Commenting on Financial Technologies' 9 Mo FY 2010-11 performance, Dewang Neralla, Whole Time Director, said:

"This was a steady quarter for financial technologies. Total income from operations increased by 6% to Rs.2,643 million and net profit excluding capital gain on sale of shares increased by 6% to Rs.1,526 million on a year on year basis. We are confident that the company is well positioned for the long term growth.

Our operating exchanges continued to maintain the leadership position in the respective asset classes. MCX witnessed an encouraging 50% growth in year on year volumes. NSEL has also experienced good growth in volumes with its newly introduced e-series products. Our international exchanges, SMX in Singapore and GBOT in Mauritius are shaping up well post the last quarter launch. On the ecosystem front also, the companies have been witnessing encouraging growth."
