Gati announces the launch of the new website and mobile app

- **Becomes the first logistics company in India to launch a mobile app**
- **New website to provide information services in an intuitive manner**

Hyderabad, December 8, 2015: Gati Ltd. (NSE: GATI, BSE: 532345) India's leader in Express Distribution and Supply Chain Solutions today announced the launch of the new revamped website and mobile application. This marks another significant step in Gati's endeavor to provide unmatched services to its customers in the growing Indian logistics market.

Gati's new website has been designed keeping in mind the new age devices and various means people are browsing the websites. The website has an impressive grid layout that helps user to navigate intuitively. Also Gati has now enabled vendor login on the website that would help in improving the accessibility of services for our associates operating around the country.

Along with this, Gati has launched a new mobile application, first by any in the logistics industry in India. A simple 4 icon app that lets a consumer track shipment, calculate shipping time and rate to a desired destination. It also helps the consumer locate the nearest Gati office and also place a request for a pick up. The Indian mobile subscribers are at 453 million users at the end of 2014 and is expected to reach to 734 million subscribers by 2020*. This exponential use of mobile phones and increasing internet penetration will make smart phones the most preferable device to access internet and Gati's mobile app will help users with all their logistics requirements at a click.

Speaking on the occasion **Ms. Meera Madhusudhan Singh, Chief Brand Custodian of the organisation** said "We have been pioneering the logistics sector by offering innovative services to our customers for the past 25 years, today with our new technology offerings we believe that we will be playing a pivotal role in offering the best logistic services to the customers in India and beyond. The launch of new website and mobile app is reiterating our commitment to our consumers who are embracing technology like never before."

Mr. G S Ravi Kumar, Chief Information Officer, Gati Ltd said "We are one of the largest logistics player servicing 672 of 676 districts in India, with our wide reach and technological edge we believe we are rightly placed to play a pivotal role in the growth of Indian logistics industry with our vast fleet. Also Gati is the first in the industry to develop and manage enterprise resource management system- GEMS (Gati Enterprise Management System) to handle their logistics operations"

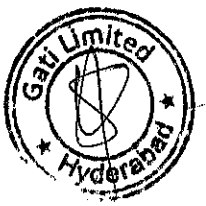

Gati with its extensive reach has an early mover advantage in the e-commerce logistics. Today Gati services 20,520 pin codes that would help e-commerce firms reach the remotest corners of India. As India is witnessing a fast penetration of internet into tier 2 and 3 cities, Gati is poised to help e-commerce firms provide the acquire customers in tier 2 and 3 cities in India.
