Subject: Newspaper advertisement titled statement of Standalone and Consolidated Audited Financial Results for the Quarter and Year ended on 31st March 2025

Dear Sir/Madam,

Pursuant to Regulation 30 and 47(3) read with Schedule III of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith the copies of newspaper advertisement for the Statement of Standalone and Consolidated Audited Financial Results of the Company for the quarter and year ended 31st March, 2025 published on 09th June, 2025, which were considered, approved and taken on record by the Board of Directors in their meeting held on 07 June, 2025 in following newspapers:

- **"Financial Express"** for English language national daily wide circulation;
- **"Jansatta"** in Hindi (Regional) language.

Further, in terms of Regulation 46 of the SEBI (LODR) Regulations, 2015, the aforesaid financial results are also uploaded on the website of the Company <http://www.hardwyn.com/>

This is for your information and records.

Thanking you,

Yours faithfully,

**For and on behalf of
Hardwyn India Limited**

**Rubaljeet Singh Sayal
Managing Director & CFO

IN THE NEWS

US inflation to tick higher as tariffs hit consumers

\$ US CONSUMERS SAW faster inflation in May, notably for merchandise, as companies gradually pass along higher import duties. Prices of goods & services, excluding volatile food and energy costs, rose 0.3% in May, the most in four months, as per a Bloomberg survey. In April, the core consumer price index climbed 0.2%. The measure, which is a better indicator of underlying inflation, is seen accelerating for the first time this year — to 2.9%.

Meta in talks for Scale AI investment

META PLATFORMS IS in talks to make a multibillion-dollar investment into AI startup Scale AI, according to people familiar with the matter. The financing could exceed \$10 billion in value, some of the people said, making it one of the largest private company funding events of all time.

PROTESTS AGAINST IMMIGRATION AGENTS CONTINUE

Trump deploys National Guard in LA

ERIC THAYER, MORGAN LEE & MICHELLE L. PRICE
Paramount, June 8

NATIONAL GUARD TROOPS have begun arriving in Los Angeles on orders from President Donald Trump to stamp out protests that have broken out in recent days against federal immigration authorities seeking to carry out deportations in the region.

The members of California's National Guard were seen staging early Sunday at the federal complex in downtown Los Angeles that includes the Metropolitan Detention Center, where confrontations occurred the last two days.

Trump says he is deploying 2,000 California National Guard troops to Los Angeles — over the objections of Governor Gavin Newsom.

Confrontations broke out on Saturday near a Home Depot in the heavily Latino city of Paramount, south of Los Angeles, where federal agents were staging at a Department of Homeland Security office nearby. Agents unleashed tear gas, flash-bang explosives and pepper balls, and protesters

A protester waves Mexican flag during a stand-off with law enforcement authorities in the LA County city of Paramount on Sunday

REUTERS

hurled rocks and cement at Border Patrol vehicles. Smoke wafted from small piles of burning refuse in the streets.

Tensions were high after a series of sweeps by immigra-

tion authorities the previous day, including in LA's fashion district and at a Home Depot, as the weeklong tally of immigrant arrests in the city climbed past 100. A prominent union

leader was arrested while protesting and accused of impeding law enforcement.

The White House announced that Trump would deploy the Guard to "address

the lawlessness that has been allowed to fester."

Newsom, a Democrat, said in a post on the social platform X that it was "purposefully inflammatory and will only escalate tensions." He later said the federal government wants a spectacle and urged people not to give them one by becoming violent.

In a signal of the administration's aggressive approach, Defense Secretary Pete Hegseth threatened to deploy the U.S. military. "If violence continues, active-duty Marines at Camp Pendleton will also be mobilized — they are on high alert," Hegseth said on X.

Trump's order came after clashes in Paramount and neighboring Compton, where a car was set on fire. Protests continued into the evening in Paramount, with several hundred demonstrators gathered near a doughnut shop, and authorities holding up barbed wire to keep the crowd back.

Crowds also gathered again outside federal buildings in downtown Los Angeles, including a detention center, where local police declared an unlawful assembly and began to arrest people.

Elon Musk and Donald Trump

PHOTOGRAPHS: BLOOMBERG/GETTY IMAGES

Trump warns Musk not to back Democrats

PRESIDENT DONALD TRUMP said Elon Musk will pay "very serious consequences" if the billionaire tech mogul funds Democratic candidates that challenge lawmakers who backed Republicans' tax-and-spending bill. Trump, in a phone interview with *NBC News'* Kristen Welker, also said he has no desire to repair his relationship with Musk. The two had a public falling out on Thursday.

"I gave him breaks in my first administration, and saved his life in my first administration, I have no intention of speaking to him," Trump said in the interview, calling Musk "disrespectful" and that he assumes the relationship is over.

The world's richest man backed Trump and Vice President JD Vance's election campaign in 2024 and headed the Department of Government Efficiency's cost-cutting efforts. His alliance with Trump broke apart in dramatic fashion, however, after Musk spoke out against the tax bill backed by the president.

Musk has argued the bill would add to the deficit and undermine his efforts to slash government spending. Trump and his allies, in turn, have pointed to the bill's plan to phase out electric vehicle tax credits that benefit electric car-maker Tesla Inc. as the reason for Musk's outrage.

FROM THE FRONT PAGE

Rate cut set to drive credit-backed durable sales

"STAKEHOLDERS WILL LOOK to pass on the gains from an easing monetary policy to consumers. As a result, sales coming through credit schemes will get a fillip. At an industry level, sales led by easy financing are close to the halfway mark, it could certainly cross the 50% mark this year as brands, retailers and NBFCs get aggressive," Kamal Nandi, business head and executive vice-president, appliances business at Godrej Enterprises Group, said.

Coupled with the fiscal stimulus measures that have kicked in from April onwards, companies anticipate that consumers are likely to have more money in their hands to spend during the festive period this year, pushing them to gear up for the likely consumption boost in the second half.

NS Satish, president, Haier Appliances, said, "The twin measures of a fiscal stimulus as well as a rate cut are positive from a consumption standpoint. The durables industry will stand to gain as it relies on discretionary spending."

Rural goes up the value chain...

URBAN INDIA GREW at 4.4% in FY25 compared to 7.6% in FY24, while rural growth slowed to 4% from 5.8% in the previous year. Kantar tracks household consumption of both branded and unbranded products across food, home, and personal care categories. For the March 2025 quarter, research agency Kantar reported that FMCG growth had declined to a two-year low of 3.5%, compared to 5.5% in the same period last year. While rural sales volumes rose by 2.7% — a marked slowdown from 6.3% a year ago — urban demand remained largely stable at 4.4%, unchanged from the previous year.

In urban areas, FMCG companies and analysts note that inflationary pressures, sluggish wage growth, and rising housing costs have dented consumer demand, prompting downtrading. Smaller brands have gained from this trend, said Britannia's vice-chairman, MD, and CEO Varun Bery in a recent analysts' call. He, however, added that the FMCG recovery is expected to be gradual rather than a sharp 'hockey stick' rebound, as consumers are likely to remain cautious during the transition.

Kantar says that the June quarter is likely to be one of "status quo", where trends seen in the March quarter are expected to continue. But the scenario is likely to change in

the second half of the ongoing financial year (FY26) as benign commodity prices, a forecast of above-normal rains, and likely good harvests drive rural growth.

Urban demand, on the other hand, is expected to revive on the back of the fiscal stimulus measures as well as the recent rate cuts announced by the central bank. Kantar says that while average FMCG shopping trips have stabilised at 156 in FY25 versus FY24, pack sizes across categories have grown by around 15-16 grams, and the number of packs bought has increased by 26 in FY25 versus the year-ago period.

These trends are likely to get better in the months ahead as confidence grows and macro-economic factors turn favourable for consumers in general.

India's rare earths push can't afford a delay now

COAL INDIA, NTPC, AND others have announced overseas ventures to explore battery minerals, while plans are afoot to enter into bilateral pacts with mineral-rich African and Latin American countries. According to industry sources and experts, these policy initiatives have come a bit late. Many countries, including some Asian peers, have moved much ahead of India in this area. While the response to India's auction process has been lukewarm, potential investors want the policy regime to be tweaked to produce better outcomes. Last week, the mines secretary VI Kantha Rao hinted at further changes in policy to bolster the NCMM.

Currently, India remains 100% import-dependent for most critical minerals, including lithium, nickel, cobalt and germanium. Import of copper, also a key input for high-tech industry, has skyrocketed in recent years (up 10 times in a decade), with domestic production declining.

Even as demand for these minerals surges, industry remains cautious about making large-scale investments due to uncertainties in resource viability, infrastructure, and regulatory clarity. "The current auction regime treats critical minerals in almost the same manner as bulk minerals. Auctions may not be the best way to operationalise

critical mineral blocks," said Arun Misra, CEO, Hindustan Zinc, and ED at Vedanta.

Sector experts say that the lack of detailed resource data has hampered the government's plans to achieve self-sufficiency in critical minerals.

Under the United Nations Framework for Classification of Resources (UNFC), mineral exploration follows four stages: G4 (reconnaissance), G3 (prospecting), G2 (general exploration), and G1 (detailed exploration). The G4 and G3 stages provide low-confidence resource estimates, while the G2 stage represents moderate confidence. The G1 stage offers high-confidence estimates, derived from detailed investigations and direct sampling. In India, only 10% of mineral blocks are designated for mining leases, and are typically auctioned at the G2 level, while G1 auction is almost non-existent.

"The reluctance among experienced private and foreign players is because the recovery rate for these minerals in India is very low, and requires extensive investments in exploration, refining, production facilities and technology," Misra explained. He also noted that companies with no demonstrated expertise in mineral processing are entering the critical mineral segment.

Apart from limited exploration and mining, the non-availability of beneficiation technologies is also a problem. "Geopolitical risks and dearth of funding opportunities due to adverse risk perception are challenges," according to Suvendu Bose, partner, Grant Thornton Bharat.

"Mining projects usually take over a decade to start commercial production. The government must act swiftly by offering incentives and ensuring

pre-embedded clearances for critical mineral blocks," BK Bhatia, director general, Federation of Indian Mineral Industries, said. On average, it takes over 16 years to develop lithium mines from the discovery stage to the first production. However, the actual time frame can vary significantly based on factors like mine type (hard rock versus brine) and location.

The Geological Survey of India has undertaken 368 exploration projects for critical minerals over the past three years, with 195 projects underway in FY25, and plans to initiate 227 projects for various critical minerals in FY26.

Overall, while the policy push might have started creating an enabling environment, further focus on auction efficiency, investor confidence, and infrastructure will be crucial, said an analyst.

The scale and speed still need to catch up with the surging demand for EVs and energystorage, says Rajat Verma, founder and CEO, Lohum. "Only a fraction of India's large mineral reserves have been explored and utilised, leaving significant potential untapped, especially for lithium, copper, and cobalt," Verma said.

India's pursuit of minerals is also likely to face challenges due to China's significant presence

on the continent. Adding to India's woes, China's export controls have forced the importing countries to look for alternative sources, squeezing the supplies available for India.

A trade deal with Africa will assist India in meeting its mineral requirements, industry players feel. However, here too, there are possible impediments. "The Centre may face challenges in navigating any trade alliances with Africa, particularly in view of the prevailing local social political issues. China's dominance in African countries may also impede our progress," Bhatia said. "We need to address these issues at the government-to-government level before entering into such alliances," he added.

Rajib Maitra, partner, Deloitte India, said India's heavy import dependence makes it vulnerable not only to trade disruptions but also to price shocks and supply bottlenecks. Analysts suggest incentivising the setting up of processing plants by providing capital incentives, tax holidays and viability gap funding. "A clear-cut policy for critical minerals needs to be developed, with a focused approach to encourage exploration, processing and downstream value addition," said Bose.

(Tomorrow: Is auction the best way to lure investors?)

US and China set for trade discussions in London today

THREE OF US President Donald Trump's top aides will meet with their Chinese counterparts in London on Monday for talks aimed at resolving a trade dispute between the world's two largest economies that has kept global markets on edge.

US Treasury Secretary Scott Bessent, Commerce Secretary Howard Lutnick and Trade Representative Jameson Greer will represent Washington in the talks, Trump announced in a post on his Truth Social platform.

China's foreign ministry said on Saturday that vice premier He Lifeng will be in the UK between June 8 and June 13, adding that the first meeting of the China-US economic and trade consultation mechanism would be held during this visit.

"The meeting should go very well," Trump wrote. Trump spoke to Chinese President Xi Jinping on Thursday in a rare leader-to-leader call amid weeks of brewing trade tensions and a dispute over critical minerals.

AUCTION OF STATE GOVERNMENT SECURITIES

The following State Governments have offered to sell stock by way of auction, for an aggregate amount of **₹18,330 Crore** (Face Value).

Sr. No.	State	Amount to be raised (₹ cr)	Tenure (in years)	Type of auction
1.	Andhra Pradesh	1,000	08	Yield Basis
		1,000	09	Yield Basis
		1,000	10	Yield Basis
		2,000	14	Yield Basis
2.	Haryana	1,000	15	Yield Basis
		1,000	14	Yield Basis
3.	Jammu and Kashmir	505	08	Yield Basis
4.	Mizoram	125	14	Yield Basis
5.	Puducherry	150	15	Yield Basis
		50	Re-issue of 6.62% Puducherry SDL 2026, issued on November 24, 2021	Price Basis
6.	Punjab	1,000	25	Yield Basis
		1,500	Re-issue of 6.89% Punjab SGS 2046, issued on May 28, 2025	Price Basis
7.	Tamil Nadu	1,000	03	Yield Basis
		2,000	10	Yield Basis
8.	Telangana	1,000	Re-issue of 6.94% Tamil Nadu SGS 2055, issued on June 04, 2025	Price Basis
		1,000	30	Yield Basis
		1,000	31	Yield Basis
Total		18,330	32	Yield Basis

The auction will be conducted on the Reserve Bank of India Core Banking Solution (E-Kuber) system on **June 10, 2025 (Tuesday)**. Individual investors can place bids as per the non-competitive scheme also through the Retail Direct portal (<https://rbi-retaildirect.org.in>). For further details, please refer to RBI press release dated June 06, 2025 (Friday) on RBI website www.rbi.org.in
