CONNECTING CITIES, SCALING FOR SUCCESS

Elevating Transportation Infrastructure & Green Energy

The future does not always announce itself. Sometimes, it arrives quietly, in the shift of a mindset, the adoption of a new tool or the courage to step into unfamiliar territory. At H.G. Infra, we have learnt to listen for it, to sense when it is time to evolve and to move forward with the times. In an era where cities pulse with promise and connectivity spells opportunity, we have been connecting cities, constructing a network that eases movement and carries the hopes of millions.

To meet India's evolving requirements, we are scaling for success-- fast-tracking innovation to build smarter, faster and safer infrastructure. From digital tools that capture real-time field data to systems that bring clarity and transparency into every decision, we are redefining the status quo.

We are entering new sectors such as solar energy, rail and battery storage, guided by the simple belief that infrastructure must be as dynamic and diverse as the nation it serves. Over the years, we made meaningful progress in diversifying our order book, securing high potential projects across all sectors. Our strong execution skills, technical know-how and industry experience position us at the next stage of evolution, creating long-term value for all stakeholders and contributing meaningfully to India's infrastructure transformation.

We believe that there is always a better way, a more meaningful way, to do the work we have been entrusted with. The future is not something we are waiting for. It is already unfolding. And we, at H.G. Infra, are building it.

➤ **About Us**

**Building for the
Next**

H.G. Infra Engineering Limited has spent over twenty years shaping the backbone of India's infrastructure. Guided by visionary leadership, we have transformed infrastructure challenges into long-term assets; every highway cutting through rugged terrain, each urban flyover easing city congestion, speaks of precision, foresight and resilience.

While roads and highways remain our backbone, we have strategically expanded into railways, metro systems, water systems and solar power projects under the EPC and Hybrid Annuity Model (HAM). We keep an ear to the ground, listening closely to what India needs and stepping up to make a difference. With every new challenge, we are building a more resilient, future-ready infrastructure platform.

Our Vision

"To be amongst the most admired and most trusted infrastructure companies in the country, delivering qualitative, reliable and quality "creations & services" to all customers at competitive costs, with highest standards of infrastructure creations, setting new benchmarks in standards of corporate performance and governance through the pursuit of operational and financial excellence, responsible citizenship and profitable growth, thereby creating superior value for all the stakeholders and contribute significantly in growth of this sector.

Our Mission

To create the world-class assets and infrastructure to provide the platform for faster & consistent growth for India to become world's economic power.

To earn the trust and confidence of all customers and stakeholders, exceeding their expectations and make the company a respected household name.

To promote a work culture that fosters individual growth, team spirit and creativity to overcome challenges and attain goals, encourage ideas, talent and value systems.

To be a technology driven, efficient and financially sound organisation.

To consistently achieve high growth with the highest levels of productivity holding guiding principles of trust, integrity and transparency in all aspects of interactions and dealings.

Our Values

Our ethos is "Trust", "Passion" and "Quality". These are intact and constantly keep on pushing us to deliver best of quality infrastructure for the nation.

Our Legacy

H.G. Infra Engineering Limited has earned a strong reputation over the years for delivering projects on time, maintaining high quality, and adhering to ethical standards without compromising integrity. Founded by Mr. Hodal Singh and now led by Mr. Harendra Singh, H.G. Infra has recently expanded its presence into railways and metro, BESS, Transmission and solar power projects. These sectors demand the same discipline we have honed over years of execution. For us, diversification is not just a strategy, it is about being prepared for the future India is building.

Geographic Presence

Across Terrains

H.G. Infra Engineering Limited has established its footprint in 13 states across India, successfully navigating diverse landscapes and challenges. Our ability to deliver projects in such varied environments speaks to our expertise, flexibility and focus on results, no matter the conditions.

A Journey Guided by Vision

➤ Chairman and MD Message

Navigating New Horizons with Visionary Leadership

As we reflect on our journey and look toward the future, I am filled with pride at how far H.G. Infra Engineering Ltd. (HGIEL) has come and how much more we are poised to achieve.

The infrastructure sector in India stands at a defining juncture. With the country emerging as the third-largest construction market globally, estimated to reach \$1.4 trillion by 2025, the demand for sustainable, efficient, and inclusive infrastructure has never been higher. At HG Infra, we consider it both a privilege and a responsibility to contribute meaningfully to this national mission.

A Transformational Year

FY 2024–25 marked a milestone year in HGIEL's growth story. What began as a road-centric EPC company over two decades ago has today transformed into a diversified infrastructure conglomerate. While road construction remains our core strength, evidenced by 17+ highway projects across 10 states having 68% share contributed by the highways segment out of the total order book, we have strategically ventured into high-potential verticals such as railways, metros, solar energy, battery energy storage, and transmission infrastructure.

Our diversified portfolio now includes more than 28 active projects spread across 13 Indian states, including 7 rail metro projects with a total value of approximately 4,495 crores (TPC). Apart from these, we have capitalised on emerging opportunities in India renewable energy landscape and successfully bagged 2 BESS projects of 435 MW and several solar projects under PM Kusum Scheme. Our order book of over ₹15,281 crore reflects robust growth and deep trust reposed in us by both public and private sector partners.

Contributing to the National Vision

India's infrastructure ambition is being supported by substantial policy backing, foreign investments and rigorous technological advancements. Government-backed programmes such as Bharatmala focuses on developing 50,000 kilometres of access-controlled highways by 2037 while PM Gati Shakti serves as the digital master plan that integrates these efforts across road, rail, and logistics for seamless execution. The National Rail Plan outlines a ₹16.7 trillion investment roadmap by 2031 to upgrade freight corridors, high-speed rail networks and passenger stations.

Simultaneously, the National Electricity Plan targets 500 GW of renewable capacity by 2030, guiding generation, transmission and grid integration. Whether it's building highways that improve connectivity, executing solar projects under PM-KUSUM-C, or participating in the country's growing battery energy storage initiatives, our efforts and planning are intricately

intricately aligned with the nation's goals of economic growth, sustainability, and inclusive development.

Innovation, Technology & Sustainability

Our future-readiness is anchored in innovation and smart infrastructure delivery. The adoption of SAP S/4HANA, real-time GPS-enabled monitoring, intelligent compaction systems, and predictive maintenance tools has allowed us to enhance quality, ensure timely execution, and reduce inefficiencies.

We continue to integrate sustainability across all project lifecycles. From using fly ash, pond ash, and recycled plastic in road projects to electrifying crushers and transitioning to BS-VI compliant vehicles, we are executing our carbon reduction roadmap—targeting a 30–50% reduction in operational emissions by FY 2030.

Our Green Highways initiative has resulted in widespread tree plantation efforts across our project sites, carried out in partnership with local communities and NGOs, fostering a healthier and greener environment.

People & Partnerships: Our Real Strength

Our dedicated team of over 5,400 professionals is the driving force behind HGIEL's success. Through structured learning programs like Gyanshala, Elevate, and Career Development Program (CDP) and Cross Functional Trainings, we are cultivating a culture that values continuous learning, bringing accountability, adaptability and creative problem-solving, positioning our organization for sustained success in a rapidly evolving industry.

Outlook

In the year ahead, our priorities will remain centred around sustaining a steady growth trajectory with strong financial fundamentals. We are targeting revenue growth of 17-18 percent and an EBITDA margin in the range of 15-16 percent. Our operational goals encompass tighter working capital cycles, on-time project delivery, strategic capital allocation and enhanced monetisation efforts.

Looking Ahead: Vision 2025 & Beyond

We have set bold targets for the coming years. In FY 2026, we aim to secure ₹ 10,000 to ₹ 11,000 crores in new order inflows and expand non-road infrastructure to 35-40% of our portfolio by FY 2027. Our focus will remain on:

- Diversifying into sectors like water management, airports, ropeways, tunnel, transmission & distribution, and smart urban infrastructure
- Strengthening digital and automation capabilities
- Enhancing ESG performance at the strategic level
- Building scalable, high-impact projects across geographies

As we continue to build the arteries of a new India, we remain deeply committed to excellence, innovation, and integrity. With confidence and clarity of purpose, we will continue to build not just infrastructure, but a better future.

With integrity, vision, and resilience as our compass, we are committed to delivering infrastructure that transforms lives and leaves a legacy of progress.

As I conclude, I wish to express my deepest gratitude to board members, investors, employees, rating agencies, regulatory bodies and our business partners and the communities we serve. Your trust inspires us to push boundaries, embrace challenges, and raise the bar.

Let us continue this journey together—with courage, clarity, and conviction.

Warm regards,
Harendra Singh
 Chairman & Managing Director
H.G. Infra Engineering Ltd.

➤ CFO Message

Building a Strong Financial Foundation for the Future

Our sound financial performance in FY 2025 was guided by a meticulous balance of disciplined execution, prudent capital deployment and strategic diversification. While our operations expanded across traditional and emerging infrastructure segments, we ensured that our financial framework bolstered our long-term stability and strategic agility.

On a standalone basis, revenue grew by 18.16% percent to ₹6,052 crore. EBITDA stood at ₹951 crore with a margin of 15.7 percent, while PAT reached ₹577 crore with a net margin of 9.5 percent. Consolidated revenue was ₹5,056 crore, with EBITDA and PAT at ₹1,058 crore and ₹505 crore respectively*.

*Note: EBITDA= (Revenue from Operations excluding Other Income) - Operating Expenses

A diversified and balanced order book

As of March 31, 2025, our total order book stood at ₹15,281 crore, representing an increasingly diverse portfolio. Roads and highways continue to lead with ₹10,392 crore, while railways and metros contribute ₹3,097 crore. Our growing renewable vertical includes solar EPC contracts worth ₹819 crore and BESS projects totalling ₹973 crore. The portfolio mix between HAM and EPC stands at 36 percent and 64 percent respectively, reflecting both execution maturity and financial discipline.

This sectoral diversification is the result of forward planning and risk-aware bidding. As we continue to expand, we remain focused on our aim to build a well-balanced and diversified portfolio that balances annuity-based revenue with high-margin EPC execution.

Strengthening ESG and Risk Management

In FY 2025, we reinforced our commitment to Environmental, Social, and Governance (ESG) and Enterprise Risk Management (ERM) as central pillars of our long-term strategy. A digital ESG data management tool was introduced, project-wise monitoring to track progress on environmental compliance, social initiatives, and governance metrics—enhancing transparency and accountability.

Simultaneously, our ERM framework was strengthened to proactively identify and mitigate strategic, financial, and operational risks. With growing project complexity and sectoral expansion, risk governance has become more dynamic, with digital integration ensuring all key decisions, including project bidding and capital investment, are aligned with long-term, risk-adjusted returns.

Execution momentum across projects

FY 2025 witnessed consistent progress across key project milestones. The Ganga Expressway, Delhi UER, OD-5, OD-6, KD-01, KD-02 and AP-01 are heading for

closure adhering to safety and quality norms. The Chennai–Tirupati and Varanasi–Ranchi package 10 and 13 are expected to commence full-scale activity in FY 2025–26, with capital and resource planning already in motion.

H.G. Infra has strategically capitalized on emerging opportunities in India's expanding renewable energy landscape, particularly within the solar sector, during this fiscal year. The company actively pursued solar power projects under the government's KUSUM C scheme, an initiative designed to accelerate the adoption of clean energy solutions across the country. The company has to develop a total of 638 MW DC capacity solar power plants with an estimated EPC (Engineering, Procurement, and Construction) value of ₹2,243 crore, excluding GST.

To ensure smooth project execution, H.G. Infra has finalized land lease agreements for all these developments, and Power Purchase Agreements (PPAs) have been successfully signed with DISCOM. In terms of financial structuring, debt funding for these solar projects is progressing well, with approximately 70% of the required funding already sanctioned.

Regarding equity financing, the total equity investment required for the solar projects stands at ~₹721 crore. As of March 31, 2025, the company has infused approximately ₹445 crore into these initiatives, with the remaining balance set to be deployed in FY 2025-26.

Battery storage has emerged as a priority growth vertical. The company has successfully secured two BESS projects from NVVN (NTPC) & GUVNL, with a total awarded capacity of 435MW/870 MWh in the state of Gujarat as of March 25. Showcasing our vision to emerge as a leading player in India's energy storage sector.

The equity requirement during the current financial year is likely to be ~120 crores whereas the balance will be incurred in subsequent financial year.

Credit Rating

ICRA has reaffirmed and assigned AA- (Positive) for Long-term- Fund based facilities and AA- (Positive)/A1+ for Long-term/Short-term - Non-Fund Based facilities including enhanced exposure.

Capital discipline and monetisation strategy

Capital recycling and equity efficiency continued to be key focus areas. Four HAM SPVs were monetised in FY 2025, generating ₹503 crore in proceeds. We are targeting six additional monetisations in FY 2026, which will support equity commitments for both HAM and renewable assets. Total equity funding required for 11 HAM projects is ₹1,657 crore, of which ₹915 crore has been infused till March 2025 and remaining amount will be infused over the coming years.

Standalone gross debt stood at ₹1,068 crore, with ₹404 crore in working capital and ₹664 crore from term loans. Consolidated debt reached ₹4,092 crore, including ₹2,055 crore in HAM SPV debt and ₹969 crore from solar SPVs.

I would like to extend my sincere thanks to our all stakeholders who contributed instrumentally to our stable financial platform during a year of high operational activity. Their trust and commitment formed the foundation of our confidence to fund innovation, support diversification and unlock value in emerging infrastructure.

As we enter FY 2026, we are equipped with stronger sectoral capabilities, augmented capital access and a clear focus on financial discipline. These are the levers that will support HG Infra's transition into a broader, multi-sector infrastructure platform with long-term value creation at its core.

Sincerely,
Rajeev Mishra

Trend

The Government of India is focusing on the development of national and inter-state road infrastructure through initiatives such as the Central Road and Infrastructure Fund (CRIF). Under Vision 2047, the objective is to construct thousands of kilometres of new highways. Roads plays a vital role in India's transportation network, carrying over 85% of passenger traffic and 60% of freight.

As India is projected to become the third-largest construction market by CY 2025, enhanced road infrastructure will be critical to reducing logistics costs, boost trade and improving connectivity to remote regions, including tribal areas, the North East and border zones.

Impact

Continued government investment in infrastructure ensures a robust pipeline of road and infrastructure projects for H.G. Infra. Additionally, the growing emphasis on last-mile connectivity and transport hubs aligns with our strategic plans to diversify into sectors such as railways and metro systems, while also enabling geographic expansion across new regions of the country.

In its Union Budget for FY 2025–26, the Government of India has allocated ₹2.55 lakh crore to the railways sector. Key priorities include the multi-tracking of important corridors, modernisation of railway stations and the expansion of the railway network. This sustained investment is aimed at enhancing connectivity, increasing capacity and improving the overall efficiency of India's railway system.

This increased investment in the railways sector presents substantial growth opportunities for H.G. Infra as we expand into rail and metro infrastructure. The rising demand for civil construction across railway corridors and station redevelopment aligns well with our competencies. Our proven capability in executing large-scale infrastructure projects position us well to contribute to this national priority.

The Government of India continues to make strong investments in solar energy infrastructure, allocating ₹ 2,600 crore to the KUSUM Scheme in FY 2025–26. This forms part of a broader commitment to clean energy, with India targeting a total renewable energy capacity of 450 GW by 2030. These efforts reflect a clear national drive toward sustainable and decentralised energy solutions.

H.G. Infra is actively contributing in this growing sector, having secured multiple solar power projects under the KUSUM Scheme. These projects represent a strategic step in our diversification efforts and we remain focused on exploring new opportunities in the renewable energy space to align with India's green energy goals.

The increased budget allocation for the Ministry of Jal Shakti in FY 2025–26 underscores the government's sustained focus on enhancing water infrastructure nationwide. Notably, funding for the Namami Gange programme has increased from ₹3,000 crore to ₹3,400 crore, highlighting the priority placed on river rejuvenation and clean water initiatives. The allocation also supports ongoing efforts in water desalination, wastewater treatment and the development of both rural and urban water supply systems.

H.G. Infra is aligning with the national agenda by actively exploring opportunities in the water infrastructure sector. We have expressed strong interest in flagship programmes such as Namami Gange and are evaluating projects in desalination, wastewater management and drinking water supply. This strategic expansion complements our diversified infrastructure portfolio and reinforces our commitment to developing sustainable public utilities.

➤ Project Portfolio

A Portfolio Powered by Innovation

Over the past year, we have expanded our presence across both established and emerging infrastructure domains. While continuing to build on our strong foundation in roads and highways, we have also ventured into renewable energy, including our entry into Battery Energy Storage Systems (BESS). These strategic moves reflect our forward-thinking approach and our ability to manage a diverse, large-scale projects with efficiency and precision.

Fulfilling Orders in the Solar Segment

HG Infra is expanding its footprint in the renewable energy sector by forging strategic partnerships with Stockwell Solar Services Private Limited (SSSPL) and UltraVibrant Solar Energy Private Limited (USEPL).

Strategic Partnerships

HGIEL has secured a total of 406 MW (AC) of solar projects in partnership with SSSPL, where HGIEL holds a dominant 89% share, while SSSPL oversees 11% of the capacity.

In collaboration with USEPL, HGIEL holds a 49% stake in 83.02 MW (AC) of solar projects, managing the execution and EPC

services, while USEPL retains 51% equity to meet regulatory requirements.

These collaborations significantly broaden HGIEL's solar energy portfolio, boosting both its technical capabilities and market presence.

Bidding Pipeline and Future Outlook

HG Infra is steadily expanding its order book, backed by an active and diversified bidding pipeline across both traditional and emerging infrastructure sectors. Looking ahead to FY 2026, the Company aims to secure approximately ₹ 10,000 to ₹ 11,000 crore in new contracts. This includes an estimated ₹ 6,000 crore from its roads and highway division, around ₹ 1,000 crore from transmission and distribution (T&D) and the balance from emerging areas such as solar energy, Battery Energy Storage Systems (BESS), railways and metro projects.

Reflecting sustained momentum in its growth strategy, the Company's medium-term outlook points to a well-diversified, unexecuted order book, with 60% from roads and highway projects and the remaining 40% from non-road divisions such as T&D, water infrastructure and renewable energy.

As part of its strategic diversification agenda, H.G. Infra is expanding beyond its core focus areas. In addition to advancing its presence beyond solar and BESS projects, the Company is actively pursuing opportunities in T&D and water infrastructure, including river canals and desalination projects. In the T&D sector, H.G. Infra has already submitted multiple bids ranging from ₹ 500 crores to ₹ 3,000 crore.

Entry into Transmission and Distribution (T&D)

HG Infra's entry into the T&D sector represents a strategic step toward building long-term infrastructure assets. These projects will be developed under the Build, Own, Operate and Transfer (BOOT) model, through a tariff-based competitive bidding process.

Scope: The projects involve the development of transmission systems, including the

installation of grid lines and construction of substations

Model: Revenue will be generated through a fixed tariff per kV, paid monthly over a 35-year operational period.

Timeline: Construction is expected to be completed within 18–30 months from the date of award.

To support this expansion, we have already onboarded an experienced professional from the T&D industry and is in the process of appointing a senior leader to head the vertical. A specialised team is also being assembled to ensure operational excellence and drive success in this new line of business.

➤ **Operational
Excellence**

**Achieving Excellence
Through Innovation**

Operational excellence is central to our ability to deliver high-quality infrastructure projects. Our ability to execute superior infrastructure projects on schedule and within budget is driven by a resilient supply chain, data-informed decision-making and resource optimisation. This disciplined approach ensures efficient project execution and reinforces our long-term growth trajectory.

Operational Initiatives

Customised Data Collection App

Introduced a mobile application to capture real-time project data.

Benefit: Improved visibility into equipment usage and project progress, enabling faster, data-driven decisions.

Data-Driven Operations

Implemented a data-centric approach to improve project efficiency.

Benefit: Utilised project analytics and GPS tracking to identify inefficiencies in resource deployment and address performance gaps.

Timely Material Supply

Strengthened supply chains to ensure consistent and timely delivery of materials.

Benefit: Reduced project delays due to material shortages and streamlines logistics for better site management.

Equipment Monitoring and Optimisation

Closely tracked equipment utilisation across sites.

Benefit: Improved asset productivity by reallocating underused machinery and proactively addressing maintenance needs.

➤ Technology Integration

Accelerating Progress
Through Digital Integration

We are adopting advanced technologies to transition from a conventional construction Company to a digitally empowered infrastructure player. Through the integration of automation, digital platforms and data-driven systems, we aim to improve operational efficiency, enhancing precision and accelerating project delivery across our operations.

ERP

We leverage SAP S/4HANA, a robust ERP platform, to streamline key functions, such as material management, finance, sales, production, maintenance, project systems and human resources.

Cybersecurity

We implement robust cybersecurity protocols to safeguard our digital infrastructure, including advanced endpoint protection, firewalls, antivirus software, email security and other industry-standard defence mechanisms.

Public Cloud

We have adopted a SaaS-based public cloud infrastructure to host specialised tools that enhance our business applications, offering improved security, scalability and flexibility over traditional systems.

Private Cloud

We leverage private cloud infrastructure to host our technology systems, ensuring enhanced security, scalability and flexibility while enabling smooth and efficient operations across the organisation.

Technology Embedded Across the Organisation

Developed SAP system for electronic Waybill and invoice processes

Impact- Streamlined compliance processes, improved efficiency, reduced manual errors

Developed SAP system for integration with various Banks for payments

Impact - Enhanced payment convenience and speed, improved visibility into transactions

Developed web and mobile app integrated with SAP S/4 Hana to automate and monitor Fuel consumption

Impact - Reduced fuel wastage, improved cost control

Developed systems for budget control using SAP S/4 Hana

Impact - Enhanced financial visibility and control, improved decision-making for project budgeting

Implemented SAP SuccessFactors for comprehensive Human capital management

Impact - Improved employee onboarding, performance management, and talent retention

Implemented SAP Concur for digitised Expense and Travel management

Impact - Streamlined expense reporting and travel booking processes and reduced administrative burden

Implemented SAP Ariba integrated for digitised Supplier lifecycle management and e-sourcing

Impact - Enhanced supplier collaboration, improved procurement efficiency, optimised costs

The Sustainable Shift

We integrate sustainability into the core of our operations, ensuring it guides every decision we make. We focus on environmental stewardship, employee well-being and fostering positive community engagement, ensuring sustainability guides every decision we make. By embracing responsible practices, we aim to generate long-term value for all stakeholders, driving meaningful growth while contributing to a more sustainable future.

Our ESG strategy is tailored to reflect our unique business model, available resources and long-term sustainability goals, recognising that a unique approach does not suit all organisations. In response to SEBI's evolving ESG reporting requirements, we have established clear roles, responsibilities and accountability systems to ensure transparency and accuracy in our disclosures. Aligned with our core values and long-term vision, we are embedding sustainability into everyday operations and prioritising issues most relevant to our stakeholders. Although we are in the early stages of this journey, we view as an opportunity to create long-term value for our business, the communities we serve and the environment.

Approach to ESG

Alignment with Global Standards

We align our ESG practices with internationally recognised frameworks, including the Global Reporting Initiative (GRI) and the UN Sustainable Development Goals (SDGs), ensuring our efforts are consistent with global best practices.

Materiality Assessments

Through regular materiality assessments, we engage with stakeholders to identify and prioritise the ESG issues most relevant to our business.

Defined ESG Goals and Metrics

Leveraging digital tools and systems, we ensure accurate, transparent and timely ESG data collection and reporting, aligned with global disclosure standards.

Stakeholder Engagement

We maintain open dialogue with investors, customers, suppliers and communities, ensuring our ESG strategy remains responsive, inclusive and aligned with stakeholder expectations.

Robust Governance Mechanisms

ESG oversight is integrated at the board and executive levels, supported by dedicated committees and cross-functional collaboration across departments such as HR, Operations, Legal, Finance and Safety.

Defined ESG Goals and Metrics

We have established well-defined ESG goals and key performance indicators to monitor progress, refine our approach and support continuous improvement across our initiatives.

Capacity Building

Regular training and awareness programmes are conducted to strengthen ESG capabilities across all levels of the organisation, empowering our teams to meet evolving challenges effectively.

Environment

We remain committed to minimising our environmental footprint by integrating sustainability into every stage of project execution. From adopting alternative raw materials to optimising energy use and reducing emissions, our focus lies in building infrastructure that supports long-term ecological balance without compromising quality or efficiency.

Utilising Alternative Raw Materials

Rigorous Testing

All alternative materials undergo stringent testing for structural integrity, safety and durability to ensure they meet or exceed project specifications before deployment.

Value Engineering and Sustainable Alternatives

We identify and incorporate sustainable material options, such as recycled aggregates and industrial by-products, without compromising quality or performance.

Lifecycle Value vs Initial Cost

Our procurement decisions weigh long-term benefits over upfront expenses, recognising that sustainable materials can reduce maintenance requirements and energy use.

Local Sourcing

We prioritise locally available raw materials, we reduce transportation-related emissions and costs, while supporting regional economies and supply chains.

High-Performance Materials

We adopt innovative, durable materials that offer enhanced long-term performance. While the initial investment may be higher, these materials contribute to greater efficiency and resilience over the lifecycle of a project.

Reducing Carbon Emissions

To reduce carbon emissions across our operations, we are exploring a range of innovative technologies and methods. Digital tools are being used to optimise material management, enabling real-time tracking, accurate demand forecasting and automated reordering, to minimise waste and enhance operational efficiency.

We are also investing in workforce development to ensure our teams are equipped with the skills needed to implement sustainable construction practices effectively. As part of our transition to renewable energy solutions, we have begun integrating renewable energy solutions, such as solar panels, to reduce dependence on fossil fuels.

Additionally, we are incorporating circular design strategies that support the disassembly and reuse of components, significantly cutting down on construction waste. By partnering with architects, engineers, material scientists and other specialists, we are working to deliver environmentally responsible and cost-efficient infrastructure solutions.

Transition to BS-VI Vehicles and Expansion of Green Fleet Initiatives

At H.G. Infra, sustainability is a key priority as we modernise our operations. As part of our green fleet transition, we have introduced BS-VI-compliant vehicles across project sites while systematically phasing out older BS-III and BS-IV models. This transition is a significant step toward reducing the environmental footprint of our construction activities.

Our Roadmap For A Greener Future

At H.G. Infra, we are advancing our sustainability journey through targeted initiatives designed to lower our environmental impact:

We have introduced electric vehicles (EVs) in our light motor vehicle (LMV) segment. Transitioning 10–20% of our fleet to EVs is projected to reduce overall fleet emissions by 15–25%, while ensuring zero tailpipe emissions.

Trials are underway to convert mobile crushers from diesel to electric power, with the goal of increasing energy efficiency and minimising fuel-based emissions.

In regions with well-developed CNG infrastructure, we have deployed CNG-powered vehicles, which emit 20–30% lower GHG gases compared to diesel, along with reduced NO_x and CO₂ emissions.

Collectively, these initiatives are expected to contribute to a 30–50% reduction in overall carbon emissions in the coming years, reinforcing our commitment to sustainable and climate-conscious infrastructure development.

Social

Our People

At HG Infra, we recognise that our people are central to delivering sustained business performance and long-term value creation. A motivated, skilled, and safe workforce is fundamental to driving operational excellence and fostering innovation across the organisation. We are committed to cultivating a culture anchored in safety, inclusivity, and continuous development. Through targeted investments in employee well-being, capability building, and leadership development, we seek to empower our people to contribute at their highest potential. By nurturing a secure, supportive, and high-performing work environment, HG Infra strengthens its ability to execute on strategic priorities and build a resilient, future-ready organisation.

To support our diversification strategy, we have evolved our recruitment approach to attract seasoned professionals who bring deep industry expertise and share our vision for the future. By strengthening our leadership pipeline with sector specialists, we are accelerating our expansion goals and building a more agile, capable and future-ready organisation.

HR strengths we rely on

Targeted Talent Acquisition

We leverage platforms like LinkedIn, Naukri & other job portals to attract top industry talent that aligns with our evolving business priorities and growth objectives.

Continuous Learning and Development

Our commitment to continuous learning is reflected in comprehensive training programmes and internal learning systems designed to keep our workforce skilled, agile and future-ready.

Tech-Enabled Employee Engagement

By adopting advanced digital HR platforms, we foster a dynamic, connected and engaging workplace where every employee feels supported, empowered and valued.

Open and Transparent Communication

We promote a culture of trust and inclusivity through clear communication policies and accessible feedback channels.

Strategic Talent Acquisition and Retention

Most of our recruitment is managed in-house, ensuring strong alignment with our organisational culture and talent needs. For key leadership positions (AVP level and above), we engage with selected external consultants to bring in specialised expertise and diverse industry perspectives. As we expand into railways, metro and solar sectors, we attract and retain top talent through competitive benefits, a strong employer brand and clearly defined career growth paths. Our partnerships with leading academic institutions, combined with a tech-driven hiring process, further enhance our ability to build a robust and future-ready talent pipeline.

Gyanshala – Learning Management System

Gyanshala is our dedicated online learning platform, designed to foster continuous development across the organisation. With access to over 430 high-quality courses and regular assessments, employees can learn and upskill at their own pace, anytime and anywhere. We have introduced customised training modules for key departments such as Planning, Quality, Execution, HR and Stores to address specific learning needs. To enhance accessibility, especially at project sites, we have launched mobile apps.

Elevate – Career Development Program

We have launched elevate; a career development programme designed to identify and nurture future leaders within the organisation. Developed in partnership with NUCS – NICMAR University of Construction Studies, Hyderabad, the programme includes long-term training, rotational assignments, management sessions and hands-on experience through strategic projects.

Project Management - SP JAIN Institute of Global Management.

We partnered with the SP Jain School of Global Management to offer industry-recognised certification programmes to our employees, as part of our ongoing commitment to building future-ready project leadership. Designed to strengthen both strategic thinking and execution excellence, these programmes covered critical areas including Linking Organisational Strategy to Infrastructure Project Management, Project Initiation and Feasibility Analysis, Project Planning, Risk Management, Monitoring & Control & Project Closure.

Curated specifically for our project teams, these courses equipped participants to align project outcomes with organisational goals, enhance analytical, planning, and risk management capabilities, and foster stronger stakeholder engagement. Through this initiative, we continue to invest in empowering our people to lead complex infrastructure projects with agility, foresight, and a sharp focus on value creation.

Performance Management and Rewards

Our digital Performance Management System, fosters goal alignment, transparency, and accountability across the organisation. This tool ensures that employees have clear visibility of their goals and performance expectations. Our Performance-Linked Variable Pay (PLVP) is directly tied to these defined performance metrics, reinforcing the alignment between individual contributions and business outcomes. This structured linkage between pay and performance drives a high-performance culture and motivates our workforce to continuously deliver excellence.

Open Communication and Engagement

We cultivate a transparent and inclusive culture through regular Town Halls, Leadership Connect programs, L.I.F.E (Learning is Fun Experience) sessions, interactive collaboration platforms, and Employee Feedback Surveys — ensuring that every Voice is Heard. Additionally, transparent communication on Employee Policies, Training Programs, and Engagement Initiatives further builds trust and reinforces our commitment to an open, supportive, and empowering workplace.

Ensuring Safety

Our approach to Environment, Health and Safety (EHS) begins with a comprehensive induction programme for all new joiners and continues through ongoing, job-specific training, regular mock drills and awareness campaigns. These proactive measures, alongside structured pre-job briefings have enabled us achieve several million safe man-hours across projects. Safety in Focus: EEE Concept Driving Our Zero-Harm Vision

As part of our commitment to a zero-harm work environment, we have adopted the top three levels of the industry-standard Hierarchy of Controls, ‘Elimination, Exchange (Substitution) and Engineering Controls’, which we refer to as the EEE Concept.

EEE Concept		
Eliminate the risk completely during the planning stage. For example, by redesigning work to avoid heights or confined spaces.	Exchange hazardous materials or methods with safer alternatives, such as switching from diesel to solar power or using precast elements to reduce on-site risk.	Engineer controls into the work environment through machine guards, edge protection, ventilation, and noise barriers.

These proactive measures are reinforced by robust Administrative Controls and the consistent use of PPE. They form a multi-layered safety system that is rigorously implemented across all our project sites.

Tackling Safety Challenges

Safety Challenge Faced	Strategies and Solutions Implemented	Best Practices Adopted
Electrical and Fire Hazard	- Electrical Inspections - Fire Prevention Measures - Operator Safety Training - Emergency Preparedness	- Established regular maintenance schedules to identify and address potential hazards early - Ensured Quick Response and Fire Containment through trained personnel and readily available emergency equipment
Equipment Failure and Structural Collapse	- Pre-Lift Equipment Readiness Checks - Engine and Hydraulic System Maintenance - Safe Load Coordination - Emergency Load Handling Protocols	- Routine Equipment Health Monitoring - Enhanced Operator Training and Communication for safe equipment use and real-time risk response
During Girder Erection Operations	- Joint Safety Inspections - Mandatory Fitness Certification and Inspection Records for All Equipment - Pre-use Verification Protocols	Ensured only Certified Equipment Usage

Safety Challenge Faced	Strategies and Solutions Implemented	Best Practices Adopted
Slab Collapse During Concreting	› Installed Hard Barricading at slab casting areas › Assigned Spotters to guide vehicle movement to ensure safe passage › Conducted Driver Reorientation on movement protocols and safety measures	› Introduce slope stabilization, barricading, signage, and community awareness measures to prevent accidents in borrow areas. › Signaller Deployment for Vehicle Movement
Unsafe Open Blasting Practice	› Immediate Suspension of Open Blasting › Controlled Blasting Procedures › Mandatory Safety Protocols	› All blasting activities are now conducted under strict safety protocols, with controlled methods, clearly marked execution zones and restricted access, ensuring compliance, operational safety and risk mitigation.
Roadway and Work Zone Flooding	› Improved Drainage Management › Elevated Work Platforms › Weather Monitoring	› Early planning and preparedness for monsoons and storms › Community awareness campaigns › Collaboration with authorities and meteorological agencies for timely weather updates
Working Near Overhead Equipment	› Regular Coordination with Railway Authorities › Training on Railway Safety Standards for Site Teams › Implementation of clear Standard Operating Procedures (SOPs)	› Conducted Daily Toolbox Talks focused on railway safety protocols and compliance › Standardised documentation

Serving The Community

At HG Infra, we strive to build stronger communities through our work and philanthropic efforts. Through the HG Foundation, we support initiatives in education, healthcare, animal welfare and environmental sustainability. Our CSR initiatives aim to create long-term impact, improving the lives of those we serve and contribute to a more resilient future.

Education

HG Ki Pathshala: Road School Programme

Description	Impact	Civil Work Done
Through this school we are helping children to bridge educational gaps in under served areas near HGIEL highway project sites.	More than 300 students are getting accessible, affordable and quality education.	> 3 locations added in FY 2024-25 > Currently 04 RSP are running

HG Ki Pathshala: Adoption of school (AOS) Programme

The programme seeks to enhance government schools by upgrading infrastructure, supporting holistic student development and empowering teachers. It emphasises academics, co-curricular activities and community engagement	> 4471 Students benefitted from 17 adopted schools of Rajasthan state in FY 2024-25 > 6 out of 10 Schools achieved 100% pass rate in class 10 > 7 out of 10 Schools achieved 100% pass rate in class 12 > 46 Students with distinction	> Building paint – 70,464 sq. ft. > Renovation work – 10,758 sq. ft. > New construction – 2,126 sq. ft. and 768 sq. m. > Bala paint – 1,030 sq. ft. and 1,080 sq. m.

HG Ki Pathshala: Tribal Hostel Transformation Project

The programme is designed to transform tribal hostels into model hostels by improving infrastructure and creating an innovative learning environment.	> 07 Tribal hostels adopted > 490 Students	> Building paint – 1,23,711 sq. ft. > Renovation works – 18,983 sq. ft. > New construction – 7,563 sq. ft. > BaLA (Building as Learning Area) paint – 6,000 sq. ft.

HG Ki Pathshala: Tribal Hostel Transformation Project

Scholarships were granted to deserving students from various districts of Rajasthan, supporting their pursuit of courses such as MBBS, B. Tech, Diploma, B.Sc. in Nursing and Agriculture.	> 306 Total scholarships provided > 16 Colleges

Green Drive

Description	Impact	Civil Work Done
A large-scale tree plantation drive using the Miyawaki method was launched to enhance biodiversity, support soil conservation and improve air quality. These efforts are expected to contribute significantly to carbon sequestration and the reduction of overall carbon emissions.	> 1,10,000 New Trees planted in FY 2024-25 > 1,00,000 Existing trees were provided proper care for sustainability > 1,38,600+ tons Estimated CO₂ reduction > 20 Total locations > 10 Locations added in FY 2025	

Healthcare

Green Drive

Description	Impact	Civil Work Done
Major Interventions- > Strengthening Rural Primary Health Care Center's (PHC's) infrastructure. > Organization health camps and group awareness sessions, promoting mental health and anemia awareness are ensuring access to preventive healthcare in underserved communities.	> 331 Meetings held with pregnant and breastfeeding women > 342 Meetings held for anaemia awareness > 12 Health camps held > 6 Primary Health Care (PHC) adopted > 43,000 Community members benefitted through health check-ups	> Work at PHC's: Building paint - 73,450 sq. ft. > Renovation work – 3,910 sq. ft. > Bala Paint – 3,450 sq. ft. > New Construction – 386 sq. ft.

Rural Development

Holistic Rural Development Programme (HRDP)

Description	Impact	Civil Work Done
An initiative to transform a village into a model village through holistic and sustainable development, driven by futuristic and progressive skills that enhance productivity and overall quality of life. The programme focuses on key areas including government schemes awareness, health and hygiene, education, agriculture and livelihood enhancement.	> 7,326 Beneficiaries > 7 Villages adopted for Transform into Model Village	> Building paint – 7,314 sq. ft. > Bala paint – 700 sq. ft. > New construction – 180 sq. m., > 137 New solar lights installed > 500 Solar lights taken care for maintenance and repair > 600 New trees planted with tree guard > 60 Tree guard repaired and maintained

Village Enrichment Programme

Description	Impact	Civil Work Done
The Village Enrichment Programme, implemented in Kundra Majhra, Budaun (Ganga Expressway PKG 05, Uttar Pradesh), focused on raising awareness, facilitating Aadhaar enrolment and ensuring accurate data verification.	> 2,000+ Individuals reached through camps and door-to-door visits > 778 Enrolled in welfare schemes for healthcare and education > 356 Households assisted through helpdesk for renewals and information support	

Community Development and Welfare

HG Care Community Development Programme

Description	Impact	Civil Work Done
Positively impacting communities across multiple locations in India, focusing on education, healthcare and infrastructure to drive sustainable change.	> 1,00,000+ Beneficiaries > 1,58,900 Sanitary pads distributed to girls > 1 Library room and community hall constructed > 1,190 Blankets distributed near the Ganga Expressway project site > 1 Mahaveer Udhyan Park adopted, redeveloped and maintained > 1 Tractor, TMR machine and solar light were provided to Hingoniya Gaushala Jaipur for animal welfare	

HG Ki Kaushalshala

Description	Impact	Civil Work Done
A skill development initiative was launched for polytechnic engineering students to bridge the gap between theoretical knowledge and practical, industry-relevant skills.	> 120 Beneficiaries > Draftsman (Civil-Mechanical) and Roadway Surveyor using Advanced Tools (Civil) Specialised training areas	> Building paint – 22,984 sq. ft. > Renovation – 1,504 sq. ft. > New construction – 12,016 sq. ft. > Other interior material – 195

HG Ki Balshala

Description	Impact	Civil Work Done
An initiative to strengthen Anganwadis in rural India with the aim of improving early childhood education for underprivileged children.	> 160 Children benefitted > 6 Anganwadi adopted and redeveloped	> Building paint – 6,150 sq. ft. > Renovation Works – 4,801 sq. ft. > Bala paint – 1,750 sq. ft. > New Construction – 924 sq. ft.

Testimonials

Mr. Dalchand Gameti,
Raya Kailashpuri, Udaipur

“My I am Dalchand and I reside in Raya (K) Village. Currently, I work as a driver in the mines. I am truly grateful for the support I have received from the HG Care team. They have been helping me by providing the resources and guidance I need to secure a better job. They are helping me update my resume to ensure it accurately reflects my skills and qualifications. They have taken the time to meet with me, offering valuable insights into the job market and potential opportunities,”

Mrs. Kamala Prajapat

“I am Kamala Prajapat from Munwas village. I am grateful to the HG Care team for inspiring many in our village to adopt waste management practices. Learning how to convert kitchen waste into compost has proven to be an effective way to reduce landfill waste and minimise pollution. Composting enhances soil fertility, supporting healthier plant growth.”

Ms. Babita Garasiya
Sarpanch-Umarni, Abu Roadi

“I want to sincerely thank the HG Care team for their invaluable contribution to the development of our village. Their relentless efforts in establishing the Gram Panchayat, Atal Sewa Kendra, Anganwadi and schools have made a positive impact on our community and we are deeply appreciate the changes they have brought about.

Moreover, the provision of Solar Street Lights has greatly enhanced the safety and security of our village at night. This initiative has improved safety and brought significant benefits in terms of energy conservation.

Ms. Hameri Devi
Villager-Raya Kailashpuri

“I deeply appreciate the efforts of H.G. Infra Engineering Ltd. and the H.G. Foundation. The development work they have carried out in our rural area is unparalleled. Our water drains and roads are now clean and the provision of reusable sanitary pads and solar lights has greatly improved health, education and safety in our community. I encourage the team to continue their work in our village and to keep offering their support.”

Ms. Sheila Nagda

Asha Sahyogini, Vill-Munwas

I have been serving as Asha Sahyogini for the past 18 years. The condition of GUPS Munwas was quite poor initially but H.G. Care has made a remarkable transformation. They have established a computer lab, significantly enhancing the teaching and learning standards at the school. They have also renovated the Public Health Centre, organised Chiranjeevi Registration camps and successfully registered approximately 80% of the villagers. The installation of solar lights in Munwas, Matata, Raya and Ghodach has improved safety, particularly for women and has also reduced road accidents in the area.

Mrs. Kumud Sharma

Principal, Mahatma Gandhi Govt. School, Gandhi Nagar, Jaipur

The H.G. Foundation has gifted our school with an essential service. They have arranged for a janitor who ensures the cleanliness of the entire school premises, including classrooms, toilets and drinking areas. This cleanliness fosters a healthy and conducive learning environment. In addition, the Foundation has implemented several initiatives to improve the school, such as providing a reliable water supply, upgrading toilets, setting up smart classrooms, establishing computer labs and installing electricity fittings like fans and tube lights. The entire family sincerely thanks the H.G.I. Foundation for their invaluable contributions and support.

Mr. Samit Sharma

Raya Kailashpuri, Udaipur

We all understand the importance of having more trees to recover our ecological balance. A very healthy initiative has been taken by H.G. Infra. They will transform the barren land of our village into sustainable ecosystems with plantation of 10,000 trees. It is a very tangible and meaningful way in which we can do our bit to reverse the degradation of the environment. The plantation has now start to Blooming in to a beautiful forest which not only helping to improve environment but also it is a great scenery for the eyes.

Mr. Kanhaiya Lal Choudhary

Cabinet Minister at P.H.E.D. & Ground Water Department in Government of Rajasthan.

H.G. Foundation's initiative to plant 5,000 trees in collaboration with PHED Department at Jaipur is truly commendable. Their commitment to environmental conservation has not only enhanced the green cover of our campus but has also inspired our staff to take proactive steps towards sustainability

Governance

At HG Infra, strong governance forms the foundation of our sustainable growth. ESG efforts are led by the Board of Directors and supported by an ESG Council made up of senior department heads. The council oversees the implementation of a centralised ESG management system that ensures transparency, accountability and coordination across all business units. Our governance practices are built on ethical conduct and clear disclosure, helping build trust with regulators, investors and the communities we serve.

The ESG management system serves as a centralised platform that strengthens governance by streamlining data management, ensuring regulatory compliance and enhancing transparency across the organisation.

Governance Initiatives

Digital Letter Pad

The Digital Letter Pad continues to be a vital governance tool, replacing manual paperwork with a secure, digital platform for official communication. It streamlines the creation, approval and tracking of letters, ensuring greater efficiency and control.

Key Benefits:

- 
Efficiency and Productivity
 Significant reduction in paper usage and processing time
- 
Accuracy and Standardisation
 Minimises errors through digital templates and standardised formats
- 
Cost Effectiveness
 Reduces expenses related to stationery and printing
- 
Transparency and Accountability
 Digital signatures, audit logs and response time tracking improve traceability and reinforce governance standards.

Logbook Digitalisation and Tappet Box Mobility Application

We have digitised our field logbooks through the Tappet Box app, enabling real-time data capture and seamless integration with SAP.

Key Benefits:

- 1 Sustainability**
 Enables paperless operations, significantly reducing environmental impact
- 2 Operational Efficiency**
 Real-time data entry improves speed and accuracy
- 3 Data Management**
 Cloud storage ensures data integrity, easy access and zero risk of loss
- 4 Monitoring and Reporting**
 Live updates and automated reporting tools provide better oversight
- 5 Cost Efficiency**
 Eliminating physical logbooks reduces recurring costs associated with paper, printing and storage
- 6 Regulatory Compliance**
 Built-in validation and reporting features help ensure adherence to regulatory requirements and internal standards.

Disaster Recovery and Cybersecurity

We have enhanced our disaster recovery systems to ensure business continuity and safeguard critical data.

Key Measures:

- Routine Mock Drills**
 Conducted biannually to evaluate readiness.
- Recovery Time Objective (RTO) of 30 minutes**
 Ensures systems are restored quickly to minimise operational impact
- Recovery Point Objective (RPO) of 15 minutes:**
 Limits data loss
- System Availability**
 Regular tracking to minimise downtime
- Backup Success Rate**
 Daily monitoring ensures robust data protection.

Risk Management Framework

Building Confidence Through Risk Management

In an environment marked by regulatory complexity, climate unpredictability, and digital vulnerabilities, a structured approach to risk is central to sustaining long-term performance. Risk management at HG Infra is not confined to identifying threats. It enables us to make informed decisions, enhance agility, and align risk exposure with strategic priorities.

By embedding Enterprise Risk Management (ERM) into our business functions, we have institutionalised a culture of risk awareness. Our systems now allow for early risk identification, real-time visibility, and more resilient execution across all projects and verticals. The framework also facilitates better preparedness in dealing with emerging uncertainties.

Enterprise Risk Management (ERM)

We have established a formal ERM framework that spans across all departments and business functions. Risk registers are maintained at departmental levels and are periodically updated and reviewed. The Board and its sub-committees oversee the risk management process through structured reviews and escalation protocols.

Management Discussion and Analysis

Economic Overview

Global Economy¹

The global economy posted a growth of 3.3% in CY 2024 while navigating through challenges such as political conflicts, trade frictions, and evolving monetary policies. The global inflation dropped from 6.6% in CY 2023 to 5.7% in CY 2024, owing to firm policy actions by central banks and improved energy supply that helped stabilize input costs.

Much of this year's momentum came from central banks taking strict steps to control inflation. Energy availability also helped keep prices steady and generate economic activity. Developing and emerging countries grew at the rate of 4.3%, well ahead of the 1.8% growth seen in advanced countries. High local consumption, rising foreign investment and consistent performance in manufacturing and technology supported this expansion. Their ability to keep growing despite

global challenges shows an important tilt in the balance of economic growth.

Outlook

The global economy is expected to grow at a moderate pace, with projections indicating a 2.8% expansion in CY 2025 and 3.0% in CY 2026. This is supported by a gradual easing of inflation and supportive, targeted policy measures by central banks across the globe. Emerging markets are anticipated to sustain steady growth at around 3.7%, while advanced economies are likely to see a modest but consistent recovery, with growth reaching 1.4% in CY 2025.

With inflation projected to decline to 4.2% in CY 2025 and further to 3.5% in CY 2026, consumer spending is expected to gain momentum. Despite recent increases in tariffs and rising protectionism in various regions, the global economy continues to demonstrate resilience and interconnectedness.

Indian Economy

India's economy expanded by 6.5% in FY 2024-2025 despite challenges like global tensions, supply chain uncertainties, and shifting trade dynamics.² This growth was largely driven by the services sector, which remained a key engine of economic activity. One of the standout enablers was the consistent upgrade of the country's digital infrastructure, which expanded access to financial services and credit for individuals and businesses alike, increasing overall economic momentum.

Inflation eased from 5.4% in FY 2024 to 4.6% in FY 2025, providing economic stability.³ These declines increased consumer confidence and helped unlock demand across a range of industries. The government remained an active catalyst - implementing key reforms, simplifying business regulations, and investing significantly in infrastructure. These measures have improved market confidence, especially in capital-intensive sectors like construction and support. Meanwhile, disciplined fiscal management and effective monetary policies have helped maintain macroeconomic stability.

India's focus on addressing structural bottlenecks and improving ease of doing business is drawing huge interest from global investors. This creates a strong foundation for long-term growth and economic resilience. With continued reforms and strategic investments, India is well-positioned to lay down a credible path for long-term expansion.

Outlook

India has emerged as the world's fourth-largest economy, surpassing Japan, with its per capita income having doubled since 2014, driven by strong domestic and foreign investments, thriving manufacturing activity, and growth in trade and financial services. The government's continued emphasis on capital expenditure, rising rural demand, and rapid development of both digital and physical infrastructure is expected to further accelerate economic progress and improve social outcomes. As global supply chains stabilise and input costs ease, industries tied to essential services and daily consumption are well-positioned to gain from increased demand and greater operational efficiencies.

The 25-basis point cut in the repo rate till March 2025 is poised to inject liquidity, enhance access to credit and uplift market confidence. At the same time, the government is navigating global tariff shifts with a strategic approach to safeguard national economic interests. Despite external uncertainties, India's growth momentum is expected to hold, supported by robust domestic demand, a cooling inflationary environment, and sound macroeconomic fundamentals. Additionally, the UK Free Trade Agreement is set to deepen bilateral trade through reduced tariffs, smoother customs procedures, and increased investment opportunities, reinforcing economic ties and mutual prosperity.

Industry Overview

India's Infrastructure Sector

India's infrastructure sector stands at the forefront of the country's ambition to become a \$5 trillion economy, playing a crucial role in driving economic growth, creating jobs and transforming urban landscapes. As the nation charts the course towards a 'Viksit Bharat' by 2047, the government has strengthened its commitment through initiatives like the National Infrastructure Pipeline (NIP), which continues to guide investments across key sectors such as transport, logistics, energy and urban development.

The government's aim to provide multi-modal transport solutions, has resulted in the development of ropeways under the Parvatmala Pariyojana and the rollout of Multi Modal Logistics Parks (MMLPs) in major cities. These initiatives are designed to improve last-mile connectivity, decongest urban areas and promote sustainable transport options. The expansion of wayside amenities and port connectivity projects further demonstrates a holistic approach to infrastructure, ensuring seamless movement for both goods and passengers while creating new opportunities for private sector participation and innovation.

With a capital expenditure outlay of ₹11.21 lakh crore, the union budget FY 2025-26 emphasizes inclusive development, improved connectivity, and sustainable urbanization. Key initiatives include expanding air connectivity under

UDAN, launching a ₹25,000 crore Maritime Development Fund, and extending the Jal Jeevan Mission to 2028, laying a robust foundation for long-term growth and quality of life improvements across India.⁴

Road and Highway Infrastructure of India⁵

India's road and highway infrastructure continues to be the strongest levers of economic development. The country has established itself as the second-largest road network globally, with over 63.45 lakh kilometres of roads, including 1.46 lakh kilometres of National Highways (NHs).

Government initiatives like Bharatmala Pariyojana and PM Gati Shakti have played a crucial role in advancing highway development across India. These programs have led to a significant expansion of the national highway network and a notable increase in high-speed corridor lengths.

The government is firmly focused on transforming India's road infrastructure, aiming to construct 10,000 km of national highways in FY 2025-26 to enhance connectivity and reduce logistics costs. This effort is part of a broader vision to develop 50,000 km of access-controlled expressways by 2037 under Vision 2047. The pace of highway development has seen significant acceleration, driven by strong capital investments that showcase the government's commitment to creating world-class transportation networks.

Railway and Metro Infrastructure of India⁶

Indian Railways has made significant advances in modernizing its infrastructure, with a clear focus on speed, safety, and reliability. As of March 2025, more than 23,000 kilometers of track have been upgraded to support train speeds of up to 130 kmph, while an additional 54,337 kilometers are now equipped for speeds of 110 kmph. These upgrades feature stronger tracks, advanced signalling systems, and fencing in high-risk zones, particularly along the Golden Quadrilateral and Golden Diagonal routes, which connect major cities and handle a substantial share of passenger and freight traffic. The successful deployment of the Vande Bharat Express India's first semi-high-speed train capable of reaching 160 kmph highlights the impact of these infrastructure improvements, enabling faster, safer, and more reliable train services.

The modernization drive is backed by record investments, with the 2025-26 Budget allocating ₹2.65 lakh crore for railway development, the highest ever. This funding supports the expansion of 68,000 km of track, the addition of 400 new

Vande Bharat trains by 2027, and the comprehensive electrification of nearly 97% of the network, making operations cleaner and more efficient. Safety remains a top priority, with significant allocations for track renewal, signalling upgrades. Indian Railways is also investing in station redevelopment, manufacturing new rolling stock, and introducing special train services to meet rising demand during peak periods, all of which contribute to increased passenger and freight capacity and support India's economic growth.

India's metro rail network has experienced rapid growth over the past decade, expanding from about 280 km in 2014 to over 1,011 km across more than 20 cities by March 2025. This expansion reflects the government's commitment to easing urban congestion, improving city mobility, and providing efficient alternatives to road transport. In addition to intra-city metro expansion, India has launched the Regional Rapid Transit System (RRTS) to enhance connectivity between nearby cities, with the Delhi-Meerut corridor and the Namo Bharat train serving as flagship examples. These advancements in metro and regional rail infrastructure highlight India's

shift toward integrated, multi-modal urban transport solutions, ensuring more accessible and sustainable mobility options for millions of urban residents.

Renewable Energy & Bess Sector of India⁷

India's renewable energy sector continues its growth, driven by a strong policy framework and the country's commitment to sustainability and energy security. Solar power has emerged as the leading contributor with close to 98 GW of installed capacity, followed by wind energy at over 48 GW, highlighting India's abundant natural resources and effective government initiatives. The concerted push towards solar, wind, and hydro energy has significantly bolstered clean energy capacity, reducing reliance on fossil fuel imports and aligning with global climate commitments. Government-backed initiatives, including PM-KUSUM, and a focus on innovation have cultivated a thriving renewable ecosystem, firmly positioning India as a pivotal player in the global clean energy transition and on track to achieve its target of 500 GW renewable capacity by 2030.

⁷https://www.ey.com/en_in/insights/energy-resources/how-india-is-paving-the-way-for-a-sustainable-energy-future

The Battery Energy Storage Systems (BESS) sector is rapidly gaining traction, playing a crucial role in mitigating the intermittency of renewable power sources and enhancing grid stability. Technological advancements and rising investments are enabling smoother integration of renewables into the national power grid, thereby improving efficiency and reliability. Alongside BESS, Pumped Storage Projects (PSPs) are emerging as complementary solutions for large-scale energy storage. India's BESS capacity is projected to grow significantly, reaching 47.23 GW by 2031–32, propelled by financial incentives, supportive regulations such as the Energy Storage Obligation (ESO), and dedicated national tenders. These developments mark a major stride toward ensuring affordable, reliable, and sustainable energy for the future.

Water & Irrigation

The water and irrigation sector continues to gain momentum with a strong focus on expanding access to clean water, improving sanitation, and enhancing irrigation infrastructure. The Ministry of Jal Shakti leads initiatives such as the Jal Jeevan Mission and the Swachh Bharat Mission, while AMRUT 2.0 supports urban water security with a total outlay of ₹2.99 lakh crore.⁸ Major programs like the Pradhan Mantri Krishi Sinchai Yojana and large-scale river interlinking projects including the Ken-Betwa, Eastern Rajasthan Canal, and Wainganga-Nalganga links are driving integrated water resource development. These initiatives are increasingly being executed through Public-Private Partnership (PPP) and Engineering

Procurement Contract (EPC) models, emphasizing sustainability, efficient fund utilization, and technological innovation to ensure long-term water security and agricultural resilience.

Urban Infrastructure

The urban infrastructure saw a marked push under the Ministry of Housing & Urban Affairs, with a total budget allocation of ₹82,577 crore.⁹ The government remained committed to advancing affordable housing, modernizing urban transport, and strengthening essential services like water supply, sanitation, and waste management. These initiatives are well-positioned to address the challenges of rapid urbanization, while ongoing efforts to empower urban local bodies with greater financial and administrative capacities promise to ensure sustainable and resilient urban development.

Airport Infrastructure

The airport infrastructure experienced steady momentum, driven by strategic investments and inclusive expansion. Under the National Infrastructure Pipeline, over ₹91,000 crore was earmarked for development, with more than ₹82,600 crore already deployed by November 2024 highlighting strong delivery capacity and acceleration.¹⁰ Major projects, including new terminals and greenfield airports like Noida and Navi Mumbai, are set to enhance capacity and connectivity, while regional schemes such as UDAN continue to improve access to underserved areas. The sector faces challenges such as the need for regulatory reforms and efficient execution, but the overall outlook remains positive, with ongoing

upgrades expected to boost economic growth, employment, and India's positioning as a global aviation hub.

Government Initiatives

Bharatmala Pariyojana¹¹

The Bharatmala Pariyojana is India's flagship highway development programme focused on road connectivity and freight efficiency across the nation. Out of the total target of 34,800 km, over 26,425 have already been awarded, and 19,826 km have already been built. The scheme is significantly contributing to the creation of a high-capacity and well-connected road network across the country. By focusing on the development of high-speed greenfield corridors, it is enhancing connectivity, reducing travel time, and supporting the growing logistics demands of the economy. This large-scale road development initiative is also Showcasing regional integration and boosting economic activities by improving access to remote and underserved areas.

National Rail Plan Vision 2030¹²

The National Rail Plan (NRP) Vision 2030 is a long-term plan to make India's railway system future-ready by 2030. As part of its short-term goals under Vision 2024, it focuses on complete network electrification, capacity enhancement through adding more tracks, elimination of all level crossings on major routes, and speeding up the completion of major infrastructure projects.

Some important priorities include the development of new freight corridors, high-speed rail networks and checking what types of trains and engines will be needed in the future. The plan also encourages private

companies to invest in train services, terminals, and railway tracks. All in all, the NRP seeks to make railways faster, cleaner, and more efficient to handle future transport needs up to 2050

Gati Shakti Master Plan¹³

PM Gati Shakti, launched in 2021, is a National Master Plan that aims to build world-class multimodal infrastructure to support India's ambitions under the 'Make in India' vision. It integrates 16 ministries, including Railways and Roadways, and uses geospatial data and digital tools to enable better planning, coordination and execution of large infrastructure projects.

The Gati Shakti initiative has played a crucial role in enhancing project efficiency by minimizing delays, improving multimodal connectivity, and encouraging greater private sector participation. Through its integrated approach, the initiative continues to support faster implementation of road and highway projects, showcasing balanced regional development and stronger economic linkages.

National Infrastructure Pipeline (NIP)¹⁴

The National Infrastructure Pipeline (NIP) is a major government roadmap for infrastructure investment between 2020 and 2025, with a total investment of ₹111 lakh crore. It covers key areas, including roads, railways, power, telecom, urban development,

and ports, with contributions from central and state governments as well as private entities.

Some of the key highlights of the NIP include tripling of investment in road development, long-term planning in the railway sector through Vision 2030 and 2050, expansion of BharatNet, delivering high-speed internet to rural areas, Port development under the Sagarmala program to enhance trade competitiveness and strengthening the power sector and affordable housing through PM Awas Yojana.

The NIP strives to stimulate economic growth, create employment opportunities and improve quality of life through large-scale infrastructure upgrades.

Rapid Urbanization

The rapid growth of India's urban population has increased the demand for efficient transportation, showing the need for substantial infrastructure development.

Public-Private Partnerships (PPP)

The government's emphasis on PPP models has facilitated private sector participation, improving project execution, accountability and innovation.

Foreign Direct Investment (FDI)

The FDI policies have attracted significant investments in sectors such as infrastructure, transportation and renewable energy, enhancing both capital inflow and technology transfer.

Renewable Energy Focus

India's commitment to expanding its renewable energy base presents significant opportunities for investments in solar, wind, and hydropower projects, aligning with global sustainability goals.

Growth Drivers

These drivers collectively reshape India's infrastructure landscape, fuelling the country's transition towards a more resilient and inclusive economy.

Company Overview

Established in 2003, H.G. Infra Engineering Limited (HGIEL) is among India's leading infrastructure development companies, renowned for its execution excellence and strong engineering capabilities. With over two decades of experience, the company has built a stalwart reputation as a trusted EPC partner in the development of critical infrastructure.

The Company specialises in executing end-to-end Engineering, Procurement, and Construction (EPC) services and Hybrid Annuity Model (HAM) projects across transport infrastructure, renewable energy, and Battery Energy Storage Systems (BESS) including Transmission.

HGIEL's operational strength lies in its vertically integrated approach. This is supported by a state-of-the-art equipment fleet and a highly skilled workforce. By embracing innovative technology and engineering innovation, HGIEL consistently delivers projects with precision, efficiency and reliability.

Opportunities and Challenges

Opportunities

Strong Order Book and Diversification

- The Company has a strong order Book of ₹1,52,812 Million, ensuring revenue visibility and sustained growth momentum
- It is actively engaged across Roads & Highways, Railways & Metro, Solar, and Battery Energy Storage Systems (BESS), transmission, water infrastructure, airport etc. thereby minimizing sector-specific risks and capitalizing on emerging growth drivers.

Pan- India Presence

- With operations across 13 states and over 28+ ongoing projects, the Company benefits from access to diverse regional opportunities and government contracts

Drivers of Industry Growth

- The ongoing government focus on infrastructure development through initiatives such as Bharatmala, Gati Shakti, and the National Infrastructure Pipeline is a key catalyst for industry growth.
- The growing opportunities in solar and BESS segments align with India's clean energy goals, offering new areas for expansion.

Technological Adoption

- The Company operates more than 3,000+ modern equipment

units, supporting efficient project execution and cost optimization.

- It has the potential to further enhance operational efficiency through wider adoption of digital project management tools and automation

Challenges

Competitive Industry Environment

- The EPC and infrastructure sector is highly competitive, with pressure on margins due to aggressive bidding and new entrants.
- The Company maintain a healthy book-to-bill ratio (currently 2.5x) is crucial to ensure sustained growth.

Financial Leverage and Debt

- The Consolidated debt has increased mainly due to project-specific borrowings, which could impact financial flexibility if not managed prudently.

Sectoral and Policy Risks

- The Changes in government policies, funding delays, or regulatory hurdles can affect project awards and execution.
- Due to high exposure to government projects may lead to payment delays or changes in project scope.

Operational Performance

The Company delivered a robust operational performance during the financial year 2024–2025, achieving significant milestones across its infrastructure project portfolio. As of March 31, 2025, the total order book stood at ₹1,52,812 Million. Government contracts accounted for approximately 96.7% of this order book, while private sector orders contribution is 3.3% of the total Order Book as of March 2025.

Outlook

The Company is growing with a strong momentum supported by its strategic emphasis on diversification and strong execution within its infrastructure assets. The company growing has continued to consolidate its strength in roads and highways while gradually diversifying into complementary businesses.

The Company is leveraging its robust project portfolio including high-value EPC and HAM road contracts, railway station redevelopment, and clean energy infrastructure to align with national priorities in renewable energy, rail modernization, and urban development. With a targeted order inflow of ₹11,000 crore in FY 2026 70% from roads and railways, 30% from emerging sectors, while roads remain a core strength, it is strategically diversifying into sectors like airport, water, ropeways, and transmission & distribution to enhance margins, reduce dependency on roads, and position itself as a future-ready, multi-sector infrastructure player.

Criteria for determining qualifications, positive attributes and independence of a director

In terms of Section 178(3) of the Act and Regulation 19 of the Listing Regulations, the Nomination and Remuneration Committee ("NRC") has formulated criteria for assessing the qualifications, positive attributes, and independence of Directors. The essential components of these criteria are outlined below:

Qualifications	Positive Attributes	Independence
The Board nomination process is structured to foster diversity of thought, experience, knowledge, age, and gender, while also ensuring the Board possesses an appropriate blend of functional and industry expertise.	In addition to their statutory duties under the Act, directors are expected to uphold high ethical standards, demonstrate strong communication skills, and exercise independent judgment. They are also required to adhere to the applicable Code of Conduct.	Independence for a Director is determined by adherence to the criteria established in Section 149(6) of the Act, the relevant Rules, and Regulation 16(1)(b) of the Listing Regulations.

ANNUAL EVALUATION OF BOARD PERFORMANCE AND PERFORMANCE OF ITS COMMITTEES AND DIRECTORS

Pursuant to the provisions of the Act and the Listing Regulations, the Board conducted an annual evaluation of its own performance, the performance of its constituent committees, and the performance of individual directors, including Independent Directors. The evaluation process involved the solicitation of input from all directors through structured questionnaires, developed in accordance with the Guidance Note on Board Evaluation issued by the Securities and Exchange Board of India, the requirements of section 178 read with clause VII of schedule IV of the Act, and the Guidance Note on Board Evaluation issued by the Institute of Company Secretaries of India ("ICSI").

A separate meeting of Independent Directors was convened to evaluate the performance of non-independent directors, the Board as a whole, and the Chairman. The criteria for evaluation and the outcomes thereof are set forth in the Report on Corporate Governance, which forms part of this Report as "Annexure-II."

For details of the previous year's annual evaluation, please refer to the Annual Report for the respective financial year, accessible through <https://hginfra.com/annual-report.php>.

Annexure -II to Board's Report

Corporate Governance Report

HGIEL'S PHILOSOPHY ON CORPORATE GOVERNANCE

H.G. Infra Engineering Limited (the 'Company' or 'HGIEL') has always been committed to maintaining sound corporate governance standards and ethical business practices. Sound corporate governance requires a clear understanding of the respective roles of the Board of Directors (the 'Board') and of Senior Management and their relationships with others in the corporate structure. The Company believes that all actions and plans should be supported by adequate systems and procedures to ensure that the decision-making process across different levels of management is well-informed and conforms to the highest standards of corporate behaviour.

HGIEL's commitment to sound corporate governance extends beyond adherence to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations"), reflecting a dedication to strong principles and practices.

This report serves to detail the Corporate Governance systems and processes at HGIEL, as mandated by the Listing Regulations.

Guided by its core belief that governance is a continuous journey influenced by the ever-changing business environment, both within and outside the organization, HGIEL has ensured strict alignment of its corporate structure, business, operations, and disclosure practices with its corporate governance philosophy.

The Company also confirms its adherence to the Corporate Governance stipulations of Regulations 17 to 27 read with Schedule V and Regulation 46 of the Listing Regulations, as applicable.

The Company has put in place an internal governance structure with defined roles and responsibilities of every constituent of the system.

In accordance with the requirement of Regulation 27(2) of SEBI (LODR) Regulations, 2015, the Company submits to the stock exchanges a quarterly Integrated Filing Report on Corporate Governance within the specified timeline as prescribed in the said regulations.

The Company's Shareholders on the recommendation of Nomination and Remuneration Committee and the Board appoint the Board of Directors, which in turn governs the Company. The Board has established 9 (Nine) Committees to discharge its responsibilities in an effective manner. The Company Secretary of the Company acts as the Secretary to all the Committees of the Board. The Chairman and Managing Director of the Company provide overall direction and guidance to the Board. In the operations and functioning of the Company, the Board is assisted by a core group of senior level executives.

At HGIEL, we strive to conduct our business and strengthen our relationships in a manner that is dignified, distinctive and responsible. We adhere to ethical standards to ensure integrity, transparency, independence and accountability in dealing with all stakeholders. Therefore, we have adopted various codes and policies to carry out our duties in an ethical manner. These codes and policies are available on the Company's website at <https://hginfra.com/code-policies.php>

BOARD OF DIRECTORS

At HGIEL, it is our belief that an enlightened Board consciously creates a culture of leadership to provide a long-term vision and policy approach to improve the quality of governance. The Board's actions and decisions are aligned with the Company's best interests. The Board is committed to the goal of sustainably elevating the Company's value creation. The Company has defined guidelines and an established framework for the meetings of the Board and its Committees. These guidelines seek to systematise the decision-making process at the meetings of the Board and Committees in an informed and efficient manner.

Board Composition and Category of Directors

The Board is the apex body constituted by Shareholders, for overseeing the Company's overall functioning. It provides strategic direction, leadership and guidance to the Company's management as also monitors the performance of the Company with the objective of creating long-term value for the Company's stakeholders.

During the year under review, the composition of the Board was in conformity with Regulation 17 of the SEBI Listing Regulations read together with Section 149 and 152 of the Companies Act, 2013 (the "Act") and rules framed thereunder.

As on March 31, 2025 our Board is comprised of 9 (Nine) Directors, consisting of one Executive, Chairman and Managing Director (Promoter), two Whole-time Directors (One Promoter and One Non-Promoter), six Non-Executive Independent Director (Including three Independent Women Directors).

Particulars of Employees

A. Information as per Rule 5(1) of the Companies (Appointment and remuneration of Managerial Personnel) Rules, 2014

1. Ratio of Remuneration of Directors to Median Remuneration of Employees:

The remuneration of each Director, Chief Financial Officer and Company Secretary, the percentage increase in their remuneration during the financial year 2024-25 and the ratio of the remuneration of each Director to the median remuneration of the employees of the Company for the Financial Year 2024-25 are as under:

S. No.	Name	Designation	Remuneration of Director/ KMP for the Financial Year 2024-25 (Amount in ₹ Million)	Ratio of Remuneration to MRE (Median Remuneration of Employee)	% increase / (decrease) in Remuneration
A	B	C	D	E	F
1.	Mr. Harendra Singh	Managing Director	45	189.47	15.38
2.	Mr. Vijendra Singh	Executive Director	20	84.21	11.11
3.	Mr. Dinesh Kumar Goyal	Executive Director	5.30	22.32	8.38
4.	Mr. Rajeev Mishra	Chief Financial Officer	5.02	21.14	-5.10
5.	Ms. Ankita Mehra	Company Secretary	1.75	7.37	28.68

The Company's Non-Executive Directors were paid only sitting fees during the financial year. Hence, their ratio to Median Remuneration and percentage increase in remuneration have not been considered.

2. The median remuneration of employees of the Company during the financial year was ₹ 2,37,500 per annum, and ratio of the remuneration of each Director to the median remuneration of the employees of the Company for the financial year is provided in the above table.

3. The percentage increase in the median remuneration of employees in the financial year:

In the financial year, there was an increase of 0.52% in the median remuneration of employees.

The Company works in the infrastructure sector, and its major employees are in the unskilled category, i.e., labourers. Hence, the ratio of each director's remuneration to the median remuneration of the company's employees is generally high.

4. Number of permanent employees on the rolls of Company was 5,385 as on March 31, 2025.

5. There is an increase of 16.53% in the total gross salary of employees other than the managerial personnel during the financial year as compared to the previous year due to an increase in the hiring of plant and machinery operating staff in the regular roles of the organization. The hiring of such employees was outsourced before. The purpose behind initiating the hiring of such operating staff category on the role of the Company is to create a sense of accountability and belongingness of such cadre employees in the organization as they are the breadwinners at the project level, while 13.58% increase in total gross salary of managerial personnel during the financial year as compared to the previous year due to the Company's growth in the financial year 2024-25.

6. It is hereby affirmed that the remuneration paid is as per the Policy for Remuneration of the Directors, Key Managerial Personnel and other Employees.

SECRETARIAL AUDIT REPORT

For the Financial Year ended March 31, 2025

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
H.G. INFRA ENGINEERING LIMITED
14, Panchwati Colony, Ratanada,
Jodhpur – 342001, Rajasthan

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **H.G. INFRA ENGINEERING LIMITED** (hereinafter called “the Company”). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2025 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of:

- (i) The Companies Act, 2013 ('the Act') and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 (As amended by Finance Act, 2018) and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

(Not applicable to the Company during the Audit Period);

- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):

 - (g) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;
 - (h) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; **(Not applicable to the Company during the Audit Period);**

- (i) Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993;

As confirmed by the management, there are no sector specific laws that are applicable specifically to the company.

We have also examined compliance with the applicable provisions of the following:

- i. Secretarial Standards with regard to Meetings of Board of Directors (SS-1) and General Meetings (SS-2) issued by The Institute of Company Secretaries of India;
- ii. The Listing Agreements entered into by the Company with National Stock Exchange of India Limited and BSE Limited read with SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors, Independent Directors and Woman Director. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act. Details of the same are as under:-

- During the financial year, the Board of Directors appointed Dr. Sunil Kumar Chaudhary (DIN: 00515672) as an Additional Independent Director of the Company with effect from February 5, 2025 for a term of three consecutive years. His appointment was subsequently approved by the shareholders through a Postal Ballot process, which concluded on March 26, 2025.

Adequate notice is given to all Directors/members/invitees to schedule the Board Meetings, Committee meetings and General Meetings, along with its agenda and detailed notes on agenda were sent in advance as required, and a system

exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions of Board and Committee and General Meetings were carried with requisite majority.

We further report that based on the information provided and the representation made by the Company and also on the review of the compliance certificates, in our opinion, there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with labour laws and other applicable laws, rules, regulations and guidelines etc.

We further report that during the audit period some major events were taken in Company having a major bearing on the company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc of which some are as under:-

Annual Report on Corporate Social Responsibility (CSR) Activities Financial Year 2024-25

[Pursuant to Section 135 of the Companies Act, 2013 ("the Act") read with the Companies (Corporate Social Responsibility Policy) Rules, 2014]

1. Brief outline on CSR Policy:

The Company's CSR programs are guided by Company's Corporate Social Responsibility Policy ('CSR Policy') approved by the Board of Directors ('Board'). The Company's CSR Policy framework details the mechanisms for undertaking various programs in accordance with section 135 of the Companies Act, 2013 (the "Act") read with Schedule VII of the Act and the Companies (Corporate Social Responsibility Policy) Rules, 2014 ("Rules") for the benefit of the community.

The vision of the Company is to actively contribute to the social, economic and environment development of the unmerited communities/sections where the Company operates and to ensure the participation of community and thereby creating value for the nation. The Company acknowledges its origins and diligently works to address the needs and aspirations of the less privileged communities across the nation. The Company has multipronged CSR strategy that focuses on education, healthcare, rural development, environment sustainability, animal welfare and community development in coherence with Schedule VII of the Act.

The Company has identified, inter alia, the following thrust areas around which the Company shall be focusing its CSR initiatives/ programs:

- a) **HEALTHCARE:** Promoting healthcare including preventive healthcare and sanitation, eradicating hunger, poverty and malnutrition and making available safe drinking water, providing financial support for healthcare, conducting health camps and providing consultation, medicines etc.
- b) **EDUCATION:** Promoting education, including special education and employment enhancing vocation skills especially among children, women, elderly, and the differently abled and livelihood enhancement projects, providing support at every stage of a child's educational cycle including but not limited to developing infrastructure for schools / educational centers / universities / hostels, scholarships including financial support to students for education, conducting education programs, skill development and vocational training, support to sports for development of students in both urban and rural settings, digital literacy initiatives and other holistic education initiatives for rural & urban youth.
- c) **RURAL DEVELOPMENT:** Improving water conservation and rainwater harvesting, developing community infrastructure and strengthening rural areas by improving accessibility, education, healthcare, housing, street roads / lights, drinking water, sanitation, power and livelihoods, thereby creating sustainable villages.
- d) **GENDER EQUALITY AND EMPOWERMENT OF WOMEN:** Promoting gender equality, empowering women, setting up homes and hostels for women and orphans, setting up old age homes, day care centers and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups.
- e) **ENVIRONMENTAL SUSTAINABILITY:** Ensuring environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agroforestry, conservation of natural resources, maintaining quality of soil, air and water, tree plantation, promoting renewable energy and developing gardens.
- f) **NATIONAL HERITAGE, ART AND CULTURE:** Protection of national heritage, art and culture including restoration of buildings and sites of historical importance and works of art; setting up public libraries; promotion and development of traditional arts and handicrafts and preserving & promoting music and sports.
- g) **OTHER INITIATIVES:** Other need-based initiatives in compliance with Schedule VII of the Companies Act, 2013 and amendments thereto from time to time.

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate change	Risk and Opportunity	Risk:- HGIEL's projects are located in India, a country increasingly affected by extreme weather events due to climate change. These events pose potential risks to project timelines, operational efficiency, and overall business sustainability.	The Company is actively implementing measures to enhance resource efficiency, minimize waste, and reduce carbon emissions. By regularly tracking its environmental footprint,	Positive Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			Opportunity:- Climate action presents an opportunity for HGIEL to contribute positively by implementing climate-resilient infrastructure and adopting resource-efficient technologies. This proactive approach enhances long-term sustainability, mitigates risks, and aligns with global environmental goals.	the company aims to mitigate the impacts of climate change and contribute to a more sustainable future. To implement these measures effectively, HGIEL has conducted training programs to raise awareness among employees about climate change and its impact on business operations.	
2	GHG, Air Emission and Renewable Energy	Risk and Opportunity	Risk:- The construction and infrastructure sectors are among the largest contributors to carbon emissions, playing a significant role in accelerating climate change. This poses regulatory, financial, and reputational risks for companies operating in these industries Opportunity:- HGIEL has the opportunity to enhance its reputation among peers and stakeholders by actively reducing carbon emissions. The increasing availability of renewable energy sources, along with lower tariffs, presents a cost advantage for the company. Transitioning to renewable energy not only mitigates climate change risks but also improves HGIEL's environmental footprint through innovation in the energy sector. Additionally, as investors prioritize companies with lower carbon footprints, HGIEL's sustainability initiatives can attract greater investment and strengthen its market position	The company is committed to gradually transitioning towards renewable energy sources. The company plans to incorporate solar-powered electrical appliances in its corporate and site offices, reducing dependency on conventional energy and lowering its carbon footprint.	Positive Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Biodiversity & Land Use	Risk	As HGIEL is engaged in road and highway construction, a key environmental risk is the loss of local biodiversity due to land clearance and changes in land use post- construction. This can lead to regulatory compliance challenges and potential social concerns, particularly regarding the disruption of natural habitats for local flora and fauna. Ensuring the timely availability of necessary environmental clearances from project developers is critical to avoiding project delays or disruptions. Non-compliance with environmental regulations may result in legal, financial, and reputational risks for the company.	The company ensures that all regulatory approvals from the Forest and Wildlife Department are obtained by the project developer and conducts periodic compliance reviews. As part of its CSR strategy, the company has embraced biodiversity enhancement and has successfully planted 110,000 trees this financial year.	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Water, waste & hazardous material management	Risk and Opportunity	Risk:-The construction industry relies on water from multiple sources and generates various types of waste, including hazardous waste and construction and demolition debris. Inefficient waste management and unregulated water consumption could result in legal non-compliance and significant environmental harm. Opportunity:-By adopting the 3R concept—Reduce, Reuse, and Recycle—the company can enhance environmental conservation while promoting sustainable construction practices.”	The company has implemented an integrated waste management plan. In line with its water conservation efforts, the company has taken the following actions: Designed a drainage system for construction camps at project sites to collect wastewater and stormwater. Installed sewage treatment plants (STPs) at project sites. Reutilized treated water for batching plants and landscaping development.	Positive Negative
5	Compliance management	Risk	Non-compliance may lead to fines and penalties, posing a significant reputational risk to the company	The company has a dedicated Compliance Team responsible for overseeing and ensuring adherence to all regulatory requirements	Negative
6	Sustainable supply chain	Risk and Opportunity	Risk & Opportunity:- Procuring goods and services from a sustainable value chain strengthens the organization’s commitment to sustainability while mitigating dependencies across the entire product or service lifecycle.	The company has established a Sustainable Sourcing Policy and a Supplier Code of Conduct, outlining essential environmental, health & safety, human rights, and governance standards that suppliers must adhere to during their engagement with the company.	Positive Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
7	Labour standards & working conditions	Risk	Poor labor standards and working conditions can lead to health and safety issues, potential fines, penalties, or legal actions, ultimately posing a reputational risk to the company	The successful implementation of the company's policy on employment rights and standard practices has ensured that no instances of unethical labor practices have been reported. This policy aligns with labor legislation, upholds human rights, and extends to suppliers.	Negative
8	Anticorruption & anti-bribery	Risk	Reported instances of anti-corruption and anti-bribery violations can damage the brand, negatively impact share prices, and result in exclusion from potential business opportunities, along with substantial financial penalties.	The company has developed and implemented the ABC Policy, along with a Whistleblower Mechanism. Effective implementation of the ABC Policy not only serves as a preventive and remedial measure but also helps mitigate regulatory risks.	Negative
9	Occupational health & safety	Risk	HGIEL is into the construction business which is labour intensive and poor occupational health and safety (OHS) performance directly affects labour costs by lowering productivity. - 10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.** - The company is committed to responsible waste management through defined processes for handling various waste categories, ensuring environmental sustainability and regulatory compliance. Waste Categories Managed: Wastewater (Sand wash, Batching plant residual), Waste Lubricant Oil / Hydraulic Oil, Dead Batteries, Scrap Filters, Scrap Tyres, Metal Scrap, Electrical & Electronic Waste, Bituminous Mix Waste & Waste Concrete (Construction & Demolition Waste), Rubber Waste, Plastic Waste, Municipal Waste. The company follows a systematic approach to managing scrap materials. Once an item is identified as scrap, it undergoes a thorough evaluation before being sold to specialized entities, ensuring responsible disposal. Sustainability and Safe Disposal: The company prioritizes timely waste disposal and re-use wherever feasible. It actively reduces chemical usage by adopting eco- friendly alternatives. Unserviceable items are disposed of in an environmentally responsible manner, following a Standard Operating Procedure (SOP). All scrap materials are systematically categorized and segregated, either within the system or at the site, ensuring efficient disposal.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any
1	Part of Raipur-Visakhapatnam (AP-P1)	Highway Construction	Yes
2	Part of Raipur-Visakhapatnam (OD-5)	Highway Construction	Yes
3	Part of Varanasi Ranchi Kolkata Highway (P-10)	Highway Construction	Yes
4	Part of Varanasi Ranchi Kolkata Highway (P-13)	Highway Construction	Yes
5	Narol-Sarkhej, Gujarat Project	Highway Construction	Yes

Note-Yes, HGIEL has operations in ecologically sensitive areas where environmental approvals or clearances are required. The required environmental approvals or clearances, including those for projects falling in forest areas, are obtained by employers like NHAI (National Highways Authority of India), Railways, and Metro. HGIEL ensures compliance with environmental regulations, and the employers obtain necessary permits for operations in ecologically sensitive areas

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
EIA for all ongoing projects of HGIEL is undertaken by the project allocating agencies i.e. NHAI, Railway, Metro etc.					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
	Yes, HGIEL is compliant with the applicable environmental laws, regulations, and guidelines.			

PRINCIPLE 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. **Number of affiliations with trade and industry chambers/ associations. –**

We are associated with two industry associations

- b. **List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.**

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	National Highway Builder Federation (NHBF)	National
2	Indian Chamber of Commerce (ICC)	National

2. **Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.**

Name of authority	Brief of the case	Corrective action taken
	Nil	

PRINCIPLE 8

Businesses should promote inclusive growth and equitable development

Essential Indicators

1. **Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link

SIA (Social Impact Assessment) is not applicable to the Company in the current financial year. The Company operates under an EPC, HAM, and Item Rate Contract business model, wherein the land required for road construction is provided by developers, including national and state-owned government agencies as well as private entities

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)

Not Applicable. The company operates under a business model of EPC (Engineering, Procurement, and Construction), HAM (Hybrid Annuity Model), and Item Rate Contracts. In this model, the land required for road construction is provided by developers, which include various national and state-owned government agencies and private entities. The responsibility for rehabilitation and resettlement (R&R) lies with these developers. As a result, H.G. Infra Engineering Limited (HGIEL) does not have R&R obligations in its contracts, making this aspect not applicable to contractors like HGIEL.

3. Describe the mechanisms to receive and redress grievances of the community. - The Company has a Grievance Redressal Procedure (GRP) in place for all stakeholders, including the community. This GRP serves as a guideline for handling and resolving grievances in a time-bound manner while ensuring compliance with regulatory directives. Grievances can be reported through four modes: complaint register, suggestion box, letter, and email. Upon receipt, grievances are formally submitted to the Grievance Redressal Officer (GRO), who acknowledges them and forwards them to the relevant function within fifteen working days. In case of a conflict between the griever and the concerned function, the grievance is escalated to the Grievance Redressal Committee (GRC) for further investigation. The GRC undertakes appropriate measures and provides a resolution within fifteen working days. The final resolution is communicated to the stakeholder through the GRO or the concerned function for acknowledgment and feedback. Additionally, the Project Manager and the CSR Head actively engage with community stakeholders. The Project Manager also serves as the first point of contact for the community, facilitating direct grievance submission and resolution on a one-to-one basis.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Directly sourced from MSMEs/ small producer	10.12%	4.59%
Sourced directly from within India	100%	100%

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost

Location	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Rural	67.33	66.26
Semi-urban	0.00	0.00
Urban	26.45	23.52
Metropolitan	6.22	10.21

Place to be categorized as per RBI Classification System - rural / semi-urban / urban/metropolitan)

Leadership Indicators

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent In Million INR
1	Rajasthan	Jaipur, Udaipur, Rajsamand, Jodhpur, Sikar and Sirohi	146.3856 Million INR
2	Jharkhand	Bokaro, Singhbhum & Seraikela	3.1729 Million INR

S. No.	State	Aspirational District	Amount spent In Million INR
3	Andhra Pradesh	Chittoor	0.8543 Million INR
4	Uttar Pradesh	Badaun, Maharajanj & Shahjahanpur	9.5871 Million INR

PRINCIPLE 9

Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

- Describe the mechanisms in place to receive and respond to consumer complaints and feedback.** - The Company does not provide any products or services directly to end consumers. Customer complaints and grievances primarily relate to construction quality, project timelines, and overall project execution. Customers can report complaints through email or direct verbal communication with project management teams. A complaint register is maintained to document all customer grievances systematically. For any complaints or feedback, customers can reach out via email at grievance@hginfra.com.
- Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:**

	As a percentage to total turnover
Environmental and social parameters relevant to the product	NA
Safe and responsible usage	NA
Recycling and/or safe disposal	NA

NA - Not Applicable. The Company is engaged in the business of Engineering, Procurement, Construction (EPC), and maintenance of roads, highways, bridges & flyovers, and other infrastructure contract works. Hence, the product is not owned by us and handed over to our client, e.g., NHAI, after completion.

- Number of consumer complaints in respect of the following:**

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy. –

Yes, the Company has a policy on Information Security and Management available on the website https://www.hginfra.com/pdf/information_security_management_policy_v2.pdf

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services. –

Not applicable.

7. Provide the following information relating to data breaches:

- a. **Number of instances of data breaches** – NIL, There were no instances of data breach in the current financial year
- b. **Percentage of data breaches involving personally identifiable information of customers** – NIL, there were no instances of data breaches involving personally identifiable information of customers.
- a. **Impact, if any, of the data breaches** – NIL, There were no data breaches.

Leadership Indicators**1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available). –**

HG Infra Engineering Limited (HG Infra) is an infrastructure development company in India, primarily engaged in the construction and development of road, highways Railways. Based on the information available on their website <https://www.hginfra.com>

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services. –

HG Infra Engineering adopts a comprehensive approach to promote road safety across all its infrastructure projects. The company installs three key types of signage—warning, cautionary, and informative—to deliver essential guidance and alerts to road users. To further enhance safety, tactile markers are employed, assisting drivers and pedestrians in safe navigation. In addition, reflective paints are extensively used to improve visibility of road markings and signs during low-light and nighttime conditions. Barricades are strategically positioned in construction zones to manage traffic flow and ensure the safety of both workers and commuters. These integrated measures underscore the company's commitment to creating safe and well-informed travel experiences for all road users.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services. –

Prior to road, rail and Highways works, traffic closures and diversion during project execution, the relevant authority is duly notified, and suitable signage are erected for public convenience.

Independent Auditor's Report

To the Members of **H.G. Infra Engineering Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **H.G. Infra Engineering Limited** which includes one jointly controlled operation consolidated on a proportionate basis (herein after referred to as "the Company") (Refer Note 52 to standalone financial statements), which comprises the Standalone Balance Sheet as at March 31, 2025, Standalone Statement of Profit and Loss (including Other Comprehensive Income), Standalone Statement of Changes in Equity and Standalone Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of other auditor on separate audited financial information of jointly controlled operation, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its total comprehensive income (comprising of profit and other

comprehensive income), its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us and by other auditors referred to in the "Other Matters" paragraph below is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the year ended March 31, 2025. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Our audit procedures in respect of this area included the following:
1. Estimation of contract cost and revenue recognition. (Refer to Note 1 (iv) (i), 2 (d), 29 and 53) of the Standalone Financial Statements) Revenue from construction contracts is recognised over a period of time in accordance with the requirements of Ind AS 115, 'Revenue from Contracts with Customers'. The contract revenue amounts to ₹ 59,961.84 Million for engineering, procurement and construction contracts, which usually extends over a period of 2-3 years, and the contract prices are fixed and, in few cases, subject to clauses with price variances and variable consideration.	i. Evaluated the accounting policy for revenue recognition and assessed compliance of the policy with the principles enunciated under Ind AS 115 - 'Revenue from Contracts with Customer'. ii. Understood and evaluated the design and implementation and tested the operating effectiveness of key internal financial controls, including those related to review and approval of estimated costs and review of provision for foreseeable losses, if any, by the authorised representatives.

Key Audit Matter

In accordance with Input method prescribed under Ind AS 115, the contract revenue is measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total costs. This method requires the Company to perform an initial assessment of total estimated cost and reassess the total construction cost at the end of each reporting period to determine the appropriate percentage of completion.

The estimation of total cost to complete the contract involves significant judgement and estimation throughout the period of contract, as it is subject to revision as the contract progresses - based on latest available information including physical work done on the ground, changes in cost estimates and need to accrue provision for onerous contracts, if any. Besides recognition of revenues based on actual costs and estimated costs to complete the work, at the period end, the measurement and recognition of contract assets (unbilled revenue) and contract liabilities (unearned revenue) related to each of the contracts is also dependent on cost estimates.

In view of above, we have considered the estimation of construction contract costs as a key audit matter.

Our audit procedures in respect of this area included the following:

- iii. We obtained the revenue workings (percentage of completion calculations) from the Company's management, for all contracts, containing actual costs incurred, estimated costs (comprising of actual costs and remaining costs to completion), estimated contract revenue and actual revenues recognised during the year based on proportion of actual costs to estimated costs. For sample of contracts, we agreed contract revenue with key contractual terms, agreed actual costs with system generated reports and agreed estimated costs with costs sheets for individual contracts approved by the authorised representatives. Reperformed the calculation of revenues during the year using proportion of actual costs to estimated costs and compared the results with workings provided by the Company.
- iv. For actual costs incurred during FY 2024-25, we tested the samples to appropriate supporting documents.
- v. To validate the remaining costs to completion, for sample contracts, we obtained the approved costs sheets (for each of such sample contracts) containing the breakdown of such costs. Evaluated the reasonableness of management's judgements and assumptions through comparison of actual margins during the year with base margins estimated at the beginning, comparison between financial progress (proportion of actual costs to estimated costs) and physical progress certified by the Independent Engineer, past trends of recovery of price escalation with incremental costs incurred and comparison of actual costs within similar contracts.
- vi. Assessed the adequacy and appropriateness of the disclosures made in standalone financial statements in compliance with the requirements of Ind AS 115.

2. Valuation of accounts receivable and contract assets in view of risk of credit losses. (Refer Note 1 (ix), 40(i), 7, and 11 – Trade Receivables and Note 16(a) for Contract Asset to Standalone Financial Statements)

Accounts receivable and Contract assets are significant items in the Company's standalone financial statements aggregating to ₹ 27,868.07 Million as of March 31, 2025 and provision for impairment of receivables and contract assets amounted to ₹ 631.98 Millions as at March 31, 2025. The Company has a concentration of credit exposure on certain customers, which include government and private organisations, where there are delays in collections due to various reasons.

- i. Understood and evaluated the design and tested the operating effectiveness of key internal financial controls in relation to determination of expected credit loss.
- ii. Obtained confirmation from parties, for sample balances, with respect to outstanding balances. Wherever confirmations are not received for the samples, performed alternate procedures through verification of Company's invoices approved by the respective customers which represents acknowledgement of work delivered.
- iii. Performed inquiry procedures with senior management of the Company regarding status of collectability of the receivable and contract assets.

Key Audit Matter	Our audit procedures in respect of this area included the following:
The management periodically assess the adequacy of provisions recognised, as applicable, on receivables and contract assets, based on factors such as credit risk of the customer, status of the project, discussions with the customers and underlying contractual terms and conditions. This involves significant judgement. Given the relative significance of these receivables and contract assets to the standalone financial statements and the nature and extent of audit procedures involved to assess the recoverability of receivables and contract assets, we determined this to be a key audit matter.	iv. In respect of material contract balances, corroborated our inquiry procedures with the correspondence between the Company and the customers, contracts and other documents. v. Assessed the inputs used by the Management to determine the amount of allowances by considering factors such as credit risk of the customer, cash collections, past history and status of the project, and correspondence with customers. vi. Presented the results of our audit procedures to the audit committee. vii. Assessed the adequacy and appropriateness of the disclosures made in the standalone financial statements in this regard.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe actions applicable under the applicable laws and regulations.

Responsibilities of Management and Board of Directors for the standalone financial statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and other

comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("IND AS") specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes

our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

We give in “**Annexure A**” a detailed description of Auditor’s responsibilities for Audit of the standalone financial statements.

Other Matter

We did not audit the financial information of one jointly controlled operation (dissolved w.e.f January 9, 2025) included in the standalone financial statements of the Company, whose financial statements reflect total revenues of ₹ 0.04 Million, total net profit/(loss) after tax of ₹ (0.04) Million and total comprehensive income of ₹ (0.04) Million for the period ended April 1, 2024 to January 9, 2025 (being its date of dissolution), and cash flows (net) of ₹ 0.48 Million for the period then ended. The financial information of this jointly controlled operation has been audited by other auditor whose report has been furnished to us by the Management, and our opinion on the standalone financial statements (including other information) in so far relates to the amounts and disclosures included in respect of this jointly controlled operation, is based solely on the report of other auditor.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor’s Report) Order, 2020 (“the Order”), issued by the Central Government of India in terms of Sub-Section (11) of Section 143 of the Act, we give in “**Annexure B**” a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. A. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the

Company so far as it appears from our examination of those books, except for the matters stated in

- i. in paragraph 2B(f) below on reporting under Rule 11(g); and
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that back-up of the books of account and other books and papers maintained in electronic mode, has not been kept in servers physically located in India on a daily basis as the backup server is outside India.
- (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure C**”.
 - (g) The reservation relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 2A(b) above on reporting under Section 143(3) (b) and paragraph 2B(f) below on reporting under Rule 11(g).
- B. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to

the best of our information and according to the explanations given to us:

- (a) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 47 to the standalone financial statements;
- (b) The Company has long-term contracts for which there were no material foreseeable losses as at March 31, 2025. Refer note 16(a) to the standalone financial statements. Further, the Company did not have any outstanding derivative contracts as at March 31, 2025;
- (c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2025.
- (d) 1 The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Company or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- 2 The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding

Parties”), with the understanding, whether recorded in writing or otherwise, as on the date of this audit report, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Party or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- 3 Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, and according to the information and explanations provided to us by the Management in this regard, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (1) and (2) above, contain any material mis-statement.
- (e) The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.
- (f) Based on our examination which included test checks, the Company has used a software and certain SAAS based applications (related to processing of leave and travel related data of employees, vendor registration and inviting quotations for few materials to be procured or scrapped) for maintaining its books of accounts. The software has a feature of recording audit trail (edit log) facility, except that audit trail feature was not enabled throughout the year for certain relevant tables and also, was not enabled at the database level to log any direct changes. Also, we were not able to verify this aspect in SAAS based applications as no underlying evidence, related to audit trail (edit log)

facility, could be arranged by the Company from the service providers who manage these applications.

Further, wherever enabled, the audit trail feature has operated for the relevant transactions recorded in the software. Also, during the course of our audit, we did not come across any instance of the audit trail feature being tampered with, in respect of such software. Additionally, the audit trail feature of previous year has

been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in respective years.

- C. In our opinion, according to information and explanations given to us, the remuneration paid and provided by the Company to its directors during the current year is within the limits laid prescribed under Section 197 read with Schedule V of the Act and the rules thereunder.

Annexure A to the Independent Auditor's Report of even date on the **Standalone Financial Statements of H.g. Infra Engineering Limited**

Auditor's Responsibilities for the Audit of the standalone financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events

or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the jointly controlled operation which are included in the Company to express an opinion on the standalone financial statements. For the jointly controlled operation included in the standalone financial statements, which has been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of

most significance in the audit of the standalone financial statements for the year ended March 31, 2025 and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B to the Independent Auditors' Report of even date on the Standalone Financial Statements of H.g. Infra Engineering Limited

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report]

- i. (a) A The Company has maintained proper records showing full particulars including quantitative details and situation of Property, plant and equipment, Investment property and relevant details of Right-of-use assets.
 B The Company has maintained proper records showing full particulars of Intangible assets.
- (b) Property, plant and equipment, Investment property and Right-of-use assets have been physically verified by the management during the year at reasonable intervals and no material discrepancies were identified on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the standalone financial statements, are held in the name of the Company.
- (d) According to the information and explanations given to us, the Company has not revalued its Property, plant and equipment (including Right-of-use assets) and Intangible assets during the year. Accordingly, the provisions stated under clause 3(i)(d) of the Order are not applicable to the Company.
- (e) According to the information and explanations given to us, no proceeding has been initiated on or pending against the Company for holding benami property under Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and rules made thereunder. Accordingly, the provisions stated under clause 3(i)(e) of the Order are not applicable to the Company.
- ii. (a) The inventory (excluding material in transit) has been physically verified during the year by the management. In our opinion, the frequency of verification, coverage and procedure of such verification is reasonable and appropriate, having regard to the size of the Company and the nature of its operations. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory and have been properly dealt within the books of account..
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, during the year, the Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, from banks and on the basis of security of current assets and immovable properties. We have been informed that based on discussions between the Company's management and the respective lenders, the Company has been filing quarterly statements on mutually agreed basis for reporting of current assets, represented by adjusted balances of Accounts receivables (excluding withheld balances by the respective debtors), Accounts payable (excluding payable to service vendors, provisions and balance for retention payable), Inventory (except material in transit), Contract assets (for outstanding upto three months), Advance to suppliers and Mobilisation Advances. These statements which have been filed for three quarters (upto December, 2024) by the Company are in agreement with the unaudited books of account of the Company for such respective quarters. Further, as on the date of this report, the Company is yet to file quarterly statement for the quarter ended March 31, 2025 (Refer Note 57(ii) to the standalone financial statements).
- iii. (a) According to the information and explanation provided to us, the Company has made investment in 58 Subsidiaries and granted unsecured loans to 91 Subsidiaries and various employees during the year. No advances in the nature of loans, guarantee or security have been provided by the Company during the year.

(A) The details of such loans to subsidiaries are as follows:

Particulars	Loans (₹ In Millions)
Aggregate amount granted/provided during the year	
- Subsidiaries	6,302.98
- Joint Ventures	-
- Associate	-
Balance Outstanding as at balance sheet date in respect of above cases	
- Subsidiaries	8,547.24
- Joint Ventures	-
- Associates	-

(B) The details of such loans to parties other than Subsidiaries, Joint ventures and Associates are as follows:

Particulars	Loans (₹ In Millions)
Aggregate amount granted/provided during the year	
- Others (Employees)	41.19
Balance Outstanding as at balance sheet date in respect of above cases	
- Others (Employees)	41.19

(b) According to the information and explanations given to us and based on the audit procedures performed by us, we are of the opinion that the terms and conditions in relation to grant of all loans and investments made are not prejudicial to the interest of the Company.

(c) In case of the loans to subsidiaries which are interest-free, schedule of repayment of principal have not been stipulated. In the absence of stipulation of repayment terms, we are unable to comment on the regularity of repayment of principal.

In respect of loans given to employees which are interest-free, the schedule for repayment of principal has been stipulated and the repayments have been regular.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in respect of loans given to subsidiaries, the aforesaid loans are either repayable on demand of the Company or repayable at the option of such subsidiaries.

For loans repayable on demand, we have been informed that the repayment has been

made during the year when demanded by the Company and for loans which are repayable at the option of subsidiaries, there is no due date specified therein. Therefore, in respect of aforesaid loans, there is no amount which is overdue for more than 90 days.

In respect of loans to employees, there is no amount which is overdue for more than 90 days.

(e) According to the information and explanations provided to us, in respect of loans which are repayable on demand of the Company, the repayments have been done when demanded by the Company and therefore, these loans have not been renewed or extended. In respect of loans which are repayable at the option of subsidiaries, the question of the amount falling due during the year does not arise. In respect of loans to employees, the repayments which have fallen due, during the year, have not been renewed or extended.

Also, as mentioned in (d) above, there was no overdue amount during the year and therefore, the question of commenting whether any fresh loans were given to settle the overdue of existing loans does not arise.

- (f) According to the information explanation provided to us, the Company has granted loans repayable on demand or without specifying any terms or period of repayment. The details of the same are as follows:

	(Amount in ₹ Million)		
	All Parties	Promoters	Related Parties
Aggregate amount of loans			
- Repayable on demand (A)	18.47	-	18.47
- Agreement does not specify any terms or period of repayment (B)	6,284.51	-	6,284.51
Total (A+B)	6,302.98	-	6,302.98
Percentage of loans to the total loans	99.35%		99.35%

- iv. According to the information and explanations given to us, the Company is engaged in providing infrastructural facilities as specified in Schedule VI of the Act and accordingly, the provisions of Section 186, except sub-section (1), of the Act are not applicable to the Company. According to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186(1) of the Act in respect of loans and investments made by it.
- v. According to the information and explanations given to us, the Company has neither accepted any deposits from the public nor any amounts which are deemed to be deposits, within the meaning of the provisions of Sections 73 to 76 of the Act and the rules framed there under. Accordingly, the requirement to report under clause 3(iv) of the Order is not applicable to the Company. Also, there are no amounts outstanding as on March 31, 2025, which are in the nature of deposits.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of income-tax though there have been slight delays in a few cases and is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, goods and services tax, cess and other statutory dues, as applicable, with appropriate authorities during the year. No undisputed amounts payable in respect of these statutory dues were outstanding as at March 31, 2025, for a period of more than six months from the date they became payable.

- (b) According to the information and explanation given to us and on the basis of examination of the records of the Company, the details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2025, on account of any dispute, are as follows:

Annexure C to the Independent Auditor's Report of even date on the Standalone Financial Statements of H.g. Infra Engineering Limited

[Referred to in paragraph 2A(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of H.G. Infra Engineering Limited on the Financial Statements for the year ended March 31, 2025]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of H.G. Infra Engineering Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Opinion

In our opinion, the Company, has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We

conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls With reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally

accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to standalone financial statements is not applicable to the jointly controlled operation.

Our opinion is not modified in respect of this matter.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Background

H.G. Infra Engineering Limited ("the Company") is a Public Limited Company listed on the Bombay Stock Exchange and National Stock Exchange on March 9, 2018. Its registered office is at 14, Panchwati Colony, Ratanada, Jodhpur – 342001, Rajasthan, India.

The Company is engaged in the business of Engineering, Procurement and Construction ('EPC'), and Operation and Maintenance ('O&M') of roads, railway lines and stations, bridges, flyovers, solar powered plants and other infrastructure contract works.

These Standalone financial statements were reviewed by the Audit Committee and authorized to be issued by the Board of Directors on May 21, 2025.

(a) Basis of preparation

(i) Compliance with Ind AS

The Standalone financial statements comply in all material aspects with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013 ('the Act') [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The Standalone financial statements have been prepared on a historical cost basis, except for

- Certain financial assets and financial liabilities measured at fair value (refer accounting policy regarding financial instruments);
- assets held for sale – measured of fair value less cost of sell; and
- defined benefit plans - plan assets measured at fair value

(iii) New and amended standards adopted by the Company

The Ministry of Corporate Affairs ('MCA') vide notification dated September 9, 2024 and September 28, 2024 notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024 and Companies (Indian Accounting Standards) Third Amendment Rules, 2024, respectively, which amended/

notified certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 1, 2024:

1. Insurance contracts - Ind AS 117:

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after April 1, 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

A specific adaptation for contracts with direct participation features (the variable fee approach)

A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Company's standalone financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

2. Lease Liability in Sale and Leaseback – Amendments to Ind AS 116:

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after April 1, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendment does not have a material impact on the Company's standalone financial statements.

3. Amendments to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements:

During the year, the MCA issued amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

As a result of implementing the amendments, the Company has provided additional disclosures about its supplier finance arrangement. Refer note 24.

4. Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current:

During the year, the MCA issued amendments to paragraphs 69 to 76 of Ind AS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period

- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The amendments do not have an impact on the classification of Company's liabilities.

iv. New Standards (including amendments) issued but not yet effective:

MCA notifies new standards or amendments to existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On May 9, 2025, MCA notified the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 1, 2025. The Company is currently assessing the probable impact of these amendments on its standalone financial statements.

(b) Operating Cycle

The Company classifies an asset as current when:

- it expects to realise the asset or intends to sell or consume it in normal operating cycle
- it holds the asset primarily for the purpose of trading
- it expects to realise the asset within twelve months after the reporting period or
- the asset is cash or cash equivalent unless the asset is restricted from being exchanged or used

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

The Company classifies a liability as current when:

- it expects to settle the liability in its normal operating cycle
- it holds the liability primarily for the purpose of trading
- the liability is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

Based on the nature of operations and the time between the acquisition of assets for processing and their realization in cash or cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current, non current classification of assets and liabilities.

1. Material Accounting Policies

This note provides a list of the material accounting policies adopted in the preparation of these Standalone financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

i. Joint control operation

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the Standalone financial statements under the appropriate headings.

ii. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Managing Director of the Company has been identified as CODM and he assesses the financial performance and position of the Company and makes strategic decisions. Refer note 42 for segment information.

iii. Foreign currency translation

(i) Functional and presentation currency

Items included in the Standalone financial statements of the entity are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Standalone financial statements are presented in Indian rupee, which is Companies functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in Standalone Statement of profit and loss.

iv. Revenue recognition

The Company derives revenue principally from following streams:

- Construction contracts
 - Sale of Services (Operation and Maintenance contracts).
 - Other Income
- (i) Construction contracts

The Company recognises revenue from engineering, procurement and

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

construction contracts ('EPC') over the period of time, as performance obligations are satisfied over time due to continuous transfer of control to the customer. EPC contracts are generally accounted for as a single performance obligation as it involves complex integration of goods and services.

The performance obligations are satisfied over time as the work progresses. The Company recognises revenue using input method (i.e. percentage-of-completion method), based primarily on contract cost incurred to date compared to total estimated contract costs. Changes to total estimated contract costs, if any, are recognised in the period in which they are determined as assessed at the contract level. If the consideration in the contract includes price variation clause or there are amendments in contracts, the Company estimates the amount of consideration to which it will be entitled in exchange for work performed.

Due to the nature of the work required to be performed on many of the performance obligations, the estimation of total revenue and cost of completion is complex, subject to many variables and requires significant judgment. Variability in the transaction price arises primarily due to liquidated damages, price variation clauses, changes in scope, incentives, if any. The Company considers its experience with similar transactions and expectations regarding the contract in estimating the amount of variable consideration to which it will be entitled and determining whether the estimated variable consideration should be constrained. The Company includes estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is

resolved. The estimates of variable consideration are based largely on an assessment of anticipated performance and all information (historical, current and forecasted) that is reasonably available.

Progress billings are generally issued upon completion of certain phases of the work as stipulated in the contract. Billing terms of the over-time contracts vary but are generally based on achieving specified milestones. The difference between the timing of revenue recognised and customer billings result in changes to contract assets and contract liabilities. Payment is generally due upon receipt of the invoice, payable within 90 days or less. Contractual retention amounts billed to customers are generally due upon expiration of the contract period.

The contracts generally result in revenue recognised in excess of billings which are presented as contract assets on the statement of financial position. Amounts billed and due from customers are classified as receivables on the statement of financial position. The portion of the payments retained by the customer until final contract settlement is not considered a significant financing component since it is usually intended to provide customer with a form of security for Company's remaining performance as specified under the contract, which is consistent with the industry practice. Contract liabilities represent amounts billed to customers in excess of revenue recognised till date. A liability is recognised for advance payments and it is not considered as a significant financing component because it is used to meet working capital requirements at the time of project mobilisation stage. The same is presented as contract liability in the statement of financial position.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in Standalone Statement of profit and loss in the period in which the circumstances that give rise to the revision become known by management.

For construction contracts the control is transferred over time and revenue is recognised based on the extent of progress towards completion of the performance obligations. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately. The percentage of completion was calculated according to the nature and the specific risk of each contract in order to reflect the effective completion of the project. This percentage of completion could be based on technical milestones or as per the contractual terms specified. A construction contract is considered completed when the last technical milestone is achieved, which occurs upon contractual transfer of ownership of the asset.

(ii) Sale of Services (Operation and Maintenance contracts)

Revenue from providing operating and maintenance services is recognised in the accounting period in which the services are rendered. Invoices are issued according to contractual terms and are usually payable as per the credit period agreed with the customer.

(iii) Other Income:

- a. All other income is accounted on accrual basis when no significant uncertainty exist regarding the amount that will be received.
- b. Interest income - Interest income from financial assets at fair value through profit or loss is disclosed

as interest income within other income. Interest income on financial assets at amortised cost using the effective interest method is recognised in the Standalone Statement of profit and loss as part of other income.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

v. Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Standalone financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses / tax credits only if it is probable that future taxable amounts will be available to utilise those temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in Standalone Statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

vi. Leases

As a lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease.

If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by Company, which does not have recent third party financing, and makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to Standalone Statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in Standalone Statement of profit and loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

vii. Impairment of non-financial assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

viii. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the Standalone Balance Sheet.

ix. Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain

significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

x. Inventories

Inventories are stated at lower of cost and net realizable value.

Cost of raw material, stores and spare parts and construction materials includes cost of purchases and other cost incurred in bringing the inventories to the present location and condition. Cost is determined using rolling weighted average method.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to complete the contract.

xi. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

a. Investments in Subsidiaries, Associates and Joint Ventures

Interest in subsidiaries, associates and joint ventures are recognized at cost and not adjusted to fair value at the end of each reporting period. Cost represents amount paid for acquisition of said investments.

The Company assesses at the end of each reporting period there are indications that the said investments may be impaired. If so, the Company estimates the recoverable value of the investments and provides for impairment, if any.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

b. Financial Assets:

Classification

The Company classifies its financial assets in the following measurement categories:

- amortized cost
- fair value through other comprehensive income;
- fair value through profit or loss

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed of in the Standalone Statement of profit and loss.

Subsequent measurement

After initial recognition, financial assets are measured at:

- amortized cost
- fair value through other comprehensive income;
- fair value through profit or loss

The Classification depends on entity's business model for managing the financial assets and the contractual terms of cash flows.

(i) Financial assets measured at amortised cost:

Assets that are held for collecting contractual cash flows where those cash flows represent solely payments of principal and interest are measured

at amortised cost. Interest income from these financial assets is included in financial income using effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gain/(losses).

(ii) Financial assets measured at Fair Value through Other Comprehensive Income ("FVTOCI"):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in Standalone Statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in Standalone Statement of profit and loss.

(iii) Financial assets measured at Fair Value through Profit or Loss ("FVTPL"):

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in Standalone Statement of profit and loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Debt instruments

Subsequent measurement of debt instruments depends on the Company business model for managing the asset and the cash flow characteristics of the asset. Debt instrument are classified as amortised cost instruments.

(iv) Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as fair value through profit and loss (FVTPL). For all other equity instruments, the company has irrevocable election to present subsequent change in fair value through other comprehensive income. The election is on an instrument by instrument basis and recycling to profit and loss account is not allowed.

(v) Impairment of Financial Assets

The Company assesses on a forward looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. note 39(i) details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables (including contract assets), the Company applies the simplified approach required by Ind AS 109, which requires lifetime ECL to be recognised as loss allowances.

Derecognition of Financial Assets

A financial asset is derecognized only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to

pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Financial Liabilities:

Initial recognition and measurement

Financial liabilities are initially measured at its fair value plus or minus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the issue/origination of the financial liability.

Subsequent Measurement

Financial liabilities are classified as measured at amortized cost. Financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in Standalone Statement of profit and loss. Any gain or loss on derecognition is also recognized in Standalone Statement of profit and loss.

Derecognition

A financial liability is derecognized when the obligation specified in the contract

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

is discharged, cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

xii. Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Standalone Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

xiii. Property, plant and equipment

Freehold land is carried at historical cost. All other items of Property, plant and equipment are stated at historical cost less depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with

the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Standalone Statement of profit and loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the Company had elected to continue with the carrying value of all of its property, plant and equipment measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the written down value (WDV) / Straight Line Method (SLM) over the estimated useful lives of the assets, based on technical evaluation done by management's expert, which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

The management estimates useful lives of the tangible fixed assets as follows:

Class of Asset	Estimated Useful Life	As per Schedule II	Method of Depreciation
Building	60	60	Straight Line
Plant & machinery *	20/15	20	Written Down Value
Shuttering Material	5	5	Straight Line
Computers	3	3	Straight Line
Furniture and fixtures	10	10	Straight Line
Motor cycles	10	10	Written Down Value
Vehicles other than Motor cycle	8	8	Written Down Value
Office Equipment	5	5	Straight Line

*It includes Low value assets (LVA) having useful life of 1 year.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Based on the technical experts assessment of useful life of the aforementioned assets, Plant and machinery i.e Cranes are being depreciated over the useful life different from the prescribed useful life under Schedule II the Companies Act, 2013. Management believes that such estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Standalone Statement of profit and loss within other gains/ (losses). **(Also refer note 2(a)).**

xiv. Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable

to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale are presented separately from the other assets in the Standalone Balance Sheet.

xv. Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight line method over their estimated useful lives. Investment properties have a useful life of 60 years. The useful life has been determined based on technical evaluation performed by the management expert.

xvi. Intangible assets

Costs associated with maintaining software programs are recognised as an expense as incurred.

Purchases costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of its intangible assets measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Amortisation methods and periods

The Company amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Class of Asset	Estimated Useful Life	As per Schedule II	Method of Depreciation
Computer Software	6	6	Straight Line

xvii. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

xviii. Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in Standalone Statement of profit and loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the Standalone Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

xix. Provisions and contingent liabilities

- Provisions are recognised when Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

- Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xx. Employee benefits

(i) Short term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Standalone Balance Sheet.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

(ii) Other long term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in Standalone Statement of profit and loss.

The obligations are presented as current liabilities in the Standalone Balance Sheet if the Company does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes.

- Defined benefit plan i.e. gratuity
- Defined contribution plans such as provident fund, superannuation etc.

Gratuity obligations (Also, Refer note 2(b))

The liability or asset recognized in the Standalone Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Standalone Statement of profit and loss .

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the Standalone Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in Standalone Statement of profit and loss as past service cost.

Defined contribution plans

The Company pays contribution to defined contribution schemes such as provident fund etc. The Company has no further payment obligation once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

as at and for the year ended March 31, 2025

xxi. Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

xxii. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

xxiii. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the Company; and
- By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

xxiv. Rounding of amounts

All amounts disclosed in the Standalone financial statements and notes have been rounded off to the nearest million as per the requirement of Schedule III, unless otherwise stated.

2. Critical estimates and judgments

The preparation of the Standalone financial statements requires use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgment in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgments or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the Standalone financial statements.

The areas involving critical estimates or judgments are:

(a) Estimation of useful life of Property, plant and equipment

The Company estimates the useful life of the Property, plant and equipment as mentioned in note 1 (o) above, which is based on the expected technical obsolescence of such assets. However, the actual useful life may be shorter or longer than the life estimated, depending on technical innovations and competitor actions.

(b) Estimation of defined benefit obligation

The cost of the defined benefit gratuity plan and other post-employment employee benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries. Refer note 45 for key actuarial assumptions.

(c) Estimation of fair value of level 3 financial instruments

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. Refer note 39 on fair value measurements where the assumptions and methods to perform the same are stated.

(d) Revenue recognition for construction contract - Refer note 1 (iv) and note 53

(e) Impairment of trade receivables (including Contract Assets) – Refer note 1 (ix) and 7,11, 16 (a) and 40 (i)

Estimation of fair value

The fair valuation is based on current prices in the active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including:

- Current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences
- Discounted cash flow projections based on reliable estimates of future cash flows
- Capitalised income projections based upon a property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence.

The Company has obtained independent valuations report of investment properties from registered valuers as defined under rule 2 of Companies (Registered Valuers & Valuation) Rule, 2017. The main inputs used are quantum, area, location, demand, rental growth rates, expected vacancy rates, terminal yields and discount rates.

Supplier financing arrangement

The Company implemented a supplier financing program available to its suppliers. Participation in this program is voluntary for suppliers. Suppliers opting into this arrangement are eligible to receive early payment for invoices issued to the Company through a third party financial institution. The suppliers pay a fee and/or interest to the financial institution for this early payment service. To authorise early payments, the Company must first verify that the goods or services have been received and that the related invoices have been approved. The financial institution processes early payments before the original invoice due date. Regardless of early payment, the Company settles the full invoice amount directly with the financial institution based on the original payment terms. This arrangement does not alter the existing payment terms with suppliers.

* Investments in subsidiaries and associates classified as equity investments have been accounted at historical cost. Since these are scope out of Ind AS 109 "Financial Instruments" for the purposes of measurement, the same have not been disclosed in the tables above.

(ii) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair value of the financial instruments that are measured at amortised cost and for which fair value are disclosed in the Standalone financial statements.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes instruments like listed equity instruments, traded bonds and mutual funds that have quoted price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives etc) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is in the case of unlisted securities.

(iii) Fair value of financial instruments measured at amortised cost - Level 3

The carrying amounts of short term loans, trade receivables, cash and cash equivalents, bank balances other than cash and cash equivalents, other receivables, trade payables, current borrowings, interest accrued, capital creditors and other payables are considered to be the same as their fair value due to their short-term nature. The impact of fair value on non-current financial assets and non-current financial liabilities (not considered above) is not expected to have material impact on the standalone financial statements, hence not disclosed above.

The fair value of security deposits were not calculated based on their future cash flows discounted at current lending rate as these security deposits are expected to continue to remain till the existence of the Company.

Note 40 - Financial Risk Management

The Company's activities expose it to a variety of financial risks namely credit risk, liquidity risk and market risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

(i) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, contract assets, security deposits, deposit with banks, loans, others receivables and cash and cash equivalents.

Impairment of Financial Assets :

The Company has three types of financial assets that are subject to expected credit loss model:

1. Trade Receivables for construction contracts
2. Contract Assets relating to construction contracts
3. Loans and Other receivables

While cash and cash equivalents and deposits with banks are subject to impairment requirements of Ind AS 109, the identified impairment on these assets is Nil.

For Trade receivables and Contract assets for construction contracts : Management makes the assessment of the credit risk on trade receivables and contract assets considering the customer profile. Customers of the Company mainly consists of the government promoted entities and some large private corporates. In case of government customers which forms the majority of the revenue, credit risk is low.

Considering the nature of business, each contract and its customer is evaluated for the purpose of assessment of loss allowances. The reasons for loss allowances could be recovery of claims, disputes with customer, customers ability to pay, delays in approval by government authorities, and expected time to recover the amount. Management makes an assessment considering the overall nature of collection and facts of each contract, terms of the contract and accordingly considers the need for loss allowances, if any.

For Loans and Other receivables : The Company's investments in debt instruments and certain loans are considered to be low risk investments.

(A) The following table gives details in respect of percentage of revenue generated from government promoted agencies and private corporates:

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Revenue from government promoted agencies	70%	60%
Revenue from private corporates	30%	40%

(ii) Liquidity risk

Liquidity risk defined is as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. Company's objective is to, at all time maintain optimum levels of liquidity to meet its financial obligations. The Company manages liquidity risk by maintaining sufficient cash and cash equivalents and by having access to funding through an adequate amount of committed credit lines. In addition, processes and policies related to such risks are overseen by senior management.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at by senior management in accordance with practice and limits set by the Company. These limits take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at March 31, 2025	As at March 31, 2024

* Guarantee issued by the Holding Company to the bankers on behalf of H.G. Raipur Visakhapatnam AP-1 Private Limited (H.G. Raipur Visakhapatnam AP-1 Private Limited and H.G. Rewari Bypass Private Limited as at March 31, 2024) is with respect to limits availed by it. These amounts will be payable in case of default by the respective subsidiary. As of the reporting date, the subsidiary companies has not defaulted and hence, the Holding Company does not have any present obligation to third parties in relation to such guarantee.

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risks i.e. interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and creditors for capital expenditures.

(a) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates is insignificant and relates primarily to the Company's creditors for capital expenditures. The Company's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Company's policies. As at March 31, 2025, Company's foreign currency exposure amounts to ₹ NIL (March 31, 2024 ₹ 47.90 Million).

1. Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period, expressed in Euro are as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Financial liabilities		
Euro (In Million)	-	0.53
Term Loan	-	47.90
Exposure to foreign currency risk (liabilities)	-	47.90

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

2. Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in Euro exchange rates with all other variables held constant.

Particulars	Change in Euro rate	Year ended March 31, 2025	Year ended March 31, 2024
Increase in exchange rate	5%	-	(2.40)
Decrease in exchange rate	5%	-	2.40

The Change in exchange rates does not affect the components of other equity.

(b) Interest Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to risk of changes in market rate is limited to short term working capital loans at variable rate taken from banks as the Company's long term borrowings bear fixed interest rate.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company manages the interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

1. Interest rate exposure

Particulars	Weighted average interest rate		As at March 31, 2025	As at March 31, 2024
	As at March 31, 2025	As at March 31, 2024		
Variable rate borrowings	9.22	8.43	4,041.24	687.44
Fixed rate borrowings	8.14	8.14	6,637.95	3,824.63
Total borrowings			10,679.19	4,512.07

An analysis by maturities is provided in liquidity risk note above.

2. Sensitivity

Profit or loss is sensitive to higher / lower interest expense as a result of changes in interest rates. A 20 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. With all other variables held constant, the Company's profit before tax will be impacted by a change in interest rate as follows:

Particulars	Increase / (Decrease) in profit before tax	
	Year ended March 31, 2025	Year ended March 31, 2024
Increase in interest rate by 20 basis points (20 bps)	(8.20)	(4.05)
Decrease in interest rate by 20 basis points (20 bps)	8.20	4.05

Note 41 - Capital Management

(a) Risk Management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company and borrowings.

The Company aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets.

The Company's aim is to translate profitable growth to superior cash generation through efficient capital management. The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

The Code on Social Security 2020

The Code on Social Security 2020 ('the Code') relating to employee benefits, during the employment and post-employment, has received Presidential assent on September 28, 2020. The Code has been published in the Gazette of India. Further, the Ministry of Labour and Employment has released draft rules for the Code on November 13, 2020. However, the effective date from which the changes are applicable is yet to be notified and rules for quantifying the financial impact are also not yet issued.

The Company will assess the impact of the Code and will give appropriate impact in the financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

(b) Defined Benefit Obligations:

Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Contributions are made to a gratuity based upon actuarial valuation done at the year end of every financial year using "Projected Unit Credit" method. The charge on account of provision for gratuity has been included in Employee Benefits Expense in the Statement of Profit and Loss except remeasurements i.e. actuarial gains and losses and the return on plan assets, included in other comprehensive income.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to increase and decrease in the weighted principal assumptions by 0.50% is as below:

Particulars	Year ended March 31, 2025		Year ended March 31, 2024	
	Discount	Salary escalation	Discount	Salary escalation
Impact of increase in 50 BPS on DBO	(1.55)	1.76	(1.17)	1.34
Impact of decrease in 50 BPS on DBO	1.59	(1.73)	1.20	(1.32)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(iii) The major categories of plans assets are as follows:

The plan asset for the funded gratuity plan is administered by Life Insurance Corporation of India ('LIC'), Aditya Birla Sun Life Insurance Company Limited (ABSLI) & SBI Life Insurance Company Limited ('SBI Life') as per the investment pattern stipulated for Pension and Group Schemes fund by Insurance Regulatory and Development Authority regulations i.e. 100% of plan assets are invested in insurer managed fund. Quoted price of the same is not available in active market.

(iv) Risk Exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Demographic Risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Asset volatility : The defined benefit plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. 100% of the plan asset investments is in insurer managed funds. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimise risk to an acceptable level.

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation.

Notes forming part of the Standalone Financial Statement

as at and for the year ended March 31, 2025

Interest-Rate Risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

(v) Defined Benefit Obligations and Employer Contributions

The Company considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly.

Expected contributions to defined benefit plans for the year ending March 31, 2025 are ₹ 143.92 Million (March 31, 2024 ₹ 99.79 Million).

The weighted average duration of the defined benefit obligation is 3.06 years (March 31, 2024: 3.04 years). The expected maturity analysis of undiscounted gratuity is as follows:

Maturity Analysis of the Projected Benefit Obligations - Gratuity

(c) Indirect tax demand disputed in appeals	886.37	100.75

(d) The Company has evaluated the impact of the Supreme Court (SC) judgement dated February 28, 2019 in case of "Vivekananda Vidyamandir And Others Vs The Regional Provident Fund Commissioner (II) West Bengal" and the related circular (Circular No. C-I/1(33)2019/Vivekananda Vidya Mandir/284) dated March 20, 2019 issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. In the assessment of the management, the Company believes that the aforesaid judgement does not have material impact on the Company. The Company will continue to monitor and evaluate its position based on future events and developments.

To the Members of **H.G. Infra Engineering Limited**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **H.G. Infra Engineering Limited** ("the Company"), which includes a jointly controlled operation consolidated on proportionate basis (hereinafter together referred to as the "Holding Company"), its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its associates (Refer Note 52 to consolidated financial statements), which comprise the Consolidated Balance Sheet as at March 31, 2025 and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including material accounting policy information and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of reports of other auditors on separate audited financial statements and on the other financial information of subsidiaries and jointly controlled operation, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of their consolidated state of affairs of the Group and its associates as at March 31, 2025, its consolidated

total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group and its associates in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by Institute of Chartered Accountant of India ("ICAI"), and the relevant provisions of the Act and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us and the other auditors in terms of their reports referred to in the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended March 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Our audit procedures in respect of this area included the following:
1. Estimation of contract cost and revenue recognition. (Refer to note 1 (vi) (a), 2 (d), 29 and 54) of the Consolidated Financial Statements) Revenue from construction contracts is recognised over a period of time in accordance with the requirements of Ind AS 115, 'Revenue from Contracts with Customers'. The contract revenue amounts to ₹ 47,670.56 Million for engineering, procurement and construction contracts, which usually extends over a period of 2-3 years, and	i. Evaluated the accounting policy for revenue recognition and assessed compliance of the policy with the principles enunciated under Ind AS 115 - 'Revenue from Contracts with Customer'. ii. Understood and evaluated the design and implementation, and tested the operating effectiveness of key internal financial controls, including those related to review and approval of estimated costs and review of provision for foreseeable losses, if any, by the authorised representatives.

Key Audit Matter	Our audit procedures in respect of this area included the following:
the contract prices are fixed and, in few cases, subject to clauses with price variances and variable consideration. In accordance with Input method prescribed under Ind AS 115, the contract revenue is measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total costs. This method requires the Company to perform an initial assessment of total estimated cost and reassess the total construction cost at the end of each reporting period to determine the appropriate percentage of completion. The estimation of total cost to complete the contract involves significant judgement and estimation throughout the period of contract, as it is subject to revision as the contract progresses - based on latest available information including physical work done on the ground, changes in cost estimates and need to accrue provision for onerous contracts, if any. Besides recognition of revenues based on actual costs and estimated costs to complete the work, at the period end, the measurement and recognition of contract assets (unbilled revenue) and contract liabilities (unearned revenue) related to each of the contracts is also dependent on cost estimates. In view of above, we have considered the estimation of construction contract costs as a key audit matter.	iii. We obtained the revenue workings (percentage of completion calculations) from the Company's management, for all contracts, containing costs incurred, estimated costs (comprising of actual costs and remaining costs to completion), estimated contract revenue and actual revenues recognised during the year based on proportion of actual costs to estimated costs. For sample of contracts, we agreed contract revenue with key contractual terms, agreed actual costs with system generated reports and agreed estimated costs with costs sheets for individual contracts approved by the authorised representatives. Reperformed the calculation of revenues during the year using proportion of actual costs to estimated costs and compared the results with workings provided by the Company. iv. For actual costs incurred during FY 2024-25, we tested the samples to appropriate supporting documents. v. To validate the remaining costs to completion, for sample contracts, we obtained the approved costs sheets (for each of such sample contracts) containing the breakdown of such costs. Evaluated the reasonableness of management's judgements and assumptions through comparison of actual margins during the year with base margins estimated at the beginning, comparison between financial progress (proportion of actual costs to estimated costs) and physical progress certified by the Independent Engineer, past trends of recovery of price escalation with incremental costs incurred and comparison of actual costs within similar contracts. vi. Assessed the adequacy and appropriateness of the disclosures made in consolidated financial statements in compliance with the requirements of Ind AS 115.
2. Valuation of accounts receivable and contract assets in view of risk of credit losses. (Refer note 1 (xii), 2(e), 40(i), 7 and 11 – Trade Receivables and Note 16(a) for contract asset to Consolidated Financial Statements) Accounts receivable and Contract assets are significant items in the Group's consolidated financial statements aggregating to ₹ 21,845.28 Million as of March 31, 2025 and provision for impairment of receivables and contract assets amounted to ₹ 631.98 Millions as at March 31, 2025. The Group has a concentration of credit exposure on certain customers, which include government and private organisations, where there are delays in collections due to various reasons. The management periodically assesses the adequacy of provisions recognised, as applicable, on receivables and contract assets, based on	i. Understood and evaluated the design and tested the operating effectiveness of key internal financial controls in relation to determination of expected credit loss. ii. Obtained confirmation from parties, for sample balances, with respect to outstanding balances. Wherever confirmations are not received for the samples, performed alternate procedures through verification of invoices approved by the respective customers which represents acknowledgement of work delivered. iii. Performed inquiry procedures with senior management of the Holding Company regarding status of collectability of the receivable and contract assets. iv. In respect of material contract balances, corroborated our inquiry procedures with the correspondence between the respective Companies included in the Group and their customers, contracts and other documents.

Key Audit Matter	Our audit procedures in respect of this area included the following:
factors such as credit risk of the customer, status of the project, discussions with the customers and underlying contractual terms and conditions. This involves significant judgement. Given the relative significance of these receivables and contract assets to the consolidated financial statements and the nature and extent of audit procedures involved to assess the recoverability of receivables and contract assets, we determined this to be a key audit matter.	v. Assessed the inputs used by the Management to determine the amount of allowances by considering factors such as credit risk of the customer, cash collections, past history and status of the project, and correspondence with customers. vi. Presented the results of our work done to the audit committee. vii. Assessed the adequacy and appropriateness of the disclosures made in the consolidated financial statements in this regard.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group and its associates in accordance with

the accounting principles generally accepted in India, including the Indian Accounting Standards ("IND AS") specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of their respective companies and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the respective companies or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for overseeing the financial reporting process of the respective companies.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the consolidated financial statements.

Other Matters:

a. We did not audit the financial information of one jointly controlled operation (incorporated as Association of Persons (AOP), dissolved w.e.f January 9, 2025) included in the standalone financial statements of the Holding Company, whose financial statements reflect Group's share of total revenues (before consolidation adjustments) of ₹ 0.04 Million, Group's share of total net profit/(loss) after tax (before consolidation adjustments) of ₹ (0.04) Million and Group's share of total comprehensive income (before consolidation adjustments) of ₹ (0.04) Million for the period ended April 1, 2024 to January 9, 2025 (being its date of dissolution), and Group's share of net cash inflows (before consolidation adjustments) of ₹ 0.48 Million as considered in the consolidated financial statements. The financial information has been audited by other auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this jointly controlled operation, is based solely on the report of the other auditor and the procedures performed by us as stated in the paragraph above.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

b. We did not audit the financial statements of eighty five subsidiaries, whose financial statements reflect total assets (before consolidation adjustments) of ₹ 53,129.11 Million as at March 31, 2025, total revenues (before consolidation adjustments) of ₹ 21,419.25 Million, total net profit/(loss) after tax

(before consolidation adjustments) of ₹ 1,596.74 Million and total comprehensive income (before consolidation adjustments) of ₹ 1,596.74 Million, for the year ended March 31, 2025 and net cash flows amounting to ₹ 524.09 for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, is based solely on the reports of the other auditors and the procedures performed by us as stated in the paragraph above.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditors.

c. We did not audit the special purpose financial statements of one subsidiary disposed off during the year, whose financial statements reflect total revenues (before consolidation adjustments) of ₹ 824.94 Million, net profit/(loss) after tax (before consolidation adjustments) of ₹ 108.01 Million and total comprehensive income (before consolidation adjustments) of ₹ 108.01 Million for the period from April 1 2024, to February 20, 2025 (i.e. the date of disposal) and net cash inflows of ₹ 372.19 Million for the period ended as on that date, as considered in the consolidated financial statements. These special purpose financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, is based solely on the reports of the other auditor and the procedures performed by us as stated in the paragraph above.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditors.

d. The financial statements of a subsidiary, whose financial statements reflect total assets (before consolidation adjustments) of ₹ 1.51 Million as at March 31, 2025, total revenues (before consolidation adjustments) of ₹ Nil, net profit/(loss) after tax (before consolidation adjustments) of ₹ (0.07) Million and total comprehensive income (before consolidation adjustments) of ₹ (0.07) Million for the period from February 5, 2025 (i.e. the date of its incorporation) to March 31, 2025, and net cash inflows of ₹ 1.50

Million for the year ended as on that date, are included in these consolidated financial statements. The financial statements of this subsidiary has been audited solely by one of the joint auditors of the Holding Company, whose report on such financial statements has been furnished to us and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of sub-section (3) of Section 143 of the Act, is based solely on the report of such joint auditor.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the report of one of the joint auditors.

- e. The financial statements of twelve subsidiaries, whose financial statements reflect total assets (before consolidation adjustments) of ₹ 3,067.03 Million as at March 31, 2025, total revenues (before consolidation adjustments) of ₹ 12.42 Million, net profit/(loss) after tax (before consolidation adjustments) of ₹ (3.94) Million and total comprehensive income (before consolidation adjustments) of ₹ (3.94) Million for the year ended March 31, 2025, and net cash inflows of ₹ 8.67 Million for the year ended as on that date, are included in these consolidated financial statements. The financial statements of these subsidiaries have been audited solely by one of the joint auditors of the Holding Company, whose reports on such financial statements have been furnished to us and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, is based solely on the reports of such joint auditor.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the report of one of the joint auditors.

- f. The consolidated financial statements also include the Group's share of net profit/(loss) after tax (before consolidation adjustments) of ₹ 15.27 Million and total other comprehensive income (before consolidation adjustments) of ₹ 15.27 Million for the year ended March 31, 2025, in respect of two associates. The financial information of these associates are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these associates, is based solely on such unaudited financial information as certified by the Management. In our opinion and according to the

information and explanations given to us by the Management, the financial information of these associates is not material to the Group.

Our opinion is not modified with respect to the financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure B", a statement on the matter specified in paragraph 3(xxi) of CARO 2020 based on the consideration of the reports issued by us and by the respective other auditors as mentioned in "Other Matters" section above of the companies included in the consolidated financial statements and covered under the Act, to the extent applicable.
2. As required by Section 143(3) of the Act, based on the consideration of the reports issued by us and by other auditors as mentioned in "Other Matters" section above of the companies included in the consolidated financial statements and covered under the Act, we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except
 - i. for the matters in respect of audit trail as stated in paragraph 2(h)(vi) below; and
 - ii. that in case of the Company, the backup of the books of account and other books and papers maintained in electronic mode, has not been kept in servers physically located in India on a daily basis as the backup server is outside India.
 - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with

the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- d. In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors of the Company and its subsidiaries audited by us, as on March 31, 2025, taken on record by the respective Board of Directors of such companies and the reports of the auditors of subsidiary companies (referred to in Paragraph (b) of “Other Matters” section above), none of the directors of the Holding Company and its subsidiaries are disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. The modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(h)(vi) below on reporting under Rule 11(g).
 - g. With respect to the adequacy of internal financial controls with reference to the consolidated financial statements of the Holding Company and its subsidiaries and the operating effectiveness of such controls, refer to our separate report in “**Annexure C**”.
 - h. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditor’s) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. (Refer Note 47 to the consolidated financial statements);
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts. (Refer Note 16(a) to the consolidated financial statements);
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group;
- iv. 1. On the basis of reports of other auditors of subsidiaries (as referred in “Other Matters” section above) and the respective management of the Company and its subsidiaries, whose financial statements have been audited by us, have represented to us that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of its subsidiaries to or in any other persons or entities, including foreign entities (“Intermediaries”) with the understanding, whether recorded in writing or otherwise, as on the date of this audit report, that such parties shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of its subsidiaries (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 2. On the basis of reports of other auditors of subsidiaries (as referred in “Other Matters” section above) and the respective management of the Company and its subsidiaries, whose financial statements have been audited by us, have represented that, to the best of their knowledge and belief, no funds have been received by the Holding Company or any of its subsidiaries, from any persons or entities, including foreign entities (“Funding Parties”) with the understanding, whether recorded in writing or otherwise, as on the date of this audit report, that the Holding Company or any of its subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 3. Based on the audit procedures, that have been considered reasonable and appropriate in the circumstances,

performed by us and those performed by the other auditors of the subsidiaries and according to the information and explanations provided to us by the Management of the Company in this regard, nothing has come to our or other auditors' notice that has caused us or the other auditors believe that the representations under sub-clause (1) and (2) contain any material misstatement;

- v. The dividend declared and paid during the year by the Holding Company is in compliance with Section 123 of the Act.
- vi. a. Based on our examination which included test checks, the Company has used a software and certain SAAS based applications (related to processing of leave and travel related data of employees, vendor registration and inviting quotations for few materials to be procured or scrapped) for maintaining its books of accounts. The software has a feature of recording audit trail (edit log) facility, except that audit trail feature was not enabled throughout the year for certain relevant tables and also, was not enabled at the database level to log any direct changes. Also, we were not able to verify this aspect in SAAS based applications as no underlying evidence, related to audit trail (edit log) facility, could be arranged by the Company from the service providers who manage these applications.

Further, wherever enabled, the audit trail feature has operated for the

relevant transactions recorded in the software. Also, during the course of our audit, we did not come across any instance of the audit trail feature being tampered with, in respect of such software. Additionally, the audit trail feature of previous year has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in respective years.

Based on the reports of other auditors of subsidiaries (referred to in "Other Matters" section above), the subsidiaries have used accounting softwares for maintaining their respective books of account for the year ended March 31, 2025 which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective softwares. Based on reports of other auditors, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail of previous year has been preserved by the subsidiaries as per the statutory requirements for record retention.

3. In our opinion and based on the reports of auditors of the subsidiaries (as referred in "Other Matters" section above), according to information and explanations given to us, the remuneration paid/provided by the Company and its subsidiaries to their respective directors is within the limits prescribed under Section 197 read with Schedule V of the Act and the rules thereunder.

Annexure A to the Independent Auditor's Report of even date on the **Consolidated Financial Statements of H.g. Infra Engineering Limited**

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the respective Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material

uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of the entities or business activities within the Group and its associates to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in the "Other Matters" section of our Audit Report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters,

the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure C to the Independent Auditor's Report of even date on the Consolidated Financial Statements of H.g. Infra Engineering Limited

[Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section in the Independent Auditors' Report of even date to the Members of H.G. Infra Engineering Limited on the consolidated Financial Statements for the year ended March 31, 2025]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

In conjunction with our audit of the consolidated financial statements of **H.G. Infra Engineering Limited** (hereinafter referred to as "the Company") as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiaries, which are companies incorporated under the Act, as of that date. Reporting under clause (i) of sub section 3 of the Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is not applicable to two associates (Safety First Engineering Private Limited and Safety First (Partnership Firm)) and one jointly controlled operation (HGIEL-MGCPL (JV)), pursuant to MCA notification GSR 583(E) dated 13th June, 2017.

In our opinion, and to the best of our information and according to the explanations given to us, the Company and its subsidiaries, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal financial controls with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI").

Management's and Board of Director's Responsibility for Internal Financial Controls

The respective Management and the Board of Directors of the Company and its subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note issued by ICAI. These responsibilities include the design, implementation and

maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements include obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the "Other Matter" section below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Group.

Meaning of Internal Financial Controls With Reference to Financial Statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

- (a) Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to –
- Eighty five subsidiaries, it is based on the corresponding reports of the statutory auditors of such companies; and
 - Twelve subsidiaries, it is based on the corresponding reports of one of the joint auditors of the Company; and
 - One subsidiary, it is based on the corresponding report of one of the joint auditors of the Company.

Our opinion is not modified in respect of the above matter with respect to our reliance on the work done and the reports of one of the joint auditors.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

Background

H.G. Infra Engineering Limited (the “Holding Company” or the “Company”) is a Public Limited Company listed on the Bombay Stock Exchange and National Stock Exchange on March 9, 2018. Its registered office is at 14, Panchwati Colony, Ratanada, Jodhpur – 342001, Rajasthan, India. The Parent Company (including 1 jointly controlled operations consolidated on proportionate basis), 99 subsidiaries together referred to as “the Group”. The Company also has 2 associates.

The Group operates through two business segments, which primarily comprises of (a) Construction segment - Engineering, Procurement and Construction (‘EPC’) of roads, railway lines and stations, bridges, flyovers, solar powered plants and other infrastructure contract works and corresponding operations and maintenance (‘O&M’), and (b) Renewable segment – Engaged into the business of generation and sale of electricity.

The Group is engaged in projects under Hybrid Annuity Model through its Subsidiary Companies. For renewable segment, the Group has incorporated its subsidiaries which are awarded Power Purchase Agreements (PPA) from the respective customers.

These consolidated financial statements were reviewed by Audit Committee and authorized to be issued by the Board of Directors on May 21, 2025.

A. Basis of preparation

(i) Compliance with Ind AS

The consolidated financial statements of the Group comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (‘the Act’) read with Rule 4 of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and financial liabilities measured at fair value (refer accounting policy regarding financial instruments);
- Assets held for sale – measured at fair value less cost to sell and

- Defined benefit plans - plan assets measured at fair value

(iii) New and amended standards adopted by the Group

The Ministry of Corporate Affairs (‘MCA’) vide notification dated September 9, 2024 and September 28, 2024 notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024 and Companies (Indian Accounting Standards) Third Amendment Rules, 2024, respectively, which amended/ notified certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 1, 2024:

1. Insurance contracts - Ind AS 117 :

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after April 1, 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

A specific adaptation for contracts with direct participation features (the variable fee approach)

A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Group’s consolidated financial statements as it has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

2. Lease Liability in Sale and Leaseback – Amendments to Ind AS 116 :

The MCA notified the Companies (Indian Accounting Standards) Second Amendment

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after April 1, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendment does not have a material impact on the Group's consolidated financial statements.

3. Amendments to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements :

During the year, the MCA issued amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

As a result of implementing the amendments, the Group has provided additional disclosures about its supplier finance arrangement. Refer note 25.

4. Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current :

During the year, the MCA issued amendments to paragraphs 69 to 76 of Ind AS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right

- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The amendments do not have an impact on the classification of Group's liabilities.

(iv) New Standards (including amendments) issued but not yet effective

MCA notifies new standards or amendments to existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On May 9, 2025, MCA notified the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 1, 2025. The Group is currently assessing the probable impact of these amendments on its consolidated financial statements.

B. Operating Cycle

The Group classifies an asset as current when:

- it expects to realise the asset or intends to sell or consume it in normal operating cycle
- it holds the asset primarily for the purpose of trading
- it expects to realise the asset within twelve months after the reporting period or
- the asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

The Group classifies a liability as current when:

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

- it expects to settle the liability in its normal operating cycle
- it holds the liability primarily for the purpose of trading
- the liability is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

Based on the nature of operations and the time between the acquisition of assets for processing and their realization in cash or cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current, non current classification of assets and liabilities.

1 Material Accounting Policies

This note provides a list of the material accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

i. Principles of consolidation and equity accounting - Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date when control ceases.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities,

equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated (Refer Note 58). Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group. Details of the Subsidiaries are set out in Note 52.

Non-controlling interests

The Group recognises non-controlling interests in an acquired entity either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. This decision is made on an acquisition-by-acquisition basis. For the non-controlling interests, the Group elected to recognise the non-controlling interests at its proportionate share of the acquired net identifiable assets.

ii. Principles of consolidation and equity accounting - Jointly controlled operation

The Holding Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the standalone financial statements of Holding Company under the appropriate headings. Details of the jointly controlled operations are set out in Note 52.

iii. Principles of consolidation and equity accounting - Accounting under Equity method for Associates Entities

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associate are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in Note 1(xiii)(iii) below.

iv. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Managing Director of the Holding Company has been identified as CODM and he assesses the financial performance and position of the Holding Company, and makes strategic decisions. Refer Note 42 for segment information presented.

v. Foreign currency translation

(i) Functional and presentation currency

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Holding Company operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee, which is Holding Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange

rates are generally recognized in Consolidated Statement profit or loss.

vi. Revenue recognition

The Group derives revenue principally from following streams:

- Construction contracts
- Service concession arrangement
- Sale of Services (Operation and Maintenance contracts)
- Sale of Power

a) Construction contracts

The Group recognises revenue from engineering, procurement and construction contracts ('EPC') over the period of time, as performance obligations are satisfied over time due to continuous transfer of control to the customer. EPC contracts are generally accounted for as a single performance obligation as it involves complex integration of goods and services.

The performance obligations are satisfied over time as the work progresses. The Group recognises revenue using input method (i.e. percentage-of-completion method), based primarily on contract cost incurred to date compared to total estimated contract costs. Changes to total estimated contract costs, if any, are recognised in the period in which they are determined as assessed at the contract level. If the consideration in the contract includes price variation clause or there are amendments in contracts, the Group estimates the amount of consideration to which it will be entitled in exchange for work performed.

Due to the nature of the work required to be performed on many of the performance obligations, the estimation of total revenue and cost of completion is complex, subject to many variables and requires significant judgment. Variability in the transaction price arises primarily due to liquidated damages, price variation clauses, changes in scope, incentives, if any. The Group considers its experience with similar

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

transactions and expectations regarding the contract in estimating the amount of variable consideration to which it will be entitled and determining whether the estimated variable consideration should be constrained. The Group includes estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved. The estimates of variable consideration are based largely on an assessment of anticipated performance and all information (historical, current and forecasted) that is reasonably available.

Progress billings are generally issued upon completion of certain phases of the work as stipulated in the contract. Billing terms of the over-time contracts vary but are generally based on achieving specified milestones. The difference between the timing of revenue recognised and customer billings result in changes to contract assets and contract liabilities. Payment is generally due upon receipt of the invoice, payable within 90 days or less. Contractual retention amounts billed to customers are generally due upon expiration of the contract period.

The contracts generally result in revenue recognised in excess of billings which are presented as contract assets on the statement of financial position. Amounts billed and due from customers are classified as receivables on the statement of financial position. The portion of the payments retained by the customer until final contract settlement is not considered a significant financing component since it is usually intended to provide customer with a form of security for Group's remaining performance as specified under the contract, which is consistent with the industry practice. Contract liabilities represent amounts billed to customers in excess of revenue recognised till date. A liability is recognised for advance payments and it is not considered as a significant financing component because it is used to meet working capital requirements at

the time of project mobilisation stage. The same is presented as contract liability in the statement of financial position.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in Consolidated Statement of profit or loss in the period in which the circumstances that give rise to the revision become known by management.

For construction contracts the control is transferred over time and revenue is recognised based on the extent of progress towards completion of the performance obligations. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately. The percentage of completion was calculated according to the nature and the specific risk of each contract in order to reflect the effective completion of the project. This percentage of completion could be based on technical milestones or as per the contractual terms specified. A construction contract is considered completed when the last technical milestone is achieved, which occurs upon contractual transfer of ownership of the asset.

b) Service concession arrangement

Construction revenue from Hybrid Annuity Contracts

The Group constructs the infrastructure (road) used to provide a public service and operates and maintains that infrastructure for a specified period of time. Under Appendix D to Ind AS 115, Revenue from Contracts with Customers, this arrangement is accounted for based on the nature of the consideration. Financial asset is recorded when the Group has an unconditional right to receive cash or another financial asset from or at the direction of the grantor for the construction services.

Design - Build - Operate - Transfer (DBOT) contracts on hybrid annuity basis contain three streams of revenue – Construction

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

revenue, Finance income and Operations and maintenance (O&M) income.

The construction stream of DBOT revenues are accounted for in the construction phase of DBOT, O&M income is recognised in the operating phase of the DBOT, while finance income is recognised over the concession period based on the imputed interest method.

Service concession arrangement

Revenue related to construction services provided under the service concession arrangement is recognised based on stage of completion of the work performed. The stage of completion is assessed by reference to input method i.e. cost incurred till date in proportion to total estimated cost to complete the work.

Contract Balances - Contract Assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If respective entities in the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract assets represent revenue recognized in excess of amounts billed and include unbilled receivables. Unbilled receivables, which represent an unconditional right to payment subject only to the passage of time, are reclassified to accounts receivable when they are billed under the terms of the contract.

Contract Balances - Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which respective entities in the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the such entities transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when such entities in performs

under the contract. Contract liabilities represent amounts billed to clients in excess of revenue recognized to date and other advances received from customers.

Variable consideration

The nature of the Group's contracts gives rise to several types of variable consideration, including claims, unpriced change orders, award and incentive fees, change in law, liquidated damages and penalties. The respective entities in Group recognizes revenue for variable consideration when it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The Group estimates the amount of revenue to be recognized on variable consideration using the expected value (i.e., the sum of a probability-weighted amount) or the most likely amount method, whichever is expected to better predict the amount.

The respective entities in Group claim for extra work, incentives and escalation in rates relating to execution of contracts are recognized as revenue in the year in which said claims are finally accepted by the clients. Claims under arbitration/disputes are accounted as income based on final award. Expenses on arbitration are accounted as incurred.

Before including any amount of variable consideration in the transaction price, the respective entities considers whether the amount of variable consideration is constrained. The respective entities determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

Revenues are shown net of Goods & Service Tax, applicable discounts and allowances.

c) Sale of Services (Operation and Maintenance contracts)

Revenue from providing operating and maintenance services is recognised in the accounting period in which the services

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

are rendered. Invoices are issued according to contractual terms and are usually payable as per the credit period agreed with the customer.

d) Interest income

Interest income from financial assets at fair value through profit or loss is disclosed as interest income with in other income. Interest income on financial assets at amortised cost using the effective interest method is recognised in the Consolidated Statement of profit and loss as part of other income.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

e) Other income

All other income is accounted on accrual basis when no significant uncertainty exist regarding the amount that will be received.

f) Sale of Power

Revenue from sale of power from renewable energy sources is recognised in accordance with the price agreed under the provisions of the Power Purchase Agreement entered into with DISCOM (the “customer”). Such revenue is recognised on the basis of actual units generated and transmitted.

Revenue from power distribution business is accounted on the basis of billings to the customer(s) and includes unbilled revenues accrued up to the end of accounting year. Customers are billed as per the tariff rates in the Power Purchase Agreement.

Late Payment Surcharge and interest on late payment for power supply are recognized on reasonable certainty to expect ultimate collection or otherwise based on actual collection, whichever is earlier.

vii. Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses / tax credits only if it is probable that future taxable amounts will be available to utilise those temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the respective entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in Consolidated Statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

viii. Government Grants

In accordance with IND AS-20, Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in the statement of profit and loss on a systematic basis over the years in which the Group recognises as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

Government grants and subsidies whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the balance sheet which is disclosed as deferred government grant receivable and transferred to the Statement of profit and loss on a systematic basis over the expected useful life of the related assets. Government grants and subsidies related to the income are deferred which is disclosed as deferred revenue arising from government grant in the balance sheet and recognised in the statement of profit and loss as an income in the period in which related obligations are met.

ix. Leases

As a lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by Group, which does not have recent third party financing, and makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to Consolidated Statement of profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

Short term lease and Low value assets

Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in Consolidated Statement of profit and loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

x. Impairment of non-financial assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

xi. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the Consolidated balance sheet.

xii. Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently

at amortised cost using the effective interest method, less loss allowance.

xiii. Inventories

Inventories are stated at lower of cost and net realizable value.

Cost of raw material, stores and spare parts and construction materials includes cost of purchases and other cost incurred in bringing the inventories to the present location and condition. Cost is determined using rolling weighted average method.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to complete the contract.

xiv. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial Assets:

Classification

The Group classifies its financial assets in the following measurement categories:

- amortized cost
- fair value through other comprehensive income;
- fair value through profit or loss

The classification depends on the business model for managing the financial assets and the contractual terms of the cash flows.

Initial recognition and measurement

Financial assets are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Consolidated Statement of Profit or Loss, transaction costs that are attributable to the acquisition of the financial asset.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

Transaction costs of financial assets carried at fair value through profit or loss are expensed of in the Consolidated Statement of Profit or Loss.

Subsequent measurement

After initial recognition, financial assets are measured at:

- amortized cost
- fair value through other comprehensive income;
- fair value through profit or loss

The Classification depends on business model for managing the financial assets and the contractual terms of cash flows.

(i) Financial assets measured at amortised cost:

Assets that are held for collecting contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using effective interest rate method. Any gain or loss arising on derecognition is recognised directly in Consolidated Statement of profit or loss and presented in other gain/(losses).

(ii) Financial assets measured at Fair Value through Other Comprehensive Income ("FVTOCI"):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains of losses, interest income and foreign exchange gains and losses which are recognised in Consolidated Statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in

other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in Consolidated Statement of profit and loss.

(iii) Financial assets measured at Fair Value through Profit or Loss ("FVTPL"):

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in Consolidated Statement of profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Debt instruments

Subsequent measurement of debt instruments depends on the Group business model for managing the asset and the cash flow characteristics of the asset. Debt instrument are classified as amortised cost instruments.

Impairment of Financial Assets

The Group assesses on a forward looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 40(i) details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables (including contract assets), the Group applies the simplified approach required by Ind AS 109, which requires lifetime ECL to be recognised as loss allowances.

Derecognition of Financial Assets

A financial asset is derecognized only when:

- the Group has transferred the rights to receive cash flows from the financial asset or

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the Group has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the entity has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Financial Liabilities:

Initial recognition and measurement

Financial liabilities are initially measured at its fair value plus or minus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the issue/origination of the financial liability.

Subsequent Measurement

Financial liabilities are classified as measured at amortized cost. Financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in Consolidated Statement of profit and loss. Any gain or loss on derecognition is also recognized in Consolidated Statement of profit and loss.

Derecognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires. The difference between the carrying amount of a financial liability that has

been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

xv. Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Consolidated Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

xvi. Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Consolidated Statement of profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the written down value (WDV) or Straight Line Method (SLM) over the estimated useful lives of the assets, based on technical evaluation done by management's expert, which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

The Group estimates useful lives of the tangible fixed assets as follows:

Class of Asset	Estimated Useful Life	As per Schedule II	Method of Depreciation
Building	60	60	Straight Line
Solar Powered Plants	30	20	Straight Line
Plant & machinery *	20/15	20	Written Down Value
Shuttering Material	5	5	Straight Line
Computers	3	3	Straight Line
Furniture and fixtures	10	10	Straight Line
Motor cycles	10	10	Written Down Value
Vehicles other than Motor cycle	8	8	Written Down Value
Office Equipment	5	5	Straight Line

Based on the technical experts assessment of useful life of the aforementioned assets, Plant and machinery i.e Cranes are being depreciated over the useful life different from the prescribed useful life under Schedule II of the Companies Act, 2013. Management believes that such estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

* It includes Low value assets (LVA) having useful life of 1 year.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Consolidated Statement of profit or loss within other gains/ (losses). (Also refer Note 37).

xvii. Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any

subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale are presented separately from the other assets in the Consolidated Balance Sheet.

xviii. Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed as incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties have a useful life of 60 years. The useful life has been determined based on technical evaluation performed by the management expert.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

xix. Intangible assets

Costs associated with maintaining software programmes are recognised as an expense as incurred.

Purchases costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Amortisation methods and periods

The Group amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Class of Asset	Estimated Useful Life	As per Schedule II	Method of Depreciation
Computer Software	6	6	Straight Line

xx. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the end of reporting period.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

xxi. Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in Consolidated statement of profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the Consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months from the end of reporting period.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xxii. Provisions and contingent liabilities

Provisions

Provisions are recognised when Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

xxiii. Employee benefits

(i) Short term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Consolidated balance sheet.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

(ii) Other long term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in Consolidated Statement of profit or loss.

The obligations are presented as current liabilities in the Consolidated balance sheet if the group does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The group operates the following post-employment schemes.

- Defined benefit plan i.e. gratuity
- Defined contribution plans such as provident fund, superannuation etc.

Gratuity obligations (Also, Refer Note 2 (b))

The liability or asset recognized in the Consolidated balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Consolidated Statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the Consolidated balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in Consolidated Statement of profit or loss as past service cost.

Defined contribution plans

The Group pays contribution to defined contribution schemes such as provident fund etc. The group has no further payment obligation once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

Bonus plans

The Group recognises a liability and an expense for bonus. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

xxiv. Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

xxv. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Group, on or before the end of the reporting period but not distributed at the end of the reporting period.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

xxvi. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the Group; and
- By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

xxvii. Rounding of amounts

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest million as per the requirement of Schedule III, unless otherwise stated.

2 Critical estimates and judgements

The preparation of the consolidated financial statements requires use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgements or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the consolidated financial statements.

The areas involving critical estimates or judgements are:

(a) Estimation of useful life of Property, plant and equipment

The Group estimates the useful life of the Property, plant and equipment as mentioned in Note 1(xvi) above, which is based on the expected technical obsolescence of such assets. However, the actual useful life may be shorter or longer than the life estimated, depending on technical innovations and competitor actions.

(b) Estimation of defined benefit obligation

The cost of the defined benefit gratuity plan and other post-employment employee benefits and the present value of the gratuity obligation

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases

are based on expected future inflation rates for the respective countries. Refer Note 45 for key actuarial assumptions.

(c) Estimation of fair value of level 3 financial instruments

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. Refer Note 39 on fair value measurements where the assumptions and methods to perform the same are stated.

(d) Revenue recognition for construction contract - Refer Note 1(vi) and Note 54

(e) Impairment of trade receivables (including Contract Assets) – Refer Note 1(xii) and 7,11, 16(a) and 39(i)

Estimation of fair value

The fair valuation is based on current prices in the active market for similar properties. Where such information is not available, the Group considers information from a variety of sources including:

- Current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences
- Discounted cash flow projections based on reliable estimates of future cash flows
- Capitalised income projections based upon a property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence.

The Group has obtained independent valuations report of investment properties from registered valuers as defined under rule 2 of Companies (Registered Valuers & Valuation) Rule, 2017. The main inputs used are quantum, area, location, demand, rental growth rates, expected vacancy rates, terminal yields and discount rates.

(b) Terms and rights attached to equity shares

The Group has only one class of equity shares having face value of ₹ 10 per share. Accordingly, all equity rank equally with regard to dividends and share in the Group's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The dividend proposed by the board of directors is subject to the approval of shareholders in annual general meeting. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital that has not been paid. On winding up of the Group, the holders of equity shares will be entitled to receive the residual assets of the Group, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Supplier financing arrangement

The Group implemented a supplier financing program available to its suppliers. Participation in this program is voluntary for suppliers. Suppliers opting into this arrangement are eligible to receive early payment for invoices issued to the Group through a third party financial institution. The suppliers pay a fee and/or interest to the financial institution for this early payment service. To authorise early payments, the Group must first verify that the goods or services have been received and that the related invoices have been approved. The financial institution processes early payments before the original invoice due date. Regardless of early payment, the Group settles the full invoice amount directly with the financial institution based on the original payment terms. This arrangement does not alter the existing payment terms with suppliers.

The trade payables subject to the supplier financing program described above are included in trade payables in the Consolidated balance sheet:

(ii) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are measured at amortised cost and for which fair values are disclosed in the consolidated financial statements.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes instruments like listed equity instruments, traded bonds and mutual funds that have quoted price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives etc) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is in the case of unlisted securities.

The carrying amounts of short term loans, trade receivables, cash and cash equivalents, bank balances other than cash and cash equivalents, other receivables, trade payables, current borrowings, interest accrued, capital creditors and other payables are considered to be the same as their fair values due to their short-term nature. The impact of fair value on other non-current financial assets and non-current financial liabilities (not considered above) is not expected to have material impact on the consolidated financial statements, hence not disclosed above.

The fair value of security deposits were not calculated based on their future cash flows discounted at current lending rate as these security deposits are expected to continue to remain till the existence of the Group.

Note 40 - Financial Risk Management

The Group's activities expose it to a variety of financial risks namely credit risk, liquidity risk and market risk. The Group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

(i) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, receivable under service concession agreement with National Highway Authority of India (NHAI), contract assets, security deposits, deposit with banks, loans, others receivables and cash and cash equivalents.

Impairment of Financial Assets :

The Group has, primarily, four types of financial assets that are subject to expected credit loss model:

1. Trade Receivables for construction contracts
2. Contract Assets relating to construction contracts
3. Receivable under service concession agreement with National Highway Authority of India (NHAI)
4. Loans and Other receivables

While cash and cash equivalents and deposits with banks and financial institutions are subject to impairment requirements of Ind AS 109, the identified impairment on these assets is Nil.

(All amounts are in ₹ million, unless otherwise stated)

For Trade receivables, Receivable under service concession agreement with National Highway Authority of India (NHAI) and Contract assets for construction contracts : Management makes the assessment of the credit risk on trade receivables, receivable under service concession agreement with National Highway Authority of India (NHAI) and contract assets considering the customer profile. Customers of the Group mainly consists of the government promoted entities and some large private corporates. In case of government customers which forms the majority of the revenue credit risk is low.

Considering the nature of business, each contract and its customer is evaluated for the purpose of assessment of loss allowances. The reasons for loss allowances could be recovery of claims, disputes with customer, customers ability to pay, delays in approval by government authorities, and expected time to recover the amount. Management makes an assessment considering the overall nature of collection and facts of each contract, terms of the contract and accordingly considers the need for loss allowances, if any.

For Loans and Other receivable : The Group's investments in debt instruments and certain loans are considered to be low risk investments.

(A) The following table gives details in respect of percentage of revenue generated from government promoted agencies and private corporates:

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Revenue from government promoted agencies	65%	58%
Revenue from private corporates	35%	42%
	100%	100%

The Holding Company secured contracts by submitting bids in response to tenders, related to road development and construction, operation and maintenance of solar-plants, in terms of which it is required to form Special Purpose Vehicle (SPV) Companies (Subsidiary Companies) to execute the awarded projects. As at March 31, 2025 the Holding Company has 62 SPV's (As at March 31, 2024 the Holding Company had 9 SPV's) who have received contracts from government promoted agencies and revenue related to SPV's for work executed by the Holding Company has been grouped in Revenue from government promoted agencies.

(ii) Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price. Group's objective is to, at all time maintain optimum levels of liquidity to meet its financial obligations. The Group manages liquidity risk by maintaining sufficient cash and cash equivalents and by having access to funding through an adequate amount of committed credit lines. In addition, processes and policies related to such risks are overseen by senior management.

Management monitors rolling forecasts of the Group's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at by senior management in accordance with practice and limits set by the Group. These limits take into account the liquidity of the market in which the entity operates. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risks i.e. interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and creditors for capital expenditures.

(a) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates is insignificant and relates primarily to the Group's creditors for capital expenditures. The Group's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Group's policies. As at March 31, 2025, Group's foreign currency exposure amounts to ₹ NIL Million (As at March 31, 2024 ₹ 47.90 Million).

1. Foreign currency risk exposure

The Holding Company's exposure to foreign currency risk at the end of the reporting period, expressed in Euro are as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Financial liabilities		
Euro (In Million)	-	0.53
Term Loan	-	47.90
Exposure to foreign currency risk (liabilities)	-	47.90

2. Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in Euro exchange rates with all other variables held constant.

Particulars	Change in Euro rate	Increase / (Decrease) in profit before tax	
		Year ended March 31, 2025	Year ended March 31, 2024
Increase in exchange rate	5%	-	(2.40)
Decrease in exchange rate	5%	-	2.40

The Change in exchange rates does not affect the components of other equity.

(b) Interest risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to risk of changes in market rate is limited to short term working capital loans at variable rate taken from banks as the Group's long term borrowings bear fixed interest rate.

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Group manages the interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

1. Interest rate exposure

Particulars	Weighted average interest rate		As at March 31, 2025	As at March 31, 2024
	As at March 31, 2025	As at March 31, 2024		
Variable rate borrowings	9.53%	9.25%	34,280.69	12,769.13
Fixed rate borrowings	8.14%	8.14%	6,637.95	2,275.07
Total borrowings			40,918.64	15,044.20

An analysis by maturities is provided in Liquidity risk note above.

2. Sensitivity

Profit or loss is sensitive to higher / lower interest expense as a result of changes in interest rates. A 20 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. With all other variables held constant, the Group's profit before tax will be impacted by a change in interest rate as follows:

Particulars	Increase / (Decrease) in profit before tax	
	Year ended March 31, 2025	Year ended March 31, 2024
Increase in interest rate by 20 basis points (20 bps)	(40.91)	(25.54)
Decrease in interest rate by 20 basis points (20 bps)	40.91	25.54

Note 41 - Capital Management

(a) Risk Management

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group and borrowings.

The Group aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders. The capital structure of the Group is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets.

The Group's aim is to translate profitable growth to superior cash generation through efficient capital management. The Group's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Group will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

Particulars	As at March 31, 2025	As at March 31, 2024

(i) Compensated Absences

The employees of the Group are entitled to compensated absences as per the policy of the Group. However, based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is not expected to be taken or paid within the next 12 months. Accordingly, these compensated absences have been classified as Non current liabilities as at March 31, 2025.

Particulars	As at March 31, 2025	As at March 31, 2024
Current leave obligations not expected to be settled within the next 12 months	46.55	34.79

(All amounts are in ₹ million, unless otherwise stated)

(ii) Post employment obligations

(a) Defined Contribution Plans:

Provident fund

Employers' contribution to employees' pension scheme 1995

Employers' contribution to Employee State Insurance Corporation (ESIC)

The provident fund and pension scheme are operated by regional provident fund commissioner. Under the scheme, the Group is required to contribute a specified percentage of payroll cost to the retirement benefit schemes to fund the benefits.

The Group has recognised the following amounts in the Statement of Profit and Loss for the year:

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Contribution to Provident Fund	60.77	50.90
Contribution to E.S.I.C	9.84	13.18
Contribution to Pension Fund	54.97	46.96
	125.58	111.04

The Code on Social Security 2020

The Code on Social Security 2020 ('the Code') relating to employee benefits, during the employment and post-employment, has received Presidential assent on September 28, 2020. The Code has been published in the Gazette of India. Further, the Ministry of Labour and Employment has released draft rules for the Code on November 13, 2020. However, the effective date from which the changes are applicable is yet to be notified and rules for quantifying the financial impact are also not yet issued.

The Group will assess the impact of the Code and will give appropriate impact in the financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

(b) Defined Benefit Plans:

Gratuity

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Contributions are made to a gratuity based upon actuarial valuation done at the year end of every financial year using "Projected Unit Credit" method. The charge on account of provision for gratuity has been included in Employee Benefits Expense in the Statement of Profit and Loss except remeasurements i.e. actuarial gains and losses and the return on plan assets, included in other comprehensive income.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to increase and decrease in the weighted principal assumptions by 0.50% is as below:

Particulars	Year ended March 31, 2025		Year ended March 31, 2024	
	Discount	Salary escalation	Discount	Salary escalation
Impact of increase in 50 BPS on DBO	(1.55)	1.76	(1.17)	1.34
Impact of Decrease in 50 BPS on DBO	1.59	(1.73)	1.20	(1.32)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(iii) The major categories of plans assets are as follows:

The plan asset for the funded gratuity plan is administered by Life Insurance Corporation of India ('LIC') & Aditya Birla Sun Life Insurance Company Limited (ABSLI) as per the investment pattern stipulated for Pension and Group Schemes fund by Insurance Regulatory and Development Authority regulations i.e. 100% of plan assets are invested in insurer managed fund. Quoted price of the same is not available in active market.

(iv) Risk Exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

Demographic Risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Asset volatility : The defined benefit plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. 100% of the plan asset investments is in insurer managed funds. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimise risk to an acceptable level.

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation.

Interest-Rate Risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Notes forming part of the Consolidated Financial Statement

as at and for the year ended March 31, 2025

(All amounts are in ₹ million, unless otherwise stated)

(v) Defined Benefit Obligations and Employer Contributions

The Group considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly.

Expected contributions to defined benefit plans for the year ending March 31, 2025 are ₹ 143.92 Million (Year ending March 31, 2024 ₹ 99.79 Million).

The weighted average duration of the defined benefit obligation is 3.06 years (March 31, 2024: 3.04 years). The expected maturity analysis of undiscounted gratuity is as follows:

Maturity Analysis of the Projected Benefit Obligations - Gratuity

Particulars	As at March 31, 2025	As at March 31, 2024

The Group has evaluated the impact of the Supreme Court (SC) judgement dated February 28, 2019 in case of "Vivekananda Vidyamandir And Others Vs The Regional Provident Fund Commissioner (II) West Bengal" and the related circular (Circular No. C-I/1(33)2019/Vivekananda Vidya Mandir/284) dated March 20, 2019 issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. In the assessment of the management the Group believes that the aforesaid judgement does not have material impact on the Group. The Group will continue to monitor and evaluate its position based on future events and developments.

Note 48 - Disclosure of operating leases under Ind AS 116

The Group rents out its equipment and flats (classified in investment property) on operating lease basis. These lease arrangements range for a period between one to eleven months and include both cancellable and non-cancellable leases. Most of the leases are renewable for further period on mutually agreeable terms. There are no contingent rents recognised as income in the period.

*Consolidation of entities with less than 50% voting interest

The management has concluded that the Group controls the below mentioned subsidiaries even though it holds less than half of their respective voting rights because :

- a. **For Norangdesar Solar Developer Private Limited and Rasisar Solar Developer Private Limited** - The terms agreed with other shareholder allows Group to acquire voting rights of 51% held by other shareholders at a price lower than fair value of shares in future (post receipt of Commercial Operations Date for the project). In addition to this, an agreement has also been entered into between the shareholders that grants H.G. Green Energy Private Limited (formerly known as H.G. Solar Projects Private Limited) the right to appoint, remove and set the remuneration of management responsible for directing the relevant activities.
- b. **For 11 UVSE Entities** - The terms agreed with other shareholder allows Group to acquire voting rights of 51% held by other shareholders at fair value of shares in future (post receipt of Commercial Operations Date for the project). The terms also provide for the Holding Company (or its subsidiaries) to approve the sale of stake by the Non Controlling Interest to any third person. In addition to this, an agreement has also entered into between the shareholders of these companies that grants H.G. Green Energy Private Limited (formerly known as H.G. Solar Projects Private Limited) the right to appoint all directors in the Board and the Chairperson for the Board of Directors whose final consent will be required for approval relating to business decisions.

**** hereinafter referred to as UVSE entities.**

(b) Non-controlling interests

In case of subsidiaries where the sole ownership of Holding Company is not made, the ownership held by the non controlling interest as at March 31, 2025 is not material to the Group.

Note 56 - Disclosure of operating leases under Ind AS 116

Leases as lessee

The Group has obtained premises (office, residential and Camp) and equipments taken on lease. The terms of lease include terms of renewals, increase in rent in future period, cancellation, etc. The agreements are executed for a period of 1 month to 27 years with a renewable clause and also provide for termination at will by either party giving a prior notice of 1 to 3 months at any time during the lease term. The Group classifies all the leases for period less than 12 months and leases of low-value assets as short term leases. Accordingly, they have been accounted for by applying paragraph 6 of Ind AS 116 - Leases and ₹ 57.88 Million (March 31, 2024 ₹ 59.08 Million) has been recognised as expense in consolidated profit & loss account.

As at March 31, 2024, the Group's management had assessed the conditions (as set out in SPA), the process undergoing for obtaining necessary approvals and likelihood of getting them together with timelines, and accordingly, classified its investments (including subordinated debt classified as equity investments) in H.G. Rewari Bypass Private Limited as "Assets held for sale" under current assets, in accordance with guidance available in Indian Accounting Standard (Ind AS) - 105 "Non-current Assets Held for Sale and Discontinued Operations".

Note 58 - Intra-Group turnover and profits on DBFOT construction contracts to be included in consolidated financial statements

Design, Build, Finance, Operate and Transfer (DBFOT) contracts on hybrid annuity method are governed by Service Concession Agreements with government authorities (grantor). Under these agreements, the operator does not own the road, but gets the "right to receive annuity" against the construction services rendered. Since the construction revenue earned by the operator is considered as exchanged with the grantor against the right to receive annuity, revenue is recognised at fair value of construction services rendered and profit from such contracts is considered as realised.

Members who have cast their votes by remote e-voting prior to the AGM may also attend/participate in the AGM through VC/ OAVM, but they shall not be entitled to cast their vote again. However, Members who have voted on some of the resolutions during the remote e-voting period are also eligible to vote on the remaining resolutions during the AGM.
- vi) In the case of joint holders attending the AGM, only such joint holders who are higher in the order of names will be entitled to vote at the AGM.
- vii) Members may note that the VC/ OAVM Facility, provided by MUFG Intime, allows the participation of at least 1,000 members on a first-come-first-served basis. The large members (i.e. Members holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the chairperson of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, auditors, etc., can attend the AGM without any restriction on account of first- come-first-served principle.
- viii) For the convenience of the Members and proper conduct of the AGM, Members can login and join at least 15 (fifteen) minutes before the time scheduled for the AGM. The facility to join the AGM shall be kept open throughout the proceedings of the AGM.
- ix) The Chairman shall, at the end of discussion on the resolutions on which voting is to be held, at the AGM, allow voting with the assistance of the Scrutinizer, by use of electronic voting for all those Members who are present at the AGM but have not cast their votes by availing the remote e-Voting facility.

- x) The resolution shall be deemed to be passed on the date of the meeting, subject to receipt of the requisite number of votes. The voting results shall be declared within 2 working days from the conclusion of the AGM. The declared results along with the report of the Scrutinizer, shall be placed on the website of the Company at www.hginfra.com and on the website of RTA <https://instavote.linkintime.co.in/> immediately after the declaration of results by the Chairman or a person authorized by him in writing and also displayed on the Notice Board at the registered office of the Company. The results shall also be immediately forwarded to BSE Limited and the National Stock Exchange of India Limited.
- xi) Members holding shares in physical form are requested to advise any change of address immediately to the RTA. Members holding shares in electronic form must send the advice about the change in address to their respective Depository Participant only and not to the Company or the RTA.

22. Dividend

- i) The Board of Directors has recommended a final dividend of ₹ 2.00 (Rupees Two Only) (@ 20%) equity shares of ₹ 10 each for the financial year ended March 31, 2025, subject to the approval of the Members at the AGM.

Pursuant to the provisions of Section 123 of the Companies Act, 2013, the payment of the final dividend on Equity Shares, upon declaration by the Members at the AGM, will be made on or before Wednesday, September 17, 2025 (i.e. within 30 days from the date of declaration), to those members whose names appear in the Register of Members/ list of Beneficial Owners as on Cut-off Date/ Record Date i.e. Tuesday, August 12, 2025.

- ii) Members holding shares in electronic form are hereby informed that bank particulars registered with their respective Depository Participants (DP), with whom they maintain their demat accounts, will be used by the Company for payment of dividend.
- iii) Members holding shares in physical/ electronic form are required to submit their bank account details, if not already registered or if it has changed, as mandated by the Securities and Exchange Board of India ("SEBI").

- iv) Shareholders holding shares in dematerialized mode are requested to register complete bank account details with the Depository Participant(s), and shareholders holding shares in physical mode shall send a duly signed request letter to RTA mentioning the name, folio number, bank details, self-attested PAN card and original cancelled cheque leaf. In case of the absence of the name of the first shareholder on the original cancelled cheque or initials on the cheque, bank attested copy of the first page of the Bank Passbook/ Statement of Account along with the original cancelled cheque shall be provided. The Company or its RTA cannot act on any request received directly from the Members holding shares in electronic form for any change of bank particulars or bank mandates. Such changes are to be advised only to the respective Depository Participant of the Members.
- v) In case the Company is unable to pay the dividend to any shareholders by electronic mode, due to the non-availability of the details of the bank account, the Company shall dispatch the dividend warrants/ demand drafts/ cheques to such shareholders by post.
- vi) In terms of the provisions of the Income Tax Act, 1961 ("the Act"), dividends paid or distributed by a company shall be taxable in the hands of shareholders. The Company shall, therefore, be required to deduct tax at source ('TDS') at the time of making the payment of the final dividend at the applicable tax rates. The rate of TDS would depend upon the category and residential status of shareholders and the documents submitted and duly accepted by the Company.

As it is important for the Company to receive the relevant information/ documents from shareholders to determine the rate of tax deduction, the shareholders are requested to furnish relevant documentation in a prescribed manner.

Accordingly, shareholders are hereby requested to visit the Company's website at <https://www.hginfra.com/annual-report.php> wherein we have provided complete information relating to TDS on dividends along with the draft of the relevant documents to be submitted by the shareholders.

The shareholders are required to upload the documents on the RTA portal at <https://web.in.mpms.mufg.com/formsreg/submission-of-form-15g-15h.html> on or before Wednesday, August 13, 2025 at 05:00 p.m. (IST). Incomplete and/ or unsigned forms and declarations will not be considered by the Company. Any communication on the tax determination/ deduction received post 05:00 p.m. (IST) on Wednesday, August 13, 2025 shall not be considered. All communications/ queries in this respect should be addressed to RTA at its email address at delhi@mufgintime.co.in.

Please note that the Company will not accept any declaration/ document sent to any email address. Kindly use the link provided above to upload declaration/ document.
