We request you to kindly take the same into records.

Thanking you,

Yours truly,

For Four Soft Limited

Biju S. Nair

Chief Financial Officer

Essex Freight Holland Selects Four Soft's Global Freight Forwarding Application

24th April'12, Hyderabad: Four Soft® (4S®) (NSE: "FOURSOFT", BSE: 532521), a global leader offering software solutions for logistics and transportation industry is pleased to announce that Essex Freight Holland, one of the emerging international freight forwarding company in The Netherlands has selected Four Soft's global freight forwarding application 4SeTransSME® to be implemented at their location in The Netherlands. The contract was executed through Four Soft Netherlands BV, Dordrecht a subsidiary of Four Soft Limited, India.

Based in Ridderkerk and with a network of agents across Europe and Caribbean region, Essex Freight Holland has grown to become one of the leading international freight forwarding company in Europe for services to and from the Caribbean. Today, it offers extensive range of services which include air freight, sea freight and project cargo to industries extending from food perishable to heavy machinery and is continuously striving to offer best in class business solutions and customer service.

Ernst OverBosch, Managing Director, Essex Freight Holland, said, "In response to leveraging the best technology in the software space, Four Soft has clearly demonstrated its strong functionality matrix and methodology by offering us with a cohesive solution that is simple to use and best fits our long term business requirements. We are confident that after successful deployment, we will be able to standardize our processes to minimize time spent on execution of shipments and add more volume to our business thereby improving productivity, and enhancing customer satisfaction."

Willem van Anrooij, Director, Four Soft Netherlands BV, said, "Four Soft's intuitive global multimodal freight forwarding application has been designed to simplify complexities and will act as a centralized system to book, manage, monitor and automate their critical shipment processes. The core focus is on reducing turnaround time and improving visibility." **He further added,** "We are happy to see that more and more customers in the region are realizing our potential of offering leading edge solutions that offers highest standard of performance and reliability to our global customers."

4SeTransSME® is a complete freight forwarding system designed to automate, streamline and support the multimodal international freight forwarding operations. It provides the logistics industry with a flexible and comprehensive software solution to manage business efficiently, increase productivity and improve the overall service to their customers.
