Aragon, director of the California Department of Public Health (CDPH), said on Friday that more cases of the fatal virus, which could be transmitted to humans and animals by the bite of an infected mosquito, had been reported recently, reports Xinhua news agency. "West Nile virus activity in the state is increasing, so I urge Californians to take every possible precaution to protect against mosquito bites," he said.

Haitian Senate Prez declared interim leader after Moise's assassination

Senate said Lambert would take a constitutional oath in parliament and would be installed in his functions

Moscow

Haiti's Senate has issued a resolution declaring President of the Haitian Senate Joseph Lambert interim president following the assassination of President Jovenel Moise, local media reported.

The resolution was adopted on Friday and was supported by several Haitian opposition parties and organisations. Rezo Nodwes said. Haiti's Senate, which currently consists of only a third of its members, said that Lambert would take a constitutional oath in parliament and would be installed in his functions immediately after that, to form a new government.

At the same time, a number of political parties in Haiti have signed a memorandum, saying that Ariel Henry, who was appointed prime minister by Moise two days before the assassination, should now head the government of national unity Haiti24 reported.

Henry did not have time to form a new government, so Claude Joseph is now serving as interim prime minister since he was the incumbent at the time of Moise's assassination. Joseph is counting on the support of the international community to stay in power until presidential and legislative elections are held on September 26.

According to Haiti's police, a group of 26 Colombians and two Americans shot President Moise in his home on Wednesday.

Colombia probes 4 firms

Haiti's interim PM confirms request for US troops to country

WASHINGTON: Haiti's interim government said Friday that it asked the US to deploy troops to protect key infrastructure as it tries to stabilise the country and prepare the way for elections in the aftermath of the assassination of President Jovenel Moise. "We definitely need assistance and we've asked our international partners for help," Interim Prime Minister Claude Joseph told The Associated Press in an interview, declining to provide further details. "We believe our partners can assist the national police in resolving the situation," Joseph said that he was dismayed by opponents who've tried to take advantage of Moise's murder to seize political power - an indirect reference to a group of lawmakers have declared their loyalty and recognised Joseph Lambert, the head of Haiti's dismantled senate, as provisional president and Ariel Henry, whom Moise designated as prime minister.

US rebuffs Haiti troops request

WASHINGTON/PORT-AU-PRINCE: The United States on Friday rebuffed Haiti's request for troops to help secure key infrastructure after the assassination of President Jovenel Moise by suspected foreign mercenaries, even as it pledged to help with the investigation.

Taliban claim they control Afghan's 85%

AGENCIES / Kabul

Afghan government officials have dismissed as propaganda claims by Taliban officials that the insurgent group had captured 85 per cent of territory in Afghanistan, amid US troop withdrawal from the country.

Dawn reported that Afghan officials described the assertion that the Taliban controlled most of the country as part of a propaganda campaign launched as foreign military personnel, including those from the United States, withdraw after almost 20 years of fighting.

Torghundi, a northern town on the border with Turkmenistan, had also been captured by the Taliban overnight, Afghan and Taliban officials said as per the publication.

Over 150 Taliban militants killed, 23 captured

As many as 165 Taliban militants were killed and 35 injured while 23 terrorists were captured by security forces in Afghanistan on Saturday. At least 109 Taliban militants were killed and 25 others injured during fierce battles in two southern Afghan provinces, the military confirmed. In another operation, 56 Taliban militants were killed, 10 others wounded and 23 captured in Afghanistan's northern region.

Afghans have to rebuild their nation on their own: Biden

Hackers disrupt Iran's rail service with fake delay messages

TEHRAN: Iran's railroad system came under cyberattack on Friday, a semi-official news agency reported, with hackers posting fake messages about train delays or cancellations on display boards at stations across the country.

The hackers posted messages such as "long delayed because of cyberattack" or "canceled" on the boards. They also urged passengers to call for information, listing the phone number of the office of the country's supreme leader, Ayatollah Ali Khamenei.

No group took responsibility. Earlier in the day, Fars said trains across Iran had lost their electronic tracking system. It wasn't immediately clear if that was also part of the cyberattack. Fars later removed its report and instead quoted the spokesman of the state railway company, Sadegh Sekri, as saying "the disruption" did not cause any problem for train services.

Indonesia faces O2 shortage, seeks help as infections soar

JAKARTA: Just two months ago, Indonesia was coming to a gasping India's aid with thousands tanks of oxygen.

Today, the Southeast Asian country is running out of oxygen as it endures a devastating wave of coronavirus cases and the government is seeking emergency supplies from other countries, including Singapore and China.

A shipment of more than 1,000 oxygen cylinders, concentrators, ventilators and other health devices arrived from Singapore on Friday, followed by another 1,000 ventilators from Australia, said Luhut Binsar Pandjaitan, the government minister in charge of Indonesia's pandemic response.

Beside those donations, Indonesia plans to buy 28,600 tons of oxygen and 10,000 concentrators - devices that generate oxygen - from neighbouring Singapore, Pandjaitan said.

He said he is in touch with China and other potential oxygen sources. The US and the United Arab Emirates also have offered help. "We recognise the difficult situation Indonesia currently finds itself in with a surge of Covid cases," White House press secretary Jen Psaki said.

Ransomware attack: Biden puts onus on Putin, seeks fast action

WASHINGTON: US President Joe Biden has warned Russia of consequences for the ransomware attacks emanating from the country, underscoring the need for Moscow to take action against groups engaged in the crime.

Biden spoke with Russian President Vladimir Putin on Friday about the ongoing ransomware attacks by criminals based in Russia that have impacted the US and other countries around the world, the White House said in a readout of the call.

"Yes," Biden told reporters at the White House hours after his call with Putin on this issue when asked if there would be consequences to the ransomware attack.

"I made it very clear to him that the United States expects, when a ransomware operation is coming from his soil, even though it's not sponsored by the state, we expect them to act if we give them enough information to act on who that is," he said.

A massive fire broke out at the factory in Narayanganj outside Bangladesh's capital on Thursday.
