If we are unable to comply with these requirements, we may not be able to renew our lease in these industrial development corporation premises and have to relocate our operations which may not be cost-effective.

In addition, any regulatory non-compliance by the landlords or adverse development relating to the landlords' title or ownership rights to such properties, including as a result of any non-compliance by the landlords, may entail significant disruptions to our operations and expose us to reputational risks, especially if we are forced to vacate leased spaces following any such developments. If our revenue does not increase in line with our rent and costs, including setup and interior design costs, our profitability, cash flows and results of operations could be adversely affected.

58. The higher sponsor commitment under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations 2012, as amended may increase our exposure to risks associated with alternate investment fund investments.

Under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations 2012, as amended (the "**SEBI AIF Regulations**"), the sponsor (or manager) of an alternative investment fund ("**AIF**") is required to have a continuing interest in the AIF of not less than the prescribed minimum threshold. Our commitment (including sponsor commitment) in the AIFs/funds managed by us is equal to or exceeds this minimum threshold as prescribed under the SEBI AIF Regulations.

While a higher sponsor commitment is intended, among other things, to demonstrate alignment of interest with investors in the AIFs/funds and support the growth of the AIF business, it also increases our direct economic exposure to the performance of such AIFs/funds. Any adverse performance of these AIFs/funds, including as a result of market volatility, concentration risk, credit risk, liquidity risk, valuation risks, regulatory changes or other factors affecting the underlying portfolio investments, could have a proportionately greater impact on our financial condition, results of operations and cash flows than if our commitment were limited to the regulatory minimum.

59. Limited liquidity and long-term nature of the investments made by the funds managed by our Company and our subsidiaries may result in a significant time lag between deployment of funds and realization of returns.

Investments made by the funds managed by our Company and our subsidiaries (the "**Funds**") are typically long-term in nature, with extended investment horizons and limited liquidity. The Funds which we manage generally invest in asset classes such as unlisted securities, privately negotiated instruments, stressed assets, companies that hold real estate and infrastructure assets or other less liquid instruments, which may not have an active secondary market and may be subject to contractual or regulatory restrictions on transfer. As a result, portfolio investments of our Funds may not be realised or exited quickly, or at valuations that are favourable to the relevant Funds.

Accordingly, there may be a significant time lag between the deployment of capital by the Funds and the realisation of returns from such investments. This may impact the timing and quantum of management fees, performance fees and other income that we earn from managing such Funds and may result in volatility in our revenues and profitability from period to period. In addition, delays in exits, write-downs in the value of portfolio investments or prolonged periods of underperformance could adversely affect the returns generated by the Funds we manage.

Any such delays in realisation of investments, or inability to exit investments on favourable terms or within the anticipated time frame, could materially and adversely affect the performance track record of the Funds managed by us, which in turn may impact our reputation, our ability to attract and retain investors in our Funds, and our business, financial condition, results of operations and cash flows.

60. An investment in our Equity Shares is not the same as an investment in the alternative investment funds managed by us and any adverse development affecting our asset management business, could materially and adversely affect the value of the investment in our Equity Shares.

An investment in the Equity Shares of our Company is fundamentally different from, and is not equivalent to, an investment in the alternative investment funds ("**AIFs**") managed or sponsored by us. Investors in our Equity Shares will not have any direct interest in, or exposure to, the portfolio securities or other underlying investments held by such AIFs/funds. Instead, you will be exposed to the performance of our asset management and related businesses as a whole.

The financial performance of our Company is driven by factors such as the level of our fee paying assets under management ("**FPAUM**"), the management fees, variable additional return and other income that we earn from managing AIFs/funds and other products, our operating expenses, regulatory and compliance costs, competition, market conditions affecting fundraising and exits, and our capital allocation decisions. These may not correlate with, and in some cases may differ significantly from, the performance of the underlying investments held by the AIFs/funds that we manage. For example, our management fees is generally charged as a percentage of capital committed, capital invested, NAV, gross block etc. and may continue notwithstanding short-term underperformance of an AIF's portfolio, or conversely, our profitability may be adversely affected due to higher costs or lower fundraising even if certain AIFs/funds perform well.

Shareholders in our Company do not have redemption rights, distribution entitlements, fund reporting rights, or other rights or other protections that are typically available to investors in AIFs/funds pursuant to the relevant fund documents and applicable regulations. In addition, Shareholders will not participate directly in any distributions, realised gains or other cash flows generated at the AIF level, except to the extent that such items contribute to our profits and are, in turn, available for distribution as dividends at the discretion of our Board and Shareholders, subject to applicable law.

Accordingly, the risks and returns associated with holding Equity Shares of our Company are different from those associated with investing in the AIFs/funds that we manage. An investment in our Equity Shares should not be viewed as a proxy for, or a substitute for, an investment in any such AIFs/funds. Any adverse development affecting our asset management business, even if certain AIFs/funds perform favourably, or any inability to grow and manage our business effectively, could materially and adversely affect the value of your investment in the Equity Shares.

61. If our credit ratings are downgraded in the future, interest rates for our future borrowings may increase, adversely affecting our ability to borrow and renew maturing debt on competitive terms.

The table below sets out our credit ratings for our non-convertible debentures ("**NCDs**"), market linked debentures ("**MLDs**"), bank loan facilities, and commercial papers ("**CPs**")**.**

	Financial Year 2026	Financial Year 2025	Financial Year 2024
CRISIL rating for MLDs	A+	A+	A+
CRISIL rating for NCDs	A+	A+	A+
Acuite rating for NCDs/ MLDs	A+	A+	A+
Brickworks rating for MLDs	A+	A+	AA-
Crisil and Infomerics rating for CP	A1+	A1+	NA
CRISIL rating for bank loan facilities	A+	A+	A+

There is no change in credit ratings post Financial Year 2026. If our credit ratings were to be downgraded in the future, the interest rates at which we borrow funds are likely to increase. This would have a direct impact on our ability to borrow new money or renew maturing debt under competitive terms, thereby increasing our overall cost of capital. An increase in borrowing costs would negatively affect our financial performance, as we would incur higher interest expenses, reducing our net income and cash flows. Furthermore, the downgrade in credit ratings could lead to stricter borrowing terms imposed by lenders, such as increased collateral requirements or covenants, which might limit our financial and operational flexibility.

Higher borrowing costs may hinder our ability to finance existing and new investments, thereby adversely affecting our growth prospects and profitability. In addition, a downgrade in our credit ratings could also damage our reputation with clients and counterparties, potentially leading to decreased client confidence and an adverse impact on our business, financial condition and results of operations. See "***A significant decrease in our internal or external liquidity, or potential lack of access to credit could adversely affect our business and reduce client confidence in us.***" on page 53.

62. Our business operation is exposed to market risk, and we may not be able to manage the risks to which we are exposed, which could have a material adverse effect on our business, financial condition and results of operations.

We have business investments in financial products such as liquid mutual funds and bank deposits, in addition to our investments as a general partner or sponsor. Our investments are exposed to risks arising from fluctuations in the Indian capital markets space. The downturn of the securities markets may result in a decrease of the unrealized gain of investment assets or unrealized or realized losses, any of which may have a material adverse effect on our business, financial condition, results of operations and prospects. Certain of our assets, such as part of our available-for-sale financial assets, are valued at market prices. If the available-for-sale financial assets devalue significantly and our management considers that the devaluation is not temporary, impairment losses may be recognized. Such estimates are based on judgments which involve the assessment of various factors. See *"**Management's Discussion and Analysis of Financial Position and Results of Operations — Material Accounting Policies Financial Instruments***" on page 398. The recognition of asset impairment losses may have a material adverse impact on our results of operations.

63. Our risk management policies and procedures, and internal controls may not be adequate or effective in identifying or managing risks to which we are exposed, and this could have a material adverse effect on our business, financial condition and results of operations.

Risk management policies and procedures are integral to our business operations. Our business operations depend on the proper operation of business, accounting and other data processing systems, and the proper handling of documents relating to our business, finance and operation. If we make any mistake in operating data processing systems or handling documents, we may face business disruption, financial loss, intervention by regulatory authorities and reputational loss. We cannot assure you that there will be no operational errors. If any operational errors occur, we may not be able to identify or rectify these operational errors and solve the problems caused thereby in a timely manner, or at all. Such problems may include failure to carry out the operation of key business, wrong execution or delay, impairing our ability to monitor and manage data or non-compliance with regulatory requirements. If we cannot solve these problems in a timely manner, our business, financial condition and results of operations may be materially and adversely affected.

Our risk management policies, procedures and internal controls may not be adequate or effective in identifying or managing risks to which we are exposed. For example, we have, in the past, experienced instances of delays in regulatory reporting, inaccuracies in investor communications, or errors in fund accounting. While corrective actions for these cases have been put in place, there can be no assurance that such or similar instances will not happen in the future. If we fail to address any internal control matters and other deficiencies in a timely and effective manner, such matters or deficiencies may result in investigations, disciplinary actions or even prosecutions being taken against us or our employees, or disruption to our risk management system, any of which may have a material adverse effect on our business, financial condition and results of operations. Additionally, the effectiveness of our risk management and internal controls and procedures may also be adversely affected by misjudgment, clerical mishandling and errors, reporting errors or our limited experience or resources in making accurate, complete, up-to-date or proper evaluations. Many of our methods for managing risk exposure are based upon observed historical market behavior or data. Future risk exposure can be significantly greater than what these methods have historically estimated. Moreover, the information and empirical data that we rely on may quickly become obsolete because of market and regulatory developments, and our historical data may not be able to adequately reflect risks that may emerge from time to time in the future.

64. We rely on third-party service providers and other intermediaries in several areas of our operations and may not have full control over the services provided by them to us or to our clients; and outsourcing some of these activities may expose us to potential risks and liabilities that could have a material adverse impact on our business, financial condition, results of operations and prospects. Further, our operations are heavily dependent on information technology systems, including those managed or operated by third parties, and any system failure, cyber security breach, virus attack or prolonged disruption to such systems could have a material adverse impact on our business, financial condition, results of operations and prospects.

We rely on third party service providers on a regular basis in several areas of our operations, such as investment due diligence, legal, valuers, trustees to securities in which investments are made, registrar and transfer agent, fund accounting and custodial services. While there have been no material instances of conflicts of interest in the past, between the third-party service providers and other intermediaries (crucial for operations of the company) and the Company, Promoters, Promoter Group, Key Managerial Personnel, Senior Management, Directors and

Subsidiaries/Group Companies and its directors, we cannot assure you that there won't be such conflicts in the future.

While outsourcing operations, or services offer benefits such as cost savings, increased efficiency, and access to specialized expertise, it also involves a number of potential risks. These risks include, but are not limited to, the service provider's failure to perform in accordance with the agreed-upon standards, which could result in operational disruptions, financial losses, or reputational damage. Additionally, reliance on third-party service providers can expose us to information security and data privacy risks. While we have not experienced any security or data breach in the past, there can be no assurance that it would not happen to us in the future. If a service provider were to suffer a security breach or fail to protect our sensitive information, it may lead to data loss, theft, or unauthorized disclosure, potentially resulting in regulatory fines, legal liabilities, and a loss of client trust. There is also the risk that the service provider might become insolvent or otherwise unable to fulfill its contractual obligations, disrupting our ability to carry out critical business functions. Any failure on our part to effectively manage and mitigate these risks associated with outsourcing could have a material adverse effect on our financial condition, results of operations, and overall business performance. Moreover, in the event any of these third parties were to terminate their contractual relationships with us or fail to provide the agreed services to us for any reason, whether as a result of a lack of robust business continuity planning on their part or otherwise, our business and results of operations could be materially disrupted until suitable alternatives are put in place.

Furthermore, we do not have full control over the management of information technology systems. Our operations depend heavily on our business, accounting, and other data processing systems. The failure of normal operation or even inability in operation of any of our information technology systems, cyber security breaches and virus attacks may expose us to financial losses, business disruption, intervention of regulatory authorities, or reputational damage. Our business processing, accounting, financial controls, risk management, client service, and other business functions are dependent on the proper functioning of our information technology systems and communication networks, as well as those of certain third parties. If the fundamental system which supports our business suffers from malfunction or disruption, including system problems, data leakage, or communication disruptions of our systems or the systems of any third parties we engage, we may be indirectly affected, which may have a material adverse effect on our ongoing business. These failures could be caused by, among other things, hardware failure, software program errors, computer virus attacks, network failure, conversion errors due to system upgrading or system relocation, data leakage, failure to implement new IT initiatives, human errors, natural disasters, war, terrorist attacks, blackouts, and unanticipated problems of facilities, many of which are beyond our control. Although we back-up business data regularly and we have a comprehensive disaster recovery plan, any prolonged disruption to or malfunction in the operation of our information technology systems could limit our ability to monitor and manage data, control financial and operational conditions, monitor and manage our risk exposures, keep accurate records, provide high-quality client service, and develop and sell profitable products and services. Recovery from such disasters may be unable to mitigate our losses incurred during such malfunctions or disruptions. While we have not experienced any such issues in the past, there can be no assurance that it would not happen to us in the future. In addition, insurance or other precautionary measures may only partly, if at all, mitigate our losses.

65. Changes in data privacy laws, rules and regulations could have a material adverse effect on our business, financial condition and results of operations.

We are subject to data privacy laws, rules and regulations that regulate the use of client data. Compliance with these laws, rules and regulations may restrict our business activities, require us to incur increased expense and devote considerable time to compliance efforts. For example, data privacy laws, rules and regulations could limit our ability to leverage our large client base, to develop cross-selling opportunities. Applicable data privacy laws, rules and regulations could also adversely affect our distribution channels, such as our direct distribution channel, and limit our ability to use third-party firms in connection with client data. Some of our corporate agency agreements include provisions providing for the sharing of client data between us and our distribution partners, which is done in accordance with applicable laws, rules and regulations relating to data privacy. In the event of any change of such norms in the future, we may be unable to honor our obligations under these agreements, which may adversely affect our business.

Some of these laws, rules and regulations are relatively new and their interpretation and application remain uncertain. Data privacy laws, rules and regulations are also subject to change and may become more restrictive in the future. For instance, the Digital Personal Data Protection Act, 2023 ("**DPDP Act**") received the assent of the President of India on August 11, 2023, and replaced the erstwhile data protection provisions, as contained in Section 43A of the Information Technology Act. The DPDP Act is applicable to processing of digital personal data ("**PD**"): (a) within the territory of India where such PD is collected from data principals online and PD

collected offline, if digitized; and (b) outside the territory of India, if the processing is in connection with any activity related to offering of goods or services to data principals within the territory of India. The enactment of the DPDP Act introduces stricter data protection norms for companies in India, which may result in additional costs incurred to ensure compliance. The Ministry of Electronics and Information Technology has notified the Digital Personal Data Protection Rules, 2025, in the official gazette on November 13, 2025 ("**Draft DPDP Rules**"), which further elaborate on the operational aspects of the DPDP Act. The DPDP Rules regulate, among other things, the processing of personal data in India, ensuring individuals privacy rights are protected and provide an actionable framework. The DPDP Rules apply to all entities that process digital personal data, both within India and abroad. While the substantive obligations under the DPDP Rules will take effect after 18 months from the date of notification, a limited set of governance and institutional provisions have been brought into effect immediately. The implementation of such laws can increase our employee costs and data security and compliance related costs thereby adversely impacting our results of operations, cash flows, business, and financial performance. Such changes or further restrictions in data privacy laws, rules and regulations could have a material adverse effect on our business, financial condition and results of operations. While we have not experienced any such breaches in the past, there can be no assurance that it would not happen to us in the future.

66. We customize several technological applications for our business operations. Deficiencies in application development, testing, maintenance, and operations may adversely affect our business, financial condition, and results of operations.

We seek to customize a number of technological applications through our vendors to meet our business requirements to streamline processes, and enhance service delivery. However, deficiencies in any phase of the application lifecycle, whether it be development, testing, maintenance, or operations, may lead to significant risks.

Inadequate development processes may result in applications that do not meet business requirements or have inherent design flaws. These deficiencies can undermine our operational efficiency and lead to the deployment of non-functional or suboptimal applications, thereby increasing costs and reducing user satisfaction. Insufficient testing procedures can fail to identify critical bugs or vulnerabilities within the applications, leading to operational disruptions, security breaches, incorrect reporting to clients and data loss. Such issues can hamper our ability to deliver high-quality services, damage our reputation, and expose us to potential legal and regulatory risks. Maintenance shortcomings can further exacerbate these risks by making it difficult to address evolving business needs, resolve issues promptly, or implement necessary upgrades. This can slow down innovation, reduce application performance overtime, and strain our information technology resources.

Operational deficiencies, including inadequate documentation, poor change management, or insufficient user training, may result in inefficient use of applications, increased downtime, and higher operational costs. These factors collectively can impair our ability to achieve business objectives, affect our bottom line, and erode client confidence. As a result, deficiencies in our in-house technological applications development, testing, maintenance, and operations can have a material adverse effect on our business, financial condition, and results of operations.

67. Risks associated with emerging technologies may adversely affect our business, financial condition, and results of operations.

Business technologies that we require for our operations increasingly rely on the integration and utilization of emerging technologies such as artificial intelligence, blockchain, cloud computing, and advanced data analytics. While these technologies offer significant opportunities for innovation and efficiency, they also present unique risks that could adversely affect our business, financial condition, and results of operations.

One of the primary risks is technological unpredictability. Emerging technologies are often in developmental stages and may not perform as expected or integrate seamlessly with existing systems. This unpredictability can lead to operational disruptions, increased costs, and delays in project timelines, ultimately impacting our service delivery and client satisfaction. Security vulnerabilities inherent in emerging technologies pose another significant risk. As these technologies evolve, so do the methods by which cyber-attacks are conducted. Inadequate security measures can result in data breaches, loss of sensitive information, and compromised system integrity, which can attract regulatory scrutiny, lead to financial penalties, and damage our reputation.

Additionally, the rapid pace of technological innovation may render existing technologies obsolete, necessitating continuous investment in new systems and upgrades. This can strain our financial resources and divert funds from other critical areas of our business. Failure to keep up with technological advancements could also result in a competitive disadvantage, as competitors who more effectively leverage these technologies may capture greater market share.

There are several risks associated with emerging technologies such as AI. AI models may make errors due to multiple reasons including biases in training data or design, etc. leading to unfair or inaccurate decisions. Furthermore, AI models' access to datasets may possibly lead to data privacy violations or regulatory non-compliance.

68. The reputation of our brand and those of our Subsidiaries plays a crucial role in attracting and retaining clients, and stakeholders. Any mismanagement of our brand and media presence, including negative publicity, inconsistent messaging, or ineffective marketing strategies, can have significant adverse effects.

Our revenue, results of operations, business, and prospects are, to a certain extent, dependent on the strength of our brand and those of our subsidiaries and reputation as well as the brand and reputation of our Promoters and management. While our brand is well recognized, we and our subsidiaries may be vulnerable to adverse market and client perception, particularly in the financial services sector where integrity, trust, and client confidence are paramount. We are exposed to the risk that litigation, misconduct, operational failure, negative publicity (including through social media channels), or press speculation could harm our brand and reputation. While there have been no such instances in the past, there can be no assurance it would not occur in the future. Our reputation could be adversely affected if our schemes, products, or services do not perform as expected, whether or not the expectations are founded. In addition, our reputation could be affected by the conduct or performance of third parties over which we have no control. For details, please see "***We rely on third-party service providers and other intermediaries in several areas of our operations and may not have full control over the services provided by them to us or to our clients; and outsourcing some of these activities may expose us to potential risks and liabilities that could have a material adverse impact on our business, financial condition, results of operations and prospects. Further, our operations are heavily dependent on information technology systems, including those managed or operated by third parties, and any system failure, cyber security breach, virus attack or prolonged disruption to such systems could have a material adverse impact on our business, financial condition, results of operations and prospects***" on page 58 of this Prospectus.

We and our subsidiaries may also be exposed to adverse publicity relating to the investment industry as a whole. An incident related to us, our subsidiaries, or the conduct of a competitor unrelated to us may taint the reputation of the industry as a whole and may affect the perception of clients and the attitude of regulators. Furthermore, negative publicity, including incorrect reporting by the media may result in greater regulatory scrutiny of our operations, those of our subsidiaries, and of the industry generally. If we are unable to maintain our brand name and our reputation, or if there is reputational harm to other Promoter entities, our business, financial condition, and results of operations could be materially and adversely impacted.

69. Our failure to comply with anti-money laundering, insider trading, anti-terrorist financing rules, regulations, circulars and guidelines applicable to us issued by various regulatory and government authorities could result in criminal and regulatory fines and severe reputational damage.

We are required to comply with applicable anti-money laundering and anti-terrorist financing laws and other regulations in India (including the Prevention of Money Laundering Act, 2002 and rules and regulations made thereunder, SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 2003 and SEBI (Prevention of Insider Trading) Regulations, 2015. These laws and regulations require us to, among other things, adopt and enforce know-your-customer ("**KYC**"), anti-money laundering ("**AML**") and counter-terrorism policies and procedures and report, insider trading policies and procedures, suspicious and large transactions to the applicable regulatory authorities in different jurisdictions.

Although we have implemented anti-money laundering, KYC and insider trading policies and procedures and seek to adhere to all requirements under applicable law, our business and reputation could suffer if we fail to fully comply with the applicable KYC/AML laws and regulations and the relevant government agencies and regulatory authorities may impose fines and other penalties against us, which could adversely affect our business and reputation.

While we have not received regulatory observations highlighting any instances of procedural lapses relating to KYC rules and regulations in the past, we cannot assure you that we will be able to prevent the occurrence of lapses in the future. Any failure by us to comply with such regulatory requirements could expose us to significant monetary liabilities, regulatory challenges and reputational damage. Penalties imposed by regulators may generate adverse publicity for us and our business. Such adverse publicity or any future scrutiny or investigation could result in fines and damage to our reputation and involve significant time and attention of our management and may materially adversely affect our business and financial results.

70. Any delay or failure to receive new, renew or maintain necessary regulatory approvals or submit regulatory reports could adversely affect our business and operations.

We require certain approvals, licenses, registrations and permissions for operating our business. For further details, please see "***Key Regulations and Policies***" and "***Government and Other Approvals***" on pages 264 and 429, respectively.

While we have procured all material approvals for our operations, the failure to obtain necessary approvals or renew licenses required in relation to our business, may materially affect our ability to carry on or conduct our business including regulatory sanctions, penalties and/or suspension. Furthermore, any failure to obtain relevant licenses or to comply with the terms of any licenses that we are currently required to maintain, could subject us to penalties and restrict our ability to conduct certain lines of business. Additionally, compliance with regulatory reporting requirements is crucial for our operations. Any delays or failures in submitting mandatory regulatory reports may result in fines, legal actions, and increased scrutiny from regulatory bodies, which could adversely impact our business reputation and financial stability.

71. Information barriers may give rise to certain conflicts and risks and investment teams managing the activities of businesses that operate on opposite sides of an information barrier will not be aware of, and will not have the ability to manage, such conflicts and risks.

Certain businesses within our asset management operations operate largely independently of one another pursuant to an information barrier. The information barrier restricts businesses on opposite sides from coordinating or consulting with one another with respect to investment activities and/or decisions. Accordingly, these businesses manage their investment operations independently of each other. The investment activities and decisions made by a business on one side of an information barrier are not expected to be subject to any internal approvals by any person who would have knowledge and/or decision-making control of the investment activities and decisions made by a business on the other side of the information barrier. This absence of coordination and consultation will give rise to certain conflicts and risks in connection with the activities of the businesses within our asset management operations and their portfolio companies, and make it more difficult to mitigate, ameliorate or avoid such situations. These conflicts (and potential conflicts) of interests may include: (i) competing from time to time for the same investment opportunities, (ii) the pursuit by a business on one side of the information barrier of investment opportunities suitable for a business on the other side of the information barrier, without making such opportunities available to such business, and (iii) the formation or establishment of new verticals or products that could compete or otherwise conduct their affairs without regard as to whether or not they adversely impact the verticals or products of our businesses operating on the other side of the information barrier. Investment teams managing the activities of businesses that operate on opposite sides of an information barrier are not expected to be aware of and will not have the need or ability to manage, such conflicts which may impact the investment strategy, performance and investment returns of certain businesses within our asset management operations and their portfolio companies.

The asset management businesses that operate on opposite sides of an information barrier are likely to be deemed affiliates for purposes of certain laws and regulations notwithstanding that such businesses may be operationally independent from one another. The information barrier does not eliminate the requirement that such businesses aggregate certain investment holdings for certain securities laws and other regulatory purposes. This may result in, among other things, earlier public disclosure of investments; restrictions on transactions (including the ability to make or dispose of certain investments at certain times); potential short-swing profit disgorgement; penalties and/or regulatory remedies; or adverse effects on the prices of investments for our asset management businesses that operate on the other side of such information barrier.

Although these information barriers were implemented to address the potential conflicts of interests and regulatory, legal and contractual requirements applicable to our asset management business, we may decide, at any time and without notice to our company or our shareholders, to remove or modify the information barriers within our asset management business. In addition, there may be breaches (including inadvertent breaches) of the information barriers and related internal controls. In the event that the information barrier is removed or modified, it would be expected that we will adopt certain protocols designed to address potential conflicts and other considerations relating to the management of the investment activities of those businesses that previously operated on opposite sides of an information barrier.

The breach or failure of such information barriers could result in the sharing of material non-public information between businesses that operate on opposite sides of an information barrier, which may restrict the acquisition or disposition activities of one of our businesses and ultimately impact the returns generated for our clients. In addition, any such breach or failure could also result in potential regulatory investigations and claims for securities

laws violations in connection with our direct and/or indirect investment activities. Any inadvertent trading on material non-public information, or perception of trading on material non-public information by one of our businesses or our personnel, could have a significant adverse effect on our reputation, result in the imposition of regulatory or financial sanctions and negatively impact our ability to raise third-party capital and provide investment management services to clients, all of which could result in negative financial impact to our investment activities.

72. Ineffective or inadequate management of environmental, sustainability and governance issues, or health and safety programs, could damage our reputation and, in turn, our business, financial condition and results of operations.

Environmental, sustainability and governance ("**ESG**") is becoming an increasingly important criterion for clients, and our perceived failure to address these issues may lead them to seek alternative investment managers. Additionally, increased ESG focus of our clients may require us to prioritize certain investment opportunities over the other, potentially more profitable opportunities due to ESG considerations.

While we have investment and ESG policies in place, we cannot assure you that our policies will be implemented effectively. Additionally, while our ESG policies align with global practices, and we are a signatory to the United Nations Principles for Responsible Investment ("**UNPRI**"), which obliges us to adhere to specific reporting and other obligations, clients may have their own standards and expectations which our ESG policies may not presently meet. Moreover, increasing focus on ESG by our clients may require us to prioritize certain investment opportunities over the other profitable opportunities. Our failure to effectively manage any ESG issues, including those related to climate change, could adversely affect our reputation and our ability to attract and retain clients.

Furthermore, if our health and safety programs are found to be inadequate or ineffective, it could lead to workplace incidents or regulatory breaches, which could result in significant financial penalties, increased scrutiny, and reputational damage. Such incidents could decrease employee morale and productivity, increase employee turnover, and potentially lead to costly litigation or compensation claims.

Increased regulatory action in response to perceived or actual shortcomings in our ESG, or health and safety management could result in constraints on our operations, additional compliance costs, and potential fines or sanctions. While there have been no such instances in the past, any of these outcomes would likely impair our financial performance and might diminish our competitive position.

73. We are subject to various labor laws and regulations governing our relationships with our employees and contractors.

Our full-time employees are entitled to statutory employment benefits, such as paid leaves, employee's provident fund and a defined benefit gratuity plan, among others. We are subject to various labor laws and regulations governing our relationships with our employees and contractors, including in relation to minimum wages, working hours, overtime, working conditions, hiring and terminating the contracts of employees and contractors, contract labor and work permits.

Any change in applicable labor laws that requires us to increase the benefits to the employees from the benefits now being provided may create potentially liability for us. Such benefits could also include provisions, which reduce the number of hours an employee may work for, or increase in number of mandatory casual leaves, which all can affect the productivity of the employees. For example, the Government of India notified new laws relating to social security, occupational safety, industrial relations and wages namely, the Code on Social Security, 2020 ("**Social Security Code**"), the Occupational Safety, Health and Working Conditions Code, 2020, the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume and replace numerous existing central labour legislations and have been implemented with effect from November 21, 2025 (collectively, the "**Labour Codes**"). Pursuant to the notification of the Labour Codes, the Government of India, on May 8, 2026, has notified the Occupational Safety, Health and Working Conditions (Central) Rules, 2026, Industrial Relations (Central) Rules, 2026, Code on Wages (Central) Rules, 2026, and Social Security (Central) Rules, 2026, to provide, among other things, the procedures for enforcement of the Labour Codes. The effect of these provisions on us cannot be predicted with certainty at this stage.

Currently, none of our workforce is unionized. If in the future any portion of our workforce were to join a union, it is possible that future calls for work stoppages or other similar actions could have a material adverse impact on our day-to-day operations, until disputes are resolved. Any changes or amendments in the industry wide settlement or periodical wage revisions may materially and adversely affect our business, future financial performance, results of operations and cash flows.

74. We have certain contingent liabilities and capital commitments, which, if they materialize, may affect our results of operations, financial condition and cash flows.

The following table sets forth our contingent liabilities and capital commitments as at the dates indicated:

(in ₹ million)

	June 30,		March 31,		
	2026*	**2025**	**2026***	**2025***	**2024***
Litigation of a Civil nature pending against the Holding Company	2.25	2.25	2.25	2.25	Nil
Aggregate demand relating to income tax matters under dispute, for which appeals are pending before the relevant appellate authorities	374.75	Nil	31.08	Nil	Nil
Capital commitments (Uncalled liability -undrawn commitment in case of units of AIFs)	4,969.96	3,410.35	4,231.40	3,034.04	5,651.72

Capital commitments (Estimated amounts of contracts remaining to be executed on capital account and not provided for)	13.89	Nil	21.59	Nil	Nil

**The financial details are in agreement with the Restated Consolidated Financial Information for the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024.*

We cannot assure you that we will not incur similar or increased levels of contingent liabilities in the future. If a significant portion of our contingent liabilities materialize and become actual liabilities, it could have an adverse effect on our results of operations, financial condition and cash flows. For details, see "***Restated Consolidated Financial Information***" on page 304.

75. Our Company's sponsor commitment in the alternative investment funds managed by us has ranged from 0.93% to 4.61% of the respective fund sizes for the funds launched during the three months ended June 30, 2026 and Financial Years ended March 31, 2026, March 31, 2025 and March 31, 2024, respectively, which is equal to or exceeds the minimum threshold specified under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations 2012, as amended. Such higher sponsor commitment may increase our exposure to risks associated with alternate investment fund investments.

Under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations 2012, as amended (the "**SEBI AIF Regulations**"), the sponsor (or manager) of an alternative investment fund ("**AIF**") is required to have a continuing interest in the AIF of not less than the prescribed minimum threshold. Our commitment (including sponsor commitment) in the AIFs/funds managed by us is equal to or exceeds the minimum threshold as prescribed under the SEBI AIF Regulations. In terms of the SEBI AIF Regulations, the manager or the sponsor of the AIF is required to maintain a continuing interest in the AIF of (i) not less than 2.5% of the corpus or ₹50.00 million, whichever is lower, in the form of investment in the AIF, for Category I and II AIFs; (ii) not less than 5% of the corpus or ₹100.00 million, whichever is lower, for Category III AIFs; and (iii) not less than 0.5% of the amount invested or ₹0.50 million, whichever is higher, in each investment, for angel funds. While a higher sponsor commitment is intended, among other things, to demonstrate alignment of interest with investors in the AIFs/funds and support the growth of the AIF business, it also increases our direct economic exposure to the performance of such AIFs/funds. Our Company's sponsor commitment in the alternative investment funds managed by us has ranged from 0.93% to 4.61% of the respective fund sizes for the funds launched during the three months ended June 30, 2026 and Financial Years ended March 31, 2026, March 31, 2025 and March 31, 2024, respectively. However, this historical range should not be regarded as a limit on, or an assurance of, the level of sponsor commitment for future funds, and our sponsor commitment in future funds may exceed 4.61% of the respective fund size, which would further increase our exposure to the performance of such AIFs/funds. Any adverse performance of these AIFs/funds, including as a result of market volatility, concentration risk, credit risk, liquidity risk, valuation risks, regulatory changes or other factors affecting the underlying portfolio investments, could have a proportionately greater impact on our financial condition, results of operations and cash flows than if our commitment were limited to the regulatory minimum.

76. We may not be able to successfully launch and scale new funds, which may adversely affect our growth, reputation and financial performance.

Our business strategy includes launching new funds and strategies from time to time, including alternative investment funds ("**AIFs**") and other pooled investment vehicles, to expand our product offerings, attract new

investors and increase our assets under management. The launch, fundraising, deployment and exit cycle for new funds involves a number of risks and uncertainties, and there can be no assurance that we will be able to successfully launch, raise, invest and exit such funds in line with our plans and past experience.

We may be unable, or may take longer than expected, to raise capital for new funds due to factors such as changes in market conditions, reduced risk appetite of investors, increased competition from other asset managers, regulatory developments affecting investors' allocation to such products, or our own performance track record. If we are unable to raise sufficient capital, or if fundraising is significantly delayed, we may not achieve the target size of such funds or may decide not to proceed with them. This could constrain our ability to grow our assets under management, management fee income and performance-based income.

Even where we are able to raise capital for new funds, we may not be able to identify and execute a sufficient number of suitable investment opportunities on acceptable terms within the expected deployment timeline. This may be due to, among other things, increased competition for deals, high valuation levels, limited availability of quality assets, sectoral or regulatory constraints, or changes in macroeconomic conditions. Delays in deploying capital or investing in assets that do not perform as expected may adversely affect the returns of new funds and our ability to earn management fees and performance-based income as anticipated.

Further, the ultimate performance of our new funds depends on our ability to successfully manage and exit investments, including through initial public offerings, trade sales, secondary sales or other liquidity events. Market volatility, lack of buyer interest, regulatory approvals, counterparty risks, sectoral challenges or broader economic conditions may delay or restrict exit opportunities or require exits at lower-than-expected valuations. If we are unable to achieve timely and successful exits, or if actual returns fall short of target returns communicated to investors, our performance track record, reputation and relationships with investors may be adversely affected.

Whilst there have not been any such instances which have materially affected us during the three months period ended June 30, 2026 and Financial Years 2026, 2025 and 2024, respectively, any of the above factors could result in lower than expected assets under management, fees and variable additional return from new funds, and could materially and adversely affect our business, financial condition, results of operations, cash flows and prospects.

77. We have commissioned an industry report from CARE which has been used for industry related data in this Prospectus and such data has not been independently verified by us.

The industry and market information contained in this Prospectus includes information that is derived from the CARE Report dated October 2026 prepared by CARE which has been paid for by us. The CARE Report has been commissioned and paid for by us for the purposes of confirming our understanding of the industry exclusively in connection with the Offer. The report uses certain methodologies for market sizing and forecasting and may include numbers relating to our Company that differ from those we record internally. Given the scope and extent of the CARE Report, disclosures herein are limited to certain excerpts and the CARE Report has not been reproduced in its entirety in this Prospectus. Neither our Company, its Subsidiaries, its Directors, Promoters, Promoter Group, Key Managerial Personnel, Senior Management or Promoter Selling Shareholder are related to CARE. Accordingly, investors should read the industry related disclosure in this Prospectus in this context.

Industry sources and publications are also prepared based on information as of specific dates. Industry sources and publications may also base their information on estimates, projections, forecasts, other third-party sources and assumptions that may prove to be incorrect. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Furthermore, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus. Accordingly, investors should not place undue reliance on or base their investment decision solely on this information. For further details, see "***Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation***" on page 14.

78. Our Company is not, and does not intend to become, regulated as an investment company under the U.S. Investment Company Act and related rules.

We have not registered and do not intend to register as an investment company under the U.S. Investment Company Act of 1940, as amended (the "**U.S. Investment Company Act**"). Accordingly, unlike registered investment companies, we will not be subject to the vast majority of the provisions of the U.S. Investment Company Act, including provisions that require investment companies to have a majority of disinterested

directors, provide limitations on leverage and limit transactions between investment companies and their affiliates. None of these protections or restrictions is or will be applicable to us.

If we were to become subject to the U.S. Investment Company Act because of a change of law or otherwise, the various restrictions imposed by the U.S. Investment Company Act, and the substantial costs and burdens of compliance therewith, could adversely affect our operating results and financial performance. Moreover, parties to a contract with an entity that has improperly failed to register as an investment company under the U.S. Investment Company Act may be entitled to cancel or otherwise void their contracts with the unregistered entity, and shareholders in that entity may be entitled to withdraw their investment.

We are relying on the exemption provided by section 3(c)(7) of the U.S. Investment Company Act to avoid being required to register as an investment company under the U.S. Investment Company Act and related rules. In order to help ensure compliance with the exemption provided by section 3(c)(7) of the U.S. Investment Company Act, our Company has implemented restrictions on the ownership and transfer of Equity Shares by any persons acquiring our Equity Shares in Offer who are in the United States or who are U.S. Persons (as defined in Regulation S under the U.S. Securities Act of 1933, as amended, which may materially affect your ability to transfer our Equity Shares. See "***Other Regulatory and Statutory Disclosures – Eligibility and Transfer Restrictions***" on page 447.

79. U.S. regulation of investment activities may negatively affect the ability of banking entities to purchase our Equity Shares.

The Volcker Rule generally prohibits certain "banking entities" from engaging in proprietary trading, or from acquiring or retaining an "ownership interest" (as defined therein) in, sponsoring or having certain relationships with "covered funds", unless pursuant to an exclusion and exemption under the Volcker Rule. As we are relying on an analysis that our Company does not come within the definition of an "investment company" under the U.S. Investment Company Act because of the exception provided under section 3(c)(7) thereunder, our Company may be considered a "covered fund" for purposes of the Volcker Rule. The following would be considered a "banking entity" subject to the Volcker Rule: (i) any U.S.-insured depository institution, (ii) any company that controls a U.S.-insured depository institution, (iii) any non-U.S. company that is treated as a bank holding company for purposes of Section 8 of the International Banking Act of 1978 (that is, a non-U.S. company that maintains a branch, agency or commercial lending office in the U.S.) and (iv) any affiliate or subsidiary of any of the foregoing under the U.S. Bank Holding Company Act, other than a "covered fund" that is not itself a banking entity under clauses (i), (ii) or (iii), above.

There may be limitations on the ability of "banking entities" to purchase or retain our Equity Shares in the absence of an applicable Volcker Rule exclusion or exemption. Consequently, depending on market conditions and the "banking entity" status of potential purchasers of our Equity Shares from time to time, the Volcker Rule restrictions could negatively affect the liquidity and market value of our Equity Shares.

Each investor must make its own determination as to whether it is a "banking entity" subject to the Volcker Rule and, if applicable, the potential impact of the Volcker Rule on its ability to purchase or retain our Equity Shares. Investors are responsible for analyzing their own regulatory positions and none of our Company, the BRLMs or any other person connected with the Offer makes any representation to any prospective investor or holder of our Equity Shares regarding the treatment of our Company under the Volcker Rule, or to such investor's investment in our Company at any time in the future.

80. Transfer restrictions for Shareholders in the United States may make it difficult to resell the Equity Shares or may have an adverse impact on the market price of the Equity Shares.

The Equity Shares have not been registered in the United States under the U.S. Securities Act or under any other applicable securities laws and are subject to certain transfer restrictions including restrictions on the resale of the Equity Shares by Shareholders who are in the United States and on the resale of Equity Shares by any Shareholders to any person who is in the United States. These restrictions may make it more difficult to resell the Equity Shares in many instances and this could have an adverse impact on the market value of Equity Shares. There can be no assurance that shareholders in the United States will be able to locate acceptable purchasers or obtain the required certifications to effect a sale.

81. One of our Directors does not have prior experience of directorship in companies listed on recognized stock exchanges, therefore, their guidance in relation to the affairs of our Company post listing may be limited.

One of our Director, namely, Sampa Bhasin, Non-Executive Independent Director, does not have any experience of being a director in companies listed on recognized stock exchanges. While all of our Directors are qualified professionals with substantial experience in their respective domains, some of the Directors due to reasons of them not having any experience of being directors in listed entities, they may not be familiar with the compliance requirements and regulatory scrutiny which a listed company is subject to. Accordingly, we may get limited guidance from them in relation to certain compliances as a listed entity.

External Risk Factors

82. Political, economic or other factors that are beyond our control may have an adverse effect on our business, results of operations, financial condition and cash flows.

Economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of the Government of India, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

The growth of our business has, to some extent, been driven by the growth of the Indian economy, the securities market, and the asset management sector. However, there have been periods of economic slowdown in India, which can be influenced by factors such as domestic consumption and savings, trade balance shifts, global economic uncertainties, liquidity crises, currency rate volatility, and agricultural production affected by annual rainfall. Any slowdown or reversal in the Indian economy's growth could reduce the amount of wealth directed towards savings and investments, diminish interest in the securities market, and decrease foreign investment. Such conditions could make it difficult to raise capital consistently from domestic markets, leading to a reduction in our AUM growth, FPAUM, Management and Advisory Fees and Total Income.

Furthermore, political instability, changing regulations, and various economic factors may deter offshore clients from investing in India. Uncertainties around the repatriation of income, fluctuations in currency exchange rates and cross-border tax implications could intensify client reluctance. Furthermore, the 2025 India-Pakistan conflict and tensions had resulted in much uncertainty and similar such incidents in the future could greatly reduce investors' confidence and foreign investments.

83. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax ("**DDT**"), in the hands of the company. However, the Government has amended the Income Tax Act, 1961 ("**Income Tax Act**") to abolish the DDT regime. Accordingly, any dividend distribution by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the domestic company is required to withhold tax on such dividends distributed at the applicable rate.

However, non-resident shareholders may claim benefit of an applicable tax treaty, read with the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting (Multilateral Instrument), if and to the extent applicable, subject to satisfaction of certain conditions. We may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of withholding tax pursuant to any corporate action including dividends. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in our Equity Shares. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future. For example, the Social Security Code aims to provide uniformity in providing social security benefits to the employees which was earlier segregated under different acts and had different applicability and coverage. Furthermore, the Wages Code limits the amounts that may be excluded from being accounted toward employment benefits (such as gratuity and maternity benefits) to a maximum of 50% of the wages payable to employees. The implementation of such laws has the ability to increase our employee and labor costs, thereby adversely impacting our results of operations, cash flows, business and financial performance. We are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future. For further details, please see "***Key Regulations and Policies in India***" on page 264.

The Parliament of India has passed the Bharatiya Nyaya Sanhita Bill, 2023, the Bharatiya Nagarik Suraksha Sanhita Bill, 2023 and the Bharatiya Sakshya Bill, which have replaced the Indian Penal Code, 1860, the Code of Criminal Procedure, 1973 and the Indian Evidence Act, 1872, respectively, with effect from July 1, 2024. The effect of the provisions of these on us and the litigations involving us cannot be predicted with certainty at this stage.

Unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. Compliance with evolving regulations may lead to increased costs and demand significant management time and resources, and any failure to comply may adversely affect our business, results of operations, financial condition, cash flows and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of limited or no precedent may be time consuming and costly for us to resolve, and may impact the viability of our current business or restrict our ability to grow in the future.

84. Catastrophic events (or combination of events), such as earthquakes, tornadoes, floods, fires, pandemics/epidemics, climate change, military conflict/war or terrorism/sabotage, could adversely impact our financial performance.

The assets in which our funds invest could be exposed to effects of catastrophic events, such as severe weather conditions, natural disasters, major accidents, pandemics/epidemics, acts of malicious destruction, climate change, war/military conflict or terrorism, which could materially adversely impact our operations.

A local, regional, national or international outbreak of a contagious disease such as COVID-19, which spreads across the globe at a rapid pace impacting global commercial activity and travel, or future public health crises, epidemics or pandemics, could materially and adversely affect our results of operations and financial condition due to disruptions to commerce, reduced economic activity and other unforeseen consequences that are beyond our control. The emergence and progression of a contagious disease and the actions taken in response by government authorities across various geographies in which the company owns and operates investments could interrupt business activities and supply chains, disrupt travel, contribute to significant volatility in the financial markets, impact social conditions and adversely affected local, regional, national and international economic conditions as well as the labor market. There can be no assurance that strategies that we employ to address potential disruptions in operations would mitigate the adverse impacts of any of these factors.

Natural disasters and ongoing changes to the physical climate in which we operate may have an adverse impact on the assets our funds invest in and this could affect our business, financial position, results of operations or cash flows. Changes in weather patterns or extreme weather (such as floods, wildfires, droughts, hurricanes and other storms) may negatively affect our businesses' operations or damage assets that we may own or develop. Furthermore, rising sea levels could, in the future, affect the value of any low-lying coastal real assets that we may own or develop. Climate change may increase the frequency and severity of severe weather conditions and may change existing weather patterns in ways that are difficult to anticipate. Responses to these changes could result in higher costs, such as the imposition of new property taxes, increases in insurance rates or additional capital expenditures.

Furthermore, our Commercial Real Estate Yield vertical is concentrated in large Tier 1 cities, some of which have been or may be perceived to be threatened by terrorist attacks or acts of war. Many of our properties consist of high-rise buildings that may also be subject to this actual or perceived threat. The perceived threat of a terrorist attack or outbreak of war could negatively impact our ability to lease office space in our real estate portfolio. Renewable power and infrastructure assets such as roads, railways, power generation facilities and ports, may also be targeted by terrorist organizations or in acts of war. Any damage or business interruption costs as a result of

uninsured or underinsured acts of terrorism or war could result in a material cost to us and could adversely affect our business, financial condition or results of operation. Adequate terrorism insurance may not be available at rates we believe to be reasonable in the future.

85. A downgrade in credit ratings of India may affect the trading price of the Equity Shares.

India's sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, all which are outside the control of our Company. Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing is available.

Our borrowing costs and our access to the debt capital markets may be adversely affected by a potential downgrade of India's sovereign debt rating from the current level of BBB+ as on September 2025 rated by Rating and Investment Information, Inc. (R&I), Japan, BBB(Stable) as on August 2025 by S&P Global, Baa3 (Stable) as on September 2025 by Moody's and BBB-(Stable) as on August 2026 by FitchRatings. Any further adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for reasons beyond our control such as, upon a change of government tax or fiscal policy. This could have an adverse effect on our ability to fund our growth on favorable terms or at all, and consequently adversely affect our business and financial performance and the price of the Equity Shares.

86. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly the emerging Asian market countries. Although, economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. Currencies of a few Asian countries have in the past suffered depreciation against the U.S. dollar owing to various factors. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur and could harm our business, future financial performance and the prices of our Equity Shares. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. For example, China is one of India's major trading partners and a slowdown in the Chinese economy or adverse developments in the relationship between the two countries could have an adverse impact on the trade relations between the two countries. Furthermore, given the current global geopolitical tensions such as the US-China tariffs war, the Russia-Ukraine conflict and the ongoing Israel-Iran-United States tensions, any potential developments might result in increased volatility in the India financial markets due to heightened global risk aversion, capital flow disruptions and commodity price fluctuations. Any significant financial disruption could have an adverse effect on our business, financial condition and results of operation. Furthermore, the United States has imposed tariffs on imports from India and the scope, rate and duration of these and any future measures remain subject to ongoing trade negotiations, policy changes and legal challenges, which may negatively affect the Indian economy in general.

The global credit and equity markets have from time to time, experienced substantial dislocations, liquidity disruptions and market corrections. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, may implement a number of policy measures designed to add stability to the financial markets. However, the overall impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. In the event that the current difficult conditions in the global credit markets continue or if there is any significant financial disruption, such conditions could have an adverse effect on our business, future financial performance and the trading price of our Equity Shares.

87. If inflation rises in India, increased costs may result in a decline in profits.

Inflation rates in India have been volatile in the past, and such volatility may occur in the future. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, wages, raw materials and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Furthermore, the Government

of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

88. Significant differences exist between the Indian Accounting Standards used to prepare our financial information and other accounting principles, such as the United States Generally Accepted Accounting Principles and the International Financial Reporting Standards, which may affect investors' assessments of our financial condition.

Our Restated Consolidated Financial Information, included in this Prospectus are presented in conformity with the Indian Accounting Standards ("**Ind AS**"), and restated in accordance with the requirements of the Companies Act, the SEBI ICDR Regulations, and the Guidance Note on Reports on Company Prospectuses (Revised 2019) issued by the ICAI. Ind AS differs from accounting principles with which investors may be familiar, such as Indian Generally Accepted Accounting Principles, United States Generally Accepted Accounting Principles ("**U.S. GAAP**") and International Financial Reporting Standards ("**IFRS**").

We have not attempted to explain in a qualitative manner the effect of the IFRS or U.S. GAAP on the financial information included in this Prospectus, nor do we provide a reconciliation of our financial information to those of U.S. GAAP or IFRS. Accordingly, the degree to which the Restated Consolidated Financial Information and the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices, Ind AS, the Companies Act and the SEBI ICDR Regulations. Persons not familiar with Indian accounting practices, Ind AS, the Companies Act and the SEBI ICDR Regulations should limit their reliance on the financial disclosures presented in this Prospectus.

89. This Prospectus includes certain non-GAAP financial measures, financial and operational performance indicators and other industry measures related to our operations and financial performance. The non-GAAP financial measures and industry measures may vary from any standard methodology that is applicable across the Indian alternative asset management industry and, therefore, may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies.

Certain non-GAAP financial measures and certain other industry measures relating to our operations and financial performance have been included in this Prospectus. We compute and disclose such non-GAAP financial measures, financial and operational performance indicators and other industry related statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used to evaluate the operational performance of entities in the alternative asset management industry, many of which provide such non-GAAP financial measures, financial and operational performance indicators and other industry related statistical information.

These non-GAAP financial measures, financial and operational performance indicators and other industry related statistical information relating to our operations and financial performance may not necessarily be defined under, or presented in accordance with, Ind AS and may not have been derived from the Restated Consolidated Financial Information. These non-GAAP financial measures, financial and operational performance indicators and other industry related statistical information may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and industry related statistical information of similar nomenclature that may be computed and presented by other companies in India and other jurisdictions. Such supplemental financial and operational information is therefore of limited utility as an analytical tool and should not be viewed as substitutes for performance or profitability measures under Ind AS or as indicators of our operating performance, financial condition, cash flows, liquidity or profitability. Investors are cautioned against considering such information either in isolation, or as a substitute for an analysis, of the Restated Consolidated Financial Information.

Further, we track certain financial and operational performance indicators, including FPAUM, Management and Advisory Fees, Variable Additional Return, GP Income, Total Income, Cost to Income, PAT, PAT Margin, Net Worth, Total Borrowings, ROE, cash and cash equivalents including bank balances, Total Assets and Debt to Equity. These key performance indicators are supplemental measures of our operations and financial performance and are not required by, or presented in accordance with, Ind AS, IFRS or U.S. GAAP, and are prepared with internal systems and tools that are not independently verified by any third party and which may differ from estimates or similar metrics published by third parties due to differences in sources, methodologies, or the assumptions on which we rely. Our internal systems and tools have a number of limitations and our methodologies for tracking these metrics may change over time, which could result in unexpected changes to our metrics, including the metrics we publicly disclose. If the internal systems and tools we use to track these metrics under count or over count performance or contain algorithmic or other technical errors, the data we report may not be accurate. While these numbers are based on what we believe

to be reasonable estimates of our measures for the applicable period of measurement. Limitations or errors with respect to how we measure data or with respect to the data that we measure may affect our understanding of certain details of our business, which could affect our long-term strategies.

Further, there can be no assurance that our key performance indicators will be higher than our comparable listed industry peers in the future. An inability to improve, maintain or compete, or any reduction in such key performance indicators in comparison with the listed comparable industry peers may adversely affect the market price of the Equity Shares.

90. Investors may have difficulty in enforcing foreign judgments against our Company or our management.

Our Company is incorporated under the laws of India and majority of our Directors reside in India. Furthermore, significant portion of our assets, and the assets of our Company, Key Managerial Personnel and Directors reside in India. As a result, it may be difficult to effect service of process outside India upon us and our Directors or to enforce judgments obtained in courts outside India against us or our Directors, including judgments predicated upon the civil liability provisions of the securities laws of jurisdictions outside India. Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908 ("**CPC**"). While India is not a party to the Convention on the Recognition and Enforcement of Foreign Judgments in Civil and Criminal matters, India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements of the CPC. The CPC only permits the enforcement of monetary decrees in the reciprocating jurisdiction, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India.

Even if an investor obtained a judgment in such a jurisdiction against us, our officers or Directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favor such final judgment is rendered may bring a fresh suit in a competent court in India based on a final judgment that has been obtained in a non-reciprocating territory within three years of obtaining such final judgment. Furthermore, there are considerable delays in the disposal of suits by Indian courts. However, it is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with public policy in India. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the RBI to repatriate any amount recovered pursuant to the execution of the judgment.

91. A third party attempting to acquire control of our Company shall be subject to anti-takeover provisions under Indian law.

There are provisions in Indian law that govern takeover or change in control of a company. In addition, our Company and our Subsidiaries are regulated under the SEBI regulations and other applicable laws which also include provisions for takeover or change in control of a Company. For instance, under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. These provisions have been formulated to ensure that the interests of investors/shareholders are protected and any acquirer will need to comply with the provisions of the Takeover Regulations in the event of a takeover.

92. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions) if they comply with the pricing guidelines and reporting requirements specified by the Reserve Bank of India (the "**RBI**"), and other applicable laws. If the transfer of shares, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be

required. Furthermore, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries and/or departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Indian income tax authorities.

Furthermore, this conversion is subject to the shares having been held on a repatriation basis and, either the security having been sold in compliance with the pricing guidelines or, the relevant regulatory approval having been obtained for the sale of shares and corresponding remittance of the sale proceeds.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares a land border with India, can only be made through the government approval route. Furthermore, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction and/or purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made similar amendment to the FEMA Non-debt Instruments Rules. Subsequently, *vide* Press Note No. 2 (2026 Series), dated March 15, 2026 issued by the DPIIT, the Consolidated FDI Policy has been further amended to, inter alia, define the expression "beneficial owner" and to provide that prior approval of the Government of India shall be required only where citizen(s) and/ or entity(ies) of a country sharing a land border with India have the ability to, directly or indirectly, individually or cumulatively, independently or collectively, whether acting together or otherwise, hold rights/entitlements more than 10% of the shares, capital or profits of the investor entity, or exercise control over such investor entity which is incorporated or registered in a country other than a country sharing land border with India, or exercise ultimate effective control over the investee entity in any manner. We cannot assure investors that any required approval from the RBI or any other government agency can be obtained on any particular terms or conditions or at all. For further information, see "***Restrictions on Foreign Ownership of Indian Securities***" beginning on page 503.

93. Our ability to raise foreign borrowings may be constrained by Indian law and this may affect our business growth, financial condition and results of operations.

While we do not have foreign currency borrowings as of the date of this Prospectus, as an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness in the future. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

94. Investors can be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares or dividend paid thereon.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. A securities transaction tax ("**STT**") is levied on and collected by an Indian stock exchange on which equity shares are sold. Non-Residents can also claim the benefits under any applicable double taxation avoidance agreement in respect of their capital gains income after providing the necessary documents as prescribed under the statute.

As a result, subject to any relief available under an applicable tax treaty or under the laws of their own jurisdictions, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of our Equity Shares.

Further, the Income-tax Act, 2025 ("**Income-tax Act**"), which came into force on April 1, 2026, repealed the erstwhile Income-tax Act, 1961. The Income-tax Act is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of the Income-tax Act or rules made there under depending upon its "Residential Status" and "Type of Income" involved. The Income-tax Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every company assessable to income tax under the Income-tax Act is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax and minimum alternative tax.

The Income-tax Act consolidates and simplifies the provisions of the erstwhile Income-tax Act, 1961, which had

been amended extensively over six decades through successive Finance Acts, including the Finance Act, 2025, enacted on March 29, 2025. While the Income-tax Act retains the core tax policy framework, including the concessional rates of tax available to certain domestic companies and new manufacturing companies originally introduced in 2019 by the Central Government, it reorganises and streamlines the statutory provisions for improved clarity and ease of compliance.

Additionally, vide Finance Act, 2020, an Indian company declaring, distributing or paying dividend after March 31, 2020 is not required to pay dividend distribution tax on such dividends, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and are likely to be subject to tax deduction at source. Furthermore, the Finance (No. 2) Act, 2024 has amended the buyback tax regime under the Income-tax Act, 1961, pursuant to which the consideration paid by the company to the shareholders upon buyback is deemed as dividend. Our Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including payment of dividends.

The Finance Act, 2019 introduced new provisions under the Indian Stamp Act, 1899, which provides that in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

95. Increasing employee compensation in India may erode some of our competitive advantage and may reduce our profit margins, which may have an adverse effect on our business, financial condition, cash flows and results of operations.

Employee compensation in India has historically been significantly lower than employee compensation in the United States and Western Europe for comparably skilled professionals, which has been one of our competitive strengths. However, compensation increases in India may erode some of this competitive advantage and may negatively affect our profit margins. Employee compensation in India is increasing at a faster rate than in the United States and Western Europe, which could result in increased costs relating to employees. We may need to continue to increase the levels of our employee compensation to remain competitive and manage attrition. Compensation increases may have a material adverse effect on our business, financial condition, cash flows and results of operations.

96. Rights of shareholders under Indian laws may be different from laws of other jurisdictions.

Our Articles of Association, composition of our Board, Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights are as per the Indian laws and may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as shareholders of an entity in another jurisdiction.

97. We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could in turn adversely affect our business.

The Competition Act prohibits any anti competition agreement or arrangement, understanding or action in concert between enterprises, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition in India. Any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services in any manner by way of allocation of geographical area, type of goods or services or number of consumers in the relevant market or in any other similar way or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition.

The Competition Act also prohibits abuse of a dominant position by any enterprise. The combination regulation (merger control) provisions under the Competition Act require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the Competition Commission of India, or CCI. Any breach of the provisions of Competition Act, may attract substantial monetary penalties.

The Competition Act aims to, among other things, prohibit all agreements and transactions, which may have an appreciable adverse effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Additionally, some of our funds require prior approval by the CCI before an investment is made. Furthermore, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. We are not currently party to any outstanding proceedings, nor have we ever received any notice in relation to non-compliance with the Competition Act.

The Competition (Amendment) Act, 2023 (the "**Competition Amendment Act**") amends the Competition Act and gives the CCI additional powers to prevent practices that harm competition and the interests of consumers. The Competition Amendment Act, among others, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position. If we pursue any acquisitions in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, any enforcement proceedings initiated by the CCI, any adverse publicity that may be generated due to scrutiny or prosecution by the CCI, or any prohibition or substantial penalties levied under the Competition Act, which would adversely affect our business, results of operations, financial condition and cash flows.

98. Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure ("ASM") and Graded Surveillance Measures ("GSM") by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.

SEBI and the Stock Exchanges have introduced various pre-emptive surveillance measures in order to enhance market integrity and safeguard the interests of investors, including ASM and GSM. ASM and GSM are imposed on securities of companies based on various objective criteria such as significant variations in price and volume, concentration of certain client accounts as a percentage of combined trading volume, average delivery, securities which witness abnormal price rise not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net worth, price / earnings multiple, market capitalization etc. Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, low trading volumes, and a large concentration of client accounts as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, limiting trading frequency, reduction of applicable price band, requirement of settlement on gross basis or freezing of price on upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company.

99. Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Offer. Furthermore, our Equity Shares may not result in an active or liquid market and the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Offer Price or at all.

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. We cannot guarantee that an active trading market will develop or be sustained after the offering. Nor can we predict the prices at which the Equity Shares may trade after the offering.

The Offer Price of our Equity Shares may not be indicative of the market price for the Equity Shares after the Offer. If you purchase the Equity Shares in our initial public offering, you may not be able to resell them at or above the Offer Price. We cannot assure you that the Offer Price of the Equity Shares, or the market price following our initial public offering, will equal or exceed prices in privately negotiated transactions of our shares that may have occurred from time to time prior to our initial public offering. The market price of the Equity Shares may decline or fluctuate significantly due to a number of factors, some of which may be beyond our control, including:

- actual or anticipated fluctuations in our operating results;

- announcements about our earnings that are not in line with analyst expectations;
- the public's reaction to our press releases, other public announcements in relation to us or our affiliates and filings with the regulator;
- significant liability claims, complaints from our clients, shortages or interruptions in the availability of raw materials, or reports of incidents of tampering of raw materials;
- changes in senior management or key personnel;
- macroeconomic conditions in India;
- fluctuations of exchange rates;
- the operating and stock price performance of comparable companies;
- changes in our shareholder base;
- changes in our dividend policy;
- issuances, exchanges or sales, or expected issuances, exchanges or sales;
- changes in accounting standards, policies, guidance, interpretations or principles;
- changes in the regulatory and legal environment in which we operate; and
- market conditions in the construction and development industry and the domestic and worldwide economies as a whole.

Any of these factors may result in large and sudden changes in the volume and trading price of the Equity Shares. In the past, following periods of volatility in the market price of a company's securities, shareholders have often instituted securities class action litigation against that company. If we were involved in a class action suit, it could divert the attention of management, and, if adversely determined, have an adverse effect on our business, results of operations and financial condition.

100. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us may dilute your shareholding and any sale of Equity Shares by our Promoter may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares or securities linked to the Equity Shares by our Company, including issuance of Equity Shares to eligible employees (as defined in the ESOP Schemes), may dilute your shareholding. Any such future issuance of the Equity Shares or future sales of the Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares and impact our ability to raise funds through an offering of our securities. Any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. Additionally, the disposal, pledge or encumbrance of the Equity Shares by any of our significant shareholders, or the perception that such transactions may occur, may affect the trading price of the Equity Shares. There can be no assurance that we will not issue further Equity Shares or that our existing Shareholder (i.e. our Promoter) will not dispose of further Equity Shares after the completion of the Offer (subject to compliance with the lock-in provisions under the SEBI ICDR Regulations) or pledge or encumber its Equity Shares. Any future issuances could also dilute the value of shareholder's investment in the Equity Shares and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the Offer Price. We may also issue convertible debt securities to finance our future growth or fund our business activities. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

101. We cannot assure that investors will be able to sell immediately on the stock exchanges any of our Equity Shares they purchase in the Offer.

In accordance with Indian law and practice, final approval for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until our Equity Shares have been issued and allotted. Such approval will require the submission of all other relevant documents authorizing the issuance of our Equity Shares. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the Stock Exchanges within a prescribed time. Accordingly, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all and there could be a failure or delay in listing our Equity Shares on the Stock Exchanges, which would adversely affect your ability to sell our Equity Shares.

102. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by shareholders of such company.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in our Company may be reduced.

103. QIBs and Non-Institutional Bidders were not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders were required to pay the Bid Amount on submission of the Bid and were not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders could revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of our Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment pursuant to the Offer within three Working Days from the Bid/Offer Closing Date, or such other timeline as may be prescribed under applicable law, events affecting the Bidders' decision to invest in our Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of our Equity Shares even if such events occur, and such events limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

^*Subject to finalisation of Basis of Allotment.*

*(1) The Offer has been authorised by a resolution of our Board dated November 18, 2024. Further, the Promoter Selling Shareholder has been authorised to participate in the Offer in relation to the Offered Shares through resolutions passed by its board of directors dated November 13, 2024, September 24, 2026 and October 8, 2026 and has consented to participate in the Offer pursuant to its consent letter dated November 13, 2024 read with communication dated January 17, 2026, September 24, 2026 and October 8, 2026. Our Board and IPO Committee has taken on record such consent of the Promoter Selling Shareholder by resolutions dated November 18, 2024 and October 9, 2026, respectively. The Promoter Selling Shareholder confirms that its Offered Shares have been held for a period of at least one year prior to the date of filing of the Red Herring Prospectus with SEBI and are eligible for being offered for sale in the Offer, in terms of Regulation 8 of the SEBI ICDR Regulations. For further details, see "**Capital Structure**" on page 116.*

(2) Subject to valid Bids having been received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange subject to applicable law. Undersubscription, if any, in the QIB Portion (excluding the Anchor Investor Portion) would not be allowed to be met with spill-over from other categories or a combination of categories.

*(3) Our Company in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with the SEBI ICDR Regulations of which 40% was reserved as under: (i) 33.33% for domestic Mutual Funds only; and (ii) 6.67% for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, at or above the Anchor Investor Allocation Price. Any under-subscription in the reserved category specified in clause (ii) above would be allocated to domestic Mutual Funds. Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. However, if the aggregate demand from Mutual Funds was less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion would be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, see "**Offer Procedure**" beginning on page 482.*

(4) 15% of the Offer was made available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion was made available for allocation to Bidders with a Bid size of more than ₹200,000 and up to ₹1,000,000 and two-thirds of the Non-Institutional Portion was made available for allocation to Bidders with a Bid size of more than ₹1,000,000 and under-subscription in either of these two sub-categories of Non-Institutional Portion would be allocated to Bidders in the other sub-category of Non-

Institutional Portion.

Allocation to all categories of Bidders, other than Anchor Investors, and Retail Individual Investors and Non-Institutional Investors, shall be made on a proportionate basis, subject to valid Bids having been received at or above the Offer Price, as applicable. The allocation to each Retail Individual Investor and Non-Institutional Investor was not less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the Non-Institutional Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. Allocation to Anchor Investors was on a discretionary basis in accordance with the SEBI ICDR Regulations. For further details, see, "***Terms of the Offer***", "***Offer Structure***" and "***Offer Procedure***" beginning on pages 472, 479 and 482 respectively.

Grading of the Offer

No credit agency registered with SEBI has been appointed for grading for the Offer.

Monitoring Agency

As the Offer is an offer for sale of Equity Shares by the Promoter Selling Shareholder, our Company is not required to appoint a monitoring agency in relation to the Offer.

Experts to the Offer

Except as stated below, our Company has not obtained any expert opinions:

Our Company has received written consent dated October 19, 2026, from Nangia & Co. LLP, Chartered Accountants, to include their name as required under Section 26 (5) of the Companies Act, 2013 read with SEBI ICDR Regulations, in this Prospectus and as an "expert" as defined under Section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Statutory Auditors, and in respect of their (i) examination report dated August 13, 2026 on our Restated Consolidated Financial Information; and (ii) report dated October 9, 2026 on the statement of possible special tax benefits in respect of the Company, its Shareholders and Material Subsidiaries included in this Prospectus and such consent has not been withdrawn as on the date of this Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

Our Company has received written consent dated October 19, 2026, from NGS & Co. LLP, Chartered Accountants (FRN: 119850W/W100013), holding a valid peer review certificate from ICAI, to include their name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in this Prospectus, and as an "expert" as defined under Section 2(38) of the Companies Act, 2013 in respect of the various certifications issued by them in their capacity as an independent chartered accountant to our Company and such consent has not been withdrawn as on the date of this Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

Investor Grievances

Bidders may contact the Company Secretary and Compliance Officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related grievances including non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Offer related queries and for redressal of complaints, investors may also write to the BRLMs.

All Offer-related grievances, other than those of Anchor Investors, may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary(ies) with whom the Bid cum Application Form was submitted, giving full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder's DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), date of Bid cum Application Form and the name and address of the relevant Designated Intermediary(ies) where the Bid was submitted. Further, the Bidder was required to enclose the acknowledgment slip or the application number from the Designated Intermediaries in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer. The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders.

All Offer-related grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Anchor Investor Application Form number, Bidders' DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the BRLMs where the Anchor Investor Application Form was submitted by the Anchor Investor.

Appraising Entity

As the Offer is an Offer for Sale of Equity Shares by the Promoter Selling Shareholder, our Company will not receive any proceeds from the Offer. Accordingly, no appraising entity has been appointed for the Offer.

Credit Rating

As the Offer is an Offer for Sale of Equity Shares, credit rating is not required.

Debenture Trustees

As the Offer is an Offer for Sale of Equity Shares, the appointment of debenture trustees is not required.

Green Shoe Option

No green shoe option is contemplated under the Offer.

Book Building Process

Book building, in the context of the Offer, refers to the process of collection of Bids from Bidder on the basis of the Red Herring Prospectus, the Bid cum Application Forms and the Revision Forms within the Price Band. The Price Band and the minimum Bid Lot which were decided by our Company, in consultation with the BRLMs and was advertised in all editions of Financial Express (a widely circulated English national daily newspaper), all editions of Jansatta (a widely circulated Hindi national daily newspaper) and Mumbai edition of Navshakti (a widely circulated Marathi daily newspaper, Marathi being the regional language of Maharashtra where our Registered Office is located), at least two Working Days prior to the Bid/Offer Opening Date and was made available to the Stock Exchanges for the purposes of uploading on their respective websites. Pursuant to the Book Building Process, the Offer Price was determined by our Company, in consultation with the BRLMs after the Bid/Offer Closing Date. For details, see '***Offer Procedure***' beginning on page 482.

All Bidders (other than Anchor Investors) could participate in the Offer only through the ASBA process by providing details of their respective ASBA Account in which the corresponding Bid Amount was blocked by SCSBs, or in the case of UPI Bidders, by using the UPI Mechanism. Additionally, Retail Individual Bidders could participate through the ASBA process only using the UPI Mechanism. Non-Institutional Bidders with an application size of up to ₹500,000 could only use the UPI Mechanism and were also required to provide their UPI ID in the Bid cum Application Form submitted with Syndicate Members, Registered Brokers, Collecting Depository Participants and Registrar and Share Transfer Agents. Anchor Investors were not permitted to participate in the Offer through the ASBA process.

In terms of the SEBI ICDR Regulations, QIBs and Non-Institutional Investors were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. RIIs could revise their Bid(s) during the Bid/ Offer Period and withdraw their Bid(s) until Bid/ Offer Closing Date. Anchor Investors were not allowed to revise and withdraw their Bids after the Anchor Investor Bidding Date. Except Allocation to Retail Individual Investors, Non-Institutional Investors and the Anchor Investors, Allocation in the Offer was done on a proportionate basis. For further details on the Book Building Process and the method and process of Bidding, see *"**Terms of the Offer**",* "***Offer Structure***" and *"**Offer Procedure**"* beginning on pages 472, 479 and 482, respectively.

The Book Building Process is subject to change. Bidders were advised to make their own judgment about an investment through this process prior to submitting a Bid.

Investors should note that the Offer is also subject to our Company obtaining final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment, within the time period as prescribed under applicable law. For an illustration of the Book Building Process, price discovery process and allocation, see "***Offer Procedure***" beginning on page 482.

^ *Including 2 Equity Shares each held by Vinit Agrawal, Hemal Mehta, Deepak Mukhija and Bhanudas Jadhav (as first holders) on behalf of and as nominees of ESIPL and jointly with ESIPL.*
#*The numbers of Equity Shares, face value per Equity Share and issue price per Equity Share has been retrospectively adjusted to give effect to the sub-division of the Company's equity shares from 32,140,123 equity shares of face value of ₹10 each to 64,280,246 Equity Shares of face value of ₹ 5 each, in accordance with the resolution passed by the Board by circulation on August 9, 2024, and by Shareholders in their meeting held on August 16, 2024. Accordingly, the number of Equity Shares has been restated, wherever applicable. The original date of acquisition/ allotment of such Equity Shares remains unchanged for the purpose of determining the eligibility of Promoters' Contribution and the applicable lock-in requirements under the SEBI ICDR Regulations.*

Our Promoter has given their consent to include such number of Equity Shares held by them disclosed above, constituting 20% of the fully diluted post-Offer Equity Share capital of our Company as the Promoter's Contribution.

Our Promoter has agreed not to dispose, sell, transfer, charge, create any pledge or otherwise encumber in any manner, the Promoters' Contribution from the date of filing of the Draft Red Herring Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.

Our Company undertakes that the Equity Shares that are being locked-in are not ineligible for computation of Promoters' Contribution in terms of Regulation 15 of the SEBI ICDR Regulations. For details of the build-up of the share capital held by our Promoters, see "***– Notes to the Capital Structure – History of build-up of Promoters' shareholding and lock-in of Promoters' shareholding – Build-up of Promoters' shareholding in our Company***" on page 118.

In this connection, we confirm the following:

(i) the Equity Shares offered for Promoters' Contribution do not include Equity Shares acquired in the three immediately preceding years: (a) for consideration other than cash and revaluation of assets or capitalisation of intangible assets; or (b) resulting from bonus issue by utilisation of revaluation reserves or unrealised profits of our Company or resulted from bonus issue against Equity Shares which are otherwise ineligible for computation of Promoters' Contribution;

(ii) the Promoters' Contribution does not include any Equity Shares acquired during the immediately preceding year from the date of this Prospectus at a price lower than the price at which the Equity Shares are being offered to the public in the Offer;

(iii) our Company has not been formed by the conversion of a partnership firm or a limited liability partnership firm into a company;

(iv) the Equity Shares forming part of the Promoters' Contribution are not subject to any pledge with any creditor; and

(v) all the Equity Shares as on the date of this Prospectus, held by the Promoter are held in dematerialised form.

(b) Details of Equity Shares locked-in for six months

In terms of Regulation 17(1) of the SEBI ICDR Regulations, except for:

(i) the Promoters' Contribution and any Equity Shares held by our Promoter in excess of the Promoters' Contribution, which shall be locked in as above; and

(ii) any Equity Shares allotted by our Company to eligible employees (or such persons as permitted under the SEBI SBEB & SE Regulations), whether currently an employee or not, pursuant to any employee stock option schemes prior to the Offer,

the entire pre-Offer equity share capital held by persons other than the Promoter, will be locked-in for a period of six months from the date of Allotment.

In terms of Regulation 17 (1)(c) of the SEBI ICDR Regulations, Equity Shares held by a VCF or Category I AIF or Category II AIF or FVCI shall not be locked-in for a period of six months from the date of Allotment, provided that such Equity Shares shall be locked in for a period of at least six months from the date of purchase by such shareholders.

(c) Lock-in of Equity Shares Allotted, if any, to the Anchor Investors

50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment and the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.

(d) Other requirements in respect of lock-in

As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

The Equity Shares held by the Promoter, which are locked-in, may be pledged only with scheduled commercial banks or public financial institutions or NBFC-SIs or housing finance companies, as collateral security for loans granted by such banks or public financial institutions or Systemically Important NBFCs or housing finance companies in terms of Regulation 21 of the SEBI ICDR Regulations. In terms of Regulation 21(a) of the SEBI ICDR Regulations, the Equity Shares held by the Promoter which are locked-in for a period of 18 months from the date of Allotment may be pledged only with the entities mentioned above, provided that such loans have been granted for the purpose of financing one or more of the objects of the Offer and pledge of the Equity Shares is a term of sanction of such loans. Further, pursuant to Regulation 21(b) of the SEBI ICDR Regulations, the Equity Shares held by the Promoter, which are locked-in for a period of six months from the date of Allotment, may be pledged only with the entities mentioned above, provided that such pledge of the Equity Shares is one of the terms of the sanction of such loans. However, the relevant lock-in period shall continue post the invocation of the pledge referenced above, and the relevant transferee shall not be eligible to transfer the Equity Shares till the relevant lock-in period has expired in terms of the SEBI ICDR Regulations.

In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoter which are lock-in for a period of six months may be transferred amongst our Promoter or any member of the Promoter Group or to any new promoter, subject to continuation of lock-in in the hands of the transferees for the remaining period and in compliance with the provisions of the Takeover Regulations, as applicable and such transferee shall not be eligible to transfer them till the lock-in period stipulated in SEBI ICDR Regulations has expired. The Equity Shares held by persons other than our Promoter prior to the Offer and locked-in for a period of six months may be transferred to any other person holding Equity Shares which are locked-in along with the Equity Shares proposed to be transferred, subject to the continuation of the applicable lock-in and the transferee being ineligible to transfer such Equity Shares until expiry of the lock-in period, and in compliance with the provisions of the Takeover Regulations.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI RTA Master Circular, in a format as prescribed by SEBI, from time to time and in accordance with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

Monitoring Utilization of Funds

Since the Offer is an Offer for Sale and our Company will not receive any proceeds from the Offer, our Company is not required to appoint a monitoring agency for the Offer.

Other confirmations

Except to the extent of any proceeds received pursuant to the sale of the Offered Shares proposed to be sold in the Offer by the Promoter Selling Shareholder, none of our Promoters, Directors, Key Managerial Personnel, Senior Management, members of our Promoter Group or Group Companies will receive any portion of the Offer Proceeds, and there are no material existing or anticipated transactions in relation to utilization of the Offer Proceeds with our Promoters, Directors, Key Managerial Personnel, Senior Management, members of our Promoter Group or Group Companies.

BASIS FOR OFFER PRICE

The Price Band and Offer Price have been determined by our Company, in consultation with the BRLMs, and in accordance with applicable law, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹5 each and the Offer Price is 333 times the face value.

Investors were advised to refer to the sections '***Risk Factors***', '***Our Business***', '***Restated Consolidated Financial Information***' and '***Management's Discussion and Analysis of Financial Condition and Results of Operations***' beginning on pages 20, 228, 304 and 393, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors which form the basis for the Offer Price are as follows:

1. Scaled and experienced player in the large and expanding Indian real assets and private credit market;
2. Diversified, multi-strategy platform offering a wide range of alternative investments products, with a consistent track record;
3. Diverse and longstanding client base with significant potential to scale their commitments;
4. Technology-enabled institutional platform;
5. Dedicated portfolio operating and management platform;
6. Comprehensive risk management systems; and
7. Led by a seasoned management team with extensive industry experience.

For further details, see ***"Our Business – Our Strengths"*** on page 234.

Quantitative Factors

Certain information presented below relating to our Company is derived from the Restated Consolidated Financial Information. For details, see '***Restated Consolidated Financial Information'*** and '***Other Financial Information***' beginning on pages 304 and 392, respectively.

Some of the quantitative factors which form the basis for calculating the Offer Price are as follows:

A. Basic and diluted earnings per Equity Share of face value ₹5 each ("EPS):

Financial Year ended	Basic EPS (in ₹)	Diluted EPS (in ₹)	Weight
March 31, 2026	41.26	40.36	3
March 31, 2025	35.75	35.75	2
March 31, 2024	27.25	27.25	1
Weighted Average	**37.09**	**36.64**	
Three months period ended June 30, 2026*	12.56	12.29	-
Three months period ended June 30, 2025*	8.66	8.66	-

**Not annualised*

Notes:

i) Basic EPS is calculated as profit for the year or period attributable to owners of our Company divided by the number of Equity Shares outstanding during the year/period.

ii) Diluted EPS is calculated as profit for the year or period attributable to owners of our Company divided by number of Equity Shares outstanding during the year/period adjusted for the effects of all dilutive potential Equity Shares

iii) Earnings per Share calculations are in accordance with the notified Indian Accounting Standard 33 'Earnings per share'

iv) Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each year/Total of weights

v) The figures disclosed above are based on the Restated Consolidated Financial Information of our Company.

B. Price/Earning ("P/E") ratio in relation to the Offer Price of the Company:

Particulars	P/E at the Offer Price (no. of times)
Based on basic EPS for financial year ended March 31, 2026	40.35
Based on diluted EPS for financial year ended March 31, 2026	41.25

C. Industry Peer Group P/E ratio:

Based on the peer group information (excluding our Company), details of the highest, lowest and industry average P/E ratio are set forth below.

Particulars	P/E ratio
Highest (Anand Rathi Wealth Limited)	90.69
Lowest (Gaja Alternative Asset Management Limited)	20.24
Average	**39.89**

Notes:

i) The industry high and low has been considered from the industry peer set. The industry composite has been calculated as the arithmetic average P/E of the industry peer set disclosed in this section.

ii) P/E ratio for the peers has been computed based on the closing market price of equity shares on NSE as on October 8, 2026, divided by Diluted EPS for the year ended March 31, 2026.

iii) Anand Rathi Wealth Limited undertook a bonus issue (one bonus equity share of face value ₹5 each for every one equity share held). Record date for the corporate action was June 3, 2026. The P/E Ratio considered is after taking into consideration this bonus issue by retrospectively adjusting as if the event had occurred at the beginning of the period presented.

G. Explanation of the historic use of the Key Performance Indicators by our Company to analyse, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Restated Summary Financial Information. These KPIs may not be defined under Ind AS and are not presented in accordance with Ind AS and hence, should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our performance, liquidity, profitability or results of operations. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends.

Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business.

The Board of Directors
EAAA India Alternatives Limited
Edelweiss House, 3rd Floor,
Off CST Road, Kalina
Mumbai - 400 098
Maharashtra, India.

Date: October 9, 2026

Subject: Statement of possible special tax benefits ("the Statement") available to EAAA India Alternatives Limited ("the Company"), its material subsidiaries (as listed in the annexure below) and its shareholders prepared in accordance with the requirement under Schedule VI – Part A - Clause (9) (L) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("the ICDR Regulations")

This report is issued in accordance with the Engagement Letter dated July 31, 2026.

1. We hereby report that the enclosed Annexure II prepared by the Company, initialed by us for identification purpose, states the possible special tax benefits available to the Company, its material subsidiaries and its shareholders, under direct and indirect taxes (together "the Tax Laws"), presently in force in India as on the signing date, which are defined in Annexure I. These possible special tax benefits are dependent on the Company, its material subsidiaries and its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company, its material subsidiaries and its shareholders to derive these possible special tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company, its material subsidiaries and its shareholders may or may not choose to fulfill.

2. The benefits discussed in the enclosed Annexure II cover the possible special tax benefits available to the Company, its material subsidiaries and its shareholders and do not cover any general tax benefits available to the Company, its material subsidiaries and its shareholders. Further, the preparation of the enclosed Annexure II and its contents is the responsibility of the Management of the Company. We were informed that the Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares of the Company (the "**Proposed Offer**") particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the possible special tax benefits, which an investor can avail. Neither we are suggesting nor advising the investors to invest money based on the Statement.

3. We conducted our examination in accordance with the "Guidance Note on Reports or Certificates for Special Purposes (Revised 2016)" (the "Guidance Note") issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with ethical requirements of the Code of Ethics issued by the Institute of Charted Accountants of India.

4. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial information, and Other Assurance and Related Services Engagements.

5. We do not express any opinion or provide any assurance as to whether:

   i. the Company, its material subsidiaries and its shareholders will continue to obtain these possible special tax benefits in future; or

   ii. the conditions prescribed for availing the possible special tax benefits where applicable, have been/would be met with;

iii. the revenue authorities/courts will concur with the views expressed herein.

6. The contents of the enclosed Annexures are based on the information, explanation and representations obtained from the Company, and on the basis of our understanding of the business activities and operations of the Company.

7. We hereby give consent to include this Report in the Updated Draft Red Herring Prospectus, Red Herring Prospectus and Prospectus used in connection with the Proposed Offer, and it is not to be used, referred to or distributed for any other purpose without our prior written consent.

ANNEXURE-II

STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO EAAA INDIA ALTERNATIVE LIMITED ("THE COMPANY"), ITS MATERIAL SUBSIDIARIES AND ITS SHAREHOLDERS

(I) Direct Taxation

This statement includes possible special direct tax benefits available to the Company, its Material Subsidiaries and its shareholders under the direct tax laws in force in India ("**Possible Special Tax Benefits**"). These Possible Special Tax Benefits are dependent on the Company, its Material Subsidiaries and its shareholders fulfilling the conditions prescribed under the Tax Laws. Hence, the ability of the Company, its Material Subsidiaries and its shareholders to derive the Possible Special Tax Benefits is dependent upon fulfilling such conditions, which are based on business imperatives it faces in the future, it may or may not choose to fulfil. This statement is required as per paragraph (9)(L) of Part A of Schedule VI of the SEBI ICDR Regulations. This statement is as per the Income-tax Act, 2025 as amended by the Finance Act, 2026 read with the relevant rules, circulars, and notifications applicable for the Tax Year 2026-27, presently in force (together, the **"Act").**

(A) Special tax benefits available to the Company and its Indian Material Subsidiary from income-tax perspective Lower corporate tax rate under Section 200 of the Income-tax Act, 2025 ("Act")

Section 200 of the Act allows domestic companies to avail a concessional tax rate of 22% (plus surcharge and health and education cess), provided such companies do not avail the following deductions/ exemptions:

a) sections 45(2) and 47(1)(b) of the Act; or

b) Chapter VIII of the Act, other than the provisions of Section 146 or Section 148 of the Act; or

c) the sections specified in Section 205(1)(a) to (g) of the Act, being, inter alia, deduction for units in a Special Economic Zone, additional depreciation, investment allowance in notified backward areas, tea, coffee and rubber development account, site restoration fund, expenditure on scientific research, specified business, agricultural extension project and skill development;

d) No set off of any loss carried forward or depreciation from any earlier tax year, if such loss or depreciation is attributable to any of the deductions referred from clause a to c above; and

e) No set off of any loss or allowance for unabsorbed depreciation deemed so under Section 116 of the Act if such loss or depreciation is attributable to any of the deductions referred from clause a to c above.

The option under Section 200 is required to be exercised in the prescribed manner on or before the due date specified under Section 263(1) for furnishing the return of income for the relevant tax year. Once exercised, the option applies to subsequent tax years and cannot subsequently be withdrawn.

The provisions of Minimum Alternate Tax ("MAT") under Section 206 do not apply where the company has exercised the option under Section 200, subject to the provisions of the Act. Further, any MAT credit carried forward under Section 115JAA of the Income-tax Act, 1961 as on March 31, 2026, may be carried forward and set off in accordance with Section 206(3) of the Act, subject to the applicable conditions and limitations, including the restriction on set-off to 25% of the tax payable on total income computed under the other provisions of the Act and the applicable fifteen-year time limit.

The Company has represented that it had opted for the concessional tax regime under Section 115BAA of the Income-tax Act, 1961 (corresponding to Section 200 of the Act) with effect from Assessment Year 2020-21 and had duly furnished Form 10-IC within the prescribed due date. Accordingly, the MAT provisions were not applicable to the company w.e.f. Assessment Year 2020-21.

Section 147 of the Act provides for a deduction equivalent to 100% of the income referred to in Section 147(3) derived from the approved business activities of a Unit of an International Financial Services Centre, for twenty consecutive tax years out of twenty-five years beginning from the relevant tax year, at the option of the assessee, subject to the conditions prescribed under Section 147 of the Act. The Company may claim such deduction in respect of its eligible IFSC Unit, subject to satisfaction of the conditions prescribed under Section 147 of the Act.

Section 200(4) of the Act provides that, in the case of a person having a Unit in an International Financial Services Centre which has exercised the option under Section 200(5), the requirements of Section 200(1) shall stand modified to the extent that the deduction under Section 147 shall be available to such Unit, subject to fulfilment of the conditions contained in that section.

(B) Capital Gains tax under the Act

- As per the provisions of the Act, whenever there is any transfer of any Capital Asset, tax is computed under the head of capital gain. Further, a capital asset may be classified as a long-term capital asset or a short-term capital asset, basis on the period for which it is held by the assessee.

- Period of holding: As per section 2(101)(a) of the Act, a short-term capital asset means a capital asset held by an assessee for not more than 24 months immediately preceding the date of its transfer. Further, Section 2(101)(b) of the Act prescribes a reduced period of holding of 12 months in the case of listed securities, units of an equity-oriented fund and zero-coupon bonds.

- As per Section 76 of the Act, the gains arising on transfer, redemption or maturity of (i) a unit of a Specified Mutual Fund acquired on or after 1 April 2023 or a Market Linked Debenture, and (ii) an unlisted bond or an unlisted debenture which is transferred, redeemed or matures on or after 23 July 2024, shall be treated as short-term capital gains irrespective of the period of holding.

- Section 197 of the Act prescribes a special tax rate for Long-Term Capital Gains **("LTCG")** arising from the transfer of certain long-term capital assets. LTCG shall be taxed at the rate of 12.5% (plus applicable surcharge and cess), without the benefit of indexation. This provision excludes listed equity shares and units of equity-oriented funds.

- Section 198 of the Act provides that long-term capital gains arising from the transfer of listed equity shares, where the prescribed Securities Transaction Tax conditions are satisfied, shall be taxed at 12.5% to the extent such gains exceed INR 1,25,000 in a tax year, without indexation, subject to the provisions and conditions of the Act.

- Section 196 of the Act provides a tax rate of 20% on Short-Term Capital Gains **("STCG")** arising from the transfer of a short-term capital asset, such as an equity share in a company or a unit of an equity-oriented fund, where Securities Transaction Tax **("STT")** is paid on the transfer.

(C) Special tax benefits available to the shareholders of the Company

- Dividend income is taxable in the hands of the shareholders. The Company would be required to deduct tax at source from dividend payments to resident shareholders under Section 393(1), Table Sl. No. 7 of the Act, at the rate of 10%, subject to the applicable provisions and exemptions under the Act. In case of an individual shareholder, no tax is required to be deducted in specified circumstances where dividend is paid otherwise than in cash and the aggregate dividend does not exceed INR 10,000 during the tax year, subject to the applicable provisions of the Act.

- Further, in case of shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of Individuals, whether incorporated or not and every artificial juridical person, surcharge applicability towards dividend income would be restricted to 15%, irrespective of the amount of dividend.

- In the case of non-resident shareholders, dividend income is generally taxable at 20% under Section 207 of the Act, subject to applicable surcharge and Health and Education Cess and any beneficial rate available under an applicable tax treaty, subject to fulfilment of the prescribed conditions.

- Section 69 of the Act provides that, where a shareholder receives consideration from a company for the purchase of its own shares or other specified securities, the difference between the consideration received and the cost of acquisition shall be chargeable to tax under the head "Capital gains", subject to the provisions of the Act.

  Where such purchase is in accordance with Section 68 of the Companies Act, 2013 and the shareholder is a promoter, the aggregate income-tax liability on such capital gains shall comprise the income-tax otherwise payable on such capital gains and an additional income-tax at the rates prescribed under Section 69(2) of the Act. The additional income-tax is currently 2% / 9.5% for a promoter that is a domestic company, depending upon whether the capital gain is short-term / long-term, and 10% / 17.5% for a promoter other than a domestic company, respectively.

- The taxability on capital gain is already covered in the above paragraphs. The same would remain applicable to shareholders as well. There are no special tax benefits available to the current shareholders of the Company under the Act.

(D) Special tax benefits available to its foreign Material Subsidiary

Based on the information provided by the management and representations given:

- Section 197 of the Act prescribes a special tax rate for LTCG arising from the transfer of certain long-term capital assets. LTCG shall be taxed at the rate of 12.5% (plus applicable surcharge and cess), without the benefit of indexation. This provision excludes listed equity shares and units of equity-oriented funds.

- Section 198 of the Act provides that LTCG arising from the transfer of listed equity shares and units of equity-oriented funds shall be taxed at the rate of 12.5% (plus applicable surcharge and cess), without the benefit of indexation. The LTCG tax under this section applies only to the extent the aggregate gains exceed INR 1,25,000 in a tax year. These provisions are subject to the prescribed conditions.

- Section 196 of the Act provides a tax rate of 20% on STCG arising from the transfer of a short-term capital asset, such as an equity share in a company or a unit of an equity-oriented fund, where STT is paid on transfer.

- The foreign Material Subsidiary, subject to satisfying the prescribed conditions under the applicable income tax laws and the relevant Double Taxation Avoidance Agreement, may be eligible to avail the beneficial provisions of the tax treaty entered between India and the country of its tax residence.

- EAAA Pte. Limited ("EAAA SG" or the "SG FMC"), a fund manager incorporated and tax resident in Singapore, which is 100% subsidiary company. EAAA SG holds a capital markets services ("CMS") license to carry out fund management activities in Singapore under the Securities and Futures Act 2001. EAAA SG holds tax incentive scheme i.e. The Financial Sector Incentive (FSI) Scheme applies to licensed financial institutions, from large universal banks, fund managers to capital market players.

- The applicable tax would be 10% on the income earned from investment management activity under FSI Scheme and for other income applicable corporate tax rate would be 17% under Singapore tax laws.

Notes:

- The benefits outlined above pertain only to the specific tax advantages under the Act available to the Company, its Material Subsidiaries and shareholders. They do not encompass general tax benefits, indirect tax law benefits, or benefits under any other applicable laws. This statement provides a summary of the relevant legal provisions and does not constitute a comprehensive analysis, or an exhaustive listing of all potential tax implications related to the purchase, ownership, and disposal of shares.

- This Statement sets out only the special tax benefits available to the Company, its Material Subsidiaries and shareholders under the Income-tax Act, 2025 as amended by the Finance Act, 2026, applicable for the Tax Year 2026-27, presently in force in India.

- Many of these benefits are contingent upon the Company, its Material Subsidiaries or shareholders satisfying the conditions set forth in the relevant tax laws.

- In case of a foreign company, surcharge will be levied at the rate of 2% when the income exceeds INR 1 crore but does not exceed INR 10 crores, and at 5% when the income exceeds INR 10 crores. In the case of a domestic company which has exercised the option under Section 200 of the Act, surcharge is levied at a flat rate of 10%, irrespective of the level of total income. In the case of individuals, Hindu Undivided Families, Association of Persons, Body of Individuals and artificial juridical persons, surcharge is levied at 10%, 15%, 25% and 37% depending on the level of total income, save that (i) the rate of 37% does not apply to a person taxable under the default regime, where the maximum rate of surcharge is 25%, and (ii) surcharge on dividend income and on income referred to in Sections 196, 197 and 198 of the Act is restricted to 15%. Additionally, a health and education cess of 4% on the tax and surcharge is also payable by all categories of taxpayers.

- The views expressed in this annexure are based on the facts and assumptions outlined herein. No assurance is given that the revenue authorities or courts will agree with the views presented. These views are based on the current provisions of law and their interpretation, which may change over time. We do not assume any responsibility for updating the views in response to such changes.

(II) Indirect Taxation

Outlined below are the special indirect tax benefits available to the Company, its Material Subsidiaries and its shareholders under the Central Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017, Applicable State Goods and Services Tax Act, 2017 (collectively referred as the **"Indirect Tax Regulations")** read with rules, circulars and notifications issued thereunder.

A) Special tax benefits available to the Company

There are no special tax benefits available to the Company or its Indian Material Subsidiary under the Indirect Tax Regulations, except that the Company and its Indian Material Subsidiary is engaged in the supply of services that qualify as Export of Services under the Goods and Services Tax (GST) regime. Such supplies are treated as zero-rated under Section 16 of the Integrated Goods and Services Tax Act, 2017. Accordingly, the Company and its Indian Material Subsidiary is eligible either:

- Export services without payment of IGST under a Letter of Undertaking (LUT), or

- Export services on payment of IGST and claim a refund thereof, subject to compliance with relevant provisions.

The Company has set up its branch in International Financial Services Centre [“IFSC”] for fund management activities for funds in IFSC, where no GST would be applicable for services provided in IFSC.

B) Special tax benefits available to foreign Material Subsidiary

There are no special tax benefits available to the foreign Material Subsidiary under the Indirect Tax Regulations.

C) Special tax benefits available to the Shareholders

There are no special tax benefits available to shareholders for investing in the shares of the Company under Indirect Tax Regulations.

Notes:

1. The special tax benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Indirect Tax Regulations. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the Company or its shareholders may or may not choose to fulfil.

2. The special tax benefits discussed in the Statement are not exhaustive and is only intended to provide general information to the investors and hence, is neither designed nor intended to be a substitute for a professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications.

3. The Statement has been prepared on the basis that the shares of the Company are to be listed on a recognized stock exchange in India and the Company will be issuing equity shares.

4. The Statement is prepared on the basis of information available with the management of the Company and there is no assurance that:

   I. The Company or its shareholders will continue to obtain these benefits in future

   II. The conditions prescribed for availing the benefits have been/ would be met; and

   III. The revenue authorities/ courts will concur with the view expressed herein.

5. The above views are basis the provisions of law, their interpretation and applicability as on date, which may be subject to change from time to time.

Economic Outlook

Global Economy

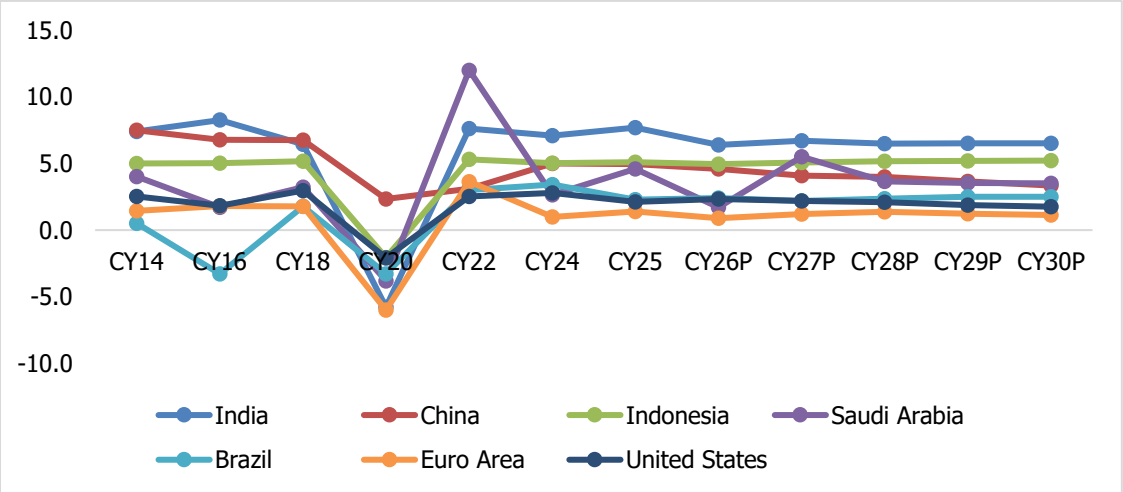

Global economic growth expected to sustain at ~3% in near term

Global economic growth remained resilient during CY24–CY25 at 3.5%, supported by strengthening domestic demand, stable trade and investment activity, improving financial conditions, and continued expansion in technology-driven industries. However, growth is projected to moderate in CY26 at 3% due to supply-side disruptions arising from the Middle East conflict, which are likely to increase uncertainty, disrupt energy markets, and weigh on global trade and investment. The slowdown is expected to be partially offset by accelerated adoption of artificial intelligence and stronger technology investment, with economies integrated into the global technology value chain expected to outperform, while energy-importing and less technology-intensive economies are likely to face relatively weaker growth.

India continues to remain fastest growing economy even as global growth falters

India stands out as the fastest-growing economy amongst the major economies and expected to grow at a CAGR of 6.5% in the period of CY25-CY30, outshining China's growth rate. By CY28, the Indian economy is estimated to emerge as the third-largest economy globally, hopping over Japan and Germany. Currently, as of CY25, it is the third-largest economy globally in terms of Purchasing Power Parity (PPP)[1] with a ~8.2% share in the global economy, with China ~19.6% on the top followed by the United States ~14.6%.

Indian Economic Outlook

GDP Growth and Outlook

India poised to continue to be one of the fastest growing economies in the world

Despite the turmoil in the last 2-3 years, India bears good tidings to become a USD 5 trillion economy by CY27-CY28. It took the country 60 years after gaining independence to reach a USD 1 trillion economy, but it added the next trillion in just 7 years. The third trillion was added even more rapidly, in just 5 years by 2019. With this accelerating growth, India might see an addition of around USD 1 trillion to its economy roughly every two years over the next 14-15 years.

According to the IMF dataset on Gross Domestic Product (GDP) at current prices, the nominal GDP is projected to be at USD 4.2 trillion for CY26 and is projected to reach USD 5.1 trillion by CY28 and USD 6.2 trillion by CY30. India's expected GDP growth rate for coming years is almost double compared to the world economy.

India's GDP expected to grow at 6.7% in FY27

- Domestic economic activity has remained resilient despite persistent global uncertainty and geopolitical tensions in West Asia, supported by robust domestic demand and positive business sentiment. While supply-side pressures that emerged following the West Asia conflict eased temporarily in June 2026 with the normalisation of key input supplies, the renewed escalation of the conflict since early July has heightened volatility in energy prices and renewed supply chain uncertainty.

- High-frequency indicators suggest that economic activity remains resilient, with the economy performing better than expected in Q1FY27, although manufacturing sector cost pressures may intensify amid renewed geopolitical tensions. Looking ahead, rural demand may be affected by a deficient and uneven southwest monsoon under El Niño conditions; however, government initiatives on crop diversification, climate-resilient agriculture, and water conservation, together with supportive allied sector activities and various government schemes, are expected to mitigate the impact. Urban consumption is likely to remain supported by sustained momentum in the services sector and stable employment conditions. Investment activity is expected to remain supported by strong capacity utilisation, robust credit flows, and the government's continued focus on infrastructure development.

- Going forward, the economic outlook is expected to remain subject to external uncertainties, including renewed geopolitical tensions in West Asia, volatility in energy prices and international financial markets, weather-related shocks, and disruptions to global supply chains. While manufacturing may face cost pressures, increasing diversification of global supply chains is expected to partly mitigate these risks. Services exports are expected to remain resilient, while bilateral trade agreements and market diversification are likely to support net external demand. Overall, the Indian economy is projected to remain resilient despite elevated external risks.

Consumer Price Index

Inflation dips to a five-year low amid improved monsoon and easing global food prices

Consumer Price Index (CPI) inflation remained largely contained during FY26, supported by easing food inflation, improved supply conditions, and prudent monetary policy. However, inflationary pressures increased toward the latter part of the year due to higher global energy prices, weather-related supply disruptions, and the spillover effects of the West Asia conflict, while remaining within the RBI's tolerance band.

Between January and June 2026, inflation followed a steady yet modest path, averaging 3.52% across the Consumer Price Index. By June 2026, inflation increased to 4.38% on a year-on-year basis, compared with 3.93% in May 2026. Within this, the rural inflation rate stood at 4.74%, while the urban inflation rate was comparatively lower at 3.92%. This indicates an overall modest inflationary trend, with rural areas experiencing relatively higher price pressures than urban regions.

In August 2026, the MPC kept the repo rate unchanged at 5.25%, retaining the neutral policy stance while emphasizing the need for greater clarity on the inflation outlook and evolving domestic and global uncertainties before taking any further policy action.

At the bi-monthly meeting held in August 2026, RBI projected inflation at 5.0% for FY27 with inflation during Q2FY27 at 4.7%, Q3FY27 at 5.9%, Q4FY27 at 5.5%, and Q1FY28 at 5.3%.

India is on a steady path to Fiscal Recovery

Between FY20 and FY26BE, India's fiscal deficit reached a peak of 9.2% of GDP in FY21 from 4.6% in FY20 due to the economic impact of the COVID-19 pandemic, which led to lower tax revenues and increased government spending. In FY21, India's fiscal deficit was 9.2% due to the impact of COVID-19, since then it has seen a steady improvement and is expected to reduce to 4.8% of GDP FY25 (RE), driven by strong economic growth and higher tax and non-tax revenues. The government aims for further fiscal consolidation, setting a target of 4.4% of GDP for FY26 to maintain fiscal prudence.

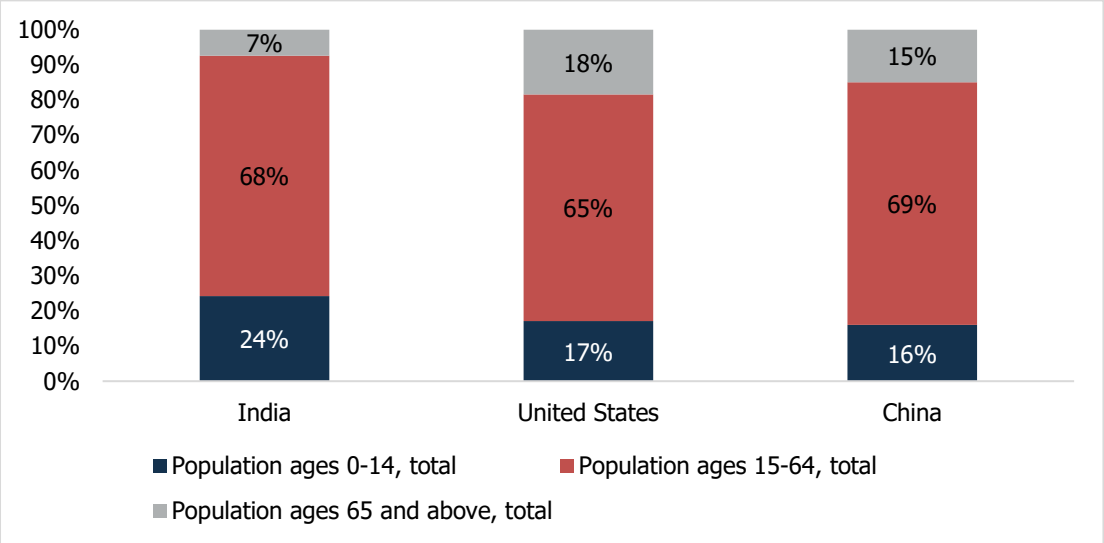

Key growth drivers for India's sustained economic growth

Favourable demographics

India has relatively high young population as compared to major economies

India continues to enjoy a strong demographic advantage, with over 65% of its population below the age of 35 and nearly 64.2% in the working-age group. This favourable demographic profile is expected to remain broadly intact over the next decade, providing a sustained demographic dividend. Coupled with continued investments in skilling, employment generation, and digital infrastructure, India's large and youthful workforce is expected to play a pivotal role in driving productivity, innovation, manufacturing, and long-term economic growth.

Urbanization

Steady uptick in urbanization

Urbanization presents significant advantages that can drive sustainable development and reduce inequality, catalyze infrastructure investment and create job opportunities, boosting local economies and improving living standards. Moreover, urban areas facilitate the mobilization of savings, as higher incomes enable residents to invest in education, health, and entrepreneurial ventures. Additionally, well-managed urbanization can foster social inclusion, allowing marginalized communities better access to resources and opportunities.

The urban population is significantly growing in India. The urban population in India is estimated to have increased from 33.2% of total population in 2017 to 35.7% of total population in the year 2025.

Increasing per capita GDP (Gross Domestic Product)

From FY23 to FY25 (according to the estimates), the per capita GDP increased from Rs 1,88,862 to Rs 2,25,896, with an average growth rate of around 8.80% annually. In FY26, the growth is expected to have reached around 7.9% at Rs 2,43,803. Key drivers of this growth include structural reforms, digitalisation, rising domestic consumption and increased foreign investment.

Financial Awareness and Literacy

Financial literacy is crucial for fostering economic stability and prosperity, particularly in a rapidly developing nation like India. As urbanization and economic growth accelerate, understanding financial concepts such as risk diversification, compound interest, savings discipline, and credit management becomes increasingly important.

The Indian government and various regulators are implementing financial literacy courses, workshops, and schemes aimed at enhancing financial awareness. Promoting financial education is vital for empowering individuals, reducing financial vulnerabilities, and fostering economic resilience.

Digitalization

India's digital journey has been driven by a confluence of factors: expanding broadband access, technological advances, affordable data costs, and a strong governmental push to build robust digital infrastructure.

The government's Digital India initiative, launched in July 2015, further underscores this commitment by focusing on creating a secure digital infrastructure, delivering digital services, and ensuring widespread internet access. Digital India is a flagship initiative by the Government of India aimed at transforming the nation into a digitally empowered society and knowledge economy.

Additionally, this initiative has also made stock market and mutual fund investments more accessible, efficient, and transparent for a wider audience.

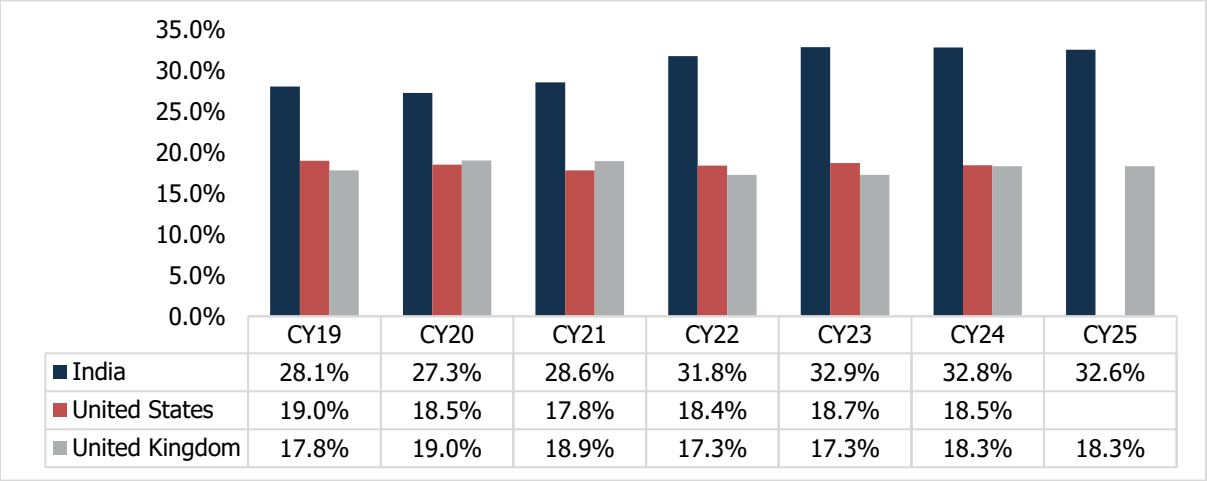

Financialization

Growing financial inclusion and household savings in India

In recent years, India has witnessed growth in household savings and shift of savings from physical assets like real estate to financial instruments. Several factors have facilitated this transition towards financial assets. Financial inclusion efforts enhanced digital infrastructure, the demonetization initiative, and innovations in financial products have all played a role.

The growth of financial savings has been robust, with retirement savings, insurance, and mutual funds showing an impressive average annual growth rate over the past decade.

Resilience of Rural Economy

India's rural economy is emerging as a crucial factor with growing rural savings, with more savings bank accounts and balances, and a reduction in inflationary pressures, which has allowed rural consumption to align more closely with urban areas. Favourable monsoon conditions and improved sowing data are expected to sustain this growth, bolstered by increased government investment in rural development and infrastructure.

Reforms by the Indian Government to boost infrastructure and domestic production

- **India's focus on infrastructure development**

The budgetary allocation toward infrastructure has grown at a CAGR of about 21% in the past 6 years between FY22 to FY27. In the Union Budget 2026-27, the government continued its focus on infrastructure development with the allocation of Rs 12.2 trillion toward infrastructure capital expenditure.

Government infrastructure development schemes:

- The Pradhan Mantri Awas Yojana (PMAY) aims to provide affordable housing to the urban and rural population of India. As of July 2026, over 17.3 million houses have been sanctioned under PMAY-Urban, with 9.92 million completed.

- The Government of India continues to strengthen railway infrastructure through significant investments in modern passenger services, freight corridors, and station redevelopment. As of July 2026, Indian Railways operates 162 Vande Bharat Chair Car services and 2 Vande Bharat Sleeper services, along with 72 Amrit Bharat and 2 Namo Bharat Rapid Rail services, enhancing connectivity, passenger comfort, and operational efficiency across the country. The Government is also advancing the Mumbai–

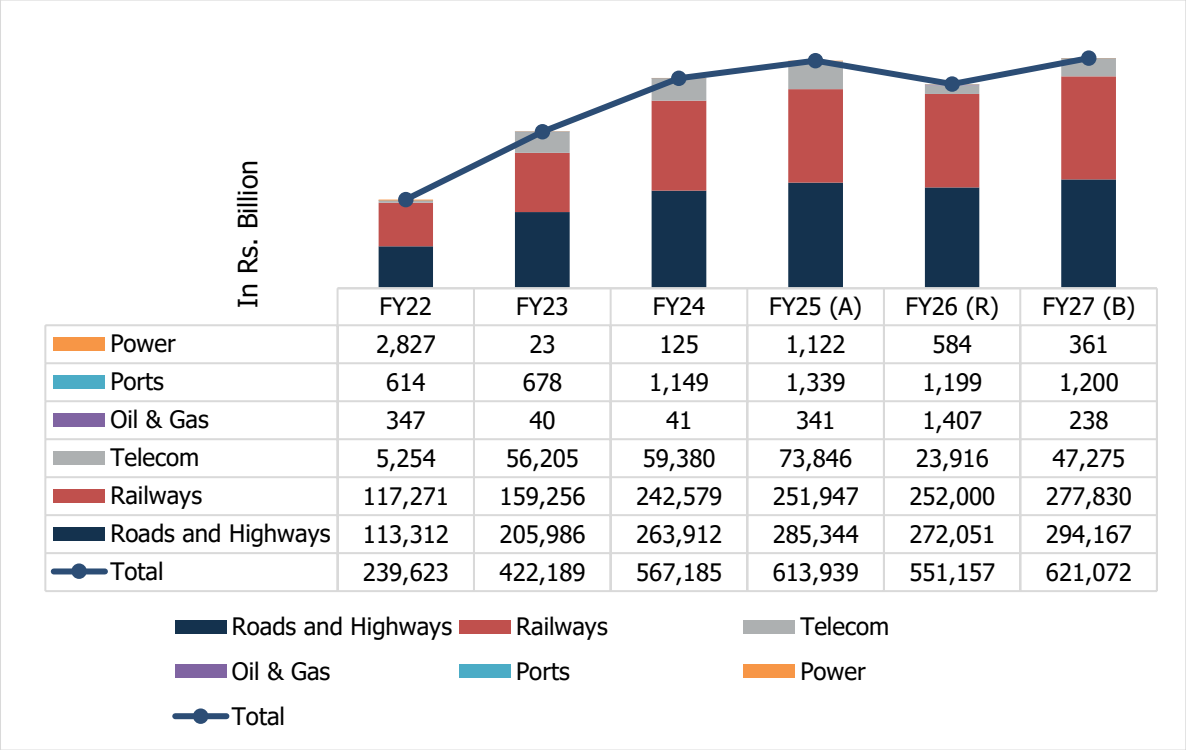

Ahmedabad High-Speed Rail Corridor, while the Union Budget 2026–27 has announced plans for seven new high-speed rail corridors to support faster and more efficient rail transportation. On the freight side, the Eastern and Western Dedicated Freight Corridors (DFCs) have been substantially commissioned, significantly improving freight capacity, reducing transit time, and lowering logistics costs. Additionally, the Detailed Project Reports (DPRs) for the East Coast, East–West, and North–South Dedicated Freight Corridors remain under examination to further expand the freight network. Station modernization has also gathered pace under the Amrit Bharat Station Scheme, with 1,338 railway stations identified for redevelopment.

- Under the National Rail Plan (NRP), the Indian Railways aims to increase its share in freight transport to 45% by 2030, up from the current 26%.

- As part of the Atmanirbhar Bharat initiative, the Indian government has prioritized the development of the shipping industry through various supportive measures. In the Union Budget 2026-27, Rs. 3,400 million was allocated to the shipbuilding sector. The Sagarmala Programme aims to modernize ports and foster port-led development, integrating industrial clusters and efficient evacuation systems via road, rail, and waterways.

- Bharatmala Pariyojana, launched in 2017, is a comprehensive initiative aimed at enhancing India's highway infrastructure to improve freight and passenger transportation. The program focuses on developing Economic Corridors, Inter-Corridors, and Feeder Routes, while also enhancing National Corridor efficiency and establishing better connectivity for borders, ports, and green-field expressways.

The government has expanded the National Infrastructure Policy (NIP) to over 9,000 projects from 6,835 projects and announced plans for the National Monetization Pipeline (NMP) and the Development Finance Institution (DFI) to improve the financing of infrastructure projects. The NIP covering rural and urban infrastructure, entails investments to the tune of Rs. 111 trillion, which is being undertaken by the central government, state governments, and the private sector during FY20-25.

Global Alternatives Industry

Alternative investments are financial assets that enable investors to diversify their portfolios and seek higher returns beyond traditional stocks and bonds. Alternatives industry encompasses a wide range of investment products including private credit, private equity, hedge funds, real estate, infrastructure, etc. These alternative investments are often sought after by institutional investors, high net worth individuals (HNIs), family offices for their potential to generate higher returns provide diversification and hedge against market volatility. Alternative investments are relatively complex, illiquid and less regulated as compared to traditional investments. They often require longer holding period and involve higher risk, due to the inherent unpredictability of the underlying assets.

Evolution of Global Alternatives Industry:

1862-1869

- **Private Capital** funded U.S. transcontinental railway
- Two companies came together to provide funding in conjunction with government bonds

1901

- J.P. Morgan acquired the Carnegie Steel Company which merged with Federal Steel and National Tube to create U.S. Steel - the largest corporation in the world

1960s and early 1970s

- Venture capitalist invested in new technological developments and entrepreneurial opportunities expanded rapidly

Mid-20th century

- **Hedge fund** industry originated - early hedge funds focussed on arbitrage strategies

1980s

- Significant expansion in the **private equity** industry, with firms focusing on acquiring and restructuring troubled companies

1990s

- **Private equity** investment accelerated - PE firms began to invest in high growth companies and take them public

2008 and 2009

- **Global financial crisis** had a profound impact on the alternatives industry - investors preferred investments that were less correlated with traditional markets.
- Interest in **Alternative asset classes** such as real estate, infrastructure & commodities surged

2011-2024

- Alternatives industry continued to evolve with new asset classes and strategies
- Alternatives industry has expanded into emerging markets as investment destinations

Types of Global Alternatives products

The two main categories of alternatives industry are private alternatives and public alternatives, each category has distinct characteristics, investment strategies and regulatory framework. The categories of private alternatives are further divided into real assets (real estate and infrastructure), private equity, private credit, etc. While public alternatives include hedge funds (ETFs, publicly traded REITs, investments in commodities/cryptocurrency, etc).

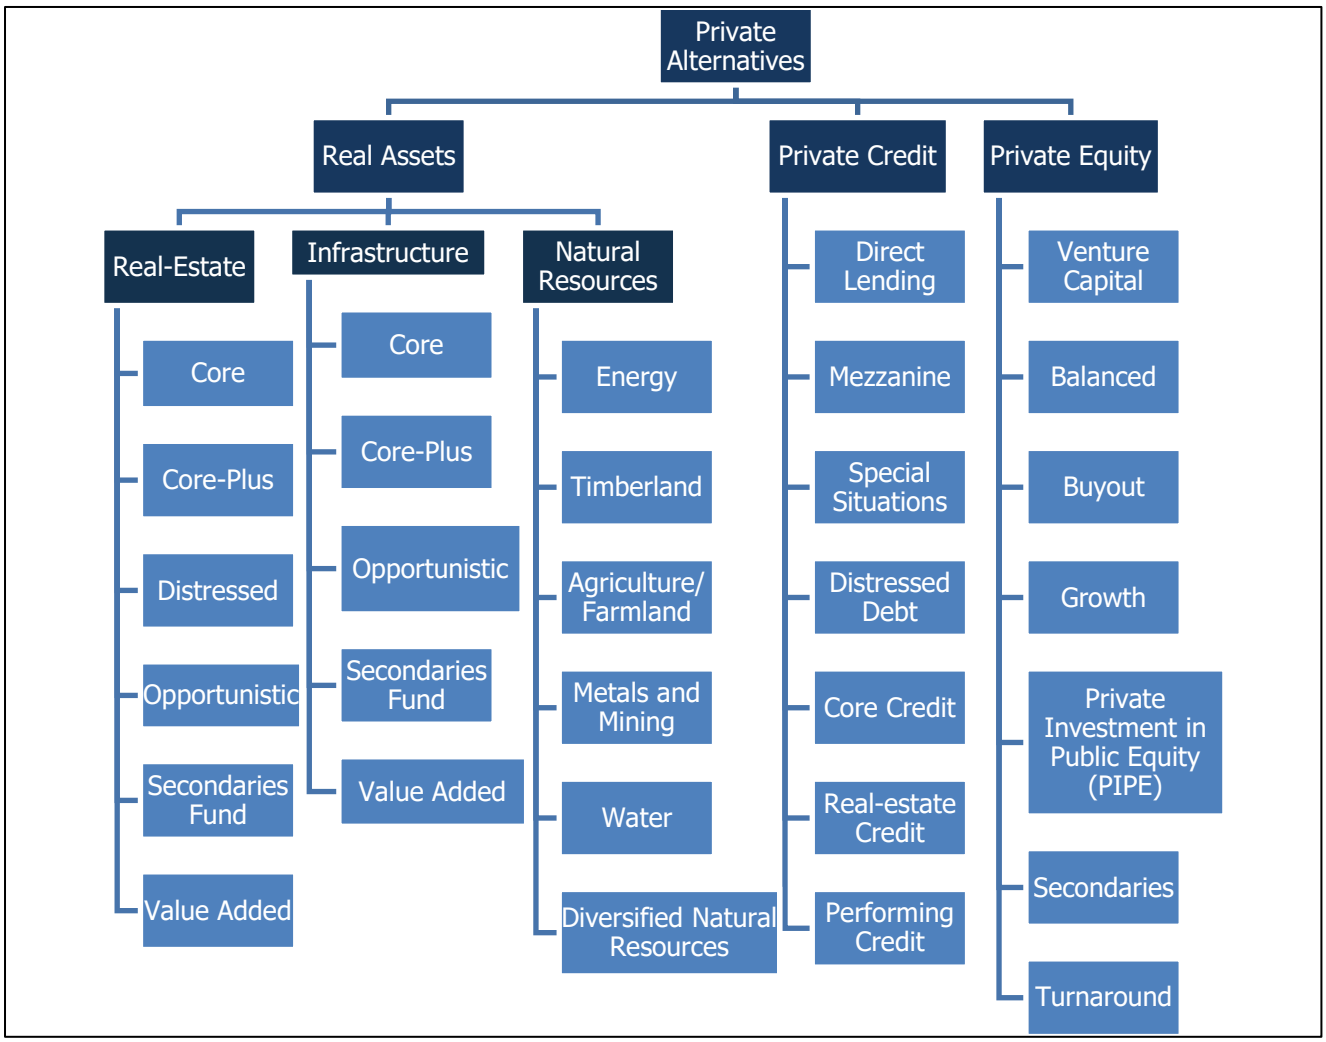

Comparative landscape of alternatives investment products:

Key characteristics	Private Equity	Private Credit	Real estate	Infrastruc-ture	Hedge Funds
Diversification	High	Moderate	High	High	High
Reliable income stream	Low	High	Moderate	Moderate	Low
Risk profile	High	Moderate	Moderate	Low	High

Key characteristics	Private Equity	Private Credit	Real estate	Infrastruc-ture	Hedge Funds

Overview of Global Private Alternatives Industry

Private alternatives investments refer to investment opportunities that are not publicly traded and involve direct ownership or financing of assets for the long term. These investments are generally illiquid, complex and often require substantial capital commitments over the long term. Private alternatives are favoured by institutional investors such as pension funds, endowments and sovereign wealth funds as well as high net worth individuals, due to their potential of offering higher returns and diversification benefits. The main categories of global private alternatives include real assets (including real estate and infrastructure), private credit and private equity.

Global Alternatives - Real Assets Strategy

Real assets are tangible assets that generate income. Real assets can be held directly or indirectly through investments in real estate, infrastructure, commodities and natural resources.

a) Real estate

Real estate encompasses various property types such as commercial, residential and industrial real estate. Private real estate investments can include direct ownership of these properties, investments in real estate development projects or investments in real estate related funds. These investments can provide stable income streams and appreciation potential.

b) Infrastructure

Private infrastructure investments involve funding the development or acquisition of assets including transportation, energy and telecommunications infrastructure. These investments are attractive to investors as they are known to offer long-term and stable returns. These investments could be backed by government contracts by way of direct investments, subsidies or regulatory framework, making risk profile of the investment attractive for investors.

c) Natural Resources

Natural Resource are materials or substances that occur naturally on Earth. They can be mined, farmed, or collected in raw form. These raw materials are often engineered into more complex man-made materials and extracted, processed, or refined for the realization of their economic value. Private investments in natural resources involve investments in raw materials like agriculture, products, energy and metals. These investments offer opportunities to capitalize on the global demand for essential commodities.

Global Alternatives - Private Credit Strategy

Private Credit is a non-bank debt financing favourable for mid-size/growth stage companies and for stressed companies that are unable to access funds through formal banking systems. Private credit is known to offer high risk adjusted returns than traditional fixed income securities. Private credit is often highly secured by collateral in the form of asset level security, sponsor pledges and personal guarantees from the promoters.

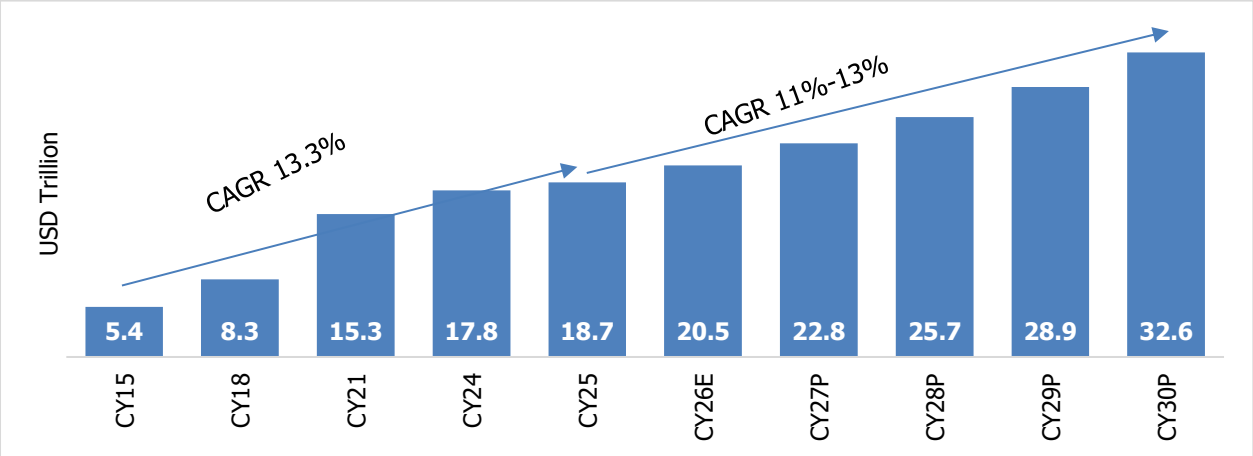

Global Alternatives - Private Equity strategy

Private equity involves investing in companies that are not publicly traded, in exchange for equity ownership. Private equity firms can buyout (acquire entire companies), invest in form of growth capital, venture capital or restructuring (distressed investments). The goal of this category is to enhance the company's valuation and eventually exit for profit. Furthermore, depending on the stake in the investee company, the investor is also involved in overseeing overall management and can have board representatives to strategize the company's growth.

The Global private alternatives assets under management (AUM) nearly quadrupled in the last decade up to CY25, thereby indicating growing penetration of private alternatives. This increasing investor capital allocation towards these alternatives is mainly on account of diversification benefits, potentially higher returns and risk management. While the global alternatives industry is poised for growth over the medium term, the growth is projected to moderate slightly as compared to the past decade due to high base effect. The Global private alternatives AUM is projected to grow at a CAGR of 11%-13% between CY25-CY30, largely driven by increased institutional investor participation, need for diversification and demand for asset classes that offer higher risk-adjusted returns.

Note: CAGR mentioned above CY25 is CAGR between CY15-CY25, and the CAGR mentioned above CY30P is projected CAGR between CY25-CY30.

As per the Preqin data, North America is the major market for the global private alternatives with an AUM of nearly USD 9.9 trillion, indicating a CAGR of 13.9% between CY15-CY25. Followed by APAC, which is the second largest market for the global private alternatives AUM. The APAC region witnessed 15% CAGR between CY15-CY25, going forward the region is poised to grow at a CAGR of 9%-11% between CY25-CY30P. APAC and specifically top emerging markets (India and China) are poised for growth over the medium term, on a lower base currently. India is expected to contribute significantly to the APAC alternatives industry, as it is fairly at a nascent stage and has high growth opportunities with growing base of institutional investors, high net-worth individual investors (HNIs) and Ultra HNIs.

Within North America, US accounts for a major chunk of private market strategies. Between CY15-CY25, US private market strategies have growth from USD 2.5 Trillion to USD 9.6 trillion, reflecting a CAGR of 14.3%. This long-term trajectory highlights the structural shift toward private markets as institutional and HNIs/UHNIs seek yield, diversification and lower correlation to public markets. In CY25, US Asset Management Industry's AUM[5] reached ~USD 54 trillion, equivalent to around 1.7x the US GDP of USD ~31 trillion GDP, with alternatives accounting for 18% of total AUM.

Over the past three decades, some US-based alternative asset managers have transformed from modest investment firms into global powerhouses managing assets over trillions of dollars. These players have systematically diversified across private equity, credit, real estate, infrastructure, and other private markets, leveraging both institutional capital and HNI inflows. Their growth has been driven by robust deal execution, risk management, and the ability to scale operations across geographies while maintaining consistent returns. This expansion has also been supported by increasing global demand for alternative investments as traditional public market returns have faced headwinds.

The largest firms have not only grown organically but have also ventured into strategic acquisitions, partnerships, and fund launches to consolidate their position. Their scale allows them to access proprietary deal flow, stronger negotiating power, and offer broader investment strategies that smaller firms cannot replicate. Over time, this has led to a high barrier to entry, with a small number of players capturing a significant share of the global alternatives market. Their influence extends beyond capital allocation, shaping trends in private markets, fundraising structures, and even regulatory engagement.

Compared to US, the India's alternatives landscape is still at an early stage but is poised for robust growth. Increasing institutional participation, rising domestic wealth, and greater acceptance of private market strategies are likely to drive asset growth across private equity, credit, infrastructure, and real estate-focused funds. As domestic firms gain experience, improve governance frameworks, and attract international capital, the market is expected to expand rapidly going forward, potentially mirroring some of the scale and depth observed in mature US players, albeit on a delayed trajectory. This growth is likely to be further supported by regulatory reforms and a strong entrepreneurial ecosystem, creating opportunities for both domestic and global investors.

Trend in Nominal GDP of US

Source: World bank, CareEdge Research

The US economy expanded significantly over CY05-CY25, with nominal GDP increasing from USD 13.04 trillion to USD 30.77 trillion, registering a CAGR of 4.4% (2.4x). Despite major disruptions, including the Global Financial Crisis and the Covid-19 pandemic, the US economy demonstrated resilience and sustained its position as the world's largest economy.

Private Equity is estimated to continue having lions share in Global Private Alternatives AUM at nearly 69.2% in CY25, followed by Private Credit at 11.5% in CY25. While real assets such as real estate and infrastructure combined account for around 19.3% of Global Private Alternatives AUM. Going forward, between CY25-CY30P, within real-assets, real estate is projected to grow at a CAGR of 7%-9% and infrastructure is projected to grow at a CAGR of 11%-13%; and private equity is projected to grow at a CAGR of 10%-12%. Between CY25-CY30, Private credit is projected to grow at a CAGR of 13%-15% thereby significantly attributing to the growth of global private alternatives. Overall, the growth of global private alternatives industry is expected to bode well between CY25-CY30P.

Note: Real Assets indicate aggregate of infrastructure and real estate (excl. real-estate debt) AUM

Real assets are among the popular investments for diversification and a potential source of steady cashflows. The increasing urbanization and growing global population have fuelled demand for real estate assets, leading to a steady appreciation in property values and increasing need for better infrastructure. Investors have been drawn to real assets tangible nature, its potential for long term capital appreciation and the potential for revenue generation through rental income. Real assets AUM has exhibited steady growth at a CAGR of 11.1% between CY15-CY25, going forward the real assets AUM is projected to grow between 9%-11% CAGR between CY25-CY30P.

Global real-estate AUM grew at a CAGR of 8.3% between CY15-CY25, between CY25-CY30P the global real-estate AUM is projected to witness good growth at a CAGR of 7%-9%. This growth is likely driven by rising urbanization, growing demand for commercial and residential real estate. However, the performance of this asset class is vulnerable to economic cycles and volatile market conditions.

On a smaller base of USD 0.4 trillion in CY15, Infrastructure has witnessed notable growth of 15.2% over the decade (CY15-CY25) and is expected to witness growth at a CAGR of 11%-13% between CY25-CY30P on a higher base. The growth is likely to be driven by growing demand for infrastructure investments with increasing urbanization, growing population, and hence need for improved connectivity.

Global Private Credit AUM grew over 3x in decade ending CY25; expected to cross USD 4 trillion by CY30

Global Private Credit AUM growth trajectory

Note: Private Credit including real-estate debt

Private credit AUM has witnessed a significant uptick, growing at a CAGR of 12.9% between CY15-CY25, on account of lower base. This growth in private credit AUM is also likely to have been supported by growing demand for debt solutions, risk-adjusted returns, and potential for high returns as compared to traditional fixed-income investments. Between CY25-CY30P, global private credit AUM is projected to grow at a CAGR of 13%-15%, driven by tightening traditional lending norms and increasing market opportunities for private credit funds amidst the growing number of early-stage companies.

Global Private Equity projected to cross USD 22 trillion by CY30

Global private equity's AUM grew at a CAGR of nearly 14% between CY15-CY25 and between CY25-CY30P on account of higher base, the growth is projected to moderate at 10%-12% CAGR. This growth can also be attributed sustained performance of PE funds in delivering attractive returns. Institutional investors are significantly attracted to PE funds due to their commitment, tenure, high returns and active management.

Banks play a pivotal role in aggregating and distributing alternative investment funds, accounting for nearly 30.1% of global alternatives. Followed by asset managers[7] and insurance companies at 13.8% and 10.1% respectively. Wealth managers[8] account for 5.5% whereas family offices make a negligible contribution of 0.7%. These investments are largely driven by diversification, high returns and reduce portfolio volatility.

[7] Asset manager provides investment management and consultancy to a range of investors. The asset manager will invest the pooled funds of its clients in a diverse range of asset classes, minimizing risk while maximizing return.

[8] Wealth managers are firms that provide advisory services, investment management, and financial planning services to private investors, generally high-net-worth, ultra-high-net-worth, and family office investors. Some entities also provide family office services to clients.

Diversification

- Diversification is a major reason that investors are attracted towards alternatives. Investors seek to diversify their portfolios beyond traditional asset classes.

Reliable income stream

- Alternatives can offer consistent cash flows, which are appealing for managing liabilities and ensuring steady income.

High risk-adjusted returns

- Investors are seeking assets that provide better returns relative to their risk, aiming for a more efficient risk-return profile.

Low correlation to other asset classes

- Alternatives often have low correlation with traditional markets, which can aids reduce overall portfolio risk.

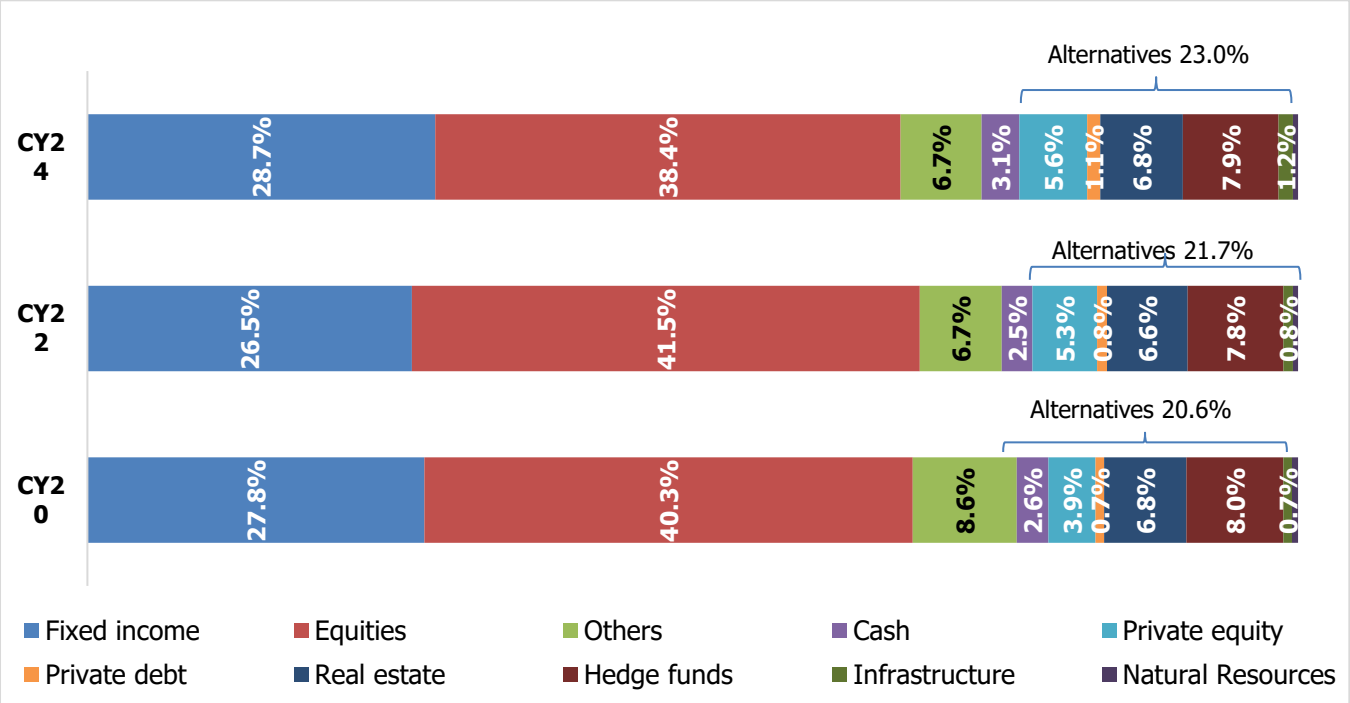

Inflation hedge

- With concerns about inflation, some investors turn to alternatives that may perform better during inflationary periods.

Emerging trends in the global wealth management industry

Institutional investors asset allocation towards alternatives witnessed significant growth between CY20-CY24

Global Institutional Investors Asset Allocation

Source: Preqin, CareEdge Research
Note: Data as of December of each year and is the simple average allocation towards alternatives

The simple average allocation towards alternatives by institutions surged up from 20.6% in CY20 to 23% in CY24. The continued increase in asset allocation towards alternatives by institutional investors is driven by the need for diversification. Traditional asset classes like stocks and bonds often exhibit high correlations and tend to move in line with the market fluctuations. Alternative investments such as private credit and real assets often have low correlation with the markets unlike traditional assets, thereby effective tool for risk management.

Diversification into multiple asset classes

The various asset classes of Alternatives have its own advantages as well as disadvantages; the portfolio mix varies based on the investor risk appetite and opportunity cost of funds.

Advantages of diversification into following Alternatives asset classes

Real Estate	•Hedge Against Inflation •Intrinsic Value •Stable Income Stream •Low Correlation with Traditional Financial Assets
Infrastructure	•Consistent & Predictable Cash flows •Revenues are co-related to Inflation •Low Correlation with Traditional Financial Assets
Private Credit	•High Returns •Low risk compared to private equity •Customised Financing
Private Equity	•High Returns •Active Management •Control over company operations

Note: Emerging Markets include India, China, Japan and Brazil; Developed Markets include US, UK and Australia.

While developed markets registered a CAGR of 13% between CY15-CY25, emerging markets witnessed 17% CAGR between CY15-CY25 in private alternatives; given lower base compared to developed markets. Over the years, alternatives industry has gained significant traction in emerging markets. Amongst the leading emerging markets, India has continued to witness burgeoning growth. After China, India is the second largest and among fastest growing emerging alternatives markets.

Going forward, the demand for Alternatives products in the emerging markets is expected to reach its potential backed by healthy economic growth and rising investor base.

Indian Alternatives Industry

Overview of Indian Asset Management

Asset management generally involves the management of investments by third-party managers on behalf of investors. Asset managers employ a diverse range of strategies, which may be generally divided into two broad categories: traditional equity and fixed income, and alternative investment strategies.

Classification of Investments

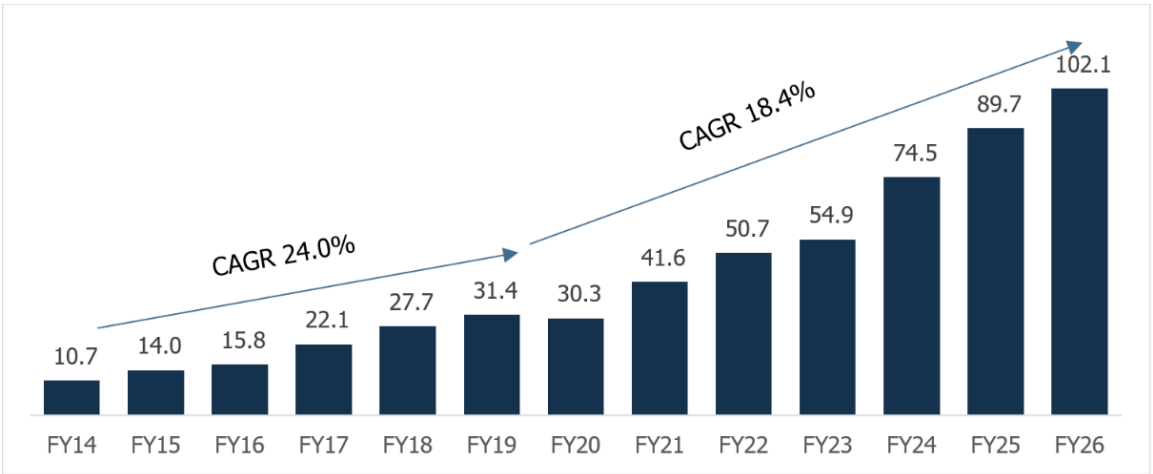

Asset Management Industry attracts capital across two strategies - Liquid Strategies and Private Market Strategies (Alternatives).

- Traditional assets which generally falls under liquid strategies include equity, fixed income and/or derivative securities. These assets may be managed via retirement funds, mutual funds, bank deposits or using a portfolio management approach through separate accounts managed on behalf of individuals or institutions.

- Alternative investments are financial assets that enable investors to diversify their portfolios and seek higher returns beyond traditional stocks and bonds. Alternatives in its simplest form are an alternative to the traditional forms of investing, which include Fixed Deposits, Mutual funds, Equities, Bonds, G-Secs or similar products.

Asset Management has grown by more than 9x at a CAGR of 20.7% over the last 12 years (FY14-FY26) compared to the term deposits which have grown by ~3.1x at a CAGR of 9.9% between FY14-FY26 highlighting the shift of the Indian markets towards the capital markets from the traditional term deposits in search of higher returns.

With the rising preference of investors towards the capital market, including equities and debt instruments and the need to diversify, the asset management space has grown rapidly. Resultantly, even though Bank Term Deposits continue to remain the most popular financial instrument, its share has declined while that of the asset management segment increased over the last decade.

Indian SEBI Registered Alternates Industry on the Growth Trajectory

Overview

As India continues its economic growth trajectory, investors are increasingly looking for investment opportunities apart from the traditional investment ecosystem to build their portfolio and safeguard their wealth from future financial downturns. Some of these alternative investment options in India can offer high returns with low volatility and help diversify an investment portfolio. India's alternative investment industry is growing, although it is still relatively underdeveloped compared to the global industry. However, with regulatory changes and increasing investor interest, the alternative investment space in India is poised for further growth.

Indian SEBI Registered Alternates Have Grown Rapidly (Rs trillion)

Source: SEBI, CareEdge Research; Note: Consists of SEBI registered Alternates AIF Commitments + REIT and InvIT funds raised in the respective years, FY indicates Financial Year Ended March.

As can be observed in the chart above, SEBI registered Alternates, comprising AIFs, InvITs, and REITs, have grown at a significantly faster pace (CAGR of 84.7% for FY14-FY19) on account of a lower base, as they started to gather pace, from FY19 to FY26, the growth rate of the SEBI registered alternatives, was still high at CAGR of 29.5%. A major component of this growth has been the continued substantial commitments to Category II AIF funds, meanwhile AIF investments include both public as well as private investments.

Structure of SEBI Registered Alternates in India

In India, the alternative industry broadly has three primary structures namely AIFs, REITs and InvITs which have been detailed below. AIFs account for the bulk of the industry with REITs and InvITs accounting for a significantly smaller share.

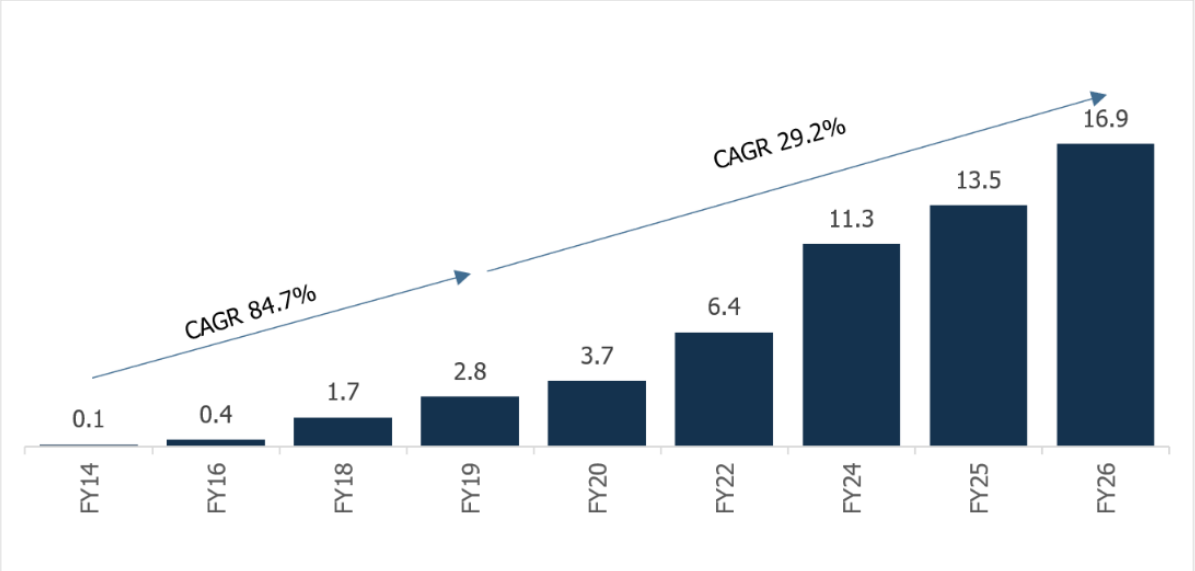

Alternative Investment Funds

Overview

As per SEBI, Alternative Investment Fund or AIF means any fund established or incorporated in India which is a privately pooled investment vehicle which collects funds from sophisticated investors, whether Indian or foreign, for investing it in accordance with a defined investment policy for the benefit of its investors.

Growth of AIFs in India

AIFs Cumulative Commitments have surged annually (Rs trillion)

Source: SEBI, CareEdge Research

AIFs commitments have grown sharply with the annual growth rate remaining in high double digits. As of FY26, AIFs have received commitments worth Rs 16.9 trillion increasing more than 129 times compared to FY14 or growing at a CAGR of ~50%. Of these commitments received, ~41% funds have been drawn down and of these funds which have been drawn down ~96% investments have been made.

Types of AIFs

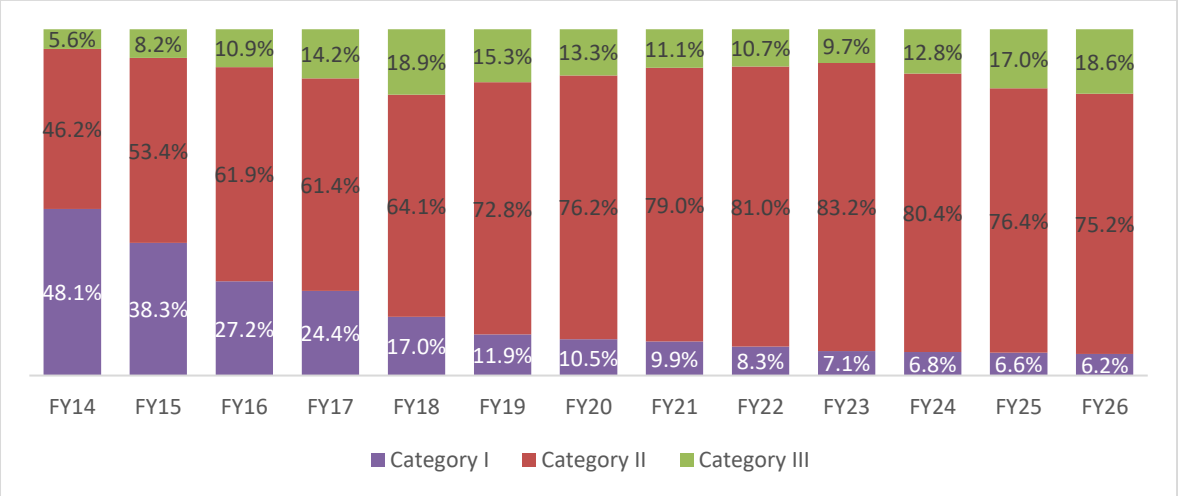

Funds can seek registration under three categories – Category I, Category II and Category III.

- **Category I:** Invests in start-up or early-stage ventures or social ventures or SMEs or infrastructure or other sectors or areas which the government or regulators consider as socially or economically desirable and shall include venture capital funds, SME Funds, social impact funds, infrastructure funds, special situation fund.

- **Category II:** Category II are those funds which does not fall in Category I and III and which does not undertake leverage or borrowing other than to meet day-to-day operational requirements and as permitted in these regulations.

- **Category III:** Category III are those funds which employ diverse or complex trading strategies and may employ leverage including through investment in listed or unlisted derivatives.

Share of Commitments by Category

Foreign Capital makes up ~34% of the funds raised

Given that India's economy has been amongst the fastest growing globally, along with an increased capex in infrastructure and a thriving capital market has generated a buzz amongst the international investors. AIFs provide an investment avenue to participate especially in the real estate and infrastructure segments and private credit. While, foreign investors have historically been a part of Indian alternatives space, domestic investors have lately been active in this asset class owing to increasing number of HNIs in India. With the US interest rates at their

peak and an impending rate cut cycle, India Alternatives industry is poised to attract substantial global capital flows into income and yield strategies.

REITs

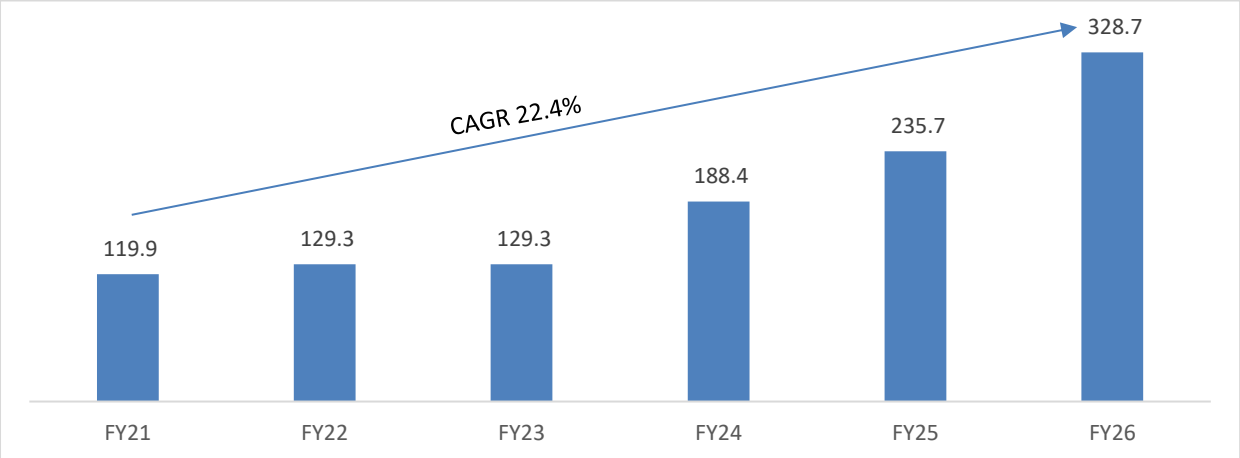

Overview

Real Estate Investment Trusts (REITs) are investment vehicles that enable individuals to invest in real estate without directly owning or managing properties. The primary purpose of REITs is to give investors an opportunity to invest and gain exposure to a diversified portfolio of real estate assets across different sectors and geographic locations, while benefiting from professional management, liquidity, and potential income generation. According to the Indian REITs Association, there are six listed REITs, collectively managing assets worth over Rs 3.10 trillion as of FY26.

Growth of REITs in India

REITs cumulative funds raised in India has grown over the years and reflected strong momentum in the last 5 years with cumulative funds raised growing by a CAGR of 22.4% between FY21 and FY26.

Cumulative Funds Raised via REITs gaining momentum (Rs billion)

Source: SEBI, CareEdge Research; Note: Cumulative funds raised across years; Includes funds raised through public issue, private placement, preferential issues, institutional placement, rights issues.

Types of REITs

- **REITs**: They are permitted to own income or rent generating real estate, such as offices, retail, etc. They are not permitted to own speculative landbanks. Indian REITs can only own assets situated in India. Indian REITs must have at least 80% (by value) of their assets completed and income or rent generating.

- **Small and Medium Real Estate Investment Trusts**, or SM REITs: An SM REIT is allowed to gather funds starting from Rs 50 crore by issuing units to a minimum of 200 investors. SM REIT schemes, at least 95% of the assets must be fully developed and generating revenue, compared to the 80% requirement for larger REITs.

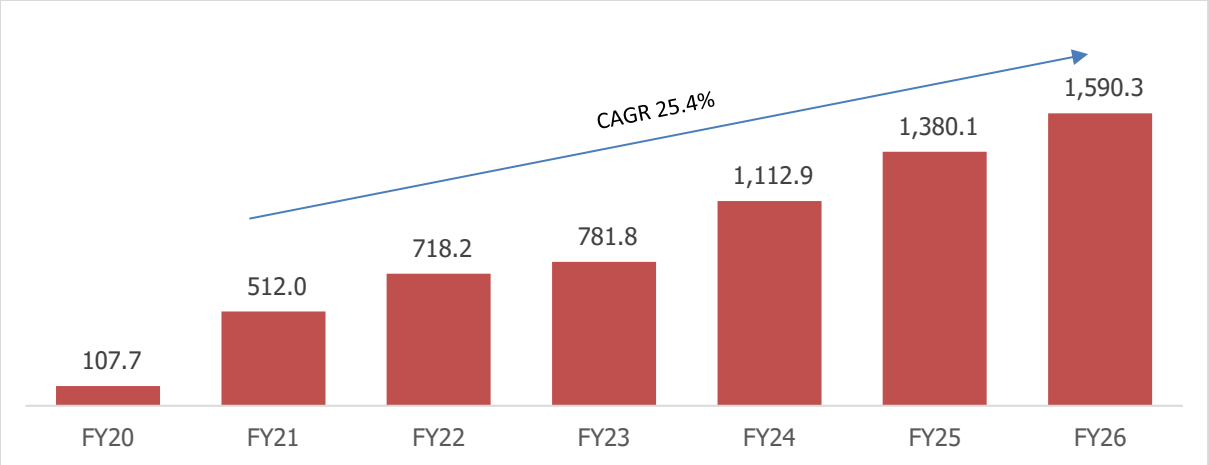

InvITs

Overview

InvITs utilise the pooled capital of investors to buy and manage income-generating infrastructure assets, such as roads, transmission towers, wind power, solar power, seaports, airports, telecom, etc. According to the Bharat InvITs Association, as of March 2026, 28 SEBI-registered InvITs have collectively raised over Rs 1.97 trillion in equity since 2019 and currently, manage assets ~Rs 7.1 trillion.

Growth in Indian SEBI Registered Alternates has Outpaced Traditional Investment Classes

CAGR over the years: Alternatives Handily Outpace Other Options

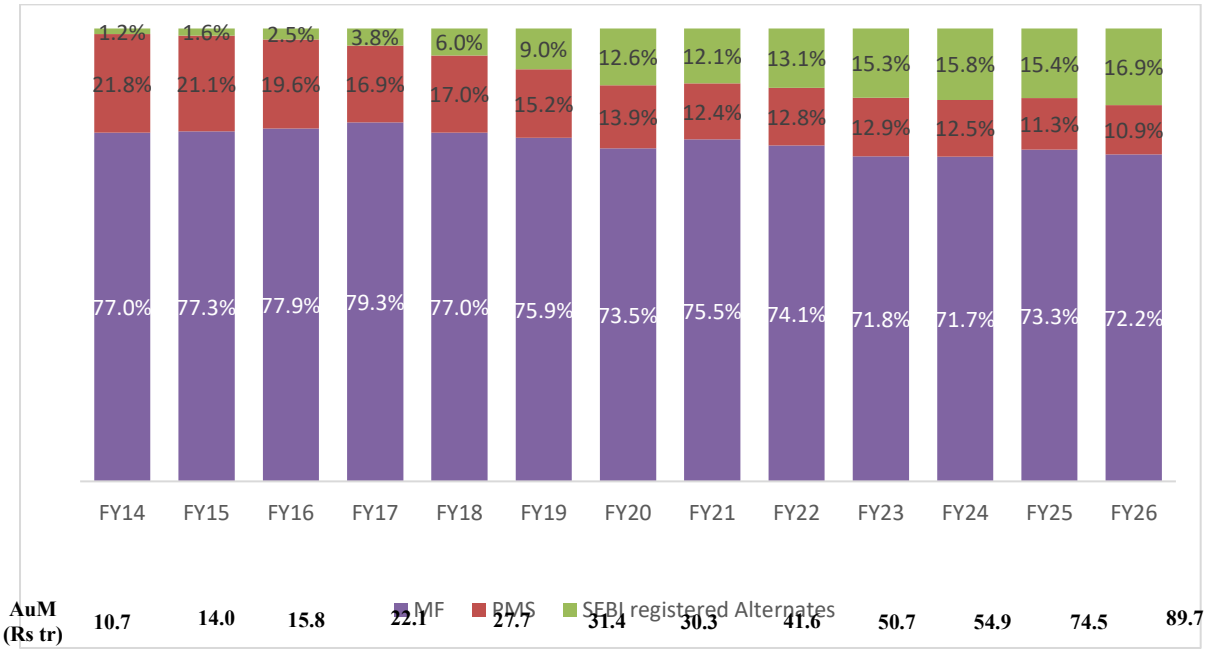

Source: RBI, SEBI, CareEdge Research Note: AuM as of the last day of the month; FY- financial year ended March; Asset Management includes Portfolio management services excluding EPFO, Mutual Funds and Alternatives (AIF Commitments + REIT and InvIT funds raised in the respective years).

As can be observed in the charts above, SEBI registered Alternates, comprising AIFs, InvITs, and REITs, have handily outpaced the growth in mutual funds as well as in more traditional investments such as bank term deposits. In the first five-year period, SEBI registered alternatives have grown at a significantly faster pace (CAGR of 84.7% for FY14-FY19) compared other traditional investment options (Mutual Funds at a CAGR of 23.6% for FY14-FY19 comes a distant second) on a significantly lower base. And as they started to gather pace from FY19 to FY26, the growth rate of the SEBI registered alternatives has come down, still at a high CAGR of 29.5%, followed by mutual funds segment which recorded second fastest CAGR of 17.5% for the similar period. Further, the share of SEBI registered alternatives within the asset management space has increased from 1.2% in FY14 to 15.4% in FY25 and 16.9% in FY26 reflecting their rising popularity with investors.

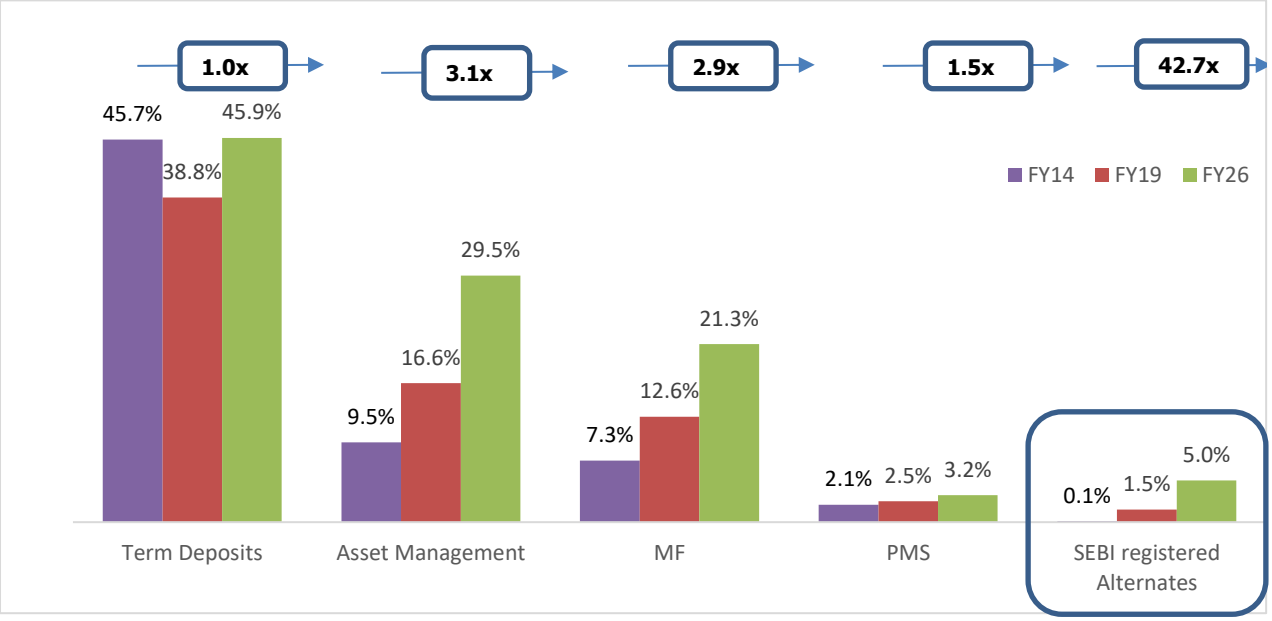

Investments in mutual funds is considered relatively liquid than alternatives as lock-in period for mutual fund investments varies from no mandatory lock-in to lock-in up to 3 years (ELSS schemes). As of FY26, the net AUM of mutual fund industry in India stands at Rs 73.7 trillion.

Bank Term Deposits continue to remain the largest, however, despite an increase in absolute levels, there has been a degrowth as a % of GDP highlighting the fact that Indian Households are shifting more towards capital market investments. Further, Mutual Funds have witnessed a 2.9x increase, while PMS has seen 1.5x rise. SEBI registered

Alternates has grown by 42.7x from a low base - 0.1% in FY14 to 5.0% in FY26.

Indian asset management industry, as of FY26, is only 29.5% of GDP (at current prices). Within asset management, SEBI registered alternatives (Cumulative AIF Commitments + REIT and InvIT funds raised in the respective years) accounts only for 5.0% of GDP.

Growth drivers for SEBI Registered Alternates in India

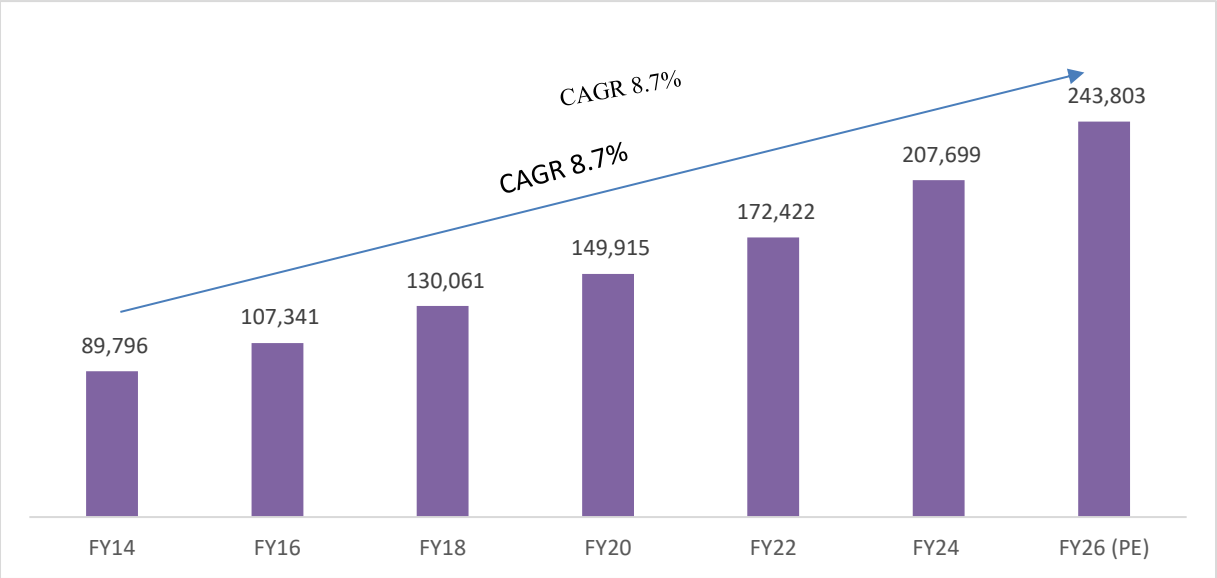

The India Alternatives Market has multiple significant trends that have been instrumental in shaping the industry's landscape. As the industry focused on growth, returns, and diversification, it has experienced significant changes in asset size, investor behaviour, and the adoption of technology-driven solutions. The factors can be broadly classified into three primary categories, macro factors, demand-side factors and supply-side factors.

Macro Factors

Rising Income Levels

Trend in Per Capita GDP (Current Price) (In Rs)

Note: Provisional estimates; FY24 and FY26 data is based on new series 2022-23. Source: MOSPI

India has been experiencing a steady increase in wealth creation, both at the individual and institutional levels. As income levels are rising, people are searching for more avenues to invest in. High-net-worth individuals (HNIs), family offices, and institutional investors are looking for avenues to deploy their capital effectively, and AIFs provide them with opportunities for portfolio diversification.

India has a Higher Gross Savings Rate Compared to Global Average

India is a nation of savers which is evinced by the fact that it has a higher gross saving ratio compared to advanced economies such as UK and US as well as the global average.

Country	Gross Savings Rate (%)	Country	Gross Savings Rate (%)
Singapore	40.0	Thailand	23.9
India	34.7	Australia	22.2
Russian Federation	28.6	United Kingdom	17.2
Philippines	30.1	United States*	16.6
Turkiye*	29.9

Regulatory Support

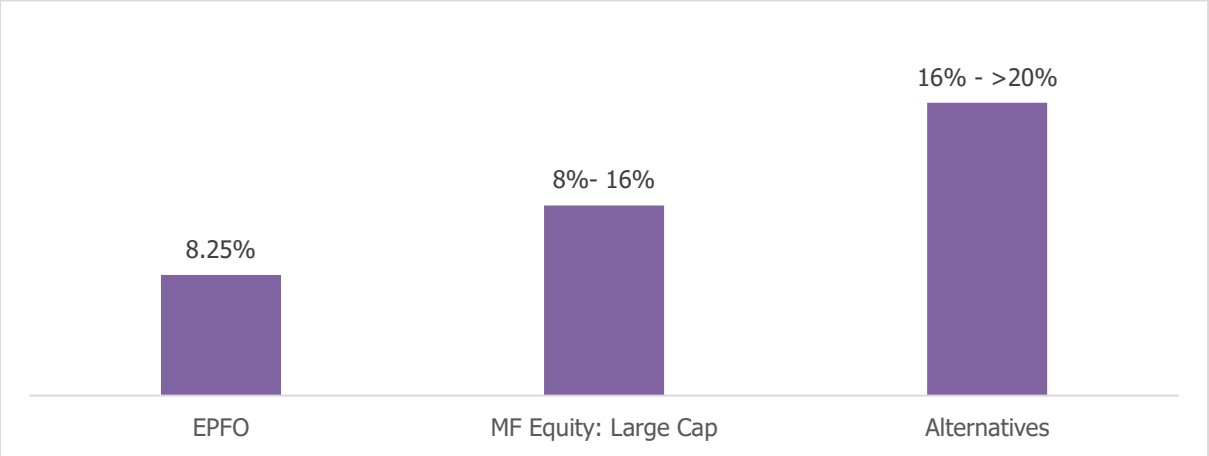

The regulatory environment in India has been evolving to support the growth of the AIF industry. Measures such as standardizing the private placement memorandum (PPM), conducting PPM audits, and mandating benchmarking of AIFs aim to enhance transparency and empower investors to make well-informed decisions. A notable development is the authorization of AIF setups in the International Financial Services Centre (IFSC) in GIFT City, offering benefits like tax incentives, top-notch infrastructure, proximity to onshore markets, and exemptions for non-resident investors.

Demand-Side Factors

Preference for Non-traditional Investment Avenues to Generate Higher Returns

Investor interest in alternative investments has surged, driven by a desire for higher potential returns amidst a growing appetite for risk-taking. This shift reflects a broader trend of diversification and pursuit of higher yields in investment portfolios.

Alternatives operate in expectations of higher yields

Source: EPFO, AMFI, Preqin: Note: EPFO Returns As of March 31, 2026; MF 5-year return; Alternatives Target Returns based on Preqin data on the Target IRR – Net Min of 100+ India focused funds.

Meanwhile, Alternatives generally target returns more than 20% which make them attractive investment propositions.

Easy Access of Information

The growth of the AIF industry has been significantly catalysed by increased awareness. Present-day investors are increasingly informed and financially adept, seeking opportunities beyond traditional investment avenues. Information regarding alternative investment information is way easier to get, as it is largely driven by the Internet and social media. This dissemination of knowledge has made alternative investments more accessible to individual investors, including HNIs and UHNIs.

Demand for Bespoke Solutions

There is a growing desire among investors for investments that focus on particular sectors or asset classes, like real estate, infrastructure, private equity, and venture capital. Given India's expanding economy and infrastructure projects, there's a rising need for investments in areas such as real estate, technology, healthcare, and renewable energy, all of which AIFs can accommodate.

Tailored Investment Strategies

AIFs provide the advantage of customizing investment strategies, enabling fund managers to adjust to evolving market conditions and investor preferences. This adaptability appeals to investors who seek personalized investment options tailored to their needs and desire for returns that match the associated risks.

Supply-Side Factors

Deployment of Savings towards Capital Market Assets Has Increased

Households are increasing their investments in financial assets. There has been a significant shift towards the capital markets given the relative outperformance and increasing financial literacy.

Investors' View on Emerging Markets

According to Preqin, India and Southeast Asia are highly desirable locations for investment opportunities

Indian economy is one of the fastest growing economies in the world. Additionally, India has been included in the JP Morgan's government bond index which is also expected to attract additional inflows. Foreign institutional investors are raising allocation to fund managers with established track records and can be a major source of growth in capital for the Indian alternatives industry.

Foreign Capital Inflow into India

Movement in Gross Foreign Investment Inflows (USD billion)

Source: RBI, CareEdge Research

India has witnessed significant levels of foreign capital inflows as it has emerged amongst the fastest growing economy globally, better return prospects, geo-political stability, increasing investment opportunities in multiple sectors. Gross Foreign Investment Inflows has generally remained elevated with services, trading and computer software & hardware. Maharashtra and Karnataka together account for half of the cumulative investments. If Gujarat, Delhi, and Tamil Nadu are included, these five states have garnered close to 90% of cumulative inflows.

Increasing Domestic Capital Flow

Domestic investors, both individual as well as institutional, have witnessed significant growth in their wealth. Hence, they are focusing on asset allocation and diversification to achieve desired returns. Consequently, intermediaries such as distributors and family offices, have allocated capital from traditional products to AIFs leading to rising participation of both HNIs and institutional investors as sources of capital for alternate asset management. Additionally, the proactive approach in implementing regulatory changes has allowed domestic institutional investors, including retirement funds and insurance companies, to invest in AIFs, which is expected to significantly drive industry growth.

Domestic Population of High Net-worth Individuals has Grown at a Rapid Clip

While the number of India's wealthy individuals are less in comparison with established markets, the country's wealth is expected to expand rapidly in the future which will lead to significant increase in the number of HNIs. The key factors for growth include an increase in wealth of global Indians, performing equity markets, the Indian government's push to financialize the savings and tightening of capital market regulations.

World	**713**	**948**	**5.90%**

Note: UHNWI - Ultra-high-net-worth individual – someone with a net worth of USD 30 million or more.
Source – Industry sources, CareEdge Research

India has one of the world's fastest growing UHNWIs populations both in terms of the number of individuals and the wealth levels, the percentage of wealthy Indians remains very small compared with developed economies. In CY31, the UHNWI population is expected to grow by ~5.6% CAGR over CY26 (27%). In CY31, the UHNI population is expected to grow by ~5.6% CAGR over CY26. The number of UHNWIs in India increased rapidly and reached ~19 thousands in CY26. With increase in start-ups, rising income levels and friendly macro factors with ease of doing business will drive growth of young HNI population in India.

In the medium to long term, UHNI, HNI and affluent segment are likely to witness growth on the back of growth in Indian economic, rising affluence and financialization of assets. UHNI and HNI wealth is expected to grow at a CAGR of 13-14% over the next few years. Several factors are expected to underpin this growth. India's GDP has been expanding significantly along with capital market performance, has been enabling wealth creation across the spectrum. Entrepreneurship, particularly in technology and e-commerce, has also been a significant driver. Cities like Mumbai, Delhi, and Bangalore are major hubs for these affluent populations. Mumbai, the financial capital, hosts the highest number of HNI and UHNI individuals, followed by Delhi and Bangalore.

With the rising affluent population, domestic wealth is accumulating exponentially and apart from the traditional investment products HNIs/ UHNIs are looking for differentiated investment products with higher risk appetite, transparency & preference for performance-based fee structure products leading to increased appetite for alternatives.

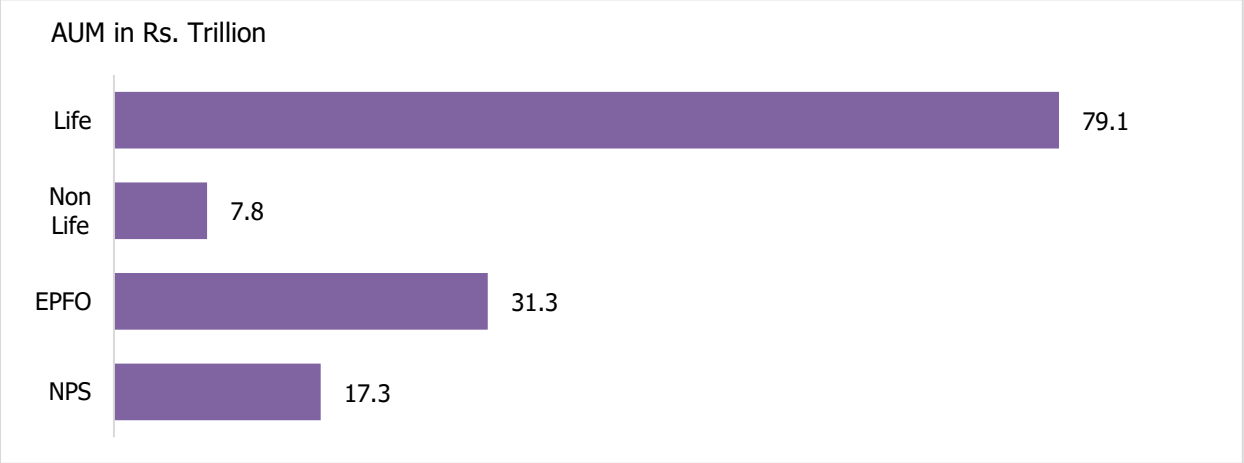

Domestic Institutional Capital Gradually Diversifying into Alternatives

Institutional investors invest in financial markets on behalf of groups or individuals, including both current and future generations by pooling their capital. Insurance both life as well as non-life along with retirement funds such as the EPFO and NPS account for the bulk of the institutional capital in India. As per the investment patterns, the allocation towards equity a decade ago was minimal let alone allocation towards the alternatives space. Over the decade, equity allocation has improved, and regulatory norms have been introduced permitting these domestic institutions to invest in alternatives.

Alternative investments hold the promise of generating superior long-term returns compared to traditional asset classes. They offer investors the chance to diversify their portfolios and potentially achieve higher returns compared to traditional asset classes. This is due to the characteristic of alternative investments being typically uncorrelated or less correlated with traditional assets, allowing them to perform well even when conventional asset classes are struggling. Hence, domestic institutions are gradually diversifying into alternatives.

Domestic Institutions hold ~Rs 135 trillion in capital which is projected to grow at a CAGR of ~14% over the next five years

Domestic institutions manage significant capital of ~Rs 135 trillion in India. Based on historical growth, economic expansion, macroeconomic factors, evolution of regulatory environment, expansion of financial markets, improving financial literacy and growing high net worth population in the country, the domestic capital is expected to grow at a CAGR of ~14% over the next five years.

This patient pool capital currently does not have a meaningful allocation to alternatives. As per Preqin Institution Allocation Study – April 2025, globally asset allocation to alternatives by insurance companies, Private pensions and public pensions (patient pool capital) stand at approximately 5%, 21% and 29% respectively. On the other hand, Indian domestic institutions have historically had limited allocation to alternatives due to regulatory constraints around liquidity, safety of capital and returns. However, regulators are easing these regulations gradually. Steps taken by regulators recently include allowing insurance and pension companies to invest in AIFs and the units of REITs and InvITs. Increase in allocation towards alternative assets by institutions could unlock significant pool of capital for the Indian alternatives industry. Growth in higher allocation to alternatives by patient pool capital will be driven by multiple factors such as predictable cash flows and stable and predictable return which alternatives offer, supportive regulatory tailwinds and need for better liability matching. Further, alternative asset managers with a proven track record and multiple strategies are well-positioned to be a primary beneficiary of this shift in institutional capital.

Market size of India focused alternatives industry

Indian alternatives have seen healthy growth over the past decade

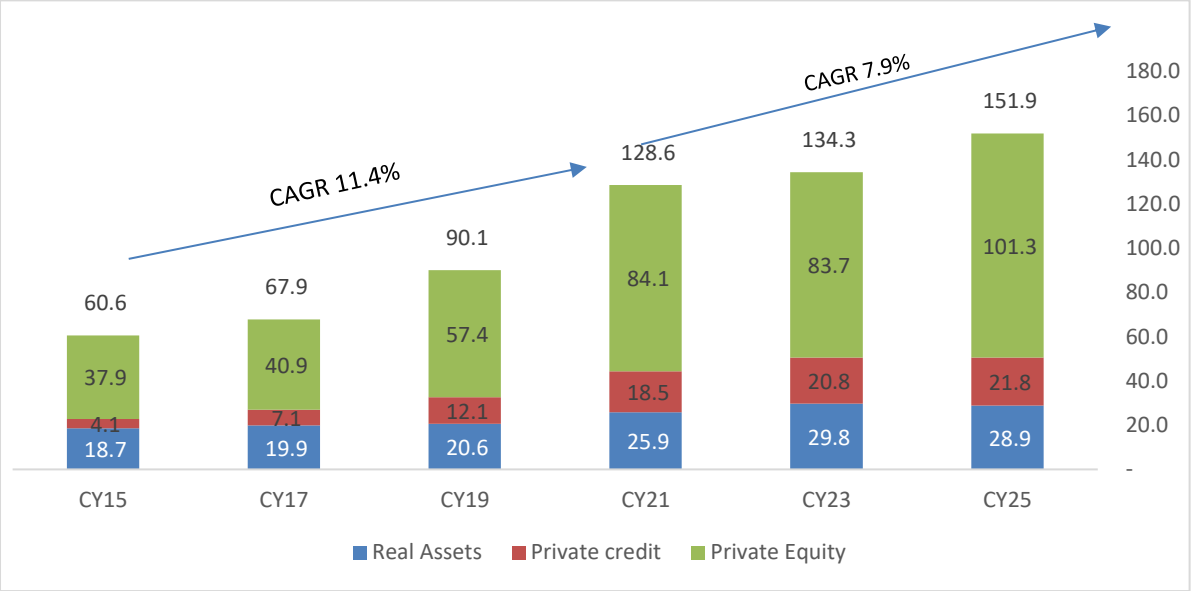

Alternative Investment Funds is one of the fastest growing investment segments in India, given its low penetration.

In the past decade, the Indian AIF industry AUM has grown from USD 60.6 bn in Dec 2015 to USD 151.9 bn in Dec 2025. The growth of the industry has been recorded at a CAGR of 9.6% over the decade.

The chart indicates a positive trajectory of the alternatives industry in India over 10-year period. The industry has experienced a steady and significant increase in size over the past decade reflecting a growing appetite for alternatives investment in the country. This trend is likely driven by factors such as increasing awareness of alternative investments, evolution of regulatory environment, people looking beyond traditional asset classes for investment option, improving financial literacy and growing high net worth population in the country. Other factors include sectoral diversification and innovative financial solutions.

The combined AUM of private credit and real assets in India have more than doubled during the period 2015-2025 and it is expected to further grow to USD 112.9 billion by 2030. The proportion of private credit and real assets market is expected to reach 42% of India's overall alternative investments industry by 2030 from 33% in 2025.

The AIF market in India represents a dynamic and growing segment of the investment landscape. With robust regulatory frameworks, increasing investor interest, and diverse investment opportunities, the sector is poised for continued expansion.

The Indian market has seen a strong growth due to the following reasons:

- **Increasing investor interest**: The AIF sector has seen substantial growth in AUM, which is driven by increasing interest from institutional and high-net-worth investors from both domestic as well as foreign investors.
- **Diversification**: The funds are diversifying into various sectors which include technology, healthcare, renewable energy, and real estate, reflecting broader economic trends and emerging opportunities.
- **Institutional Participation**: There is growing involvement from domestic and international institutional investors, including pension funds, insurance companies, and family offices.
- **Technology Integration**: The sector is increasingly adopting fintech solutions and data analytics to enhance fund management, transparency, and investor experience.
- **Evolving regulatory environment**: Evolution of regulatory environment helps build trust in investors and provide an impetus for sustainable growth in this space.

The Yield and income strategy which includes the Private credit and Real assets are expected to grow from USD 50.6 billion in CY25 to 112.9 in CY30 with the expected CAGR of 16% to 18% and Growth strategy which comprises of private equity is expected to grow from USD 101.3 billion in CY25 to USD 154.1 billion in CY30 with the expected CAGR of 6% to 8%.

Indian Alternatives industry to continue to clock healthy growth in the future

India's growing economy is projected to be the third largest globally by the year 2027-28, making it an attractive opportunity for investors. India has been identified as the most appealing emerging market across various asset categories, especially in terms of private credit owing to growing demand for credit in the system and private equity as the startup ecosystem is on a rise in the country. This provides a significant potential to scale the overseas LP allocation to India and tapping the domestic LP, in turn leading to alternatives growth.

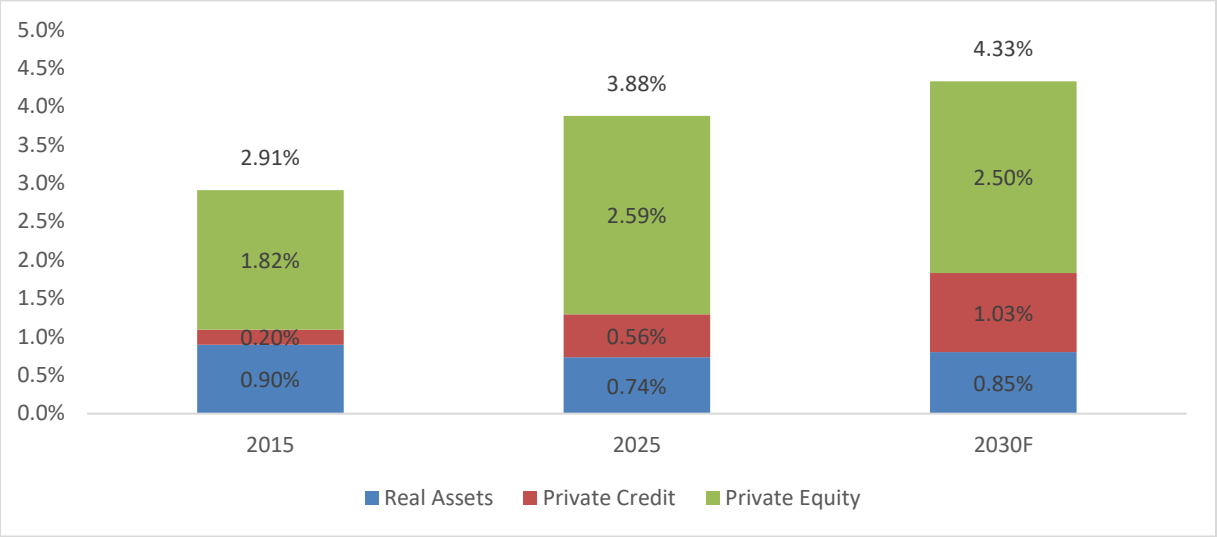

Outlook on Alternatives Industry in India (AUM in USD billion)

Note: F – Forecasted, Year in the chart indicates Calendar Year

The Indian alternative industry is expected to reach ~USD 267 bn by the year 2030 from USD 151.9 bn in 2025. Between 2025 and 2030, the industry is expected to record a CAGR of ~12% to 14%, with private credit and real assets expected to grow at a faster pace than private equity. India is expected to outpace the mature market like North America and Europe. The alternative investment fund segment in India is growing quickly because of increasing awareness of alternative investments, evolution of regulatory environment, people looking beyond traditional asset classes for investment option, improving financial literacy and growing high net worth population in the country. As India's economy and wealth increase, investors are looking for more diverse and higher-yielding options than usual, also these investments are not linked to market fluctuations thereby a preferred choice to diversify, leading to a rise in demand for alternative investments like private credit and real assets.

Private credit to gain market share owing to strongest growth amongst asset class

Split by asset class

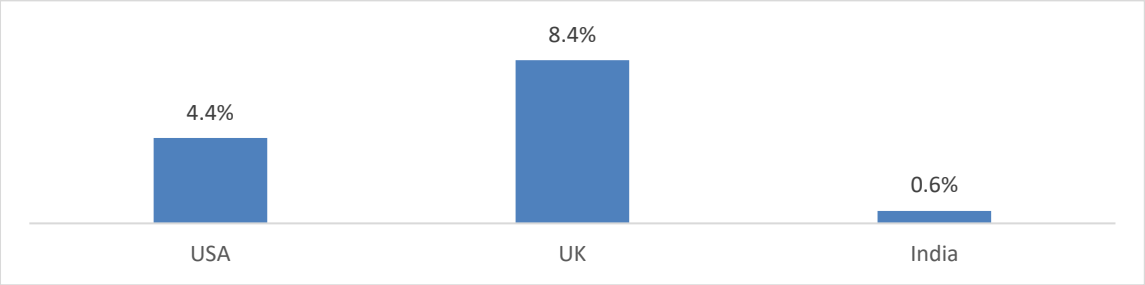

Source: Preqin, CareEdge Research

Private credit: Private credit usually offers higher returns than regular fixed-income investments because of the higher risk and lack of liquidity in these loans. Also, it provides steady cashflows as compared to private equity where cashflows are completely dependent upon exit events.

In the last ten years, the private credit market has recorded a staggering CAGR of 18% increasing from USD 4.1 bn in CY15 to USD 24.2 bn in CY25.

Going forward it would be one of the fastest growing segments in the Indian alternatives space owing to growing need for credit and widening credit gap. Also, low penetration of private credit in the Indian market visible from an AUM as only 0.6% of GDP when compared to 4.4% for USA and 8.4% for UK provides a huge headroom for growth in the future.

Real assets: Real assets are physical or tangible assets that possess inherent worth and are often employed as a safeguard against rising prices and to ensure steady returns. These assets encompass real estate holdings (like office, living, and industrial structures), and infrastructure holdings (such as roads, bridges, and utilities). In contrast to financial assets like shares and bonds, real assets provide direct ownership and the right to use them, and their worth comes from their natural physical attributes and their ability to generate stable and predictable cashflows. The real assets market has grown from USD 18.7 bn to USD 28.9 bn between CY15 and CY25 indicating a modest CAGR of 4.5%. This modest growth rate was primarily due to the underperformance of the real estate sector, which was one of the hardest-hit sectors during the economic downturn, exacerbated by high interest rates amid high inflation and delays in obtaining necessary government approvals.

Also, low penetration of real assets in the Indian market visible from an AUM as only 0.8% of GDP when compared to 7% for USA and 9.3% for UK provides a huge headroom for growth in the future.

Private Equity: Private equity (PE) represents an investment strategy where funds are allocated to private businesses or employed through equity route with the objective of to support growth of the company as well as investors through diligent management and strategic expansion. The private equity market has increased from USD 37.9 bn in 2015 to USD 101.3 bn in CY25, recording a strong CAGR of 10.4%.

Resultant faster growth in the Indian Alternatives than other regions

The India's growing economy is projected to be the third largest globally by the year 2027-28, making it an attractive opportunity for investors. The nation's investment attractiveness comes from the range of options in different industries and favourable demographics like increasing wealth and a growing workforce. As per Preqin, in the last five years, the typical venture capital deal size in India was approximately USD 16 million, whereas on a global scale it was ~USD 26 million.

In a volatile market, increasing number of investors are focusing on reducing overall downside risk by emphasizing the lower valuations of early-stage VC investments, even though it may involve holding onto these investments for a longer period. Family offices have become a favourable funding source in a tough fundraising environment because of their willingness to take on more risk and ability to quickly distribute funds. Nevertheless, their adaptability can also lead to them being easily diverted by thriving public markets.

Despite facing global economic challenges, India's strong economic outlook has led to record-high public equity markets after a successful year for IPOs in 2025. This is advantageous for private capital since more developed capital markets can offer improved assistance during the investment process, which is a common obstacle for less established markets. The specially designated economic zone GIFT city, located in Gujarat in the west of India, is also attracting fund managers who are relocating from abroad to capitalize on tax benefits and other advantages for investing in the country. This could also help expand the pool of local industry skills.

Although there are some short-term risks and expected varied performance in the next 12 to 18 months, investors may become more discerning when selecting new investments; however, lower valuations could offer long-term opportunities.

Characteristics of Real assets, Private credit and Private Equity

Characteristics	Real Assets	Private Credit	Private Equity (PE)
Income generation	Real assets provide steady income through rents, leases in addition to potential capital appreciation	Private credit provides regular incomes like interest payments, which can offer a stable and predictable income stream	PE usually involves equity stakes in companies, which do not provide regular income. Returns are generally realized upon the sale of the investment or through dividends if the company pays them, which can be less predictable
Risk profile	Real Assets are generally less risky when compared to private credit and private equity	Generally, credit is considered to be less risky, as it often involves secured loans with priority in the capital structure.	PE involves higher risk due to the nature of investing in startups or growth-stage companies. This investment is risky as the companies may fail or underperform

Characteristics	Real Assets	Private Credit	Private Equity (PE)
Liquidity	Liquidating real assets can take considerable amount of time	While the credit investments are less liquid than public bonds, they are generally more liquid than private equity investments. Depending upon repayments, investors may get their principal amount sooner	In PE, the capital is tied up until the exit events such as IPOs or acquisitions occur hence the investment is illiquid
Inflation	Real assets often serve as an effective hedge against inflation, as their value and income potential tend to rise with inflation	Private credit may not provide a direct hedge against inflation as it is always pegged against the risk profile and strategy of the fund	Private equity may not directly hedge against inflation since the returns are more dependent on the growth and performance of the portfolio companies
Capital appreciation	Real assets can appreciate over time due to increased demand or improvements in the underlying assets	Private credit investments are primarily designed to generate stable income; however, certain sub-strategies do offer potential for capital appreciation including distressed debt, special situations and mezzanine debt	In private equity, significant growth can be achieved from the investment in the invested companies, potentially delivering higher returns but with greater risk

To sum up, investments in private credit and real assets usually provide more regular and steady earnings, relatively shorter investment periods, and possibly reduced risk when contrasted with private equity. On the other hand, private equity could lead to greater returns and expansion opportunities, albeit with increased risk and extended periods of investment. The decision on which type of investment to pursue hinges on personal investment objectives, the level of risk one can handle, and the necessity for income.

Competitive Edge for the players in Alternative market

Track Record

- Established firms, with their proven performance and the firms with Vintage/ track record have seen multiple cycles and are better placed, have built trust and credibility, making it easier for them to attract investors and secure high-quality borrowers.
- New players often struggle to prove their reliability and effectiveness, leading them to take on riskier borrowers, which hampers their ability to compete and manage borrower risk.

Scale of Operations

- Established private credit firms leverage their scale of operations to achieve significant competitive advantages, including greater diversification and risk mitigation. This larger asset base allows them to offer more attractive terms to borrowers and operate more efficiently, enhancing profitability and solidifying their position as trusted partners in the market also the Private credit involves large operational team to manage the cashflow operations which enables them to operate efficiently.
- New entrants often face higher per-unit costs due to their smaller scale, impacting their competitiveness. They struggle to acquire the necessary infrastructure, technology, and talent for effective credit risk management, making it hard to match established firms, which leverage their scale to offer better terms to investors and borrowers.

Strong Sponsor Backing

- Established firms benefit from backing by well-known sponsors, providing financial support and credibility that helps them access capital, attract quality borrowers, and negotiate better terms. This support also enables investments in advanced infrastructure and talent, boosting their competitive edge.
- New entrants often struggle to secure funding and support without strong sponsorship, making it difficult to build credibility, attract investors, and compete effectively. This backing is crucial for differentiating established players from newcomers and sustaining market dominance.

Underwriting

- Established firms because of the vintage and having seen multiple cycles, have a more nuanced practices to accurately assess borrower risk and creditworthiness, minimizing defaults and enhancing returns. Their access to advanced technology and strong networks further boosts their ability to negotiate better terms and attract quality borrowers, solidifying their competitive advantage.
- New entrants struggle with underwriting due to its complexity and required expertise. Lacking resources and experience, they face challenges in due diligence and risk assessment, resulting in higher default risks. The high cost of technology and regulatory hurdles further limit their competitiveness, allowing established firms to maintain dominance in the private credit industry.

Risk Management Capabilities

- Established firms use refined risk management capabilities to effectively assess and mitigate financial risks. Their advanced tools and experienced teams reduce defaults and enhance lending decisions, building trust with borrowers and investors. This expertise allows for favorable negotiations and better regulatory compliance, strengthening their market position and attracting quality borrowers.
- New entrants, developing effective risk management capabilities is a major barrier to entry in private credit. Lacking the resources and experience of established firms, they struggle with risk assessments and may make poor lending decisions, increasing default risks and deterring investors.

Investor Interest & Confidence

- Established firms benefit from a strong track record and a history of reliable returns, which helps them attract and retain investors. Their proven performance reassures investors about the safety and potential of their investments.
- New entrants struggle to gain investor confidence due to their lack of a proven track record, making it difficult to attract significant investment. Investors tend to prefer firms with demonstrated performance and reliability, so this initial lack of interest hinders newcomers from securing the capital needed to compete effectively.

Asset Mangement Capabilities

- A strong on-ground asset management team is critical for an alternative asset manager as it drives operational execution, real-time oversight, and value creation across portfolio assets.
- Established firm having an asset management arm bring credibility, making investors more comfortable, reducing setup costs, accelerating fundraising, and enhancing investor confidence.
- This deep, local operating capability becomes a significant entry barrier for new entrants, as it requires years of domain expertise, relationships, and institutional knowledge that is difficult to achieve.
- New entrants face higher costs, slower fundraising, weaker risk controls, and credibility issues

Real Assets

Overview of Real Assets market in India

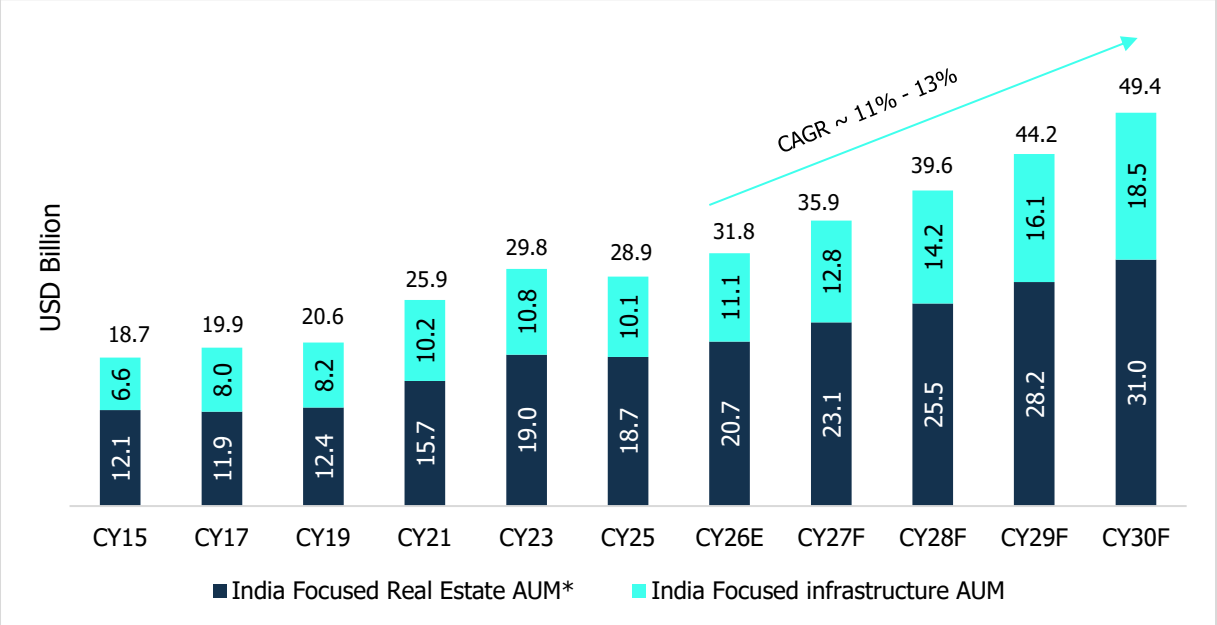

Market Size of Indian Real Assets AUM

The Real Assets AUM experienced a CAGR of 5.8% from CY19 to CY25. This modest growth rate was primarily due to the underperformance of the real estate sector, which was one of the hardest-hit sectors during the economic downturn, exacerbated by high interest rates amid high inflation and delays in obtaining necessary government approvals.

The Indian Government has taken various measures to improve infrastructure in India, by increasing budgetary allocation towards capex and leveraging public-private partnerships (PPPs). In the Union Budget 2025-26, the government continued its focus on infrastructure development with budget estimates of capital expenditure toward the infrastructure sector of Rs. 11.21 trillion. Furthermore, continuous efforts by the Government of India to make the business environment convenient to operate and streamline the regulatory process will support the growth of investments in the infrastructure and real estate segment.

Trend in Real Asset AUM

*Note: The above years denote Calendar Year, *Excludes Real Estate Debt Funds.*

The Indian Real Asset AUM which was USD 18.7 billion in 2015 has reached to USD 28.9 billion in 2025, indicating a CAGR of 4.5%. The global Real Asset AUM is expected to grow at a CAGR of 9%-11% from 2026 to 2030. The APAC Real Asset AUM is also expected to grow at a CAGR of 8%-10% from 2026 to 2030. Indian Real Asset AUM is expected to grow at a CAGR of 11%-13% from 2024 to 2030 and is expected to form a bigger chunk of the APAC real assets AUM.

Key Growth Drivers for Real Assets Market:

India's economic growth is driven by a combination of factors, including investments in energy and manufacturing, rising consumption, a robust services sector, and digitization. Construction, Logistics and warehousing, Hospitality, Retail, healthcare, education and tourism are various sectors built on real assets.

A. India has been a high growth economy led by both services and manufacturing sectors and is underbuilt on Real Assets

India has consistently reported strong GDP growth rates, driven by robust domestic consumption, a young and expanding workforce, and increasing foreign direct investment (FDI). The Indian economy is supported by diverse sectors, including technology, finance, healthcare, and manufacturing. The services sector, particularly IT and business process outsourcing (BPO), is a major growth engine. Manufacturing is also evolving, with a focus on sectors like automotive, pharmaceuticals, and electronics.

Manufacturing Sector on A Growth Path

The manufacturing sector recorded 12.7% growth in FY24, which is estimated to moderate to 9.3% in FY25 (FRE) due to normalization after a high-growth year. Growth is projected to improve to 10.7% in FY26, supported by sustained government capital expenditure, rising private investments, PLI-led manufacturing, improving capacity utilisation, and expansion across key manufacturing industries.

Service Sector Growth Path

The services sector is expected to remain a key driver of India's economic growth, supported by continued expansion in trade, tourism, transportation, financial services, real estate, and professional services. The sector recorded 7.0% growth in FY24, which is estimated to improve to 7.9% in FY25 (FRE) and further to 9.3% in FY26. Within the sector, Financial, Real Estate and Professional Services is expected to record robust growth of 10.0% in FY25 and 10.4% in FY26, while Trade, Hotels, Transport, Communication & Broadcasting is projected to rebound strongly to 11.0% in FY26 after moderating to 6.6% in FY25. Public Administration, Defence and Other Services is estimated to grow at a stable 5.0% in both FY25 and FY26

The healthy economic growth, along with manufacturing and services sector growth would in turn lead to healthy growth in the underbuilt housing segment as well as infrastructure development for better connectivity and facilities. By leveraging AIFs for financing, India can meet its growing infrastructure and real estate development needs, foster sustainable economic growth and improving living standards.

B. Increasing Share of Domestic Investors

The SEBI AIF regulations of 2012 have played a significant role in shaping the alternative investment landscape in India. By providing a structured framework, they have facilitated the growth of real assets, private equity, venture capital, and other alternative investment strategies, enhancing capital inflow into sectors that drive economic growth. This opened the route for domestic investors to park and grow their money lead by country's

development. The share of domestic investment was highest in 2016 and was lowest in 2020, the share of domestic investment has grown at a CAGR of 8.3% from 2014 to H12026.

Note: The above-mentioned years represent Calendar Year and the data for 2026 is for half year

Domestic institutions, including insurance companies, pension funds, and mutual funds, are increasingly allocating capital to real assets for better risk-adjusted returns.

Indian Infrastructure Sector

Infrastructure sector acts as a catalyst for India's economic growth. It complements the allied sectors like townships, housing, built-up infrastructure, and construction development projects.

Roads

India has the second-largest road network in the world with 66.7 lakh kilometres of roads and highways, of which approx. 5% falls under highways. For better connectivity and faster movement of goods, the government is expanding 2-lane highways to 4 lanes and 4 lanes to 6 lanes. The investments in road sector are expected to grow by a CAGR of ~10-12% during the period FY25-FY28.

Railways

India has ~1.37 lakh Km of railway tracks as of March 2026. India has the second-largest railway network in Asia and the fourth-largest railway network in the world. The key focus areas have been the decongestion of the over-utilized rail network, construction of new lines, doubling, tripling, the quadrupling of rail lines, and purchase of rolling stock such as wagons, locomotives, coaches, etc. The investments in railway sector is expected to grow by a CAGR of ~7-9% during the period FY25-FY28.

Airport

India has become the third-largest domestic civil aviation market in the world and has immense potential to grow further. This calls for higher investment to build new airports and augment the existing airport infrastructure to support future growth. Furthermore, the government's ambitious Regional Connectivity Scheme (RCS-UDAN) aims to bridge the air travel gap in underserved regions by constructing 100 new airports in the next few years. The number of airports operational in India have gone from 74 in 2014 to 165 as of 15th July 2026.

Energy Assets

India is the world's third-largest producer of energy with an installed power generation capacity of 549 GW as of June 2026 and has the fifth largest installed thermal power capacity. It is also the third largest consumer of electricity.

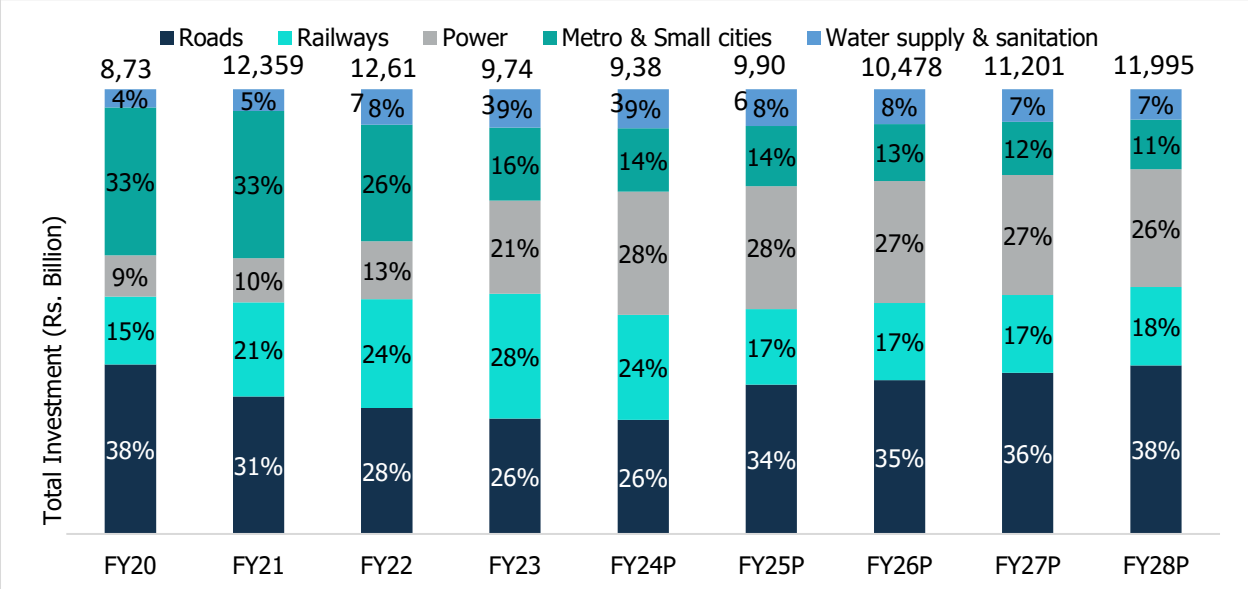

Digital Infra

As businesses digitize operations, the demand for data storage and processing increases, driving the need for more data centres. This along with the shift towards cloud services has resulted in a surge in demand for data centres to support these infrastructures, which has led to greater demand for commercial spaces specifically designed for data storage. As per CareEdge Research, the data centre industry in India is expanding and has expanded from 0.35 GW capacity in 2019 to an installed data centre capacity of 1.53 GW in 2025, growing at a CAGR of 27.8% and will reach 6.5 GW by 2030. The growth plans have also created substantial investment prospects and CareEdge Research estimates a capex of Rs 500 billion in this space until over the next three years till CY26.

Investments in Indian Infrastructure

India's economic growth is fuelled by a diverse range of sectors, of which infrastructure is a vital sector. In recent years, the government has taken several steps to accelerate infrastructure development, wherein, the key focus areas are transportation, energy, smart cities, water, social infrastructure, and digital infrastructure. CareEdge Research estimates India's infrastructure investments of Rs. 52,962 billion between FY24-FY28.

Continued High Investment Momentum in Key Indian Infrastructure Sectors

Energy Assets

India is the world's 3rd largest GHG emitters in 2025, after China and United States. India is central to global efforts to reduce emissions.

With the increasing focus on sustainability and reducing carbon emissions, there's a growing demand for integrating renewable energy sources like solar, wind, and hydro into the grid. Ageing infrastructure and the need

for improved efficiency are driving utilities to invest in grid modernization initiatives. The investment in the power sector is expected to grow by a CAGR of around 5% during the period FY25-FY28.

The investments in the power sector across transmission, generation, and distribution is expected to be Rs 19 trillion, during FY24 to FY30 thereby resulting in substantial rise in installed power generation capacity, with higher share of renewable energy.

In order to meet its carbon emissions promises, India requires funding and investment, much of it front loaded accounting to as much as 3.5% - 6% of GDP will be needed. By strategically directing capital into renewable energy, sustainable infrastructure, technological innovation, and climate resilience, AIFs can significantly contribute to India's goal of achieving net-zero emissions by 2070.

Energy Transition:

Definitive Climate Commitments by the India Government

India is set to achieve its short term and long-term targets under the Panchamrit action plan, like- reaching a non-fossil fuel energy capacity of 500 GW by 2030; CO2 emissions by 1 billion tons by 2030; reducing carbon intensity below 45 percent by 2030; and finally pave the way for achieving a Net-Zero emission target by 2070.

AIFs can direct capital towards renewable energy, energy efficiency, and sustainable infrastructure projects, supporting the transition away from fossil fuels. Many AIFs focus on Environmental, Social, and Governance (ESG) criteria, enabling investments in companies and projects that prioritize sustainability and carbon reduction. Investments in green buildings and sustainable urban development can reduce emissions in the construction and real estate sectors. AIF's in collaboration with government, can partner with public entities to fund large-scale sustainability initiatives, leveraging public-private partnerships to amplify impact.

Key Growth Drivers

The key growth drivers for various infrastructure construction segments are as follows:

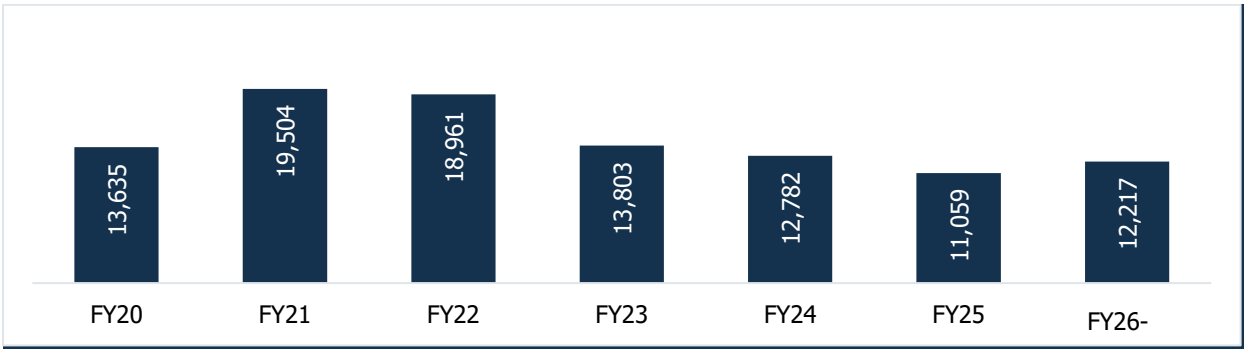

With the infrastructure market valued at approximately USD 1 trillion, and government initiatives like the USD 1.2 trillion National Infrastructure Pipeline ("**NIP**") and the USD 73 billion National Monetization Pipeline ("**NMP**") provides significant growth opportunities for Real Assets segment.

a. National Infrastructure Plan

National Infrastructure pipeline (NIP) is a government initiative aimed at enhancing and developing infrastructure projects across various sectors in a country was launched in December 2019 with a focus on infrastructure development in order to strengthen the country's infrastructure framework and support long-term economic growth, aligning with the vision of transforming India into a globally competitive economy. Infrastructure plays a major role with around 9% contribution to the GDP in FY25.

NIP covers multiple sectors such as urban infrastructure, renewable and conventional energy, roads and railways that constitute nearly 71% of the projected total capex of Rs 111 trillion. It also includes investments in other sectors such as rural infrastructure, ports, airports among others. The proposed investments will be implemented by both the government and the private sector.

National Infrastructure Pipeline Yearly Split (Rs. Billion)

Source: NITI Aayog's report on National Infrastructure Pipeline

The NIP provides an opportunity for AIFs to co-invest with the government and other investors, reducing the risk and increasing the potential for returns. Infrastructure projects typically have a long-term investment horizon, aligning with the investment strategy of many AIFs, which often focus on long-term wealth creation.

b. National Monetization Plan

Government of India has launched National Monetisation Pipeline (NMP) in 2021, aimed at monetizing public assets to generate revenue for infrastructure development, wherein a detailed plan of monetization of infrastructure assets has been unveiled, the top sectors being roads, railways, power etc. The NMP included assets with monetisation potential of Rs. 6 trillion during the four-year period from FY22 to FY25.

The NMP 2.0 estimates aggregate monetisation potential of Rs 16.72 trillion, including private sector investment of Rs 5.8 trillion under asset monetisation pipeline of Central ministries and public sector entities, over the five-year period from FY 2026 to FY 2030. The NMP provides an opportunity for AIFs to generate high returns through the monetization of existing assets, particularly in sectors such as transportation and energy, where demand is growing. The NMP is expected to increase deal flow in the infrastructure sector, providing AIFs with a wider range of investment opportunities.

c. Asset monetization to help private developers raise capital and deploy in new assets

The private sector spend on core infrastructure (roads, energy, urban infrastructure, transport) has been Rs. 13 trillion from FY17 to FY23. The NMP 2.0 estimates private sector investment of Rs 5.8 trillion over the five-year period from FY26 to FY30.The trend of private developers monetizing their assets to recycle capital presents a significant opportunity for AIFs to invest in these assets and generate returns, relevant market opportunity being Rs. 25 trillion. AIFs can invest in a variety of assets, including commercial properties, residential projects, infrastructure assets, and renewable energy assets, through various structures such as direct equity investments, debt investments, joint ventures, and asset-backed securities

Private developers often prefer to avoid diluting equity. Raising funds through equity often comes at a higher cost compared to debt financing, as equity investors typically seek a return on their investment in the form of a share in profits and potential appreciation. Developers may seek to avoid this cost by using alternative funding methods.

Outlook for Infrastructure in India:

The outlook for Infrastructure sector in India is promising, driven by the country's growing economy, urbanization, affordable housing, sustainability and infrastructure development. The combination of government initiatives, technological advancements, and changing consumer preferences will shape these sectors in the coming years. One of the key drivers for economic growth is the increased infrastructure investment thrust by the government.

Indian Real Estate Sector

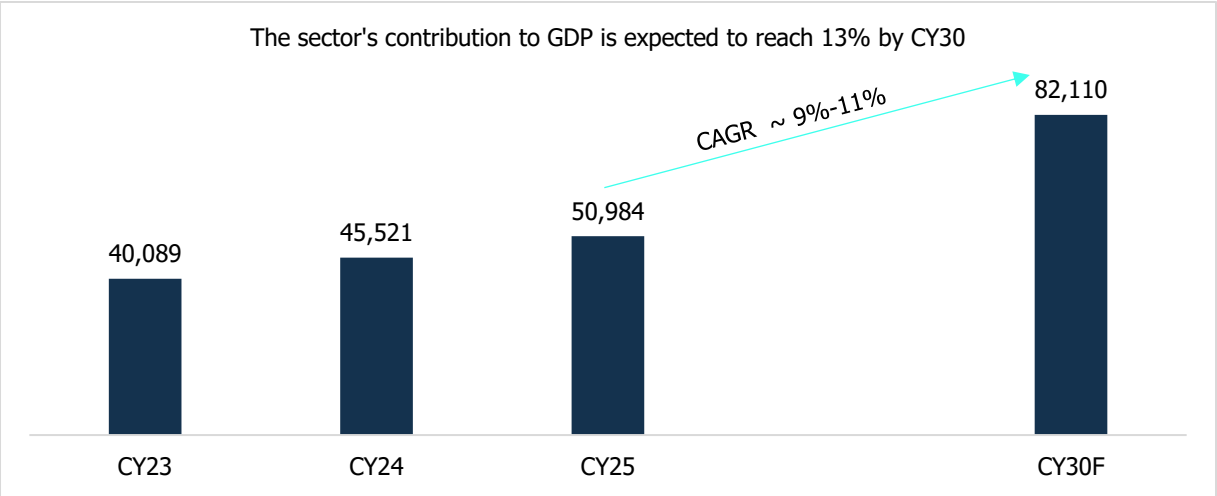

India's real estate sector has long been a cornerstone of the nation's economy, second only to agriculture, in terms of employment generation. The real estate sector is further segmented into four sub-sectors: residential, commercial, retail, and hospitality. The real estate sector's growth depends on advancements in the corporate environment and the subsequent demand for office space and urban & semi-urban accommodation.

Market Size of Indian Real Estate

The Indian real estate sector has shown impressive growth over the years, with its contribution to the country's GDP increasing steadily. In CY25, the Indian real estate sector was valued at Rs 50,984 billion and is projected to reach Rs 82,110 billion reflecting a robust growth trajectory with an estimated CAGR of 9-11% over the forecast period. This growth has been driven by increasing urbanization, rising incomes, and favourable government initiatives aimed at boosting housing and infrastructure development. Indian Alternatives Real estate market is poised to capitalize on India's thriving real estate market, currently valued at Rs. 50 trillion and projected to grow to Rs. 82 trillion by CY30.

Commercial Real Estate Segment

1. Market Size of Commercial Real Estate

The Indian commercial real estate sector has seen significant growth, expanding from Rs 8,218 billion in CY23 to Rs 10,707 billion in CY25, with a projected value of 21,349 Rs billion by CY30. India's office market is expected to grow at from Rs 10,707 billion in 2025 to Rs 21,349 billion by 2030, indicating a CAGR of 13%-15%.

2. Key Growth Drivers for Commercial Real Estate

a. Increasing Population to Result in More Workforce

India is the most populated country in the World, and its rising population will result in more individuals joining the workforce. A higher number of employees will create more demand for office space and will therefore be a key demand driver in the future.

An expanding workforce indicates economic growth, attracting businesses and, consequently, more demand for various commercial properties. As the business grows, companies will hire more employees, signalling additional requirement of office space to accommodate their growing teams. This drives demand for new office buildings and expanding existing ones. As on 15th July 2026, DPIIT has recognized 2,44,349 entities as startups. Since the launch of Startup India initiative in 2016, the recognized startups have reportedly created over 25 lakh direct jobs. A larger workforce boosts demand for ancillary services, including retail, food, and wellness facilities near workplaces, prompting developers to create mixed-use developments.

b. Flourishing E-Commerce: A Key Contributor to Warehousing Growth

The Indian e-commerce industry has been on an upward growth trajectory. The e-commerce industry is likely to be the demand driver for the warehousing industry. The Covid-19 pandemic accelerated the shift to the online medium for shopping.

Further, the reliance on online marketplaces selling groceries and medicines increased, discounts and offers offered by these companies made them more attractive to consumers. The shift in buying habits of consumers has not changed much after the departure of the pandemic and this will create the demand for more storage facilities for online marketplaces. According to industry sources, future of e-commerce in India is promising, with projections indicating CAGR of 19-21% through 2030. By 2030, India is anticipated to emerge as the third-largest consumer market globally, underlining the vast opportunities and potential that lie ahead of the e-commerce sector in the country.

c. Favourable Demographics: An Important Avenue for the Hospitality Sector

The estimated median age in India is 28.8 years as of 2025. This is the lowest when compared to the estimated median age in other leading economies in the world. It is 38.5 and 40.1 years in the USA and China, respectively.

Also, the share of people in the age group of 15-64, which is a high-consuming class, is estimated to be nearly 68%. These factors are expected to enable the growth in hospitality and food services.

d. Increasing number of Global Capability Centers (GCCs) and setups of global manufacturers leading to demand growth for commercial real estate

An increasing number of multinational corporations are setting up GCCs in India to leverage the country's skilled talent pool and cost advantages. These centers often focus on high-value functions such as IT services, research and development, finance, and customer support. The establishment of GCCs drives demand for office spaces, including large-scale corporate offices, business parks, and technology hubs.

The number of GCCs in India has grown at a CAGR of 19.5% in past 7 years and India's office market has experienced significant expansion too, with occupied office space increasing by 60% from January 2015 to June 2026. GCCs contributed to an impressive 43% of the total office leasing activity leasing approximately 20.6 million sq. ft. during the first half of 2026. The growth trajectory of GCCs remains robust, with their presence in India expanding at a CAGR of 19.5% over the past seven years.

e. Increasing Demand for Cold Chain Logistics from Pharma and Packaged Foods Industries

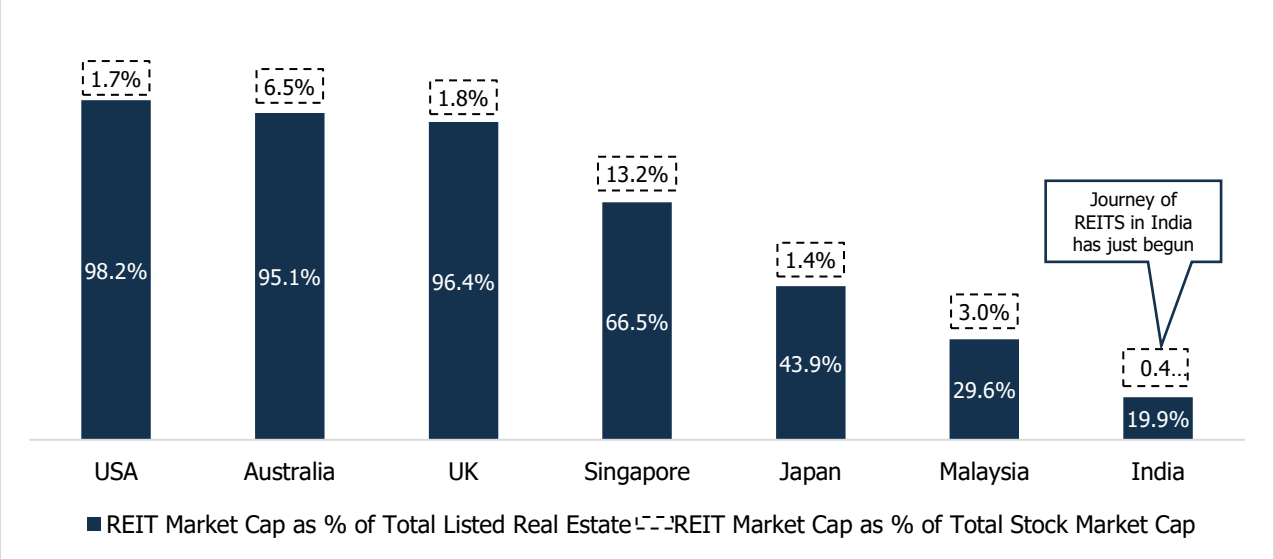

Cold chain logistics is another key demand driver for the supply chain industry. The cold chain logistics system allows for the safe transport of temperature-sensitive goods and products along the supply chain.

Alongside the pharma industry, other users of cold chain logistics are the grocery and meat products industries. With the advent of e-commerce and specialty companies offering varieties of meat and meat products in a time-sensitive manner, the reliance on cold chains, and, consequently on integrated supply chains will increase in the future.

Opportunity/ Outlook for Real Estate in India

Real Estate Investment Trust (REIT)

REITs' contribution to the listed real estate market capitalization as of March 2026

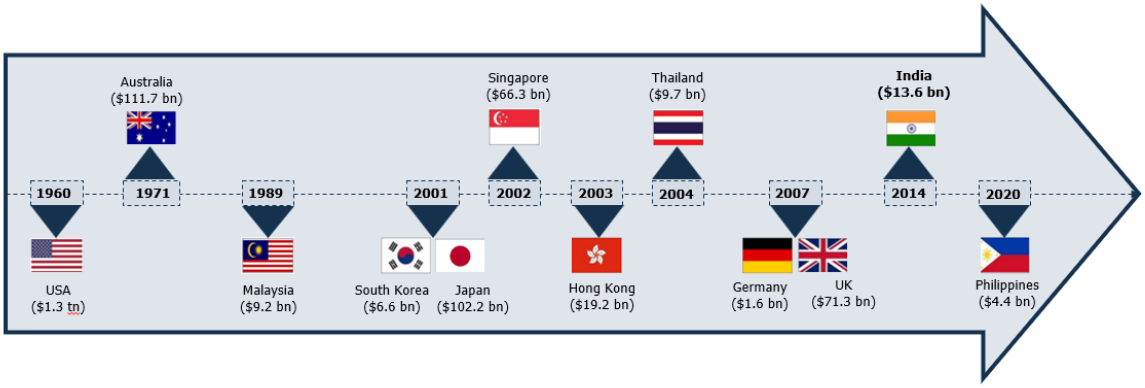

Source: Indian REIT Association, CareEdge Research

Globally, there are over 1,000 REITs in more than 40 countries, with a combined market capitalization of USD 2 trillion, representing around 60% of the global real estate market. India's six listed REITs have a market cap exceeding Rs 2.1 trillion and cover 207 million square feet, with gross AUM surpassing Rs 3.1 trillion.

Additionally, Indian REITs are featured in key global indices like FTSE, MSCI, and S&P, emphasizing their role in the international investment landscape. There are more than 0.46 million unitholders. Cumulative distribution of more than Rs 317 billion to unitholders, which is more than total distributions to shareholders by entire Nifty Realty Index constituents.

Emerging Opportunities: The Growth Potential of Indian REITs and InVITs

Note: The year mentioned above represents the period when the regulatory body approved the introduction of REITs and InVITs in that particular country.

AUM of Indian REITs and InVITs is USD 93.9 billion (as of FY25) while the AUM of USA and Australia are USD 1.3 trillion and USD 111.7 billion respectively, indicating a good growth potential for Indian Markets.

By investing in InvITs and REITs, AIFs can gain exposure to a diversified portfolio of assets, reducing risk and increasing potential returns. InvITs and REITs offer AIFs a liquid and transparent platform for investing in infrastructure and real estate assets. This provides AIFs with an exit option, allowing them to monetize their investments and redeploy capital into new opportunities.

Diversification benefit of Real Assets due to distinct performance drivers with lower correlations to market and Regular cash flows and income

Real assets and equity markets exhibit distinct characteristics, but their correlation can significantly impact investment strategies and economic insights.

Correlation Dynamics

Economic Conditions	
Inflation:	Real assets are often seen as hedges against inflation. During inflationary periods, the value of real assets may rise, whereas equities might face pressure due to increased costs and reduced profit margins.
Economic Growth:	During strong economic growth, equities generally perform well due to higher corporate earnings. Real assets may also benefit, but their performance can be more influenced by supply and demand dynamics specific to their sector. Also, infrastructure investments will yield better returns in times of healthy economic growth.
2. Market Cycles	
Recessionary Periods:	In downturns, equities often experience significant declines due to reduced corporate earnings and investor fear. Real assets might provide more stable returns, particularly those offering essential services or inflation-linked income, such as infrastructure or rental properties.
Boom Periods:	During market booms, equities may outperform real assets due to high investor confidence and rising corporate profits. However, real assets can still perform well, especially those benefiting from increased demand or rising prices.

Investment Diversification

Risk Mitigation	
Diversification Benefit:	Real assets can provide diversification benefits to equity portfolios. Since their performance drivers can differ from those of equities (e.g., real estate market conditions vs. stock market conditions), they can reduce overall portfolio volatility and risk.

Inflation Protection:	Real assets often serve as an effective hedge against inflation, as their value and income potential tend to rise with inflation which can benefit investors during periods of rising consumer prices when equity markets might be under pressure.
2. Income Generation	
Yield and Stability:	Real assets, particularly real estate and infrastructure, often provide steady income through rents or tolls or lease income. This income can be more stable compared to dividend yields from equities, making real assets a more predictable component in diversified portfolios.

Impact of Interest Rates

Interest Rate Sensitivity	
Real Assets:	Real assets, particularly real estate, are sensitive to interest rate changes. Rising interest rates can increase borrowing costs and reduce property values, affecting the performance of real assets.
Equities:	Equities are also impacted by interest rates, as higher rates can lead to increased borrowing costs for companies and reduced consumer spending. However, the effect on equities can be more variable depending on the broader economic environment.
2. Monetary Policy	
Quantitative Easing	During periods of quantitative easing or low interest rates, both equities and real assets may benefit from increased liquidity and lower borrowing costs, potentially leading to positive correlations.

Long-Term Trends

Economic Growth & Real Assets	
Growth Impact:	Over the long term, real assets often appreciate due to factors like population growth, urbanization, and increasing demand for resources. While equities can also benefit from economic growth, real assets might provide more stable returns during different economic phases.
Market Sentiment	
Investor Sentiment	Investor preferences and sentiment can shift between equities and real assets based on economic conditions, geopolitical events, and market expectations. Alternative investments such as real assets, often have low correlation with the markets unlike traditional assets, thereby effective tool for risk management

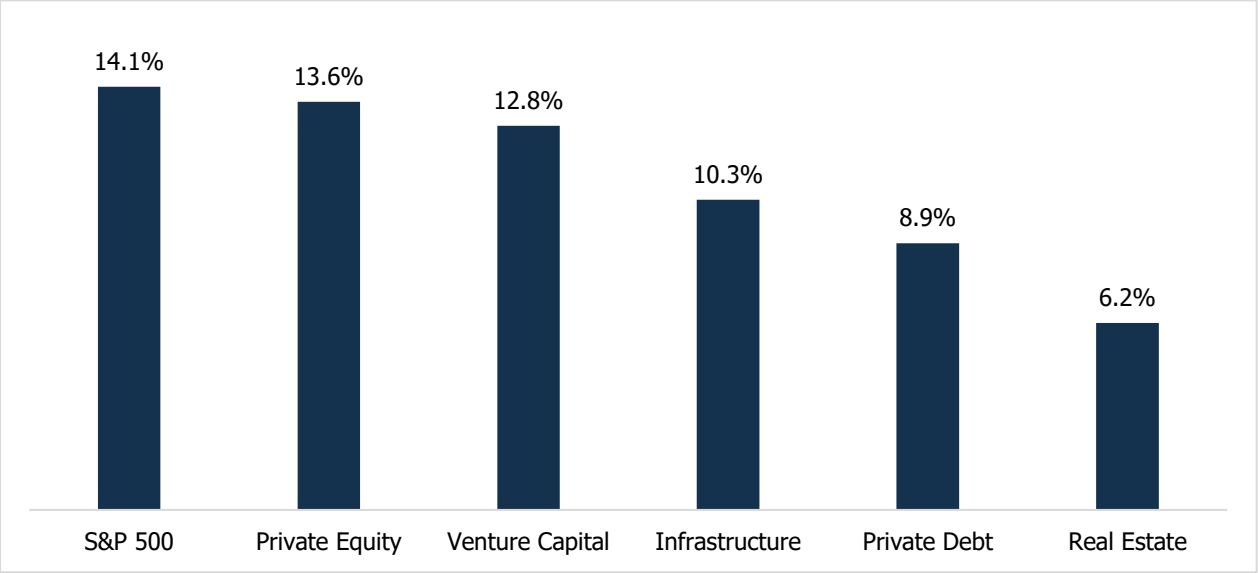

Overview on risk adjusted returns

Stock prices usually fluctuate based on the underlying corporates' performance, economic conditions, and market sentiment. Owing to this volatility, investors generally consider equities to have inherently higher risk. However, over the long run, the risk-adjusted return for equities is also usually high.

In Comparison, certain real assets like infrastructure investments often offer returns, which can be more stable compared to the fluctuating earnings and dividends of equities. Real assets such as real estate and commodities tend to appreciate in value during inflationary periods. In the global scenario, infrastructure and real estate investments have also provided return in the range of 7% to 10% over last 10 years, indicating good risk-adjusted return profile as compared to other asset classes.

Across the decade, Private Equity generated a robust 13.6% return, effectively keeping pace with the S&P 500's 14.1%. Private equity can offer several advantages over listed equity, including the potential for higher returns through active management and long-term value creation, reduced exposure to market volatility, access to unique investment opportunities, and lower correlation with public markets. While the returns are higher, the risk associated is also higher. The investor can face various risk like liquidity risk, high risk of default, valuation risk. Real Assets have fewer risks as compared to risks in public and private capital market.

Real assets act as hedge against inflation and outperform equities and bonds in period of high inflation. A study by the National Association of Real Estate Investment Trusts (NAREIT) found that US REITs (Real Estate Investment Trusts) have historically outperformed the S&P 500 during periods of high inflation.

Real assets offer several advantages over equities, including stability, predictable cash flows, and a strong hedge against inflation. They provide diversification benefits and potential long-term growth through capital appreciation and income reinvestment.

Real Assets operating models

There are two types of operating models for players in the Real Assets segment:

Invest only model – The operator identifies real assets for investment, based on the investment objective and due diligence. While the covenants related to investments are in place, the operator may not be actively involved in operating the assets and monitoring its progress. This is limited to monitoring the investment related covenants and cashflows from the assets.

Invest + Operate model – In light of increased competition and the need to satisfy investor expectations, asset managers are seeking to develop integrated operating model across various asset classes. This operating model supports asset managers in their profitable expansion into alternative assets, while also allowing for increased operational efficiency at the back end of the operating model. Managers of alternative assets require monitoring solutions that can provide real-time visibility across asset classes portfolio. In this model, asset managers develop a robust operating model that harmonizes different asset-class models, thereby allowing managers to operate the assets and closely monitor its progress as well as cashflows and returns.

While Invest + Operate model provides more comfort to the investors, its still at nascent stage in India. With the expected growth in Alternatives market and various asset classes, this model is expected to gain traction, thereby instilling investor confidence in the sector.

Private Credit

Overview of Credit Market in India vis a vis Other matured markets GDP

The developed countries like United States, United Kingdom and Australia have their credit to GDP ratio in the range of 140% to 200%. The high credit to GDP ratio of developed countries can be largely attributed to their advanced financial systems and ease of access to the credit.

The Credit to GDP Ratio in India usually ranges from 90% to 102%. As of December 2025, it stands at 102%, highlighting significant opportunities for increased credit penetration. Scheduled Commercial Banks dominate the credit sector with traditional lending methods leaving many mid-sized and lower-rated companies underserved. This situation creates a substantial opportunity for the private credit industry to step in and address these gaps. By leveraging the rising demand for credit, private credit can provide more flexible financing options, enhance access to capital, and stimulate business growth.

Overview of the Indian Private Credit market

Private Credit Industry addresses a critical gap in the credit market created by traditional banks' stricter lending norms and regulatory constraints. The private credit market is inevitable, as it caters not only to funding needs of mid-size companies but also specific funding needs of large companies outside the traditional banking landscape. Private credit benefits companies with flexible credit terms coupled with customized repayment structures and covenants. Hence, private credit has emerged as a significant and expanding market space, playing an essential role in the financial ecosystem.

Private credit funds offer higher risk-adjusted returns to investors than the traditional investment-grade debt securities.

Private credit can be in the form of direct lending, venture debt, or special situations funding, etc.

The effects of the GFC were felt globally, but in India, these challenges were magnified after the IL&FS crisis, which revealed significant vulnerabilities in the financial system and led traditional lenders to withdraw from riskier lending practices. This retreat created further funding gaps, paving the way for private credit players to step in and offering tailored financing solutions.

The aftermath of the IL&FS crisis and liquidity challenges faced by non-banking financial companies (NBFCs) in India propelled the growth of private credit, as traditional lenders continued to withdraw from leveraged

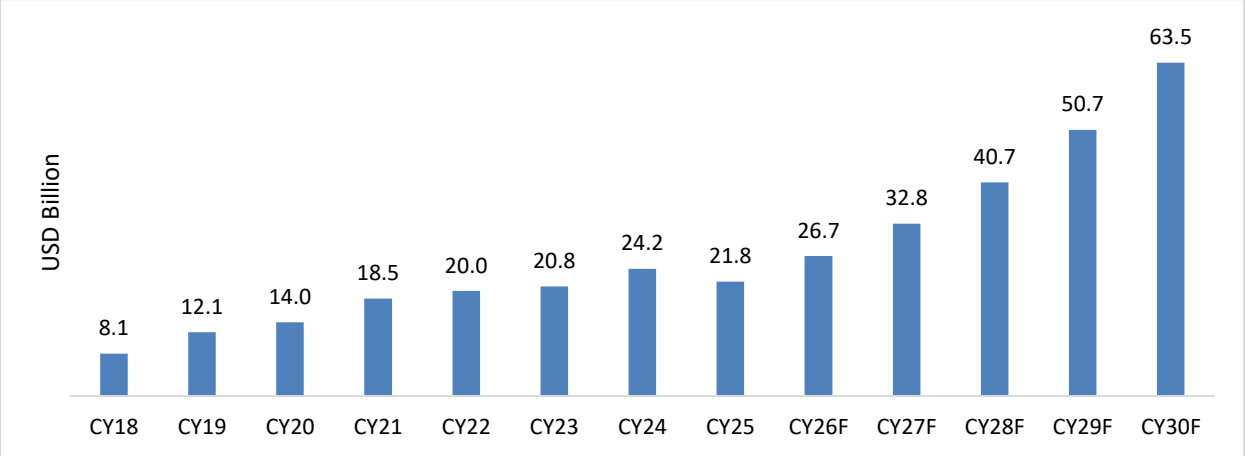

lending. This further widened the funding gap, prompting private credit players to provide flexible financing solutions tailored to corporates. As the corporate bond market remains primarily accessible to highly rated companies, mid-sized and lower-rated firms increasingly turn to the private credit market to meet their funding needs. Consequently, the private credit market has rapidly expanded, becoming a crucial source of capital in India's evolving financial landscape.

Private Credit AUM in India

Indian Private credit AUM poised for healthy growth momentum

In developed countries, private credit assets under management (AUM) typically range from 4% to 4.5% of GDP, while emerging markets like India currently see private credit AUM at just 0.6% of GDP, indicating significant growth potential. India's private credit AUM is projected to grow from USD 26.7 billion in CY26F to around USD 56 - USD 65 billion by CY30F, reaching around 1% to 1.1% of GDP by 2030, driven by rising demand for alternative financing.

Trends in Indian Private Credit AUM

Source – CareEdge Research, Note– CY represent Calendar Year

This anticipated growth reflects the rising demand for alternative financing solutions in emerging economies like India, driven by factors such as tightening traditional lending standards which led to large and growing credit gap and increasing market opportunities for private credit providers due to increasing number of the early-stage companies.

External Commercial Borrowings (ECBs) in India have shown a noticeable recovery in recent years. However, despite the recent growth, Currency volatility remains a key concern, as any depreciation in the Indian rupee significantly increases the cost of servicing foreign debt.

Banks and NBFCs subject to tight lending norms leaving whitespace for private credit funds

Banks and NBFCs operate under a strict regulatory framework, which includes stringent lending restrictions.

In contrast, private credit provides more flexible, tailored financing solutions such as lending against growth funding, promoter equity, real estate debt, stressed debt, special situation debt, and mezzanine financing. This flexibility and adaptability positions private credit as a compelling alternative to traditional bank and NBFC lending.

In 2020, One of the largest asset management companies ended up winding its six debt mutual fund schemes in India due to liquidity issues exacerbated by the COVID-19 pandemic. In the aftermath, the mutual fund industry became increasingly averse to debt financing for lower-rated corporates, shifting focus to equity investments and creating substantial opportunities for private credit funds.

This gap between demand for credit and credit extended by traditional system, creates significant opportunity for private credit managers to expand their operations by tapping into this space. Private credit managers not only make profits but also significantly contribute to growth and development of the economy.

Banks and NBFCs increasing focus on retail loans; whitespace for Private Credit funds in corporate credit

Scheduled Commercial Banks (SCBs) and NBFCs are increasingly shifting their focus from corporate lending to retail lending. From FY18 to FY26, both SCBs and non-banking financial companies (NBFCs) have shifted their loan portfolio compositions significantly. SCBs saw corporate loans decline from 69% to 55.3%, while retail loans increased from 31% to 44.7%. Similarly, NBFCs experienced a drop in corporate loans from 80% to 62.5%, with retail loans rising from 20% to 37.5%. This shift highlights a growing emphasis on individual consumers and small businesses. This clear preference for retail lending reflects a strategic pivot towards more stable and high-growth segments, creating a significant opportunity for private credit to fill the gap by offering tailored financing solutions to businesses in need.

Indian companies have de-levered in the past decade due to macro drivers; focusing on accelerated growth without equity dilution

With traditional financial institutions directing more resources toward consumer loans, there is a noticeable gap in the market for large-scale corporate financing.

This in turn provides good opportunities for private credit funds to meet funding gap for the corporates, as many investors seek to secure funding without diluting equity amidst the lack of funds from the traditional lending sources.

Private credit firms are well-positioned to fill this void, offering specialised financing solutions that address the specific needs of these growing businesses. With customized capital solutions, private credit providers can capitalize on the gap left by traditional lenders and support the continued capacity expansion and development of the companies.

Overall, the combination of handsome growth in profits and revenue, coupled with a favourable leverage ratio, sets a solid foundation for private credit fund investors to achieve high returns with a reduced risk profile. This environment is ripe for investment, allowing private credit funds to play a crucial role in financing the continued growth of the Indian corporates.

Key differentiators for the Indian Private Credit market

Highly covenanted market, primarily focused on secured credit

The Indian private credit market primarily focus on secured credit, utilizing tangible assets like real estate, machinery, and inventory as collateral, which mitigates default risk. This combination of secured assets, rigorous counterparty evaluation, and cash flow monitoring strengthens the private credit framework in India.

However, the Indian private credit market goes beyond this basic level of security, incorporating a comprehensive set of covenants to further protect the lenders' interests.

The robust covenant framework in the Indian private credit market offers several benefits to lenders.

Benefits of Covenant Framework of Private Credit to Lenders
1. High degree of protection against credit risk, reducing the likelihood of default.
2. Better transparency and predictability of the borrower's financial performance, enabling lenders in informed investment decision-making and risk management.
3. Enforcement of financial discipline and accountability amongst the borrowers, encouraging them to manage their businesses responsibly.
4. Enhancing investor confidence by enabling monitoring and providing mechanisms for corrective action in case of breaches. Well-structured covenants foster accountability and trust, contributing to the overall stability of the credit market.

The high degree of emphasis on covenants and focus on secured credit positions the Indian Private Credit market well amongst the top emerging private credit markets.

The Insolvency and Bankruptcy Code 2016, (IBC): Support to India's Financial Landscape

Under the Companies Act, the insolvency process was lengthy and lacked strict time limits, often leading to significant opportunity costs for creditors due to delays in resolving insolvency and repaying debts. However, the introduction of the Insolvency and Bankruptcy Code (IBC) in 2016 has revolutionized this landscape by mandating that insolvency proceedings to be completed within 180 days, with a possible extension of an additional 90 days. This change has been a major game-changer for creditors, boosting their confidence in lending to

businesses by ensuring timely recovery of debts through the Corporate Insolvency Resolution Process. With faster recovery mechanism now, stakeholders are positioned to collect a more substantial amount of funds in a timely manner, significantly improving their overall recovery outcomes as compared to the past.

The Insolvency and Bankruptcy Code (Amendment) Act, 2026, which received Presidential assent in April 2026, further strengthens the framework by introducing measures to reduce procedural delays, improve creditor oversight and enhance predictability of outcomes. Key changes include stricter timelines for admission of insolvency applications, restrictions on withdrawal of cases at advanced stages, greater involvement of the Committee of Creditors during liquidation, safeguards for implementation of approved resolution plans, and clearer provisions relating to security interests, avoidance transactions and fraudulent or wrongful trading. The amendment also introduces a creditor-initiated insolvency resolution process for specified corporate debtors and provides a mechanism for the one-time restoration of the resolution process in certain cases before liquidation. These measures are expected to improve the efficiency of insolvency resolution, strengthen creditor confidence and support better value preservation and recovery outcomes.

Private Credit – Benefits with equity like return and fixed income like risk, offering compelling proposition to LPs and HNIs

Private Credit investment offers UHNIs, HNIs and LPs compelling advantages by providing them the potential for the higher yields compared to traditional fixed-income assets. Private credit is often less correlated with public equity and bond markets, providing a hedge against market volatility and economic downturn. This reduced correlation helps to mitigate overall portfolio risk and offers a stable income stream through regular interest payments.

The opportunity for private credit is becoming increasingly attractive for investors as recent changes in the Finance Bill 2024 have significant implications for debt mutual funds. Previously, these funds were taxed at 20% with the Indexation benefit on long-term capital gains, but now all capital gains from debt mutual funds will be treated as short-term and will be taxed at the investor's applicable income tax rate, regardless of the holding period. This change may deter investors from debt mutual funds, making private credit an appealing alternative. With higher yields and potentially lower tax burdens, private credit firms can attract investors looking for better returns and customized investment strategies in this evolving landscape.

The expansion of private markets over the past decade has been remarkable, offering substantial and increasing opportunities for both domestic and international institutional investors. This growth has been primarily fuelled by the rise of VC and growth strategies.

Private Equity Sub-Strategies Definition

Strategy	Definition
Venture Capital	Provides capital to new or growing businesses with perceived long-term growth potential
Growth	Typically takes significant minority positions in companies without the use of leverage. Targets profitable, but still maturing, investee companies with significant scope for growth. Investment horizons are mid-to-long term, similar to those seen with buyout funds.
Buyout	Invests in established companies, often with the intention of improving operations and/or financials. Investment often involves the use of leverage.
Balanced	Invests in companies at all stages of development, from early stage to buyout.

Brief Profile of EAAA India Alternatives Limited

Incorporated in Financial Year 2009, EAAA India Alternatives Limited ('EAAA' or 'EAAA India Alternatives') is the Alternatives investment arm of Edelweiss Financial Services Limited. EAAA India Alternatives Limited manages India-focused funds across Alternatives strategies including Real Assets and Private Credit. EAAA India Alternatives Limited caters to a diverse client base of global and domestic investors that include institutional investors, UHNI/HNI and family offices, etc.

EAAA is one of the leading alternative assets management platforms in India, in terms of assets under management (AUM). EAAA's real assets division focuses on renewable energy, roads infrastructure, and commercial real estate assets. They invest in projects that harness solar, wind, and other sustainable sources. Furthermore, EAAA invests in acquisition, operation and maintenance of infrastructure such as high-quality roads and transmission lines, improving connectivity across the country. In addition to Real Assets, its Private Credit division provides capital to corporates, projects or sponsors, which often lack easy access to traditional credit sources. It focuses on creating tailored solutions to meet the varied needs of promoters and their companies, specifically for those requiring flexible capital for growth, mergers and acquisitions, and equity stake enhancements.

EAAA's client base includes global pension and insurance companies, institutional investors, UHNI/HNI & Family offices across the globe, who recognize the potential of India's markets and appreciate EAAA's rigorous, strategic approach to managing these diverse investments.

Threats and challenges for products of EAAA India Alternatives –

Liquidity risk:

Unlike traditional investment funds, Alternative funds are typically less liquid by nature. They often feature lock-in periods, during which investors cannot withdraw funds and will receive only cash flows generated from underlying portfolio assets. Exiting these investments in Alternative funds through secondary market sale can be challenging in adverse market conditions.

Credit Risk related to investments:

Alternative funds are considered riskier than traditional investment funds, because they invest in assets that are less liquid and may have complex structuring. These investments require effective asset management strategies, as failure to do so would likely impact on the funds' performance.

Market Competition:

EAAA faces competition from mutual funds (MFs), AIFs and PMS, each offering distinct advantages to investors. Mutual funds have broad market access, they benefit from brand familiarity and regulatory support, attracting a large investor base, especially in retail segment. Meanwhile, AIFs and PMS cater to high-net-worth individuals and institutional investors, providing specialized investment opportunities that challenge EAAA's niche appeal. Additionally, there is competition across different investment strategies (e.g., Special Situations funds, real assets, and core credit). As investors seek diversification, EAAA has to compete in offering attractive returns, risk management, transparency, and innovation in investment products. This competitive landscape requires EAAA to strategically position itself to attract and retain clients in the face of varied investment alternatives and strong industry players.

Regulatory Framework:

Regulatory frameworks for Alternatives like private equity, venture capital, and hedge funds are evolving, with changes that can impact compliance costs, investment strategies, fundraising and disclosure obligations. Changes in taxation policies, restrictions on foreign investment, and limits on high-risk or leveraged strategies can impact EAAA's operating model and profitability. These regulatory shifts could raise operational costs, limit certain investment opportunities, and increase the need for robust compliance infrastructure to manage regulatory risks effectively. This poses additional challenges that necessitate EAAA to adapt innovative strategies and resilience in operations.

Significant Expansion in Bank and NBFC Credit:

The growth of banks and NBFCs in lending towards wholesale credit, poses a competitive threat to EAAA Private Credit Strategies. With banks increasingly offering competitive rates, alternative asset firms like EAAA may face pressure in terms of market share and customer retention. Additionally, NBFCs are aggressively expanding credit access to underserved markets, potentially encroaching on areas where alternative asset firms traditionally operate, such as high-risk lending and specialty financing. Real Assets business of EAAA does not get impacted by this growth in credit.

Competitive Landscape

Overview

We are one of the leading alternatives platforms in India, in terms of assets under management ("**AUM**") with more than 17 years of experience (*Source: CARE Report*) of managing long term patient capital with an AUM of ₹953,448.78 million, as of June 30, 2026. Our key business verticals include: (i) real assets ("**Real Assets**"), which invests in a mix of equity, quasi-equity and debt instruments and (ii) private credit ("**Private Credit**"), which primarily invests in debt or convertible debt instruments and secular instruments for superior risk adjusted returns. Our wholly owned subsidiary, Sekura India Management Limited ("**Sekura**"), is part of our — asset operating and management team and proficiently supports our various business verticals, including operations, maintenance, monitoring, efficiency improvement, and turnaround management. We are an experienced player, catering to a diverse client base of global and domestic institutional clients and manage India focused funds across our business verticals. As of June 30, 2026, our FPAUM totaled ₹486,231.76 million. Over last three financial years, our FPAUM grew at compounded annual growth rate ("**CAGR**") of approximately 23.43% to ₹447,104.42 million in Financial Year 2026. Most of our large funds are in or entering in their third and fourth series, and we have consistently been able to raise capital across the series, indicating our ability to generate sustainable performance, maintain client confidence, and adapt to market conditions. In the last three Financial Years and the three months period ended June 30, 2026, we raised capital commitment aggregating to ₹475,262.50 million, deployed investments aggregating to ₹382,293.99 million and realized investments aggregating to ₹312,329.40 million. Most of our funds also have a track record of delivering strong performance consistently across different market cycles. Such strong realizations of our funds ensured the return of realized portion of NAV back to clients, thereby establishing a track record of delivering strong performance. We have invested significant time and resources over the years in building a global, scalable, coverage platform for a diverse client base including institutional investors, ultra-high net worth individuals ("**UHNIs**"), high net worth individuals ("**HNIs**") and family offices. As of June 30, 2026, through the funds that we managed, we had 11,009 client relationships globally and in India, including 1,493 repeat clients (i.e., clients who have invested in more than one of our funds) and 8,800 clients added from April 1, 2023 to June 30, 2026. As of June 30, 2026, 77% of our AUM comprised of commitments made by our repeat clients, signifying the strength of our long-standing client relationships. This high percentage underscores the trust and confidence that our clients have in our platform and investment strategies, as well as our consistent ability to deliver performance and maintain client satisfaction over time. We have a diverse client base; approximately 49.32% of our AUM is contributed by institutional clients as of June 30, 2026, including pension funds, insurance companies, banks etc., while the remaining 50.68% is contributed by non-institutional clients (including UHNIs/HNIs and family offices, corporate and others etc.). Additionally, as of June 30, 2026, our client base extends to multiple geographies globally including India, North America and Europe. Our presence in Mumbai, New Delhi, GIFT City and Singapore ensures on ground coverage through our chaperoning partners and relationship managers, covering North America, Europe, Middle East, Japan, Australia and South Korea. This

also offers us flexibility to create solutions for both onshore and offshore clientele.

We derive our Total Income primarily from three income streams: (i) Management and Advisory Fees; (ii) Variable Additional Return; and (iii) GP Income. The chart below sets forth the breakdown of our income streams:

(i) ***Management and Advisory Fees***: Management and Advisory Fee is the fee received for providing management and advisory services. Management and Advisory Fee is generally charged as a percentage of capital committed, capital invested, net asset value **("NAV")**, gross block etc. Our Management and Advisory Fees stream is notably stable, largely stemming from multi-year contractual agreements.

(ii) ***Variable Additional Return***: Variable Additional Return is the additional variable return to the Company and its Subsidiaries once the fund has achieved the hurdle rate of return for its investors based on NAV and/or Realisation, shown as other operating revenues in Restated Consolidated Financial Information. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Company and its Subsidiaries' policies. Variable Additional Return is the additional return on sponsor or general partner commitment, which is dependent on the performance of our funds. Based on the guidance under the Ind AS and the current policy that we adopted for recognition of Variable Additional Return, Variable Additional Return is

recognized in our books of accounts after a minimum of three years from its initial close date. It is also contingent upon the fund's performance achieving at least 1.25 times the hurdle rate specified in the respective fund documents at the time of recognition of Variable Additional Return. According to the waterfall mechanism specified in each fund document, and subject to the above conditions, Variable Additional Return is calculated and recognized over the remaining life of the respective funds up to the expected date of the first realisation and as per Company's policy.

(iii) ***GP Income***: GP Income refers to income on investments in funds or co-investing in portfolio companies, on the same terms as the primary fund. It is calculated as sum of Interest income on debt instruments/ Pass through certificates and Net Gain / (Loss) on fair value changes from investments in AIF/ Debt Instrument / Pass through certificate / equity forming part of other income in the Restated Consolidated Financial Information. General partner and/or sponsor investments reflect our alignment of interests with clients by using our capital in the funds or co-investing in portfolio companies, on the same terms as the primary fund. **'GP Income'** represents the income on these investments.

Our Strengths

1. Scaled and experienced player in the large and expanding Indian real assets and private credit market

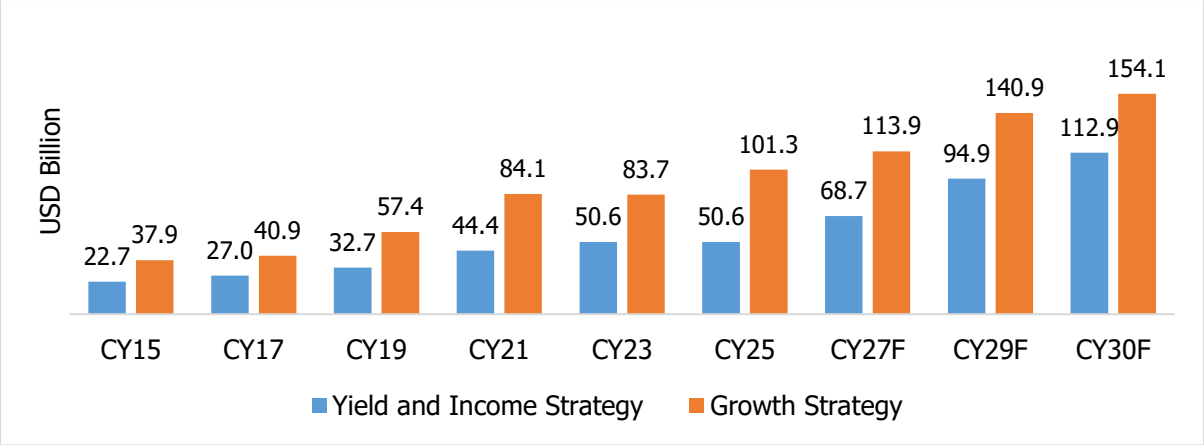

Alternatives is one of the fastest growing investment segments in India, given its low penetration. India's growing economy is projected to be the third largest globally by the year 2027 to 2028, making it an attractive opportunity for investors (*Source: CARE Report*). India has been identified as the most appealing emerging market across various asset categories, especially in terms of private credit owing to growing demand for credit in the system and private equity as the startup ecosystem is on a rise in the country (*Source: CARE Report*). Particularly, the combined AUM of private credit and real assets in India have more than doubled during the period from 2015 to 2025, and it is expected to further grow to US$112.9 billion by 2030. The proportion of private credit and real assets market is expected to reach 42% of India's overall alternative investments industry by 2030 from 33% in 2025 (*Source: CARE Report*). The table below depicts the AUM growth across the years for the real assets, private credit and private equity segments:

Alternatives industry in India (AUM in US$ billion)

(*Source: CARE Report*)

India's yield and income strategy, which includes the private credit and real assets are expected to grow from US$50.6 billion in calendar year 2025 to US$112.9 billion calendar year 2030 with the expected CAGR of 16% to 18% and India's growth strategy which comprises of private equity is expected to grow from US$101.3 billion in calendar year 2025 to US$154.1 billion in calendar year 2030 with the expected CAGR of 6% to 8%. The table below depicts the trend for the yield and income growth strategy in India: (*Source: CARE Report*)

With more than 17 years of investment experience and we are a seasoned player with significant scale, our market position helps us leverage the strong growth momentum of the Indian real assets and private credit markets. We continue to grow our presence in the real assets and private credit space, focusing on delivering value to our expanding client base. As of June 30, 2026, our Real Assets business vertical managed a substantial portfolio, including 3.10 million square feet of office space, 4,586 lane kilometers of roads, 1,835 circuit kilometers of transmission lines, and 1.73 gigawatts of solar assets. Our Private Credit business vertical managed a substantial portfolio, including 190 number of investments amounting to ₹424.08 billion, 140 completed exits and ₹439.73 billion of realisations since inception. We also deliver a stable, consistent and predictable cash flow through predictable management and advisory fees from close ended funds raised from the investors with long term patient capital and returns on our sponsor/general partner commitment. We achieve high annuity and predictable income through our multi-vertical business model, prioritizing client retention and expansion, and offering a diversified suite of investment products to meet various client needs that allows for diversification of our revenues across multiple verticals. First, we derive revenue from operations by charging a percentage of either (i) capital commitments to our fund, or (ii) capital drawn in our fund or (iii) the investments of our fund or (iv) net asset value of the fund or (v) gross asset value for perpetual capital sub-verticals depending on the fund documentation and thus ensuring a steady income stream regardless of market fluctuations. For the three months period ended June 30, 2026 and June 30, 2025, and the Financial Years 2026, 2025 and 2024, management and advisory fees contributed to 49.56%, 62.61%, 60.08%, 60.97% and 68.12%, respectively of our Total Income. Long-term capital commitments and locked in structures from clients further secures our revenue over several years. Additionally, the Variable Additional Return aligns our income with performance, enhancing profitability. Lastly, fund management processes, which are designed to operate at scale enable us to efficiently handle more assets, leveraging operating costs as our FPAUM grows.

We place utmost importance on client trust and satisfaction, especially given the long-term nature of our investment products. We have diligently onboarded and maintained strong relationships with some of the large pension funds and insurance companies globally, managing their investment with us over long periods. By continuously deepening our connections with existing clients through trust, transparency, and consistent performance, and broadening the coverage of our clients (both existing and potential), we achieve a superior client experience. Our commitment to client servicing through a platform approach allows us to adapt to evolving requirements, ensuring a high level of comfort and satisfaction among both our global and domestic clients. Furthermore, our growth and expansion are also supported by our enterprise team, for the performance of various corporate functions of our business, such as risk management, governance and compliance. Additionally, our presence in Mumbai, New Delhi, GIFT City and Singapore enables our on ground coverage through chaperoning partners and relationship managers, covering North America, Europe, Middle East, Japan, Australia and South Korea, also offers us flexibility to create solutions for both onshore and offshore clientele.

2. Diversified, multi-vertical platform offering a wide range of alternative investments products, with a consistent track record

Our multi-vertical platform enables us to provide bespoke solutions tailored to our clients' unique requirements. For example, during our marketing of infrastructure sub-vertical, we identified an adjacent opportunity for a fund focused on investing in companies engaging in energy transition. Drawing on our experience and track record in other real assets investments, we established our Energy Transition sub-vertical to capitalize such demand. Our Company recently launched the India Energy Transition Fund and the fund will invest in the Indian energy sector including renewable energy, energy efficiency, transmission, electric vehicles and circular economy projects. The European Investment Bank's development arm, EIB Global has committed up to $60 million in the India Energy Transition Fund, illustrating our commitment to building capabilities and catering to client needs. We also possess the flexibility to deploy capital across varying ticket sizes, from modest allocations to substantial investments.

With this approach, we have successfully diversified our portfolio by introducing new products across various verticals. For example, we have recently listed our transport sector-focused infrastructure investment trusts ("**InvITs**"), being Citius Transnet Investment Trust, which adds to the trend of the expansion of our product suite to meet client needs. The chart below illustrates the verticals we have introduced over time for each of the financial years mentioned:

Note: Energy InvIT is part of the Perpetual Capital sub-strategy

Our multi-strategy platform offers stability and predictability to our revenue, ensuring resilience to market fluctuations. By diversifying investments across a spectrum of verticals, we can mitigate risks associated with a particular sector. Our growth in variable revenue over the years is driven by consistent performance by our funds over long tenures, ensuring our resilience to fluctuations in market conditions.

3. Diverse and longstanding client base with significant potential to scale their commitments

As of June 30, 2026, through the funds that we managed, we had 11,009 client relationships globally and in India, including 1,493 repeat clients (i.e., clients who have invested in more than one of our funds) in our funds and 8,800 clients added in from April 1, 2023 to June 30, 2026. We have a diverse client base across institutional clients and non-institutional clients (including UHNIs/HNIs and family offices); approximately 49.32% of our AUM are contributed by institutional clients, including pension funds and insurance companies, while the remaining 50.68% are contributed by non-institutional clients (including UHNIs/HNIs and family offices). Additionally, our clients are distributed globally across: India, and rest of the world (including North America and Europe). Our AUM distribution based on geography and type of clients, are set out as follows as of the dates indicated:

Notes:

(1) AUM refers to total commitment raised under Active Funds[4].

(2) Institutional clients include commitments received from banks, insurance companies, pension funds, mutual funds, endowment and sponsors.

(3) Non-institutional clients refers to all other clients not forming part of the institutional clients.

(4) Active Funds includes funds, Co-Investment PMS and InvITs managed / advised by the Company and its Subsidiaries, that are either accepting capital, making new investments, or managing their portfolio of assets, excluding the special purpose funds.

Before committing their funds, institutional clients perform comprehensive due diligence comprising two main areas. Investment due diligence evaluates our ability to source and structure deals through a strong, experienced investment team; the robustness of our investment process (risk mitigation via independent evaluation, appropriate covenants, collateral and cashflow analysis); asset management capabilities to enhance value or handle workouts; team alignment with fund performance; ESG integration and track record across vintages. Operational due diligence examines operational controls (e.g., cash and security movements); standard operating procedures (expense and investment allocation); conflict of interest policies; valuation and investor reporting processes; KYC/AML procedures; information security and disaster recovery; and HR policies on code of conduct and anti-bribery and corruption. Global institutions clients have high diligence and governance requirements for which they may also engage reputed global consultants to assist in their evaluation process. This is an endorsement of our capabilities, processes and governance.

We started our journey with a focus on global and large institutional clients, refining our corporate governance standards in the process. Building on this foundation, we have successfully expanded our focus to include HNIs and UHNIs, leveraging our established credibility and expertise in governance. Domestic investors, both individual as well as institutional, have witnessed significant growth in their wealth. Hence, they are focusing on asset allocation and diversification to achieve desired returns. Consequently, intermediaries such as distributors and family offices, have allocated capital from traditional products to AIFs leading to rising participation of both HNIs and institutional investors as sources of capital for alternate asset management. Additionally, the proactive approach in implementing regulatory changes has allowed domestic institutional investors, including retirement funds and insurance companies, to invest in AIFs, which is expected to significantly drive industry growth (*Source: CARE Report*). Domestic institutions manage significant capital of approximately ₹135 trillion in India. Based on historical growth, economic expansion, macroeconomic factors, evolution of regulatory environment, expansion of financial markets, improving financial literacy and growing high net worth population in the country, the domestic capital is expected to grow at a CAGR of approximately 14% over the next few years (*Source: CARE Report*). While foreign investors have historically been a part of Indian alternatives space, domestic investors have lately been active in this asset class owing to increasing number of HNIs in India (*Source: CARE Report*). Recognizing the significant potential to scale the inflow of overseas UHNIs/HNIs to India and tap into the domestic market, we actively widened our distributor network for UHNIs/HNIs to ensure our products and services reached a larger audience. By deepening our relationships with existing clients, we fostered trust and satisfaction, enhancing long-term engagement. Our aim was to diversify risk, stabilize revenue, gain valuable market insights, enhance our reputation, facilitate innovation, and attract talent. With more than 17 years of extensive coverage experience, we have successfully onboarded clients across countries. Our network also includes diligence partners, consultants, and strong institutional client relationships. These efforts underscore our appeal in a market characterized by high barriers to entry. By enhancing our market coverage and maintaining rigorous diligence processes, we have positioned ourselves to navigate the cyclical nature of the market effectively. This extensive network and deep expertise enable us to support our clients and partners in overcoming market barriers and achieving their strategic objectives.

We have various arrangements for distribution of our products which include a total of 53 wealth management entities (as "**Distributors**"), chaperoning partners ("**CPs**") and offshore relationship managers ("**Offshore RMs**") as of June 30, 2026. The table below shows the growth of the number of distributors, CP and Offshore RMs as of the dates indicated:

	As of June 30,		As of March 31,		
Particulars	**2026**	**2025**	**2026**	**2025**	**2024**
No. of Distributors, CPs and Offshore RMs	53	48	51	42	13

Moreover, our presence in Mumbai, New Delhi, GIFT City and Singapore and on ground coverage through chaperoning partners and relationship managers, covering North America, Europe, Middle East, Japan, Australia and South Korea, offers flexibility to create solutions for both onshore and offshore clientele, including

institutional, UHNIs/HNIs and family offices. Top large fund managers in the alternative space in India have raised approximately US$33 billion in the last decade, with top three of them accounting for approximately 75% of the overall fund raise in the market (*Source: CARE Report*). Our Company, having its presence for more than 17 years is one of the leading alternatives platforms in India. (*Source: CARE Report*). We have developed a differentiated distribution model that caters to various client segments. We have capabilities to approach directly or indirectly both onshore and offshore clients through our various initiatives. Our strategic initiative includes a direct approach with respect to our international and institutional clients, where our dedicated coverage team and global consultants in the global market like U.S., Europe, Australia and Singapore meet clients, fostering long term relationships. Onboarding global institutions is a prolonged process requiring substantial effort, thorough due diligence from global agencies, and a proven track record. Thus, replicating this model is difficult for other players in the market. Consequently, we have been nurturing long-term relationships for more than 17 years. With respect to our domestic UHNIs/HNIs and family office clients we have adopted an indirect, distributor-led approach to expand our reach, which complements and supplements our strategy in the U.S. market, targeting large family offices. This two-pronged approach leads to a deeper and growing client base, and fosters repeat clientele.

Moreover, our funds are close-ended, with clients being committed generally for a 4.5 to 10 year period depending on the fund's tenure, as clients remain engaged throughout the fund's lifecycle. Additionally, most of our large funds are now in their or entering into their third or fourth series, and we have consistently been able to raise capital across these series, indicating our ability to generate sustainable performance, retain client confidence, and adapt to evolving market conditions.

4. Technology-enabled institutional platform

We utilize our technological capabilities built in-house as well as from the technological products, sourced in the market and from third-party vendors to enhance client experience, improve operational efficiency, and ensure effective risk management. We primarily integrate technology into our operations for scalability, efficiency, automation and data management:

(i) <u>*Scalability*</u>: We achieve scalability through certain key technology initiatives. For example, our client onboarding system uses an artificial intelligence-powered, intuitive user interface and user experience to facilitate paperless onboarding and reduce turnaround time. Our recovery management system automates receipt allocation and tagging to funds, assisting in the identification of defaults and the calculation of key fund and client key performance indicators. Additionally, our client relationship management mobile application enhances meeting management through biometric security, speech-to-text capabilities, card scanning, and Outlook integration. We are also in the process of developing bots to respond to client queries.

(ii) <u>*Efficiency:*</u> We optimize efficiency through a series of streamlined processes that drive cost savings and enhance client returns. For example, our deal pipeline component automates the deal pipeline with standardized stages and a system checklist, enhancing institutional memory and serving as a document repository. Our client query system manages client queries with predefined service level agreements, prioritizing turnaround time and ensuring quality assurance. Our client transaction system automates complex calculations for drawdown and distribution, providing automatic notifications directly to clients. Ad-hoc reporting is facilitated by a general artificial intelligence-powered tool that understands natural language and delivers instant outputs, further enhancing decision-making. We are also in the process of automating the entire distribution process to reduce turnaround times considerably.

(iii) <u>*Automation:*</u> We enable scalable growth by efficiently handling repetitive tasks, allowing the business to focus on strategic decision-making and maximizing returns. For example, our tech-enabled reconciliation tool ensures daily data integrity with registrar and transfer agents and banks, supported by weekly beneficiary position file checks to maintain data accuracy. Our fund operating system integrates multiple systems for unified fund operations, simplifying complex key performance indicator calculations such as internal rate of return and multiple on invested capital at all levels. Additionally, our approval management system streamlines payment approvals by integrating a delegation of power matrix, bank integration, and eliminating the need for manual intervention. This comprehensive approach to automation enhances client satisfaction and supports strategic business growth. We are currently experimenting with ad hoc query management through generative artificial intelligence.

(iv) <u>*Data Management:*</u> Our data management system is a comprehensive tool that manages all stages of deal-making, including deal-level and client-level return calculations. Monitoring key performance

indicators of deals and maintaining the client database complement growth, scalability, and improve overall efficiency. The intranet system, built in-house, also acts as a repository for all data and serves as a tracker for various client-level and fund-level deliverables.

5. Dedicated asset operating and management platform

Most of our funds' portfolio assets are managed through one of our Subsidiaries, Sekura, which serves as our asset operating and management platform. As of the date of this Prospectus, Sekura oversees our Real Assets portfolio across infrastructure, commercial real estate, and energy operations in 16 states in India. Recognizing that infrastructure is a key driver for the Indian economy, we place significant importance on the identification and assessment of asset quality for sound investment decisions. This is achieved by building on-ground operational capabilities through a capable and experienced team. Our team has extensive experience managing the entire lifecycle of similar assets, from inception to construction to operations, within reputed infrastructure companies. They are adept at implementing robust processes, systems, and practices necessary for asset management. We encapsulate this concept as 'PPT'—People, Process, and Technology. By assembling an experienced operating team, implementing processes gleaned from our team's cross-sector experience, and utilizing advanced technologies, we ensure consistency, accountability, and efficiency, which are critical for asset management throughout their lifecycle. For example, our asset operating and management team employes several professionals, including engineers, specialists and safety experts, who possess core technical skills in portfolio management and operations.

Our asset operating and management team, operated through Sekura, comprises 58 operational team members, as of June 30, 2026. Our asset operating and management team maintains an active on-ground presence at sites for 24x7 operations, monitoring and risk management.

Sekura's core operating strategy is based on the principle of "getting it right up-front, doing it right thereafter". This entails conducting thorough due diligence on shortlisted investment opportunities to validate investment case assumptions and subsequently managing operations to meet or exceed industry best practices. Our strategy revolves around the fundamental principles of maximizing revenue and optimizing costs, while adhering to excellent corporate governance and best practices, with a specific emphasis on health, safety and environment. We focus on enhancing operational efficiency through technology-driven predictive and proactive maintenance, regular asset monitoring via a control and analytics center, and implementing proprietary standard operating procedures ("**SOPs**") to ensure safe, secure, and sustainable asset operations.

Sekura also manages a dedicated division for monitoring corporate assets where our Private Credit funds invest. This division collaborates closely with portfolio companies to ensure best practices are adopted and to provide early warning signals for identifying gap in performance. In addition to receiving regular management information systems reports from these companies, the division focuses on value creation for equity holders of the credit investments through industry best practices.

Sekura's processes are anchored within the relevant ISO ecosystem, having developed comprehensive procedures for asset management, operations and maintenance, ESG management, safety, health, and environment management. All our operations and management practices, including technical, safety, health, environment, and risk management protocols, align with industry practices and are validated through independent ISO audits and accreditations, such as ISO 14001:2015 (for environment management system), ISO 45001:2018 (for occupational health and safety management system), ISO/IEC 27001:2013 (for information security management system), ISO/IEC 27001:2022 (for information security management system), and ISO 55001:2014 (for asset management system). Our proprietary SOPs adhere to ISO governance principles and incorporate OEM guidelines and industry best practices drawn from our collective team experience. By continuously managing high-quality assets using best practices, pursuing growth opportunities with a focus on both immediate improvements and long-term asset health, and fostering a culture of continual improvement and technology-led innovation, Sekura has consistently improved asset performance year after year. This experience and capability have not only aided in the identification and management of quality assets but have also driven sustained value and growth.

In relation to the highways sector, we were conferred the Build India Infra Award 2024 in the Impact Category by MoRTH, the International Safety Award 2023, 2024, 2025 and 2026 by British Safety Council and National Highways Excellence Awards 2021, 2022 and 2023 by MoRTH in four categories: Outstanding work in Challenging condition, Highway Safety (Plain), Green Highways and Excellence in Operations and Maintenance – Flexible, HSE Excellence & ESG Global Awards 2023, 2024 & 2025 by OHSSAI Foundation in OHSSAI Road Safety Award, Build India Infra Award 2024 in "Impact Category" by Build India Awards, Excellence in CSR - Concern for Health 2024 and Excellence in Innovation 2024 by Golden Star Awards in two category: Best

6. Comprehensive risk management systems

We have implemented a comprehensive risk management framework for investment risk. With respect to our business verticals, we conduct risk assessments at the pre-investment stage, as well as conduct regular monitoring in the post-investment phase. We regularly monitor and conduct risk-based classification of our funds' portfolio assets to identify and mitigate risks. We also conduct regular reviews to ensure alignment with fund documents, processes and global best practices in ESG.

Our investment risk governance involves managing risks through our investment teams, risk functions and committees. During the pre-investment stage, in case of Private Credit our investment and asset management policy and procedures involve independent assessment by the Name Clearance Committee, Credit Committee, Fund Diligence Team/Fund Team, Risk Team, and Investment/Review Committees/Key Investment Team. We analyze investee companies for counterparty checks, industry benchmarking, financial performance, operational aspects, and collateral checks depending on the size and complexity of the deals. We also engage external experts for legal, technical, commercial, financial, ESG and tax aspects, ensuring compliance with all stipulated conditions and approval by stakeholders before disbursement.

In case of Real Assets, it involves independent assessment by the Key Investment Team, Fund Diligence Team, Fund Team, Risk Team, and Investment or Review Committees. We analyze investments for stable long term cash flows, effectiveness of legal and regulatory framework, length of residual life or concession period and credibility of counterparties. Inputs from third-party experts on financial, legal, technical, ESG, tax and commercial due diligence is sought, wherever required.

Post-investment, we conduct regular portfolio monitoring, capturing key risks, cashflows, collateral valuation, and payment status, reporting to stakeholders through monthly portfolio trackers and quarterly risk reviews. The asset operating and management team also actively assists us by monitoring and highlighting negative news, market feedback, regulatory and industry developments.

Post-investment, risk monitoring for Real Assets verticals is further supplemented by our in-house technology capabilities, which enable us to monitor our assets and products effectively. For example, our asset operating and management team has a real-time performance heat map, which minimizes downtime and enables detailed tracking of preventive, corrective and predictive maintenance. Our asset operating and management team also utilizes algorithms for identifying underperforming assets or prediction of faults (if any). We also have a centralized control room for regular monitoring which uses drones, infrared and spectral imagery for remote monitoring of assets as well as various processes automated through tools and applications for thorough evaluation.

Additionally, we also implement institutional governance framework with advisory boards for key funds comprising key clients' quarterly client calls, annual independent asset level valuations performed by agencies and independent review of key processes by internal auditors.

Further, at the enterprise level, risk monitoring practices ensure proactive identification and management of existing and emerging risks.

For further details of our risk management and governance polices, see "- ***Risk Management and Governance***" on page 254.

7. Led by a seasoned management team with extensive industry experience

We are led by our team of senior management with extensive experience in alternative asset management, investment and risk management functions. The senior management team comprises individuals who have been associated with the entities listed under our Promoter and its subsidiaries for an average of about 5.45 years, leading to stability in our day-to-day management and operations and reflects our culture and investment philosophy.

Additionally, most of our Key Managerial Personnel and our Senior Management receive a portion of the Variable Additional Return, making it an attractive model for retention. Our senior management team, with an average experience of approximately 26.12 years has been stable and running business through economic cycles. Our track record across key sub-verticals allows us to generate predictable cash flows as well as Variable Additional Return based on the performance of funds launched in different years (referred to as "**fund vintages**"). This capability not only fosters a strong sense of value creation, but also aligns the interests of the investing team, our Company, and our clients. Notably, Variable Additional Return serves as a tool for alignment rather than merely a retention strategy. See "— ***Our Teams***" on page 251 for further details.

Our Strategies

We believe that our scale, experience, and track record in the large and growing Indian alternatives market positions us well for growth and operational efficiencies. We will focus on enhancing our client experience while continuing to deliver sustained investment performance through active asset management with a strong emphasis on technology. We expect this approach to enable us to increase our client base across geographies and expand our product offerings, thereby sustainably growing our AUM. The key aspects of this strategy include:

- Expand and deepen our client base across geographies by leveraging our in-house coverage team and global distribution platform.
- Further developing our product offerings, particularly those related to income and yield strategies.
- Continue to leverage technology to improve our operational efficiency, client experience and strengthen our competitive position.
- Continue concentrating on active asset management by leveraging and building on our operational capabilities and with the use of technology.
- Continue to focus on delivering sustained investment performance and portfolio differentiation.
- Strengthen our employee value proposition to attract and retain them.

1. Expand and deepen our client base across geographies by leveraging our in-house coverage team and global distribution platforms

As of June 30, 2026, we are strategically located across various countries and manage relationships with multiple global institutional clients who have committed close to US$4.96 billion. This is a testament to the strong relationships and trust we have built with our clients. In addition to our existing clients, we actively engage with potential clients through regular meetings and interactions. With the U.S. interest rates at their peak and an impending rate cut cycle, India alternatives industry is poised to attract substantial global capital flows into income and yield strategies (*Source: CARE Report*), offering a prime opportunity to further enhance our AUM.

In the Indian market, we have capitalized on the unmet demand for diverse investment products. Indian domestic institutions have historically had limited allocation to alternatives due to regulatory constraints around liquidity, safety of capital and returns. However, regulators are easing these regulations gradually (*Source: CARE Report)*. Recognizing the clear need for yield-generating investments, we developed products that catered to this gap. While Indian institutions are still in the nascent stages of engaging with the alternatives market, UHNIs/HNIs and family offices have emerged as early adopters. We adopted a distributor-led approach, for raising funds from UHNIs/HNIs and family offices, effectively supplementing and complementing distributor efforts. This strategy is a dual focused strategy which focuses on attracting and retaining a small number of high value clients who contribute significantly to the company's revenue as well as a large number of UHNIs/HNIs and family offices with individual commitments that collectively contribute a significant amount of revenue, so as to capture revenue from both high-end clients and a broad client base. These clients tend to increase their allocation when they come

into the subsequent series of the funds. This strategy has been bearing fruit, and the Company now boasts 31 clients who have collectively invested over ₹5,000.00 million across various funds. We maintain direct relationships with these clients through our dedicated in-house team.

Looking ahead, India is expected to contribute significantly to the APAC alternatives industry, as it is fairly at a nascent stage and has high growth opportunities with growing base of institutional investors, HNIs and UHNIs. (*Source: CARE Report)* Our Company, with its proven track record, is well-positioned to be a primary beneficiary of this trend. Beyond that, we aim to utilize our team's deep understanding of regional markets to identify and expand client bases and develop and launch targeted outreach strategies that are specific to each region as well as innovative market penetration strategies for untested potential markets.

2. Further developing our product offerings, particularly those related to income and yield strategies.

2.1 Capitalize on the strong tailwinds from the financialization of physical and infrastructure assets with respect to our Real Assets vertical.

We intend to expand our Real Assets business vertical by sourcing, acquiring, and optimizing assets to build a diverse and resilient portfolio that delivers consistent returns to our clients. Central to our approach is the acquisition of growth-oriented assets and incorporating advanced ESG parameters to enhance market value and sustainability. We also aim to exit mature assets strategically to reinvest in higher-potential opportunities and capitalize on the growth of the real assets sector. Since infrastructure plays a major role with around 9% contribution to the GDP of India in Financial Year 2025 (*Source: CARE Report*), we intend to prioritize assets with long residual life and proven revenue streams. Additionally, given that India's office market is expected to grow at from ₹10,707 billion in 2025 to ₹21,349 billion by 2030, indicating a CAGR of 13%-15% (*Source: CARE Report*), we focus on acquiring quality operational office assets that generate stable cash flows. Furthermore, with respect to our energy transition sub-vertical, we intend to invest in climate mitigation and adaptation projects, especially greenfield opportunities. Specifically, we plan to adopt the following focused strategies aligned with certain growth sectors:

- *Investing in Energy Growth in India:* To support India's burgeoning energy sector, we will prioritize investments in renewable energy assets such as solar and wind power. Our investment strategy also includes enhancing transmission infrastructure for efficient energy distribution, developing energy storage solutions to manage supply and demand effectively, and implementing smart metering technologies. These efforts aim to not only sustain but also accelerate India's transition to a cleaner and more efficient energy grid.

- *Supporting Manufacturing and Consumption Growth:* Understanding the critical role of infrastructure in manufacturing and consumption, we will invest in key assets including highways to facilitate better connectivity and transport efficiency, warehousing facilities to streamline logistics and storage, industrial parks to catalyze industrial activity and innovation, and freight terminals to optimize cargo handling and movement. These investments are intended to build the foundation necessary for sustained industrial and consumer growth, thereby contributing to overall economic development.

- *Enhancing Service Sector Growth in India:* The service sector is a crucial component of India's economy, and our strategy involves significant investments in this area. We will focus on developing and acquiring premium commercial office spaces that cater to the evolving needs of businesses. Additionally, we will explore investments in sectors that support the service industry, such as hospitality, retail, and education. By creating state-of-the-art commercial spaces and supporting infrastructure, we aim to attract global enterprises and support the expansion of the service sector.

- *Facilitating Digitization:* Recognizing the importance of digital infrastructure, our strategy includes substantial investments in digital assets. We will invest in data centers that provide critical data storage and management services, install optical fiber cables to ensure high-speed internet access, and invest in other digital infrastructure assets. These initiatives are designed to harness the economic benefits of digitization, driving technological advancement and economic growth across various sectors.

- *Driving Financialization:* To broaden client participation in the real assets market, we will create innovative financial products. This includes developing perpetual investment strategies like infrastructure investment trusts ("**InvITs**") and real estate investment trusts ("**REITs**"), which offer consistent long-term returns. By designing these structured financial products, we aim to attract a diverse range of clients, from retail to large institutional funds, thus enhancing capital flow into the real assets

sector. For example, we have recently listed our transport sector-focused InvIT, being Citius Transnet Investment Trust.

By continuously developing tailored products and investment strategies, we aim to capitalize on the ongoing growth and transformation of India's real assets sector, delivering sustained value to our clients.

2.2 Capitalize on the strong growth and need for private credit in the Indian economy.

We aim to expand our Private Credit business vertical by focusing on delivering risk-adjusted returns while maintaining high standards of governance and risk management. By diversifying our investments, we plan to mitigate risks and seize opportunities in various market segments, thereby ensuring optimal performance for our clients. A key component of our strategy includes an emphasis on proprietary sourcing, rigorous underwriting processes, and stringent governance frameworks aligned with global best practices in ESG criteria. We provide credit across the risk spectrum and possess the necessary capabilities to source, structure, manage, and exit investments. We also intend to capitalize on the growing private credit sector and leverage our market position. Specifically, we have the following approaches with respect to each of our Private Credit sub-verticals:

- *Special Situations:* We aim to provide financing solutions to corporates that have previously experienced special situations leading to reduced profitability or market share and are currently in the revival process. We also intend to leverage the secondary loan sale market for early-stage stressed companies where existing financial creditors lack the capability to assist and prefer to exit such positions by selling to special situation funds. The special situations market will also benefit owing to changes in regulatory environment especially in the insolvency and bankruptcy processes thereby opening an opportunity for a pie for US$82 billion to US$85 billion stressed asset market in India (*Source: CARE Report*). We provide primary financing, including last-mile financing, for quality businesses looking to revive their business fortunes. This will facilitate one-time settlements with banks and involve equity or structured buyouts to take an active role in driving operational improvements and strategic realignments.

- *IG Credit:* Our IG credit sub-vertical aims to invest in performing companies that are looking to grow their businesses and need flexible financing solutions to support such growth. IG credit funds provide clients with regular cash flows. IG credit products offering higher gross returns have become important in the debt allocation strategy for any investor. We aim to emphasize investments that ensure yield generation while maintaining a lower risk profile, thereby providing stable and predictable returns to our clients.

- *Performing Credit:* Recognizing the increasing unmet capital needs in India, we intend to provide customized solutions for promoters' growth, mergers, acquisitions, and stake enhancements by investing directly in holding or operational companies. Our approach will also include offering collateralized lending options against listed and unlisted shares and real estate, enabling us to provide flexible capital solutions that traditional banks and NBFCs cannot offer. We also aim to respond to the increased demand for structured credit by tailoring our offerings to meet this market need. Finally, we plan to enforce rigorous financial and operational controls through necessary covenants in our lending agreements, ensuring our investments remain secure and aligned with agreed-upon terms.

- *Real Estate Credit:* Indian alternatives real estate market is poised to capitalize on India's thriving real estate market, currently valued at ₹50 trillion and projected to grow to ₹82 trillion by calendar year 2030 (*Source: CARE Report*). We plan to offer completion and construction finance for residential projects, particularly in additional Tier 2 cities where we previously did not have a presence. We intend to focus on mid-sized developers with proven track records and prioritize investments in projects demonstrating significant progress. Our approach will involve safeguarding investments and ensuring liquidity by implementing exit strategies through project cash flows, supported by our asset operating and management team. The asset operating and management team will assist with cash monitoring, including deploying cash management agencies, monitoring transactions, vendor benchmarking, and working capital optimization. They also engage in management partnerships, focusing on EBITDA improvement initiatives, operations planning, fiscal discipline, and risk reduction.

3. Continue to leverage technology to improve our operational efficiency, client experience and strengthen our competitive position

We are steadfast in our commitment to leveraging technological and digital innovations both in relation to our in-house technology as well as the asset operating and management team's technology. These efforts will sustain the

benefits we have already achieved and explore new avenues for growth and efficiency through continuous improvement. Our strategic initiatives are designed to ensure our business remains at the forefront of technological advancements, providing superior experiences to our clients and creating long-term value for our stakeholders.

Comprehensive technological strategies ensure that our business remains competitive, efficient, and client-centric, ultimately driving sustained growth and success. We are committed to advancing our digital platforms and increasing investments in new technologies to boost client acquisition rates, enhance client experience, and improve asset management. Our digital initiatives have previously optimized marketing and operational costs, contributing to the growth of our profitability. By continuing to invest in these initiatives, we aim to sustain and further these cost benefits. We are committed to investing in technological and digital innovations, not only to maintain the benefits we have achieved but also to explore new avenues for growth and efficiency through continuous improvement.

To achieve enhanced client acquisition and experience, we will continue to invest in our digital platforms and marketing initiatives. Utilizing sophisticated digital marketing techniques and platforms will allow us to effectively target potential clients and incorporate them into our ecosystem. Personalized strategies, developed through advanced analytical tools, will provide deeper insights into client behavior, enabling us to tailor their individual needs and preferences. Moreover, we are enhancing our client service with predictive analytics. Predictive analysis will focus on sustainability by identifying and addressing social and environmental risks. For example, data collected on certain towers and flood warnings enabled us to pre-emptively replace or redesign infrastructure to mitigate future environmental risks. This proactive strategy not only protects our assets but also ensures uninterrupted power supply, thereby enhancing our social impact.

Specifically, our pre-investment strategies will be enhanced through artificial intelligence and machine learning. These technologies will assist in collecting and analyzing data on our asset portfolio, allowing us to predict risks using algorithm-based insights. For example, artificial intelligence, an asset operating and management technology aided by external agencies, can facilitate data collection through drone-based monitoring and high-resolution cameras, providing comprehensive surveillance and data-gathering capabilities. Additionally, we will consistently monitor and improve our digital platform features to streamline the client onboarding process and elevate overall engagement. By enhancing the usability and functionality of our digital interfaces, we ensure clients enjoy a seamless interaction with our services.

4. Continue concentrating on active asset management by leveraging and building on our operational capabilities and with the use of technology.

We plan to continue focusing on active asset management by utilizing our asset operating and management team's operational capabilities and leveraging technology. Our objective is to connect, aggregate, visualize, optimize, and analyze data to enhance overall operational efficiency and asset management. To achieve this, our asset operating and management team will automate various processes related to reporting and data collection using advanced technological tools and applications. Deploying these applications for operations and management is intended to ensure due diligence, leading to a seamless workflow and improved governance structures.

Our strategy includes tracking both preventive and predictive maintenance tasks, supported by a comprehensive ticketing and work order system to ensure efficient follow-up and job escalation. As part of our innovation agenda, our asset operating and management team has implemented our "Electronic EYE" remote monitoring system. This system will depend on a centralized control room to provide real-time oversight of the operations and performance of renewable assets. Our asset operating and management team's smart asset management platform will further streamline these processes, ensuring the optimal use of our assets. We will also focus on visualizing and monitoring to swiftly identify underperforming assets. By assessing performance levels and diagnosing the root causes of underperformance, we can implement necessary optimization measures. Our asset operating and management team's forecasting capabilities will enable a deeper understanding of equipment downtime, allowing continuous algorithm fine-tuning and improved scheduling accuracy.

In terms of advanced asset management, our asset operating and management team are exploring the integration of machine learning and artificial intelligence for predictive and proactive management. This will involve analyzing essential parameters, performing signature analysis, and predicting faults using sophisticated artificial intelligence and machine learning algorithms. Adoption of these technologies will lead to smoother operations, better investment outcomes, and an enhanced client experience. By leveraging both existing and new digital platforms, we can more effectively identify and seize opportunities, thereby improving our asset management processes. Moreover, our operations technology initiatives will employ artificial intelligence to automate reconciliations and complex calculations, enhancing the accuracy, efficiency, and speed of our financial

operations. We also intend to use drones for the management of our assets, continually seeking ways to improve operational efficiency.

Our vision is to redefine the management of portfolio companies through the implementation of advanced technology. We will continue to invest in several key areas including: (i) implementing Enterprise Resource Planning ("**ERP**") systems along with Tableau, a data visualization tool used for business intelligence and analytics, helping users see and understand their data through interactive, sharable dashboards. for portfolio management and monitoring; (ii) investing in the analysis of new materials for road maintenance to reduce costs while maintaining structural integrity, and (iii) continue developing and implementing a new intelligent building management system to monitor infrastructure activities within buildings. By pursuing these initiatives, we aim to achieve our goal of enhancing operational efficiency, optimizing asset management, and redefining portfolio management through technology.

5. Continue to focus on delivering sustained investment performance and portfolio differentiation.

We believe that achieving consistent investment performance and fostering ongoing innovation through areas of distinction are pivotal to the expansion of our business. Our objective is to support our fund managers in perpetually delivering superior risk-adjusted returns by employing disciplined and meticulously structured investment strategies. These strategies are underpinned by clearly set investment goals, rigorous proprietary research, and an active approach to asset management. Our commitment to sustained investment performance is driven by a dedicated focus on investment quality, risk management, and client experience across business cycles. Over the past decade, we have demonstrated our capability to navigate various market conditions, consistently delivering superior returns to our clients. The performance details of our top three funds within each of our Real Assets and Private Credit business verticals, as of June 30, 2026 are provided below:

Our diversified investment approach, encompassing both Real Assets and Private Credit verticals, ensures we can provide stable long-term yields and cash flows. By continuously improving the quality of our underlying assets and leveraging our expertise in managing technical operations across multiple industries, we differentiate our portfolio from competitors. This meticulous asset selection and management process not only enhances the long-term value creation for our clients, but also offers predictable and attractive outcomes, reinforcing our reputation as a reliable investment partner. Furthermore, our innovative strategies, including for perpetual strategies, position us to capture long-term opportunities and deliver consistent performance that meets the evolving needs of our clients.

We intend to continue expanding and diversifying our fund portfolio. This will be accomplished by leveraging market insights, driving innovation, incorporating feedback from distributors, and introducing new funds. For example, the India Energy Transition Fund was recently launched to drive US$300 million in sustainable growth in India. This was launched with the efforts of the European Investment Bank's development arm, EIB Global,

which is investing up to US$60 million in the fund, this will accelerate private capital investment in sustainable infrastructure and support decarbonization efforts in India. These efforts aim to strengthen our position in an increasingly competitive market. By persistently meeting or exceeding our clients' expectations, we foresee not only further growth but also enhanced brand recognition

6. Strengthen our employee value proposition to attract and retain good quality talent

Our talent, particularly in senior management and investments, has been a key factor in our growth and market leadership. To maintain our momentum, we continue to enhance our employee value proposition to attract and retain high-quality, results-oriented professionals. We consistently invest in upskilling our workforce to differentiate our teams from those of our competitors. Regular mentoring and learning workshops help employees develop both functional and behavioral skills, enhancing their capabilities and readiness for greater responsibilities. These programs are designed to nurture leadership qualities at all levels. We plan to further strengthen our leadership capabilities through various capacity-building programs, executive and group coaching, and learning journeys throughout the year. Our objective is to cultivate a pool of high-potential leaders who can effectively support our business operations and drive future growth.

In addition to internal development initiatives, we continue to focus on building a diverse talent pool by actively recruiting campus and summer interns from top MBA institutions in the country (based on QS Global MBA Rankings). This approach not only allows us to nurture young talent but also ensures a continuous influx of fresh ideas and innovative perspectives into our organization.

Our Products and Services

1. Real Assets

Our Real Assets business vertical looks at acquiring operation and management of quality infrastructure assets with low counterparty risk, long residual tenures (through a mix of equity, quasi-equity and debt instruments) and low operating costs. Our Real Assets investment solutions comprise the following sub- verticals: (i) Infrastructure Yield, (ii) Commercial Real Estate Yield, (iii) Perpetual Capital; and (iv) Energy Transition. Our Real Assets sub-verticals focus on aggregating quality assets, value enhancement and repositioning assets. As of June 30, 2026, our Real Assets verticals had eight Active Funds and two InvITs with an AUM of ₹397,045.43 million. Since inception, we have raised ₹384,249.62 million commitments, invested ₹287,439.78 million in assets, realized ₹101,281.25 million from investments, completed 38 investments and 27 exits under Real Assets vertical. Our Energy Transition sub-vertical will invest in companies involved in the construction of various green energy related projects.

Infrastructure Yield

Our Infrastructure Yield sub-vertical focuses on investing in quality operating infrastructure assets that have high EBITDA margins, strong counterparties, long residual life and potential for value enhancement. The private sector spend on core infrastructure (roads, energy, urban infrastructure, transport) has been ₹13 trillion from Financial Year 2017 to Financial Year 2023. The trend of private developers monetizing their assets to recycle capital presents a significant opportunity for AIFs to invest in these assets and generate returns, relevant market opportunity being ₹25 trillion (*Source: CARE Report*). The sub-vertical involves the aggregation of assets, improving their performance, and exiting the portfolio to achieve higher valuations through InvITs or sales to strategic clients.

Commercial Real Estate Yield

Our Commercial Real Estate Yield sub-vertical invest in quality operating office assets in major metro cities, targeting those with stable cash flows and potential for value enhancement through property upgrades and maintenance. The Commercial Real Estate Yield sub-vertical seeks to improve asset performance and achieve attractive returns through financial and operational improvements before exiting through sale to REITs or institutional clients.

Perpetual Capital

Our Perpetual Capital sub-vertical (also known as InvIT) involves investing in a diversified portfolio of energy assets, which are stable, predictable and the possibility of value enhancement is low, to provide minimal counterparty and operational risks. The investments in the power sector across transmission, generation, and distribution is expected to be ₹19 trillion, during Financial Year 2024 to Financial Year 2030 thereby resulting in

substantial rise in installed power generation capacity, with higher share of renewable energy (*Source: CARE Report*). As of October 2024, the share of renewable energy in total generation capacity is approximately 46% and as of June 2026 it has already reached 53% - five years ahead of its 2030 target set (*Source: CARE Report*), our investments in this area support the growth of the power sector and foster renewable energy integration. For example, our Company has proposed to set up a transport sector-focused infrastructure investment trust (the "**Trust**"), established with an objective to acquire, manage, invest in a portfolio of transport infrastructure assets, including roads in India.

Energy Transition

Our Energy Transition sub-vertical will focus on investments across climate mitigation and adaptation themes. The transition to sustainable energy offers significant investment opportunities in renewable energy projects and infrastructure enhancements. Primarily targeting greenfield opportunities, this vertical benefits from strong regulatory support. We aim to support decarbonization through investments in renewable power, green transmission, digital infrastructure, and by opportunistically allocating resources to sectors such as energy efficiency, water, and waste management.

2. Private Credit

Our Private Credit business vertical offers structured credit solutions to corporates, projects or sponsors that are relatively underserved by traditional credit providers for their stake enhancement, acquisition, completion and revival. In 2010, our Company, launched the first fund under our Private Credit business vertical with an initial capital of $230 million. Between 2010 and 2016, we introduced two more sub-verticals: a performing credit fund in real estate and a special situations fund.

We have a scaled-up platform covering a wide spectrum of private credit sub-verticals. Our Private Credit sub-verticals comprise the following: (i) Special Situations, (ii) Performing Credit, (iii) Real Estate Credit; and (iv) IG Credit. Our Private Credit sub-verticals focus on generating risk adjusted returns, emphasizing proprietary sourcing and disciplined underwriting. As of June 30, 2026, our Private Credit verticals had 16 Active Funds with an AUM of ₹537,166.14 million. Since inception, we have raised ₹521,457.51 million in commitments, invested ₹424,079.11 million in assets, realized ₹439,733.03 million from investments, completed 190 investments and 140 exits under Private Credit vertical.

Special Situations

Our Special Situations sub-vertical provides financing for companies in special situations, including buyouts of stressed loans and high-yield senior financing. The sub-vertical focuses on investments in inherently viable companies that have a positive EBITDA and targets companies that offer multiple exit options, ensuring capital protection while delivering returns for our clients. Our extensive experience, thought leadership, on-ground investment team, and in-house legal expertise place us at the forefront of special situations investing and resolution, enabling us to navigate complex situations effectively and efficiently. Our involvement includes restructuring capital and leveraging our asset management capabilities to engineer successful turnarounds.

Performing Credit

Our Performing Credit sub-vertical focuses on creating tailored solutions to meet the varied needs of promoters and their companies, specifically for those requiring flexible capital for growth, mergers and acquisitions, and equity stake enhancements. Our capability in structured finance, combined with a long-term perspective, allows us to offer customized financing solutions that align with the specific requirements of our clients. These solutions include a range of debt instruments and credit facilities designed to provide the necessary capital for growth, acquisition, and working capital needs. This vertical centers on lending to larger corporates with necessary EBITDA and stable cash flows to ensure a lower risk profile. We mitigate risks through diversified collateral, covenants, and guarantees, providing additional security for our investments.

Real Estate Credit

Our Real Estate Credit sub-vertical targets the substantial and growing real estate market in India, investing in residential real estate projects primarily in Mumbai, Pune, Bengaluru, Hyderabad, Ahmedabad, Kolkata, Chennai and Delhi and its neighboring areas ("**National Capital Region**" or "**NCR**"). We primarily provide structured credit to mid-income and affordable real estate projects, aimed at facilitating construction and completion for a steady pipeline of high-quality assets while securing exits through project cash flows. As of June 30, 2026, we have direct connections with a large number of developers, enabling us to access a broad range of investment

opportunities. This extensive network and local market presence allow us to identify and capitalize on promising real estate credit investments efficiently.

IG Credit

Our IG Credit sub-vertical focuses on investments in companies and portfolio entities in requirement of credit facilities, offering attractive yields with regular cashflows. It involves bespoke solutions through investments in operating companies primarily, that are not typically served by traditional lenders such as banks, NBFCs and credit risk mutual funds.

3. Others

Our other business verticals are centered on investing in high growth mid-stage companies with strong unit economics. We target businesses with established markets, experienced leadership, and demonstrated financial profile.

We also offer portfolio management services ("**PMS**"). Our PMS provide investment opportunities to our clients. As of June 30, 2026, the combined FPAUM of other verticals was ₹13,108.55 million.

As of June 30, 2026, we have committed capital of ₹19,237.20 million and have deployed ₹6,564.16 million across eight investments.

Our Teams

Our verticals are executed by our key teams of 277 employees: our investment team, asset operating and management team and admin and support team, coverage team and enterprise team. As of June 30, 2026, (i) our investment team comprised of 85 experienced professionals, including 14 managing directors and 10 investment directors with an average of more than 21 years of experience, respectively, responsible for originating, executing, overall monitoring of transactions and exiting across our verticals; (ii) our asset operating and management team, operated through Sekura, included 58 members, focusing on project management, sales and cash flow monitoring, asset optimization, and turnaround of our investee companies, through its client-focused platform, led by a leadership team with extensive industry experience; (iii) our coverage team included 13 members, with extensive global and domestic reach, is instrumental in building our diversified client base across multiple geographies; and (iv) our enterprise team, included 108 members in 7 corporate functions, led by seasoned leaders with average more than 22 years of experience for the performance of various corporate functions of our business, such as risk management, governance and compliance. We have a presence in Mumbai, New Delhi, GIFT City and Singapore on ground coverage through chaperoning partners and relationship managers, covering North America, Europe, Middle East, Japan, Australia and South Korea, also offers us flexibility to create solutions for both onshore and offshore clientele.

Talent Acquisition

We focus on recruiting talent with demonstrated experience and track record. Every candidate goes through a screening and interview process, including a psychometric assessment of traits including attitude, drive, patience, and overall cultural fit. As a part of the recruitment process, candidates for all investment roles as well as for most functional roles interact with the senior leadership. We are able to source a diverse mix of talent through employee referrals, references, executive search firms and specialized recruiting agencies. We actively scout a diverse set of candidates to ensure we find the right talent for each role.

Development

We invest in our people through training, coaching and mentoring, and ongoing developmental feedback. We conduct regular training sessions for our employees on writing skills, regulatory compliances, cybersecurity and health and wellness. We conduct annual need-based training on which the training programs for the year are designed and conducted. Additionally, we offer employees at all levels the opportunity to identify professional and behavioral skills that they would like to develop. For senior and developing leaders, we offer one-on-one executive coaching and extensive learning journeys for all-rounded development of strategic and critical thinking. We believe that feedback is a critical element in developing and growing our talent. We conduct 360-degree feedback for our senior management, and bi-annual feedback across levels through appraisal conversations with managers.

Career Paths

In 2022, we implemented role-based designations entirely for business and at senior levels in enterprise functions, thereby transitioning to a skill-based approach towards talent development, recognition and growth. This helped in increased ownership among employees towards their career pathing and progress. At junior levels in enterprise functions, promotions are awarded based on ability, accomplishments, and a consistent record of personal and professional development.

Engagement and Retention

Learning and development of talent in a growing business takes considerable efforts and diligence in execution. We believe that the combination of our distinctive culture of empowerment and ownership, strong connect with employees and development programs, and competitive rewards strategy have successfully helped us retain talent over the years.

We are committed to the health, safety and wellness of our people. We arrange health-related trainings and seminars on a bimonthly basis. We also offer a competitive benefit program, including comprehensive hospitalization insurance for employee and family including parents. Additionally, our employee remuneration is structured to reward performance and longevity in the Company.

Compensation and Benefits

We provide comprehensive compensation, benefits, and incentives to support our employees' well-being, enhance our overall performance, and reward the contributions of each individual consistent with our performance culture. We use a combination of structures, all of which align with the performance of our funds and drive the economics of our business. We believe that these structures incentivize our people to spend their careers with us and are a powerful retention tool.

We are focused on alignment with our fund investors. Our performance culture and incentive compensation structure helps to ensure that our employees' interests align with our financial performance and goals. To further align the interests of our employees with our clients and to cultivate a strong sense of ownership and commitment to us, our investment team leadership has also made commitments in our funds and other vehicles we manage.

Distribution Network

Our distribution network is strategically designed to ensure comprehensive reach and effective engagement with a diverse array of clients. As of the date of this Prospectus, our distribution network is structured into the following components:

(i) *Direct Coverage*: Our direct coverage strategy involves dedicated teams who engage directly with institutional clients, including pension funds, and insurance companies. The relationship we build with these institutional clients is founded on the principles of trust, transparency, and a deep understanding of their unique investment requirements. Our coverage teams are skilled in identifying and addressing the specific needs of each client, ensuring that our investment solutions align with their long-term financial goals. The direct interaction enables us to provide customised investment strategies and to adapt swiftly to any changes in the market or the client's objectives.

(ii) *Distributors, CPs and Offshore RMs*: We also collaborate with wealth management entities ("distributors"), CPs and Offshore RMs to distribute our products to Global Institutions and UHNIs/HNIs. This partnership model leverages their expertise who have a detailed knowledge of the clients' financial profiles and investment preferences. By working closely with these intermediaries, we are able to offer investment solutions that cater to the distinct needs of Global Institutions and UHNIs/HNIs. This segment of our distribution network allows us to reach a broader audience, helping to expand our market influence and provide tailored financial products that meet the exacting standards of affluent clients.

We have a diversified channel for distribution of our products which includes as of a total of 53 Distributors, CPs and Offshore RMs as of June 30, 2026. The table below shows the growth of the number of Distributors, CPs and Offshore RMs as of the dates indicated:

	As of June 30,		As of March 31,		
Particulars	**2026**	**2025**	**2026**	**2025**	**2024**
No. of Distributors, CPs and Offshore RMs	53	48	51	42	13

The reason for the significant increase in Distributors, CPs and Offshore RMs from 13 as at March 31, 2024 to 42 as at March 31, 2025, further increasing to 51 as at March 31, 2026 and 53 as at June 30, 2026, was primarily driven by the establishment of new relationships with Distributors, CPs and Offshore RMs in line with our planned expansion of our distribution network.

(iii) *Client Relations*: Client relations are a cornerstone of our distribution network. We are committed to maintaining transparency and communication with our clients. This commitment is reflected in our comprehensive marketing strategies, which include regular updates and transparent reporting. We ensure that our clients are well-informed about the performance of their investments, market developments, and any strategic initiatives undertaken by the company. Our transparent communication practices help build and maintain client confidence, fostering long-term relationships and ensuring that clients feel valued and engaged. Regular reporting and updates are crucial components of our strategy to uphold client trust and to provide assurance regarding the integrity and performance of their investments.

By integrating these three components, direct coverage, collaboration with wealth managers and financial advisors, and strong Client relations, our distribution network is well-equipped to meet the evolving needs of our diverse client base. This multi-faceted approach enables us to offer bespoke investment solutions, maintain client confidence, and ensure sustained growth.

Clients

As of June 30, 2026, through the funds that we managed, we had 11,009 client relationships globally and in India, including 1,493 repeat clients (i.e., clients who have invested in more than one of our funds) in our funds and 8,800 clients added in from April 1, 2023 to June 30, 2026. Out of 11,009 client relationship 5,714 is for fund clients and 5,295 for Invit clients, as of June 30, 2026. We have a diverse client base across institutional clients and non-institutional clients (including UHNIs/HNIs and family offices, etc.); approximately 49.32% of our AUM are contributed by institutional clients, including pension funds, insurance companies, banks and sponsors, while the remaining 50.68% are contributed by non-institutional clients; approximately 77% of our AUM is from repeat customers. Furthermore, the consistent increase in our AUM (as evident from the table below), and in particular the increase as of June 30, 2026, was primarily attributable to larger funds raised under existing strategies and the launch of new products. For the three months period ended June 30, 2026, we raised fresh capital commitments of ₹203,803.50 million, comprising ₹124,390.50 million in Real Assets and ₹75,450.00 million in Private Credit, which directly contributed to the increase in our AUM during the said period.

Additionally, as of June 30, 2026, our clients are distributed across key geographies: India, North America, Europe and rest of the world. Our AUM distribution based on geography and type of clients, are set out as follows as of the dates indicated:

Notes:

(1) AUM refers to total commitment raised under Active Funds[4].

(2) Institutional clients include commitments received from banks, insurance companies, pension funds, banks, mutual funds, endowment and sponsors etc.

(3) Non-institutional clients refers to all other clients not forming part of the institutional clients.

(4) Active Funds includes funds, Co-Investment PMS and InvITs managed / advised by the Company and its Subsidiaries, that are either accepting capital, making new investments, or managing their portfolio of assets, excluding the special purpose funds.

Fee Structure

Our funds serve as pooled vehicles, collecting capital from UHNIs/HNIs, corporates, institutional clients, and family offices. These funds are primarily focused on investing in private assets across various business verticals such as Private Credit, Real Assets, and other verticals, offering exposure to non-traditional opportunities. The fee structures for these funds are diverse, tailored to each type of fund, investment strategy, and operational model, but generally include three core components: Management and Advisory Fees, GP Income and Variable Additional Return. See "***— Overview***" on page 228 for a description of our Management and Advisory Fees, GP Income and Variable Additional Return. Further, our management fee rate is up to 2.25% of the FPAUM of our Active Funds, and the Variable Additional Return rate is up to 20% of the net profits of the concerned fund.

Risk Management and Governance

Investment Risk Management

We place a high priority on implementing a strong risk management system. Our focus lies in enhancing our risk assessment and monitoring procedures throughout our investment cycle. We have established comprehensive risk management policies, and procedures specifically tailored for our investment management activities within the alternative assets sector. These policies and procedures entail conducting risk analysis both before and after undertaking any transactions through the investment cycle. Nevertheless, the fund document governs the investments and decision-making process.

Effective management of risks and identifying, assessing, and managing risks that could impact our objectives is ensured by our investment teams, risk function and committees. We have implemented a multi-tiered approach to investment evaluation, that encompasses both pre-investment and post-investment phases.

Pre-Investment Stage

(i) Real Assets

Each real asset investment undergoes a comprehensive assessment process, starting with a preliminary evaluation and followed by multiple stages of due diligence, independent reviews, and final deal closure.

Initially, a preliminary investment and review committee conducts an initial discussion regarding the asset under consideration, including the involved counterparty, and approves the budget for due diligence. Subsequently, a detailed analysis and due diligence phase ensues where the fund diligence team thoroughly examines the project's financials, counterparties, and key contract terms. This phase includes financial, legal, technical, commercial, and developer due diligence, often involving third-party experts. The results are compiled into a detailed memorandum, and the investment team negotiates transaction terms with the seller.

Following this, in case of real assets, an independent assessment by the Risk Team is conducted, wherein due diligence reports, and Investment/Review Committee notes and presentation are reviewed by the Risk Team, and their comments are shared with the Investment Team and incorporated into the Investment/Review Committee notes and presentation. The Investment/Review Committee then evaluates the underwriting and due diligence as well as the risk observations, offering non-binding recommendations to the Fund Board / KIT. The final stage, disbursement or deal closure, involves relevant legal activities executed under the Investment Team's supervision, where transaction documents are finalized, conditions precedents are met, and funding instructions are issued after clearance and sign offs from the risk, compliance and governance team ("**Risk, Compliance & Governance Team**"). Upon completing the investment, particularly in direct investments into a special purpose vehicle ("**SPV**") or holding company, a detailed handover from the selling party is conducted.

(ii) Private Credit

Each Private Credit investment undergoes a thorough and independent assessment process involving multiple stages. Initially, a name clearance process is conducted where investment opportunities are scrutinized for association risks. This includes background checks on promoters and their groups, PEP association, credit history, adverse news, litigations, regulatory track record, and more. Both public sources and external diligence agencies might be used. The name clearance committee ("**Name Clearance Committee**") has the authority to approve, reject, or request further due diligence for a proposal.

Following this, the Investment Team performs first level of diligence, which includes industry analysis, competitive benchmarking, financial performance, operational aspects, and collateral checks, while also sharing

the same information with the risk team ("**Risk Team**"). The Risk Team then independently evaluates the transaction and information available and provides its risk observations to the credit committee ("**Credit Committee**") wherever applicable. The Credit Committee reviews all proposals and makes recommendations to the investment/review committee ("**Investment/Review Committee**"). On a case-to-case basis, reputed agencies may be appointed to carry out due diligence covering various factors like financial, legal, technical, commercial, and ESG aspects.

The Investment/Review Committee reviews all proposals and makes non binding recommendations to the fund's decision-making authority i.e. Key Investment Team ("**KIT**") / Fund Board ("**Fund Board**")/ Investment Committee based on the funds' governing documents. The final approval is contingent on several criteria: addressing comments from the various committees as stated above, incorporating due diligence findings, obtaining relevant legal, compliance, tax, and ESG inputs where available. Finally, before disbursement, compliance of stipulated conditions as defined under transaction documents are reviewed by the Risk Team and sign off for disbursement is provided subject to approvals by risk, compliance, legal functions.

Post-Investment Stage

Following the investment, both the investment team, asset operating and management team and the risk team engage in regular portfolio monitoring to assess the performance of investee companies. This evaluation encompasses a range of factors, including financial and operational performance, working capital and cash flow, collateral valuation, and developments within the market and industry, including the regulatory environment. Additionally, the teams review debt servicing, compliance with contracted terms and conditions, progress on action plans, and payment status, as well as the overall performance of funds.

To identify potential risks early, the monitoring process also includes early warning indicators such as detailed financial analysis, negative news reports, market feedback, industry updates, and any breaches of covenants. This comprehensive approach ensures that both teams remain vigilant and proactive in managing and mitigating risks within the investment portfolio. Furthermore, regular risk monitoring includes tracking price changes of listed companies, extreme events through news alerts, regulatory actions affecting portfolio companies, and payment statuses.

Based on the outcome of the various risk monitoring activities, the terms of investment and/or exit strategy may need to be amended in relation to pre-investment underwriting.

Asset Management

Once the investment is made, based on various considerations such as changed economic environment, company's or assets performance, change in business plan, any refinancing or business/debt restructuring[13], amendment to security structure, change in exit strategy, legal action, etc., it may be required to make modification in the original terms of investments which shall be made subject to non binding recommendation of the Review Committee or relevant authority, and approval of the Fund Board, Investment Committee or the KIT.

Risk Monitoring Activities

Our risk monitoring activities are designed to meticulously track and manage potential risks within our asset portfolios. These activities consist of several key components. Firstly, an asset review process includes a periodic portfolio tracker to capture essential risks, developments, cashflows, updates on action plans, and payment statuses. Additionally, a periodic risk review is conducted to review the performance of funds and individual investments. This review encompasses updates on the sector and industry, key risks in portfolio companies, status of key risk monitorables, business and financial analysis, valuation, and compliance with covenants and conditions.

For the Infrastructure and Commercial Real Estate funds or perpetual capital vehicles like InvITs, REITs, quarterly updates are provided to the Investment/Review Committee by the Investment Team. The asset operating and management team conducts Risk Committee meetings on quarterly basis. The valuation of collateral/security is also conducted according to our internal review framework to ensure accuracy and reliability.

Collectively, these activities provide a robust framework for identifying, assessing, and managing risks to

Enterprise Risk Management

Enterprise risk management currently involves comprehensive risk monitoring practices to proactively identify and manage both existing and emerging risks across eleven risk vectors. Our approach includes several key components to continuously enhance our control landscape.

Firstly, we provide quarterly risk dashboard reports to senior management, detailing potential threats and vulnerabilities. We have also established an independent assurance function to improve oversight and control, continuously evolving our assurance plan. Additionally, we focus on the continuous improvement of internal controls by maintaining standard operating procedures for critical activities and implementing risk registers, which are periodically reviewed through assurance plans, exception reporting, and audits. The incident or exception reporting mechanism ensures timely reporting of any deviations from established policies or processes. Collectively, these measures facilitate a vigilant and proactive approach to risk monitoring, thereby strengthening our ability to safeguard against potential disruptions and uncertainties.

IT and Digital Platforms

We have a comprehensive suite of IT systems and digital platforms optimized to empower our business to expand our client base and the assets we manage. We utilize modern IT and digital infrastructure, entirely based on cloud computing, allowing for greater autonomy and flexibility. We conduct regular backups and restorations to ensure operational continuity and to minimize disruptions. We also maintain stringent multi-layered security protocols. Quarterly configuration and vulnerability audits are carried out on all servers' hardware and operating systems to

identify and mitigate potential security risks. Our applications undergo quarterly vulnerability audits and penetration testing to address any weaknesses. We use endpoint detection and response solutions across all devices for real-time monitoring and threat response. The integration of a security operations center with all network devices ensures continuous surveillance and improved incident response capabilities. We also have annual red teaming exercises that test our defenses against simulated attacks.

In terms of digital platforms, we use serverless architecture to enable scalability and efficiency. This approach allows us to scale operations dynamically without the need for traditional server management. We also experiment with emerging technologies such as Generative AI, staying ahead in technological advancements within the asset management sector. By leveraging automation processes and the latest infrastructure, these systems aim to achieve higher scalability, efficiency, and client satisfaction. Our technology initiatives cover several aspects of business operations from client onboarding to client relationship management, transaction management, reporting, automation, and reconciliation, ultimately enhancing our ability to manage and grow assets effectively.

Specifically, we use technology to scale our operations in the following processes. The systems provide the capability for a business to grow its client base and assets under management seamlessly.

- *Client Onboarding*: We use technology to improve user interface and experience. Our onboarding process features an intuitive and foolproof UI/UX that is powered by artificial intelligence. This approach allows for a paperless process which significantly reduces turnaround time ("**TAT**").

- *Recovery Management System*: Technology is used in our recovery management system for automated receipt allocation. This system automatically allocates and tags receipts to funds. It helps in identifying defaults and facilitates the calculation of key fund and client KPIs.

- *Client Relationship Management ("**CRM**")*: We have an advanced CRM mobile application. The CRM system includes features such as biometric security, speech-to-text capabilities, card scanning, and Outlook integration. These features enhance the management of meetings and overall operational efficiency.

Additionally, we also utilize technology to improve efficiency in our operations. Specifically, we have incorporated the following technological applications to improve efficiency at various stages of our business operations:

- *Deal Pipeline*: Technology is used for the automation and standardization of our deal pipeline. We utilize a technology enabled system checklist that enhances institutional memory and also serves as a document repository. This structure helps in maintaining detailed records and ensures streamlined processes.

- *Client Query System*: We utilize technology for query management and quality assurance. A ticketing system manages queries with predefined service level agreements. If there are any breaches in the target TAT, these are promptly reviewed for quality assurance purposes. This system is designed to handle client queries efficiently and ensures that responses are prompt and accurate.

- *Client Transaction System*: We utilize this system for the automation of complex calculations. It automates intricate calculations for drawdown and distribution. It has the facility to send notifications directly to the chaperoning partners and relationship managers, ensuring timely and accurate information dissemination.

- *Reporting*: We use an artificial intelligence powered tool for reporting. This artificial intelligence-powered and proprietary reporting tool understands natural language queries and delivers instant outputs. The system enables scalable growth by efficiently managing repetitive tasks, thus allowing the business to focus on strategic decision-making, improving client satisfaction, and maximizing returns.

- *Electronic EYE Remote Monitoring System*: We use a remote monitoring system to provide real-time oversight of the operations and performance of renewable assets. The Electronic EYE system strengthens operational performance by providing centralised, real-time visibility of plant and asset health across the portfolio. Through single-screen inverter monitoring, real-time generation and weather tracking, and analytics such as specific yield, the control room enables faster identification and resolution of underperforming assets, reducing response times and downtime. Its integrated smart asset management features, including digitised preventive maintenance tracking, fault trend analysis and breakdown reviews, support proactive and predictive maintenance, thereby improving asset uptime and overall key

performance indicator performance. Electronic EYE has helped transition asset monitoring from a reactive model to a proactive, analytics-led operating framework, strengthening asset uptime, accelerating response to underperformance and improving predictive maintenance outcomes through centralised visibility and smart digital tools.

Furthermore, we also use technology for automation. The automation tools streamline workflows, data analysis, and decision-making processes. They optimize operational processes to drive cost savings and enhance returns for clients, specifically with respect to the following:

- *Reconciliation*: We use technology for data integrity assurance. Our reconciliation tool ensures data integrity by cross-verifying records daily.

- *Fund Operating System*: We use a unified fund operating system for the integration of fund management, client management, and investment modules.

- *Approval Management System*: We have a tech-enabled approval management system that streamlines the process of payment approvals using a delegation of power matrix and bank integration. This system eliminates the need for manual intervention, thereby enhancing efficiency.

In-House and Third-Party Technological Capabilities

We develop and maintain custom applications tailored to our specific business requirements through our in-house team, which handles application development and business logic implementation. This provides us direct control over functionality, data handling, and the ability to respond quickly to evolving business needs. Concurrently, we rely on established third-party vendors for foundational infrastructure and specialised services where building in-house would be neither practical nor cost-effective.

Dependencies on Third-Party Vendors and Associated Risks

Our reliance on third-party vendors for certain technological capabilities introduces several risks:

Operational Continuity Risk: Vendor outages or service disruptions could adversely impact our operations. We mitigate this through continuous monitoring of services and inclusion of business continuity clauses in our vendor agreements. Our proprietary code and documentation are maintained on secure platforms, enabling recovery when needed.

Data Security and Privacy Risk: Third-party vendors handling sensitive investor or financial data introduce potential security and privacy exposure points. We address this through vendor security assessments, contractual data protection obligations aligned with applicable regulations, and limiting data sharing to what is operationally necessary.

Concentration Risk: Heavy reliance on a single vendor for critical technological functions creates vulnerability. Where feasible, we maintain awareness of alternative providers and seek to avoid vendor lock-in through the use of standard data formats and application programming interfaces.

Regulatory and Compliance Risk: Third-party vendors must meet applicable regulatory requirements, particularly regarding data residency, security standards, and audit access. We include compliance obligations in our vendor agreements and conduct periodic reviews to ensure adherence.

Business Continuity Risk: Vendor financial instability or discontinuation of services could necessitate migration to alternative providers. We maintain documentation of critical dependencies and consider exit strategies for essential services.

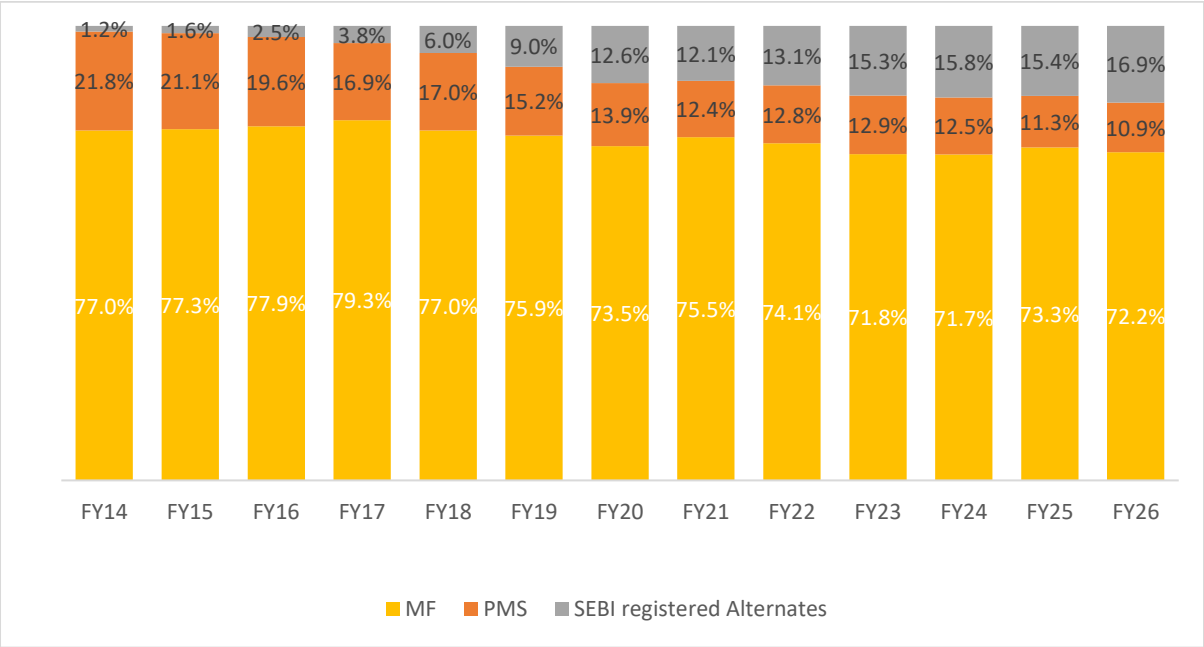

Governance of Third-Party Technology Dependencies

We conduct risk-based assessments prior to onboarding new vendors. We review critical vendor relationships periodically, prioritising depth of review for high-risk dependencies to ensure our governance approach remains proportionate and effective.

Competition

We face significant competition from companies seeking to attract clients' financial assets, including traditional

and online brokerage firms, other asset management companies and larger financial institutions. The chart below depicts the Securities and Exchange Board of India ("**SEBI**") registered alternative investment companies gaining share in the Indian asset management industry and mix of overall AUM for the years indicated:

Corporate Social Responsibility

Our corporate social responsibility ("**CSR**") programs are principally implemented through the EdelGive Foundation ("**EdelGive**"), with the balance implemented directly with other implementing partners. EdelGive works for the welfare of women, children and vulnerable communities across India. For the Financial Year 2026, we spent ₹17.80 million on our CSR activities. This fund was utilized for education, community resilience and climate action, women's empowerment and skill development, rural infrastructure development, health and hygiene, and the preservation of traditional art and culture.

Our principal CSR activities during the Financial Year 2026 are set out below:

- **EdelGive Foundation / LeapForWord**: Supported the implementation of English Literacy Program

across Maharashtra, with a contribution of ₹4.94 million. During the year, teachers were onboarded to the program and a section of them were selected as "Teacher Heroes" and provided structured mentoring, guidance and a tailored rewards system, supported through videos, worksheets and classroom activities. Many virtual classroom observations and school visits were conducted to assess teaching practices and student outcomes, followed by structured feedback.

- **EdelGive Foundation / Kshamtalaya Foundation**: Supported the Cluster Excellence Learning Labs program in the tribal-rural blocks of Kotra and Gogunda, Udaipur district, Rajasthan, with a contribution of ₹4.63 million. The program focused on improving students' foundational learning outcomes in literacy and numeracy and life skills Community engagement was strengthened through parent-teacher meetings and a cohort of regional education fellows was trained to improved building capacity.

- **Rotary Club of Bombay / Diganta Swaraj Foundation**: Supported the integrated village development project at Dhamni hamlet, Ambeghar Gram Panchayat, Vikramgad block, Thane district, Maharashtra, with a contribution of ₹4.30 million. The work comprised a solar-based lift irrigation and two-line water distribution system, systems with pumps, a pipeline network laid by villagers through *shram daan*, *hauds* and a water tank for domestic storage, *jalkunds* enabled with mini solar pumps for agriculture, water filters for households, and plantation of *mogra* and *sonchafa* saplings to build a local floriculture economy.

- **Snehalaya**: Supported the first year of a three-year afforestation project developing a Miyawaki forest at Chikhalgaon village, Shahapur, Maharashtra, with a contribution of ₹2.00 million. Indigenous trees across many varieties, including a number of fruit-bearing species, were planted over two acres, with the remaining two years of the project directed at maintenance and community engagement in forest restoration.

- **Sneha Foundation**: Contributed ₹ 0.63 million towards maternal and child health initiatives.

- **Shri Dharmic Leela Committee**: Contributed ₹0.50 million towards the preservation and protection of performing arts.

- **Tata Memorial Hospital**: Contributed ₹0.40 million towards health care, supporting a research initiative at evaluating and improving treatment outcomes in patients suffering from oral cancer.

Additionally, as a part of our employee engagement, we conducted various activities such as the preparation of teaching and learning aids for children in partner schools, tree plantation drives and other environmental and educational initiatives, supported through a contribution of ₹0.40 million.

Laws in relation to our business

Securities and Exchange Board of India Act, 1992 ("SEBI Act")

The SEBI Act primarily governs the activities in relation to the securities markets in India. The SEBI Act, *inter alia*, deals with the powers and functions of the Securities and Exchange Board of India. Broadly, functions of SEBI include among others, protecting the interest of investors investing in the securities market and also to regulate and promote the development of the securities market, by such measures as it deems appropriate. The SEBI Act also provides for the registration and regulation of the function of various market intermediaries including stock-brokers, depository participants, merchant bankers, portfolio managers, investment advisers, and research analysts. Pursuant to the SEBI Act, SEBI has formulated various rules and regulations to govern the functions and working of these intermediaries. SEBI also issues various circulars, notifications and guidelines from time to time, amongst other things, in accordance with the powers vested with it under the SEBI Act. SEBI has the power to impose (i) monetary penalties under the SEBI Act and the regulations made thereunder, and (ii) penalties prescribed under various regulations, including suspending or cancelling the certificate of registration of an intermediary and initiating prosecution under the SEBI Act. Further, SEBI has the authority to conduct inspection of all intermediaries in the securities market, including stock-brokers, sub-brokers, investment advisers, merchant bankers, underwriters, research analysts, to ensure, amongst others, that the books of account are maintained in the manner required in accordance with applicable law.

Securities and Exchange Board of India (Portfolio Managers) Regulations, 2020 ("SEBI Portfolio Manager Regulations")

Overview

The SEBI Portfolio Manager Regulations govern the functioning of portfolio managers. The portfolio manager is as defined as "*a body corporate, which pursuant to a contract with a client, advises or directs or undertakes on behalf of the client (whether as a discretionary portfolio manager or otherwise) the management or administration of a portfolio of securities or goods or funds of the client, as the case may be*". The definition also permits a portfolio manager to deal in goods received in delivery against physical settlement of commodity derivatives.

Co-investment Portfolio Manager

The SEBI Portfolio Manager Regulations also define the co-investment portfolio manager as the manager of the Category I or Category II AIFs. They are permitted to provide services only to the investors of such Category I or Category II AIFs and make investment only in unlisted securities of investee companies where such Category I or Category II AIFs make investments. The co-investment portfolio manager may also provide services to investors from any other Category I or Category II AIFs which are managed by them and are also sponsored by the same sponsors.

Registration as a portfolio manager

Any applicant proposing to act as portfolio manager is required to be registered as a 'portfolio manager' with SEBI under the SEBI Portfolio Manager Regulations. The certificate of registration is valid till it has been suspended or cancelled by SEBI. The certificate of registration is granted by SEBI subject to certain conditions, which include, among others, that the portfolio manager shall abide by the provisions of the SEBI Act, and the

SEBI Portfolio Manager Regulations. The portfolio manager is also required to obtain prior approval of the SEBI in case of change in control (as defined under the SEBI Portfolio Manager Regulations) in such manner as may be specified by SEBI. The portfolio manager is also required to take adequate steps for redressal of grievances of the investors within 21 calendar days of the date of the receipt of the complaint and keep SEBI informed about the number, nature and other particulars of the complaints received.

Eligibility

For the grant of certificate of registration, among others, the applicant is required to have appointed a compliance officer and a principal officer along with the necessary equipment and infrastructure. The co-investment portfolio manager may designate a member of the key investment team of the manager as the principal officer who fulfils either of the criteria specified in clause (g) of regulation 4 of the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012. The net worth of a portfolio manager is required to be not less than ₹50 million, however, this net worth requirement is not applicable to the co-investment portfolio manager. In order to determine whether the portfolio manager is a fit and proper person, SEBI may take into account the criteria as laid down under Schedule II of Securities and Exchange Board of India (Intermediaries) Regulations, 2008.

Functioning

An eligible fund manager is required to comply with the requirements under Section 9A of the Income Tax Act, 1961 (now sub-section (12) of Section 9 under the Income Tax Act, 2025) and offer discretionary or non-discretionary or advisory services or a combination to the investment funds eligible under it. The eligible fund manager is also required to maintain separate books and accounts pertaining to its activities as a portfolio manager to the eligible investment funds and other clients which the eligible fund manager may have. The SEBI Portfolio Manager Regulations requires the portfolio manager to segregate each client's funds and portfolio of securities and keep them separately from its own funds and securities and be responsible for safe keeping of the client's funds and securities. For co-investment portfolio manager, the early withdrawal of funds by the co-investors with respect to co-investment in investee companies shall be allowed to the extent that the alternative investment fund has also made an exit from respective investment in such investee companies.

The portfolio manager, before taking up an assignment of management of funds or portfolio of securities on behalf of a client, is required to enter into an agreement in writing with the client clearly defining the *inter-se* relationship and setting out their mutual rights, liabilities and obligations relating to the management of funds or portfolio of securities containing the details as specified in Schedule IV of the SEBI Portfolio Manager Regulations. The portfolio manager shall, in compliance with the SEBI Portfolio Manager Regulations, furnish periodical reports to the client which shall contain all the necessary details of the portfolio so being managed for the client. The portfolio manager shall not accept from the client, funds or securities worth less than 50 lakh Rupees. The portfolio manager shall transact in securities within the limitation placed by the client himself with regard to dealing in securities under the provisions of the Reserve Bank of India Act, 1934. The portfolio manager shall not borrow funds or securities on behalf of the client. The portfolio manager offering non-discretionary or advisory services to clients may invest or provide advice for investment up to 25% of the AUM of such clients in unlisted securities, in addition to the securities permitted for discretionary portfolio management. The co-investment portfolio manager shall invest 100% of the AUM in unlisted securities of investee companies where Category I and Category II AIFs managed by it as manager, has made investments.

In addition, every portfolio manager is required to abide by the code of conduct laid down under Schedule III of the SEBI Portfolio Manager Regulations. Further, in order to observe high standards of integrity and fairness in all its professional dealings, the portfolio manager must under all circumstances avoid any conflict of interest in its decisions in the capacity of a portfolio manager and accordingly disclose to its clients all such circumstances, as and when a conflict of interest may arise.

Securities and Exchange Board of India Master Circular for Portfolio Managers dated July 16, 2025 ("SEBI Master Circular on Portfolio Manager")

The SEBI Master Circular on Portfolio Manager is a compilation of all the existing/applicable circulars issued by SEBI to portfolio managers from time to time. It includes the procedure of application for registration as a portfolio manager. The guidelines for co-investment portfolio management services which lays down that a manager of Category I or Category II alternative investment fund who is also a SEBI registered portfolio manager and intends to act as co-investment portfolio manager and offer co-investment services through portfolio management route, shall do so only under prior intimation to SEBI. The SEBI Master Circular on Portfolio Manager also provides

the registration and post-registration activity, operating guidelines, investments by portfolio managers, disclosure requirements, reporting requirements, fees and charges as well as the grievance redressal mechanism. It also provides a cumulated list of policy related letters/ emails issued by SEBI to portfolio managers. In terms of paragraph 2.8 (Cyber Security and Cyber Resilience framework for Portfolio Managers) of the SEBI Master Circular on Portfolio Managers, SEBI has directed all SEBI-registered portfolio managers shall comply with the applicable provisions of cybersecurity and cyber resilience framework for SEBI regulated entities, in order to provide essential facilities and services and perform critical functions in the securities market.

Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012 ("SEBI AIF Regulations")

Under the SEBI AIF Regulations, a 'manager' is a person or an entity who has been appointed by an alternative investment fund ("**AIF**") to manage its investments. The manager of an AIF can also be the sponsor of an AIF. For Category I and II AIFs, the manager or the sponsor of an AIF is required to maintain a continuing interest in an AIF. The category I and II AIFs cannot invest more than 25% of their investible funds in one investee company. A category III AIF cannot invest more than 10% of its investible funds in one investee company. A certificate of registration is mandatory for an entity or a person to act as an AIF and such certificate shall be granted, subject to compliance with the requisite conditions under the SEBI AIF Regulations. The registration of an AIF is, amongst other things, also dependent on the ability of the manager to effectively discharge its activities by having the necessary infrastructure and man power. All AIFs are required to state their investment strategy, investment purpose and their investment methodology in the placement memorandum to the investors. The manager is required to be a 'fit and proper person', based on the criteria specified in Schedule II of the Securities and Exchange Board of India (Intermediaries) Regulations, 2008. The obligations of the manager include maintenance of records, addressing the complaints of the investors, taking steps to address conflicts of interest, ensuring transparency and providing all information sought by SEBI. The manager or sponsor of an AIF is required to appoint a custodian who is registered with SEBI for safekeeping of the securities of such AIF. The manager is also required to establish and implement written policies and procedures to identify, monitor and appropriately mitigate conflict of interest throughout the scope of business. Funds of Category I AIFs are allowed to invest in units of Category I AIFs of the same sub-category. Funds of Category II AIFs and Category III AIFs are allowed to invest in units of Category I or Category II AIFs.

Securities and Exchange Board of India Master Circular for Alternative Investment Funds dated June 3, 2026 ("SEBI Master Circular on AIFs")

The SEBI Master Circular on AIFs is a compilation of all the existing/applicable circulars issued by SEBI to AIFs from time to time. The Master Circular on AIFs includes the procedure to be followed for filing private placement memorandum which is the primary document in which all the necessary information about an AIF is disclosed to prospective investors. It also comprises the investment method in AIFs by which the AIFs may raise funds from any investor whether Indian, foreign or non-resident Indians, by way of issue of units. It clarifies that new investments made by AIFs on or after July 1, 2025, must be held strictly in dematerialised form and streamlines periodic regulatory filings through the SEBI intermediary portal. The obligations of a manager, sponsor and trustee of an AIFs along with the code of conduct that all managers are required to follow is also provided under the SEBI Master Circular on AIFs. The guidelines for AIFs to report their investment activities under Regulation 28 of the SEBI AIF Regulations with respect to the activities carried out by an AIF are also provided in the SEBI Master Circular on AIFs. The SEBI has prepared an investor charter with a view to provide relevant information to investors about the various activities pertaining to AIFs.

Securities Contracts (Regulation) Act, 1956 ("SCRA")

The SCRA was enacted to prevent adverse transactions in securities by regulating the business of dealing in securities. The SCRA provides, amongst other things, the definition of 'securities', the manner and procedure for recognition of stock exchanges, and provides recognised stock exchanges the powers to make bye laws for regulation and control of contracts for, or relating to, the purchase or sale of securities. The SCRA was amended vide the Finance Act, 2021 to bring pooled investment vehicles within its ambit. The definition of pooled investment vehicle was included which includes a fund established in India in the form of a trust or otherwise, such as mutual fund, AIF, collective investment scheme or a business trust as defined in sub-section (21) of section 2 of the Income Tax Act and registered with the SEBI, or such other fund, which raises or collects monies from investors and invests such funds in accordance with such regulations as may be made by the SEBI in this behalf. The definition of "securities" has correspondingly also included units or any other instrument issued by any pooled investment vehicle. Additionally, pooled investment vehicles have been made eligible to borrow and issue debt securities in the manner prescribed by SEBI.

Securities Contracts (Regulation) Rules, 1957 ("SCRR")

The SCRR provides, among other things, the requirements with respect to listing of securities on a recognised stock exchange, the manner of submitting applications for recognition of stock exchanges, and the qualifications for membership of a recognised stock exchange. It also empowers SEBI to appoint persons to inspect the books of accounts and other documents to be maintained and preserved by every member of a recognised stock exchange, in terms of these rules.

The Depositories Act, 1996 ("Depositories Act")

The Depositories Act provides for regulations of depositories in securities and related matters. In terms of the Depositories Act, no depository shall act as a depository unless it has obtained a certificate of commencement of business from the SEBI in accordance with the Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018. The registration certificate shall be subject to satisfaction of certain conditions including rules and bye-laws of the depository being in conformity with prescribed conditions and SEBI shall not grant a certificate unless it is satisfied that the depository has adequate system and safeguards to prevent manipulation of records and transactions. Further, the Depositories Act requires every depository to maintain a register and an index of beneficial owners in the manner prescribed therein. As per the provisions of the Depository Act, a depository shall enter into an agreement with one or more depository participants as their agents. All securities held by a depository shall be in dematerialised and fungible form.

The International Financial Services Centres Authority Act, 2019 ("IFSCA Act")

The IFSCA Act regulates the financial products, financial services, and financial institutions in the International Financial Services Centres ("**IFSC**"). The IFSCA aims to develop a strong global connect and focus on the needs of the Indian economy as well as to serve as an international financial platform for the entire region. The International Financial Services Centres Authority ("**IFSCA**") is a statutory authority established under the IFSCA Act to develop and regulate the financial products, financial services, and financial institutions in the IFSC in India.

International Financial Services Centres Authority (Fund Management) Regulations, 2025 ("IFSCA FM Regulations")

IFSC Regulations were formulated by IFSCA under the powers conferred to them via IFSCA Act and SEBI Act. The IFSC FM Regulations provide a comprehensive framework for the regulation of asset management industry in the IFSC. The IFSCA FM Regulations require investment of the fund management entity "**FME**" contribution to be made into the scheme in proportion to investor's investment within 45 days. The contribution shall be exempted if (a) at least two -thirds of the investors in the scheme by value permits waiver of such contribution; (b) at least two-thirds of the investors in the scheme are accredited investors; or (c) the scheme is a fund of fund scheme investing in a scheme which has similar such requirements. Details of activities, investment conditions, responsibilities, and obligations for different categories of the fund management entity have been laid down under the IFSC FM Regulations. A FME in IFSC shall seek prior approval of the International Financial Services Centres Authority in case of any direct or indirect change in control of the FME. The IFSCA FM Regulations now provides for a validity of 12 months of the placement memorandum as compared to the regulations of International Financial Services Centres Authority (Fund Management) Regulations, 2022 which provided a validity of only six months for the placement memorandum.

Foreign Exchange Management Act, 1999 ("FEMA")

Foreign investment in India is governed by the provisions of FEMA, as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry has issued the Consolidated FDI Policy which consolidates the policy framework on Foreign Direct Investment ("**FDI Policy**"). In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. For companies in financial services regulated by sectoral regulator (in our case, being SEBI) foreign investment is permitted up to 100% of the paid up share capital of such company under the automatic route, subject to the compliance with certain prescribed conditions. In terms of the FDI Policy, the authority for granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned administrative ministries/departments. Where FDI is allowed on an automatic basis without the approval of the

Government, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment.

***Digital Personal Data Protection Act, 2023* (*"DPDP Act"*) *and Digital Personal Data Protection Rules, 2025* (*"DPDP Rules"*)**

On August 11, 2023, the Central Government published the DPDP Act for general information, which came into force on November 14, 2025, as the Central Government notified the DPDP Rules in the Official Gazette. The substantive compliance obligations shall come into effect in phases until May 2027. In particular, significant data fiduciary requirements, such as appointing a Data Protection Officer and the consent and data-rights framework are scheduled to commence during 2026–2027, per the notified schedule. The DPDP Act provides for the processing of digital personal data in a manner that recognizes both the right of individuals to protect their personal data and the need to process such personal data for lawful purposes and for matters connected therewith or incidental thereto. The DPDP Act is based on the principles of consented, lawful and transparent use of personal data, purpose limitation, data minimization, data accuracy, storage limitation, reasonable security safeguards and accountability. The DPDP Act lays down the obligations of a data fiduciary, the rights and duties of a data principal, grievance redressal mechanism, setting up of a data protection board and penalties in respect of various breaches.

The DPDP Rules provide a comprehensive framework for operation of the DPDP Act, setting out key standards for data governance. The DPDP Rules regulate the processing of personal data for the delivery of subsidies, benefits, and services by the State, with a strong emphasis on lawful, transparent, and secure handling. The Rules require reasonable security safeguards, prescribe protocols for reporting personal data breaches, and establish clear mechanisms for individuals to exercise their data rights. Further, the DPDP Rules include special protections for processing the personal data of children and persons with disabilities, ensuring heightened care and compliance. The framework also details the constitution of the Data Protection Board, including the appointment, tenure, and service conditions of its chairperson and members, and its operation as a digital-first body. In addition, the DPDP Rules set out a structured procedure for filing appeals before the Appellate Tribunal to facilitate dispute resolution.

2. Basis of preparation of Restated Consolidated Financial Information

The Restated Consolidated Financial Information comprises of the Restated Consolidated Statement of Assets and Liabilities as at June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024, The Restated Consolidated Statements of Profit and Loss, The Restated Consolidated Statement of Cash Flows, The Restated Consolidated Statement of Changes in Equity for the period ended June 30, 2026, June 30, 2025 and for the year ended March 31, 2026, March 31, 2025 and March 31, 2024, The Material Accounting Policies to Restated Consolidated Financial Information, Statement of Material Adjustments and Regrouping and Notes to Restated Consolidated Financial Information (Collectively, The "Restated Consolidated Financial Information") .

The Restated Consolidated Financial Information is prepared for the Holding Company and its subsidiaries together referred to as the "Group".

These Restated Consolidated Financial Information have been prepared by the Management as required under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations") issued by the Securities and Exchange Board of India ('SEBI'), in pursuance of the Securities and Exchange Board of India Act, 1992, for the purpose of inclusion in the Addendum to the Draft Red Herring Prospectus, Updated Draft Red Herring Prospectus, Red Herring Prospectus and Prospectus (together referred as "Offer Document") prepared by the Company in connection with the proposed initial public offering of equity shares of face value of Rs. 5 each of the Holding Company comprising an offer for sale of equity shares held by the selling shareholders (the "Offer"), prepared by the Holding Company in terms of the requirements of:

a. Section 26 of Part I of Chapter III of the Companies Act, 2013 ("the Act");

b. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended.

c. The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note")

The Restated Consolidated Financial Information has been compiled from:

Special Purpose Consolidated Interim Financial Statements of the Company as at and for the period ended June 30, 2026 and June 30, 2025 and Audited Consolidated Financial Statements of the Group as at and for the years ended March 31, 2026, March 31, 2025 and March 31, 2024, prepared in accordance with Indian Accounting Standards ("Ind AS") as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India.

These Restated Consolidated Financial Information have been prepared on a historical cost basis and on accrual basis, except for certain financial instruments such as financial assets and liabilities measured at fair value through profit and loss (FVTPL) instruments which have been measured at fair value.

The Restated Consolidated Financial Information are presented in Indian Rupees (Rs) and All values are rounded to the nearest millions, up to two places of decimal, unless otherwise indicated, except when otherwise indicated.

3. Presentation of Restated Consolidated Financial Information

The Group presents its Restated Consolidated Financial Information in compliance with the Division II of the Schedule III to the Companies Act, 2013.

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it is expected to be realized in, or is intended for sale or consumption in, the group's normal operating cycle or it is held primarily for the purpose of being traded or it is expected to be realized within 12 months after the reporting date or it is cash or cash equivalent unless it is restricted from being exchanged or expected to be used to settle a liability for at least 12 months after the reporting date. Current assets include the current portion of non-current assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it is expected to be settled in the group's normal operating cycle or it is held primarily for the purpose of being traded or it is due to be settled within 12 months after the reporting date or the group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

4. Basis of consolidation:

The Restated Consolidated Financial Information incorporate the Restated Standalone Information of the Holding Company and all its subsidiaries as at June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024 being the entities that it controls. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary. In the event of any change in one or more of the three elements of control, the Group reassess nature of control and stops consolidation if it concludes that the Group has lost the control over the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Restated Consolidated Financial Information from the date the Group gains control until the date the Group ceases to control the subsidiary. Restated Consolidated Financial Information are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the Restated Consolidated Financial Information for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's restated standalone financial information in preparing the Restated

Consolidated Financial Information to ensure conformity with the Group's accounting policies. No subsidiaries have followed different accounting policies than those followed by the Group for the preparation of these Restated Consolidated Financial Information.

Consolidation procedure:

a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the restated consolidated financial information at the acquisition date.

b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

c) Eliminate in full intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, are eliminated in full). Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction.

The Restated Standalone Financial Information of subsidiary incorporated outside India are converted on the following basis: (a) All income and expenses are converted at the average rate of exchange applicable for the period/year and (b) All assets and liabilities are translated at the closing rate as on the Balance Sheet date. The exchange difference arising out of year end translation is debited or credited as "Exchange differences on translating the Restated Financial Statements of a foreign operation" forming part of Other Comprehensive Income and accumulated as a separate component of Other Equity.

5. Material accounting policies

5.1 Financial Instruments

5.1.1 Date of recognition

Financial assets and financial liabilities are initially recognized on the trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument. This includes regular way trades purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace.

5.1.2 Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

5.1.3 Day 1 profit or loss

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the

transaction price and the fair value is deferred and is only recognized in profit or loss when the inputs become observable, or when the instrument is derecognized.

5.1.4 Measurement categories of financial instruments

a. Financial assets:

The Group classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Fair value through profit or loss [FVTPL]
- Amortised cost and Effective Interest method

The Group measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are initially measured at fair value and subsequently measured at FVTPL.

i) Amortized cost and Effective interest method

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

ii) Financial assets at fair value through profit or loss

Financial assets in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when the following criteria is met. Such designation is determined on an instrument-by-instrument basis:

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or recognising gains or losses on them on a different basis.

Financial assets at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit or loss including Variable Additional Return (VaR) from the funds.

In accordance with the principles under Ind AS 109 (Financial Instruments) and Ind AS 113 (Fair Value Measurement), the Variable Additional Return (VaR) arising from investments in Alternative Investment Funds (AIFs) or Partnership Interests is recognised through profit or loss as part of the net gain or loss from fair value changes. The recognition of VaR is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Group's policy. Subject to these terms, the VaR is estimated and recognised progressively over the remaining life of the fund, up to the expected date of the initial realisation.

b) Financial liabilities

Financial liabilities measured at amortised cost.

i) Debt securities and other borrowed funds

After initial measurement, other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

ii) Financial liabilities at fair value through profit or loss

Financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109.

Financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss. Interest incurred on financial liabilities designated at FVTPL is accrued in interest finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument.

iii) Financial liabilities and equity instruments

Financial instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of a Group after deducting all of its liabilities. Equity instruments issued by a Group are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

c. Reclassification of financial assets and financial liabilities

The Group does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Group acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified

d. Derecognition of financial assets and financial liabilities

i) Derecognition of financial assets due to substantial modification of terms and conditions

The Group derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

ii) Derecognition of financial assets (other than due to substantial modification of terms and conditions)

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is derecognized when the rights to receive cash flows from the financial asset have expired. The Group also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Group has transferred the financial asset if, and only if, either:

- The Group has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass–through' arrangement.

A transfer only qualifies for derecognition if either:

- The Group has transferred substantially all the risks and rewards of the asset; or
- The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Group considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

iii) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognized as new financial liability, would be recognized in profit or loss.

e. Impairment of financial assets

The Group records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with loan commitment and financial guarantee contracts, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However if receivables contain a significant financing component, the Group chooses as its accounting policy to measure the loss allowance by applying general approach to measure ECL.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring

since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default,(EAD) for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss (ECL) is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

If a financial instrument includes both a loan (i.e. financial asset) and an undrawn commitment (i.e. loan commitment) component and the Group cannot separately identify the ECL on the loan commitment component from those on the financial asset component, the ECL on the loan commitment have been recognized together with the loss allowance for the financial asset. To the extent that the combined expected credit losses exceed the gross carrying amount of the financial asset, the expected credit losses have been recognized as a provision. Also, for other loan commitments and all financial guarantee contracts, the loss allowance has been recognized as a provision.

f. Write off

Financial assets are written off either partially or in their entirety only when the Group has no reasonable expectation of recovery.

5.2 Determination of fair value

The Group measures financial instruments, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs

and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 financial instruments −Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

- Level 2 financial instruments−Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

- Level 3 financial instruments −Those that include one or more unobservable input that is significant to the measurement as whole. For assets and liabilities that are recognized in the Restated Consolidated Financial Information on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Group periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

In accordance with the principles under Ind AS 109 (Financial Instruments) and Ind AS 113 (Fair Value Measurement), the Variable Additional Return (VaR) arising from investments in Alternative Investment Funds (AIFs) or Partnership Interests is recognised through profit or loss as part of the net gain or loss from fair value changes. The recognition of VaR is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Group's policy. Subject to these terms, the VaR is estimated and recognised progressively over the remaining life of the fund, up to the expected date of the realisation.

Therefore, the Group applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Group evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

5.3 Revenue from contract with customer

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at transaction price i.e. the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Group consider the terms of the contract and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Group excludes the estimates of variable consideration that are constrained.

The Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115 - Revenue from contracts with customers:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation .

The Group recognises revenue from the following sources:

a. Revenue from fund management services is recognized over the tenure in accordance with the terms and conditions of the investment management agreement between the Group and the Fund for which the Group acts as a fund manager.

b. Fee income including advisory fees is accounted over the period as the customer simultaneously receives and consumes the benefits, as the services are rendered.

c. In accordance with the principles under Ind AS 109 (Financial Instruments) and Ind AS 113 (Fair Value Measurement), the Variable Additional Return (VaR) arising from investments in Alternative Investment Funds (AIFs) or Partnership Interests is recognised through profit or loss as part of the net gain or loss from fair value changes. The recognition of VaR is guided by the waterfall distribution mechanism specified in the respective fund documentation. Subject to these terms, the VaR is estimated and recognised progressively over the remaining life of the fund, up to the expected date of the realisation.

5.4 Income from alternative investment fund / Debt securities:

a. Revenue on account of distribution from alternate investment funds is recognised on the receipt of the distribution letter or when right to receive is established.

b. Interest income on financial assets measured at FVTPL is recognized on an receipt basis.

5.5 Selling and distribution expenses:

The Group pays Selling and distribution cost for fund raise in various Alternative Investment Fund (AIF) strategies comprising of upfront and trail payments as per their respective agreements.

The cost is amortised over the tenure of the fund. The unamortised selling and distribution expense is classified as prepaid expenses under other current assets and other non-current assets.

Trail payments of Selling and distribution which are not accrued and not due are considered as uncalled liability. The uncalled liabilities are disclosed under Contingent liabilities and commitments.

5.6 Leases (Ind AS 116)

Leases as a Lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Rights-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e. the date of underlying asset is available for use). Rights-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of rights-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Rights-of-use assets are amortised on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease Liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date as the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in lease term, a change in lease payments or a change in the assessment of an option to purchase the underlying asset.

Short term lease

The Group has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Group recognises lease payment associated with these leases as an expense.

5.7 Earnings per share

Basic earnings per share is computed by dividing the Profit for the year attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the Profit for the year attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

5.8 Foreign currency transactions

The Restated Consolidated Financial Information are presented in Indian Rupees which is also functional currency of the group. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated

Exchange differences on monetary items are recognized in profit or loss in the period in which they arise.

5.9 Retirement and other employee benefit

Provident fund and national pension scheme

The Group contributes to a recognized provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognized in the statement of profit and loss.

Gratuity

The Group's gratuity scheme is a defined benefit plan. The Group's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method. Benefits in respect of gratuity are funded with an Insurance company approved by Insurance Regulatory and Development Authority (IRDA).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the Restated Consolidated Statement of Assets and Liabilities with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to Restated Consolidated Statement of Profit and Loss in subsequent periods

Past service costs are recognised in Restated Consolidated Statement of Profit and Loss on the earlier of:

-The date of the plan amendment or curtailment, and

-The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of Restated Consolidated Statement of Profit and Loss:

-Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and

-Net interest expense or income

Compensated Absences

The eligible employees of the Group are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Group recognises the charge in the statement of Restated Consolidated Statement of Profit and Loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

5.10 Share-based payment arrangements

The ESOP grant by the Holding Company is fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group estimates the number of equity instruments expected to vest. The impact of the revision over the original estimates, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the 'ESOP reserve'. In cases where the share options granted vest in tranches over the vesting period, the Group treats each tranche as a separate grant, because of different vesting period and difference in, the fair value of each tranche.

Certain employees of the Group have been granted equity-settled Employee Stock Option Plans (ESOPs) by the ultimate holding company (Edelweiss Financial Services Limited) The Company and Group recognizes a cost with respect to the services received from the said employees measured by reference to the fair value of the equity instruments granted by the holding company and the ultimate parent at the grant date.

The fair value determined at the grant date is expensed over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in deemed capital contribution from the ultimate parent. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the deemed capital contribution. In cases where the share options granted vest in instalments over the vesting period, the Group treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each installment differs.

5.11 Property, plant and equipment

Property plant and equipment is stated at cost excluding the costs of day–to–day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognized in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognized in profit or loss as incurred.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Group has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation.

Estimated useful lives of the assets are as follows:

Nature of assets	**Estimated useful life**
Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years
Furniture & Fixtures	10 years
Motor vehicle	8 years

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognized as assets is derecognized at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss. The date of disposal of an item of

property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

5.12 Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors. Amortization methods and useful lives are reviewed periodically including at each financial year end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates.

Estimate useful life of software is considered as 3 years.

5.13 Impairment of non-current assets

The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Restated Consolidated Statement of Profit and Loss.. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

5.14 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

5.15 Provisions and other contingent liabilities

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Claims against the Group, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in the Restated Consolidated Financial Information since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognized.

5.16 Income tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

5.16.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

5.16.2 Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Restated Consolidated Financial Information and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognized with respect to carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognized to the extent it is probable that:

The group will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

5.16.3 Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

5.16.4 Goods and services tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

6 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in note 5, the management is required to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities, about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

6.1 Critical judgements in applying accounting policies

The following are the critical judgements, that the management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognized in the Restated Consolidated Financial Information.

a) Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how Group’s financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost that are derecognized prior to their maturity to understand the quantum, the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group’s continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

b) Consolidation of structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. In the context of the Group, structured entities comprises alternative investment funds / schemes thereof. The Group consolidates the structured entities that it controls. When making this judgement, the Group also considers voting and similar rights available to itself and other parties, who may limit the Group’s ability to control, including rights to appoint, reassign or remove members of the structured entity’s key management personnel who have the ability to direct the relevant activities, the exposure to variability of returns and whether the Group has the ability to use its power to affect the amount of the Group’s returns i.e. the variability of returns in relation to the total returns of the investee entity.

Basis the above, there are no such structured entities that meet the given criteria.

6.2 Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Group based its assumptions and estimates on parameters available when the Restated Consolidated Financial Information were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

- Fair value of financial instruments
  The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets including Variable Additional Return (VaR) from the funds. and financial liabilities recorded in the Restated Consolidated Statement of Assets and Liabilities cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

  In accordance with the principles under Ind AS 109 (Financial Instruments) and Ind AS 113 (Fair Value Measurement), the Variable Additional Return (VaR) arising from investments in Alternative Investment Funds (AIFs) or Partnership Interests is recognised through profit or loss as part of the net gain or loss from fair value changes. The recognition of VaR is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Group's policy. Subject to these terms, the VaR is estimated and recognised progressively over the remaining life of the fund, up to the expected date of the realisation.

- Impairment of financial assets

  The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.
  The Group's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

  • Probabilities of defaults (PDs) the calculation of which includes historical data, assumptions and expectations of future conditions.
  • The Group's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life-time expected credit loss model basis and the qualitative assessment
  • The segmentation of financial assets when their ECL is assessed on a collective basis
  • Development of ECL models, including the various formulas and the choice of inputs
  • Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, exposure at defaults and loss given defaults (LGDs)
  • Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

- It is Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary

6.3 New and Amended Standards:

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules, as issued from time to time. During the year ended March 31, 2026, MCA has notified amendments to Ind AS 1 – Presentation of Financial Statements, Ind AS 7 – Statement of Cash Flows, Ind AS 107 – Financial Instruments: Disclosures and Ind AS 12 – Income Taxes, relating to classification of liabilities, supplier finance arrangements and Pillar Two tax framework, applicable to the Company w.e.f. April 1, 2025. The Company has evaluated the impact of these amendments and based on its assessment, does not expect any material impact on its financial statements, other than as disclosed if applicable.

Annexure VI -Statement of Material Adjustments and Regroupings
(Currency: Indian rupees in million)

Statement of adjustments to Audited Consolidated Financial Statements
The accounting policies applied as at and for each of the period ended June 30, 2025, years ended March 31, 2026, March 31, 2025 and March 31, 2024 are consistent with those adopted in the preparation of financial statements for the period ended June 30, 2026.

Material Restatement Adjustments:
These Restated Consolidated Financial Information have been compiled from the Statutory Financial Statements and
(i) there were no material changes in accounting policies during the years of these financial statements;
(ii) there were no material amounts which have been adjusted for in arriving at profit/ loss of the respective years; and
(iii) there were no material adjustments (except as given in Part C) for reclassification of the corresponding items of income, expenses, assets and liabilities, in order to bring them in line with the groupings as per the Statutory Financial Statements and the requirements of the SEBI Regulations.

Part A - Reconciliation of total equity as per Audited Consolidated Financial Statements with total equity as per Restated Consolidated Financial Information

53 Share Based Payments: Employee Stock Option Plans :

EAAA India Alternatives Limited ("EAAA" hereafter), has recognised share based payment expenses based on fair value as on the grant date calculated as per option pricing model. The grants represent equity-settled options under the 'EAAA India Employee Stock Option Scheme 2024 (hereafter referred to as, "ESOP 2024" or "ESOPs").

The EAAA Group has granted ESOPs under the plan viz., ESOP 2024 to its employees on an equitysettled basis as tabulated below. The ESOPs provide a right to its holders (i.e., EAAA group employees) to purchase one EAAA share for each option at a pre-determined strike price on the expiry of the vesting period. The ESOP hence represents an European call option that provides a right but not an obligation to the employees of the EAAA group to exercise the option by paying the strike price at any time on completion of the vesting period, subject to an outer boundary on the exercise period.

EAAA has granted stock options to employees of the EAAA group on an equity-settled basis as tabulated below.

54 Capital management :

The primary objectives of the Group's capital management policy are to ensure that the Group complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Group manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board of respective Companies in the Group.

The Group is not subject to any regulatory capital requirements.

55 Fair Values of Financial Instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

Fair valuation Technique

(i) The equity instrument and mutual funds are traded on recognised stock exchange with readily available active prices on a regular basis. Such instruments are classified as level 1.

(ii) There is no active market for debt securities and pass through certificates; Group determines fair value of these securities using discounted cash flow models. Since valuation of debt securities and pass through certificates involves significant unobservable valuation inputs, fair value is classified at Level 3.

(iii) Units held in funds are measured based on net asset value (NAV), taking into account redemption and/or other restrictions. Such instruments are classified as level 3.

(iv) The Holding Company and one of its subsidiaries records Variable Additional Return (VaR) as per waterfall mechanisms defined in respective Limited Partnership Agreements (LPAs) / fund documents based on fund NAVs. Fund NAVs are determined in accordance with fair value of the underlying assets computed on marked to market basis and classified as level 3.

(ii) Currency risk

Currency risk is the risk that profitability of foreign subsidiary will fluctuate due to changes in foreign exchange rates.

The table below indicates the currencies to which the Group had significant exposure at the end of the reported period/years. The analysis calculates the effect of a reasonably possible movement of the currency rate against the INR (all other variables being constant) on the Restated Consolidated Statement of Profit and Loss (due to the fair value of currency sensitive non–trading monetary assets and liabilities) and equity (due to the change in fair value of currency swaps and forward foreign exchange contracts used as cash flow hedges).

62 Effective 1 April 2025, the Company's foreign subsidiary EAAA Pte. Limited (Formerly known as Edelweiss Alternative Asset Advisors Pte. Limited) reassessed the primary economic environment in which it operates. Over the years it has been noticed that most of the revenue and expense transactions have been in USD and going forward also management is of the opinion that the revenue and expenses majorly be in USD. Since the entity is based out of Singapore, for regulatory and statutory reporting purposes, the presentation currency is kept in SGD. Considering both these aspects functional currency of the entity changes from SGD to USD in accordance with Ind AS 21, this change has been applied prospectively from the date of change i.e., 1 April 2025.
On that date, assets and liabilities were translated at the spot exchange rate, and equity components were translated at their historical rates. The resulting difference arising on translation has been recognised in the Foreign Currency Translation Reserve (FCTR).
Subsequent foreign currency transactions are recognized in accordance with Ind AS 21 using USD as the functional currency.

Overview

We are one of the leading alternatives platforms in India, in terms of assets under management ("**AUM**") with more than 17 years of experience (*Source: CARE Report*) of managing long term patient capital with an AUM of ₹953,448.78 million, as of June 30, 2026. Our key business verticals include: (i) real assets ("**Real Assets**"), which invests in a mix of equity, quasi-equity and debt instruments and (ii) private credit ("**Private Credit**"), which primarily invests in debt or convertible debt instruments and secular instruments for superior risk adjusted returns. Our wholly owned subsidiary, Sekura India Management Limited ("**Sekura**"), is part of our — asset operating and management team and proficiently supports our various business verticals, including operations, maintenance, monitoring, efficiency improvement, and turnaround management. We are an experienced player, catering to a diverse client base of global and domestic institutional clients and manage India focused funds across our business verticals. As of June 30, 2026, our FPAUM totaled ₹486,231.76 million. Over last three financial years, our FPAUM grew at compounded annual growth rate ("**CAGR**") of approximately 23.43% to ₹447,104.42 million in Financial Year 2026. Most of our large funds are in or entering in their third and fourth series, and we have consistently been able to raise capital across the series, indicating our ability to generate sustainable performance, maintain client confidence, and adapt to market conditions. In the last three Financial Years and the three months period ended June 30, 2026, we raised capital commitment aggregating to ₹475,262.50 million, deployed investments aggregating to ₹382,293.99 million and realized investments aggregating to ₹312,329.40 million. Most of our funds also have a track record of delivering strong performance consistently across different market cycles. Such strong realizations of our funds ensured the return of realized portion of NAV back to clients, thereby establishing a track record of delivering strong performance. We have invested significant time and resources over the years in building a global, scalable, coverage platform for a diverse client base including institutional investors, ultra-high net worth individuals ("**UHNIs**"), high net worth individuals ("**HNIs**") and family offices. As of June 30, 2026, through the funds that we managed, we had 11,009 client relationships globally and in India, including 1,493 repeat clients (i.e., clients who have invested in more than one of our funds) and 8,800 clients added from April 1, 2023 to June 30, 2026. As of June 30, 2026, 77% of our AUM comprised of commitments made by our repeat clients, signifying the strength of our long-standing client relationships. This high percentage underscores the trust and confidence that our clients have in our platform and investment strategies, as well as our consistent ability to deliver performance and maintain client satisfaction over time. We have a diverse client base; approximately 49.32% of our AUM is contributed by institutional clients as of June 30, 2026, including pension funds, insurance companies, banks etc., while the remaining 50.68% is contributed by non-institutional clients (including UHNIs/HNIs and family offices, corporate and others etc.). Additionally, as of June 30, 2026, our client base extends to multiple geographies globally including India, North America and Europe. Our presence in

Mumbai, New Delhi, GIFT City and Singapore ensures on ground coverage through our chaperoning partners and relationship managers, covering North America, Europe, Middle East, Japan, Australia and South Korea. This also offers us flexibility to create solutions for both onshore and offshore clientele.

Significant Factors Affecting our Results of Operations

The results of our operations and our financial condition are significantly affected by a number of factors, many of which may be beyond our control, including our assets under management, revenue model, regulatory landscape and policies, personnel and operating costs and industry competition.

Growth and our performance of our assets under management

Our results of operations are materially affected by our AUM. Our ability to grow our revenues and income in our business verticals depends on our ability to attract new capital and clients and our ability to successfully invest our funds' capital. Good investment performance increases the attractiveness of our products with clients resulting in higher inflows and a consequent increase in our revenues. Hence, events adversely impacting such investment performance may adversely affect our business. Furthermore, we raise capital from multiple geographies and are subject to various factors that affect conducting business internationally. These factors include the economic and political conditions in these regions, which might also impact our business. While we continue to explore opportunities to expand our business through organic and inorganic modes, we cannot be certain that the growth witnessed by us in the past will be maintained in the future.

Our revenue model

We derive our Total Income primarily from three income streams: (i) Management and Advisory Fees; (ii) Variable Additional Return; (iii) GP Income; and (iv) Miscellaneous Income. A significant portion of Total Income comes from our Management and Advisory Fees. Management and Advisory Fee is the fee received for providing management and advisory services. Management and Advisory Fee is generally charged as a percentage of capital committed, capital invested, net asset value, gross block etc. Our Management and Advisory Fees stream is notably stable, largely stemming from multi-year contractual agreements.

Variable Additional Return is the additional variable return to the Company and its Subsidiaries once the fund has achieved the hurdle rate of return for its investors based on NAV and/or Realisation, shown as other operating revenues in Restated Consolidated Financial Information. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Company and its Subsidiaries' policies. Variable Additional Return is the additional return on sponsor or general partner commitment, which is dependent on the performance of our funds. Based on the guidance under the Ind AS and the current policy that we adopted for recognition of Variable Additional Return, Variable Additional Return is recognized in our books of accounts after a minimum of three years from its initial close date. It is also contingent upon the fund's performance achieving at least 1.25 times the hurdle rate specified in the respective fund documents at the time of recognition of Variable Additional Return. According to the waterfall mechanism specified in each fund document, and subject to the above conditions, Variable Additional Return is calculated and recognized over the remaining life of the respective funds up to the expected date of the first realisation and as per Company's policy.

GP Income refers to income on investments in funds or co-investing in portfolio companies, on the same terms as the primary fund. It is calculated as sum of Interest income on debt instruments/ Pass through certificates and Net Gain / (Loss) on fair value changes from investments in AIF/ Debt Instrument / Pass through certificate / equity forming part of other income in the Restated Consolidated Financial Information. General partner and/or sponsor investments reflect our alignment of interests with clients by using our capital in the funds or co-investing in portfolio companies, on the same terms as the primary fund. 'GP Income' represents the income on these investments.

**The financial details are in agreement with the Restated Consolidated Financial Information for the three months period ended June 30, 2026 and June 30, 2025 and the Financial Years 2026, 2025 and 2024.*

(1) Management and Advisory fee is the fee received for providing management and advisory services. Management and Advisory Fee is generally charged as a percentage of capital committed, capital invested, net asset value, gross block etc. as per respective governing documents.

(2) Variable Additional Return is the additional variable return to the Company and its Subsidiaries once the fund has achieved the hurdle rate of return for its investors based on NAV and/or Realisation, shown as other operating revenues in Restated Consolidated Financial Information. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation and as per Company and its Subsidiaries' policies.

(3) GP Income refers to income on investments in funds or co-investing in portfolio companies, on the same terms as the primary fund. It is calculated as sum of interest income on debt instruments/ pass through certificates and net gain / (loss) on fair value changes from investments in AIF/ debt instrument / pass through certificate / equity forming part of other income in the Restated Consolidated Financial Information.

(4) Miscellaneous Income is calculated as Other Income except interest income on debt instruments/pass through certificates and net gain/(loss) on fair value changes from investments in AIFs/ debt instruments/ pass through certificates/ equity in the Restated Consolidated Financial Information.

(5) Total Income as per Restated Consolidated Financial Information

We maintain a revenue stream through management and advisory fees by charging a percentage of either (i) capital commitments to our fund, (ii) capital drawn in our fund or (iii) the investments of our fund (iv) net asset value of the fund and (v) gross asset value for perpetual capital sub-verticals etc., ensuring a steady income stream regardless of market fluctuations. Changes to our fee structure, whether due to regulatory mandates or strategic business decisions, can have an adverse effect on our revenue streams. Reducing management and advisory fees to remain competitive can attract more clients initially but may lower the overall Total Income if not compensated by substantial increases in AUM.

We evaluate FPAUM growth as well as Management and Advisory Fees Yield to assess the overall performance and profitability of our business. Fee growth is primarily driven by an increase in FPAUM, along with the yield realised across various financial products. Accordingly, our Management and Advisory Fees gross yield has consistently remained within the range of 1.43% to 1.49% of FPAUM, from the Financial Year 2024 up to three months period ended June 30, 2026. This range has been mainly due to various products and fee associated with the same.

Given below is the FPAUM and Management and Advisory Fee and Management and Advisory Fees Yield for the period/ Financial Years:

	Three months period ended June 30#,		For the Financial Year# ended		
	2026	2025	2026	2025	2024

Notes:

#The financial details are derived from the Restated Consolidated Financial Information of the Company for the three months period ended June 30, 2026 and June 30, 2025 and financial years ended March 31, 2026, March 31, 2025 and March 31, 2024.

**Values are annualized for three months period ended June 30, 2026 and June 30, 2025.*

(1) FPAUM refers to the Assets Under Management on which we are entitled to earn Management and Advisory fees. It is based on capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(2) Management and Advisory fee is the fee received for providing management and advisory services. Management and Advisory Fee is generally charged as a percentage of capital committed, capital invested, net asset value, gross block etc as per respective governing documents.

(3) Management and Advisory Fees Yield is calculated as the Management and Advisory Fees divided by Average FPAUM.

(4) Average FPAUM is computed as the average of (a) FPAUM as at the last day of the preceding fiscal year and (b) FPAUM as at the last day of the relevant fiscal year. For the period ended June 30, 2026 and June 30, 2025, Average FPAUM is computed as the average of

(a) FPAUM as at the last day of the preceding fiscal year and (b) FPAUM as at the last day of the relevant period.

Similarly, raising performance thresholds for Variable Additional Return might align with investor interests, but can also limit the scenarios in which Variable Additional Return is earned, potentially decreasing this revenue source. Alternatively, introducing innovative fee models could open new revenue streams but might also involve significant restructuring costs. Any alterations to the fee structure need to be carefully balanced to sustain or enhance profitability.

Personnel and operating costs

We function in a highly competitive industry and accordingly, our ability to manage our expenses directly affects our business and results of operations. These expenses may be impacted by macroeconomic conditions including increases in inflation, changes in laws and regulations, increased competition and personnel expenses and other factors. Personnel related expenses constitute a significant proportion of our total expense. However, it can be difficult and expensive to attract and retain talented and experienced employees. In addition, we also strive to ensure effective utilisation of our human resources and may need to adjust to the dynamic business environment as we increase our scope of operations, activities across the board and expand into new business products. As we grow our business, we will require additional human resources including relationship managers, investment professionals and operational, management and technology staff. Changes affecting our expenses may impact our financial condition and results of operations. The table below indicates the personnel and operating costs for the period / financial years mentioned:

Regulatory landscape and policies

We operate in sectors that are regulated in India, and our activities are subject to supervision and regulation by multiple statutory and regulatory authorities, including SEBI. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency in the various regulations and policies. Such changes in government and regulatory policies affecting the financial services industry may require changes to our business operations, products and pricing, and technological processes and thus may involve additional costs and management time. While it may be possible that certain regulatory changes would be positive for some of our business operations, it may also so happen that such changes could adversely affect our financial condition and results of operations.

Additionally, we also have offshore funds managed by our subsidiary in Singapore, which functions as the investment manager for these funds. For such investments, we operate within frameworks that are governed by the regulatory environment in Singapore, which subjects our activities to oversight by various statutory and regulatory bodies.

Macroeconomic conditions in India and attractiveness of the alternative investments

Our business, financial condition, results of operations and prospects are significantly affected by general economic conditions and particularly macroeconomic conditions in India, where we conduct most of our business and generate substantial portion of our revenue. While our business tends to benefit from increased consumer confidence in the overall economy, adverse macroeconomic conditions in India may affect the investment performance of our schemes and products, reduce the demand for our schemes and products, increase redemptions in our schemes and otherwise adversely affect our business, financial condition and results of operations. Key macroeconomic factors that may affect the performance of our business include, among others, (i) overall economic growth parameters such as the general levels of GDP growth, (ii) economic development and shifting of wealth, (iii) political measures and regulatory developments, such as tax incentives and general political stability, and (iv) fiscal and monetary dynamics, such as volatility in interest rates, foreign exchange rates and inflation rates.

Furthermore, the attractiveness of alternative investments can fluctuate and is often influenced by market conditions, interest rates, and investor sentiment. If alternative investments were to become less attractive due to factors such as poor historical performance, liquidity issues, availability of favorable risk adjusted investment options for our funds or increased competition from traditional investments, our ability to attract and retain capital could be significantly affected.

Industry competition

The financial services industry is rapidly evolving and is intensely competitive. Our fee structure and our expenses depend on the competitive landscape in which we operate. We face significant competition from companies seeking to attract customers' financial assets, including traditional, other alternative investment management companies and larger financial institutions, and may face difficulty competing with alternative investment providers affiliated with diversified financial services groups. Increased competition may either result in a decrease in market share of our AUM or increase distribution and other acquisition costs, which could reduce our profits.

Significant Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with the Indian Accounting Standards ("**Ind AS**"). The notes to the financial statements contain a summary of our significant accounting policies. Set forth below is a summary of our most significant accounting policies under Ind AS.

Basis of Preparation

The Restated Consolidated Financial Information comprises of the Restated Consolidated Statement of Assets and Liabilities as at June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024, the Restated Consolidated Statements of Profit and Loss, the Restated Consolidated Statement of Changes in Equity, the Restated Consolidated Statement of Cash Flows for the period / financial years ended June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024, the Material Accounting Policies to Restated Consolidated Financial Information, Statement of Material Adjustments and Regrouping and Notes to Restated Consolidated Financial Information (collectively, the "**Restated Consolidated Financial Information**").

The Restated Consolidated Financial Information is prepared for the Group.

These Restated Consolidated Financial Information have been prepared by the Management as required under the SEBI ICDR Regulations issued by SEBI, in pursuance of the Securities and Exchange Board of India Act, 1992, for the purpose of inclusion in this Prospectus in connection with the proposed initial public offering of equity shares of face value of ₹5 each of the Holding Company comprising an offer for sale of equity shares held by the selling shareholders, prepared by the Holding Company in terms of the requirements of:

- Section 26 of Part I of Chapter III of the Companies Act, 2013;
- The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended;
- The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("**ICAI**") (the "**Guidance Note**")

The Restated Consolidated Financial Information has been compiled from:

Audited Consolidated Financial Statements of the Group as at and for the three months period ended June 30, 2026, June 30, 2025 and years ended March 31, 2026, March 31, 2025, and, March 31, 2024 prepared in accordance with Ind AS as prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India.

These Restated Consolidated Financial Information have been prepared on a historical cost basis and on accrual basis, except for certain financial instruments such as financial assets and liabilities measured at fair value through profit and loss ("**FVTPL**") instruments which have been measured at fair value.

The Restated Consolidated Financial Information are presented in Indian Rupees and all values are rounded to the nearest million, up to two decimal places, except when otherwise indicated.

Basis of consolidation

Our Restated Consolidated Financial Information incorporate the Restated Standalone Information of the Holding Company and all its subsidiaries as at March 31, 2026, March 31, 2025, and March 31, 2024 being the entities that it controls. Control is achieved when we are exposed, or have rights, to variable returns from our involvement with the investee and have the ability to affect those returns through our power over the investee. Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when we have less than a majority of the voting or similar rights of an investee, we consider all relevant facts and circumstances in accessing whether it has power over an investee, such as contractual arrangements with other vote holders of the investee, rights arising from other contractual arrangements, and our voting rights and potential voting rights, as well as the size of our holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders. Consolidation includes assets, liabilities, income, and expenses of subsidiaries from the date we gain control until the date we cease control, ensuring uniform accounting policies across all entities. If a group member uses different accounting policies, adjustments are made to ensure conformity with our policies.

Material accounting policies Financial Instruments

We initially recognise financial assets and financial liabilities on the trade date, which is the date we become a party to the contractual provisions of the instrument. This includes regular way trades, which are purchases or sales of financial assets requiring delivery within the time frame generally established by regulation or market convention. Financial assets and liabilities are initially measured at fair value. Transaction costs directly attributable to the acquisition or issue of financial assets and liabilities (other than those at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities upon initial recognition.

We classify our financial assets based on their business model for managing the assets and the asset's contractual cash flow characteristics, measured either at FVTPL or amortised cost. Debt financial assets that meet the criteria of being held within a business model aimed at collecting contractual cash flows, where contractual terms result in payments of principal and interest on specified dates, are measured at amortised cost. All other financial assets are initially and subsequently measured at FVTPL including Variable Additional Return from the funds.

In accordance with the principles under Ind AS 109 (Financial Instruments) and Ind AS 113 (Fair Value Measurement), the Variable Additional Return arising from investments in AIFs or partnership interests in recognised through profit or loss as part of the net gain or loss from fair value changes. The recognition of Variable Additional Return is guided by the waterfall distribution mechanism specified in the respective fund documentation as per Group's policy. Subject to these terms, the Variable Additional Return is estimated and recognised progressively over the remaining life of the fund, up to the expected date of the realisation. Financial liabilities are classified as either measured at amortised cost or FVTPL.

When the transaction price of a financial instrument differs from its fair value at origination and the fair value is based on observable market transactions, we recognise the difference in net gain on fair value changes. If the fair value is determined using models with unobservable inputs, the difference between the transaction price and fair value is deferred and only recognised in profit or loss when the inputs become observable, or the instrument is derecognised. We do not reclassify our financial assets after initial recognition except in exceptional circumstances, such as acquiring, disposing of, or terminating a business line. Financial liabilities are never reclassified.

We derecognise financial assets when the contractual rights to the cash flows expire or when the asset is transferred, and the transfer qualifies for derecognition. For financial liabilities, derecognition occurs when they are extinguished, i.e., when the obligation specified in the contract is discharged, cancelled, or expires. We use various valuation techniques to determine the fair value of financial instruments, maximising the use of relevant observable inputs and minimising unobservable inputs. The fair value hierarchy categorises these techniques into three levels; Level 1 includes unadjusted quoted prices in active markets, Level 2 involves inputs other than quoted prices that are observable, and Level 3 relies on unobservable inputs significant to the measurement's entirety.

Determination of fair value

We measure financial instruments at fair value at each balance sheet date. Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This presumption assumes the transaction to sell the asset or transfer the liability occurs either in the principal market for the asset or liability or, in its absence, the most advantageous market accessible to us. The valuation techniques employed are appropriate for the circumstances, making use of available relevant observable inputs and minimising the use of unobservable inputs.

Revenue from contract with customer

We measure revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) at the transaction price, which is the amount of consideration we expect to be entitled to in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. We consider the terms of the contract and our customary business practices to determine the transaction price. When the consideration promised is variable, we exclude the estimates of variable consideration that are constrained. Ind AS 115 Revenue from Contracts with Customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers. Our revenue sources include fund management services, which are recognised over the tenure according to the terms and conditions of the investment management agreement; advisory fees and similar fee income, which are accounted for over the period as the customer simultaneously receives and consumes the benefits as the services are rendered; revenue from the distribution from alternative investment funds, recognised upon receipt of the distribution letter or when the right to receive is established; and interest income on financial assets, recognised on an accrual basis through profit and loss.

Selling and distribution expenses

We incur selling and distribution costs for raising funds in various alternative investment fund strategies, consisting of upfront and trail payments in accordance with their respective agreements. These costs are amortised over the tenure of the fund, and any unamortised expenses are classified as prepaid expenses under other current and non-current assets. Trail payments for selling and distribution that are not accrued and not due are treated as uncalled liabilities and disclosed under contingent liabilities and commitments.

Leases (Ind AS 116)

We assess at contract inception whether a contract contains a lease, indicating control over the use of an identified asset for a period in exchange for consideration. We apply a single recognition and measurement approach for all leases, except for short-term leases and those of low value assets. At the lease commencement date, we recognise right-of-use assets at cost (less accumulated depreciation and impairment losses) and lease liabilities at the present value of lease payments to be made during the lease term. The cost of right-of-use assets includes initial direct costs, lease payments made before the commencement date and is adjusted for any lease incentives received. These assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful life. Lease liabilities reflect fixed payments and are recalculated if there are changes in lease terms, payments, or options to purchase the asset. For short-term property leases with terms of 12 months or less, we recognise lease payments as an expense on a straight-line basis over the lease term, without recognising corresponding right-of-use assets and lease liabilities.

Earnings per share

We compute basic earnings per share by dividing the profit for the year attributable to our equity shareholders for the year by the weighted average number of equity shares outstanding during that year. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. This is computed by dividing the profit for the year attributable to our equity shareholders for the year by the weighted average number of equity shares considered for basic earnings per share,

plus the weighted average number of additional equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Foreign currency transactions

We present our Restated Consolidated Financial Information in Indian Rupees which is our functional currency. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognized in profit or loss in the period in which they arise.

Retirement and other employee benefit

We contribute to a recognized provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognized in the statement of profit and loss.

Our gratuity scheme is a defined benefit plan. Our net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method. Benefits in respect of gratuity are funded with an insurance company approved by Insurance Regulatory and Development Authority ("**IRDA**").

Share-based payment arrangements

The ESOP grant by the Group is fair value determined at the grant date of the equity-settled share-based payments and is expensed over the vesting period based on the Group's estimate of equity instruments that will eventually vest with a corresponding increase in equity. At the end of each reporting period, the Group estimates the number of equity instruments that is expected to vest. The impact of the revision over the original estimates is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the "ESOP reserve". In cases where the share options granted vest in tranches over the vesting period, the Group treats each tranche as a separate grant because of the different vesting period and the difference in the fair value of each tranche.

Certain of our employees have been granted equity-settled employee stock ownership plans by Edelweiss Financial Services Limited. We recognize a cost with respect to the services received from the said employees measured by reference to the fair value of the equity instruments granted by the ultimate parent at the grant date.

Property, plant and equipment

We state property, plant, and equipment at cost, excluding the costs of day-to-day servicing, and less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by adjusting the amortisation period or methodology, treated as changes in accounting estimates. When subsequent costs on an item meet the recognition criteria, they are added to the carrying amount. Repairs and maintenance costs are recognised in profit or loss as incurred. Depreciation, calculated on a written down value basis, is recorded to allocate the cost (after deducting residual values) over the assets' useful lives. This starts when assets are ready for intended use or put to use and stops upon disposal. For assets sold, depreciation is provided up to the disposal date. We assess and adjust, if necessary, the residual values, useful lives, and methods of depreciation at each financial year-end. When an item of property, plant, and equipment is disposed of or retired, the difference between the sales proceeds and its carrying amount is recognised in profit or loss. The date of disposal is when control of the asset is transferred according to Ind AS 115.

Impairment of non-current assets

We assess at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, we estimate the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Restated Consolidated Statement of Profit and Loss. If at the balance

sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

Provisions and other contingent liabilities

We recognise provisions when we have a present obligation (legal or constructive) as a result of a past event, it is probable that we will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within our control. Claims against us, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Income tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

We measure current tax assets and liabilities for the current and prior years based on the amount expected to be recovered from or paid to the taxation authorities. The tax currently payable is determined based on taxable profit for the year, which differs from the 'profit before tax' reported in the statement of profit and loss due to items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. Our current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

We recognise deferred tax on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, while deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised. Deferred tax assets are also recognised in respect of the carry-forward of unused tax losses and unused tax credits, provided it is probable that future taxable profit will be available to utilise these losses and credits. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to recover the asset. Deferred tax liabilities and assets are measured using the tax rates and laws that are expected to apply in the period when the liability is settled, or the asset is realised.

We recognise current and deferred tax in profit or loss, except when they relate to items recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

We recognise expenses and assets net of goods and services tax or value added taxes paid, except when the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax paid is included as part of the cost of acquisition of the asset or as part of the expense item, as applicable. Additionally, receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in our balance sheet.

Critical Judgements in Applying Accounting Policies

In applying our accounting policies, we are required to make judgements, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities, as well as disclosures and contingent liabilities. These estimates and associated assumptions are based on historical experience and other relevant factors, though

actual results may differ from these estimates. We review judgements, estimates, and underlying assumptions on an ongoing basis, with revisions recognised in the period of revision if it affects only that period or in both the current and future periods if applicable.

Business model assessment

Classification and measurement of financial assets depends on the results of the Solely Payments of Principal and Interest ("**SPPI**") and the business model test. We determine the business model at a level that reflects how our financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. We monitor financial assets measured at amortised cost that are derecognized prior to their maturity to understand the quantum, the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of our continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

Consolidation of structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. In the context of our group, structured entities comprise alternative investment funds/schemes thereof. We consolidate the structured entities that it controls. When making this judgement, we also consider voting and similar rights available to itself and other parties, who may limit our ability to control, including rights to appoint, reassign or remove members of the structured entity's key management personnel who have the ability to direct the relevant activities, the exposure to variability of returns and whether we have the ability to use its power to affect the amount of our group's returns i.e. the variability of returns in relation to the total returns of the investee entity.

Changes in accounting policies and recent accounting pronouncements

There have been no material changes in our accounting policies during the Financial Years 2026, 2025 and 2024 and the three months period ended June 30, 2026.

**The financial details are in agreement with the Restated Consolidated Financial Information of the Company for the three months period ended June 30, 2026 and three months period ended June 30, 2025.*

Three months period ended June 30, 2026 compared to three months period ended June 30, 2025

Total Income

Our total income was ₹3,361.30 million for the three months period ended June 30, 2026, an increase by ₹1,244.81 million, or 58.81%, from ₹2,116.49 million for the three months period ended June 30, 2025.

Revenue from operations

Revenue from operations was ₹2,755.29 million for the three months period ended June 30, 2026, an increase of ₹847.22 million, or 44.40%, from ₹1,908.07 million for the three months period ended June 30, 2025.

Revenue from operations comprises of (i) management and advisory fees and (ii) other operating revenues which includes net gain/(loss) on fair value changes (Variable Additional Return). Management and advisory fees increased by 25.71% to ₹1,665.76 million for the three months period ended June 30, 2026 from ₹1,325.09 million for the three months period ended June 30, 2025. This increase is attributed to an increase in FPAUM by ₹104,659.59 million as at June 30, 2026 compared to June 30, 2025.

Net gain/(loss) on fair value changes (Variable Additional Return) increased by 86.89% to ₹1,089.53 million for the three months period ended June 30, 2026 from ₹582.98 million for the three months period ended June 30, 2025. This increase is primarily attributed to additional qualifying funds for recognition of Variable Additional Return.

Other income

Other income increased by 190.76% to ₹606.01 million for the three months period ended June 30, 2026 from ₹208.42 million for the three months period ended June 30, 2025, primarily attributable to an increase in net gain/(loss) on fair value changes from investments in Alternative Investment Fund (AIFs), Debt Instruments, Pass through certificates and Equity to ₹539.58 million for the three months period ended June 30, 2026 from ₹88.93 million for the three months period ended June 30, 2025. This was partially offset by a decrease in interest income on debt instruments and pass through certificates to ₹12.71 million for the three months period ended June 30, 2026 from ₹74.76 million for the three months period ended June 30, 2025.

Total Expenses

Total expenses increased by 71.83% to ₹2,303.32 million for the three months period ended June 30, 2026 from ₹1,340.43 million for the three months period ended June 30, 2025, due to increases in our employee benefit expenses, other expenses and depreciation and amortisation, partially offset by a decrease in finance costs. The details of increase/decrease of each of them, and the reasons for such increase/decrease are set out below:

Financial Year 2026 compared to Financial Year 2025

Total Income

Our total income was ₹9,637.59 million for the Financial Year 2026, an increase by ₹1,772.16 million, or 22.53%, from ₹7,865.43 million for the Financial Year 2025.

Revenue from operations

Revenue from operations was ₹8,695.40 million for Financial Year 2026, an increase of ₹1,992.81 million, or 29.73%, from ₹6,702.59 million for Financial Year 2025.

Revenue from operations comprises of (i) management and advisory fees and (ii) other operating revenues which includes net gain/(loss) on fair value changes (Variable Additional Return). Management and advisory fees increased by 20.76% to ₹5,790.68 million for the Financial Year 2026 from ₹4,795.30 million for the Financial Year 2025. This increase is attributed to an increase in FPAUM by ₹108,771.64 million in 2026.

Net gain/(loss) on fair value changes (Variable Additional Return) increased by 52.30% to ₹2,904.72 million for the Financial Year 2026 from ₹1,907.29 million for the Financial Year 2025. This increase is attributed to additional qualifying funds for recognition of Variable Additional Return.

Other income

Other income decreased by 18.98% to ₹942.19 million for the Financial Year 2026 from ₹1,162.84 million for the Financial Year 2025, primarily attributable to a decrease in interest income on debt instruments and pass through certificates to ₹197.05 million for Financial Year 2026 from ₹531.51 million for Financial Year 2025. This was partially offset by an increase in net gain/(loss) on fair value changes from investments in Alternative Investment Fund (AIFs), Debt Instruments, Pass through certificates and Equity to ₹602.50 million for the Financial Year 2026 from ₹489.87 million for the Financial Year 2025.

Total Expenses

Total expenses increased by 22.50% to ₹6,152.43 million for the Financial Year 2026 from ₹5,022.36 million for the Financial Year 2025, due to increases in our employee benefit expenses, finance costs, depreciation and amortisation and other expenses. The details of increase/decrease of each of them, and the reasons for such increase/decrease are set out below:

Finance costs

Finance costs increased by 13.92% to ₹559.58 million for Financial Year 2026, from ₹491.19 million for Financial Year 2025, primarily attributable to (i) an increase in interest on non-convertible debentures to ₹377.11 million for Financial Year 2026 from ₹203.71 million for Financial Year 2025, partially offset by (ii) a decrease in interest on loan from financial institution to ₹38.14 million for Financial Year 2026 from ₹107.31 million for Financial Year 2025, and (iii) a decrease in interest on working capital facility to ₹65.81 million for Financial Year 2026 from ₹95.01 million for Financial Year 2025. Our borrowings (other than debt securities) and debt securities decreased to ₹4,410.27 million as at March 31, 2026, compared to ₹5,074.90 million as at March 31, 2025.

Employee Benefits Expense

Employee benefits expense increased by 26.33% to ₹3,816.46 million for the Financial Year 2026 from ₹3,021.13 million for the Financial Year 2025. This increase was primarily attributable to (i) an increase in fixed salaries and other allowances to ₹1,889.52 million for the Financial Year 2026, up from ₹1,701.91 million for the Financial Year 2025, driven by salary increments for the financial year driven by an increase in the number of employees to 273 as at March 31, 2026, from 264 as at March 31, 2025, and (ii) an increase in Variable Additional Return related costs to ₹1,610.87 million for the Financial Year 2026 from ₹1,311.31 million for the Financial Year 2025.

Depreciation and Amortisation

Depreciation and amortisation increased by 15.87% to ₹130.15 million for Financial Year 2026, from ₹112.32 million for Financial Year 2025. This increase was primarily attributable to (i) an increase in amortisation of right-of-use assets, which grew by ₹13.67 million to ₹83.38 million during Financial Year 2026 from ₹69.71 million during Financial Year 2025, resulting from the addition of office space on a leasehold basis, and (ii) amortisation of asset management rights of ₹33.23 million during Financial Year 2026, compared to ₹31.86 million during Financial Year 2025.

Other Expenses

Other expenses increased by 18.12% to ₹1,645.50 million for the Financial Year 2026, from ₹1,393.07 million for the Financial Year 2025. This increase is primarily due to (i) an increase in selling and distribution expenses to ₹929.79 million for the Financial Year 2026, up from ₹705.89 million for the Financial Year 2025, driven by incremental fund-raising activities in the Financial Year 2026, and (ii) an increase in other expenses (other than selling and distribution expenses) to ₹715.71 million for the Financial Year 2026, from ₹687.18 million for the Financial Year 2025.

Exceptional items

An exceptional item of ₹98.80 million was recognised during the Financial Year 2026 on account of the statutory impact of the new labour laws based on certain actuarial valuation and management estimates.

Profit before tax

As a result of the foregoing, our profit before tax was ₹3,386.36 million for Financial Year 2026, an increase of ₹543.29 million, or 19.11%, from ₹2,843.07 million for Financial Year 2025.

Tax expense

Total tax expense increased to ₹734.39 million for the Financial Year 2026 from ₹545.28 million for the Financial Year 2025. For the Financial Year 2026, we incurred current tax of ₹45.78 million and a deferred tax of ₹694.99 million (net of short/(excess) tax for earlier years of ₹(6.38) million). For the Financial Year 2025, we incurred current tax of ₹14.01 million and a deferred tax of ₹536.52 million and short/(excess) tax for earlier years of ₹(5.25) million.

Profit for the year

As a result of the foregoing, our profit for the year was ₹2,651.97 million for Financial Year 2026, an increase of ₹354.18 million, or 15.41%, from ₹2,297.79 million for Financial Year 2025.

Other comprehensive income

Other comprehensive income was ₹261.43 million for Financial Year 2026, an increase of ₹194.36 million from ₹67.07 million for Financial Year 2025. This increase was primarily due to exchange differences in translating the financial statements of a foreign subsidiary, which increased to ₹265.07 million for Financial Year 2026 from ₹67.04 million for Financial Year 2025.

Total comprehensive income

As a result of the foregoing, our total comprehensive income was ₹2,913.40 million for Financial Year 2026, an increase of ₹548.54 million, or 23.20%, from ₹2,364.86 million for Financial Year 2025.

Financial Year 2025 compared to Financial Year 2024

Total Income

Our total income was ₹7,865.43 million for the Financial Year 2025, an increase by ₹2,022.91 million, or 34.62%, from ₹5,842.52 million for the Financial Year 2024.

Revenue from operations

Revenue from operations which was ₹6,702.59 million for Financial Year 2025, an increase of ₹1,776.80 million, or 36.07%, from ₹ 4,925.79 million for Financial Year 2024.

Revenue from operations comprises of (i) management and advisory fees and (ii) other operating revenues which includes net gain/(loss) on fair value changes (Variable Additional Return). Management and advisory fees increased by 20.48% to ₹4,795.30 million for the Financial Year 2025 from ₹3,980.13 million for the Financial Year 2024. This increase is attributed to an increase in FPAUM by ₹34,352.65 million in 2025.

Net gain/(loss) on fair value changes (Variable Additional Return) increased by 101.69% to ₹1,907.29 million for the Financial Year 2025 from ₹945.66 million for the Financial Year 2024. This increase is attributed to additional qualifying funds for recognition of Variable Additional Return.

Other income

Other income increased by 26.85% to ₹1,162.84 million for the Financial Year 2025 from ₹916.73 million for the Financial Year 2024, primarily attributable to an increases in interest income on debt instruments and pass through certificates to ₹531.51 million for Financial Year 2025 from ₹206.68 million for Financial Year 2024.

Total Expenses

Total expenses increased by 35.17% to ₹5,022.36 million for the Financial Year 2025 from ₹3,715.62 million for the Financial Year 2024, due to increases in our employee benefit expenses, finance costs, depreciation and amortisation, impairment on financial instrument and other expenses. The details of increase/decrease of each of them, and the reasons for such increase/decrease are set out below:

Finance costs

Finance costs increased by 34.64% to ₹491.19 million for Financial Year 2025, from ₹364.83 million for Financial Year 2024, primarily attributable to (i) an increase in interest on loan from financial institution to ₹107.31 million for Financial Year 2025 from ₹29.72 million for Financial Year 2024, and (ii) an increase in interest on working capital facility to ₹95.01 million for Financial Year 2025 from ₹54.30 million for Financial Year 2024. These increases were driven by an increase in our borrowings (other than debt securities) and debt securities to ₹5,074.90 million in Financial Year 2025, compared to ₹4,448.29 million in Financial Year 2024, to support our investment and working capital requirements.

Employee Benefits Expense

Employee benefits expense increased by 39.40% to ₹3,021.13 million for the Financial Year 2025 from ₹2,167.20 million for the Financial Year 2024. This increase was primarily attributable to (i) an increase in fixed salaries and other allowances to ₹1,709.91 million for the Financial Year 2025, up from ₹1,318.46 million for the Financial Year 2024, driven by an increase in the number of employees to 264 as at March 31, 2025, from 233 as at March 31, 2024, as well as salary increments for the financial year, and (ii) an increase in Variable Additional Return related costs to ₹1,311.31 million for the Financial Year 2025 from ₹841.62 million for the Financial Year 2024.

Depreciation and Amortisation

Depreciation and amortisation increased by 109.87% to ₹112.32 million for Financial Year 2025, from ₹53.52 million for Financial Year 2024. This increase was primarily attributable to an increase in amortisation of right-of-use assets, which grew by ₹29.09 million to ₹69.71 million during Financial Year 2025 from ₹40.62 million during Financial Year 2024. The increase predominantly resulted from the addition of office space on a leasehold basis. An increase in amortisation of asset management rights by ₹31.86 million which were acquired during Financial Year 2025.

Other Expenses

Other expenses increased by 23.27% to ₹1,393.07 million for the Financial Year 2025, from ₹1,130.07 million for the Financial Year 2024. This increase is primarily due to (i) an increase in selling and distribution expenses to ₹705.89 million for the Financial Year 2025, up from ₹513.32 million for the Financial Year 2024, driven by incremental fund-raising activities in the Financial Year 2025, and (ii) an increase in other expenses (other than selling and distribution expenses) to ₹687.18 million for the Financial Year 2025, from ₹616.75 million for the Financial Year 2024.

Profit before tax

As a result of the foregoing, our profit before tax was ₹2,843.07 million for Financial Year 2025, an increase of ₹716.17 million, or 33.67%, from ₹2,126.90 million for Financial Year 2024.

Tax expense

Total tax expense increased to ₹545.28 million for the Financial Year 2025 from ₹375.30 million for the Financial Year 2024. For the Financial Year 2025, we incurred current tax of ₹14.01 million and a deferred tax of ₹536.52 million. For the Financial Year 2024, we incurred current tax of ₹9.18 million and a deferred tax charge of ₹503.15 million.

Profit for the year

As a result of the foregoing, our profit for the year was ₹2,297.79 million for Financial Year 2025, an increase of ₹546.19 million, or 31.18%, from ₹1,751.60 million for Financial Year 2024.

Other comprehensive income

Other comprehensive income was ₹67.07 million for Financial Year 2025, an increase of ₹82.80 million from ₹(15.73) million for Financial Year 2024. This increase was primarily due to exchange differences in translating the financial statements of a foreign subsidiary.

Total comprehensive income

As a result of the foregoing, our total comprehensive income was ₹2,364.86 million for Financial Year 2025, an increase of ₹628.99 million, or 36.23%, from ₹1,735.87 million for Financial Year 2024.

Certain Non-GAAP Measures

In evaluating our business, we consider and use certain non-GAAP financial measures that are presented below as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the Restated Consolidated

Financial Information. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance. These non-GAAP financial measures are not defined under Ind AS and are not presented in accordance with Ind AS. The non-GAAP financial measures have limitations as analytical tools. Further, these non-GAAP financial measures may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these matrices should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation.

Quantitative and Qualitative Analysis of Market Risks

We are exposed to various types of market risks during the normal course of business. Our performance is subject to the general economic conditions in India, the performance of the corporate sector and the financial markets. Our business is impacted by the performance of the funds that we manage. The performance of our business verticals is subject to predominantly, three types of risks, currency risk, interest rate risk and equity price risk.

Exchange Rate Risk

We hold investments that are denominated in currencies other than Indian Rupee, that may be affected by movements in the rate of exchange between the Indian Rupee and with U.S. dollar. For details, see note 56 (c) (ii) of the "*Annexure VII - Notes to the Restated Consolidated Financial Information (Continued)*".

Interest Rate Risk

The performance of our Private Credit is sensitive to interest rate risk or the impact on the value of investments due to movement of interest rates in the economy. The movement of interest rates depends on several factors such as global and local economic conditions, inflation, fiscal and current account deficit, and other factors beyond our control. Interest rate fluctuations can have an adverse impact on the valuation of fixed income investments held by our schemes and consequently on the performance of our schemes. Any adverse impact of interest rate fluctuations can have a negative impact on both our AUM and revenues. The interest rate sensitivity of our Private Credit verticals varies across and is a function of their average maturity or duration. Additionally, the investment of our own surplus funds in fixed income schemes or securities is also subject to adverse interest rate fluctuations.

Credit Risk

Credit risk or default risk is the inability of a borrower to meet its principal and interest payments as per its obligations. The underlying investments in our Private Credit schemes carry varying degrees of credit risk. Any deterioration in the credit profile of our fixed income investments or a credit event can have an adverse impact on the performance of our schemes and in turn on our AUM and revenues.

Seasonality

Our business is not subject to seasonal variations.

Known Trends or Uncertainties

Other than as described in this section and the section titled "***Risk Factors***" on page 20 of this Prospectus, to our knowledge there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on our revenues or income from continuing operations.

Related Party Transactions

We have engaged in the past, and may engage in the future, in transactions with related parties. For details of our related party transactions, see note 48 of the "Annexure VII - Notes to the Restated Consolidated Financial Information (Continued)".

New Product or Business Segments

Other than as described in this Prospectus, there are no new products or business segments in which we operate.

Dependence on Customers

We have a wide customer base and do not depend on any particular customer.

Significant Developments Occurring after June 30, 2026

There are no circumstances that have arisen since the date of our Restated Consolidated Financial Information as disclosed in this Prospectus, which materially and adversely affect or are likely to affect our operations or profitability, or the value of our assets or our ability to pay our material liabilities within the next twelve months.

The secured lenders of the Company as on the date of this Prospectus are Axis Bank Limited, Federal Bank Limited, ICICI Bank Limited, IndusInd Bank Limited, Poonawalla Fincorp Limited and debenture holders.

Key terms of the borrowings availed by our Company:

Tenor: The tenor of borrowing facilities availed by our Company ranges from 12 months to 36 months. These facilities are either for working capital requirements, towards investments and other general corporate purposes.

Interest: The applicable rate of interest for the secured borrowing facilities availed by our Company typically ranges from 9.00% to 11.00% per annum which is linked and subject to changes in interest rate benchmarks such as marginal cost of fund-based lending rate ("**MCLR**"), over a specific period of time and spread per annum or on a monthly basis, which is reset at periodic intervals, and are generally as may be mutually agreed between the relevant lenders and our Company as applicable.

Our Company has also issued NCDs to various subscribers, for which our Company has entered into debenture trust deeds and in terms of the facility, a specified coupon is to be paid per annum. The coupon rate and the interest for the NCD facility issued by our Company is as per the standard terms contained in the respective placement memorandum of the subscribers.

Security: The secured facilities availed by our Company are secured by way of a first charge on current assets of the Company (excluding the assets which are exclusively charged to other lenders), AIF/ Mutual Fund units or NCDs, and the escrow account where fees receivables are deposited. The nature of the securities described is indicative and there may be additional requirements for creation of security under various borrowing arrangements entered into by our Company, including but not limited to a minimum cover over the secured assets.

Prepayment: Facilities availed by our Company typically have pre-payment provisions which allow for pre-payment of the outstanding loan amount, by serving a prior written notice to the relevant lender or on receiving prior approval from the relevant lender, and in certain case, subject to such pre-payment penalties which typically ranges up to 2.00% of the prepaid amount or as may be decided mutually at the time of such prepayment, or as

set out in the facility agreements.

Repayment: The borrowings of our Company are typically repayable on demand, at the end of the tenor of an individual tranche, or on their respective due dates within the maximum tenure. Our borrowings are generally repayable in quarterly or half-yearly instalments as per the repayment schedule stipulated in the relevant borrowing documentation.

Restrictive covenants: Borrowing arrangements entered into by our Company typically contain various restrictive conditions and covenants mandating either the prior written consent and/or an intimation to our lenders in respect of certain corporate actions that may be undertaken by our Company. An indicative list of such covenants is set forth below.

(a) change in the capital structure of our Company;

(b) change in the shareholding pattern, ownership and control of our Company, however not resulting in the change in shareholding of the Edelweiss group beyond a certain percentage;

(c) amendments to the constitution documents of our Company, including memorandum of association and articles of association; and

(d) changes in the management/ operating structure or composition of the board of directors of our Company.

Events of Default: In terms of the borrowing arrangements entered into by our Company, the occurrence of any of the following, *inter alia*, constitutes an event of default:

(a) non-payment or default in payment of principal and/or interest due on the loan obligations;

(b) non compliance and/or breach of any terms and conditions of the borrowing documentation, including financial, non – financial and reporting covenants;

(c) entering into an arrangement or composition with its creditors or commission of an act of bankruptcy or filing of an application in relation to insolvency or bankruptcy or filing of an application for winding up by any person or if any such order is made;

(d) occurrence or existence of such events or circumstances, which in the opinion of the lender, could have a material adverse effect;

(e) change in control of our Company;

(f) litigation likely to have an adverse effect;

(g) change in the purpose of utilization of credit facilities other than for the purposes for which they were sanctioned;

(h) cessation of business operations temporarily or permanently; and

(i) any other events, conditions or circumstances, which in the opinion of the lender would or is likely to prejudicially or adversely affect in any manner the capacity of our Company to repay the loan.

Consequences of events of default: In terms of the borrowing arrangements of our Company, the following, inter alia, are the consequences of occurrence of events of default, including:

(a) declare all sums outstanding as immediately due and payable;

(b) appointment of nominee directors on the Board;

(c) acceleration of the NCDs, whereupon all the NCDs obligations shall be paid and the NCDs shall be redeemed, immediately upon such acceleration;

(d) initiation of any action or proceedings by the debenture trustee;

(e) termination/ cancellation of the sanctioned facilities;

(f) application of any amount re-paid to the lender towards settlement and discharge of liabilities;

(g) levying of an additional or penal interest rate;

(h) termination of the lender's obligations; and

(i) enforce any other remedy that the lender may have under applicable law.

This is an indicative list and there may be additional terms that may require the consent of the relevant lender, the breach of which may amount to an event of default under various borrowing arrangements entered into by our Company with its respective lenders, and the same may lead to consequences other than those stated above. For further details of financial and other covenants required to be complied with in relation to our borrowings, see "***Risk Factors - We have, from time to time, availed certain secured and unsecured borrowings. If we are unable to comply with repayment and other covenants in our financing agreements, our business, financial condition, cash flows and credit rating could be adversely affected.***" on page 55.

I. Litigation involving our Company

(a) Criminal proceedings against our Company

(i) Ecstasy Realty Private Limited ("**Ecstasy**") had filed a complaint before the Economic Offences Wing ("**EOW**") of the Mumbai Police Department on December 26, 2023 and subsequently, a first information report dated February 8, 2025 (FIR No. 0154 of 2025) was registered at Amboli Police Station, Mumbai, under various sections of the Indian Penal Code, 1860, against (i) our Company, (ii) two of our Promoters, EFSL and EFCL, (iii) certain of our Group Companies and (iv) others including certain directors and key managerial personnel of the companies (collectively "**Accused**") alleging inter-alia, breach of contractual obligations resulting in financial loss to Ecstasy. A petition bearing number WP 2165/2025 dated April 4, 2025 has been filed by our Company and others before the Hon'ble Bombay High Court seeking quashing of the aforesaid first information report dated February 8, 2025. Additionally, the EOW has concluded their investigation and filed a closure report before the Chief Judicial Magistrate, Esplanade, Mumbai. The matter is currently pending. Additionally, a company petition bearing number CP 220/2026 dated July 20, 2026 has been filed by Shobhit Jagdish Rajan (erstwhile director of Ecstasy) before NCLT, Mumbai *inter alia* seeking investigation into affairs of Accused and others, by an inspector or inspectors appointed by the Central Government, under Section 213(b) read with Section 212 of Companies Act, 2013 which is currently pending.

(b) Criminal proceedings by our Company

(c) Actions by statutory and regulatory authorities involving our Company

(i) A thematic inspection was conducted by the SEBI under Regulation 30 of SEBI AIF Regulations in respect of certain funds managed by our Company, pursuant to which SEBI issued an inspection report dated March 18, 2025 ("**Inspection Report**"). The Inspection Report made observations regarding certain provisions of the SEBI AIF Regulations inter alia inadequate disclosures related to potential conflict of interests (including implementation of the relevant policies) for the funds and inaccurate disclosure in the annual compliance test reports. Our Company submitted its detailed written response to SEBI on April 16, 2025, and has thereafter provided additional clarifications and supporting submissions as sought. The matter has since remained pending SEBI's further action. Without admission of any observation or conclusion in the inspection report, our Company has filed a settlement application dated December 2, 2025 under the SEBI (Settlement Proceedings) Regulations, 2018, which is currently pending before SEBI. SEBI had by way of an email dated June 11, 2026, and subsequent communications, directed the relevant fund, along with one of our Promoter, ESIPL, in its capacity as sponsor of the relevant fund, and certain key managerial personnel of the relevant fund, to file their respective settlement applications with SEBI, pursuant to which, the relevant fund and ESIPL (in its capacity as the sponsor of the relevant fund) have also filed separate settlement applications both dated July 6, 2026, which are also currently pending. Our Company has also by way of an email dated July 6, 2026, submitted to SEBI for dispensation for filing separate settlement applications by such key managerial personnel on the grounds that, *inter alia*, they have only acted in their official capacities. Thereafter, pursuant to the inspection and based on the findings thereof, SEBI has issued administrative warnings dated July 16, 2026, to certain funds, our Company (in its capacity as the investment manager), one of our Promoters,

ESIPL (in its capacity as the sponsor of the relevant fund), and key managerial personnel of certain funds, with respect to certain observations relating to *inter alia* (i) non-adherence to investment processes; (ii) non-adherence to investor disclosure requirements; and (iii) inadequacies in policy implementation.

(f) Material tax litigation involving our Company

(i) A show cause notice dated March 6, 2026 was issued by the Assessing Officer proposing disallowance of fund-raising/distribution expenses incurred in relation to various AIFs managed by our Company amounting to ₹1,542.37 million claimed as deduction under section 37(1) of the erstwhile Income-tax Act, 1961 ("**IT Act**") for the assessment year 2023-2024. A draft assessment order dated March 23, 2026 ("**Draft Assessment Order**") was passed incorporating such disallowances. Our Company, by letter dated April 21, 2026, intimated the Assessing Officer that it was not opting to file objections before the Dispute Resolution Panel. Consequently, the Assessment Unit, Income-tax Department passed a final assessment order dated May 7, 2026 ("**Assessment Order**") under section 143(3) read with section 144C(3) read with section 144B of the IT Act, confirming the variations proposed in the Draft Assessment Order. The disallowances/additions are *inter alia* in relation to (a) disallowance of fund-raising/distribution expenses amounting to ₹1,542.37 million on the ground that the expenditure results in an enduring advantage and relates to the capital field of the business; and (b) transfer pricing adjustment of ₹ 92.64 million on account of provision of non-binding sub-advisory services to its associated enterprise. A notice of demand under section 156 of the IT Act has been issued and the tax demand under the Assessment Order on our Company is for ₹ 343.67 million. The Assessing Officer has also initiated penalty proceedings under section 270A of the IT Act on account of under-reporting of income. Our Company has filed an appeal before the National Faceless Appeal Centre on June 3, 2026 against the Assessment Order on the grounds that the findings in the Assessment Order are erroneous and unlawful. A rectification application under section 154 of the IT Act has also been filed on June 5, 2026 in respect of certain errors apparent from the record in the computation sheet annexed to the Assessment Order, including erroneous double addition of income from capital gains and income from other sources, non-grant of set-off of brought-forward business losses and capital losses, and incorrect computation of interest under section 234B of the IT Act. The matter is currently pending.

(a) Criminal proceedings against our Directors

(i) S & D Financials Private Limited ("**SDFL**"), a client of Nuvama Wealth Management Limited ("**NWML**") filed an application under Section 156(3) of the CrPC pursuant to which a first information report ("**FIR**") bearing FIR number 142/2008 dated March 22, 2008 was registered at the Hare Street Police Station, Calcutta under various sections of IPC against NWML and one of our Directors, namely, Rashesh Chandrakant Shah. In the FIR, SDFL has, among others, alleged that Rashesh Chandrakant Shah and others were involved in unauthorised trading, criminal breach of trust and cheating SDFL in future and options transactions amounting to ₹ 8.48 million. Pursuant to a letter dated September 8, 2008, NWML has denied all allegations against it and its directors and, among others, stated that there are arbitration proceedings bearing application number 379 of 2009 initiated by NWML against SDFL before the High Court of Calcutta for non-payment of monies. In May 2009, the arbitral tribunal passed an award in favor of NWML. SDFL thereafter challenged the award under Section 34 of the Arbitration and Conciliation Act, 1996 which was subsequently dismissed by way of an order dated July 18, 2022. The matter is currently pending.

(ii) ECL Finance Limited, Rashesh Chandrakant Shah and certain other employees of ECL Finance Limited ("**Accused**") are in receipt of a complaint bearing FIR number 0497 filed in Lucknow under sections 406 and 420 of IPC filed by Amir Ahmad ("**Complainant**"). The Complainant has alleged that ECL Finance Limited arbitrarily liquidated the Complainant's 4,383 equity shares of HDFC Bank Limited, pledged with ECL Finance Limited as security for repayment of an employee stock option plan loan facility amounting to ₹ 5.74 million and unsecured loan facility aggregating to ₹ 2.35 million availed by the Complainant. ECL Finance Limited has, by a letter dated January 12, 2021 replied to the said notice along with relevant documents denying the allegations made by the Complainant. Further, the Accused have filed their reply by way of a letter dated February 2, 2021. The matter is currently pending.

(iii) Gaurav Choudhary ("**Complainant**") filed an application bearing CNR number HRGR030324032024 under Section 156(3) of the CrPC ("**Complaint**") alleging threat or dire consequences and assault by the recovery agents of Edelweiss Asset Management Limited, acting on the instructions of certain of its managers and directors that the loan taken by the father of the Complainant was not repaid. The Complainant has made, inter alia, all the directors, promoters of Edelweiss Asset Reconstruction Company Limited and our Director, Rashesh Chandrakant Shah, as party to the Complaint. The relevant judicial authorities ("**Court**"), after hearing arguments and reviewing the Complaint, medical record, and police report, observed that the Complaint was motivated as a response to the pending loan liability. After the police report, the Court declined the request for registration of a first information report, by way of its order dated July 7, 2025 ("**Order**"), and directed the Complainant to produce preliminary evidence independently. A criminal revision petition bearing number CRR 512/2026 was filed under Section 438 of the Bharatiya Nagarik Suraksha Sanhita, 2023 challenging the Order wherein the chairman and directors of Edelweiss Asset Reconstruction Company Limited which include one of our Directors, Rashesh Chandrakant Shah, have been arrayed as respondents in the revision petition. The matter is currently pending.

Further, EFSL and Income Tax Department have filed appeals before Hon'ble ITAT on May 27, 2026, and May 29, 2026, respectively. The matter is currently pending.

(ii) In respect of assessment proceedings by the Income-tax Department for the assessment year 2020-21, pursuant to the investigation, EFCL has received an assessment order dated September 21, 2022 ("**Assessment Order**") from the Office of the Assistant Commissioner of Income-tax, Circle 14(1)(2), Mumbai in which certain disallowances/additions have been made and notice of demand under section 156 of the Income-tax Act, 1961 has been issued. The disallowances/additions mainly relate to disallowance of expenditure claimed in respect of employee stock options granted to employees and disallowance under section 14A of the Income-tax Act, 1961, in respect of expenditure incurred in relation to income that is exempt from tax. The tax impact of Assessment Order on EFCL is ₹ 12.19 million. An appeal against the Assessment Order has also been filed before the concerned Commissioner of Income-tax (Appeals) on October 20, 2022. Subsequently, reassessment proceedings were initiated, pursuant to which EFCL received an assessment order dated June 4, 2024 ("**Reassessment Order**") from the Office of the Deputy Commissioner of Income-Tax, Central Circle 1(1), Mumbai. Under the Reassessment Order, certain additions were made by treating specified transactions as unexplained money under section 69A of the Income-tax Act, 1961. The tax impact of the Reassessment Order on EFCL is ₹117 million. An appeal against the Reassessment Order, has been filed before the concerned Commissioner of Income-tax (Appeals) on June 14, 2024. The appeals filed by EFCL is currently pending.

V. Criminal proceedings involving and actions by regulatory and statutory authorities against our Key Managerial Personnel and Senior Management

Except as stated below and disclosed in ***"- Litigation involving our Directors- (a) Criminal proceedings against our Directors***" above, there are no pending criminal proceedings or actions by regulatory and statutory authorities initiated against our Key Managerial Personnel and Senior Management as on the date of this Prospectus:

(i) A first information report dated April 10, 2022, bearing no. RC2222022A0003 ("**FIR**") was registered by the CBI, Bhopal, in relation to alleged diversion of bank funds by S. Kumars Nationwide Limited ("**SKNL**"), in which one of the members of our Senior Management, Navin Sambtani was named as an accused. His association with SKNL was limited to approximately two months as an alternate director to the nominee director of India Debt Management Private Limited, a lender to SKNL, during his previous employment. The matter has no connection with his present employment in our Company. His inclusion in the FIR arose from an inadvertent error, as MCA records reflected his designation only as "Alternate Director" without recording that he was alternate to a lender's nominee director, whereas the underlying complaint excluded all lenders' nominee directors. Navin Sambtani has filed a petition under Section 482 of the CrPC before the High Court of Madhya Pradesh seeking quashing/set-aside of the FIR against him for the inadvertent inclusion. Following the Supreme Court's decision in State Bank of India v. Rajesh Agarwal and related interim orders concerning SKNL's fraud classification, the High Court of Madhya Pradesh directed on March 11, 2025 that no coercive action be taken against all named parties in the FIR during the pendency of the petition. The petition is presently tagged with a connected matter and is pending final hearing.

VI. Outstanding material regulatory proceedings involving our Group Companies

There are no outstanding litigation proceedings involving our Group Companies that may have a material impact on our Company. However, since some of our Group Companies are regulated by SEBI, they may receive notices or warning letters from time to time. Details of the pending show cause notices issued by SEBI to certain of our Group Companies are as follows:

(a) Edelweiss Asset Management Limited

(i) SEBI issued a show cause notice dated January 04, 2024 to Edelweiss Asset Management Limited ("**EAML**") and its key managerial personnels ("**Noticees**") alleging that the Edelweiss Focused Fund had deviated from the prescribed asset allocation (30 stocks). The Noticees filed their replies to the Notice on February 02, 2024, contesting all the alleged violations mentioned in the Notice. Further, the Noticees filed a settlement application dated February 13, 2024 without admitting any of the alleged violations in the matter which was later withdrawn on May 10, 2024. SEBI has issued its final order on October 25, 2024 (alongwith a corrigendum dated October 28, 2024) ("**Order**") in the said matter and has levied a penalty of ₹ 0.80 million on

EAML and ₹ 0.40 million each on Radhika Gupta and Trideep Bhattacharya for the violations. SEBI in its concluding statement has noted that this act does not quantify any disproportionate gain or unfair advantage or consequent loss caused to an investor or group of investors or profit made by the Noticees as a result of the violations committed by the Noticees. Further, there is nothing on record to show that the violations committed by the Noticees are repetitive in nature. While EAML and Trideep Bhattacharya have paid the penalty on December 7, 2024, and November 27, 2024, respectively, Radhika Gupta (one of the Noticees and key managerial personnel of EAML) has filed an appeal against the Order dated October 25, 2024 and the impugned order has been stayed. The appeal remains pending.

Disclaimer from our Company, our Directors, the Promoter Selling Shareholder and the Book Running Lead Managers

Our Company, our Directors, Promoter Selling Shareholder, and the BRLMs accept no responsibility for statements made otherwise than in this Prospectus or in the advertisements or any other material issued by or at our Company's instance and anyone placing reliance on any other source of information, would be doing so at his or her own risk.

The Promoter Selling Shareholder, its directors, affiliates, partners, associates and officers, as applicable, accept no responsibility for any statements made or undertakings provided in this Prospectus, other than those specifically confirmed or undertaken by the Promoter Selling Shareholder, and only in relation to itself and/or to the Equity Shares offered by the Promoter Selling Shareholder through the Offer for Sale.

The BRLMs accept no responsibility, save to the limited extent as provided in the Offer Agreement and the Underwriting Agreement.

All information, to the extent required in relation to the Offer, was made available by our Company, the Promoter Selling Shareholder (with respect to itself and the Offered Shares) and the BRLMs to the public and investors at large and no selective or additional information was made available to a section of the investors in any manner whatsoever, including at road show presentations, in research or sales reports, at Bidding Centres or elsewhere.

Bidders who Bid in the Offer were required to confirm and are deemed to have represented to our Company, the Promoter Selling Shareholder, Underwriters and their respective directors, partners, designated partners, trustees, officers, agents, affiliates, and representatives that they were eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares and will not issue, sell, pledge, or transfer the Equity Shares

to any person who is not eligible under any applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares. Our Company, the Promoter Selling Shareholder, the Underwriters and their respective directors, investment managers, partners, designated partners, trustees, officers, agents, affiliates, and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

The BRLMs and their respective associates and affiliates may engage in transactions with, and perform services for, our Company, its Subsidiaries, Group Companies, Promoter Selling Shareholder and their respective directors and officers, group companies, affiliates or associates or third parties in the ordinary course of business and have engaged, or may in the future engage, in commercial banking and investment banking transactions with our Company, its Subsidiaries, Group Companies, Promoter Selling Shareholder and their respective affiliates or associates or third parties, for which they have received, and may in the future receive, compensation.

Disclaimer in respect of jurisdiction

The Offer was made in India to persons resident in India (including Indian nationals resident in India who were competent to contract under the Indian Contract Act, 1872, as amended), HUFs, companies, corporate bodies and societies registered under the applicable laws in India and authorised to invest in equity shares, domestic Mutual Funds registered with SEBI, Indian financial institutions, commercial banks, regional rural banks, co-operative banks (subject to permission from RBI), NBFC-SI or trusts under applicable trust law and who are authorised under their respective constitutions to hold and invest in equity shares, public financial institutions as specified in Section 2(72) of the Companies Act, 2013, multilateral and bilateral development financial institutions, state industrial development corporations, insurance companies registered with IRDAI, permitted provident funds (subject to applicable law) and permitted pension funds (subject to applicable law), National Investment Fund, insurance funds set up and managed by army, navy or air force of Union of India, insurance funds set up and managed by the Department of Posts, GoI and permitted Non-Residents including FPIs and Eligible NRIs, AIFs, and other eligible foreign investors, if any, provided that they are eligible under all applicable laws and regulations to purchase the Equity Shares in the Offer in any jurisdiction, including India.

The Red Herring Prospectus did not and this Prospectus does not constitute an invitation to subscribe to or purchase the Equity Shares in the Offer in any jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose possession the Red Herring Prospectus or this Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. Invitations to subscribe to or purchase the Equity Shares offered in the Offer was made pursuant to the Red Herring Prospectus if the recipient was in India or the preliminary offering memorandum for the Offer, which comprised the Red Herring Prospectus and the preliminary international wrap for the Offer, if the recipient was outside India.

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that the Draft Red Herring Prospectus had been filed with SEBI for its observations and the Red Herring Prospectus and this Prospectus had been filed with the RoC, SEBI and the Stock Exchanges. Accordingly, the Equity Shares represented hereby may not be offered or sold, directly or indirectly, and the Red Herring Prospectus was not, and this Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of the Red Herring Prospectus or this Prospectus, nor any offer or sale hereunder, would, under any circumstances, create any implication that there has been no change in our affairs or in the affairs of our Company from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Bidders were advised to ensure that any Bid from them did not exceed the investment limits or maximum number of Equity Shares that could be held by them under applicable law.

Any dispute arising out of the Offer will be subject to the jurisdiction of appropriate court(s) in Mumbai, Maharashtra, India only.

No person outside India was eligible to Bid for Equity Shares in the Offer unless that person had received the preliminary offering memorandum for the Offer, which contained the selling restrictions for the Offer outside India.

Eligibility and transfer restrictions

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and, unless so registered, may not be offered or sold within the United

States or to, or for the account or benefit of, U.S. Persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws in the United States. Our Company has not registered and does not intend to register under the U.S. Investment Company Act in reliance on Section 3(c)(7) of the U.S. Investment Company Act, and investors will not be entitled to the benefits of the U.S. Investment Company Act. Accordingly, the Equity Shares are only being offered and sold (i) to persons in the United States or to or for the account or benefit of, U.S. Persons, in each case to investors that are both "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Prospectus as "U.S. QIBs" and, for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Prospectus as "QIBs") and "qualified purchasers" (as defined under the U.S. Investment Company Act and referred to in this Prospectus as "QPs") in transactions exempt from or not subject to the registration requirements of the U.S. Securities Act and in reliance on Section 3(c)(7) of the U.S. Investment Company Act; or (ii) outside the United States to investors that are not U.S. Persons nor persons acquiring for the account or benefit of U.S. Persons in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur. The Equity Shares may not be re-offered, re-sold, pledged or otherwise transferred except in an "offshore transaction" as defined in, and in reliance on, Regulation S to a person outside the United States and not known by the transferor to be a U.S. Person by pre-arrangement or otherwise (such permitted transactions including, for the avoidance of doubt, a bona fide sale on the BSE or NSE).

Further, each Bidder where required was to agree in the Allotment Advice that such Bidder would not sell or transfer any Equity Shares or any economic interest therein, including any offshore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than in accordance with applicable laws.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids could not have been made, by persons in any such jurisdiction except in compliance with the applicable laws of such jurisdiction.

Until the expiry of 40 days after the commencement of the Offer, an offer or sale of Equity Shares within the United States by a dealer (whether or not it is participating in the Offer) may violate the registration requirements of the U.S. Securities Act, if such an offer or sale is made otherwise than in compliance with the available exemptions from the registration requirements of the U.S. Securities Act and in accordance with applicable securities laws of any state or other jurisdiction of the United States.

Our Company is not and will not be registered under the U.S. Investment Company Act, and investors will not be entitled to the benefits of the U.S. Investment Company Act.

Eligible Investors

The Equity Shares were offered and sold:

(i) in the United States or to, or for the account or benefit of, U.S. Persons, in each case to investors that are both U.S. QIBs and QPs, in transactions exempt from or not subject to the registration requirements of the U.S. Securities Act and in reliance on Section 3(c)(7) the U.S. Investment Company Act; and

(ii) outside the United States to investors that are not U.S. Persons, nor persons acquiring for the account or benefit of U.S. Persons, in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur;

and in each case who are deemed to have made the representations set forth immediately below.

Equity Shares Offered and Sold within the United States

Each purchaser that is acquiring the Equity Shares offered pursuant to this Offer within the United States, by its acceptance of the Red Herring Prospectus, this Prospectus and of the Equity Shares, will be deemed to have acknowledged, represented to and agreed with the Company, the Promoter Selling Shareholder, the BRLMs that it has received a copy of the Red Herring Prospectus and this Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorised to consummate the purchase of the Equity Shares offered pursuant to this Offer in compliance with all applicable laws and regulations;

2. the purchaser acknowledges that the Equity Shares offered pursuant to this Offer have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state of the United States and accordingly may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;

3. the purchaser (i) is a U.S. QIB and a QP, (ii) is aware that the sale to it is being made in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act, (iii) was not formed for the purpose of investing in the Equity Shares and (iv) is acquiring such Equity Shares for its own account or for the account or benefit of one or more persons, each of which is a U.S. QIB and a QP, with respect to which it exercises sole investment discretion; the purchaser, and each account for which it is purchasing or otherwise acquiring Equity Shares, will purchase, hold or transfer Equity Shares amounting to at least US$250,000 or its equivalent in another currency.

4. The purchaser acknowledges that the Company has not registered, and does not intend to register, as an "investment company" (as such term is defined under the U.S. Investment Company Act) and that the Company has imposed the transfer and offering restrictions with respect to persons in the United States and U.S. Persons described herein so that the Company will qualify for the exception provided under Section 3(c)(7) of the U.S. Investment Company Act and will have no obligation to register as an investment company. The purchaser, and each person for which it is acting, also understands and agrees that the Company, and the BRLMs shall have the right to request and receive such additional documents, certificates, representations and undertakings, from time to time, as they may deem necessary in order to comply with applicable legal requirements;

5. the purchaser is not a broker-dealer which owns and invests on a discretionary basis less than US$25 million in securities of issuers unaffiliated with such broker-dealer;

6. the purchaser understands that, subject to certain exceptions, to be a QP, entities must have US$25 million in "investments" (as defined in Rule 2a51-1 of the U.S. Investment Company Act);

7. the purchaser is not an affiliate of the Company or a person acting on behalf of an affiliate;

8. the purchaser is not a participant-directed employee plan, such as a 401(k) plan, or a trust holding

9. the assets of such plan, unless the investment decisions with respect to such plan are made solely by the fiduciary, trustee or sponsor of such plan;

10. the purchaser is not managed as a device for facilitating individual investment decisions of beneficial owners, but rather is managed as a collective investment vehicle;

11. the purchaser, and each account for which it is purchasing or otherwise acquiring Equity Shares, will purchase, hold or transfer Equity Shares amounting to at least US$250,000 or its equivalent in another currency;

12. it, and each person for which it is acting, was not formed, reformed or recapitalized for the purpose of investing in the Equity Shares and/or other securities of the Company;

13. if the purchaser, or any person for which it is acting, is an investment company excepted from the U.S. Investment Company Act pursuant to Section 3(c)(1) or Section 3(c)(7) thereof (or a foreign investment company under section 7(d) thereof relying on Section 3(c)(1) or 3(c)(7) with respect to its holders that are U.S. Persons) and was formed on or before April 30, 1996, it has received the consent of its beneficial owners who acquired their interests on or before April 30, 1996, with respect to its treatment as a QP in the manner required by Section 2(a)(51)(C) of the U.S. Investment Company Act and the rules promulgated thereunder;

14. the purchaser, and each person for which it is acting, is not a partnership, common trust fund, or corporation, special trust, pension fund or retirement plan, or other entity, in which the partners, beneficiaries, beneficial owners, participants, shareholders or other equity owners, as the case may be, may designate the particular investments to be made, or the allocation thereof unless all such partners,

beneficiaries, beneficial owners, participants, shareholders or other equity owners are both U.S. QIBs and QPs;

15. the purchaser, and each person for which it is acting, has not invested more than 40.0% of its assets in the Equity Shares (or beneficial interests therein) and/or other securities of the Company after giving effect to the purchase of the Equity Shares (or beneficial interests therein) (unless all of the beneficial owners of such entity's securities are both U.S. QIBs and QPs);

16. if, in the future, the purchaser decides to offer, resell, pledge or otherwise transfer such Equity Shares, or any economic interest therein, such Equity Shares or any economic interest therein may be offered, sold, pledged or otherwise transferred only outside the United States in an "offshore transaction" complying with Rule 903 or Rule 904 of Regulation S under the Securities Act to a person outside the United States and not known by the transferor to be a U.S. Person by pre- arrangement or otherwise (such permitted transactions including, for the avoidance of doubt, a bona fide sale on the BSE or NSE). The purchaser agrees not to effect any sale, pledge or other transfer of any Equity Shares in a transaction unless the purchaser first executes a U.S. Resale Letter in the form of Annexure A to this Prospectus and delivers such letter to the Company prior to the settlement if any, of the sale, pledge or other transfer of the Equity Shares that is not consummated on BSE or NSE. The purchaser understands that the transfer restrictions will remain in effect until the Company determines, in its sole discretion, to remove them;

17. is not subscribing to, or purchasing, the Equity Shares with a view to, or for the offer or sale in connection with, any distribution thereof (within the meaning of the U.S. Securities Act) that would be in violation of the securities laws of the United States or any state thereof;

18. the Equity Shares are "restricted securities" within the meaning of Rule 144(a)(3) under the Securities Act and no representation is made as to the availability of the exemption provided by Rule 144 for resales of any such Equity Shares;

19. the purchaser will not deposit or cause to be deposited such Equity Shares into any depositary receipt facility established or maintained by a depositary bank other than a Rule 144A restricted depositary receipt facility, so long as such Equity Shares are "restricted securities" within the meaning of Rule 144(a)(3) under the U.S. Securities Act;

20. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any "directed selling efforts" as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares or "general solicitation" or "general advertising" (within the meaning of Rule 502(c) under the Securities Act), in the United States in connection with any offer or sale of the Equity Shares;

21. the purchaser understands that such Equity Shares (to the extent they are in certificated form), unless the Company determines otherwise in accordance with applicable law, will bear a legend substantially to the following effect:

THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. SECURITIES ACT") OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE U.S. INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "U.S. INVESTMENT COMPANY ACT"). THIS SECURITY WAS NOT OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT TO A PERSON OUTSIDE THE UNITED STATES AND NOT KNOWN BY THE TRANSFEROR TO BE A U.S. PERSON BY PRE-ARRANGEMENT OR OTHERWISE IN AN "OFFSHORE TRANSACTION" COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, AND OTHERWISE IN A TRANSACTION EXEMPT FROM, OR NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT AND THE U.S. INVESTMENT COMPANY ACT.

THIS SECURITY IS NOT TRANSFERABLE EXCEPT IN ACCORDANCE WITH THE RESTRICTIONS DESCRIBED HEREIN. EACH TRANSFEROR OF THIS SECURITY AGREES TO PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH

HEREIN AND IN THE COMPANY'S OFFER DOCUMENTS TO THE TRANSFEREE AND TO ANY EXECUTING BROKER.

22. the purchaser agrees, upon a proposed transfer of the Equity Shares, to notify any purchaser of such Equity Shares or the executing broker, as applicable, of any transfer restrictions that are applicable to the Equity Shares being sold and agrees not to act as a swap counterparty or other type of intermediary whereby any other party will acquire an economic interest or beneficial interest in the Equity Shares acquired or reoffer, resell, pledge or otherwise transfer the Equity Shares or any beneficial interest therein, to any person except to a person that meets all of the requirements above and who agrees not to subsequently transfer the Equity Shares or any beneficial interest therein except in accordance with these transfer restrictions;

23. the purchaser understands and acknowledges that (i) the Company will not recognize any offer, sale, pledge or other transfer of such Equity Shares made other than in compliance with the above-stated restrictions; (ii) any acquisition of a beneficial interest in the Equity Shares by any U.S. Person or any person within the United States who is required under these restrictions to be a QP but is not a QP at the time it acquires a beneficial interest in the Equity Shares, shall be null and void ab initio and will not be honored by the Company and in no event will the Company, its directors, officers, employees or agents, including any broker or dealer, have any liability whatsoever to the purchaser by reason of any act or failure to act by any person authorised by the Company in connection with the foregoing;

24. the purchaser understands and acknowledges that our Company may be considered a "covered fund" for purposes of the Volcker Rule. The definition of "covered fund" in the Volcker Rule includes (generally) any entity that would be an investment company under the U.S. Investment Company Act, but for the exceptions provided under Section 3(c)(1) or 3(c)(7) thereunder. Because our Company relies on Section 3(c)(7) of the U.S. Investment Company Act for its exclusion from registration thereunder, it may be considered to be a "covered fund". Accordingly, "banking entities" that are subject to the Volcker Rule may be prohibited under the Volcker Rule from, among other things, acquiring or retaining our Equity Shares, absent any applicable exclusion or exemption. Each purchaser must make its own determination as to whether it is a banking entity subject to the Volcker Rule and, if applicable, the potential impact of the Volcker Rule on its ability to purchase or retain our Equity Shares;

25. the purchaser is knowledgeable, sophisticated and experienced in business and financial matters, fully understands the limitations on ownership and transfer and the restrictions on sales of the Equity Shares and is aware that there are substantial risks incidental to the purchase of the Equity Shares and is able to bear the economic risk of such purchase; and

26. the purchaser acknowledges that the Company, the Promoter Selling Shareholder, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify the Company, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

All Other Equity Shares Offered and Sold in this Offer

Each purchaser that is a non- U.S. Person and acquiring the Equity Shares offered pursuant to this Offer outside the United States, by its acceptance of the Red Herring Prospectus and of the Equity Shares offered pursuant to this Offer, were deemed to have acknowledged, represented to and agreed with the Company, the Promoter Selling Shareholder, the BRLMs that it had received a copy of the Red Herring Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorised to consummate the purchase of the Equity Shares offered pursuant to this Offer in compliance with all applicable laws and regulations;

2. the purchaser acknowledges that the Equity Shares offered pursuant to this Offer have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state of the United States and accordingly may not be offered or sold within the United States or to, or for the account or benefit of, U.S. Persons (not relying on Rule 902(k)(1)(viii)(B) or Rule 902(k)(2)(i), except pursuant

to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;

3. the purchaser is purchasing the Equity Shares offered pursuant to this Offer in an "offshore transaction" meeting the requirements of Rule 903 of Regulation S under the U.S. Securities Act;

4. the purchaser and the person, if any, for whose account or benefit the purchaser is acquiring the Equity Shares offered pursuant to this Offer, is a non-U.S. Person and was located outside the United States at each time (i) the offer for such Equity Shares was made to it and (ii) when the buy order for such Equity Shares was originated and continues to be a non-U.S. Person and located outside the United States and has not purchased such Equity Shares for the account or benefit of any U.S. Person or any person in the United States or entered into any arrangement for the transfer of such Equity Shares or any economic interest therein to any U.S. Person or any person in the United States;

5. the purchaser is not an affiliate of the Company or a person acting on behalf of an affiliate;

6. if, in the future, the purchaser decides to offer, resell, pledge or otherwise transfer such Equity Shares, or any economic interest therein, such Equity Shares or any economic interest therein may be offered, sold, pledged or otherwise transferred only outside the United States in an "offshore transaction" complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act to a person not known by the transferor to be a U.S. Person by pre-arrangement or otherwise (such permitted transactions including, for the avoidance of doubt, a bona fide sale on the BSE or the NSE) The purchaser understands that the transfer restrictions will remain in effect until the Company determines, in its sole discretion, to remove them, and confirms that the proposed transfer of the Equity Shares is not part of a plan or scheme to evade the registration requirements of the U.S. Securities Act or the U.S. Investment Company Act;

7. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any "directed selling efforts" as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares;

8. the purchaser understands that such Equity Shares (to the extent they are in certificated form), unless the Company determine otherwise in accordance with applicable law, will bear a legend substantially to the following effect:

   THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. SECURITIES ACT") OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE U.S. INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "U.S. INVESTMENT COMPANY ACT"). THIS SECURITY WAS NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT TO A PERSON OUTSIDE THE UNITED STATES AND NOT KNOWN BY THE TRANSFEROR TO BE A U.S. PERSON BY PRE-ARRANGEMENT OR OTHERWISE IN AN "OFFSHORE TRANSACTION" COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT AND OTHERWISE IN A TRANSACTION EXEMPT FROM, OR NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT AND THE U.S. INVESTMENT COMPANY ACT.

   THIS SECURITY IS NOT TRANSFERABLE EXCEPT IN ACCORDANCE WITH THE RESTRICTIONS DESCRIBED HEREIN. EACH TRANSFEROR OF THIS SECURITY AGREES TO PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE COMPANY'S OFFER DOCUMENTS TO THE TRANSFEREE AND TO ANY EXECUTING BROKER.

9. the purchaser agrees, upon a proposed transfer of the Equity Shares, to notify any purchaser of such Equity Shares or the executing broker, as applicable, of any transfer restrictions that are applicable to the Equity Shares being sold;

10. the purchaser understands and acknowledges that (i) the Company will not recognize any offer, sale, pledge or other transfer of such Equity Shares made other than in compliance with the above-stated restrictions; (ii) any acquisition of a beneficial interest in the Equity Shares by any U.S. Person or any

person within the United States who is required under these restrictions to be a QP but is not a QP at the time it acquires a beneficial interest in the Equity Shares, shall be null and void ab initio and will not be honored by the Company and in no event will the Company, its directors, officers, employees or agents, including any broker or dealer, have any liability whatsoever to the purchaser by reason of any act or failure to act by any person authorised by the Company in connection with the foregoing;

11. the purchaser understands and acknowledges that our Company may be considered a "covered fund" for purposes of the Volcker Rule. The definition of "covered fund" in the Volcker Rule includes (generally) any entity that would be an investment company under the U.S. Investment Company Act, but for the exceptions provided under Section 3(c)(1) or 3(c)(7) thereunder. Because our Company relies on Section 3(c)(7) of the U.S. Investment Company Act for its exclusion from registration thereunder, it may be considered to be a covered fund. Accordingly, "banking entities" that are subject to the Volcker Rule may be prohibited under the Volcker Rule from, among other things, acquiring or retaining our Equity Shares, absent any applicable exclusion or exemption. Each purchaser must make its own determination as to whether it is a "banking entity" subject to the Volcker Rule and, if applicable, the potential impact of the Volcker Rule on its ability to purchase or retain our Equity Shares; and

12. the purchaser acknowledges that the Company, the Promoter Selling Shareholder, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify the Company, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

13. In relation to each Member State of the European Economic Area and the United Kingdom (each a "**Relevant State**"), no Equity Shares have been offered or will be offered pursuant to the Offer to the public in that Relevant State prior to the publication of a prospectus in relation to the Equity Shares which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, all in accordance with the Prospectus Regulation), except that offers of Equity Shares may be made to the public in that Relevant State at any time under the following exemptions under the Prospectus Regulation:

    (a) to any legal entity which is a qualified investor as defined under the Prospectus Regulations;

    (b) to fewer than 150 natural or legal persons (other than qualified investors as defined under the Prospectus Regulation), subject to obtaining the prior consent of the BRLMs for any such offer; or

    (c) in any other circumstances falling within Article 1(4) of the Prospectus Regulations,

    provided that no such offer of Equity Shares shall require the Company, the Promoter Selling Shareholder or any BRLM to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulations.

    For the purposes of this provision, the expression an "offer to the public" in relation to any Equity Shares in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any Equity Shares to be offered so as to enable an investor to decide to purchase or subscribe for any Equity Shares, and the expression "Prospectus Regulation" means Regulation (EU) 2017/1129.

The Company, the Promoter Selling Shareholder, the BRLMs and their affiliates, and others will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

Bidders were advised to ensure that any Bid from them did not exceed the investment limits or maximum number of Equity Shares that could be held by them under applicable law.

ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase and holding of Equity Shares by Benefit Plan Investors. A "Benefit Plan Investor" is (1) an "employee benefit plan" (as defined in Section 3(3)

of the United States Employee Retirement Income Security Act, as amended ("**ERISA**")) that is subject to Title I of ERISA, (2) a plan, individual retirement account, "Keogh" plan or other arrangement subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended (the "Code"), or provisions under any United States federal, state or local laws, or non-U.S. or other laws or regulations that are similar to such provisions of the Code or ERISA, (3) an entity whose underlying assets are considered to include "plan assets" by reason of a plan's investment in such entity (including but not limited to an insurance company general account) (each of (1), (2) and (3), a "Plan"), and (4) any entity that otherwise constitutes a "benefit plan investor" within the meaning of the regulations promulgated under ERISA by the U.S. Department of Labor (the "**DOL**"), as modified by Section 3(42) of ERISA (the "**DOL Plan Asset Regulations**").

The following is merely a summary, however, and should not be construed as legal advice or as complete in all relevant respects. All investors are urged to consult their own legal advisors before investing assets of a Plan in Equity Shares and to make their own independent decision.

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code and prohibit certain transactions involving the assets of a Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such a Plan or the management or disposition of the assets of such a Plan, or who renders investment advice for a fee or other compensation to such a Plan, is generally considered to be a fiduciary of the Plan.

In considering an investment in Equity Shares with a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any similar law relating to a fiduciary's duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable United States federal, state or local laws, or non-US or other laws or regulations that are similar to the Code or ERISA (collectively, "**Similar Laws**").

Prohibited Transaction Considerations

Section 406 of ERISA and Section 4975 of the Code prohibit Plans from engaging in specified transactions involving plan assets with persons or entities who are "parties in interest," within the meaning of Section 406 of ERISA, or "disqualified persons," within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code and may result in the disqualification of an individual retirement account. In addition, the fiduciary of the Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and/or the Code.

Regardless of whether or not the underlying assets of our Company (if any) are deemed to include "plan assets," as described below, the acquisition and/or holding of Equity Shares by a Plan with respect to which our Company or an underwriter is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the DOL has issued prohibited transaction class exemptions, or PTCEs, that may apply to the acquisition and holding of Equity Shares. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide an exemption from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code for certain transactions, provided that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction and provided further that the Plan receives no less, and pays no more, than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied or that any such exemptions will be available with respect to investments in interests in any Equity Shares.

Plan Asset Considerations

The DOL Plan Asset Regulations generally provide that when a Plan acquires an equity interest in an entity that is not (1) a "publicly-offered security," (2) a security issued by an investment company registered under the Investment Company Act, or (3) an "operating company," the Plan's assets are deemed to include both the equity interest and an undivided interest in each of the underlying assets of the entity unless it is established that the equity participation in the entity by Benefit Plan Investors is not "significant" (the "**Insignificant Participation Test**").

For purposes of the DOL Plan Asset Regulations, an "operating company" is an entity that is primarily engaged, directly or through a majority-owned subsidiary or subsidiaries, in the production or sale of a product or service, other than the investment of capital. It is anticipated that our Company will qualify as an operating company within the meaning of the DOL Plan Asset Regulations, although no assurance can be given in this regard.

For purposes of the Insignificant Participation Test, the DOL Plan Asset Regulations provide that equity participation in an entity by Benefit Plan Investors is not significant if, immediately after the most recent acquisition of an equity interest in the entity, the Benefit Plan Investors' aggregate interest is less than 25% of the value of each class of equity interests in the entity, disregarding, for purposes of such determination, any interests held by any person that has discretionary authority or control with respect to the assets of our Company or who provides investment advice for a fee with respect to the assets of our Company or an affiliate of our Company (each, a "**Controlling Person**") other than Benefit Plan Investors. Following this offering, it is possible that Benefit Plan Investors will hold and will continue to hold, less than 25% of the value of each class of equity interests of our Company, disregarding, for purposes of such determination, any interests held by any Controlling Person other than Benefit Plan Investors and, as such, that our Company may rely on the Insignificant Participation Test; however, we cannot be certain or make any assurance that this will be the case.

Plan Asset Consequences

If assets of our Company were deemed to constitute "plan assets" pursuant to the DOL Plan Asset Regulations, the operation and administration of our Company would become subject to the requirements of ERISA, including the fiduciary duty rules and the "prohibited transaction" prohibitions of ERISA, as well as the "prohibited transaction" prohibitions contained in the Code. If our Company becomes subject to these regulations, unless appropriate administrative exemptions are available (and there can be no assurance that they would be), our Company could, among other things, be restricted from entering into otherwise favorable transactions, and certain transactions entered into by our Company in the ordinary course of business could constitute non-exempt prohibited transactions and/or breaches of applicable fiduciary duties under ERISA and/or the Code, which could, in turn, result in potentially substantial excise taxes and other penalties and liabilities under ERISA and the Code.

Representation

Because of the foregoing, Equity Shares should not be acquired or held by any Benefit Plan Investor or any other person investing "plan assets" of any Plan, unless such acquisition and holding will not constitute a non-exempt prohibited transaction under ERISA and the Code and will not constitute a similar violation of any applicable Similar Law.

Any purchaser or subsequent transferee, including, without limitation, any fiduciary purchasing on behalf of a Plan, a Benefit Plan Investor, or a governmental, church or non-U.S. plan which is subject to Similar Laws will be deemed to have represented and warranted, in its corporate and fiduciary capacity, that if the purchaser or subsequent transferee is a Benefit Plan Investor, none of our Company or the underwriters or any of their respective affiliates, has acted as the Plan's fiduciary (within the meaning of ERISA or the Code), or has been relied upon for any advice, with respect to the purchaser or transferee's decision to acquire and hold Equity Shares, and shall not at any time be relied upon as the ERISA Plan's fiduciary with respect to any decision to acquire, continue to hold or transfer Equity Shares.

The foregoing discussion is general in nature, is not intended to be all-inclusive. Such discussion should not be construed as legal advice. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering investing in Equity Shares on behalf of, or with the assets of, any Plan consult with counsel regarding the potential applicability of ERISA, Section 4975 of the Code and Similar Laws to such investment and whether an exemption would be applicable to the acquisition and/or holding of Equity Shares.

Listing

The Equity Shares proposed to be Allotted pursuant to the Red Herring Prospectus and this Prospectus are proposed to be listed on BSE and NSE. Applications will be made to the Stock Exchanges for obtaining permission for the listing and trading of the Equity Shares being transferred and sold in the Offer and NSE is the Designated Stock Exchange, with which the Basis of Allotment will be finalised.

If the permission to deal in and for an official quotation of the Equity Shares are not granted by the Stock Exchanges, our Company shall forthwith repay, without interest, all monies received from the applicants in pursuance of the Red Herring Prospectus in accordance with applicable law. If such money is not repaid within the prescribed time, then our Company and every officer in default shall be liable to repay the money, with interest, as prescribed under applicable law. Any expense incurred by our Company on behalf of the Promoter Selling Shareholder with regard to interest on such refunds as required under the Companies Act, 2013 and any other applicable law will be reimbursed by the Promoter Selling Shareholder as agreed among our Company and the

Promoter Selling Shareholder in writing, in proportion to the Offered Shares. Provided that the Promoter Selling Shareholder shall not be responsible or liable for payment of any expenses or interest, unless such delay is solely and directly attributable to an act or omission of the Promoter Selling Shareholder and such liability shall be limited to the extent of the Offered Shares.

Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading of Equity Shares at the Stock Exchanges are taken within three Working Days of the Bid/Offer Closing Date or such other period as may be prescribed by SEBI.

If our Company does not allot Equity Shares pursuant to the Offer within such timeline as prescribed by the SEBI, it shall repay without interest all monies received from Bidders, failing which interest shall be due to be paid to the Bidders at the rate of 15% per annum for the delayed period or such other rate as may be prescribed by the SEBI.

The Promoter Selling Shareholder undertakes to provide such reasonable assistance as may be requested by our Company, to the extent such assistance is required from the Promoter Selling Shareholder in relation to the Offered Shares to facilitate the process of listing and commencement of trading of the Equity Shares on the Stock Exchanges within such time prescribed by SEBI.

Stock market data of the Equity Shares

This being the initial public offer of the Equity Shares of our Company, the Equity Shares are not listed on any stock exchange as on the date of this Prospectus, and accordingly, no stock market data is available for the Equity Shares.

Mechanism for Redressal of Investor Grievances

The Registrar Agreement provides for retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges or any such period as prescribed under the applicable laws, to enable the investors to approach the Registrar to the Offer for redressal of their grievances. The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders.

Bidders can contact the Company Secretary and Compliance Officer and/or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Offer-related queries and for redressal of complaints, Bidders may also write to the BRLMs, in the manner provided below. Our Company, the Promoter Selling Shareholder, the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under the applicable provisions of the SEBI ICDR Regulations.

All Offer related grievances, other than of Anchor Investors, may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary, with whom the Bid cum Application Form was submitted giving full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder's DP ID, Client ID, UPI ID, PAN, address of Bidder, number of the Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), date of Bid cum Application Form and the name and address of the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove. For Offer-related grievances, investors may contact the BRLMs, details of which are given in "***General Information – Book Running Lead Managers***" on page 108.

The Registrar to the Offer shall obtain the required information from the SCSBs and Sponsor Banks for addressing any clarifications or grievances of ASBA Bidders. All grievances relating to Bids submitted with Registered Brokers, may be addressed to the Stock Exchanges, with a copy to the Registrar to the Offer.

All Offer-related grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or first bidder, Anchor Investor Application Form number, Bidders' DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the BRLMs where the Anchor Investor Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid / Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of SEBI ICDR Master Circular, has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism *inter alia* in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds in cases of partial allotment/non allotment within prescribed timelines and procedures.

In terms of SEBI ICDR Master Circular, and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled/withdrawn/deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation/withdrawal/deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original Bid Amount; and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and 2. ₹100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non–Allotted/partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the BRLMs shall be liable to compensate the investor ₹100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

Disposal of investor grievances by our Company

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the SCSBs in case of ASBA bidders for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has obtained authentication on the SEBI SCORES platform and shall comply with the SEBI circular number SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023 in relation to redressal of investor grievances through SCORES.

Our Company has also constituted a Stakeholders' Relationship Committee to resolve the grievances of the security holders of our Company. For details. see "***Our Management – Stakeholders' Relationship Committee***" on page 287.

Our Company has appointed Deepak Mukhija as the Company Secretary and Compliance Officer of our Company. For details, see "***General Information – Company Secretary and Compliance Officer***" on page 108.

The Promoter Selling Shareholder has authorised the Company Secretary and Compliance Officer, and the Registrar to the Offer to deal with and redress, on its behalf any investor grievances received in the Offer in relation to the Offered Shares.

Our Company has not received any investor grievances during the three years preceding the date of this Prospectus. Further, no investor complaint in relation to our Company is pending as on the date of this Prospectus.

Exemption from complying with any provisions of securities laws, if any, granted by Securities and Exchange Board of India

Our Company has not sought any exemption from complying with any provisions of securities laws as on the date of this Prospectus.

Other confirmations

Any person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the initial public offer, except for fees or commission for services rendered in relation to the Offer.

SECTION VII – OFFER RELATED INFORMATION

TERMS OF THE OFFER

The Equity Shares offered and to be Allotted pursuant to this Offer are and shall be subject to the provisions of the Companies Act, 2013, the SEBI ICDR Regulations, SCRA, SCRR, the Memorandum of Association, the Articles of Association, SEBI Listing Regulations, the terms of the Draft Red Herring Prospectus, the Red Herring Prospectus and this Prospectus, the Bid cum Application Form, the Revision Form, the Abridged Prospectus, the CAN, Allotment Advice and other documents and certificates that were or may be executed in respect of the Offer. The Equity Shares shall also be subject to all applicable laws, guidelines, rules, notifications and regulations relating to the issue of capital, transfer of securities and listing and trading of securities, offered from time to time, by SEBI, Government of India, the Stock Exchanges, the RoC, the Reserve Bank of India, and/or other authorities, as in force on the date of the Offer and to the extent applicable or such other conditions as may be prescribed by SEBI, GoI, the Stock Exchanges, the RoC, the RBI, and/or other authorities while granting its approval for the Offer.

The Offer

The Offer comprised an Offer for Sale by the Promoter Selling Shareholder.

Other than listing fees, audit fees of statutory auditors (to the extent not attributable to the Offer), and expenses in relation to product or corporate advertisements, i.e., any corporate advertisements consistent with past practices of the Company (other than the expenses relating to marketing and advertisements undertaken in connection with the Offer) which will be solely borne by the Company, all costs, charges, fees and expenses associated with and incurred in connection with the Offer shall be borne by the Promoter Selling Shareholder. Upon commencement of listing and trading of the Equity Shares on the Stock Exchanges pursuant to the Offer, Promoter Selling Shareholder shall reimburse the Company for any expenses in relation to the Offer paid by the Company on behalf of the Promoter Selling Shareholder directly from the Public Offer Account except as may be prescribed by the SEBI or any other regulatory authority. For further details, see "***Objects of the Offer – Offer-Related Expenses***" on page 137.

Ranking of Equity Shares

The Equity Shares offered/Allotted and transferred pursuant to the Offer are subject to the provisions of the Companies Act, 2013, our Memorandum of Association and our Articles of Association and will rank *pari passu* in all respects with the existing Equity Shares of our Company, including in respect of rights to receive dividends and other corporate benefits, if any, declared by our Company after the date of Allotment as per the applicable law. For further details, see "***Main Provisions of the Articles of Association***" on page 505.

Mode of payment of dividend

Our Company will pay dividends, if declared, to the Shareholders, as per the provisions of the Companies Act, 2013, the SEBI Listing Regulations, our Memorandum of Association and our Articles of Association, and any guidelines or directives that may be issued by the GoI in this respect or any other applicable law. Any dividends declared, after the date of Allotment in the Offer, will be payable to the Allottees who have been Allotted Equity Shares in the Offer, for the entire year, in accordance with applicable laws. For further details, see "***Dividend Policy***" and "***Main Provisions of the Articles of Association***" beginning on pages 303 and 505, respectively.

Face Value, Offer Price, Floor Price and Price Band

The face value of each Equity Share is ₹ 5 each and the Floor Price was ₹ 1,585.00 per Equity Share and the Cap Price was ₹ 1,665.00 per Equity Share. The Offer Price is ₹ 1,665.00 per Equity Share of face value of ₹5 each. The Anchor Investor Offer Price is ₹ 1,665.00 per Equity Share of face value of ₹5 each.

The Price Band and the minimum Bid Lot were decided by our Company, in accordance with applicable laws and, in consultation with the BRLMs, and published by our Company in all editions of Financial Express (a widely circulated English national daily newspaper), all editions of Jansatta (a widely circulated Hindi national daily newspaper) and Mumbai edition of Navshakti (a widely circulated Marathi daily newspaper, Marathi being the regional language of Maharashtra, India, where our Registered Office is located), and were made available to the Stock Exchanges for the purpose of uploading the same on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price were pre-filled in the Bid-cum-Application Forms available at the respective websites of the Stock Exchanges. The Offer Price has been determined by our Company,

in consultation with the BRLMs, after the Bid/Offer Closing Date, on the basis of assessment of market demand for Equity Shares offered by way of the Book Building Process.

At any given point in time there will be only one denomination for our Equity Shares.

Compliance with disclosure and accounting norms

Our Company shall comply with all disclosure and accounting norms as specified by SEBI from time to time.

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and the Articles of Association, the Equity Shareholder will have the following rights:

- right to receive dividends, if declared;
- right to attend general meetings and exercise voting powers, unless prohibited by law;
- right to vote on a poll either in person or by proxy and e-voting in accordance with the provisions of the Companies Act, 2013;
- right to receive offers for rights shares and be allotted bonus shares, if announced;
- right to receive any surplus on liquidation subject to any statutory and preferential claims being satisfied;
- right of free transferability of their Equity Shares, subject to applicable foreign exchange regulations and other applicable law; and
- such other rights as may be available to a shareholder of a listed public company under the Companies Act, 2013, the terms of the SEBI Listing Regulations and our Memorandum of Association and Articles of Association.

For a detailed description of the main provisions of our Articles of Association relating to voting rights, dividend, forfeiture, lien, transfer, transmission, consolidation and splitting, see "***Main Provisions of the Articles of Association***" beginning on page 505.

Allotment only in dematerialised form

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form.

In this context, our Company has entered into the following agreements with the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated September 29, 2010, among NSDL, our Company and the Registrar to the Offer.
- Tripartite agreement dated January 21, 2022, among CDSL, our Company and Registrar to the Offer.

Market Lot and Trading Lot

Since trading of the Equity Shares will be in dematerialised form, the tradable lot is one Equity Share. Allotment in the Offer will be only in electronic form in multiples of one Equity Share, subject to a minimum Allotment of nine Equity Shares of face value of ₹ 5 each. For the method of Basis of Allotment, see "***Offer Procedure***" beginning on page 482.

Jurisdiction

Exclusive jurisdiction for the purpose of the Offer is with the competent courts/authorities in Mumbai, Maharashtra, India.

Joint Holders

Subject to the provisions of the Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

Nomination Facility

In accordance with Section 72 of the Companies Act, 2013, read with the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first bidder along with other joint Bidders, were allowed to nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the Registrar and Share Transfer Agents of our Company.

Further, any person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013, will, on the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as holder of Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividend, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialised form, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder will prevail. If Bidders want to change their nomination, they are advised to inform their respective Depository Participants.

Option to receive Equity Shares in dematerialized form

Investors were requested to note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. Bidders did not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

COMMENCEMENT OF TRADING OF THE EQUITY SHARES ON THE STOCK EXCHANGES	On or about Monday, November 2, 2026

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date for cancelled/withdrawn/deleted

ASBA Forms, the Bidder shall be compensated by the intermediary responsible for causing such delay in unblocking at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher in accordance with applicable law. For (i) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock,; (ii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iii) any delay in unblocking of non-allotted/ partially allotted Bids, exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the SCSB responsible for causing such delay in unblocking, in accordance with applicable law. The Bidders shall be compensated in the manner specified in the SEBI ICDR Master Circular, in case of delays in resolving investor grievances in relation to blocking/ unblocking of funds, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of our Company with the SCSBs, to the extent applicable. The BRLMs shall, in their sole discretion, identify and fix liability on such intermediary or entity responsible for such delay in unblocking.

The processing fees for applications made by the UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI ICDR Master Circular.

The above timetable is indicative and does not constitute any obligation on our Company or the Promoter Selling Shareholder or the BRLMs.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days of Bid/ Offer Closing Date or such time as may be prescribed by SEBI, with reasonable support and co-operation of the Promoter Selling Shareholder, as may be required in respect of the Offered Shares, the timetable may be extended due to various factors such as any delay in receiving the final listing and trading approval from the Stock Exchanges or delay in receipt of final certificates from SCSBs, etc. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. The Promoter Selling Shareholder confirms that it shall extend commercially reasonable co-operation to our Company, as may be required solely in relation to the Offered Shares, in accordance with applicable law, to facilitate the process of listing and commencement of trading of the Equity Shares on the Stock Exchanges within three Working Days from the Bid/Offer Closing Date or such time as prescribed by SEBI.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working days of Bid/ Offer Closing Date or such time prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

The offer procedure is subject to change basis any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors):

Bid/ Offer Period (except the Bid/ Offer Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. IST
Bid/ Offer Closing Date	
Submission of electronic applications (online ASBA through 3 in 1 accounts) for RIIs	Only between 10.00 a.m. and 5.00 p.m. IST
Submission of electronic applications (Bank ASBA through online channels like internet banking, mobile banking and Syndicate UPI ASBA applications through UPI as a payment mechanism where Bid Amount is up to ₹ 500,000)	Only between 10.00 a.m. and 4.00 p.m. IST
Submission of electronic applications (Syndicate Non-Retail, Non-Individual Applications)	Only between 10.00 a.m. and 3.00 p.m. IST
Submission of physical applications (Bank ASBA)	Only between 10.00 a.m. and 1.00 p.m. IST
Submission of physical applications (Syndicate Non-Retail, Non-Individual Applications of QIBs and NIIs where Bid Amount is more than ₹ 500,000)	Only between 10.00 a.m. and 12.00 p.m. IST

Modification/ Revision/cancellation of Bids	
Upward revision of Bids by QIBs and Non-Institutional Investors[#]	Only between 10.00 a.m. on the Bid/ Offer Opening Date and up to 4.00 p.m. IST on Bid/ Offer Closing Date
Upward or downward revision of Bids or cancellation of Bids by RIIs	Only between 10.00 a.m. on the Bid/ Offer Opening Date and up to 5.00 p.m. IST on Bid/ Offer Closing Date

[#]*QIBs and Non-Institutional Investors could neither revise their Bids downwards nor cancel/ withdraw their Bids.*

On the Bid/Offer Closing Date, the Bids were uploaded until:

(i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Investors; and

(ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Investors.

The Registrar to the Offer was required to submit the details of cancelled/withdrawn/deleted applications to the SCSBs on a daily basis within 60 minutes of the bid closure time from the Bid/Offer Opening Date till the Bid/Offer Closing Date by obtaining such information from the Stock Exchanges. The SCSBs were required to unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLMs and the Registrar to the Offer on a daily basis as per the format prescribed in SEBI ICDR Master Circular.

It is clarified that Bids were required to be processed only after the application monies had been blocked in the ASBA Account and Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount was not blocked by SCSBs, or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, were liable to be rejected.

To avoid duplication, the facility of re-initiation provided to Members of the Syndicate were preferably allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

Due to limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders were advised to submit their Bids one day prior to the Bid/Offer Closing Date, in any case, no later than 12.00 p.m. (Indian Standard Time) on the Bid/Offer Closing Date. Any time mentioned in the Red Herring Prospectus was IST. Bidders were cautioned that in the event a large number of Bids were received on the Bid/Offer Closing Date, some Bids might not have been uploaded due to lack of sufficient time. Such Bids that could not be uploaded were not considered for allocation under the Offer. Bids were accepted on the Stock Exchange platform only during Working Days, during the Bid/ Offer Period and were not accepted on Saturdays and public holidays as declared by the Stock Exchanges. The Designated Intermediaries could modify select fields uploaded in the Stock Exchange platform during the Bid/Offer Period till 5.00 p.m. on the Bid/Offer Closing Date after which the Stock Exchange(s) sent the Bid information to the Registrar to the Offer for further processing. Bids by ASBA Bidders were uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

In case of discrepancy in data entered in the electronic book vis-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Minimum Subscription

As this is an offer for sale by the Promoter Selling Shareholder, the requirement of minimum subscription of 90% of the Offer under the SEBI ICDR Regulations is not applicable to this Offer. However, in the event our Company does not receive minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR including through devolvement of Underwriters, as applicable, within sixty (60) days from the date of Bid/ Offer Closing Date, or if the subscription level falls below the thresholds mentioned above after the Bid/ Offer Closing Date, on account of withdrawal of applications; or after technical rejections or in case of devolvement of Underwriting, aforesaid minimum subscription is not received within 60 days from the date of Bid/ Offer Closing Date; or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares so offered pursuant to the Offer, our Company shall forthwith refund the entire subscription amount received in accordance with the applicable laws.

If there is a delay beyond two Working days, our Company, every Director of our Company, who is an officer in default, and the Promoter Selling Shareholder, to the extent applicable, shall pay interest at the rate of 15% per

annum, in accordance with the UPI Circulars and the SEBI ICDR Regulations. No liability to make any payment of interest shall accrue to the Promoter Selling Shareholder unless any delay in making any of the payments hereunder or any delay in obtaining listing and/or trading approvals or any other approvals in relation to the Offer is solely attributable to the Promoter Selling Shareholder.

The Promoter Selling Shareholder shall reimburse, in proportion to the Offered Shares, any expenses and interest incurred by our Company on behalf of the Promoter Selling Shareholder, including for any delays in making refunds as required under the Companies Act, 2013 and any other applicable law, provided that the Promoter Selling Shareholder shall not be responsible or liable for payment of such expenses or interest, unless such delay is solely and directly attributable to an act or omission of the Promoter Selling Shareholder.

Undersubscription, if any, in any category except the QIB Portion, could be met with spill-over from the other categories at the discretion of our Company, in consultation with the BRLMs, and the Designated Stock Exchange.

Further, in terms of Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Bidders to whom the Equity Shares will be Allotted will be not less than 1,000 failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, the Promoter Selling Shareholder and our Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for disposal of odd Lots

Since the Equity Shares will be traded in dematerialised form only, and the market lot for the Equity Shares will be one Equity Share, there are no arrangements for disposal of odd lots.

New financial instruments

Our Company is not issuing any new financial instruments through the Offer.

Restrictions, if any on transfer and transmission of Equity Shares

Except for lock-in of pre-Offer equity shareholding of our Company, lock-in of our Promoter's contribution and Anchor Investor lock-in in the Offer, as detailed in "***Capital Structure***" beginning on page 116 and except as provided in our Articles of Association as detailed in "***Main Provisions of the Articles of Association***" beginning on page 505, there are no restrictions on transfers and transmission of shares/debentures and on their consolidation/splitting.

Withdrawal of the Offer

Our Company, in consultation with the BRLMs, reserves the right not to proceed with the Offer, in whole or in part thereof, after the Bid/Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer advertisements and price band advertisement were published, within two days of the Bid/Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer and inform the Stock Exchanges promptly on which the Equity Shares are proposed to be listed.

The BRLMs, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks, in case of UPI Bidders, to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification and also inform the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. The notice of withdrawal will be issued in the same newspapers where the pre-Offer advertisements and price band advertisement have appeared and the Stock Exchanges will also be informed promptly.

If our Company, in consultation with the BRLMs withdraw the Offer after the Bid/Offer Closing Date and thereafter determines that it will proceed with a public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges.

Notwithstanding the foregoing, the Offer is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days of the Bid/ Offer Closing Date or such other time period as prescribed under applicable law. If Allotment is not made within

the prescribed time period under applicable law, the entire subscription amount received will be refunded/unblocked within the time prescribed under applicable law.

**Subject to finalization of the Basis of Allotment.*

*(1) Our Company, in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors at the Anchor Investor Offer Price, on a discretionary basis, in accordance with the SEBI ICDR Regulations. 40% of the Anchor Investor Portion was reserved as under: (i) 33.33% for domestic Mutual Funds only; and (ii) 6.67% for Life Insurance Companies and Pension Funds, subject to valid Bids having been received at or above the price at which allocation was made to Anchor Investors, which price was determined by our Company, in consultation with the BRLMs from domestic Mutual Funds, Life Insurance Companies and Pension Funds. Any under-subscription in the reserved category specified in clause (ii) above may be allocated to domestic Mutual Funds. Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders (other than the Anchor Investors), including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. For further details, see "**Offer Procedure**" beginning on page 482.*

(2) Subject to valid Bids having been received at or above the Offer Price. This Offer was made in accordance with Rule 19(2)(b) of the SCRR and Regulation 6(1) of the SEBI ICDR Regulations.

(3) In case of joint Bids, the relevant Bidders were advised to ensure that the depository account was also held in the same joint names and the names were in the same sequence in which they appeared in the Bid cum Application Form. The Bid cum Application Form contained only the name of the First Bidder whose name was also required to appear as the first holder of the beneficiary account held in joint names. The signature of only such First Bidder was required in the Bid cum Application Form and such First Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserved the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.

(4) Full Bid Amount was payable by the Anchor Investors at the time of submission of the Anchor Investor Application Forms provided that any difference between the Anchor Investor Allocation Price and the Anchor Investor Offer Price was payable by the Anchor Investor Pay-in Date as indicated in the CAN.

*(5) Bids by Foreign Portfolio Investors with certain structures as described under "**Offer Procedure – Bids by Foreign Portfolio Investors**" on page 489 and having the same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allocated and to be Allotted to such successful Bidders (with the same PAN) may be proportionately distributed.*

(6) Bidders were required to confirm and were deemed to have represented to our Company, the Promoter Selling Shareholder, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares.

Subject to valid Bids having been received at or above the Offer Price, undersubscription, if any, in the Non-Institutional Portion or the Retail Portion was allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange, subject to applicable laws. However, under-subscription, if any, in the QIB Portion was not allowed to be met with spill-over from other categories or a combination of categories. For further details, see "***Terms of the Offer***" beginning on page 472.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

OFFER PROCEDURE

*All Bidders were advised to read the General Information Document for Investing in Public Issues prepared and issued in accordance with the circular (SEBI/HO/CFD/DIL1/CIR/P/2020/37) dated March 17, 2020 issued by the SEBI and the UPI Circulars (the "**General Information Document**"), which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, 2013, the SCRA, the SCRR and the SEBI ICDR Regulations which was part of the Abridged Prospectus accompanying the Bid cum Application Form. The General Information Document was made available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer especially in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.*

*Additionally, all Bidders were advised to refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) Payment Instructions for ASBA Bidders/Applicants; (v) issuance of CAN and allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) submission of Bid cum Application Form; (viii) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (ix) applicable provisions of the Companies Act, 2013 relating to punishment for fictitious applications; (x) mode of making refunds; (xi) Designated Date; (xii) interest in case of delay in allotment or refund; and (xiii) disposal of applications. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, introduced an alternate payment mechanism using Unified Payments Interface ("**UPI**") and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for UPI Bidders applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. ("**UPI Phase I**"). The UPI Phase I was effective till June 30, 2019.*

*With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds was discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later ("**UPI Phase II**"). Further, as per the SEBI circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II was further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders ("**UPI Phase III**") and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Offer was undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended by SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 has introduced certain additional measures for streamlining process for initial public offers and redressing investor grievances.*

Further, pursuant to the SEBI ICDR Master Circular, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes were up to ₹ 500,000 were required to use the UPI Mechanism. Individual investors Bidding under the Non-Institutional Portion Bidding for more than ₹ 200,000 and up to ₹500,000, using the UPI Mechanism, were required to provide their UPI ID in the Bid-cum-Application Form for Bidding through the Syndicate, sub-Syndicate Member, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI RTA Master Circular, shall continue to form part of the agreements being signed between the

intermediaries involved in the public issuance process and lead managers shall continue to coordinate with intermediaries involved in the said process.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, Investors shall be entitled to compensation in the manner specified in the SEBI ICDR Master Circular, in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.

Our Company, the Promoter Selling Shareholder, the BRLMs and the Members of the Syndicate do not accept any responsibility for the completeness and accuracy of the information stated in the General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of the Red Herring Prospectus and this Prospectus. Bidders were advised to make their independent investigations and ensure that their Bids were submitted in accordance with Applicable Laws and did not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and this Prospectus. Further, our Company, the Promoter Selling Shareholder and the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Offer.

Book Building Procedure

The Offer was made in terms of Rule 19(2)(b) of the SCRR, read with Regulation 31 of the SEBI ICDR Regulations. The Offer was made through the Book Building Process, in compliance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than 50% of the Offer was made available for allocation on a proportionate basis to Qualified Institutional Buyers ("**QIBs**"), provided that our Company, in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors and the basis of such allocation was on a discretionary basis by our Company, in consultation with the BRLMs, of which 40% of the Anchor Investor Portion was reserved as under: (i) 33.33% for the domestic Mutual Funds; and (ii) 6.67% for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from the domestic Mutual Funds, Life Insurance Companies and Pension Funds at or above Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. Any under-subscription in the reserved category specified in clause (ii) above could be allocated to domestic Mutual Funds in accordance with the SEBI ICDR Regulations. Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis only to Mutual Funds, subject to valid Bids having been received at or above the Offer Price, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. However, if the aggregate demand from Mutual Funds was less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion would be added to the remaining QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Offer was made available for allocation to Non-Institutional Investors (out of which one-third of the portion available to Non-Institutional Investors was made available for allocation to Bidders with a Bid size of more than ₹200,000 and up to ₹1,000,000 and two-thirds of the Non-Institutional Portion was made available for allocation to Bidders with a bid size of more than ₹1,000,000 and under-subscription in either of these two sub-categories of Non-Institutional Portion would be allocated to Bidders in the other sub-category of Non-Institutional Portion). Further, not less than 35% of the Offer was made available for allocation to Retail Individual Investors, in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received from them at or above the Offer Price.

Subject to valid Bids having been received at or above the Offer Price, undersubscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company, in consultation with the BRLMs, and the Designated Stock Exchange. However, under-subscription, if any, in the QIB Portion was not allowed to be met with spill-over from other categories or a combination of categories.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification issued by Central Board of Direct Taxes on February 13, 2020, and press release dated June 25, 2021 and September 17, 2021, CBDT circular no.7 of 2022, dated March 30, 2022, read with press release dated March 28, 2023, read with subsequent circulars issued in relation thereto.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which did not have the details of the Bidders' depository account, including DP ID, Client ID, PAN and UPI ID, as applicable, were treated as incomplete and were rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

All SCSBs offering the facility of making application in public issues shall also provide facility to make application using UPI. Our Company has appointed the Sponsor Banks to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-Offer BRLM(s) will be required to compensate the concerned investor.

Phased implementation of unified payments interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of, inter alia, equity shares. Pursuant to the SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 ("**Previous UPI Circulars**") and the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase was applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular bearing number SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, pursuant to SEBI circular dated March 30, 2020, this phase was extended till further notice. Under this phase, submission of the ASBA Form without UPI by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023 vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer was undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

For further details, refer to the General Information Document which was made available on the websites of the Stock Exchanges and the BRLMs.

Further, pursuant to SEBI ICDR Master Circular, all UPI Bidders were required to provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

(i) a syndicate member;

(ii) a stockbroker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity);

(iii) a depository participant (whose name is mentioned on the website of the stock exchange as eligible for this activity); or

(iv) a registrar to an issue and share transfer agent (whose name is mentioned on the website of the stock exchange as eligible for this activity).

Electronic registration of Bids

(a) The Designated Intermediary could register the Bids using the online facilities of the Stock Exchanges. The Designated Intermediaries could also set up facilities for off-line electronic registration of Bids, subject to the condition that they would subsequently upload the off-line data file into the online facilities for Book Building on a regular basis before the closure of the Offer.

(b) On the Bid/Offer Closing Date, the Designated Intermediaries could upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.

(c) Only Bids that were uploaded on the Stock Exchanges Platform were considered for Allotment. The Designated Intermediaries were given till 5.00 p.m. on the Bid/Offer Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period after which the Stock Exchange(s) sent the Bid information to the Registrar to the Offer for further processing.

(d) QIBs and Non-Institutional Investors could neither revise their Bids downwards nor cancel/withdraw their Bids.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the abridged prospectus were made available with the Designated Intermediaries at the Bidding Centres, and our Registered Office. An electronic copy of the Bid cum Application Form was also made available for download on the websites of BSE (https://www.bseindia.com) and NSE (https://www.nseindia.com) at least one day prior to the Bid/Offer Opening Date.

Copies of the Anchor Investor Application Form were made available at the offices of the BRLMs.

All Bidders (other than Anchor Investors) were mandatorily required to participate in the Offer only through the ASBA process, which included the UPI Mechanism in the case of UPI Bidders.

UPI Bidders submitting their Bid cum Application Form to any Designated Intermediary (other than SCSBs) were required to Bid using the UPI Mechanism and were to provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bids submitted by UPI Bidders with any Designated Intermediary (other than SCSBs) without mentioning the UPI ID were liable to be rejected. UPI Bidders using the UPI Mechanism could also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

Bids by Application Supported by Blocked Amount Bidders

ASBA Bidders could provide either (i) the bank account details and authorisation to block funds in the ASBA Form, or (ii) the UPI ID, as applicable, in the relevant space provided in the ASBA Form. The ASBA Forms that did not contain such details were liable to be rejected. Applications made by the UPI Bidders using third party bank account or using third party linked bank account UPI ID were liable for rejection. Anchor Investors were not permitted to participate in the Offer through the ASBA process. ASBA Bidders were required to ensure that the Bids were made on ASBA Forms bearing the stamp of the relevant Designated Intermediary, submitted at the relevant Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp were liable to be rejected.

Since the Offer was made under UPI Phase III, ASBA Bidders could submit the ASBA Form in the manner below:

(i) UPI Bidders could submit their ASBA Forms with the Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

(ii) QIBs and Non-Institutional Bidders (other than Non-Institutional Bidders using UPI Mechanism) could submit their ASBA Forms with SCSBs, Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs.

For all initial public offerings opening on or after September 1, 2022, as specified by SEBI pursuant to its circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, the ASBA applications in public issues were required to be processed only after the application monies are blocked in the investor's bank accounts. Stock Exchanges were required to accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. This circular shall be applicable for all categories of investors viz. Retail, QIB, NII and other reserved categories and also for all modes through which the applications are processed.

The ASBA Bidders, including UPI Bidders, were required to ensure that they had sufficient credit balance such that an amount equivalent to full Bid Amount could be blocked therein, at the time of submitting the Bid.

The prescribed colour of the Bid cum Application Form for the various categories was as follows:

Category	**Colour of Bid cum Application Form***
Resident Indians, including resident QIBs, Non-Institutional Investors, Retail Individual Investors and Eligible NRIs who applied on a non-repatriation basis^	White
Non-Residents including FPIs, NRIs who applied on a repatriation basis, FVCIs and registered bilateral and multilateral institutions	Blue
Anchor Investors^^	White

**Excluding the electronic Bid cum Application Form.*
^Electronic Bid cum Application Form was made available for download on the website of the BSE (www.bseindia.com) and NSE (www.nseindia.com).
^^Bid cum Application Forms for Anchor Investors were made available at the offices of the BRLMs.

In case of ASBA Forms, the relevant Designated Intermediaries were required to upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. For UPI Bidders using the UPI Mechanism, the Stock Exchanges were required to share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis to enable the Sponsor Bank(s) to initiate UPI Mandate Request to UPI Bidders for blocking of funds. For ASBA Forms (other than UPI Bidders) Designated Intermediaries (other than SCSBs) were required to submit/deliver the ASBA Forms to the respective SCSB where the Bidder had an ASBA bank account and were required to not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges were required to validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges allowed modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders using UPI Mechanism, the Stock Exchanges were required to share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis through API integration to enable the Sponsor Bank(s) to initiate UPI Mandate Request to the UPI Bidders, for blocking of funds. The Sponsor Bank(s) were required to initiate request for blocking of funds through NPCI to the UPI Bidders, who accepted the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI were required to maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders in case of failed transactions were to be with the concerned entity (*i.e.* the Sponsor Bank(s), NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/investor complaints to the Sponsor Bank(s) and the issuer bank. The Sponsor Bank(s) and the Bankers to the Offer shall provide the audit trail to the BRLMs for analyzing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts for mandate block and unblock including details specified in SEBI ICDR Master Circular. In accordance with circular issued by NSE having reference no. 25/2022 dated August 3, 2022, and the notice issued by BSE having reference no. 20220803-40 dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Bank(s) were required to initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5.00 p.m. on the Bid/ Offer Closing Date ("**Cut-Off Time**"). Accordingly, UPI

Bidders using through the UPI Mechanism could accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time lapsed.

The Sponsor Bank(s) were required to undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and were required to ensure that all the responses received from NPCI were sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank(s) were required to undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLMs in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank(s) and issuer banks were required to download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Participation by the Promoters and the members of the Promoter Group, the BRLMs, associates and affiliates of the BRLMs and the Syndicate Members and the persons related to the Promoters, the members of the Promoter Group, BRLMs and the Syndicate Members.

The BRLMs and the Syndicate Members were not allowed to purchase Equity Shares in this Offer in any manner, except towards fulfilling their respective underwriting obligations. However, the respective associates and affiliates of the BRLMs and the Syndicate Members could Bid for Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as was applicable to such Bidders, and such subscription would be on their own account or on behalf of their clients. All categories of investors, including associates or affiliates of the BRLMs and Syndicate Members, were treated equally for the purpose of allocation.

Except as stated below, neither the BRLMs nor any persons related to the BRLMs could apply in the Offer under the Anchor Investor Portion:

(i) Mutual Funds sponsored by entities which are associates of the BRLMs;

(ii) insurance companies promoted by entities which are associates of the BRLMs;

(iii) AIFs sponsored by the entities which are associates of the BRLMs;

(iv) FPIs other than individuals, corporate bodies and family offices which are associates of the BRLMs; or

(v) pension funds (registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013) sponsored by entities which are associates of the BRLMs.

Further, an Anchor Investor was deemed to be an "associate of the BRLM" if:

(i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or

(ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or

(iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the BRLMs.

Our Promoters, except to the extent of the Equity Shares offered by the Promoter Selling Shareholder, and the members of our Promoter Group could not participate in the Offer. Further, persons related to our Promoters and Promoter Group could not apply in the Offer under the Anchor Investor Portion.

For the purposes of the above, a QIB who has any of the following rights was deemed to be a "person related to the Promoters or Promoter Group": (a) rights under a shareholders' agreement or voting agreement entered into with the Promoters or Promoter Group; (b) veto rights; or (c) right to appoint any nominee director on our Board.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate was required to be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs reserved the right to reject any Bid without assigning any reason thereof, subject to applicable laws.

Bids made by asset management companies or custodians of Mutual Funds were required to specifically state the names of the concerned schemes for which such Bids were made.

In case of a Mutual Fund, a separate Bid could be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund were not treated as multiple Bids provided that the Bids clearly indicated the scheme concerned for which the Bid was made.

No Mutual Fund scheme could invest more than 10% of its NAV in equity shares or equity related instruments of any single company provided that the limit of 10% was not applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes can own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by Eligible Non-Resident Indians

Eligible NRIs could obtain copies of the ASBA Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange were considered for Allotment. Eligible NRI Bidders having bid on a repatriation basis by using the Non-Resident forms were required to authorise their SCSB to block their Non-Resident External ("**NRE**") accounts (including UPI ID, if activated), or foreign currency non-resident accounts ("**FCNR Accounts**"), and eligible NRI Bidders bidding on a non-repatriation basis by using resident forms were required to authorise their SCSB to block their Non-Resident Ordinary ("**NRO**") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. NRIs who applied in the Offer through the UPI Mechanism were advised to enquire with the relevant bank, whether their account was UPI linked, prior to submitting a Bid cum Application Form.

In accordance with the FEMA Rules, the total holding by any individual NRI (including Eligible NRIs and Overseas Citizen of India), on a repatriation basis, shall not exceed 10% of the total paid-up Equity Share capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all individual persons resident outside India put together shall not exceed 24% of the total paid-up Equity Share capital on a fully diluted basis or shall not exceed 24% of the paid-up value of each series of debentures or preference shares or share warrant.

Eligible NRIs who Bid on non-repatriation basis were advised to use the Bid cum Application Form for residents (white in colour). Eligible NRIs who Bid on a repatriation basis were advised to use the Bid cum Application Form meant for Non-Residents (blue in colour).

Participation by Eligible NRIs in the Offer was subject to the FEMA Rules. Only Bids accompanied by payment in Indian rupees or fully convertible foreign exchange were eligible to be considered for Allotment.

NRIs were permitted to apply in the Offer through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs could use Channel IV (as specified in the UPI Circulars) to apply in the Offer, provided the UPI facility was enabled for their NRE/ NRO accounts

For details of restrictions on investment by NRIs, see "***Restrictions on Foreign Ownership of Indian Securities***" beginning on page 503.

Bids by Hindu Undivided Families

Bids by Hindu Undivided Families or HUFs were required to be made in the individual name of the Karta. The Bidder was required to specify that the Bid was being made in the name of the HUF in the Bid cum Application Form as follows: "Name of sole or first bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta". Bids by HUFs were considered at par with Bids from individuals.

Bids by Foreign Portfolio Investors

An FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Offer Equity Share capital. Further, in terms of the FEMA Non-Debt Instruments Rules, the total holding by each FPI, of an investor group, shall be below 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis and the aggregate limit for FPI investments shall be the sectoral caps applicable to our Company, which is 100% of the total paid-up Equity Share capital of our Company on a fully diluted basis. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included. Bids by Foreign Portfolio Investors which utilise the multi-investment manager structure, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs were not treated as multiple Bids.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs reserved the right to reject any Bid without assigning any reason, subject to applicable laws.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In terms of the FEMA Non-Debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI

subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

(a) such offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and

(b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

The FPIs who wished to participate in the Offer were advised to use the Bid cum Application Form for non-residents.

Bids received from FPIs bearing the same PAN were required to be treated as multiple Bids and were liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with SEBI master circular no. SEBI/HO/AFD/AFD-PoD-2/P/CIR/2024/70 dated May 30, 2024, provided such Bids were made with different beneficiary account numbers, Client IDs and DP IDs.

Accordingly, multiple Bids received from FPIs that did not utilize the multiple investment managers structure ("**MIM Structure**"), and bore the same PAN, were liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, but with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilized the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids would be rejected.

Further, in the following cases, Bids by Foreign Portfolio Investors were required to not be treated as multiple Bids:

- FPIs which utilised the MIM structure, indicating the name of their respective investment managers in such confirmation;
- ODI which obtained separate FPI registration for ODI and proprietary derivative investments;
- Sub funds or separate class of investors with segregated portfolio who obtained separate FPI registration;
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund had multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager;
- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related investors registered as Category 1 FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN were required to be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid were required to be proportionately distributed to the Applicant FPIs (with same PAN). In order to ensure valid Bids, FPIs who have made multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs who have made multiple Bids utilized any of the above-mentioned structures and indicated the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids were required to be rejected.

Bids by SEBI registered Venture Capital Funds, Alternative Investment Funds and Foreign Venture

Capital Investors

SEBI VCF Regulations as amended, inter alia prescribe the investment restrictions on VCFs, registered with SEBI. SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the SEBI

VCF Regulations, the venture capital funds which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. SEBI FVCI Regulations prescribe the investment restrictions on FVCIs.

Accordingly, the holding in any company by any individual VCF or FVCIs registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds in various prescribed instruments, including in public offering.

Category I and II AIFs cannot invest more than 25% of the investible funds in one investee company. A Category III AIF cannot invest more than 10% of the investible funds in one investee company. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking whose shares are proposed to be listed. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

Participation of AIFs, VCFs and FVCIs was subject to the FEMA Rules.

There was no reservation for Eligible NRI Bidders, AIFs, FPIs and FVCIs. All Bidders were required to be treated on the same basis with other categories for the purpose of allocation.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, was required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs reserved the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with the RBI, certified copies of (i) the certificate of registration issued by the RBI, and (ii) the approval of such banking company's investment committee were required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserved the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (the "**Banking Regulation Act**"), and Master Direction – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company or 10% of the bank's own paid-up share capital and reserves, whichever is lower. Further, the aggregate equity investments in subsidiaries and other entities engaged in financial and non-financial services, including overseas investments, cannot exceed 20% of the bank's paid-up share capital and reserves. However, a banking company may hold up to 30% of the paid-up share capital of the investee company with the prior approval of the RBI, provided that the investee company is engaged in non-financial activities in which banking companies are permitted to engage under the Banking Regulation Act or the additional acquisition is through restructuring of debt, or to protect the bank's interest on loans/investments made to a company.

No banking company, along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank and mutual funds managed by asset management companies controlled by the bank, shall be allowed to hold more than 20% of the investee company's paid-up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. Further, a banking company shall not be allowed to make any investment in Category III AIFs and any investment by a bank's subsidiary in a Category III AIF shall be restricted to the regulatory minima prescribed by SEBI.

The banking company is required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make investment in a (i) subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed); (ii) non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in para 5(a)(v)(c)(i) of the Master Direction – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended; and (iii)_investment of more than 10% of the paid-up capital / unit capital in a Category I AIF or Category II AIF.

Bids by Self Certified Syndicate Banks

SCSBs participating in the Offer were required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012, and January 2, 2013, respectively, issued by SEBI. Such SCSBs were required to ensure that for making applications on their own account using ASBA, they should have had a separate account in their own name with any other SEBI registered SCSBs. Further, such account would be used solely for the purpose of making application in public issues and clear demarcated funds were made available in such account for such applications.

Bids by insurance companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI were required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs reserved the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The exposure norms for insurers are prescribed under the Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024, as amended ("IRDAI Investment Regulations"), based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates.

Insurance companies participating in the Offer were advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and were required to comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Bids by Provident Funds/Pension Funds

In case of Bids made by provident funds/pension funds with minimum corpus of ₹250,000,000, registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013, subject to applicable law, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund was required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs reserved the right to reject any Bid, without assigning any reason thereof.

Bids under Power of Attorney

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, NBFC-SI, insurance funds set up by the army, navy or air force of the India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹250,000,000 (subject to applicable laws) and pension funds with a minimum corpus of ₹250,000,000, registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws was required to be lodged along with the Bid cum Application Form. Failing this, our Company reserved the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company, in consultation with the BRLMs, in their absolute discretion, reserved the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company, in consultation with the BRLMs, deemed fit.

Bids by Anchor Investors

In accordance with the SEBI ICDR Regulations, in addition to details and conditions mentioned in this section the key terms for participation by Anchor Investors were as follows:

(a) Anchor Investor Application Forms were made available for the Anchor Investor Portion at the offices of the BRLMs.

(b) The Bid was required to be for a minimum of such number of Equity Shares so that the Bid Amount exceeded ₹100,000,000. A Bid could not be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate bids by individual schemes of a Mutual Fund were aggregated to determine the

minimum application size of ₹100,000,000.

(c) 40% of the Anchor Investor Portion was reserved for allocation as under: (i) 33.33% for domestic Mutual Funds and (ii) 6.67% for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, in accordance with the SEBI ICDR Regulations.

(d) Bidding for Anchor Investors opened one Working Day before the Bid/Offer Opening Date and was completed on the same day.

(e) Our Company finalised allocation to the Anchor Investors and the basis of such allocation was on a discretionary basis by our Company, in consultation with the BRLMs.

(f) Allocation to Anchor Investors was completed on the Anchor Investor Bidding Date. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation was made, was made available in the public domain by the BRLMs before the Bid/Offer Opening Date, through intimation to the Stock Exchanges.

(g) Anchor Investors could not withdraw or lower the size of their Bids at any stage after submission of the Bid.

(h) 50% of the Equity Shares Allotted to the Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment and the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.

(i) Neither the BRLMs nor any associate of the BRLMs (except Mutual Funds sponsored by entities which are associates of the BRLMs or insurance companies promoted by entities which are associate of BRLMs or AIFs sponsored by the entities which are associate of the BRLMs or FPIs, other than individuals, corporate bodies and family offices sponsored by the entities which are associate of the BRLMs) could apply in the Offer under the Anchor Investor Portion. For further details, see ***"– Participation by the Promoters and Promoter Group of our Company, BRLMs, the Syndicate Members and their associates and affiliates and the persons related thereto***" above.

(j) Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion were not considered to be multiple Bids.

Bids by Systemically Important Non-Banking Financial Companies

In case of Bids made by NBFC-SI registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) certified copy of its last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the NBFC-SI, were required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserved the right to reject any Bid without assigning any reason thereof, subject to applicable law. NBFC-SI participating in the Offer shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for NBFC-SI shall be as prescribed by RBI from time to time.

For more information, please read the General Information Document.

The above information was given for the benefit of the Bidders. Our Company, the Promoter Selling Shareholder, and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus. Bidders were advised to make their independent investigations and ensure that any single Bid from them did not exceed the applicable investment limits or maximum number of the Equity Shares that could be held by them under applicable law or regulation or as specified in the Red Herring Prospectus and this Prospectus. Further, each Bidder where required was required to agree in the Allotment Advice that such Bidder would not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than in accordance with applicable laws.

Information for Bidders

The relevant Designated Intermediary entered a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options were not considered as multiple Bids. It was the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip was non-negotiable and by itself would not create any obligation of any kind. When a Bidder revised his or her Bid, he/she surrendered the earlier Acknowledgement Slip and could request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid. In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system was not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Managers are cleared or approved by the Stock Exchanges; nor did it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor did it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor did it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Red Herring Prospectus; nor did it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

General Instructions

Please note that QIBs and Non-Institutional Investors were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. RIIs could revise their Bid(s) during the Bid/Offer Period and withdraw or lower the size of their Bid(s) until Bid/Offer Closing Date. Anchor Investors were not allowed to withdraw their Bids after the Anchor Investor Bidding Date.

***Do's*:**

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals;

2. All Bidders (other than Anchor Investors) were required to submit their Bids through the ASBA process only;

3. Ensure that you have Bid within the Price Band;

4. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;

5. Ensure that you (other than the Anchor Investors) have mentioned the correct details of ASBA Account (*i.e.*, bank account number or UPI ID, as applicable) and PAN in the Bid cum Application Form and if you are a UPI Bidder ensure that you have mentioned the correct UPI ID (with maximum length of 45 characters including the handle), in the Bid cum Application Form;

6. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the relevant Bidding Centre (except in case of electronic Bids) within the prescribed time;

7. UPI Bidders Bidding using the UPI Mechanism in the Offer shall ensure that they use only their own ASBA Account or only their own bank account linked UPI ID to make an application in the Offer and not ASBA Account or bank account linked UPI ID of any third party;

8. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the ASBA Form to the relevant Designated Intermediaries;

9. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Banks prior to 5.00 p.m. on the Bid/Offer Closing Date;

10. Ensure that the signature of the first bidder in case of joint Bids, was included in the Bid cum Application Forms. If the first bidder was not the ASBA Account holder, ensure that the Bid cum Application Form was also signed by the ASBA Account holder;

which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain the name of only the first bidder whose name should also appear as the first holder of the beneficiary account held in joint names;

12. Ensure that you request for and receive a stamped acknowledgement in the form of a counterfoil of the Bid cum Application Form for all your Bid options from the concerned Designated Intermediary;

13. Ensure that you submit the revised Bids to the same Designated Intermediary, through whom the original Bid was placed and obtain a revised acknowledgment;

14. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of the circular no. MRD/DoP/Cir-20/2008 dated June 30, 2008 issued by SEBI, may be exempt from specifying their PAN for transacting in the securities market, (ii) Bids by persons resident in the state of Sikkim, who, in terms of the circular dated July 20, 2006 issued by SEBI, may be exempted from specifying their PAN for transacting in the securities market, and (iii) persons/entities exempt from holding a PAN under applicable law, all Bidders were required to mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficial owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;

15. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, were required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids were required to be rejected;

16. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;

17. Ensure that the category and the investor status was indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;

18. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust, etc., relevant documents including a copy of the power of attorney, if applicable, are submitted;

19. Ensure that Bids submitted by any person outside India were in compliance with applicable foreign and Indian laws;

20. However, Bids received from FPIs bearing the same PAN shall not be treated as multiple Bids in the event such FPIs utilise the MIM Structure and such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs;

21. Since the Allotment will be in dematerialised form only, ensure that the depository account is active, the correct DP ID, Client ID, UPI ID (for UPI Bidders bidding through UPI mechanism) and the PAN are mentioned in their Bid cum Application Form and that the name of the Bidder, the DP ID, Client ID, UPI ID (for UPI Bidders bidding through UPI mechanism) and the PAN entered into the online initial public offerings system of the Stock Exchanges by the relevant Designated Intermediary, as applicable, matches with the name, DP ID, Client ID, UPI ID (for UPI Bidders bidding through UPI mechanism) and PAN available in the Depository database;

22. In case of QIBs and NIIs, ensure that while Bidding through a Designated Intermediary, the ASBA Form is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at http://www.sebi.gov.in);

23. Ensure that you have correctly signed the authorisation/undertaking box in the Bid cum Application Form or have otherwise provided an authorisation to the SCSB or the Sponsor Banks, as applicable, via the

electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid. In case of UPI Bidder Bidding through the UPI Mechanism, ensure that you authorise the UPI Mandate Request raised by the Sponsor Banks for blocking of funds equivalent to Bid Amount and subsequent debit of funds in case of Allotment;

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Designated Stock Exchange, along with the BRLMs and the Registrar to the Offer, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in the SEBI ICDR Regulations.

Method of allotment as may be prescribed by Securities and Exchange Board of India from time to time

Our Company will not make any allotment in excess of the Equity Shares offered through the Offer except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an allotment of not more than 1% of the Offer to public may be made for the purpose of making allotment in minimum lots.

The Allotment of Equity Shares to Bidders other than to the RIIs, NIIs and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed. The Allotment of Equity Shares to Anchor Investors shall be on a discretionary basis.

The Allotment of Equity Shares to each Retail Individual Investor shall not be less than the minimum Bid Lot, subject to the availability of shares in Retail Individual Investor Portion, and the remaining available shares, if any, shall be allotted on a proportionate basis. 15% of the Offer was available for allocation to Non-Institutional

Investors. The Equity Shares available for allocation to Non-Institutional Investors under the Non-Institutional Portion were subject to the following: (i) one-third of the portion available to Non-Institutional Investors was reserved for applicants with an application size of more than ₹ 200,000 and up to ₹ 1,000,000, and (ii) two-third of the portion available to Non-Institutional Investors was reserved for applicants with an application size of more than ₹ 1,000,000, provided that the unsubscribed portion in either of the aforementioned sub-categories would be allocated to applicants in the other sub-category of Non-Institutional Investors. The allotment to each Non-Institutional Investor would not be less than the Minimum NII application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares

The allotment of Equity Shares to each RII shall not be less than the minimum bid lot, subject to the availability of shares in RII Portion, and the remaining available shares, if any, shall be allotted on a proportionate basis.

Furthermore, investors in the Equity Shares of our Company were advised to note that after Allotment of Equity Shares pursuant to the Offer, they will be shareholders of our Company and not investors in the funds managed and advised by us, and therefore, shall not receive any returns, distributions, or profits arising from the performance of such funds, except to the extent of dividends declared by our Company from its own profits.

Payment into Anchor Investor Escrow Account

Our Company, in consultation with the BRLMs decided the list of Anchor Investors to whom the CAN was sent, pursuant to which, the details of the Equity Shares allocated to them in their respective names was notified to such Anchor Investors. Anchor Investors were not permitted to Bid in the Offer through the ASBA process. Instead, Anchor Investors transferred the Bid Amount (through direct credit, real time gross settlement ("**RTGS**"), national automated clearing house ("**NACH**") or national electronic fund transfer ("**NEFT**") to the Escrow Account(s). For Anchor Investors, the payment instruments for payment into the Anchor Investor Escrow Account were required to be drawn in favour of:

(a) In case of resident Anchor Investors: "EAAA India Alternatives Limited – Anchor – Resident Account"

(b) In case of Non-Resident Anchor Investors: "EAAA India Alternatives Limited – Anchor – Non-Resident Account"

Anchor Investors were advised to note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Promoter Selling Shareholder, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections of Bid amounts from Anchor Investors.

Pre-Offer Advertisement and Price Band Advertisement

Subject to Section 30 of the Companies Act, 2013, our Company, after filing the Red Herring Prospectus with the RoC, published a pre-Offer and price band advertisement, in the form prescribed under the SEBI ICDR Regulations, in all editions of Financial Express (a widely circulated English national daily newspaper), all editions of Jansatta (a widely circulated Hindi national daily newspaper) and Mumbai edition of Navshakti (a widely circulated Marathi national daily newspaper, Marathi also being the regional language of Maharashtra, India, where our Registered Office is located).

In the pre-Offer and price band advertisement, we stated the Bid/Offer Opening Date and the Bid/Offer Closing Date. This advertisement, subject to the provisions of Section 30 of the Companies Act, 2013, was in the format prescribed in Part A of Schedule X of the SEBI ICDR Regulations.

The information set out above was given for the benefit of the Bidders/applicants. Bidders/applicants were advised to make their independent investigations and ensure that the number of Equity Shares Bid for did not exceed the prescribed limits under applicable laws or regulations.

Allotment Advertisement

The Allotment Advertisement shall be uploaded on the websites of our Company, the BRLMs and the Registrar to the Offer, before 9.00 p.m. IST, on the date of receipt of the final listing and trading approval from all the Stock Exchanges where the Equity Shares are proposed to be listed, provided such final listing and trading approval from all the Stock Exchanges is received prior to 9.00 p.m. IST on that day. In an event, if final listing and trading approval from all the Stock Exchanges is received post 9.00 p.m. IST on the date of receipt of the final listing and trading approval from all the Stock Exchanges where the equity shares of the Issuer are proposed to be listed, then

the Allotment Advertisement shall be uploaded on the websites of our Company, the BRLMs and the Registrar to the Offer, following the receipt of final listing and trading approval from all the Stock Exchanges.

Our Company, the BRLMs and the Registrar to the Offer shall publish an allotment advertisement prior to commencement of trading, disclosing the date of commencement of trading in all editions of Financial Express (a widely circulated English national daily newspaper), all editions of Jansatta (a widely circulated Hindi national daily newspaper) and Mumbai edition of Navshakti (a widely circulated Marathi national daily newspaper, Marathi also being the regional language of Maharashtra, India, where our Registered Office is located).

The information set out above is given for the benefit of the Bidders/applicants. Our Company, the Promoter Selling Shareholder, severally and not jointly and the Book Running Lead Managers were not liable for any amendments or modification or changes in applicable laws or regulations, which may have occurred after the date of the Red Herring Prospectus. Bidders/applicants were advised to make their independent investigations and ensure that the number of Equity Shares Bid for did not exceed the prescribed limits under applicable laws or regulations.

Signing of the Underwriting Agreement and Filing with the Registrar of Companies, Mumbai - I at Mumbai

Our Company, the Promoter Selling Shareholder and the Underwriters have entered into an Underwriting Agreement dated October 28, 2026. After signing the Underwriting Agreement, this Prospectus has been filed with the RoC in accordance with applicable law. This Prospectus contains details of the Offer Price, the Anchor Investor Offer Price, the Offer size, and underwriting arrangements and is complete in all material respects.

- no further issue of the Equity Shares shall be made from the date of the Red Herring Prospectus till the Equity Shares offered through the Red Herring Prospectus and this Prospectus are listed or until the Bid monies are refunded/unblocked in the relevant ASBA Accounts on account of non-listing, undersubscription, etc.

- adequate arrangements were made to collect all Bid cum Application Forms from Bidders and that they will be considered similar to non-ASBA Applications while finalizing the Basis of Allotment.

Undertakings by the Promoter Selling Shareholder

The Promoter Selling Shareholder, specifically undertakes and/or confirms the following in respect to itself as a Promoter Selling Shareholder and the Offered Shares:

- that the Offered Shares are eligible for being offered in the Offer for Sale in terms of Regulation 8 of the SEBI ICDR Regulations and are in dematerialised form;

- it is the legal and beneficial owner of the Offered Shares with valid and marketable title, and shall be transferred pursuant to the Offer, free and clear of any encumbrances;

- it has transferred the Offered Shares in an escrow demat account in accordance with the Share Escrow Agreement;

- it shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid in the Offer;

- the Offered Shares are fully paid; and

- it shall not have recourse to the proceeds from the Offer for Sale until receipt by our Company of the final listing and trading approvals from the Stock Exchanges in accordance with applicable law.

Utilisation of proceeds from the Offer

Our Company will not directly receive any Offer Proceeds and all the Offer Proceeds will be received by the Promoter Selling Shareholder, in proportion to the Offered Shares sold by it as part of the Offer. For details of the Offered Shares, see "***Other Regulatory and Statutory Disclosures***" beginning on page 443.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The Government of India makes policy announcements on FDI through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT (formerly Department of Industrial Policy and Promotion) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the "**Consolidated FDI Policy**"), which consolidates and supersedes all previous press note, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. FDI in companies in financial services company regulated by sectoral regulator (in our case, being SEBI) is permitted up to 100% of the paid up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions.

In terms of Press Note 3 of 2020, dated April 17, 2020 ("**Press Note**"), issued by the DPIIT, the Consolidated FDI Policy and the FEMA (Non-debt Instruments) Rules has been amended to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period. Subsequently, vide Press Note No. 2 (2026 Series), dated March 15, 2026 issued by the DPIIT, the Consolidated FDI Policy has been further amended to, inter alia, define the expression "beneficial owner" and to provide that prior approval of the Government of India shall be required only where citizen(s) and/ or entity(ies) of a country sharing a land border with India have the ability to, directly or indirectly, individually or cumulatively, independently or collectively, whether acting together or otherwise, hold rights/entitlements more than 10% of the shares, capital or profits of the investor entity, or exercise control over such investor entity which is incorporated or registered in a country other than a country sharing land border with India, or exercise ultimate effective control over the investee entity in any manner. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. The FEMA (Non-Debt Instruments) (Third Amendment) Rules, 2026 broadens the scope from NRIs and Overseas Citizen of India ("**OCI**") to all individual persons resident outside India, increases individual investment caps to 24% of the total paid-up Equity Share capital on a fully diluted basis or 24% of the paid-up value of each series of debentures or preference shares or share warrant.

Transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, see "***Offer Procedure – Bids by Eligible Non-Resident Indians***" and "***Offer Procedure – Bids by Foreign Portfolio Investors***" on page 488 and 489, respectively.

As per the existing policy of the Government of India, OCBs could not participate in this Offer.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. Persons, except pursuant to an exemption from, or in a transaction not subject to, the registration

requirements of the U.S. Securities Act and applicable state securities laws in the United States. The Company has not registered and does not intend to register under the U.S. Investment Company Act in reliance on Section 3(c)(7) of the U.S. Investment Company Act, and investors will not be entitled to the benefits of the U.S. Investment Company Act. Accordingly, the Equity Shares are only being offered and sold (i) to persons in the United States or to or for the account or benefit of, U.S. Persons, in each case to investors that are both "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Prospectus as "**U.S. QIBs**" and, for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Prospectus as "**QIBs**") and "qualified purchasers" (as defined under the U.S. Investment Company Act and referred to in this Prospectus as "**QPs**") in transactions exempt from or not subject to the registration requirements of the U.S. Securities Act and in reliance on Section 3(c)(7) of the U.S. Investment Company Act; or (ii) outside the United States to investors that are not U.S. Persons nor persons acquiring for the account or benefit of U.S. Persons in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

For further details, see "***Offer Procedure***" beginning on page 482.

The above information is given for the benefit of the Bidders. Our Company and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Bidders were advised to make their independent investigations and ensure that the number of Equity Shares Bid do not exceed the applicable limits under laws or regulations.

8. Voting rights of preference shares

The holder of preference shares shall have a right to vote only on resolutions, which directly affect the rights attached to his preference shares.

9. Provisions to apply on issue of Redeemable Preference Shares

On the issue of redeemable preference shares under the provisions of Article 7 hereof, the following provisions-shall take effect:

(a) No such shares shall be redeemed except out of profits of which would otherwise be available for dividend or out of proceeds of a fresh issue of shares made for the purpose of the redemption;

(b) No such shares shall be redeemed unless they are fully paid;

(c) Subject to section 55(2)(d)(i) of the Act, the premium, if any payable on redemption shall have been provided for out of the profits of the Company or out of the Company's security premium account, before the Shares are redeemed;

(d) Where any such shares are redeemed otherwise then out of the proceeds of a fresh issue, there shall out of profits which would otherwise have been available for dividend, be transferred to a reserve fund, to be called "the Capital Redemption Reserve Account", a sum equal to the nominal amount of the shares redeemed, and the provisions of the Act relating to the reduction of the share capital of the Company shall, except as provided in Section 55 of the Act apply as if the Capital Redemption Reserve Account were paid-up share capital of the Company; and

(e) Subject to the provisions of Section 55 of the Act, the redemption of preference shares hereunder

may be effected in accordance with the terms and conditions of their issue and in the absence of any specific terms and conditions in that behalf, in such manner as the Board may think fit. The reduction of preference shares under the provisions by the Company shall not be taken as reducing the amount of its authorized share capital.

10. Reduction of capital

The Company may (subject to the provisions of Sections 52, 55 and 66 and other applicable provisions, if any, of the Act) from time to time by Special Resolution reduce:

(a) the share capital;

(b) any capital redemption reserve account; or

(c) any security premium account.

11. Terms of issue of Debentures

Any debentures, debenture stock, bonds or other securities may be issued on such terms and conditions as the Board may think fit. Provided that the debentures with a right to allotment or conversion into shares shall be issued in conformity with the provisions of Section 62 of the Act. The debentures, debenture stock, bonds and other securities may be made assignable free from any equities from the Company and the person to whom it may be issued. The debentures, debenture stock, bonds and other securities with the right to conversion into or allotment of shares shall be issued only with the consent of the Company in the General Meeting by a Special Resolution.

12. Issue of Sweat Equity Shares

The Company shall be entitled to keep a part of the register in any country outside India containing the names and particulars of the members, residing outside India.

MODIFICATION OF CLASS RIGHTS

19. Variation of shareholders' rights.

(a) If at any time the share capital, by reason of the issue of preference shares or otherwise is divided into different classes of shares, all or any of the rights privileges attached to any class (unless otherwise provided by the terms of issue of the shares of the class) may, subject to the provisions of Section 48 of the Act and whether or not the Company is being wound-up, be varied, modified or dealt, with the consent in writing of the holders of not less than three-fourths of the issued shares of that class or with the sanction of a Special Resolution passed at a separate general meeting of the holders of the shares of that class.

To every such separate meeting, the provisions of these Articles relating to general meetings shall mutatis mutandis apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.

Provided that if variation by one class of shareholders affects the rights of any other class of shareholders, the consent of three-fourths of such other class of shareholders shall also be obtained and the provisions of this section shall apply to such variation.

New Issue of Shares not to affect rights attached to existing shares of that class.

(b) The rights conferred upon the holders of the shares including preference share, if any, of any class issued with preferred or other rights or privileges shall not, unless otherwise expressly provided by the terms of the issue of shares of that class, be deemed to be varied by the creation or issue of further shares ranking pari passu therewith.

20. Shares at the disposal of the Board.

Subject to the provisions of Section 62 of the Act and these Articles, the shares in the capital of the Company for the time being shall be under the control of the Board who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may from time to time think fit and with the sanction of the Company in the General Meeting to give to any person or persons the option or right to call for any shares either at par or premium during such time and for such consideration as the Board think fit.

PROVIDED THAT option or right to call of shares shall not be given to any person or persons without the sanction of the Company in the General Meeting.

21. Power to issue shares on preferential basis.

The Company may issue shares or other securities in any manner whatsoever including by way of a preferential offer, to any persons whether or not those persons include the persons referred to in clause (a) or clause (b) of sub-section (1) of Section 62 of the Act subject to compliance with Sections 42 and

62 of the Act and rules framed thereunder.

22. Share Certificate should be numbered progressively and no share to be subdivided.

The share certificates shall be numbered progressively according to their several denominations specifying the shares to which it relates and bear the seal of the Company and except in the manner hereinbefore mentioned, no share shall be sub-divided. Every forfeited or surrendered share shall continue to bear the number by which the same was originally distinguished.

23. Acceptance of Shares.

An application signed by or on behalf of an applicant for shares in the Company, followed by an allotment of any shares therein, shall be an acceptance of shares within the meaning of these Articles, and every person who does or otherwise accepts any shares and whose name is on the Register shall for the purposes of these Articles, be a Member.

24. Allotment of shares by the Board for consideration other than cash

Subject to the provisions of the Act and these Articles, the Board may allot and issue shares in the Capital of the Company as payment or part payment for any property (including goodwill of any business) sold or transferred, goods or machinery supplied or for services rendered to the Company either in or about the formation or promotion of the Company or the conduct of its business and any shares which may be so allotted may be issued as fully paid-up or partly paid-up otherwise than in cash, and if so issued, shall be deemed to be fully paid-up or partly paid-up shares as aforesaid.

25. Deposit and call etc.to be a debt payable immediately.

The money (if any) which the Board shall on the allotment of any shares being made by them, require or direct to be paid by way of deposit, call or otherwise, in respect of any shares allotted by them shall immediately on the insertion of the name of the allottee in the Register of Members as the name of the holder of such Shares, become a debt due to and recoverable by the Company from the allottee thereof, and shall be paid by him, accordingly.

26. Liability of Members.

Every Member, or his heirs, executors, administrators, or legal representatives, shall pay to the Company the portion of the Capital represented by his share or shares which may, for the time being, remain unpaid thereon, in such amounts at such time or times, and in such manner as the Board shall, from time to time in accordance with the Company's regulations, require on date fixed for the payment thereof.

27. Registration of Shares.

Shares may be registered in the name of the Company but not in the name of a firm, an insolvent person or a person of unsound mind.

RETURN ON ALLOTMENTS TO BE MADE OR RESTRICTIONS ON ALLOTMENT

28. The Board shall observe the restrictions on allotment of shares to the public, and return on allotments contained in Section 39 of the Act.

CERTIFICATES

29. Limitation of time for issue of Share Certificates.

Every member shall be entitled, without payment, to one or more certificates in marketable lots, for all the shares of each class or denomination registered in his name, or if the Directors so approve (upon paying such fee as provided in the relevant laws) to several certificates, each for one or more of such shares and the Company shall complete and have ready for delivery such certificates within two months from the date of allotment, unless the conditions of issue thereof otherwise provide, or within one month of the receipt of application for registration of transfer, transmission, sub-division, consolidation or renewal of any of its shares as the case may be. Every certificate of shares shall be

under the seal of the Company and shall specify the number and distinctive numbers of shares in respect of which it is issued and amount paid-up thereon and shall be in such form as the Board may prescribe and approve.

PROVIDED THAT in respect of a share or shares held jointly by several persons, the Company shall not be bound to issue more than one certificate and delivery of a certificate of shares to one or several joint holders shall be a sufficient delivery to all such holders.

(a) Any two or more joint allottees of shares shall, for the purpose of this Article, be treated as a single member, and the certificate of any shares which may be the subject of joint ownership, may be delivered to anyone of such joint owners on behalf of all of them. For any further certificate the Board shall be entitled, but shall not be bound, to prescribe a charge not exceeding Rupees Fifty. The Company shall comply with the provisions of Section 39 of the Act.

30. Issue of new certificates in place of those defaced, lost or destroyed.

(a) If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, or in case of sub-division or consolidation of shares, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deem adequate, being given, a new certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate.

(b) Every certificate under this Article shall be issued in case of splitting or consolidation of share certificate(s) or in replacement of share certificate(s) that are defaced, mutilated, torn or old, decrepit or worn out without payment of fees if the Board so decide, or on payment of such fees (not exceeding Rs.50 for each certificate) as the Board shall prescribe.

(c) Further, no duplicate certificate shall be issued in lieu of those that are lost or destroyed, without the prior consent of the Board or Committee thereof and only on furnishing of such supporting evidence and/or indemnity as the Board may require, and the payment of out-of-pocket expenses incurred by the Company in investigating the evidence produced, without payment of fees if the Board so decide, or on payment of such fees (not exceeding Rs.50 for each certificate) as the Board shall prescribe.

Provided that notwithstanding what is stated above the Board thereof shall comply with such rules or regulation or requirements of any stock exchange or the rules made under the Act or rules made under Securities Contracts (Regulation) Act, 1956, as amended or any other Act, or rules applicable thereof in this behalf; provided further, that the Company shall comply with the provisions of Section 46 of the Act and other Applicable Law, in respect of issue of duplicate shares.

(d) All books and documents relating to the issue of share certificates including the blank forms of share certificates shall be kept in safe custody and to be properly maintained and preserved in accordance with the manner laid down in Applicable Law.

(e) The provision of this Article shall mutatis mutandis apply to issue of certificates of debentures of the Company or to any other securities issued by the Company.

31. The first named joint holder deemed Sole holder.

If any share stands in the names of two or more persons, the person first named in the Register shall as regard receipts of dividends or bonus or service of notices and all or any other matter connected with the Company except voting at meetings, and the transfer of the shares, be deemed sole holder thereof but the joint-holders of a share shall be severally as well as jointly liable for the payment of all calls and other payments due in respect of such share and for all incidentals thereof according to the Company's regulations.

Maximum number of joint holders.

The Company shall not be bound to register more than three persons as the joint holders of any share.

32. Company not bound to recognise any interest in share other than that of registered holders.

Except as ordered by a Court of competent jurisdiction or as required by law required, the Company shall not be bound to recognise any equitable, contingent, future or partial interest in any share, or (except only as is by these Articles otherwise expressly provided) any right in respect of a share other than an absolute right thereto, in accordance with these Articles, in the person from time to time registered as the holder thereof but the Board shall be at liberty at its sole discretion to register any share in the joint names of any two or more persons or the survivor or survivors of them.

33. Instalment on shares to be duly paid.

If by the conditions of allotment of any share, the whole or part of the amount or issue price is payable by instalment, every such instalment shall when due be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative.

UNDERWRITING AND BROKERAGE

34. Commission

Subject to the provisions of Section 40 (6) of the Act, the Company may at any time pay a commission to any person in consideration of his subscribing or agreeing, to subscribe (whether absolutely or conditionally) for any shares or debentures in the Company, or procuring, or agreeing to procure subscriptions (whether absolutely or conditionally) for any shares or debentures in the Company but so that the commission shall not exceed the maximum rates laid down by the Act and the rules made in that regard. Such commission may be satisfied by payment of cash or by allotment of fully or partly paid shares or partly in one way and partly in the other.

35. Brokerage

The Company may pay on any issue of shares and debentures such brokerage as may be reasonable and lawful.

CALLS

36. Board may make calls

(1) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board.

(2) A call may be revoked or postponed at the discretion of the Board.

(3) A call may be made payable by instalments.

37. Notice of Calls

Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.

38. Calls to date from resolution.

A call shall be deemed to have been made at the time when the resolution of the Board authorising such call was passed and may be made payable by the Members, in instalments, whose names appear on the Register of Members on such date or at the discretion of the Board on such subsequent date as may be fixed by the Board.

39. Calls on uniform basis.

Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.

40. Board may extend time.

The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the Members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no Member shall be entitled to such extension save as a matter of grace and favour.

41. Calls to carry interest.

If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate, as the Board may determine and as permissible under the Applicable law. Nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such Member.

42. Sums deemed to be calls.

If by the terms of issue of any share or otherwise any amount is made payable at any fixed time or by instalments at fixed time (whether on account of the amount of the share or by way of premium) every such amount or instalment shall be payable as if it were a call duly made by the Board and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or instalment accordingly.

43. Proof on trial of suit for money due on shares.

On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, appears entered on the Register of Members as the holder, at or subsequent to the date at which the money is sought to be recovered is alleged to have become due on the share in respect of which such money is sought to be recovered in the minute books: and that notice of such call was duly given to the Member or his representatives used in pursuance of these Articles: and that it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board meeting at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.

44. Partial payment not to preclude forfeiture.

Neither the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.

45. Payments in Anticipation of calls may carry interest

(a) The Board may, if it thinks fit, subject to the provisions of Section 50 of the Act, agree to and receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the monies so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at such rate as the Member paying the sum in advance and the Board agree upon. The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' notice in writing: provided that monies paid in advance of calls on shares may carry interest but shall not confer a

right to dividend or to participate in profits or dividends.

(b) No Member paying any such sum in advance shall be entitled to voting rights in respect of the monies so paid by him until the same would but for such payment become presently payable.

(c) The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.

LIEN

46. Company to have Lien on shares/debentures.

The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each Member (whether solely or jointly with others) and upon the proceeds of sale thereof for all monies (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect and such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien, if any, on such shares/debentures.

The Board may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this Article.

47. Fully paid shares to be free from all lien

Fully paid shares of the Company shall be free from all lien. In the case of partly paid shares, the Company's lien shall be restricted to monies called or payable at a fixed time in respect of such shares.

48. As to enforcing lien by sale.

For the purpose of enforcing such lien, the Board may sell the shares subject thereto in such manner as they shall think fit, and for that purpose may cause to be issued a duplicate certificate in respect of such shares and may authorise one of their members to execute a transfer thereof on behalf of and in the name of such member. The purchaser of such transferred shares shall be registered as the holder of the shares comprised in any such transfer. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

No sale shall be made unless a sum in respect of which the lien exists is presently payable or until the expiration of thirty days after a notice in writing of the intention to sell shall have been served on such member or his representatives and default shall have been made by him or them in payment, fulfillment, or discharge of such debts, liabilities or engagements for thirty days after such notice.

49. Application of proceeds of sale.

The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.

FORFEITURE AND SURRENDER OF SHARES

50. If call or instalment not paid, notice may be given.

If any Member fails to pay any call or instalment on or before the day appointed for the payment of the same, the Board may at any time thereafter during such time as the call or instalment remains unpaid, serve a notice on such Member requiring him to pay the same, together with any interest that may have accrued and all expenses that may have been incurred by the Company by reason of such non-payment.

51. Terms of notice.

The notice aforesaid shall:

i. name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

ii. shall detail the amount which is due and payable on the shares and shall state that in the event of non- payment at or before the time appointed the shares will be liable to be forfeited.

52. If notice not complied, shares may be forfeited.

If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or instalments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other monies payable in respect of the forfeited shares and not actually paid before the forfeiture.

53. Notice of forfeiture to a Member.

When any shares have been forfeited, notice of the forfeiture shall be given to the Member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members but no forfeiture shall be in any manner invalidated, by any omission or neglect to give such notice or to make any such entry as aforesaid.

54. Forfeited shares to become property of the Company and may be sold.

Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.

55. Members still liable to pay money owing at time of forfeiture and interest.

Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, instalments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so. The liability of such person shall cease if and when the Company shall have received payment in full of all such monies in respect of the shares.

56. Effect of forfeiture.

The forfeiture of shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the shares and all other rights incidental to the shares, except only such of those rights as by these Articles are expressly saved.

57. Evidence of Forfeiture.

A duly verified declaration in writing that the declarant is a Director or secretary of the Company and that shares in the Company have been duly forfeited in accordance with these Articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.

58. Title of purchaser and allottee of Forfeited shares.

The Company may receive the consideration, if any, given for the shares on any sale, re-allotment or other disposition thereof and the person to whom such shares are sold, re-allotted or disposed of may be registered as the holder of the shares and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the shares be affected by any irregularly or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares.

The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the

nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

59. Cancellation of share certificate in respect of forfeited shares.

Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Board shall be entitled to issue a duplicate certificate or certificates in respect of the said shares to the person or persons entitled thereto.

60. Surrender of shares.

The Board may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Board may think fit.

TRANSFER AND TRANSMISSION OF SHARES

61. Execution of the instrument of shares.

(a) The instrument of transfer of any share in or debenture of the Company shall be executed by or on behalf of both the transferor and transferee.

(b) The transferor shall be deemed to remain a holder of the share or debenture until the name of the transferee is entered in the Register of Members or Register of Debenture holders in respect thereof.

62. Transfer Form.

The instrument of transfer of any share or debenture shall be in writing and all the provisions of Section 56 of the Act and statutory modification thereof including other applicable provisions of the Act shall be duly complied with in respect of all transfers of shares or debenture and registration thereof.

The instrument of transfer shall be in a common form approved by the stock exchange.

63. Transfer not to be registered except on production of instrument of transfer.

The Company shall not register a transfer in the Company other than the transfer between persons both of whose names are entered as holders of beneficial interest in the records of a depository, unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee and specifying the name, address and occupation if any, of the transferee, has been delivered to the Company along with the certificate relating to the shares or if no such share certificate is in existence along with the letter of allotment of the shares: Provided that where, on an application in writing made to the Company by the transferee and bearing the stamp, required for an instrument of transfer, it is proved to the satisfaction of the Board that the instrument of transfer signed by or on behalf of the transferor and by or on behalf of the transferee has been lost, the Company may register the transfer on such terms as to indemnity as the Board may think fit, provided further that nothing in this Article shall prejudice any power of the Company to register as shareholder any person to whom the right to any shares in the Company has been transmitted by operation of law.

64. Board may refuse to register transfer.

Subject to the provisions of Sections 56, 58 and 59 of the Act and Section 22A of the Securities Contracts (Regulation) Act, 1956, these Articles and other applicable provisions of the Act, the Board may, whether in pursuance of any power of the Company under these Articles or otherwise, decline to register the transfer of, or the transmission by operation of law of the right to, any shares, or interest of a Member therein, or debentures of the Company. The Company shall, within one month from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to Company, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal.

PROVIDED THAT registration of transfer shall however not be refused on the ground of the

transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever, except where the Company has a lien on shares.

65. Notice of refusal to be given to transferor and transferee.

If the Company refuses to register the transfer of any share or transmission of any right therein, the Company shall within one month from the date on which the instrument of transfer or intimation of transmission was lodged with the Company, send notice of refusal to the transferee and transferor or to the person giving intimation of the transmission, as the case may be, and there upon the provisions of Section 56 of the Act or any statutory modification thereof for the time being in force shall apply.

66. No fee on transfer.

No fee shall be charged for registration of transfer, transmission, probate, succession certificate and letter of administration, certificate of death or marriage, power of attorney or similar other document with the Company.

67. Closure of Register of Members or debenture holder or other security holders

The Board shall have power on giving not less than seven days previous notice in accordance with Section 91 of the Act and rules made thereunder close the Register of Members and/or the Register of debentures holders and/or other security holders at such time or times and for such period or periods, not exceeding thirty days at a time, and not exceeding in the aggregate forty five days in each year as it may seem expedient to the Board.

68. Custody of transfer Deeds.

The instrument of transfer shall after registration be retained by the Company and shall remain in its custody. All instruments of transfer which the Board may decline to register shall on demand be returned to the persons depositing the same. The Board may cause to be destroyed all the transfer deeds with the Company after such period as they may determine.

69. Application for transfer of partly paid shares.

Where an application of transfer relates to partly paid shares, the transfer shall not be registered unless the Company gives notice of the application to the transferee and the transferee makes no objection to the transfer within two weeks from the receipt of the notice.

70. Notice to transferee.

For this purpose the notice to the transferee shall be deemed to have been duly given if it is dispatched by prepaid registered post/speed post/ courier to the transferee at the address given in the instrument of transfer and shall be deemed to have been duly delivered at the time at which it would have been delivered in the ordinary course of post.

71. Recognition of legal representative.

(a) On the death of a Member, the survivor or survivors, where the Member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only person recognized by the Company as having any title to his interest in the shares.

(b) Before recognising any executor or administrator or legal representative, the Board may require him to obtain a Grant of Probate or Letters Administration or other legal representation as the case may be, from some competent court in India.

Provided nevertheless that in any case where the Board in its absolute discretion thinks fit, it shall be lawful for the Board to dispense with the production of probate or letter of administration or such other legal representation upon such terms as to indemnity or otherwise, as the Board in its absolute discretion, may consider adequate

(c) Nothing in clause (a) above shall release the estate of the deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.

72. Titles of Shares of deceased Member

The Executors or Administrators of a deceased Member or holders of a Succession Certificate or the Legal Representatives in respect of the shares of a deceased Member (not being one of two or more joint holders) shall be the only persons recognized by the Company as having any title to the shares registered in the name of such Members, and the Company shall not be bound to recognize such Executors or Administrators or holders of Succession Certificate or the Legal Representative unless such Executors or Administrators or Legal Representative shall have first obtained Probate or Letters of Administration or Succession Certificate as the case may be from a duly constituted Court in the Union of India provided that in any case where the Board in its absolute discretion thinks fit, the Board upon such terms as to indemnity or otherwise as the Directors may deem proper dispense with production of Probate or Letters of Administration or Succession Certificate and register shares standing in the name of a deceased Member, as a Member. However, provisions of this Article are subject to Section 72 of the Act.

73. Notice of application when to be given

Where, in case of partly paid Shares, an application for registration is made by the transferor, the Company shall give notice of the application to the transferee in accordance with the provisions of Section 56 of the Act.

74. Registration of persons entitled to share otherwise than by transfer. (transmission clause).

Subject to the provisions of the Act and these Articles, any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy, insolvency of any member or by any lawful means other than by a transfer in accordance with These presents, may, with the consent of the Board (which they shall not be under any obligation to give) upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of this title as the Board shall require either be registered as member in respect of such shares or elect to have some person nominated by him and approved by the Board registered as Member in respect of such shares; provided nevertheless that if such person shall elect to have his nominee registered he shall testify his election by executing in favour of his nominee an instrument of transfer in accordance so he shall not be freed from any liability in respect of such shares. This clause is hereinafter referred to as the 'Transmission Clause'.

75. Refusal to register nominee.

Subject to the provisions of the Act and these Articles, the Board shall have the same right to refuse or suspend register a person entitled by the transmission to any shares or his nominee as if he were the transferee named in an ordinary transfer presented for registration.

76. Board may require evidence of transmission.

Every transmission of a share shall be verified in such manner as the Board may require and the Company may refuse to register any such transmission until the same be so verified or until or unless an indemnity be given to the Company with regard to such registration which the Board at their discretion shall consider sufficient, provided nevertheless that there shall not be any obligation on the Company or the Board to accept any indemnity.

77. Company not liable for disregard of a notice prohibiting registration of transfer

The Company shall incur no liability or responsibility whatsoever in consequence of its registering or giving effect to any transfer of shares made, or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register or Members) to the prejudice of persons having or claiming any equitable right, title or interest to or in the same shares notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer, and may have entered such notice or referred thereto in any book of the Company and the Company shall not be bound or require to regard or attend or give effect to any notice which may be given to them of any equitable right, title or interest, or be under any liability whatsoever for refusing or neglecting so to do though it may have been entered or referred to in some book of the Company but the Company shall nevertheless be at liberty to regard and attend to any such notice and give effect thereto, if the Board shall so think fit.

78. Form of transfer Outside India.

In the case of any share registered in any register maintained outside India the instrument of transfer shall be in a form recognized by the law of the place where the register is maintained but subject thereto shall be as near to the form prescribed in Form no. SH-4 hereof as circumstances permit.

79. No transfer to minor, insolvent etc.

No transfer shall be made to any minor, insolvent or person of unsound mind.

NOMINATION

80. Nomination

i) Notwithstanding anything contained in these Articles, every holder of securities of the Company may, at any time, nominate a person in whom his/her securities shall vest in the event of his/her death and the provisions of Section 72 of the Act shall apply in respect of such nomination.

ii) No person shall be recognized by the Company as a nominee unless an intimation of the appointment of the said person as nominee has been given to the Company during the lifetime of the holder(s) of the securities of the Company in the manner specified under Section 72 of the Act read with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014

iii) The Company shall not be in any way responsible for transferring the securities consequent upon such nomination.

iv) If the holder(s) of the securities survive(s) nominee, then the nomination made by the holder(s) shall be of no effect and shall automatically stand revoked.

81. Transmission of Securities by nominee

A nominee, upon production of such evidence as may be required by the Board and subject as hereinafter provided, elect, either-

(i) to be registered himself as holder of the security, as the case may be; or

(ii) to make such transfer of the security, as the case may be, as the deceased security holder, could have made;

(iii) if the nominee elects to be registered as holder of the security, himself, as the case may be, he shall deliver or send to the Company, a notice in writing signed by him stating that he so elects and such notice shall be accompanied with the death certificate of the deceased security holder as the case may be;

(iv) a nominee shall be entitled to the same dividends and other advantages to which he would be entitled to, if he were the registered holder of the security except that he shall not, before being registered as a member in respect of his security, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company.

PROVIDED FURTHER THAT the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share or debenture, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable or rights accruing in respect of the share or debenture, until the requirements of the notice have been complied with.

DEMATERIALISATION OF SHARES

82. Dematerialisation of Securities

1) Notwithstanding anything contained herein, the Company shall be entitled to dematerialize its shares, debentures and other securities pursuant to the Depositories Act, 1996. The provisions of this section will be applicable in case of such securities as are or are intended to be

dematerialized.

2) Every Person subscribing to the shares offered by the Company shall have the option to receive share certificates or to hold the shares with a depository. Where person opts to hold any share with the depository, the Company shall intimate such depository of details of allotment of the s-hares to enable the depository to enter in its records the name of such Person as the beneficial owner of such shares. Such a Person who is the beneficial owner of the shares can at any time opt out of a depository, if permitted by the Law, in respect of any shares in the manner provided by the Depositories Act, 1996 and the regulations made thereunder and the Company shall in the manner and within the time prescribed, issue to the beneficial owner the required certificate of shares. In the case of transfer of shares or other marketable securities where the Company has not issued any certificates and where such shares or securities are being held in an electronic and fungible form, the provisions of the Depositories Act, 1996 shall apply.

3) If a Person opts to hold his shares with a depository, the Company shall intimate such depository the details of allotment of the shares, and on receipt of the information, the depository shall enter in its record the name of the allottee as the beneficial owner of the shares.

4) Subject to the applicable provisions of the Act, either the Company or the investor may exercise an option to issue, deal in, hold the securities (including shares) with a depository in electronic form and the certificates in respect thereof shall be dematerialized, in which event the rights and obligations of the parties concerned and matters connected therewith or incidental thereto shall be governed by the provisions of the Depositories Act, 1996 as amended from time to time or any statutory modification thereto or re-enactment thereof.

5) All shares held by a depository shall be dematerialized and shall be in a fungible form.

6) Notwithstanding anything to the contrary contained in the Act or the Articles, a depository shall be deemed to be the registered owner for the purposes of effecting any transfer of ownership of shares on behalf of the beneficial owner.

7) Save as otherwise provided in (6) above, the depository as the registered owner of the shares shall not have any voting rights or any other rights in respect of shares held by it.

8) Every person holding shares of the Company and whose name is entered as the beneficial owner in the records of the depository shall be deemed to be the owner of such shares and shall also be deemed to be a shareholder of the Company. The beneficial owner of the shares shall be entitled to all the liabilities in respect of his shares which are held by a depository. The Company shall be further entitled to maintain a Register of Members with the details of Members holding shares both in material and dematerialized form in any medium as permitted by Law including any form of electronic medium.

9) Notwithstanding anything in the Act or the Articles to the contrary, where shares are held in a depository, the records of the beneficial ownership may be served by such depository on the Company by means of electronic mode or by delivery of disks, drives or any other mode as prescribed by Law from time to time.

10) Nothing contained in the Act or the Articles regarding the necessity to have distinctive numbers for securities issued by the Company shall apply to securities held with a depository.

11) The Company shall cause to be kept a register and index of members in accordance with all applicable provisions of the Act and the Depositories Act, 1996, containing details of shares and debentures held in materialized and dematerialized forms in any media as may be permitted by law(s) including any form of electronic media.

12) The Company shall have the power to keep in any state or country outside India a branch register resident in that state or country.

83. Joint Holders

Where two or more persons are registered as the holders of any share, they shall be deemed to hold the same as joint shareholders with benefits of survivorship subject to the following and other provisions contained in these Articles.

84. Joint and several liabilities for all payments in respect of shares.

(a) The Joint holders of any share shall be liable severally as well as jointly for and in respect of all calls and other payments which ought to be made in respect of such share.

Title of survivors.

(b) On the death of any such joint holders the survivor or survivors shall be the only person recognized by the Company as having any title to the share but the Board may require such evidence of death as it may deem fit and nothing herein contained shall be taken to release the estate of a deceased joint holder from any liability of shares held by them jointly with any other person;

Receipts of one sufficient.

(c) Any one of two or more joint holders of a share may give effectual receipts of any dividends or other moneys payable in respect of share; and

Delivery of certificate and giving of notices to first named holders.

(d) only the person whose name stands first in the Register of Members as one of the joint holders of any share shall be entitled to delivery of the certificate relating to such share or to receive documents from the Company and any such document served on or sent to such person shall be deemed to be service on all the holders.

SHARE WARRANTS

85. Power to issue share warrants

The Company may issue warrants subject to and in accordance with provisions of the Act and accordingly the Board may in its discretion with respect to any share which is fully paid upon application in writing signed by the persons registered as holder of the share, and authenticated by such evidence(if any) as the Board may, from time to time, require as to the identity of the persons signing the application and on receiving the certificate (if any) of the share, and the amount of the stamp duty on the warrant and such fee as the Board may, from time to time, require, issue a share warrant.

86. Deposit of share warrants

(a) The bearer of a share warrant may at any time deposit the warrant at the Office of the Company, and so long as the warrant remains so deposited, the depositor shall have the same right of signing a requisition for call in a meeting of the Company, and of attending and voting and exercising the other privileges of a Member at any meeting held after the expiry of two clear days from the time of deposit, as if his name were inserted in the Register of Members as the holder of the share included in the deposit warrant.

(b) Not more than one person shall be recognized as depositor of the share warrant.

(c) The Company shall, on two day's written notice, return the deposited share warrant to the depositor.

87. Privileges and disabilities of the holders of share warrant

(a) Subject as herein otherwise expressly provided, no person, being a bearer of a share warrant, shall sign a requisition for calling a meeting of the Company or attend or vote or exercise any other privileges of a Member at a meeting of the Company, or be entitled to receive any notice from the Company.

(b) The bearer of a share warrant shall be entitled in all other respects to the same privileges and

advantages as if he were named in the Register of Members as the holder of the share included in the warrant, and he shall be a Member of the Company.

88. Issue of new share warrant coupons

The Board may, from time to time, make bye-laws as to terms on which (if it shall think fit), a new share warrant or coupon may be issued by way of renewal in case of defacement, loss or destruction.

CONVERSION OF SHARES INTO STOCK

89. Conversion of shares into stock or reconversion.

The Company may, by ordinary resolution in General Meeting.

a) convert any fully paid-up shares into stock; and

b) re-convert any stock into fully paid-up shares of any denomination.

90. Transfer of stock.

The holders of stock may transfer the same or any part thereof in the same manner as and subject to the same regulation under which the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit, provided that, the Board may, from time to time, fix the minimum amount of stock transferable so however that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

91. Rights of stock holders.

The holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, participation in profits, voting at meetings of the Company, and other matters, as if they hold the shares for which the stock arose but no such privilege or advantage shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

92. Regulations.

Such of the regulations of the Company (other than those relating to share warrants), as are applicable to paid up share shall apply to stock and the words "share" and "shareholders" in those regulations shall include "stock" and "stockholders" respectively.

BORROWING POWERS

93. Power to borrow.

Subject to the provisions of the Act and these Articles, the Board may, from time to time at its discretion, by a resolution passed at a meeting of the Board generally raise or borrow money by way of deposits, loans, overdrafts, cash credit or by issue of bonds, debentures or debenture-stock (perpetual or otherwise) or in any other manner, or from any person, firm, company, co-operative society, any body corporate, bank, institution, whether incorporated in India or abroad, Government or any authority or any other body for the purpose of the Company and may secure the payment of any sums of money so received, raised or borrowed; provided that the total amount borrowed by the Company (apart from temporary loans obtained from the Company's Bankers in the ordinary course of business) shall not without the consent of the Company in General Meeting exceed the aggregate of the paid up capital of the Company and its free reserves, that is to say reserves not set apart for any specified purpose, and its securities premium.

94. Issue of discount etc. or with special privileges.

Subject to the provisions of the Act and these Articles, any bonds, debentures, debenture-stock or any other securities may be issued at a discount, premium or otherwise and with any special privileges and conditions as to redemption, surrender, allotment of shares, appointment of Directors or otherwise; provided that debentures with the right to allotment of or conversion into shares shall not be issued

except with the sanction of the Company in General Meeting.

95. Securing payment or repayment of Monies borrowed.

The payment and/or repayment of monies borrowed or raised as aforesaid or any monies owing otherwise or debts due from the Company may be secured in such manner and upon such terms and conditions in all respects as the Board may think fit, and in particular by mortgage, charter, lien or any other security upon all or any of the assets or property (both present and future) or the undertaking of the Company including its uncalled capital for the time being, or by a guarantee by any Director, Government or third party, and the bonds, debentures and debenture stocks and other securities may be made assignable, free from equities between the Company and the person to whom the same may be issued and also by a similar mortgage, charge or lien to secure and guarantee, the performance by the Company or any other person or company of any obligation undertaken by the Company or any person or company as the case may be.

96. Bonds, Debentures etc. to be under the control of the Board.

Any bonds, debentures, debenture-stock or their securities issued or to be issued by the Company shall be under the control of the Board who may issue them upon such terms and conditions, and in such manner and for such consideration as they shall consider to be for the benefit of the Company.

97. Mortgage of uncalled capital.

If any uncalled capital of the Company is included in or charged by any mortgage or other security the Board shall subject to the provisions of the Act and these Articles make calls on the members in respect of such uncalled capital in trust for the person in whose favour such mortgage or security is executed.

98. Indemnity may be given.

Subject to the provisions of the Act and these Articles if the Directors or any of them or any other person shall incur or be about to incur any liability whether as principal or surety for the payment of any sum primarily due from the Company, the Board may execute or cause to be executed any mortgage, charge or security over or affecting the whole or any part of the assets of the Company by way of indemnity to secure the Directors or person so becoming liable as aforesaid from any loss in respect of such liability.

MEETINGS OF MEMBERS

99. Annual General Meeting

The Company shall in each year hold a General Meeting as its Annual General Meeting in addition to any other meetings in that year.

Every Annual General Meeting shall be called during business hours, that is, between 9 a.m. and 6 p.m. on any day that is not a national holiday and shall be held either at the Office of the Company or at some other place within the city, town or village in which the Office of the Company is situated.

In the case of an Annual General Meeting, all businesses to be transacted at the meeting shall be deemed special, with the exception of business relating to:

i. the consideration of financial statements and the reports of the Board of Directors and the Auditors;

ii. the declaration of any Dividend;

iii. the appointment of Directors in place of those retiring;

iv. the appointment of, and the fixing of the remuneration of the Auditors.

Extra-Ordinary General Meeting

All the General Meetings of the Company other than Annual General Meetings shall be called Extra-Ordinary General Meetings.

In case of Meeting other than Annual General Meeting, all business shall be deemed special.

100. Extra-Ordinary General Meeting by Board and by requisition

(a) The Board may, whenever they think fit, convene an Extra-Ordinary General Meeting and they shall on requisition of Members made in compliance with Section 100 of the Act, forthwith proceed to convene Extra-Ordinary General Meeting of the Members

Quorum at General Meeting

(b) No business shall be transacted at any General Meeting unless a quorum of Members, as stipulated under the provisions of the Act, is present at the time when the meeting proceeds to business.

(c) Save as otherwise provided herein, the quorum for the General Meetings shall be as provided in Section 103 of the Act.

When a Director or any two Members may call an Extra Ordinary General Meeting

(d) If at any time there are not within India sufficient Directors capable of acting to form a quorum, or if the number of Directors be reduced in number to less than the minimum number of Directors prescribed by these Articles and the continuing Directors fail or neglect to increase the number of Directors to that number or to convene a General Meeting, any Director or any two or more Members of the Company holding not less than one-tenth of the total paid up share capital of the Company may call for an Extra-Ordinary General Meeting in the same manner as nearly as possible as that in which such a meeting may be called by the Board.

101. Meeting not to transact business not mentioned in notice.

No General Meeting, Annual or Extraordinary, shall be competent to enter upon, discuss or transact any business which has not been mentioned in the notice or notices upon which it was convened.

102. Chairperson of General Meeting

The chairperson (if any) of the Board shall be entitled to take the chair at every General Meeting, whether Annual or Extraordinary. If there is no such chairperson of the Board, or if at any Meeting he is not present within fifteen minutes of the time appointed for holding such Meeting or if he is unable or unwilling to take the chair, then the vice chairperson, if any, of the Company so shall take the chair and preside the Meeting. In the absence of the vice chairman as well or if the Company has no vice- chairman, then the Directors present may choose one of the Directors among themselves to preside the Meeting.

103. Business confined to election of Chairperson or Vice Chairperson whilst chair is vacant.

No business, except the election of a chairperson or vice chairman, shall be discussed at any General Meeting whilst the chair is vacant.

104. Chairperson with consent may adjourn Meeting.

a) The chairperson may, with the consent of any Meeting at which a quorum is present, and shall, if so directed by the Meeting, adjourn the Meeting from time to time and from place to place.

b) No business shall be transacted at any adjourned Meeting other than the business left unfinished at the Meeting from which the adjournment took place.

c) When a Meeting is adjourned for thirty days or more, notice of the adjourned Meeting shall be given as in the case of an original Meeting.

d) Save as aforesaid, and as provided in Section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned Meeting.

105. Chairperson's casting vote.

In the case of an equality of votes the chairperson shall both on a show of hands, on a poll (if any) and

e-voting, have casting vote in addition to the vote or votes to which he may be entitled as a Member.

106. In what case poll taken without adjournment.

Any poll duly demanded on the election of chairperson or vice chairman of the Meeting or any question of adjournment shall be taken at the Meeting forthwith.

107. Demand for poll not to prevent transaction of other business.

The demand for a poll except on the question of the election of the chairman or vice chairman and of an adjournment shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.

VOTES OF MEMBERS

108. Members in arrears not to vote.

No Member shall be entitled to vote either personally or by proxy at any General Meeting or Meeting of a class of shareholders either upon a show of hands, upon a poll or electronically, or be reckoned in a quorum in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid or in regard to which the Company has exercised, any right or lien.

109. Number of votes each member entitled.

Subject to the provision of these Articles and without prejudice to any special privileges, or restrictions as to voting for the time being attached to any class of shares for the time being forming part of the capital of the company, every Member, not disqualified by the last preceding Article shall be entitled to be present, and to speak and to vote at such meeting, and on a show of hands every member present in person shall have one vote and upon a poll the voting right of every Member present in person or by proxy shall be in proportion to his share of the paid-up equity share capital of the Company, Provided, however, if any preference shareholder is present at any meeting of the Company, save as provided in sub-section (2) of Section 47 of the Act, he shall have a right to vote only on resolution placed before the Meeting which directly affect the rights attached to his preference shares.

110. Casting of votes by a member entitled to more than one vote.

On a poll taken at a Meeting of the Company a Member entitled to more than one vote or his proxy or other person entitled to vote for him, as the case may be, need not, if he votes, use all his votes or cast in the same way all the votes he uses.

111. Vote of member of unsound mind and of minor

A Member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, or a minor may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.

112. Postal Ballot

(a) Notwithstanding anything contained in the provisions of the Act and the rules made there under, the Company may, and in the case of resolutions relating to such business as may be prescribed by such authorities from time to time, declare to be conducted only by postal ballot, shall, get any such business/ resolutions passed by means of postal ballot, instead of transacting the business in the General Meeting of the Company.

(b) Passing of resolution by Postal ballot

Where permitted or required by the Act, Board may, instead of calling a meeting of any Members/ class of Members/ Debenture-holders, seek their assent by Postal ballot. Such Postal ballot will comply with the provisions of Applicable Law in this behalf.

Where permitted/required by Applicable Law, Board may provide Members/Members of a class/Debenture-holders right to vote through e-voting, complying with Applicable Law.

Notwithstanding anything contained in the foregoing, the Company shall transact such business, follow such procedure and ascertain the assent or dissent of Members for a voting conducted by Postal ballot, as may be prescribed by Section 110 of the Act and rules made thereunder.

In case of resolutions to be passed by Postal ballot, no Meeting needs to be held at a specified time and space requiring physical presence of Members to form a quorum.

113. E-Voting

A Member may exercise his vote at a Meeting by electronic means in accordance with Section 108 of the Act and shall vote only once.

114. Votes of joint Members.

a) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders. If more than one of the said persons remain present than the senior shall alone be entitled to speak and to vote in respect of such shares, but the other or others of the joint holders shall be entitled to be present at the meeting. Several executors or administrators of a deceased Member in whose name share stands shall for the purpose of these Articles be deemed joints holders thereof.

b) For this purpose, seniority shall be determined by the order in which the names stand in the Register of Members.

115. Votes may be given by proxy or by representative

Votes may be given either personally or by attorney or by proxy or in case of a company or body corporate, by a representative duly authorised as mentioned in Articles.

116. Representation of a body corporate.

A body corporate (whether a company within the meaning of the Act or not) may, if it is Member or creditor of the Company (including being a holder of debentures) authorise such person by resolution of its Board, as it thinks fit, in accordance with the provisions of Section 113 of the Act to act as its representative at any Meeting of the Members or creditors of the Company or debentures holders of the Company. A person authorised by resolution as aforesaid shall be entitled to exercise the same rights and powers (including the right to vote by proxy) on behalf of the body corporate as if it were an individual Member, creditor or holder of debentures of the Company.

117. Members paying money in advance.

(a) A Member paying the whole or a part of the amount remaining unpaid on any share held by him although no part of that amount has been called up, shall not be entitled to any voting rights in respect of the monies paid until the same would, but for this payment, become presently payable.

Members not prohibited if share not held for any specified period.

(b) A Member is not prohibited from exercising his voting rights on the ground that he has not held his shares or interest in the Company for any specified period preceding the date on which the vote was taken.

118. Votes in respect of shares of deceased or insolvent members.

Any person entitled under Article 74 (transmission clause) to transfer any share may vote at any General Meeting in respect thereof in the same manner as if he were the registered holder of such shares, provided that at least forty-eight hours before the time of holding the Meeting or adjourned meeting, as the case may be at which he proposes to vote he shall satisfy the Board of his right to transfer such shares and give such indemnity (if any) as the Board may require or the Board shall have previously admitted his right to vote at such Meeting in respect thereof.

119. No votes by proxy on show of hands.

No Member shall be entitled to vote on a show of hands unless such Member is present personally or by

attorney or is a company or body corporate present by a representative duly authorised under the provisions of the Act in which case such Members, attorney or representative may vote on a show of hands as if he were a Member of the Company. In the case of a company or body corporate the production at the Meeting of a copy of such resolution or authorisation letter duly signed by a Director or Secretary or authorised signatory of such company or body corporate and certified by him as being a true copy of the resolution or authorisation letter shall be accepted by the Company as sufficient evidence of the authority of the appointment.

120. Appointment of a Proxy.

The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the Office of the Company not less than 48 hours before the time for holding the Meeting or adjourned Meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.

121. Form of proxy.

An instrument appointing a proxy shall be in the form as prescribed in the rules made under Section 105 of the Act.

122. Validity of votes given by proxy notwithstanding death of a member.

A vote given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the Member, or revocation of the proxy or of any power of attorney which such proxy signed, or the transfer of the share in respect of which the vote is given, provided that no intimation in writing of the death or insanity, revocation or transfer shall have been received at the office before the meeting or adjourned meeting at which the proxy is used.

123. Time for objections to votes.

No objection shall be raised to the qualification of any voter except at the Meeting or adjourned Meeting at which the vote objected to is given or tendered, and every vote not disallowed at such Meeting shall be valid for all purposes.

124. Chairperson of the Meeting to be the judge of validity of any vote.

Any such objection raised to the qualification of any voter in due time shall be referred to the Chairperson of the Meeting, whose decision shall be final and conclusive.

DIRECTORS

125. Number of Directors

Until otherwise determined by a General Meeting of the Company and subject to the provisions of Section 149 of the Act, the number of Directors (including debenture and alternate Directors) shall not be less than three and not more than fifteen. Provided that the Company may appoint more than fifteen directors after passing a special resolution.

The Company shall have such number of independent directors on the Board of the Company, as may be required in terms of the provisions of Applicable Law. Further, such appointment of such independent directors shall be in terms of, and subject to, the aforesaid provisions of Applicable Law.

126. Qualification shares.

A Director of the Company shall not be bound to hold any Qualification Shares in the Company.

127. Nominee Directors.

(a) Subject to the provisions of the Act and notwithstanding anything to the contrary contained in these Articles, so long as any monies remain owing by the Company to the financing company or body or financing corporation or credit corporation or bank or any insurance corporation (each such financing company or body or financing corporation or credit corporation or bank or any insurance

corporation is hereinafter referred to as financial institution) out of any loans granted by the financial institution to the Company or so long as the financial institution hold shares in the Company as a result of underwriting or direct subscription or so long as any liability of the Company arising out of any guarantee furnished by the financial institution on behalf of the Company remains outstanding, the Board may appoint any person as a director nominated by any institution in pursuance of the provisions of any law for the time being in force or of any agreement.

(b) The nominee director/s so appointed shall not be required to hold any qualification shares in the Company nor shall be liable to retire by rotation. The Board of the Company shall have no power to remove from office the nominee director/s so appointed. The said nominee director/s shall be entitled to the same rights and privileges including receiving of notices, copies of the minutes, sitting fees, etc. as any other Director of the Company is entitled.

(c) If the nominee director/s is an officer of any of the financial institution the sitting fees in relation to such nominee directors shall accrue to such financial institution and the same accordingly be paid by the Company to them. The financial institution shall be entitled to depute observer to attend the meetings of the Board or any other Committee constituted by the Board.

128. Appointment of Alternate Director.

The Board may appoint an alternate director to act for a Director called original director during his absence for a period of not less than three months from India. No person shall be appointed as an alternate director in place of an independent director unless he is qualified to be appointed as an independent director under the Act and Applicable Law. An alternate director appointed under this Article shall not hold office for period longer than that permissible to the original director in whose place he has been appointed and shall vacate office if and when the original director returns to India. If the term of office of the original director is determined before he so returns to India, any provision in the Act or in these Articles for the automatic re-appointment of retiring Director in default of another appointment shall apply to the original director and not to the alternate director.

129. Additional Director

Subject to the provisions of Section 149 of the Act, the Board shall have power at any time and from time to time to appoint any other person to be an additional director, provided the number of the Directors and additional Directors together shall not at any time exceed the maximum strength fixed for the Board by the Articles. Any such additional director shall hold office only upto the date of the next Annual General Meeting but shall be eligible for appointment by the Company as a Director at that Meeting subject to the provisions of the Act.

130. Board's power to fill casual vacancies.

Subject to the provisions of Sections 152(7), 161(4) and 169(7) of the Act, the Board shall have power at any time and from time to time to appoint a Director, if the office of any director appointed by the Company in General Meeting is vacated before his term of office expires in the normal course, who shall hold office only upto the date upto which the Director in whose place he is appointed would have held office if it had not been vacated by him.

If the place of the retiring Director is not so filled up and the Meeting has not expressly resolved not to fill the vacancy, the Meeting shall stand adjourned until the same day in the next week, at the same time and place in accordance with the provisions of Section 152(7) of the Act.

If at the adjourned Meeting also, the vacancy caused by the retiring Director is not filled up and that Meeting also has not expressly resolved not to fill the vacancy, the retiring Director shall be so deemed to have been reappointed at the adjourned Meeting, unless :

i. at that Meeting or at the previous Meeting the resolution for the reappointment of such Director has been put to the Meeting and lost;

ii. the retiring Director has, by a notice in writing addressed to the Company or its Board expressed his unwillingness to be so reappointed;

iii. he is not qualified or is disqualified for appointment;

iv. a resolution whether special or ordinary, is required for the appointment or reappointment by virtue of any provisions of the Act; or

v. the provision of Section 162 of the Act is applicable to the case.

131. Sitting Fees.

Until otherwise determined by the Company in General Meeting, each Director other than the managing/whole-time director (unless otherwise specifically provided for) shall be entitled to sitting fees not exceeding a sum prescribed in the Act (as may be amended from time to time) for attending meetings of the Board or Committees thereof.

132. Travelling expenses Incurred by Director on Company's business.

The Board may subject to the limitations provided in the Act allow and pay to any Director who attends a meeting at a place other than his usual place of residence for the purpose of attending a meeting, such sum as the Board may consider fair, compensation for travelling, hotel and other incidental expenses properly incurred by him, in addition to his fee for attending such meeting as above specified.

Independent Directors

The Company shall appoint such number of independent directors as required by the Act and other Applicable Law and the Company and independent directors are required to abide by the provisions specified in Schedule IV of the Act.

Any casual vacancy in the post of an independent director caused by way of removal, resignation, death, vacation of office under Section 167 of the Act and Applicable Law, removal from directorship pursuant to any court order or due to disqualification under Section 164 of Act shall be filled by following the process laid down in the Act and rules made thereunder.

An independent director shall be held liable, only in respect of such acts of omission or commission by a Company which had occurred with his knowledge, attributable through Board processes, and with his consent or connivance or where he had not acted diligently.

The provisions relating to retirement of Directors by rotation shall not be applicable to appointment of independent directors.

Retirement and rotation of Directors

At least two-thirds of the total number of Directors, excluding independent directors, be persons whose period of office is liable to determination by retirement of directors by rotation (hereinafter called “the Rotational Directors”).

At every Annual General Meeting of the Company, one-third of the Rotational Directors, or if their number is not three or a multiple of three, then, the number nearest to one-third, shall retire from office.

A retiring Director shall be eligible for re-election.

Resignation of Directors

Subject to the provisions of the Act, a Director may resign from his office by giving a notice in writing to the Company and Board shall take note of the same.

Provided that the provisions regarding resignation of managing director or a whole-time director or any executive director who has any terms of employment with the Company shall be governed by such terms.

The resignation of a Director shall take effect from the date on which the notice is received by the Company or the date, if any, specified by the Director in the notice, whichever is later:

Removal of Directors

Any Director of the Company, except the one appointed by the National Company Law Tribunal, may be removed by way of Ordinary Resolution before the expiry of his term of office, subject to the provisions of Section 169 of the Act.

Remuneration of Directors

Subject to the provisions of Section 197 of the Act, a Director may be paid remuneration either by way of a monthly payment or at a specified percentage of the net profits of the Company or partly by one way and partly by the other.

Provided that where the Company takes a Directors' Liability Insurance, specifically pertaining to a particular Director, then the premium paid in respect of such insurance, for the period during which a Director has been proved guilty, will be treated as part of remuneration paid to such Directors.

Subject to the provisions of the Act and rules made thereunder, the fees payable to a Director for attending the meetings of the Board or Committee thereof shall be such sum as may be decided by the Board from time to time. Fee, as may be determined by the Board, may also be paid for attending any separate meeting of the independent directors of the Company in pursuance of any provision of the Act.

The Board may allow any payment to any Director who is not a bonafide resident of the place where the meetings of the Board are ordinarily held and who shall come to such place for the purpose of attending any meeting, such sum as the Board may consider fair compensation for traveling, boarding, lodging and other expenses, in addition to his fee for attending such meeting as above specified; and if any Director be called upon to go or reside out of the ordinary place of his residence on the Company's business, he shall be entitled to be repaid and reimbursed any traveling or other expenses incurred in connection with business of the Company.

Directors may act notwithstanding any vacancies on Board

The continuing Directors may act notwithstanding any vacancy in their body but if, and so long as their number is reduced below the minimum number fixed by Article 125 hereof, the continuing Directors may act for the purpose of increasing the number of Directors to the minimum number fixed by the Article 125 hereof or for summoning a General Meeting for the purpose increasing the number of Directors to such minimum number, but for no other purpose.

Vacation of office of Director

The office of a Director shall ipso facto be vacated:

i. on the happening of any of the events as specified in Section 167 of the Act;

ii. if a person is a Director of more than the number of Companies as specified in the Act at a time;

iii. in the case of alternate director, on return of the original director in terms of Section 161 of the Act;

iv. having been appointed as a Director by virtue of his holding any office or other employment in the holding, subsidiary or associate company, he ceases to hold such office or other employment in that company;

v. if he is removed in pursuance of Section 169 of the Act;

vi. any other disqualification that the Act for the time being in force may prescribe.

Notice of candidature for office of Directors except in certain cases

No person not being a retiring Director, shall be eligible for appointment to the office of Director at any General Meeting unless he or some Member intending to propose him as a Director, has, not less than fourteen days before the Meeting, left at the registered office of the Company a notice in writing under his hand signifying his candidature for the office of Director or the intention of such Member to propose him as a candidate for that office along with the requisite deposit of such sum as prescribed under the Act and rules made thereunder.

Every person (other than a Director retiring by rotation or otherwise or a person who has left at the Office

of the Company a notice under Section 160 of the Act signifying his candidature for the office of a Director) proposed as a candidate for the office of a Director, shall sign and file with the Company, the consent in writing to act as a Director, if appointed.

A person other than a Director reappointed after retirement by rotation immediately on the expiry of his term of office, or an additional or alternate director, or a person filling a casual vacancy in the office of a Director under Section 161 of the Act, appointed/ reappointed as a Director or reappointed as an alternate director, immediately on the expiry of his term of office, shall not act as a Director of the Company unless he has submitted consent in writing to act as a Director of the Company and the same is filed with the Registrar within thirty days of his appointment.

Director may contract with the Company

Subject to Applicable Law, a Director or any Related Party as defined in Section 2 (76) of the Act or other Applicable Law may enter into any contract with Company for the sale, purchase or supply of any goods, materials, or services, or other contract involving creation or transfer of resources, obligations or services, subject to the compliance with the Act and rules made thereunder and other Applicable Law.

ANNEXURE A — U.S. RESALE LETTER

[on the letterhead of an investor who is a U.S. Person or a person in the United States; to be executed after resale of the Equity Shares outside the United States which was not consummated on the BSE or the NSE; to be delivered to the Company prior to the settlement of any sale or other transfer of Shares]

EAAA India Alternatives Limited

Edelweiss House,
Off C.S.T Road, Mumbai City,
Kalina, Mumbai 400 098,
Maharashtra, India

Ladies and Gentlemen:

This letter ("**Resale Letter**") relates to the sale or other transfer by us of equity shares (the "**Shares**") of the Company, which is required to be in an "offshore transaction" as defined in, and in reliance on, Regulation S ("**Regulation S**") under the Securities Act of 1933, as amended (the "**U.S. Securities Act**").

Terms used in this Resale Letter are used as defined in Regulation S, except as otherwise stated herein.

We hereby represent and warrant to you as follows:

(a) We previously purchased the Shares for our own account (or for one or more beneficial owners for which we have acted as fiduciary or agent, with complete investment discretion and with authority to bind each such person), as both a "qualified institutional buyer" (as defined in Rule 144A under the U.S. Securities Act) and a "qualified purchaser" (as defined in Section 2(a)(5l) and related rules of the Investment Company Act of 1940, as amended, and the rules thereunder (the "**U.S. Investment Company Act**"). We understand that the Shares have not been and will not be registered under the U.S. Securities Act and that the Company has not registered and will not register as an investment company under the U.S. Investment Company Act).

(b) The offer and sale of the Shares by us was not made to a person in the United States or to a U.S. Person (as defined in Regulation S).

(c) Either:

  (i) at the time the buy order for the sale of the Shares by us was originated, the buyer was outside the United States or we and any person acting on our behalf reasonably believed that the buyer was outside the United States; or

  (ii) the transfer of the Shares by us was executed in, on or through the facilities of the [●] Stock Exchange or the [●] Stock Exchange, and neither we nor any person acting on our behalf has reason to believe that the transaction was pre-arranged with a buyer in the United States.

(d) Neither we, nor any of our affiliates, nor any person acting on our or their behalf, has made any directed selling efforts (as defined in Regulation S) in the United States with respect to the Equity Shares.

(e) The transfer of the Equity Shares by us was not and is not part of a plan or scheme to evade the registration requirements of the U.S. Securities Act or the U.S. Investment Company Act.

(f) None of the Company, any of its agents nor any of their respective affiliates participated in the sale of the Equity Shares by us.

(g) We agree that the Company, its agents and their respective affiliates may rely upon the truth and accuracy of the foregoing acknowledgments, representations and agreements.

Where there are joint transferors, each must sign this U.S. Resale Letter. A U.S. Resale Letter of a corporation must be signed by an authorised officer or be completed otherwise in accordance with such corporation's constitution (and evidence of such authority may be required).

Yours sincerely,

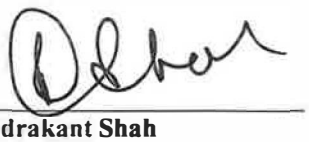

(Name of Transferor)
