News Release

GE T&D India Limited announces Third Quarter 2016/17 results

New Delhi, India — Jan 30, 2017 — GE T&D India Limited, formerly ALSTOM T&D India Limited, reported on January 30, 2017 its financial results for the third quarter ended December 2016, following approval by the Company's Board of Directors.

The Company continues to maintain a healthy backlog of 81.5 BINR by winning 11.2 BINR orders during the quarter, which increased by 37% as compared to the third quarter 2015/16. Sales revenue was 12.1 BINR, up 62% versus the same period last year and Profit After Tax was 0.4 BINR.

The Company won number of major orders during the quarter from central, state utilities and private developers. Important ones include 765/400kV AIS substation at Chilakaluripeta from PowerGrid, 400/220/33 kV GIS extension of Gumma substation from HPPTCL, 400/220/132 kV AIS substations at Latehar and Lohardaga from PowerGrid. The Company also won solar projects namely Bhadla-Jodhpur substation 220kV from Saurya Urja and Bhadla 2X70 MW ACBoS from Solaire Direct.

The Company also achieved major commissioning that include 220/11kV AIS at Chanda for ACC, 125MVA, 400/132kV Inter connecting Transformers for Gas based combined cycle power plant at Palatana, Tripura, 400/220kV GIS for MSETCL at Hinjewadi, amongst others.

Rathin Basu, Managing Director of GE T&D India Limited, said, "The market continues to be difficult, capital investments are low and infrastructure spending is not significant. Despite the environment, we continue to see confidence in our Company from our customers and more particularly from the high technology domain, driving our order growth. We continue to demonstrate good execution bringing in cost control and optimising on our efficiency. The Company continues to maintain its market leadership position."

About GE

GE (NYSE: GE) is the world's Digital Industrial Company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. GE is organized around a global exchange of knowledge, the "GE Store," through which each business shares and accesses the same technology, markets, structure and intellect. Each invention further fuels innovation and application across our industrial sectors. With people, services, technology and scale, GE delivers better outcomes for customers by speaking the language of industry. www.ge.com
