Re: Road Construction Equipment Business: Product Development Update

Dear Sir/Madam,

This communication serves as a strategic update regarding a significant expansion in the business portfolio of Gujarat Apollo Industries Limited ("Company"). We are pleased to announce the update related to the Company's strategic entry into the manufacturing and sales of **Road Construction Equipment**.

This decision is driven by a growth trajectory projected for the infrastructure and road development sector. This vertical aligns perfectly with our long-term vision for sustained growth.

Product Portfolio and Development Status:

The new product line will encompass a range of machinery essential for modern road construction projects, ensuring high quality, efficiency, and reliability. The initial portfolio includes:

- **Asphalt Mixing Plants (Hot Mix Plants)**
- **Paver Finishers (Asphalt Pavers)**
- **Other Auxiliary Road Construction Equipment**

We are happy to report substantial progress in the product development lifecycle for our flagship offerings: **Asphalt Mixing Plants** and **Paver Finishers**. The development phase for these machines has been successfully completed, and they have currently advanced to the technical **testing and validation phase**. This phase involves comprehensive trials to ensure the machinery meets all stringent quality, performance, safety, and durability standards under various operating conditions.

Commercialization Timeline:

Based on the current trajectory of the testing phase and subsequent planned pre-production preparations, the Company is scheduled to initiate the **commercial sales** and delivery of the new Road Construction Equipment products in the **4th quarter of the Financial Year 2026 (FY 2026)**. We are committed to a seamless market entry and establishing a strong presence in this specialized domain.

You are requested to kindly take this important corporate announcement on record.

For **GUJARAT APOLLO INDUSTRIES LIMITED**
