Sub : Sudden leakage at TDI-II Dahej Plant – Intimation under Regulation 30 of SEBI Listing Regulations, 2015

Dear Sir,

In the morning on 15th January, 2018, there has been a sudden leakage at TDI-II Plant, Dahej, which called for Plant shutdown at Dahej. Due to safety measures already put in place by the Company over a period of time, neither there is any property damage nor any loss of life.

However, as a matter of abundant precaution, Management has decided to close the plant indefinitely till the root cause is thoroughly analysed, reviewed and necessary further safety measures to be taken are fully evaluated in addition to current safety precautions.

GNFC believes in the principle of "Safety First" and hence, this decision to close TDI-II Plant indefinitely is taken till the process of necessary preparations, putting in place further checks & balances and thorough evaluation is over.

We request you to kindly take note of the above.

Thanking you,

Yours faithfully,
For GUJARAT NARMADA VALLEY FERTILIZERS & CHEMICALS LTD
