Encl: As above.

Highway Infrastructure Limited Secures Rs. 220.66 Crore Toll Operations

Contract of 2 years for Gorakhpur Link Expressway

Madhya Pradesh, India 18 September 2026: Highway Infrastructure Limited (HIL) is an integrated infrastructure platform with established capabilities across Tolling, EPC, and Real Estate, is pleased to announce that it has received a **Letter of Acceptance (LOA) from the Uttar Pradesh Expressways Industrial Development Authority (UPEIDA) for toll collection and allied operations on the Gorakhpur Link Expressway.**

The contract covers the collection of user fees and operation of toll plazas, along with the deployment of four patrol-cum-safety vehicles with the required personnel. It has been awarded for an initial period of two years, with a provision for extension of up to six months at UPEIDA's discretion.

The total contract value for the two-year period is Rs. 220.66 crore. The amount payable for the first year is Rs. 105.08 crore, followed by a 10% escalation in the second year. This win strengthens HIL's tollway collection portfolio and expands its footprint across India's growing expressway network.

The Gorakhpur Link Expressway represents a transformational infrastructure initiative for Eastern Uttar Pradesh, enhancing regional connectivity, improving logistics efficiency, and unlocking new opportunities for trade, industry, and investment. By integrating key economic corridors, the expressway is expected to accelerate economic activity and support sustainable development across the region.

Speaking on the development, Mr. Arun Kumar Jain, Managing Director, Highway Infrastructure Limited said: "We are pleased to secure the Rs. 220.66 crore tollway collection contract from UPEIDA. This significant order win enhances our medium-term revenue visibility and demonstrates HIL's ability to execute large-scale toll management mandates. It further strengthens our credentials to pursue larger, higher-value projects while expanding our toll operations footprint across key highway and expressway corridors. Alongside scaling our operations, we continue to invest in developing proprietary technology solutions aimed at improving toll collection efficiency, transaction accuracy, and operational effectiveness. With our growing scale, proven execution capabilities, technology-led approach, and diversified operating footprint, HIL is well positioned to capitalize on emerging opportunities in India's expanding road infrastructure sector."

About Highway Infrastructure Limited

Incorporated in 2006, Highway Infrastructure Ltd is a leading infrastructure development and management company with diversified operations across tollways collection, EPC projects, and real estate. Operating across 11 states and 1 Union Territory, the company leverages advanced technology for efficient toll operations and high-quality project execution. Guided by an experienced leadership team led by Mr. Arun Kumar Jain, Highway Infrastructure has built a strong track record of project delivery and operational excellence. With a robust order book and a growing project pipeline, the company is strategically positioned to capitalize on emerging opportunities in India's infrastructure and urban transport sectors.
