GP ECO SOLUTIONS INDIA LIMITED

Reports Strong H1 FY27 Performance With 92.97% Revenue Growth YoY

Consolidated Order Book at INR 769 Cr

November 10, 2026, Noida, India: GP Eco Solutions India Limited, a growing player in India's renewable energy sector, announced its financial performance for the half year ended September 30, 2026, following the Board Meeting held on November 03, 2026.

The Company delivered strong operating and financial performance in H1 FY27, driven by rising solar energy demand, expanding market reach, a diversified product portfolio and improved execution.

Its integrated renewable energy platform, comprising the Invergy™ brand, solar inverters, Battery Energy Storage Solutions (BESS), EPC capabilities, distribution network and GPES Green initiatives, positions the Company to capitalise on emerging opportunities across rooftop solar, C&I, utility-scale projects and energy storage.

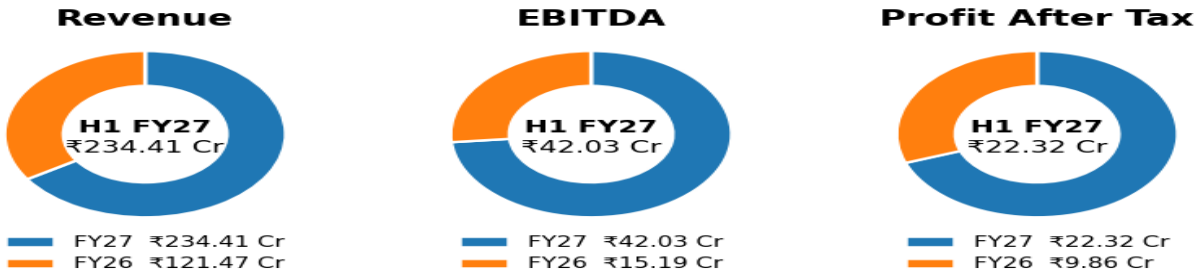

Key Financial Highlights (Consolidated)

Particulars (INR Cr)	H1 FY27	H1 FY26	YoY %
Revenue from Operations	234.41	121.47	92.97%
EBITDA	42.03	15.19	176.78%
EBITDA Margin (%)	17.93%	12.50%	+ 5.43 pp
Profit After Tax	22.32	9.86	126.29%
PAT Margin (%)	9.52%	8.12%	+1.40 pp

Key Performance Highlights

- Robust Revenue Growth: Revenue from operations increased by 92.97% year-on-year to ₹234.41 crore, reflecting strong business momentum, growing customer demand and improved execution across the Company's renewable energy business segments.
- Significant Improvement in Operating Profitability: EBITDA grew by 176.78% to ₹42.03 crore, substantially outpacing revenue growth. EBITDA margins improved by 543 basis points to 17.93%, demonstrating better operating leverage, improved business mix and enhanced operational efficiencies.
- Strong PAT Growth: Profit After Tax increased by 126.29% with PAT margins improving from 8.12% to 9.52%, reflecting the Company's ability to translate business growth into improved profitability.
- Sustainable Business Expansion: The Company continues to strengthen its business ecosystem through product innovation, an expanding distribution network, customer relationships and increasing participation in India's fast-growing solar and energy storage markets.

H1 FY27 vs H1 FY26 | Financial Performance

Each chart compares H1 FY27 and H1 FY26 values for the respective metric.

Growing Order Book Providing Strong Revenue Visibility

GP Eco Solutions continues to witness healthy demand across its solar and energy storage portfolio, supported by its growing customer base and expanding project pipeline.

As of September 30, 2026, the Company's under execution order book stood at ₹534.59 crore, providing strong revenue visibility for the coming quarters. The Company has also highlighted a consolidated order book position of ₹769 crore, reflecting the scale of business opportunities and project visibility across its operations.

Management Commentary

Commenting on the Company's performance, Mr. Deepak Pandey, Managing Director, GP Eco Solutions India Limited, said:

We are pleased to report a strong H1 FY27 performance, with revenue growing by 92.97%, EBITDA by 176.78% and Profit After Tax by 126.29% year-on-year, alongside improved EBITDA and PAT margins, reflecting enhanced operational efficiency and profitable growth.

Our growth reflects increasing traction across solar inverters, battery energy storage system (BESS), rooftop solar and EPC businesses. We remain focused on scaling our proprietary Invergy™ brand, expanding our product portfolio and strengthening our integrated renewable energy platform through GPES Green.

With an under-execution order book of ₹534.59 crore and a consolidated order book of ₹769 crore, we have encouraging business visibility. Our focus remains on timely execution, geographical expansion, strengthening customer relationships and capturing emerging opportunities in the solar and energy storage markets.

India's growing renewable energy landscape presents significant opportunities. We aim to build GP Eco Solutions into a trusted and scalable renewable energy enterprise, delivering sustainable growth and long-term stakeholder value.

Outlook: Building a Scalable Renewable Energy Enterprise

The Company's key strategic priorities include:

- 1. Scaling Invergy™: Expanding solar inverters, hybrid solutions and BESS products.
- 2. Expanding Energy Storage: Strengthening participation across residential, commercial and industrial markets.
- 3. Strengthening EPC Business: Expanding rooftop solar, C&I and utility-scale project execution.
- 4. Widening Market Reach: Strengthening distribution networks and institutional relationships.
- 5. Enhancing Operational Capabilities: Improving sourcing, supply chain and execution infrastructure.
- 6. Advancing GPES Green: Expanding green energy initiatives and sustainability contributions.

With strong financial growth, improving profitability and a healthy order book, GP Eco Solutions remains focused on strengthening its market position and delivering sustainable growth through FY27 and beyond.

About GP Eco Solutions India Limited

Building Trust & Partnerships

GP Eco Solutions India Limited is an ISO 9001:2015 certified renewable energy company engaged in solar solutions, inverter and battery energy storage products, EPC services and related operations. The Company is an authorised distributor of Utility Invergy™ products and offers its proprietary range of hybrid inverters, LFP batteries and BESS through OEM arrangements. With its Invergy™ brand, GPES Green initiatives and 14 subsidiaries, including 9 wholly-owned subsidiaries, the Company has an established presence across North India and remains committed to supporting India's clean energy transition.
