PRESS RELEASE:

First Unit of GMR's 1370 MW Chhattisgarh Supercritical Thermal Power Plant Synchronized

Raipur; 7th October, 2014: The first 685 MW unit of GMR Chhattisgarh Energy Limited's (GCEL) 1370 MW supercritical coal-based thermal power plant at Raikheda in Chhattisgarh's Raipur District has successfully achieved synchronization with the grid on 2nd October, 2014.

GCEL is the GMR Group's first supercritical coal-based thermal power plant. The unit used fuel oil to achieve this first synchronization. The project has been implemented on multiple packages concept by Doosan of Korea. Work on commissioning GCEL's second unit of 685 MW is in progress.

Since 2013, the GMR Group has commissioned two coal-based thermal power plants – the 2x300 MW GMR's EMCO Energy Limited at Warora in Maharashtra and three units of the 4x350 MW GMR Kamalanga Energy Limited at Kamlalanga in Odisha.

The GMR group had signed the MoU with the Government of Chhattisgarh for the power plant in 2008 and received Environment Clearance and Consent to Establish in 2011. Besides Chhattisgarh, GCEL will cater to the power needs of various states in the country.

Speaking on the occasion, Mr. G.M. Rao, Group Chairman of the GMR Group said, "The GCEL plant incorporates advanced supercritical technologies that optimize fuel and water usage and support our commitment to environmental sustainability. GCEL is also making substantial efforts so that the quality of life of individuals residing in neighboring communities is enriched by its educational, health care, livelihood and grassroots infrastructure development focused CSR interventions."

About GMR Infrastructure Limited:

GMR Infrastructure Ltd is a Bangalore headquartered infrastructure group with interests in Airports, Energy, Highways and Urban Infrastructure sectors. It has successfully employed the public-private partnership model to build a portfolio of high quality assets. The Company has 15 power generation assets of which 8 are operational and 7 are under various stages of development. In the Highways sector the Group is operating 9 assets (including 2 in which the Group holds minority interest) across the country. In the Airports sector, the Company operates India's busiest airport, the Indira Gandhi International Airport in New Delhi, where it has built a brand new integrated terminal T3. It has also developed and commissioned the greenfield international airport at Hyderabad as a gateway to south and central India. The Group has been recently awarded the Mactan-Cebu International Airport project in the Philippines for renovation, operation and maintenance with a concession period of 25 years. GMR Group is also committed to social development initiatives and executes these through its Corporate Social Responsibility arm, the GMR Varalakshmi Foundation which carries out work in 24 locations.
