Press Release

GNG Electronics Limited Announces Strategic Distribution Partnerships with Ingram Micro India Pvt. Ltd. and Supertron Electronics Pvt. Ltd. to Accelerate Nationwide Expansion of Refurbished ICT Solutions

Mumbai, India | 18th Feb 2026: GNG Electronics Limited (“GNG” or “the Company”), a leading refurbisher of enterprise-grade ICT devices, has entered into separate strategic distribution partnerships with Ingram Micro India Pvt. Ltd. and Supertron Electronics Pvt. Ltd.¹ for the nationwide distribution of its refurbished computers across India. These two partnerships mark a significant milestone in the Company’s efforts to further formalize and scale the organized refurbished ICT segment through structured, pan-India channel access.

Under this collaboration, Ingram Micro India and Supertron Electronics will distribute GNG’s range of professionally refurbished laptops, desktops and enterprise computing systems under the Company’s proprietary brand ‘Electronics Bazaar’. The association is expected to expand GNG’s reach across Tier 1, Tier 2 and Tier 3 markets in India, deepen enterprise and institutional penetration, and strengthen access to warranty-backed refurbished systems through established ICT distribution networks.

India’s refurbished ICT market has historically operated through fragmented and unorganized channels. The onboarding of two of India’s leading ICT distribution organizations further represents another important step toward institutionalizing the category and integrating professionally refurbished devices into mainstream ICT procurement cycles. By leveraging the established channel relationships, reseller networks and enterprise reach of Ingram Micro India and Supertron Electronics, GNG aims to accelerate structured adoption of refurbished computers while reinforcing supply continuity, consistent quality standards and dependable warranty backed after-sales support.

The broader industry environment has supported increasing adoption of refurbished computers. Rising component costs, supply-side adjustments in the new PC market, and evolving enterprise procurement strategies have contributed to growing interest in professionally refurbished systems as a cost-efficient and scalable alternative. In this context, refurbished ICT devices are increasingly being integrated into structured procurement frameworks.

Through these partnerships, GNG expects to enhance distribution velocity, improve geographic penetration, and further embed its products within organized channel ecosystems. The Company remains focused on disciplined execution and sustained category leadership as it continues to scale within the organized refurbished ICT segment.

About GNG Electronics Limited

GNG Electronics Limited is India's largest refurbisher of laptops and desktops and among the largest refurbishers of ICT Devices overall, both globally and in India with significant presence across India, USA, Europe, Africa and UAE, in terms of value, as of March 31, 2025. The company follows a repair-over-replacement approach to provide affordable, reliable, and premium ICT devices functionally and aesthetically comparable to new products, backed by industry-leading warranties. With a strong presence across India, the USA, Europe, Africa, and the UAE, the company refurbished nearly 5.9 lakh devices in FY25, offering a portfolio of 5,840 SKUs including laptops, desktops, tablets, servers, premium smartphones, workstations, and accessories.

About Ingram Micro India Pvt Ltd

Ingram Micro India Pvt Ltd is a leading technology distributor in India and part of the global Ingram Micro ecosystem. The company enables the technology supply chain through a broad distribution network, strong channel relationships, and market access across enterprise, small and medium businesses and institutional segments. Ingram Micro India works with a wide range of technology vendors and solution providers, supporting distribution, logistics and value-added capabilities across the ICT ecosystem.

About Supertron Electronics Pvt Ltd

Supertron Electronics Pvt Ltd is a leading ICT distribution and services organization with a wide presence across India. The company maintains longstanding channel relationships and distribution capabilities spanning computing products, IT hardware and related technology categories. Supertron's pan-India reach and channel engagement enable it to support enterprise, institutional and reseller procurement requirements.
