Hikal Signs Multi-Year Global CDMO Contract with Leading Agrochemical Company

Contract follows successful Process Development and scale-up of a new product, marking a key commercial milestone for Hikal's Crop Protection business

Mumbai, November 2, 2026: Hikal Limited (BSE: 524735 | NSE: HIKAL) has signed a multi-year contract with a Europe-based global agrochemical company to supply a specialised agrochemical product to markets worldwide. The contract, signed by Hikal's Crop Protection division, covers contract development and manufacturing (CDMO) of the product for which Hikal undertook process development and scale-up. Commercial launch is expected towards the end of FY 2026–27, with volumes anticipated to grow progressively as regulatory approvals are secured across global markets.

The partnership underscores Hikal's capabilities in process development and commercialisation, demonstrating its ability to translate customer requirements into long-term manufacturing opportunities. It also strengthens Hikal's Crop Protection business by expanding its portfolio of specialised offerings for global customers.

Commenting on the development, **Mr. Sameer Hiremath, Chairman & Managing Director, Hikal Limited, said:** "This contract marks an important milestone for our Crop Protection business, converting nearly three years of collaborative development and scale-up into a long-term commercial partnership. It demonstrates Hikal's ability to combine deep technical expertise with reliable manufacturing capabilities to take complex products from development to commercial supply. We are well positioned to support the planned launch and progressive expansion of supplies across global markets.

Hikal partners with global companies across pharmaceuticals, crop protection, animal health and specialty chemicals, leveraging its research and development, process chemistry and manufacturing capabilities to support customers from development through commercial production.

About Hikal Limited

Established in 1988, Hikal is a reliable partner to companies in the Pharmaceutical, Animal Health, Biotech, Personal Care and Specialty Chemical industries. We manufacture and supply quality Active Ingredients, Intermediates, Biocides to the global life sciences industry. Hikal has five manufacturing facilities in India at Maharashtra (Taloja and Mahad), Gujarat (Panoli) and Bengaluru (Jigani) and a world-class Research & Technology centre at Pune. Our facilities have been inspected and certified by the Global Regulatory Authorities. We create and deliver sustainable solutions for our partners and customers across the life-sciences value chain.

Hikal believes in inclusive growth that embraces all constituents. Hikal is one of the first Indian life-sciences companies to receive the Responsible Care® certification and has also been awarded the EcoVadis Gold Medal rating, placing it among the top 5% of companies assessed globally for sustainability performance. We accord top priority to the health and safety of our employees by adopting best practices in manufacturing.
