Moody's Upgrades Reliance Ind to Baa1

New Delhi: Moody's Ratings has upgraded Reliance Industries Ltd to Baa1 from Baa2—two notches above India's sovereign rating, citing the conglomerate's resilient credit profile, diversified operations and strong financial discipline.

The ratings agency said Reliance Industries benefits from its leading positions across oil-to-chemicals, digital services and retail, as well as counter-cyclical business segments and significant international exposure, with more than one-third of revenue coming from exports. "RIL's rating has been upgraded to Baa1 from Baa2, reflecting its fundamentally strong and resilient credit profile, supported by its large scale, diversified operations, and leading market positions across oil-to-chemicals, digital, and retail sectors," Moody's said in a statement.—PTI

Vedanta Gets Highest Credit Rating in Over a Decade

New Delhi: Vedanta Group on Friday said that it has received its highest domestic credit rating in over a decade after rating agency ICRA upgraded the long-term ratings of its key group entities to AA+.

Securities with an AA+ rating are considered to have a high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk.

This reinforces confidence in the group's strong operational performance along with its robust financial profile and structural efficiencies post-merger, Vedanta said in a statement. "ICRA upgraded the long-term ratings of Vedanta Ltd and Vedanta Aluminium Metal Ltd (VAML) to AA+ with a stable outlook, while Talwandi Sabo Power Limited (TSPL) was upgraded to AA-Stable from A+/WatchDeveloping," Vedanta said.—PTI

Sagarmala Finance Plans India's First Blue Bond Issue

Twesh Mishra

New Delhi: Sagarmala Finance Corporation plans to raise India's first blue bonds this fiscal, according to managing director L. V S Sudhakar Babu.

The state-owned lender is preparing to launch its maiden bond issue soon to raise up to ₹1,000 crore. "This will be a ₹500 crore base issue, with a green shoe option of another ₹500 crore," Babu told ET.

Trust Capital, AK Capital and Tipsons have been appointed advisers for the issue. The proposed blue bonds are aimed at investors seeking exposure to maritime projects. On Friday, the benchmark 10-year government bond yield stood at 6.99%.

Maintaining Grid Stability

From Page 1

The proposed scheme comes as India looks to accelerate deployment of storage infrastructure to support increasing share of renewable energy in the grid and manage growing peak demand.

India has been witnessing record electricity consumption this summer, with the surge in post-sunset demand increasing the need for flexible generation and storage systems. The scheme is also likely to support pumped storage projects,

which are increasingly being seen as critical for long-duration energy storage and balancing renewable energy generation.

India is targeting 500 GW of non-fossil fuel capacity by 2030, which is expected to require substantial storage capacity to integrate intermittent renewable energy into the grid. Storage systems will play a key role in maintaining grid stability, meeting evening peak demand and reducing renewable energy curtailment. While a VGF scheme for battery storage is under

implementation, the new one aims to kick-start large-scale adoption by stakeholders amid variability in grid.

The earlier VGF scheme was launched in two tranches, supporting 13.2 GWh with 30% capital expenditure support, and thereafter 30 GWh with 16%. While the first VGF scheme is completely tendered, the second one is in progress, said one of the persons. These schemes, however, did not have a pumped hydro storage component.

The Central Electricity Authority has projected the requirement of storage capacity at 235 GWh by 2029-30 and 888 GWh by 2035-36.
