Dear Sir / Madam,

Sub: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Sub: Intimation of Award

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform you that the company has received ICC - K. V. Mariwala Award for Effective Chemical Industry Academia Partnership by the Indian Chemical Council.

Our technology converts biogenic CO₂ from ethanol fermentation into di-methyl ether (DME) using ICT's breakthrough single-step catalytic conversion process, which is more efficient and cost-effective than conventional methods.

DME is a clean fuel and versatile chemical feedstock, serving as a substitute for LPG and diesel while also supporting chemical synthesis applications.

The technology has been jointly developed by Godavari Biorefineries Ltd. (GBL) and the Institute of Chemical Technology (ICT), Mumbai, under the strong guidance of Prof. G. D. Yadav and the personal commitment of Mr. Samir Somaiya, CMD, GBL.

Godavari Biorefineries Ltd

Lab-scale validation and lifecycle assessments confirm environmental and economic viability, with potential for negative carbon intensity, making this solution scalable, globally replicable, and impactful in closing the carbon loop against climate change.

A copy of the award is enclosed for your reference.

This is for your information and records.

Thanking you,
Yours faithfully

For Godavari Biorefineries Limited
Manoj Jain

Company Secretary and Compliance Officer
