**PRESS RELEASE**

## First 350 MW Unit of GMR's Kamalanga Plant is Commercially Operational

**Dhenkanal (Odisha), 30 April 2013**: The first 350 MW unit of GMR Kamalanga Energy Limited (GKEL) was declared commercially operational today. The GMR Group is establishing the 4x350 MW coal-based thermal power plant at Kamalanga in Odisha's Dhenkanal District in two phases of 3x350 MW and 1x350 MW, respectively.

GKEL's first unit is the GMR Group's second coal-based power plant to be declared commercially operational. In March 2013, commercial generation commenced from the first 300 MW units of GMR EMCO Energy Limited's 2x300 MW power plants at Warora in Maharashtra.

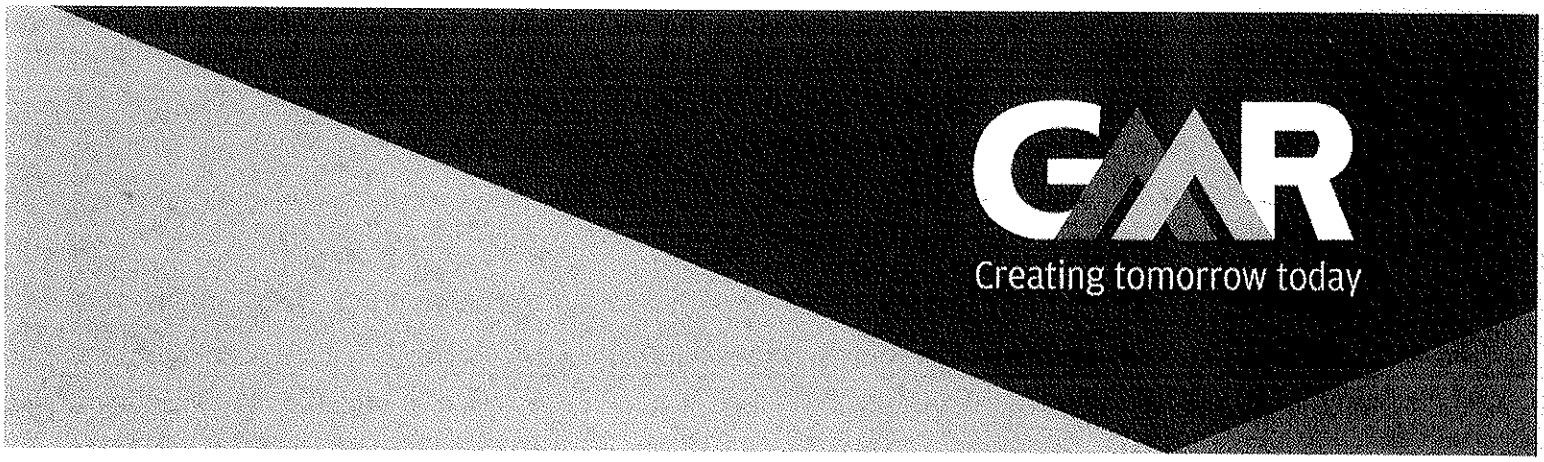

Power produced from GKEL's first unit has been offered to GRIDCO Limited in Odisha, as per the long-term Power Purchase Agreement (PPA) executed with it, pursuant to the MoU with the Government of Odisha.

Work on commissioning two other units of 350 MW in the first phase is in advanced stages and likely to be completed by August 2013. When fully commissioned, the GKEL power plant would serve the people of Odisha, Bihar, Haryana and other parts of the country.

Commenting on the development, Mr. G.M Rao, Group Chairman of GMR Group said, *"The commencement of commercial generation from the first 350 MW units of our 1400 MW coal-based project at Kamalanga signals a new phase of expansion of GMR Group's power generation capacity. This is yet another example of our commitment to on-time delivery of projects, which will now generate revenue and enhance our shareholder value."*

**About GMR Infrastructure Limited:**

The Company is a Bangalore headquartered global infrastructure major with interests in Airports, Energy, Highways and Urban Infrastructure sectors. It has successfully employed the public-private partnership model to build a portfolio of high quality assets. The Company has 17 power generation assets of which 6 are operational and 11 are under various stages of implementation and 9 Road assets, of which 8 are operational and 1 is under construction. In the Airports sector, it has developed and commissioned the Greenfield International Airport at Hyderabad. The Company, besides operating the existing Delhi International Airport, has also built a brand new integrated terminal T3 which was commissioned in time for the Commonwealth Games in October 2010. It has also upgraded and is operating the Istanbul Sabiha Gökçen International Airport. GMR Group is also committed to social development initiatives and executes these through its Corporate Social Responsibility arm, the GMR Varalakshmi Foundation which is present in 21 locations.
