Business Press Release

Hexaware streamlines Indroyal's operations with Oracle® E-Business Suite Release 12 rollout

Solution spanning across manufacturing, distribution and financial modules

Mumbai – April 16, 2012: Hexaware Technologies Limited, a leading global provider of IT, BPO and consulting services has announced that it has recently entered into an agreement with the Indroyal Group, a renowned furniture manufacturing, marketing, trading and exporting company to implement a solution that would enable them to achieve an end to end view of all business and help drive performance with consistent financial information.

Indroyal furniture required an integrated financial, supply chain and manufacturing system that would allow them to control the movement of stock, automate process integration, support cross-functional expansion, address financial planning needs, and thereby, strengthening their position for the future. To meet this business need, Hexaware proposed the implementation of the Oracle E- Business Suite Release 12. This would enable operational improvements with superior control over production, inventory and streamlining Quality Control processes, better synchronization of production output and efficient process management across a chain of 16 Company owned outlets, 40 Dealer networks and manufacturing plants spread throughout South India. Redington's Enterprise SBU team, handling Oracle Applications, identified this opportunity as a part of their Value Added Distribution Efforts.

"This solution will provide us with flexibility, automation, accuracy and an effective control in distributing costs, revenues and streamlining other metrics across the enterprise. Hexaware's strong domain expertise, ERP implementation experiences and solution fitment for the manufacturing industry proved to be a strong determinant for this association." said **CA Anil Balakrishnan, CEO, Indroyal Furniture.**

Successful implementation of the solution will help ensure planning and production activities across plants, online information sharing, consolidation of financial statements, elimination of multiple books of accounts, centralized procurement, financial planning, and security and control at various levels.

"While the current engagement encompasses deployment of multiple modules of Oracle E-Business Suite Release 12, we are leveraging our strong manufacturing skillsets, our vast repository of Intellectual Property (IPs) Assets and our proprietary solution accelerators in the ERP space to ensure speedy implementation and through this process, add value to our customer." said **Moorthi Chokkanathan, Executive Vice President and Global Head, Enterprise Solutions, Hexaware Technologies Limited.**

Hexaware is Platinum level member of Oracle Partner Network (OPN).

Business Press Release

About Indroyal Group
