## **HERO MOTOCORP UNVEILS SUPER SPLENDOR XTEC 2.0 INDIA'S MOST TRUSTED 125CC MOTORCYCLE, GETS AN UPGRADE!**

The ultimate commuter motorcycle just got a major upgrade. **Hero MotoCorp**, *the world's largest manufacturer of motorcycles and scooters*, today launched the all-new **Super Splendor XTEC 2.0** – India's most trusted and widely loved commuter motorcycle. Driven by the Company's aggressive product revitalization strategy, the all-new **Super Splendor XTEC 2.0** is engineered to elevate everyday commuting experience through meaningful suite of technology upgrades, a significant leap in fuel efficiency, and a bold, contemporary design tailored for today's progressive riders.

Built on the trusted legacy of the Splendor that has provided mobility to millions of Indian riders since 1994, the all-new **Super Splendor XTEC 2.0** is designed for riders who seek dependable performance with modern-day convenience and next-gen product tech features.

Speaking at the launch, **Ashutosh Varma, Chief Business Officer, India Business Unit, Hero MotoCorp** said, *"Hero MotoCorp's Splendor has built a strong legacy of delivering trust, performance and everyday reliability to millions of customers for over three decades. The new Super Splendor XTEC 2.0 carries this promise forward with a bold and contemporary design, advanced technology and enhanced convenience features. With its trusted performance & reliability, everyday practicality and an elevated riding experience, the Super Splendor XTEC 2.0 further strengthens Hero MotoCorp's leadership in the segment while reaffirming its commitment to delivering superior value to its customers."*

### **Modern Styling and Refreshed Identity**

Boasting a refreshed visual identity, the all-new Super Splendor XTEC 2.0 brings a sharp, contemporary appeal to a classic silhouette. Dynamic dual-tone body graphics paired with a vibrant color palette breathes fresh energy into the motorcycle design. This new variant comes with signature XTEC 2.0 badging, a distinct and premium 3D emblem, a stylish stitched dual-textured seat and eye-catching rim tapes -creating a commanding and premium road presence.

### **Enhanced Performance & Best-in-Class Mileage**

At the heart of the all-new Super Splendor XTEC 2.0 is a proven and highly efficient 124.7cc single-cylinder engine producing 10.7 bhp at 7500 rpm and a peak torque of 10.6 Nm at 6000 rpm. Tuned for refined everyday commuting, this motorcycle delivers smooth acceleration, dependable riding experience and responsive performance across varied riding conditions.

The highlight of the XTEC 2.0 is its best-in-class mileage of 72 kmpl, enabled through the combined efficiency of Advanced Programmed Fuel Injection (APFI) and Hero MotoCorp's trusted i3S (Idle Stop-Start System). The system optimizes fuel consumption while enhancing overall riding experience. Additionally, the Integrated Starter Generator (ISG), enables a near silent engine start experience along with seamless restart during idle-stop conditions – delivering enhanced comfort and convenience in dense traffic conditions.

### **Safety Enabled by Smart Technology**

Elevating everyday safety and rider confidence, the all-new Super Splendor XTEC 2.0 introduces segment-first Hazard Lights in the Super Splendor series. This critical safety feature allows for the simultaneous activation of all four indicators, ensuring maximum visibility during unexpected emergencies and breakdown situations. The motorcycle also comes equipped with a Front Disc Brake for assured braking performance and enhanced control across varied road conditions. Adding to the rider convenience is a handlebar-mounted engine kill switch, enabling quick ignition cut-off for stress-free everyday usability.

### **Smart Connectivity and Everyday Convenience**

The all-new Super Splendor XTEC 2.0 keeps riders seamlessly connected through a Fully Digital Instrument Cluster with Bluetooth connectivity. Designed to enhance convenience during daily commute, the console displays incoming call alerts, SMS notifications, missed call alerts, caller ID and phone battery status.

The motorcycle also features Hero MotoCorp's Real Time Mileage Indicator (RTMi) and Low Fuel Indicator, helping riders stay informed and in control of fuel consumption at all times. Further enhancing practicality for today's connected riders is the addition of USB Type-C charging port of 2 Amp to ensure smartphone remain powered for communication and navigation through the ride.

### **Superior Comfort for Everyday Mobility**

Engineered to tackle the demanding realities of long daily commutes, the Super Splendor XTEC 2.0 offers superior ergonomics with a wide, upright handlebar and a relaxed riding posture that significantly minimizes rider fatigue on both city streets and open highways. The long comfortable seat provides ample space for both rider and pillion, while the refined telescopic front suspension delivers a balanced and comfortable ride across unpredictable terrains. Additionally, a wide rear grab rail provides excellent stability to the Pillion rider for added support during bumpy rides.

### **Colors and Pricing**

The all-new Super Splendor XTEC 2.0 is available in five distinctive color options – **Glossy Black, Candy Blazing Red, Matt Axis Grey, Matt Nexus Blue, and Matt Chestnut Brown** - each crafted to compliment the motorcycle's bold and refreshed identity. The new variant is available at Hero MotoCorp dealerships across the country at an attractive price of Rs. 86500/- (Ex-Showroom, Delhi).
