Sub: Intimation of production re-start at TDI Plant, Dahej

Dear Sir,

This refers to the intimation given on 16th January, 2018 after the leakage was reported in early hours on 15th January, 2018. Considering criticality involved from safety perspective, various safety measures were initiated i.e.

1. Taking the help of Director of Industrial Safety & Health (DISH) for plant Inspection and considering their suggestions.

2. Committee formation of senior technical executives for monitoring all critical shutdown activities to ensure smooth start up and taking their recommendations for startup of the plant.

3. Lining up the various preventive maintenance and safety precautions like critical component replacement, increasing the safety tolerance after certifying equipment / critical components as Fit For Service (FFS) by third party inspection agency.

(An ISO 14001 & OHSAS 18001 Company)

This feat of shutting down the plant without any property damage or loss of life as well as starting at the earliest with full safety precautions observed is made possible due to relentless support of all agencies involved especially DISH apart from dedicated team efforts of company's employees. Company takes on record their appreciation for timely resumption of this plant.

With various safety precautions as enlisted above, plant is put back in operation on 23rd January, 2018.
