We request you to kindly take the same into records.

Thanking you,

Yours truly,

For Four Soft Limited

Seená Sankar
Company Secretary

House of Freight selects Four Soft as its Strategic Partner for its Freight Management Applications

August 1st 2011, Hyderabad: Four Soft® (4S®) (NSE: "FOURSOFT", BSE: 532521), a global leader offering software solutions for logistics and transportation industry, announced today that it has been selected by House of Freight to be their logistics solutions partner in the UK. This agreement has been executed through Four Soft UK Limited, a wholly owned subsidiary of Four Soft Limited, India.

This partnership is based on Four Soft expertise of connecting supply chain partners and moving information through the supply chain to ensure the expedient delivery of orders. This also confirms that House of Freight can now offer best in class Control Tower services to its customers.

Ruth Todd, CEO, House of Freight, said, "Supply chain visibility is a key element and knowing where product is and being able to track its progress, especially where lead times are extended, is a genuine challenge that House of Freight would like to address. Four Soft's solution will now help us manage movement from purchase order to proof of delivery, all enabled and visible on the web." She further added, "We also believe that this solution will streamline the performance of the supply chain to be monitored and managed proactively- thereby improving on time delivery and reduction in inventory."

Simon Shore, VP – European Sales, Four Soft, said, "We are glad to announce our partnership with House of Freight. The value of this partnership enables House of Freight to provide a totally new freight service, which redefines and sets the bench mark for Lead Logistics Provider Services. This has been made possible by utilizing Four Soft web and phone based applications to provide real time control of orders from conception to delivery. We are confident that this service will now enable an improvement in customer service through the management of orders scheduled to small, accurate, time windows, combined with the optimization of both management and execution tasks to drive down costs."

4S LogiSaaS® is Four Soft's web centric Freight Management System capable of handling Air, Sea, Road and multi modal transport management services. Built on J2EE platform with a native browser interface, 4S LogiSaaS® is designed to provide the modern day logistics operators with operational and financial control over their day to day, order to cash process of the domestic and international freight movements. Equipped with an integrated freight accounting module and interface capabilities with external accounting systems, 4S LogiSaaS® provides a scalable and flexible Freight Management solution.
