Firstsource Solutions Investor Presentation

OCTOBER 2026

Certain statements in this presentation concerning our future growth prospects are forward-looking statements, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, intense competition in BPS market including those factors which may affect our cost advantage, wage increases, our ability to attract and retain highly skilled professionals, time and cost overruns on client contracts, client concentration, our ability to manage ramp-ups and growth, our ability to manage our international operations, reduced demand in our key focus verticals, disruptions in telecom infrastructure and technology, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, performance of our subsidiaries, withdrawal of government fiscal incentives, political instability, legal restrictions on raising capital and acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry. Firstsource may, from time to time, make additional written and oral forward-looking statements, including our reports to shareholders. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company.

We are a part of RP-Sanjiv Goenka Group

20%+ savings in 1st party servicing
Top3 consumer bank in the US

DOMAIN-LED PLATFORMS & SOLUTIONS

AI embedded into existing platforms for smarter workflows

Leverage models (hyper-personalization, SLM) for scalable and reliable outcomes

Applied agentic workflows/co-pilots to aid decisions and automate L1 support

30%+ improvement in content extraction
HealthTech Digital Intake Platform

500mn+ claim documents processed
HealthTech Digital Intake Platform

40%+ reduction in cycle-time
Mortgage Workflow Platform

10%+ improvement in collections
CX Tech Platform

Our core strengths

Our Employee Value Proposition

Brilliant People. Bold Tech. Uncommon Careers.

This is not who we want to be.
It's who we already are.

Brilliant People

At Firstsource, we build bold technology with brilliant people who turn ideas into impact. Curiosity fuels us, failure teaches us, and growth comes from pushing what's possible.

Bold Tech

Technology amplifies human potential. We harness innovation to deliver uncommon outcomes — not just automate processes, but reimagine them entirely.

Uncommon Careers

Careers built the UnBPO™ way — where brilliance meets purpose, and every individual can shape their unique path forward.

Our core strengths

Rooted in shared values

Our core strengths

Focused on driving sustainable impact

Our Strategy in Action

From UnBPO™ to Intelligence That Operates

Our strategy in action

A ~7x larger addressable market — services-as-software

[^]Source: Gartner Research

^{*}By 2035; Source: HfS Research

Our strategy in action

Enterprises are Challenged with Capturing the Value of AI

AI capability scales exponentially. Human comprehension follows a far slower, linear curve.

Strategy work doesn't close that gap. Demos don't close that gap. Only **operations that learn, adapt, and compound** do.

The companies that win close the gap operationally — running real workloads, with intelligence that compounds with every decision.

AI CAPABILITY vs COMPREHENSION

Illustrative. The shape, not the numbers, is the point.

Our strategy in action

The Problem with Most AI Partners

Closing the gap takes a partner who can do all three. Most can't.

01

Some offer strategy.

They produce decks, frameworks, and recommendations. Then they hand it off.

→ **But they don't implement.**

CONSULTING FIRMS

02

Some implement.

They build the systems, integrate the models, ship to production. Then they walk away.

→ **But they don't run operations.**

SYSTEM INTEGRATORS

03

Some run operations.

They keep the lights on, hit SLAs, manage the workforce. With yesterday's playbook.

→ **But they don't transform.**

LEGACY BPS

Strategy without operations is theatre. Operations without transformation is decay. The gap closes only when the same partner does all three.

How our Clients See Us Today: The Full Stack Intelligence Operator.

Born from UnBPO™. Built for the Intelligence Era.

Not a strategist. Not an integrator. Not an outsourcer.

A new kind of partner — one that does all three, as one continuous motion.

DEFINITION

A partner that **redesigns** your operating model, **builds** the AI-native systems, and **operates** them in production — with intelligence that compounds with every decision.

- **Underwrites the outcome.** Skin in the game on commercials, not just inputs.
- **Owns the full motion.** Strategy, build, run — one contract.
- **Compounds intelligence.** The system learns every time it operates.
- **Governs autonomy.** Trust earned per skill — never assumed.

ONE PARTNER · ONE CONTRACT · ONE CONTINUOUS MOTION

Kairos — the operating system for AI-native operations

The operating system that helps our advisors and AI agents take the right action during moments that matter

καιρός

kai·ros · Ancient Greek · noun

The decisive moment.

When AI Capability becomes
Enterprise Value.

Engagement Model

01

Transform · Implement · Operate — a structured path from ambition to agentic operations at scale.

Architecture

02

A five-layer intelligence stack — from raw data to AI-native operations — purpose-built for business process services.

Deep-Domain Tech Assets

03

Accelerators, platforms, and reusable domain harnesses that encode 25 years of operational expertise.

Outcomes We Underwrite

04

Every engagement is outcomes-linked. We don't just advise — we put skin in the game.

Built inside an operations business, not a lab. Powered by 25 years of domain expertise. Compounding with every engagement.

In summary...

We see potential to grow at an **accelerated** pace over the medium term...

- Macro and technology shifts are opening up new market opportunities
- We are disrupting the traditional business model with the **Intelligence That Operates** playbook
- Our **scale** is an **advantage**: large enough to deliver, agile enough to disrupt

...Helped by our unique **differentiators**...

- Roster of **long-standing** relationships with **quality** clients with **large spend**
- **Recognized leadership** with strong domain expertise
- **AI applied** to each client's context through **Kairos** to **solve business problems**
- **Scrappy** culture that stands behind **business outcomes**

...And continue with the **playbook**...

- Focus on **account mining** and **expanding capabilities**
- Steady **upward movement** in client numbers across revenue buckets
- **Speed-to-market**, clear **accountability** and improved **market visibility** are key imperatives

...Even as we remain focused on **execution** in the near term

- **Four large deal wins** in Q2FY27; **seventh straight quarter** of 4 or more deals
- Q2FY27 exit deal pipeline **remains healthy**
- FY27 revenue growth guidance at the **top decile** of the peer group

Our FY27 guidance

10.5-13%

Constant currency revenue growth

12.25-12.75%

EBIT margin

Our medium-term aspirations

Firstsource Solutions Limited, an RP-Sanjiv Goenka Group company (NSE: FSL, BSE: 532809), is a global intelligence partner to enterprises across healthcare, banking and financial services, communications, media, technology, retail, and utilities. Its inch-wide, mile-deep practitioners work collaboratively to reimagine business process management. With operations across the US, UK, India, Philippines, Mexico, Romania, Trinidad & Tobago, South Africa, and Australia, Firstsource combines over twenty-five years of domain expertise with an agent-first delivery model to design, build, and operate intelligent enterprise operations. Through its Intelligence That Operates promise—powered by Kairos, the operating system that makes it real—the company unifies consulting, implementation, and operations into a single full-stack engagement and underwrites outcomes, not effort, turning deep domain intelligence into a compounding operational advantage for the world's most regulated industries.
