PM Surya Ghar lights up 40 lakh households

New Delhi: A total of 40 lakh households have been solarised under the government's PM Surya Ghar: Muft Bijli Yojana, Union Minister Pralhad Joshi said on Friday. The scheme is turning citizens from power consumers to power producers, the MNRE Minister said in a post on X. Launched in February 2024, the scheme aims to install rooftop solar systems in one crore households by March 2027. PTI

SC slams Centre, says NEET paper leak has left students, families traumatised

SEEKS ACCOUNTABILITY. HR Ministry to file affidavit on how it will address lack of 'intellectual wherewithal'

Krishnadas Rajagopal
New Delhi

The Supreme Court on Friday said the NEET-UG 2026 paper leak had left students and entire families traumatised to find that years of hard work and emotional investment had gone waste even as the Centre said Prime Minister Narendra Modi is "personally monitoring" the situation.

A Bench, headed by Justice PS Narasimha, asked why the National Testing Agency (NTA), which holds the NEET-UG exam, repeats its mistakes when the Union Public Services Commission had so far made none.

The court zeroed in on the problem of *ad-hocism* in the NTA, and the lack of "institutional memory and framework".

The court directed the Ministry of Human Resource and Development (MHRD) to file an affidavit explaining

the measures it intends to take to tackle the lack of "physical and intellectual wherewithal" and improve institutional capacity within the NTA.

The NTA maintained that the cancellation of NEET-UG 2026 and the transfer of the investigation to the Central Bureau of Investigation (CBI) by itself reflected the seriousness with which examination integrity was treated by both the NTA and the Union government.

The cancellation of NEET-UG 2026, conducted on May 3, had left around 23 lakh candidates facing uncertainty over their academic future. But the court also struck an optimistic tone, saying the situation was "not beyond us".

"We have some of the best officers heading these institutions. But they get transferred and take their experience and know-how with them. The knowledge is not percolated to the next group

EXAM REFORMS. Among the key changes, the agency said it had introduced multiple sets of question papers, with one set retained as a backup

of people who are going to run the institution. It is not the individual who should have the memory, the institution must retain its memories, experiences and learn from them," Justice Narasimha observed.

The court asked the Ministry to specify the steps taken to retain specialised personnel, preserve institutional memory and ensure a plurality of expertise in the conduct of NEET examinations.

"The endeavour is to ensure that NTA has the physical and intellectual wherewithal to ensure no incidents like in the NEET-UG 2024 and 2026 exams occur again," Justice Narasimha said. The apex court has scheduled the next hearing on the matter in the second week of July.

COMPUTER TEST
"The real problem will not stop till there is actual accountability. Not in terms of

and so will be liable, it will be effective when we know which individual shoulders the responsibility. Unless you identify the specific duty-bearers, it will be difficult," Justice Narasimha observed.

In its affidavit, NTA said it will conduct NEET-UG in the computer-based test (CBT) mode from next year instead of the pen and paper mode after consulting the Centre.

A high-level committee of experts has recommended the transition.

MULTIPLE SETS
Among the key changes, the agency said it had introduced multiple sets of question papers, with one set retained as backup.

A designated senior officer will oversee the entire printing process, and the use of electronic devices has now been prohibited. All CCTV recordings would also be preserved.

Intel, Odisha sign \$3.3 b semicon substrate production deal

Press Trust of India
New Delhi

Chip maker Intel Corporation has signed a pact with the Odisha government and 3DGS to bring semiconductor substrate manufacturing technology to India, an official said on Friday.

Union Minister of Electronics and IT Ashwini Vaishnaw, along with Chief Minister of Odisha Mohan Charan Majhi, Intel CEO Lip-Bu Tan, and other dignitaries, witnessed the signing of the MoU, the statement said.

"Congratulations to Odisha, Intel and 3DGS on signing an MoU to bring substrate manufacturing technology to India. This will further advance the semiconductor ecosystem in India," Vaishnaw said.

A semiconductor substrate is the layer of chip on which circuits are built.

FIRST PROJECT
The project, with an estimated investment of about \$3.3 billion, will come up in the Bhubaneswar-Khurda region and is the first with the engagement of computer chip major Intel. To be implemented over five-six years, it is expected to generate more than 1,800 direct high-skilled jobs.

"It will make advanced packaging glass core substrates, high-density interconnect substrates and associated semiconductor technologies, with Intel supporting technology know-how and process expertise. It is expected to contribute to capability development, ecosystem growth and export-oriented manufacturing in India," a statement said.

Vaishnaw said the entry of firms like Applied Materials Inc, Lam Research, Tokyo Electron Ltd, Merck Electronics, and signing of the MoU between Tata Electronics and Dutch multinational ASML -- is a recognition of the government's efforts in the semiconductor sector and the trust the industry places in India.

For DKS, the hard part will be balancing welfare, caste equation, infra

Aishwarya Kumar
Bengaluru

While DK Shivakumar has finally wangled for himself the chief ministership of Karnataka, the tougher challenge begins now. With barely over 20 months left before the next Assembly election, the incoming CM inherits a politically sensitive and fiscally stretched State, alongside mounting pressure to deliver on governance and infrastructure.

The Congress government's welfare guarantees have significantly stretched the State's finances, with Karnataka borrowing nearly ₹20,000 crore additionally every year to sustain the schemes. As per a Comptroller and Auditor General (CAG) report, the State borrowed ₹63,000 crore in 2023-24 to fund guarantee schemes and bridge the financial gaps they created, ₹37,000 crore

higher than the previous year's net debt of ₹26,000 crore.

The report also noted that nearly ₹5,299 crore earmarked for capital expenditure on infrastructure was diverted towards guarantee schemes during the year.

As of March 2026, Karnataka's per capita debt burden has surged to ₹1.12 lakh. Another immediate political challenge will be the contentious caste census report released before Siddaramaiah stepped down. Shivakumar had earlier opposed the survey.

Karnataka conducted two caste surveys in the last nine years, both under Siddaramaiah's leadership.

FIRST SURVEY
The first survey, commissioned in 2015 under the H Kantharaj Commission, was completed by 2018 but remained politically sensitive for years. The latest re-

DK Shivakumar

port is expected to intensify caste equations ahead of the election cycle and could trigger friction among the dominant and backward communities.

CONTINUED INFLUENCE
Despite stepping down as Chief Minister, Siddaramaiah remains a powerful

force within the Congress. His decision to reject a Rajya Sabha berth and remain active in Karnataka politics raises questions over how much influence he will continue to exert in the day-to-day functioning of the government. Shivakumar will also have to navigate demands for Deputy Chief Minister representation from different caste and ideological blocs, including

AHINDA factions. Known to oppose power-sharing arrangements, Shivakumar could face internal friction if competing camps push for greater representation in the new Cabinet. Political analyst Harish Ramaswamy said Shivakumar's biggest test would be balancing governance, caste equations, cabinet formation and fiscal management simultaneously.

Maersk to launch FI2 India-China service

T E Raja Simhan
Chennai

AP Moller-Maersk has launched a dedicated ocean service connecting Far East Asia to the Indian subcontinent, with the first sailing expected to depart Shanghai on June 4.

The service, FI2, has been introduced following customer demand for additional

capacity on the China-India trade route.

It will provide Indian importers and exporters with a quicker, reliable, high-frequency connection to key manufacturing and sourcing hubs across north west India, the Danish shipping major said.

The weekly service will be operated with a fleet of six vessels with a nominal capacity of 4,500 TEU.

The port rotation will be Shanghai-Ningbo-Nansha-Tanjung Pelepas-Nhava Sheva-Pipavav-Port Qasim. A company official said the service will also be quicker by 5-6 days than the existing FI3 service.

The FI3 service, connecting Jawaharlal Nehru, Pipavav, Karachi, Mundra, Colombo, Singapore, Qingdao, Xingang and Busan ports, takes 30 days.

Gig platforms have time till June 22 to sync with e-Shram portal

Our Bureau
New Delhi

The Union Labour and Employment Ministry has set a June 22 deadline for platform businesses to transfer all workers' data to the e-Shram portal. The move is in sync with the government initiating the process for establishing the National Social Security Board for Gig and Platform Workers' under the Code on Social Security to oversee governance and welfare for the growing gig economy.

Emphasising this in his address at an event on 'Stakeholders Consultation on Opportunities and Challenges of Gig and Platform Workers in India', Ashutosh AT Pednekar, Joint Secretary and Director General (Labour Welfare), said the sector is strategically very important for the Indian economy. "Huge part of our workforce is now getting absorbed in the gig and platform economy and the potential is immense. Today, around one crore workers are employed in this sector, and the potential is to reach around 2.5 crore workers by the end of the decade," said Pednekar.

The event was organised by FICCI-AIOE with the International Labour Organization (ILO) on Friday.

workers along with the portability of benefits, which is a challenge worldwide. We have a deadline till June 22 before which the platforms have to ensure that all data of workers is transferred on the e-Shram portal and we are working on very tight timeline," he noted. He outlined steps taken by the government, including notification of rules on the Code on Social Security, along with the other three Labour Codes on May 8.

"We are in the process of operationalising the Code basis the rules through various mechanisms like the National Social Security Board for Gig and Platform workers, which is being operationalised. The Board will look at unorganised workers," he added. The government is also in the process of implementing various social security schemes for platform workers related to accident and maternity benefits, among others.

The government has mandated the new code to ensure basic social security measures are given to the workers as a part of the protection coverage.
