Dear Sir/Madam,

Sub: Publication of Audited Standalone and Consolidated Financial Results for the quarter and year ended March 31, 2026 in the Newspapers

We are enclosing herewith the copies of Newspaper Publication of the Standalone and Consolidated Audited Financial Results of the Company for the quarter and year ended March 31, 2026 as published in Financial Express (English Newspaper) and Ek Din (Bengali Newspaper) on 18th May, 2026 in terms of Regulation 47 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015.

The same is being made available on the website of the Company at www.ganeshinfra.com.

This is for your information and record.

Thanking You,

For Ganesh Infracore Limited

Beas Moitra
Company Secretary

EVEN AT NIGHTS, TEMPERATURE STAYS ABOVE 31°C Urban homes turning into heat chambers

SAURAV ANAND
New Delhi, May 17

INDIA'S ESCALATING HEAT crisis is no longer confined to scorching afternoons and heatwave alerts outdoors. A new study has found that indoor temperatures in low- and middle-income urban homes remained above 32°C for up to 5,800 hours — equivalent to nearly eight months of continuous heat exposure — while nighttime temperatures stayed above 31°C even outside peak summer months, exposing millions to chronic thermal stress inside their homes.

The findings come as Indian cities are witnessing increasingly warmer nights

amid rapid urbanisation, concrete-heavy construction and worsening urban heat island effects, raising concerns that indoor heat exposure may emerge as one of the country's biggest but least monitored climate risks.

The report by *Climate Trends*, based on high-resolution monitoring across 50 res-

idential units between October 2025 and April 2026, found that indoor spaces across dense urban neighbourhoods failed to cool effectively after sunset due to prolonged heat retention in reinforced cement concrete structures.

The study assumes significance at a time when India is recording more frequent extreme heat events, with temperatures in parts of the country touching nearly 52.9°C in 2024.

While policymakers and heat action plans largely focus on daytime heatwaves, the report warns that rising nighttime temperatures are quietly eroding the body's ability to recover from daytime heat stress.

Procurement of wheat hits four-year high at 31 MT

SANDIP DAS
New Delhi, May 18

THE GOVERNMENT'S WHEAT procurement for the 2026-27 rabi marketing season (April-June) has crossed 31 million tonne (MT), the highest level in the last four years.

Officials said that with procurement operations still underway in Madhya Pradesh and Uttar Pradesh, total procurement under the Minimum Support Price (MSP) scheme is likely to reach the revised target of 34.5 MT. For the first time this season, procurement by the Food Corporation of India and state agencies is running 6% higher than the corresponding period last year, after trailing for the previous six weeks since procurement began on April 1.
