## Business Update Release

### **The Company's proprietary, in-house developed “One Stop Shop” EdTech and ERP-based platform for institutes and universities, Cyber Vidya Crosses 45,000 Student Milestone**

**Mumbai, 22nd January 2026:** Global Education Limited (the “Company”), a company listed on the National Stock Exchange of India Limited, wishes to inform the Exchange and its stakeholders of a significant business update relating to **Cyber Vidya**, the Company’s proprietary, in-house developed “One Stop Shop” EdTech and ERP-based platform for institutes and universities.

During the financial year, **Cyber Vidya successfully onboarded over 45,000 students**, reflecting strong product-market fit, scalability, and increasing acceptance across India’s higher education ecosystem. This growth highlights a shift among educational institutions from fragmented, piecemeal software solutions to integrated digital platforms.

Cyber Vidya is an **end-to-end digital infrastructure**, not merely a conventional ERP. The platform manages the **entire student lifecycle**, encompassing admissions, academic delivery, assessments, certifications, backend administrative operations, and institutional workflows through a unified digital ecosystem. By digitizing these core functions, Cyber Vidya creates a “sticky” platform that enhances long-term institutional retention and recurring value.

The increase in student enrolments has been driven by **new deployments and partnerships with reputed educational institutions**, including **KIET Institute, Ghaziabad; PSIT Institute, Kanpur; and Jagran Lakecity University, Bhopal**, among others. These strategic wins further strengthen Cyber Vidya’s presence in the higher education segment.

Commenting on the development, **Mr. Aditya Bhandari, Whole Time Director**, of Global Education Limited stated:

*“Reaching 45,000 students is a testament to the robustness of Cyber Vidya. Universities today are increasingly seeking a holistic digital backbone rather than isolated solutions. Cyber Vidya enables institutions to manage the entire education value chain through a single integrated platform.”*

This milestone underscores the Company’s continued focus on leveraging technology to deliver **scalable, comprehensive solutions** to the education sector and reinforces Cyber Vidya’s position as a holistic ERP platform for institutions and universities.
