The

Meeting of the Company to be held on Wednesday, March 19, 2025 at 3:00p.m. through Video Conferencing/Other Audio-Visual Means. The details regarding such variation/alteration are as follows1. Particulars of the objects proposed to be altered, Money utilized for the objects of the Company as stated in the Prospectus and the unuti-

lized amount out of the money so raised through prospectus Original Objects of the Modified Allocation **Funds Utilised** Original Allocation Funds /Balance Issue mentioned in the Prospectus (In Lacs) Amount 1350.00 1800.00 -430.00 20.00 To finance the expenditure for construction of Warehouses 567.70 +432.82 1001.52 General Corporate Purpose Issue Expenses TOTAL NIL 1350.00 Particulars of the proposed variation/alteration

cancellation charges. As a result, the company is planning to reallocating the Rs. 13.50 crore towards the new object of funding of working capital requirement of the company to optimize fund utilization and ensure maximum shareholder value Reasons/justification for the variation As per the disclosure submitted under Regulation 32 of SEBI (LODR), 2015 concerning the utilization of the Rights Issue proceeds, an amount of Rs. 13.70 crore was initially allocated for the construction of a warehouse. However, due to unforeseen challenges in project execution, the

contract for warehouse construction has been withdrawn. The reasons for the withdrawal include: The chosen land location for the warehouse was found to be unsuitable due to logistical and accessibility constraints. Efficient transportation and connectivity are crucial for warehouse facilities, and the selected site failed to meet these requirements, making long-term operations

Additionally, regulatory and environmental approvals proved to be a major obstacle, with extensive documentation and compliance with zoning laws leading to delays. Infrastructure deficiencies in outer Jaipur, such as underdeveloped roads, unreliable electricity, and inadequate water supply, further escalated construction and operational costs. Given these challenges, the company decided to withdraw from the contract, Board has carefully evaluated the best course of action to protect shareholder value and ensure the optimal utilization of company resources. Instead of proceeding with a project that presents significant financial and operational risks, the Board has decided to reallocate the funds originally earmarked for warehouse construction towards meeting the company's working capital requirements. This strategic shift will enhance liquidity, support day-to-day operations, and strengthen the company's financial position, ultimately driving sustainable growth

The proposed variation in the utilization of Rs. 13.50 crore will ease the additional burden on the financial plan and internal accruals of the company. By reallocating the funds to more feasible projects, the company is positioned to better manage its resources. However, any unforeseen economic, market, or business conditions, or any other factors beyond the control of management, could lead to cost escalation, which may negatively impact the company's working capital position. Such additional costs related to the revised plan could adversely affect the comely impact the company's working capital pany's financial condition, operational results, and cash flow

conditions and are subject to change due to unforeseen economic, market, and regulatory factors. There is no assurance that the reallocation of funds will result in profitable business growth or successful expansion. Additionally, the financial health of the company could be affected by changes in market conditions or unforeseen circumstances. Names of Directors who voted against the proposed variation/alteration

None of the directors of the Company have voted against the proposed variation/alteration. The members are hereby informed that, in terms of the relevant provisions of the Companies Act, 2013, circulars issued by the Ministry of Corporate Affairs and the Securities and Exchange Board of India, the Company has already dispatched the notice of the Extra Ordinary General Meeting ("EGM") containing the copy of the special resolution and the explanatory statement in relation to the proposed alteration of the objects of the Issue to all those members of the Company whose names appear in the Register of Members and whose e-mail addresses are registered with the Company or the Registrar and Share Transfer Agent (the "RTA") or the Depository Participants(s) as on Friday, February 21, 2925 along with instructions for e-voting. The Rs.13.50 crore are proposed to be reversed by the contractor, and the balance Rs. 20.00 lac shall be deducted by the contractor for cancellation charges. As a result, the company is planning to reallocating the Rs. 13.50 crore towards the new object of funding of working capital requirement of the company to optimize fund utilization and ensure maximum shareholder value
Reasons/justification for the variationAs per the disclosure submitted under Regulation 32 of SEBI (LODR), 2015 concerning the utilization of the Rights Issue proceeds, an amount of Rs. 13.70 crore was initially allocated for the construction of a warehouse. However, due to unforeseen challenges in project execution, the contract for warehouse construction has been withdrawn. The reasons for the withdrawal include:
The chosen land location for the warehouse was found to be unsuitable due to logistical and accessibility constraints. Efficient transportation and connectivity are crucial for warehouse facilities, and the selected site failed to meet these requirements, making long-term operations impractical.

and connectivity are crucial for warehouse facilities, and the selected site failed to meet these requirements, making long-term operations impractical. Additionally, regulatory and environmental approvals proved to be a major obstacle, with extensive documentation and compliance with zoning laws leading to delays. Infrastructure deficiencies in outer Jaipur, such as underdeveloped roads, unreliable electricity, and inadequate water supply, further escalated construction and operational costs. Given these challenges, the company decided to withdraw from the contact, Board has carefully evaluated the best course of action to protect shareholder value and ensure the optimal utilization of company resources. Instead of proceeding with a project that presents significant financial and operational risks, the Board has decided to reallocate the funds originally earmarked for warehouse construction towards meeting the company's working capital requirements. This strategic shift will enhance liquidity, support day-to-day operations, and strengthen the company's financial position, ultimately driving sustainable growth while safeguarding the hard-earned money of our valued shareholders.

1) Effect of the proposed variation/alteration on the financial position of the company. However, any unforeseen economic, market, or business conditions, or any other factors beyond the control of management, could lead to cost escalation, which may negatively impact the company's working capital position. Such additional costs related to the revised plan could adversely affect the company's financial condition, operational results, and cash flow.
