Subject: Disclosure under Regulation 30 of SEBI (LODR) Regulations, 2015 – Advisory to Investors and Stakeholders regarding Fake Website Impersonating HMA Agro Industries Limited.

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform the exchanges and the public at large regarding the detection of a fraudulent website mimicking the official identity of HMA Agro Industries Limited.

1. Identification of Fraud:

It has come to our notice that an unscrupulous entity has created a fake website with the URL www.hma-agro.com. This fraudulent site has illegally copied the content, logo, brand identity, theme, and color schemes of our official website: www.hmagroup.co.

2. Intent and Impact:

The fake website was designed to mislead our international buyers and stakeholders by impersonating our status as a Five Star Export House. We believe this was a deliberate attempt to defame the company and potentially defraud our customers through unauthorized communication and fake email IDs.

3. Action Taken by the Company:

The Company takes the security of its stakeholders very seriously and has initiated the following actions:

Legal Action: A First Information Report (FIR) has been lodged with the Cyber Cell/Police authorities.

Website Takedown: We have successfully coordinated with the relevant domain registrars and authorities to have the fraudulent website blocked.

Caution to Stakeholders:

We hereby clarify that the Company is not associated with the aforementioned fake website or any email addresses linked to it.

4. Advisory to Customers/Buyers:

We urge all our buyers and partners to interact only through our official website (www.hmagroup.co) and verified official email domains. Do not share any sensitive information or process payments based on communications from the fraudulent URL.

You are requested to take the above intimation on record and acknowledge the receipt.

Thanking You

Yours Faithfully,

For HMA Agro Industries Limited
