Hirect Secures Order from the United States for IGBT Converters for the Mining Industry

Hirect has secured an order from the United States for **IGBT Converters** for the Mining Industry.

The order marks the Company's entry into the mining segment, where power electronics are required to operate in demanding environments with stringent requirements for robustness, reliability and uninterrupted performance. It reflects the company's engineering and manufacturing capabilities in delivering high-performance power electronic solutions for specialized industrial applications.

The order is aligned with the Company's long-term strategy of expanding its international business. Hirect will continue to pursue opportunities across global markets, supported by its engineering expertise and manufacturing base in India.

About Hirect Limited (Formerly known as Hind Rectifiers Limited):

Hirect Limited was established in 1958 in partnership with Westinghouse, Brake & Signal, UK, it has grown over the past 66 years to become a major player in the engineering and manufacturing sectors. HIRECT operates with a workforce of 950 employees spread across two manufacturing plants located at Nashik and Bhandup in India. The company exports its products to over 30 countries and has offices located in India, Sweden, and the UAE.

HIRECT is renowned for designing and manufacturing a wide range of power electronics equipment, including Power Converters, Control Electronics, Transformers, Rectifiers, Inverters, Motors, and HVAC systems. These products serve a variety of sectors, including Railways, Defence, and industries such as Power, Hydrogen, Steel, Cement, Chemical, and Paper, among others. The company is recognized for its quality and innovation in providing solutions for both industrial and transportation applications.
