RELEASE

HCL Technologies partners with Siemens PLM Software to accelerate new product development and reduce time to market

Noida, India, May 3rd, 2012 – HCL Technologies Ltd. (HCL), a leading global IT services provider and Siemens PLM Software, a business unit of Siemens Industry Automation division and a leading provider of Product Lifecycle Management (PLM) software and services today announced a partnership for the Indian market. The partnership aims to accelerate client adoption of PLM software and services thereby enhancing product development and enabling reduced time-to-market for manufacturing companies in India.

The partnership will facilitate delivery of advanced, highly flexible and scalable PLM solutions across industry verticals with specific focus onto Aerospace & Defense, Automotive and Ancillary markets. HCL's industry and process expertise combined with its system integration skills will complement Siemens PLM Software's comprehensive portfolio of proven digital lifecycle management solutions.

"Today companies want to gain competitive advantage and expand market share through faster time to market. The Siemens PLM Software partnership will help customers benefit from efficiencies in product development lifecycle thus impacting their bottomlines," said **Mr. GH Rao**, **Senior Corporate Vice President and President - Engineering and R&D Services (ERS), HCL Technologies.** "This partnership is yet another milestone in our engineering heritage and platform development expertise across enterprise ecosystem and adds tremendous value to HCL's service offerings."

"We are delighted to partner with HCL Technologies and are excited about the unique value proposition that our alliance can deliver to manufacturers looking to boost their innovation capabilities using PLM solutions," said **Suman Bose, Managing Director, Siemens PLM Software, India**. "HCL Technologies' deep domain expertise coupled with robust implementation methodologies complements Siemens PLM Software's comprehensive PLM solution suite," he further added.

HCL's PLM practice offers a wide range of implementation and maintenance services to diverse domains ranging from aerospace to power and utilities. HCL has experience in executing complex PLM systems for Fortune 500 companies over the last decade. The addition of HCL Technologies in the partner eco system will further strengthen Siemens PLM Software's efforts to help its customers maximize the return from their PLM investment.

About HCL Technologies

HCL Technologies is a leading global IT services company, working with clients in the areas that impact and redefine the core of their businesses. Since its inception into the global landscape after its IPO in 1999, HCL focuses on 'transformational outsourcing', underlined by innovation and value creation, and offers integrated portfolio of services including software-led IT solutions, infrastructure management, engineering and R&D services and BPO. HCL leverages its extensive global offshore infrastructure and network of offices in 26 countries to provide holistic, multi-service delivery in key industry verticals including Financial Services, Manufacturing, Consumer Services, Public Services and Healthcare. HCL takes pride in its philosophy of 'Employee First, Customer Second' which empowers our 82,464 transformers to create a real value for the customers. HCL Technologies, along with its subsidiaries, has reported consolidated revenues of US$ 4.0 billion (Rs19,412 crore), as on 31 March 2012 (on LTMbasis).
